In 1965, Colombia exported just $20,000 worth of flowers to the United States. Today, these exports total nearly $600 million. The flower industry generates 75,000 direct jobs in Colombia, jobs that offer year-round stability and health and retirement benefits, not to mention a legitimate economic alternative to elicit drug production.

The Colombian industry also directly generates 7,000 U.S. jobs. Indirectly, even more jobs are created, with U.S. supermarkets employing more than 24,000 people in their flower departments, and U.S. flower shops employing nearly 125,000 people.

We also have substantially increased our exports to the Andean region. Under ATPA, our exports have gone up by 84 percent, to $6.6 billion in the year 2000.

Despite these gains, ATPA must be expanded. NAFTA and the Caribbean Basin Initiative have changed the playing field and have created a competitive disadvantage for Andean countries. For example, most Caribbean apparel enters the United States duty free, while Andean apparel enters with a 14-percent duty. We also must remember that ATPA is about more than just trade. This is an issue of national security.

The stability of the Western Hemisphere is at stake. Open markets are absolutely vital for developing nations to overcome poverty and create opportunity. Fragile economies place peace and democracy at risk.

With aid, with trade, and with democracy, we can foster peace among our neighbors. It is in our national interest to pursue an aggressive trade agenda in the Western Hemisphere, to combat growing threats and promote prosperity. Free markets and open trade are the best weapons against poverty, against disease, against tyranny and, yes, against the drug dealers.

For example, if Africa, Asia, and Latin America were each to increase their share of world exports by just 1 percent, it would lift 128 million people out of poverty, with all the consequences that would have. Tariff barriers on products from the Third World are more than four times higher than those encountered by richer nations. Such barriers cost poor countries approximately $100 billion a year. That is twice as much as these nations receive in foreign aid. Tariff barriers on products from the Third World are more than four times higher than those encountered by richer nations.

Mr. President, I urge my colleagues to join me in support of renewing and expanding the Andean Trade Preference Expansion Act. It is the right thing to do for our neighbors and for our businesses at home. It is the right thing for our country.

HIV/AIDS IN OUR HEMISPHERE

Mr. DEWINE. Mr. President, I want to take a moment to discuss a critically important issue in our hemisphere—the growing problem of HIV/AIDS in the Caribbean and Latin America.

Today, there are an estimated 420,000 individuals living with HIV/AIDS in the Caribbean, and another 1.4 million living with the disease in Latin America. In Haiti alone, roughly 1 out of every 10 people has HIV/AIDS.

Yet despite these staggering numbers and despite the fact the highest prevalence of HIV/AIDS—outside of Sub-Saharan Africa—exists right in our own backyard, this region of the world is often forgotten, and the people who suffer there because of AIDS are often forgotten. While, understandably, much attention has been focused on the great tragedy caused by the disease in Sub-Saharan Africa—and we should never forget it—I think it is also important that we also focus our efforts on combating this disease in our own hemisphere.

That is why I want to call attention to a historic, day-long meeting held just last week in Georgetown, Guyana. While it received very little attention in the media, on April 20, senior U.S. and Caribbean health officials, including Health and Human Services Secretary Tommy Thompson, met in Guyana to sign a new Pan-Caribbean agreement against HIV/AIDS.

I commend Secretary Thompson, Secretary Powell, and President Bush for their leadership and follow through in making this vision a reality. Last week's meeting and subsequent agreement represents an unprecedented new partnership to fight the disease in the region. As part of this new agreement, the U.S. and Caribbean nations have pledged to improve collaborative efforts to make sure people living with HIV/AIDS, and those at risk, have good access to prevention and treatment services. As Secretary Thompson said:

> This will be an equal partnership—a sharing of technical know-how and experiences.

As part of this partnership, Secretary Thompson has pledged greater in-country collaboration with officials from the Centers for Disease Control and Prevention, and the Health Resources and Services Administration. These efforts will complement recently announced initiatives by the U.S. Agency for International Development to provide almost $162 million in new funding over the next 5 years to help countries in the Americas and worldwide expand HIV/AIDS prevention, patient care, and HIV/AIDS mitigation programs. This is in addition to the $20 million the United States is currently providing in HIV/AIDS funding to Latin America and the Caribbean under the Bush administration's Third Border Initiative. These are all important steps in the right direction toward developing an integrated approach to combat this devastating disease.

I urge my colleagues to share my support for these initiatives and to work with me to secure greater U.S. contributions for these international efforts in the future—through the Global Fund to Fight AIDS, as well as other bilateral assistance programs.

To borrow Secretary Colin Powell's words:

> Our response to this crisis must be no less comprehensive, and no less relentless, than the AIDS pandemic itself.

Mr. President, this is something that we need to work harder on in the United States, in Africa, in the Caribbean, and throughout the world—wherever people suffer from AIDS. I thank the Chair, and I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. CARPER). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ANDEAN TRADE PREFERENCE ACT—MOTION TO PROCEED—Continued

Mr. DORGAN. Mr. President, I want to speak about fast-track trade authority, which is now known by the euphemism "trade promotion authority."

Before I do that, I want to talk for a moment about what is happening with respect to trade with Cuba. Since we are on the subject of trade, there is something happening with Cuba about which I believe I must alert the Senate.

As you know, a wide majority in both the U.S. Senate and the House has agreed that we should not use food as a weapon and that the 40-year embargo with Cuba—at least with respect to food and medicine—should be loosened. So by a vote of the House and of the Senate, we are now able to sell food to Cuba.

Yet under current law, the Cubans are not allowed to purchase food from the United States on credit. They cannot borrow from a private lender. They must pay cash. Following the hurricane in Cuba, Cuba is buying American grain and agricultural products to the tune of $70 million, but they have to pay cash and run the transaction through a French bank in order to buy commodities from American farmers. This is just bizarre.

The head of a group called Alimport, which is the organization in Cuba that purchases food for the Cuban Government, was invited to this country by farm leaders. His name is Pedro Alvarez. He was intending to come here—including to my State of North Dakota—and asked for a visa to do that. He was intending to purchase additional food from our country—and to pay cash. A visa was granted, but then the State Department abruptly reversed course and decided to revoke the visa. The State Department said: No, we don't want somebody from Cuba coming in to buy food or commodities from American farmers. When we called the State Department to ask them why they decided to revoke the visa to have the head of Cuban imports come into this country, they said: It is not our policy to encourage the sale of food to Cuba.

Now, I find it just byzantine that our State Department would say: No, we don't want the head of the Cuban agency that purchases agricultural commodities to come to our country to purchase those commodities and, therefore, we will revoke his visa.

When will those who take that position wake up and understand that using food as a weapon is merely shooting ourselves in the foot?

I have now written a letter to Pedro Alvarez in Alimport and said: I am inviting you to this country; a U.S. Senator is inviting you to this country. I would like you to come to America; I would like you to come to North Dakota; come to North Dakota and buy wheat from our wheat farmers and buy dried beans from those who plant dried beans.

I wrote a letter to the State Department saying: You have a responsibility to give these people visas to come here.

I do not know what on Earth the State Department is thinking. I have talked to someone at the State Department who indicated that the matter is being reviewed. I said: Can you tell me who decided to revoke the visas? Who decided that farmers in America should be the victims of this foreign policy nonsense? Who was it? Who made the phone calls? I want to know who said that this is political, this isn't trade policy, and the politics persuade us we ought to revoke visas from someone from Cuba who wants to come to this county and buy wheat, dried beans, apples, and other commodities from the United States.

I just do not understand why we have people in this country who still think that way. We ought never use food and medicine as a weapon. We have done it for 40 years with respect to Cuba. We can sell food to China. That is a Communist country. We can sell food to Vietnam. That is a Communist country. But for 40 years we have said no, you cannot sell food to Cuba.

We loosened that restriction. Cubans can now buy our food, and now we have the spectacle of the State Department deciding to revoke visas they already approved for people from Cuba who want to come to this country and buy from American farmers. That is unfair to our farmers. It is another embargo.

Cuba bought $1 billion worth of food last year. The Europeans are selling food to them, and the Canadians are selling food to them. We have sold them some now, but judging by the behavior of the State Department, it appears they do not want us to sell food to Cuba, despite the fact the Congress has already made the judgment that such sales should be lawful.

I intend tomorrow to press this case once again at the State Department, and I hope they will change their mind and make a rational decision, one that is in concert with what the Congress has already decided, both the House and the Senate.

Let me turn to the trade issue of fast track for a few moments. I see some colleagues in the Chamber who wish to speak. I will not speak as long as I had intended. They will want the opportunity to have a portion of this time as well.

Let me quickly put up a chart showing an excerpt from "Inside U.S. Trade," a publication on international trade. It quotes U.S. Trade Representative Zoellick speaking to a business group in Chicago. Mr. Zoellick described lawmakers and lobbyists who oppose a trade promotion authority bill sponsored by House Ways and Means Committee Chairman BILL THOMAS as "xenophobes and isolationists."

The Trade Ambassador says those who oppose fast track are xenophobes and isolationists. This really fits the way this thoughtless debate always plays out on trade. Instead of it being a thoughtful debate about what America's real trade policy ought to be to benefit this country, it turns quickly into a thoughtless debate by those who say there are only two sides: Those who support free trade, globalization, expanded trade, and have a world view that will allow them to see well over the horizon and understand the world much better than others, and those who are just xenophobic, isolationist stooges. That is how this debate is characterized: Those who think and those who do not.

There is an old saying: You ought not ever buy anything from somebody who is out of breath. There is a kind of breathless quality to this debate about fast track: It just has to be fast track; if it is not fast track, we cannot pursue international trade agreements.

That, of course, is total nonsense. We did not give Bill Clinton fast track when he was President. I did not support giving him fast-track trade authority when he was President, and I do not support giving George W. Bush fast-track authority either.

Yet in the Clinton Presidency they did negotiate trade agreements. How did they do that? They do not need fast track to negotiate trade agreements. Fast track is simply a mechanism by which the Congress says: Wait a minute, before you negotiate in secret the next trade agreement, let us handcuff our arms behind our back; please let us do that; then you negotiate in secret; and when you come back, we wear handcuffs so we will not be able to offer even one amendment to this trade agreement you have negotiated in secret. That is what fast track is.

There are a good many Members of Congress who sign up. I do not know, there is some kind of masochistic urge in trade, I guess, to say: Let's do this, let's tie our hands, and then allow someone else to negotiate in secret.

Here is what the Constitution says about the Congress. Article I, section 8, says:

> The Congress shall have Power . . . To regulate Commerce with foreign Nations. . . .

It does not say the President. It does not say the U.S. Trade Ambassador. It does not say some unnamed trade negotiators. The Constitution says:

The Congress shall have Power—

The word is "power."

> The Congress shall have Power . . . To regulate Commerce with foreign Nations. . . .

In recent decades—three decades, in fact—we have had Presidents negotiate just five trade agreements under fast track: GATT, United States-Israel, United States-Canada, NAFTA, and the WTO.

I want to show a chart showing the effects of one of these agreements. We gave fast-track trade authority to negotiate a trade agreement with Canada and Mexico. Prior to that, we had a small trade surplus with Mexico. Of course, after this agreement was done, it turned into a huge deficit. Prior to that, we had a modest deficit with Canada. After a trade agreement was negotiated with Canada, the deficit exploded. We turned a trade relation with Mexico that was a positive relationship into a negative relationship, and with Canada we had an explosion of the deficit.

I thought it would be interesting to take a look at a chart that showed what happened to our trade deficits through all of these trade agreements. Every time we have another agreement, the trade deficit goes up, up, and way up.

One might ask: What is the difference? The difference is this line means jobs in this country, good jobs, manufacturing jobs, and this line suggests an erosion of the manufacturing sector in this country.

Under fast-track trade authority, which Congress has given to some Presidents, the major export has been jobs. The Economic Policy Institute suggests somewhere over 3 million jobs have been lost comparing prior to NAFTA and WTO and after NAFTA and WTO.

Some say: This is just a global economy, and let's just move goods everywhere, and whatever happens happens. They ignore the fact that in this country, we have had people fight in the streets, we have had people killed in the streets for the right to form unions. We had people take to the streets to demand fair and safe workplaces. We had people marching in the streets in this country dealing with child labor laws. For 75 and 100 years, we have confronted all of these tough issues in the United States, and we have created an environment in which an employee has to have a safe workplace, be paid a decent wage, a business cannot hire kids, cannot dump pollutants into the stream and the air, and employees have a right to organize as a labor union.

Economists always remind us of the importance of comparative advantage in determining what country gets to produce what products. But should child labor be a comparative advantage in trade? The legal minimum age for child workers in Peru is 12 years old.

When someone takes the product of a 12-year-old, who works 12 hours a day and is paid 12 cents an hour, and ships it to Pittsburgh or Los Angeles or Denver or Fargo, and puts it on the store shelf, is that fair trade? Is that what we want American workers to compete with?

There are 3 million workers in Brazil under the age of 15. Fair competition? Or how about people making shoes for 24 cents an hour in Indonesia? Fair competition?

People say, well, America has to become competitive. Competitive with what? With 12-year-old kids making 12 cents an hour or 24 cents an hour? Is that the marketplace in which we describe fair trade competition?

Before we pass fast track, I would like to see a little bit of progress by our trade officials to solve a few problems they have created recently. I am not asking for the Moon. I am saying before they run off and, under fast track, negotiate new trade agreements, how about doing something that stands up for this country's economic interests? How about solving a few problems that have been created in past trade agreements?

I will talk first about Canadian wheat because that is a huge problem for my state of North Dakota. We had a trade agreement with Canada. We allowed Canada to sell its wheat through a sanctioned monopoly called the Canadian Wheat Board, which would be illegal in this country. It then sends an avalanche of unfairly subsidized Canadian grain into this country, taking money right out of the pockets of our farmers. It goes on year after year in a relentless way and no one stops it. Why? Because the remedies to stop unfair trade have been emasculated in our trade agreements.

We were promised with the U.S.-Canada free trade agreement that this would not happen, but it did. It not only happened and an avalanche of unfairly traded Canadian grain came down injuring our farmers, but when we got to the bottom of it, we found out that our trade ambassador entered into a secret side agreement with Canada, and our negotiators refused to tell the truth about it even in a committee hearing in the U.S. House of Representatives when asked directly about it.

This is what has happened with Canadian wheat exports in the United States and U.S. wheat exports to Canada: a pail versus a thimble, but that pail represents serious damage to U.S. farmers.

There are some other trade problems. I have spoken at great length about beef in Europe. We have not been able to get most U.S. beef into Europe for 10 years because they say we use beef hormones. They portray our cows as having two heads over in Europe.

We took Europe to the WTO, the World Trade Organization. We took our case to the WTO and we won. The WTO said, yes, Europe is wrong so you can go ahead and exact some penalties with respect to Europe.

Do you want to know what we did? We were upset that Europe would not allow our beef in. We went to the WTO. The WTO said, yes, Europe is guilty. So the United States says, all right, what we are going to do is we are going to retaliate. We retaliated against European shipments to the United States of goose liver, truffles, and Roquefort cheese. Now that is enough to scare the devil out of an opponent; is it not? A trading partner like Europe, we say they better watch it; we are going to slap them with goose liver, truffles, and Roquefort cheese? What kind of remedy is that? When Europe was upset about the recent steel decision, they said, we are going to respond with tariffs on U.S. steel, textiles, and citrus products.

How about Korean automobiles? Maybe we could ask our trade ambassador to fix that. I have gotten several letters from Korea recently because I have been talking about their automobile industry. Last year there were 618,000 Korean automobiles shipped into the United States, Daewoos and Hyundais, into our marketplace. That is fine with me, but do you know how many U.S. automobiles were shipped into Korea? We were able to sell 2,800 U.S. cars in Korea. For every 217 Korean cars sold in the U.S. marketplace, we were able to sell one in the country of Korea. Why? Because Korea does not want U.S. cars in the marketplace. It is very simple.

Is there somebody who will stand up and say this is unfair trade? Because, after all, this represents a loss of good manufacturing jobs in our country, when there is that kind of trade imbalance.

Is there someone who will fix that problem? The beef problem with Europe? The grain problem with Canada? Or how about wheat flour to Europe? Or eggs? Let me use eggs as an example. We cannot get American eggs in the European marketplace. Do you know why? Because American eggs are washed. They will not allow washed American eggs into the European marketplace. So we do not have a market for American eggs. Pork chops to China, T-bone steaks to Tokyo—I will speak tomorrow at much greater length about a range of these issues.

I ask this question: Mr. President and Mr. Trade Ambassador and others, you are so anxious to go negotiate a new trade agreement. How about solving a few of the trade problems that have been created?

Brazil sends sugar to Canada. It is loaded on molasses, liquid molasses, and sent into the United States. Molasses becomes the carrier for sugar that could otherwise not enter under U.S. law. They ship it down into Michigan, offload the sugar, send the molasses back to get another load of Brazilian sugar to Canada, fundamentally undercutting our sugar program. In my judgment, it is an abrogation of fair trade. It has been going on for years. Yet you cannot get anybody to do anything about it.

In the legislation that is going to come up on trade adjustment assistance, I believe that the molasses problem is being addressed by some concerned members of the Senate. But the point is that we have chronic trade issues and that administrations do not do enough about these problems.

We have an enforcement division down in the Commerce Department. We have some enforcement in USTR. I have not seen the statistics lately, but do you know how many people we have dealing with China and Japan? We have eight people enforcing trade agreements with Japan, a country with which we have a $60 billion to $70 billion trade deficit, and they cannot even tell us what the agreements are that we have with Japan, let alone tell us whether they are enforcing them.

This country does not do right by its producers, farmers, manufacturers, and others in the area of international trade. So we are now requested by this administration to give them fast-track authority so they can negotiate another agreement somewhere in the world. I say that we ought not give fast-track authority. I would not support it for President Clinton. I do not support it for this President.

I think it is time for us to stand up for this country's economic interest. No, not build a wall, not keep goods out of our country. This is not about isolationism. This is about standing up for this country's manufacturing sector and its workers, saying that we will compete any time, anywhere, as long as the conditions of competition are fair, but we demand fair trade.

One final point: I started by talking about Cuba. The revocation of the visas that I described is about politics. It is not about trade policy. It is about pointy-headed foreign policy.

For the first 25 years after the Second World War, our trade was almost all foreign policy. We could compete anywhere in the world with one hand tied behind our back. We were the biggest, the best, and the strongest. In the second 25 years, things have gotten tougher. Our competitors are shrewd, tough, international competitors, and it is time that our foreign policy stop being the dominant force in trade policy. It is time our country stand up for its own economic interests and demand fair trade. We ought to do that before we embark on any notion about fast-track authority for any President. That is in the best interest of this country, in my judgment.

I see my colleague from Iowa is in the Chamber. I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, President Clinton used to brag—and I think correctly—during the years he was President that some 20 million jobs were created during his Presidency. Those are statistics that speak for themselves.

In regard to this debate before the Senate, President Clinton said about one-third of the jobs were created because of international trade. Quite obviously, the last Democrat President talked about the importance of trade. Jobs are created by trade. Those are jobs that pay very good wages—13 to 18 percent higher than the national average. It is estimated 1 in 10 Americans, 12 million people, are employed in jobs related to goods and services.

The important issue of trade promotion authority is before the Senate. It has worked, as has already been correctly stated. Presidents since President Ford have periodically have had trade promotion authority. It has led to trade agreements passed by Congress. They are now the law of the land.

When it was pointed out—correctly—that Congress has the power to regulate interstate and foreign commerce, that is very true. But remember that Congress does not have the ability to negotiate with other countries—particularly 144 countries in the World Trade Organization—in a way that could be considered an expeditious way of reaching an agreement.

We form a sort of contract with the President of the United States. This is not just for Republicans and Republican Presidents. Republicans in this body tried to form such a contract with President Clinton in the last administration, but his own party would not let him have this authority. Trade promotion authority is a type of contract between the Congress and the President of the United States in which the President, in very precise ways, is given the authority by Congress to agree, on the part of Congress, with goals that will be pursued at the negotiating table.

This legislation will help achieve those goals. It establishes a format for Congress to be consulted by the President of the United States in every step of that process. Congress reviews the agreement that the President brings it back. We have the last say. If we do not pass it, it does not become law, and there is no agreement, no matter how much the President negotiated with 143 other countries to bring that agreement back to Congress.

We in Congress do not see trade promotion authority as Congress giving away all its power over international trade to the President of the United States. Not at all. We cannot do that without amending the Constitution. We don't intend to amend the Constitution to do that.

However, trade promotion authority is a type of contract with the President of the United States to negotiate for us because the Congress of the United States, as the legislative arm of our Government, is not capable, with 535 men and women, of negotiating with 144 other countries in the World Trade Organization, or with another 30-some countries in the Western Hemisphere if you are talking about regional FTAA trade negotiations, or even on a bilateral basis negotiating with Chile or with Singapore, which are in process now.

We want our President to be credible at the negotiating table. When the President has Trade Promotion Authority, other countries, negotiating with the United States, know the President is a credible negotiator.

We have been told the United States loses so much when we negotiate. We don't lose anything when the rest of the world's tariffs are way up here and ours are much lower; we cannot go much lower. When we bring foreign tariffs down, even if we bring them just partway down and not down to our low level, it is a win-win situation for the United States.

I quote Harvard economist Jeff Frankel, estimating that the economic benefits of a successfully completed new round of WTO trade negotiations would mean $7,000 per individual or, as we measure in this country, the unit of the family, about $28,000 for a family of four. This estimate was even backed up by Chairman of the Federal Reserve Board, Alan Greenspan. He said before the Senate Finance Committee when he testified last year on the importance of trade promotion authority to the President, that the estimates made by Jeff Frankel, were very credible estimates.

As just one example of the advantage of a trade agreement to the United States, look at Caterpillar, located in several countries around the world, but with its main operation in the United States. The corporate headquarters is in the United States. I have an example of a $187,000 Caterpillar, model 140H, a motor grader tractor, made in America. If shipped to Chile, it is slapped with $13,090 in tariffs and duties, or 7 percent of the tractor's cost because we do not have a free trade agreement with Chile.

That same tractor can be made in Brazil by a Caterpillar plant in Brazil and shipped to Chile with only a $3,740 tariff because Brazil has some trade agreements with Chile. Obviously, not a free trade agreement but some agreements that reduce the tariff from 7 percent on a tractor made in the United States to 2 percent.

If that same tractor is made in Canada, because Canada has a free trade agreement with Chile, there are no tariffs whatsoever on that Caterpillar motor grader tractor made in Canada.

We have to ask ourselves, as Senators for the entire United States, would you not rather have the Caterpillar tractor made in America and shipped to Chile than have it made in Canada or have it made in Brazil and shipped to Chile?

This decision is a no-brainer, Mr. President. We have seen so much advancement in the rural economy since the process of reducing tariffs worldwide. Originally called GATT, now called the World Trade Organization process, WTO for short, that process has been going on since 1947. We ought to be satisfied with what world trade has done for America, that it is good for America, it is good for the world, and that if we are going to be in this business of having America's leadership continue as it is in the war against terrorism, but more based upon our military prowess than anything else, but backed up by economic strength, it seems to me if the President of the United States can have trade promotion authority and continue to be the leader in reduction of world tariff trade barriers and nontariff trade barriers, as the United States has been between 1947 and 1994 when the authority ran out, we are going to have an additional advantage—an additional tool for world leadership to use in pursuing peace sooner.

The other side of the coin is that if you are going to have an expanding world population—which we all know is underway and is going to be underway for decades to come—you cannot have stagnant world economic growth. More people with less material goods are only going to lead to social instability, political instability, and the opposite of world peace.

An expanding world economic pie can only come through the reduction of trade barriers, and that only comes through this process of global trade liberalization that in the WTO. That is the only way we are going to have an expanding world population with more people having more material goods, more prosperity, and more social stability and political stability as well, and the peace that will come with it.

Even though during these weeks of debate on trade promotion authority we are going to be talking about its economic benefits, and some other people will be talking about the economic harm they see coming from trade promotion authority, from my perspective it is not just an economic issue. It is also an issue of expanding the world economic pie for social stability, political stability, and eventually world peace.

Mr. President, I support cloture on the motion to proceed on one of the four trade bills that will be before the Senate in the next several weeks. The one before us is the Andean Trade Act. This vote is far more than a vote on cloture on the motion to proceed on the Andean bill. In the next few days, starting with and moving beyond this vote, we may finally take up other trade bills: trade promotion authority, trade adjustment assistance, the Generalized System of Preferences, or GSP, and trade adjustment assistance.

This vote is in reality a referendum on the future leadership of U.S. trade policy. After months of delay, it is finally a long overdue acknowledgment of the Senate's important constitutional and political responsibility for U.S. trade policy. As such, today is the start of the most important legislative period on the Senate floor for America's trade policy since trade negotiating authority for the President lapsed in April 1994.

It was in 1994 when a critical ingredient of American global leadership in trade policy was lost, trade promotion authority. As a result, in the last 8 years the United States has been severely handicapped in its ability to conduct major trade negotiations. Yes, we recently concluded a free trade agreement with Jordan and we have started Free Trade Area of the Americas negotiations. That is the Western Hemisphere regional free trade zone. We also have bilateral free trade negotiation going on with Singapore and with Chile right now.

We have been involved with three agreements in the last 6 years. The rest of the world has adopted 130 or more preferential trade agreements; 127 of which we were not a party to. That damages America's trade interests.

The European Union has 27 preferential or special customs agreements with other countries and is negotiating 15 more. Our international competitors, then, are clearly not waiting for the United States of America while they negotiate and while we get our act together. We have been, for about 6 years now, maybe 8 years, trying to get our act together.

The lack of trade promotion authority is already affecting our effectiveness at the negotiating table in the Western Hemisphere negotiations called the Free Trade Area of the Americas. I recently commissioned a General Accounting Office study on the status of the Free Trade Area of the Americas negotiations. They found the Western Hemisphere participants believed that the absence of the President's trade promotion authority has thwarted the negotiations to the extent that some countries are not willing to make the necessary concessions to move negotiations forward.

This lack of progress of the Free Trade Area of the Americas has enormous economic consequences for the United States. We currently sell less than 8 percent of our exported goods south of Mexico's southern border—meaning Central and South America.

In terms of competitiveness in exports, we are underperforming in our own hemisphere. A successful conclusion to the Free Trade Area of the Americas talks will help us catch up, but the President needs trade promotion authority to make that happen.

The United States is currently pursuing new World Trade Organization negotiations with 143 other nations in Geneva. These negotiations are, right now, underway. Our negotiators are meeting with their counterparts in Geneva almost as we speak to try to hammer out procedures for addressing the major issues in these important negotiations, issues such as market access for America's farmers and ranchers for all of our agricultural products. They are all on the table, but without trade promotion authority, our negotiators have one hand tied behind their backs. That is something that before this debate is over I hope I can convince the Senator from North Dakota of—who spoke previous to me—that it is very important not to negotiate from a position of disadvantage.

Right now, without trade promotion authority, do not have credibility at the negotiating table. We need credibility to set the agenda and to influence the scope and timing of these talks.

Without trade promotion authority, our foreign competitors will have the upper hand. They will determine the scope and the timing of the World Trade Organization negotiations to their advantage—obviously not to the advantage of the United States.

Last Friday the Agriculture Coalition for Trade Promotion Authority, which represents more than 80 food and agricultural groups, sent a letter to congressional leaders. It was signed by 29 university agricultural economists. I will read from a portion of that letter:

> . . . There is an important political dimension in all trade negotiations, and without trade promotion authority, the ability of the United States negotiators to press for agreements on our terms and our agenda will be fatally weakened. . . . Trade Promotion Authority is an indispensable tool that U.S. trade officials need now to keep U.S. agriculture on the path of prosperity and long-term economic growth.

The individuals who signed that letter are some of the most distinguished agricultural economists in our country. I am sure some of my colleagues would recognize their names. I hope we hear their message very clearly. I am suggesting it is wrong not to act on their advice.

I ask unanimous consent that entire letter be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TPA COALITION COMMENDS LETTER TO CONGRESSIONAL LEADERS FROM PROMINENT AGRICULTURAL ECONOMISTS

The Agricultural Coalition for Trade Promotion Authority today commended the 29 university agricultural economists who signed a letter in support of TPA that was sent Friday to Congressional leaders. The letter, which will go to every House and Senate member today, points out that without trade, the U.S. farm economy would be in a desperate situation and that without TPA, "the ability of U.S. negotiators to press for agreements on our terms and our agenda will be fatally weakened."

Following is the text of the letter. The Agriculture Coalition for TPA includes more than 80 food and agriculture groups dedicated to the passage of legislation granting the president Trade Promotion Authority. It is co-chaired by the National Pork Producers Council and Farmland Industries.

APRIL 26, 2002.

Hon. THOMAS A. DASCHLE,
U.S. Senate,
Washington, DC.
Hon. TRENT LOTT,
U.S. Senate,
Washington, DC.
Hon. RICHARD A. GEPHARDT,
U.S. House of Representatives
Washington, DC.
Hon. J. DENNIS HASTERT,
U.S. House of Representatives
Washington, DC.

DEAR SENATOR DASCHLE, SENATOR LOTT, REPRESENTATIVE GEPHARDT, AND MR. SPEAKER: We, the undersigned agricultural economists from the nation's agricultural colleges, universities and research institutions, strongly support trade negotiations to advance U.S. agriculture's interests in the global market.

Despite the frustrations some in the farm community voice today about recent trade agreements, U.S. agriculture would be substantially worse off had it not been for those arrangements. The fall in exports resulting from the Asian financial crisis and the unusual string of years of strong global crop production would have been worse without the access opportunities in Mexico and many other markets that NAFTA and the Uruguay Round provided.

Clearly, there remain important tariff and subsidy inequities that impede U.S. exports. Global food and agriculture tariffs average 62 percent, while U.S. food and agriculture tariffs average only 12 percent. But the only practical way to deal with these problems is through the multilateral, regional, and bilateral trade negotiations the Administration has undertaken, and for which it must have Trade promotion authority (TPA). While the regional and bilateral trade initiatives currently under negotiation are important, the most promising trade initiative for U.S. food and agriculture producers is the ongoing multilateral World Trade Organization (WTO) negotiations.

To put the importance of trade and the need for negotiations in perspective, it is worth pointing out that the value of U.S. agricultural exports—now around $54 billion—frequently tracks or exceeds the level of net farm income each year. Without exports, farm and ranch income would plummet.

The domestic U.S. market is, of course, the principal destination for most of our farm output. However, the U.S. population is only about 4 percent of the world's total. Increased access to the other 96 percent, which can only be accomplished through trade negotiations, would offer U.S. producers another—and potentially enormous—outlet for our high quality production.

As economists, we tend to view issues in terms of numbers: the data that show that a substantial portion of our production is exported, the strong recent growth in exports of job-creating high value and processed agricultural products, and the contribution exports make to the overall farm economy. However, we also recognize that there is an important political dimension in all trade negotiations, and that without TPA the ability of U.S. negotiators to press for agreements on our terms and our agenda will be fatally weakened. Indeed, there is a deadline of March 2003 in the ongoing WTO agriculture negotiations for establishing the framework of the final agreement—which is referred to by our trade negotiators as establishing the "modalities." If the U.S. is to provide effective leadership in establishing these modalities, our negotiating partners must know that U.S. leadership is based on and supported by authority from Congress. In short, TPA is an indispensable tool that U.S. trade officials need now to keep U.S. agriculture on the path of prosperity and long-term economic growth.

Sincerely,

Dermot Hayes, Ph.D., Professor of Economics, Iowa State University; Colin A. Carter, Ph.D., Professor, Agricultural Marketing, International Trade, UC Davis College of Agricultural and Environmental Sciences; Mechel S. Paggi, Ph.D., Director, Center for Agricultural Business, California State University, Fresno; Daniel A. Summer, Director, Agricultural Issues Center, University of California, Davis; Frank H. Tweenten, Faculty Emeritus, Agricultural, Environmental & Development Economics, Ohio State University.

Mr. GRASSLEY. On the subject of another trade bill coming before us, I want people to know I strongly support what we have had since 1963, called trade adjustment assistance. It is coming up for reauthorization. It has been an integral part of our trade policy for about 40 years.

We need to update trade adjustment assistance and make it more effective for people whom it is designed to serve.

Finally, I would like to say a few words about the Andean trade bill. That is the bill which the cloture motion we are debating is on.

The Andean trade bill will enable the United States to constructively engage with our Latin American neighbors at a time when many of them face enormous economic and political challenges. There is political instability and the social instability in some of those countries because they face severe economic challenges. There are more people with less growth and fewer material goods for the people. What the Andean pact comes down to is that we need—and the Andean nations need—a trade policy that will positively affect trade between our countries.

Where I come from—the little town of New Hartford, IA—when your neighbor down the road has an emergency, or needs a hand, in that Midwestern spirit we reach out to help. The United States pretty much has adopted the same policy as part of our responsibility of world leadership since World War II. It happens all over America. Neighbors help and support each other.

When our Andean neighbors—Colombia, Peru, Bolivia, and Ecuador—found themselves under siege by narco-terrorists, we reached out to help these hemispheric neighbors. Through the Andean Trade Preference Act, we designed a plan that is based on trade—not aid—following the advice of President Kennedy 40 years ago that focuses upon people's self-help. That is what trade is all about. Aid is all about doing something for somebody instead of helping themselves. But trade is about helping people to help themselves so they eventually develop to a point—such as Korea, Japan, Taiwan, and Thailand have in the last 40 years—where they don't need our help.

The Andean pact uses trade to promote economic development through a diversified export base as an alternative to the allure of the drug trade. I also support the Andean trade bill because it recognizes that trade and prosperity go hand in hand. Trade is not just for rich countries such as the United States, it is also for countries that aspire to be rich.

What country looking at the United States wouldn't like to have the prosperity the United States has developed in the last hundred years and become the richest nation in the world? Countries want better and more secure lives for their people. Countries want better health care, better education, and a better future for their children.

Through the Andean Trade Preference Act and complementary trading initiatives, such as the free trade areas of the Americas, we can help achieve a new era of hemispheric economic cooperation that will not only benefit those countries to the south of us but it will benefit us as well. The Andean nations know that trade—not aid—is the best way to overcome the fragmentation of Latin American economies and build self-sustaining growth that nourishes democratic institutions.

The United States must get off the sidelines. We need to get back into the middle of the negotiating circle and back into our customary role as leader of the world economy in trade, as we have been generally since at least 1947. But we haven't been there in the last few years. The rest of the world is not going to stand around and wait for us. They are negotiating over 100 agreements, and we have negotiated 3.

The longer we wait, without credibility at the negotiating table, the more harm will be done to our political and economic interests. By not leading the world, we are not going to help the world economy grow as large as that world economy can grow.

It is very important to get this debate started. To get this debate started, we have to have a yes vote on cloture on this bill so we can overcome a few Members of the Senate who believe the United States ought to be more parochial and a little more isolated. That is not a place where America has been since 1947.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BAUCUS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. FEINSTEIN. Mr. President, I rise today to express my support for the Andean Trade Preference Expansion Act and the cloture vote on the motion to proceed.

However, I believe the Senate should move forward on this important piece of legislation separately from consideration of Trade Promotion Authority.

I believe it is essential for the people of Ecuador, Colombia, Peru, and Bolivia and the people of the United States that the Senate expeditiously debate and act on the Andean Trade Preference Expansion Act on its own.

The original Andean Trade Preference Act was designed to discourage illicit drug production and help participating countries develop a broader export base.

The results over the past decade have been very encouraging. The Andean Trade Preference Act has generated $3.2 billion in new output and $1.7 billion in new exports to the United States. Export diversification has resulted in the creation of 140,000 jobs in the region.

The excellent cooperation of participating countries with the United States in the fight against narcotics production and trafficking has resulted in significant gains. For example, coca cultivation in Bolivia has fallen by 68 percent and in Peru by 74 percent.

Unfortunately, we have not seen similar progress in Colombia, but this is due more to political instability and the continuing struggle against narco-terrorism. I am hopeful that these difficult issues can be resolved and that Colombia will enjoy the full benefits of this bill.

Just as important, the Andean Trade Preference Act has given hope to the people of the region for a better tomorrow and has shown them that the journey from poverty to economic prosperity need not begin with the cultivation of illicit narcotics.

Nevertheless, despite these success stories, the Andean Trade Preference Act expired on December 4, 2001 and the 90-day suspension of import duties on eligible products issued by President Bush is set to expire on May 16.

The House passed its own version of the Andean Trade Preference Expansion Act on November 16, 2001. That bill has now come to the Senate floor and will be amended to include Trade Promotion Authority legislation. I am concerned that this will slow passage of the underlying bill.

If the United States continues to delay passage of the Andean Trade Preference Expansion Act, the participating countries will be put in a vulnerable position and could face devastating consequences. They will deal with increased narcotics production and trafficking, and the gains of the past ten years will be lost.

In addition, in a recent meeting, the ambassadors of Colombia, Ecuador, and Peru indicated to me that inaction on this bill would result in the loss of tens of thousands of jobs. The hopes of hard working families will be shattered.

Finally, Bolivia, Ecuador, and Colombia all face presidential elections this year, and the lack of closer trade ties with the United States could impede continued growth of democracy in the region.

The resulting weakness of the central governments will only serve to reenforce the strength of drug lords and their armies and destabilize the region even further.

We should also be concerned about our own economy and export growth. Between 1991 and 1999, U.S. exports to the Andean region increased by 65 percent. The United States is the largest source of imports for each of the participating countries.

The gains from an expanded Andean Trade Act, strengthened democracies and stronger, more vibrant economies, will encourage even more U.S. investment and exports to the region, creating more jobs at home and fostering greater economic growth.

My home State of California, the fifth largest economic engine in the world and a leader in global commerce, will greatly benefit from increased prosperity and political stability in the Andean region.

If we do not act, U.S. credibility and leadership in the region will suffer and future efforts to expand trade in Central and South America will be met with skepticism and resistance.

CLOTURE MOTION

The PRESIDING OFFICER. Under the previous order, pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will report.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to proceed to Calendar No. 295, H.R. 3009, the Andean Trade Preference Act:

Max Baucus, Zell Miller, Harry Reid, Tom Carper, Joseph Lieberman, Bob Graham, John Breaux, Blanche L. Lincoln, Ron Wyden, Dianne Feinstein, Ben Nelson, Trent Lott, Charles Grassley, Orrin G. Hatch, Jon Kyl, Rick Santorum, Pat Roberts.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the motion to proceed to H.R. 3009, an act to extend the Andean Trade Preference Act, to grant additional trade benefits under that act, and for other purposes, shall be brought to a close?

The yeas and nays are required under the rule. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. REID. I announce that the Senator from Missouri (Mrs. CARNAHAN), the Senator from New Jersey (Mr. CORZINE), the Senator from Connecticut (Mr. DODD), the Senator from New York (Mr. SCHUMER), and the Senator from New Jersey (Mr. TORRICELLI) are necessarily absent.

Mr. NICKLES. I announce that the Senator from North Carolina (Mr. HELMS), the Senator from Idaho (Mr. CRAIG), the Senator from New Mexico (Mr. DOMENICI), the Senator from Arkansas (Mr. HUTCHINSON), and the Senator from Alaska (Mr. MURKOWSKI), are necessarily absent.

I further announce that if present and voting the Senator from North Carolina (Mr. HELMS) would vote "no."

The PRESIDING OFFICER (Mr. REED). Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 69, nays 21, as follows:

[Rollcall Vote No. 97 Leg.]

The PRESIDING OFFICER. On this vote, the yeas are 69, the nays are 21. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

The Senator from Massachusetts.

STUDENT LOAN PROGRAM

Mr. KENNEDY. Mr. President, I am sure that when all of our colleagues travel back to their States and meet with parents and families, they are being asked about the increased cost of tuition at the universities and colleges across the country.

I know that is true in my own State of Massachusetts. The average fees at the University of Massachusetts, one of our fine universities, are going up in excess of $1,000 for this next year.

Quite frankly, in my part of the country, families are really concerned about the economic conditions. I know the economic indicators, the GDP indicators, are showing some improvement. Clearly, the unemployment figures are not reflecting the real situations of many Americans in many parts of the Nation. So many Americans are facing lay-offs and those that are finding new jobs are often taking pay cuts. As many states cut their higher education budgets, people are wondering how they are going to afford the increases in tuition.

Many of those attending school and recent graduates were very perplexed to read the story in the New York Times over the weekend that says: "Bush seeking to squeeze school loan program."

The student loan programs offer low-interest loans to full-time students. These programs are available to low and middle-income families. I have an AP story that says:

> The White House has suggested $5.2 billion savings from Federal student loan programs. The White House Budget Director Mitch Daniels proposed the savings to the House Speaker DENNIS HASTERT last week. Among Daniels's proposed savings is to require college students and graduates who wish to consolidate their Government-backed education loans to use variable interest rates, a change from the current program.

I want to share with the Senate what has happened in my own State, and it is replicated across the country. Just last year, we had some 36,000 families consolidate their loans, taking advantage of the lower fixed interest rates. It amounts to $1 billion. The average loan in my State is $29,000. Let me be very clear, Mr. President. If the proposal that is reported in the New York Times goes into effect, it will mean $3,000 more for every $10,000 a person owes to the guaranteed loan program—$3,000; $10,000 over a 30-year period. That is $10,000 additional over a 10-year period if that student owes $30,000.

In my State of Massachusetts, the average consolidated loan is $29,000. To do what? According to Mr. Daniels, for the next year, it will mean $1.3 billion in savings to the administration evidently so they can use it for the tax cut program for wealthy individuals. Talk about a financial transfer. This administration is going to balance its books at the expense of students. They are taking about $1.3 billion from students and middle-income families who will have to pay a variable rate on consolidated loans, instead of taking advantage of the lower fixed interest rates at the present time. This is an effort to effectively fix the system so that students and their families will pay more so this administration can afford more in tax cuts.

Families pay what they can afford in tuition for their children to go to school, and depend on the federal loan programs for the remainder of the tuition. When it comes time to help repay those student loans, they will have to pay higher interest rates, and they ask why. Hard working families should get the best deal on interest rate that is available.

The New York Times article goes on:

> "The Bush administration is seeking to ease its budget by squeezing $1.3 billion from the Federal student loan program," administration and congressional officials say today.

Whether it is the $1.3 billion as in the New York Times or the $5 billion, what they are basically saying is the students and middle-income families are going to have to pay a good deal more rather than taking advantage of the lowest interest rates.

That is poor education policy. It is grossly unfair to middle-income families, and it is clearly not in the national interest. Our national interest ought to be to encourage the best and the brightest to complete their education, to be involved in the communities of this country, and contribute to our Nation's democratic values and its economic values.

How can the administration make that kind of request to the Congress? Mr. President, I just want to make it very clear, as far as our committee goes, I can say without fear of any contradiction, this suggestion will not pass.

The last time we faced this type of proposal was in 1981 under President Reagan who suggested an origination fee which was an additional burden on students and their families who were taking out student loans. We were unsuccessful in stopping that fee, and I believe we will succeed in rejecting the elimination of the fixed rate consolidation loans. But I tell my colleagues, how in the world can you believe this administration is putting education first when it is trying to shortchange the students of this country in an unfair and, I think, unwise way?

Mr. SARBANES. Will the Senator yield for a question?

Mr. KENNEDY. I will be glad to yield.

Mr. SARBANES. I must say, when I saw that article, the first thing I thought to myself was: They must have figured out some sort of unique way to achieve some savings in the college loan program which will not affect the beneficiaries of the program. It never occurred to me until I read the article, to which the Senator has referred, that they were intending to take this money right out of the hide of the beneficiaries.

As I understand it, we have had this program where people can consolidate their loans and lock them into place with a fixed interest rate. That has helped, as I understand it, to significantly reduce the default rate on college loans, if I am not mistaken.

I think 10 years ago we had a default rate at about 22 percent, and now we have cut that rate to, what, about 5 percent?

Mr. KENNEDY. Five point six percent.

Mr. SARBANES. Five point six percent.

Mr. KENNEDY. Under the Clinton administration.

Mr. SARBANES. That is one of the benefits of providing a rational framework for students and their families to address these college loans.

First of all, we have to understand these students are taking on a tremendous burden as they move through college in order to get a college education. There are many people who argue we are not doing enough to help lift that burden. But the notion that we should now add to it in this significant manner that the head of the OMB is talking about I find outrageous.

How are these people going to afford this college education?

We have set up a system which seems to be working pretty well. If anything, we ought to provide more assistance, not less. I certainly commend the Senator for taking to the floor to underscore this problem. I gather they want to try to do it in the supplemental appropriations bill, with very little consideration of its impact or an opportunity to affect what is happening.

Mr. KENNEDY. The State PIRGs have completed an interesting study. It is an independent evaluation on higher education student loan debt. Their estimate on the cost to borrowers of switching from a fixed rate to a variable rate consolidation loan—this is their estimate, not mine—for an average graduate with $16,000 in college debt would have a $2,800 increase over the next 10 years and $6,300 if they chose to spread their payments over 20 years. If one has $16,000 they would pay an additional $2,800—the average loan is $29,000 in my State. Do you understand that? Mr. President, $16,000 is just about the national average loan. This is not my estimate, this is the estimate of the highly regarded and respected national group the Public Interest Research Group.

I do not know how many people are consolidating loans in the State of Maryland and the State of Illinois, but I do not think that higher rates are what these families deserve. They deserve the best possible low interest rates. They are uncertain about their economic future. They are planning their life. They have every right to consolidate at the lowest interest rates, and now the administration is attempting to force them to pay the rate at the time that they originate their loans.

Mr. DURBIN. Will the Senator yield?

Mr. KENNEDY. I will be glad to yield.

Mr. DURBIN. I thank the Senator for raising this issue, and I thank the Senator from Maryland for joining us. Roughly two out of three college graduates today leave college with a debt. The average debt across the United States for all college students is $16,000. That is a pretty substantial sum of money for somebody starting out to get their first job out of college.

Mr. SARBANES. Age 21, I might add, or 22, and they are already walking out, after getting their education, with a $16,000 average debt. A lot of them, as the Senator points out, have more.

Mr. DURBIN. I might say to the Senator from Massachusetts, the experience in Illinois is the same as in his State. Our average student loan, as consolidated under this program, is $30,000. What the Senator from Massachusetts tells us is that President Bush's administration has suggested adding $10,000 in cost to pay back that student loan.

So one might say to themselves, this must be some national emergency that would lead us to the point where we would take a young college graduate and say we are going to eliminate a program and heap on another $10,000 in debt for them to pay off. The national emergency appears to be making permanent the President's tax cut program.

We did a little analysis on this program recently, and I think the Senator from Massachusetts is aware that 65 percent of President Bush's tax cut goes to people making over $500,000 a year. So think about this for a second. The new college graduate coming out with a debt, in my State, of an average $29,000, just got a $10,000 bill to collect money, to do what? To give to the average person making over $500,000 a year a $39,000-a-year tax break.

What is wrong with this picture? Why are we not helping the young men and women who are going to lead this Nation with their education to take the kind of jobs that they need?

I know the Senators from Maryland and Massachusetts know the situation where so many young graduates want to go into teaching, for example, and they look at their student loans and say: This is impossible. I cannot make enough money as a teacher.

The Bush administration proposal would make their debt larger. For what? To give a tax break, two-thirds of which goes to people making over $500,000 a year. This is totally upside down.

The student loan obligations for students across America have doubled within the last 8 years. They are likely to go up in the future. The Bush administration proposal, I am afraid, is going to make it even more difficult for our sons and daughters and grandsons and granddaughters to pursue a higher education.

Mr. KENNEDY. May I add one point? I would be interested in my friend's reaction to this. If someone is receiving a Pell grant, the average family income for a Pell grant student is $17,000. These are gifted, talented individuals who could qualify for any of our greatest universities. Their family income is under $17,000, and the Pell grant is available to them. Reading from the Public Interest Research Group's analysis, even worse off are the students who depend on the Pell grants to finance their education. This would cost the typical Pell grant borrower $3,100, almost a thousand dollars more because since they are lower income, they have to pay—at the start they are paying higher rates.

So we are talking about students who are gifted and talented, who have every kind of asset except a large wallet or pocketbook, who have a great deal to contribute to our Nation, and whose family income is less than $17,000, people who are going ahead and working.

Sixty-three percent of the students in this country now who are on scholarship work 25 hours a week or more. That is extraordinary.

We wonder why the students are not talking about books and education; they are talking about their debts and their obligations. Well, I am wondering, if my two friends would not agree, when families of limited income, even though their children have the academic gifts and talents to go on to education, are going to be forced to say: No, count me out; I will just go on, wait on tables, I will park cars, because I am not going to put my family through that kind of indebtedness. That is the message that will go out with this proposal.

Mr. DURBIN. Asking the Senator to further yield, I will share with him this statistic: 39 percent of college students now graduate with debt loads that are termed unmanageable, meaning their monthly payments are more than 8 percent of their monthly incomes.

With this Bush administration change putting more debt on these students, it becomes impossible for them to deal with this.

Mr. KENNEDY. But the Republican response to that is these students are going to become lawyers and doctors so they will be able to afford it. Would not both my colleagues agree, we have a shortage of 2 million schoolteachers in this country? What we are talking about is schoolteachers. We are talking about social workers who we are trying to help. We are talking about those who would be childcare providers. We are talking about police officials and nurses. These are the ones who are entering low wage professions, trying to make it and to be responsible and pay off their debt. They are the ones who are going to find education virtually priced out.

Mr. SARBANES. Will the Senator yield?

Mr. KENNEDY. I am glad to yield.

Mr. SARBANES. The fact is that no other advanced country places as much of the burden of obtaining a college education on the individual student and the family as we do. We in the Congress have been trying to ease that burden through a combination of grants and loans, although we have been shifting from grants to loans increasingly over the years. Other countries do not do the same thing. Why not? Because they recognize the society and the nation benefit from developing the talents and the capacities of their young men and women; that it is not only the individual who gets the benefit but society gets a benefit from educating these people.

As my colleague from Illinois pointed out, if they walk out of college with this huge burden on their back, then obviously they are motivated to go to lucrative professions in order to pay off the debt.

I have talked to young people who have said: I really would like to teach but I cannot afford to teach because I have this debt burden that I have to pay off. Therefore, they are looking to go into some profession where they can make a lot of money. They are lost to the teaching profession.

Now that we have a system in place, we knock out one aspect. My understanding is the consolidation of loans has been in effect since the Reagan years. I understand it first went into place in 1986, the consolidation of loans. It makes good sense. We are always telling people they ought to consolidate their loans and we put it into place. Now we are taking away from people another support to try to help with higher education.

Mr. KENNEDY. The Senator is quite correct. There is a very interesting statistic for those who enter medical school. Eighty-five percent of medical students want to become general practitioners. They care about patients and want to be there on the front line treating the families of America. However, they end up borrowing so much to pay for their school costs that they need to enter specialization because of the salary differences at the very time we need more general practitioners.

I draw the attention of my colleagues to the chart and what has happened with grants and loans. My colleagues remember the great debates held on providing greater access to higher education for all Americans, those national debates go back to 1960. President Kennedy believed the size of your pocketbook should not determine what university a student attends, only your qualifications should determine where you could attend school. Grants, some loans, work-study programs, summer employment should add up to the cost of your tuition and fees. All of those match together in an economic package so a student can successfully go to the school of their choice.

I was in the Education Committee when Secretary Bennett said: Too bad. Those families can go where the loans will take them. That is our view of this Republican administration. That is the attitude. We do not want to limit opportunity. I know where that is in the RECORD.

We have seen the buying power of grants fail to keep up with the costs of college. The neediest children are forced to take out loans. Now we find at a time when these young students and graduates are trying to take advantage of refinancing their loans, we are hearing the administration saying: No, we need another $1.3 billion for our tax program so we are going to force students to wait and see what the interest rate will be every year instead of locking in at a fixed rate. That is regrettable.

I draw another chart to the attention of my colleagues. This is a women's issue. Education is one way that we can help women close the earnings gap. When you deny women the opportunities to continue education, you continue a perpetuation of the notable disparity taking place. Women, like their male counterparts, increase their earnings when they increase their education.

Once you put the economic binds by effectively denying people the ability to discharge debt, this will work against women students. We see it already. We will see it even grow over the period of time.

Mr. DURBIN. Will the Senator yield?

Mr. KENNEDY. I yield.

Mr. DURBIN. The Senator was part of an effort that many joined with President Bush: Leave no child behind. The idea was to improve the quality of education across America, to make certain, with accountability, that schools were graduating students who had the basic wherewithal to succeed in society.

One of the linchpins was to improve teachers in the classroom.

I would like the Senator from Massachusetts to tell me if I recall this correctly. Are we moving through President Bush's bill to a point where more and more teachers have to be certified in that they are going to teach in schools? In other words, you cannot be the gym teacher who says, I will teach biology. You have to stand in front of the classroom with students.

We are passing bills saying, teachers, we want you to stay in school, get more advanced degrees, and be more valuable in the marketplace but come back to the classroom. And now the Bush administration, months later, comes in and increases the cost of education for those who aspire to be those quality teachers. There is a disconnect.

Mr. KENNEDY. The Senator is absolutely correct. It is a powerful, powerful argument. We are trying to make sure we are going to have a well-qualified teacher in every classroom. More and more young people who are entering teaching are saddled with an enormous debt burden. As a national objective, have a well-qualified teacher in every classroom. How can these young professionals afford to pay off their loans when we know that too many teachers are underpaid.

And the Senator quite rightly points out that will require tens of thousands, hundreds of thousands, of teachers to get certification and to go back to universities and colleges, community colleges, to get these certifications.

This kind of activity is going to make it that much more expensive, that much more of a disincentive to go into teaching. That is enormously important and significant. I thank my colleague for bringing this critical fact to the floor.

I see my friend from Rhode Island who has been such a leader in education, and follows a very proud tradition in his state. We give fair notice to the administration that we are going to do everything we possibly can legislatively do to make sure this does not take place. We want to keep as many low-cost options for borrowers as possible to make sure that more people are getting college degrees. We will have more to say about this in the very near future.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. KENNEDY). Without objection, it is so ordered.

The Senator from Illinois is recognized.

Mr. DURBIN. I thank the Chair.

(The remarks of Mr. DURBIN pertaining to the introduction of S. 2393 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. DURBIN. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent the Senate proceed to a period of morning business, with Senators allowed to speak therein for a period not to exceed 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. REID. Mr. President, I also ask unanimous consent that the time we are in morning business be charged against the 30 hours postcloture on the matter now before the Senate.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNIZING THE UNIVERSITY MEDICAL CENTER VOLUNTEERS IN LAS VEGAS, NV

Mr. REID. Mr. President, as we celebrate National Volunteer Week I would like to recognize the 300 volunteers at the University Medical Center in Las Vegas, NV who are committed to providing young Nevadans with more promising futures.

As a group, U.M.C.'s 300 volunteers donated 49,700 hours of time in 2001. Their contribution of volunteer time and talent has enormously improved the efficiency and effectiveness of University Medical Center. Through their efforts, these volunteers have helped build a better community. The programs that they have participated in include U.M.C.'s Medical Explorer Program, the Volunteer Youth Corps, the "Pal" program of Las Vegas High School, and the "Medical Magnet Program of Rancho High School, all of which have positively impacted the youth of Nevada.

In addition, for almost 40 years U.M.C. Auxiliary, a group chartered by the Clark County Board of Trustees, has volunteered and raised millions of dollars for the discretionary use of the hospital including the purchase of needed medical equipment. Having recently been challenged to raise even more money for the hospital, the Auxiliary presented a donation of $300,000 to the Clark County Board of Trustees on April 16.

Dr. Martin Luther King, Jr. said that "everyone can be great because anyone can serve." U.M.C. volunteers have proven their greatness by serving the people of southern Nevada through the hours and money they have donated and by helping University Medical Center fulfill its mission.

NOMINATION OF JUDGE HENRY HUDSON TO THE UNITED STATES DISTRICT COURT FOR THE EASTERN DISTRICT OF VIRGINIA

Mr. WARNER. Mr. President, in my twenty-four years in the United States Senate, I have had the responsibility as a United States Senator, in keeping with the long standing traditions of the Senate, to recommend to the President of the United States well qualified Federal judicial nominees for Federal courts sitting in Virginia. I deem this one of my most important duties as a United States Senator.

Since his inauguration, I have the had the honor of recommending individuals to President George W. Bush for two positions on the Federal courts sitting in Virginia.

First, I was pleased to recommend Roger Gregory to serve as a judge on the United States Court of Appeals for the Fourth Circuit. President Bush subsequently nominated Mr. Gregory, and the Senate confirmed this nomination on July 20, 2001.

Today, I rise in support of another nominee that I have recommended to President Bush, Mr. Henry Hudson. On January 24, 2002, President Bush nominated Judge Hudson to serve on the United States District Court for the Eastern District of Virginia. Senator ALLEN and I both strongly support Judge Hudson's nomination.

Judge Hudson's background makes him highly qualified for this judgeship. And, it is important to note that the Virginia Bar Association "highly recommends" him as well.

Judge Hudson's experience with the law is extensive, beginning with his service as a Deputy Sheriff in Arlington County, Virginia, in 1969 and 1970. He then went to law school, graduating from American University in 1974.

Subsequent to his graduation from law school, Mr. Hudson entered legal practice as a prosecutor. First, he served as an Assistant Commonwealth's attorney for five years and then as an Assistant U.S. Attorney in the Eastern District of Virginia.

In 1986, Mr. Hudson was confirmed by the Senate and began his service as the United States Attorney for the Eastern District of Virginia, a role in which he served in until 1991.

After leaving the U.S. Attorney's office, Judge Hudson once again received Senate confirmation and served as the Director of the United States Marshal Service from 1992 to 1993.

After completing his work at the Marshal Service, Mr. Hudson entered private practice until he was sworn in as a Judge on the Fairfax County, Virginia Circuit Court. Judge Hudson has served as a judge on this important court since 1998.

During his time on the Fairfax County Circuit Court bench, Judge Hudson has been known as a fair, objective judge who conducts proceedings with dignity and with the appropriate judicial temperament. I am confident that he will continue his service on the Eastern District of Virginia bench consistent with his reputation.

Clearly, Judge Hudson is a highly qualified nominee. Accordingly, I will soon be speaking directly with Chairman LEAHY and Ranking Member HATCH about an appropriate time for a confirmation hearing for this nominee.

ADDITIONAL STATEMENTS

ON THE DEATH OF STUART R. PADDOCK

• Mr. FITZGERALD. Mr. President, today I pay tribute to the late Stuart R. Paddock, editor emeritus, publisher emeritus, and owner of the suburban Chicago newspaper, the Daily Herald. The Daily Herald, I am proud to say, is my hometown paper. A respected businessman, community leader, and World War II veteran, Mr. Paddock served the Daily Herald for nearly 65 years, during which time he transformed a struggling tri-weekly paper into Illinois' third largest daily newspaper. Mr. Paddock died last week at the age of 86.

Stuart Paddock's career with the Daily Herald began inauspiciously as a "printer's devil," the person responsible for pouring molten lead into molds for use in linotype. After graduating from Knox College and serving as a company commander in Europe during World War II, Mr. Paddock rejoined the newspaper in 1946. By 1948, he had been named vice president and board director. In 1970, just 2 years after assuming the Herald's top leadership position, he overcame fierce competition from other publications and established the Herald as a 5-day-a-week paper. For his hard work and dedication, Stuart Paddock earned the respect not only of Daily Herald readers and employees, but of his staunchest competitors. As the Chicago Tribune wrote, "Stuart R. Paddock Jr. put 'daily' in Daily Herald." The Herald enjoyed enormous success in the ensuing years, growing from a circulation of 11,800 in 1970 to nearly 130,000 by 1994. The Herald's success was so remarkable for a suburban paper that the Chicago Tribune proclaimed Stuart Paddock "the Sam Walton of suburban journalism." Throughout his career, Mr. Paddock was active in the Illinois Press Association, the Cook County Suburban Publishers Association, the Newspaper Committee for a Free and Competitive Press, and numerous other organizations. In recognition of his outstanding professional accomplishments, Mr. Paddock was inducted into the Chicago Area Entrepreneurship Hall of Fame in 2001.

Despite his success as a visionary and leader, Stuart Paddock, affectionately called "Stu" by his employees, never lost his sense of commitment to the family he represented and the readers he served. When the Herald's spectacular growth sparked lucrative offers from potential buyers of the paper, he respectfully declined, choosing instead to keep the paper a family business with strong ties to local communities.

I knew Mr. Paddock as a man of integrity and vision. He was a gentleman, in every sense of the word. He is beloved by the communities and people that knew him best, and will leave a remarkable void as a civic leader and patriarch of the Paddock and Daily Herald family.

In paying tribute to Stuart Paddock, we honor a groundbreaking journalist, a gentleman, and a great American.●

U.S. SUPPORT FOR ISRAEL

● Mrs. BOXER. Mr. President, there has seldom been a more important time for Congress to support Israel. Right now, both the United States and Israel are under attack, and we share a common enemy—terrorism.

The goals of these terrorists are clear. They want to kill innocent men, women, and children to further their cause—whatever it may be. They want to strike at our democracies and test the freedoms of the United States and our greatest democratic ally in the Middle East, Israel. They are willing to train their sons and daughters to murder others by strapping explosives to their bodies and detonating themselves in civilian areas. But this is a test both nations will pass.

Why is this so? I think it is because our shared ideals of respect for religion, freedom of thought, and peace throughout the world make us stronger than those who fly airplanes into buildings and blow up restarants. We will pass this test because the United States and Israel are united in our resolve that we will not change our ideals and our principles in the face of cowards. We can never be forced to surrender our freedoms.

Why do I have such faith and hope that Israel will weather this current storm of violence? I simply look at the history of Israel since independence nearly 54 years ago. I am struck by the resolve of the Israeli people. After the long-fought War for Independence, Israel suffered more than 10,000 acts of terrorism prior to the 1956 Sinai Campaign. That number is remarkable given that the population of Israel at the time was just 2 million.

In 1967, Israel overcame a hostile Arab alliance that threatened the existence of the nation from all sides. The early 1970s brought a massacre of Israeli athletes at the Munich Olympics and a surprise attack by Egypt and Syria on Judaism's most holy day. The 1980s were marked by the first intifadah, and the 1990s by Scud Missiles and the Gulf War.

Today, no Israeli man or woman can get on a bus or walk in a marketplace without fearing for his or her life. Israel and its people have always been faced with violence and terror, its very existence continuously threatened by its neighbors.

But how has Israel responded? By developing a thriving democracy that respects human rights. By working hard to create an economy that has successfully operated in the face of hostile Arab boycotts. And by showing over and over again its commitment to peace by reaching out to the world to sign the Camp David Accords with Egypt, to engage in the Oslo process with the Palestinians, to unilaterally withdraw from Lebanon and even by reaching out two years ago to one of the most notorious state-sponsors of terrorism, Syria.

And, today, in the face of everything, it is Prime Minister Ariel Sharon who is urging to a return to the peace table and laying out the roadmap that leads to peace.

Unfortunately, Israel's courage to make peace has, in large part, not been reciprocated in these cases, and it has certainly not be reciprocated by Yasser Arafat.

In 1993, Yitzhak Rabin took a bold step by entering into the Oslo Accords and beginning a process marked by the principle that peace in the Middle East could be achieved by trading land for peace. It's something that the Arab countries and the Palestinians said that they wanted. Did Israel live up to its commitments set out in the Oslo Accords? Yes, it did.

During the 1990s, Israel transferred control of 40 percent of West Bank land and 70 percent of the Gaza Strip to the Palestinian Authority. Yet Arafat was not able to, or did not want to, provide security and continuously violated the accords.

Then, President Clinton put a plan on the table. After all the land was already transferred to the Palestinians, Israel was willing to give up a staggering 95 percent of the West Bank during the Camp David talks. But Yasser Arafat walked away from that too. And I remember the despair I felt when this happened. You had to wonder, at that point, what this was really all about.

And not only did he walk away, Arafat started another intifadah. Now I want to take a minute to talk about a visit Democratic Senators had with Tom Friedman, a columnist who, over the years, has been very balanced in his approach to the Middle East. I cannot remember the exact conversation, so I will retell it to the best of my recollection. Mr. Friedman said that he was stunned that Arafat walked away after being offered 95 percent of what he wanted, he questioned the Palestinian leadership to learn why.

And the answer came back from the Palestinians that they needed more time to look this over, to see the details of the plan.

Mr. Friedman said that if that was all true why the intifadah. And the answer from the Palestinians was that they could not take one more day of the occupation.

Mr. Friedman was incredulous. The Palestinians could not take one more day of the occupation, yet refused offers that would have ended occupation. Where is the sense in this?

So this intifadah has been a calculated plan of violence. Mr. Friedman later wrote in a column that, "the world must understand that the Palestinians have not chosen suicide bombing out of desperation . . . stemming from the Israeli occupation . . . [It] is because they actually want to win their independence in blood and fire. All they can agree on as a community is what they want to destroy, not what they want to build."

We are left to ask ourselves, does Arafat want peace? I say the facts dictate that he does not. Arafat is telling us that he wants peace on one hand, but on the other he is leading the Palestinian people away from what it is in their best interests, a lasting peace with Israel.

A look back at history shows that Palestinian leaders have walked away from possible statehood and secure borders with Israel four times, once in 1937 and in 1947, and then twice under plans presented by Prime Minister Ehud Barak and President Clinton. How many times will it take before we realize that there is something else going on here. They were offered a homeland four times. The Palestinians need to understand: it's not about the homeland, it's about all the land.

This strategy of suicide bombing is barbaric, it is to be condemned, and I am shocked at how little condemnation you hear around the world for this tactic.

When I take this issue up with leaders from other Arab countries, the answer is "well, people are desperate and they will do desperate things." When I bring up the issue of women and girls blowing themselves up, they just give me the brush off.

We will never forget the Palestinian suicide bomber who killed 27 Israelis as they were sitting down for the traditional feast marking the beginning of Passover. Zeev Vidor was one of he Israelis killed in the attack and today his kidney is keeping alive a Palestinian woman who was in need of a transplant.

This is possible because the family of Zeev Vidor knew the value of using life to give life, whereas those who entice suicide bombers believe in using life to destroy life. And I think that whole story is a metaphor for what we are talking about. Since September 2000, 170 Israelis have been killed by more than 60 suicide bombers.

Last year I worked on a resolution with Senator GEORGE ALLEN right before September 11 to condemn suicide bombing. After September 11, the resolution was shelved briefly, but it eventually passed the Senate in October.

Earlier this year, when we saw the women strapping on bombs, I went to all the women in the United States Senate, 13 of us, Democrats and Republicans, and got them to sign on to a resolution that passed earlier this year. Then, I wrote to Palestinian envoy Dr. Hanan Ashrawi and urged her to speak out clearly against this horrible escalation of violence.

Women suicide bombers are a deadly tactic used by the al-Aqsa militant group that is linked to Yasser Arafat. An al-Aqas leader in Bethlehem has been quoted as saying that "we have 200 young women, from the Bethlehem area alone ready to sacrifice themselves for the homeland." You notice that the older people don't do this, they just entice the young, which adds to the horror.

One such suicide bombing by an 18-year-old Palestinian girl was responsible for the death of a 17-year-old Israeli girl named Rachel who was only on a quick errand to buy some herbs for the fish dinner her mother was preparing nearby. It is tragic when young women are willing to kill each other in this fashion. It is even more tragic that the people these women look to for guidance are actively encouraging these acts of terror. Earlier this month there was a story of one of the highest ranking Muslim leaders in Lebanon giving his blessing to female suicide bombers, calling them part of a "new glorious history for Arab and Muslim women."

And what about Mrs. Arafat, telling an interviewer that if she had a son, she could conceive of "no greater honor" than having him strap on an explosive belt.

I have to tell you, the truth we have to look at is horrible, but we better look at it. Believe me, I am the last one who wanted to be dismayed or discouraged. I am in politics because I want to see a peaceful world, because I want a healthy environment for everyone, because I want all children to have hope. But we have to look at this, and we have to be strong and clear. And I am going to be very clear.

I am proud to be a cosponsor of the McConnel-Feinstein legislation that says that Arafat must meet his commitments or be sanctioned by the United States. And I am honored to be the author of the Syrian Accountability Act.

This bill that I introduced would expand sanctions against Syria, a state sponsor of terrorism, if it continues to support groups like Hamas and Hisbalah, does not fully withdraw from Lebanon, continues to develop and deploy ballistic missiles, and remains in violation of U.N. Security Council resolutions.

From the death of innocent civilians in Israel, to attacks on Jews in the former Soviet Union; from Daniel Pearl saying "I am a Jew" shortly before his execution to the leader of a French political party saying that the gas chamber is just a detail of history, we know that this is a difficult and trying time for people of the Jewish faith.

I believe the Senate must send a message of hope and a message of action. We have friends outside the Jewish community who are standing with us. We ought to thank them and embrace them. Just as we had friends during the Holocaust, we must always embrace them. We must always form those coalitions. I believe that Americans of all faiths and people of all faiths across this world understand what is at stake here. Because it really is about humanity. Israel will come out of this strong, and remain a beacon of hope in the Middle East with the United States standing by as one of its greatest allies.

I agree with Prime Minister Sharon that the peace table must be rebuilt and there must once again be a process in place to resolve at long last the difficult challenges of the Middle East.•

LOCAL LAW ENFORCEMENT ACT OF 2001

• Mr. SMITH of Oregon. Mr. President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of last year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred November 1, 1992, in Miami Beach, FL. A 45-year-old Miami Beach man was beaten outside a gay nightclub. The assailants, two teenagers, were heard to make anti-gay threats toward the victim.

I believe that government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.•

CHILD CARE

• Mr. BINGAMAN. Mr. President, I rise today to share with my colleagues a letter sent by almost 300 State legislators—Republican and Democrat alike from 40 States—calling on Congress to add substantial new funding for child care.

Just as parents have provided moving testimony to Congress about their struggles to find and afford child care, these state legislators join them in urging us to better fund child care to help families work and children succeed in school. Unfortunately, the Child Care and Development Block Grant (CCDBG), is currently serving only one out of every seven eligible children. And any progress that States have made in recent years is now being threatened by the challenging economic situations that the States are confronting. I, along with Senators KERRY and TORRICELLI, introduced the Children First Act of 2002, S. 2070, to help children, families and the states meet their child care needs.

People in New Mexico recognize that accessible, quality child care is a vital support for working families. Increased availability of child care will help to ensure the success of welfare reform, while also providing a critical support for parents earning low-incomes who are struggling to support their families and stay off the welfare rolls. State legislators see firsthand the integral role of child care in helping families to work.

Quality child care also provides children with the early learning experience they need to achieve in school. States have been strong partners in the effort to improve public education across the nation. We must help them to provide children with the experiences they need to be ready to learn.

These State legislators, including 14 legislators from New Mexico, today join the growing chorus of voices that we have heard from in support of increased child care funding. I ask unanimous consent that the text of their letter be printed in the RECORD.

The letter follows.

APRIL 24, 2002.

Re: Child Care
Hon. JEFF BINGAMAN,
U.S. Senate, Hart Senate Office Building,
Washington, D.C.

DEAR SENATOR BINGAMAN: Quality child care is one of the most important investments we can make to help families to work and children to enter school ready to learn. The undersigned state legislators believe that substantial new investments for child care must be a top federal priority.

Congress has a unique opportunity to address child care this year. As you undertake the reauthorization of the Child Care and Development Block Grant (CCDBG), we urge you to make sufficient new investments to ensure that 2 million more eligible children can receive assistance and that quality improvements can be made. This additional funding would approximately double the number of children currently getting assistance while improving the quality of care. Now, just 1 in 7 eligible children are receiving this important assistance.

This additional investment serves two critical purposes. First, child care is an essential work support that will help ensure the success of welfare reform. Working parents need stable, affordable, and safe child care for their children in order to get a job and stay employed. Parents who work in low wage jobs struggle to find quality child care that they can afford. State legislators see firsthand the critical value of child care and its integral role in helping families to work.

Second, quality care provides children with the early education experience they need to be ready for school and success in later life. States have been strong partners in the effort to improve the education of our children; we must provide them with the strongest foundation possible to prepare them to be ready to learn and to succeed in school.

Substantial new funding for the CCDBG would help states ensure that parents can work and children can have the quality early learning experiences that help prepare them to achieve in school. Now, as states struggle to overcome difficult economic challenges, we hope that we can count on your leadership in making additional investments in the CCDBG. This investment is one we cannot afford NOT to make.

Sincerely,

Rep. Steven C. Adams (VT), Sen. Richard Alarcón (CA), Rep. Elaine R. Alfano (VT), Rep. David Allaire (VT), Sen. Dede Alpert (CA), Assm. Elaine Alquist (CA), Sen. Ellen Anderson (MN), Sen. Jean Ankeney (VT), Assm. Dion Aroner (CA), Rep. Kathy B. Ashe (GA), Rep. Loranne Ausley (FL), Rep. Catherine Barrett (OH), Sen. Susan Bartlett (VT), Del. Viola O. Baskerville (VA), Rep. Gail C. ROLLCALL VOTES FOR APRIL 24, 2002

• Mr. JOHNSON. Mr. President, I was unable to vote during the consideration of S. 517, the Senate energy bill, on Wednesday, April 24. I traveled to my home State on that day to welcome and meet the President of the United States on his trip to Wentworth, SD.

Had I been here, I would have voted "nay" on rollcall vote No. 80, a motion to table Cantwell amendment No. 3234, "Nay" on rollcall No. 81, a motion to table Bingaman amendment No. 3316, "Yea" on rollcall No. 82, a motion to table Carper amendment No. 3197, "Nay" on rollcall No. 83, a motion to table Nickles amendment No. 3256, and "Nay" on rollcall vote No. 84, a motion to table Fitzgerald amendment No. 3214.•

PRESCRIPTION DRUG PRICE PARITY FOR AMERICANS ACT

• Mr. LEVIN. Mr. President, in March 2002, the National Institute for Health Care Management announced that for yet another year, prescription drug prices rose more than ten percent. Often we see these rising costs attributed to the plethora of new drugs now available and to the resources needed to produce such innovative technologies. Yet, I find this argument difficult to accept when Fortune 500 reported this month that while most industries report dwindling earnings, pharmaceutical companies were showing impressive gains. Drug prices rising steadily in a year when the pharmaceutical industry trumped all other industries in profitability is a correlation that should come to nobody as a surprise.

Pharmaceutical companies continue to insist that they are sinking under the heavy cost of research and development. But R&D costs are not causing high drug prices. Excessive profits are causing high drug prices, and excessive profits are keeping necessary drugs out of the financial reach of millions. It is time for Congress to challenge the practices of U.S. drug manufacturers. The Prescription Drug Price Parity for Americans Act exposes drug manufacturers to international price competition by allowing the reimportation of FDA-approved drugs from Canada, where prices are almost 35 percent lower. In the face of such competition, drug companies will be confronted with the fact that, all along, their prices have not only been exorbitant, but unwarranted.

Over the past few years, I have brought to the Senate floor countless stories of Michigan residents who have crossed the border into Canada simply to get their hands on affordable prescription drugs. They continue to do so as we speak, and I do not blame them when just a few months ago I found that Prilosec, a commonly prescribed gastrointestinal drug, was fifty dollars less in a pharmacy in Windsor, Canada, than in a pharmacy in neighboring Detroit. U.S. pharmaceutical manufacturers continue to operate in a closed market. They are still able to get away with charging $50 more than their Canadian counterparts. Additionally, they are currently the only ones who are allowed to import drugs approved by the FDA. American pharmacists and distributors deserve this right, too. Pharmacists and distributors deserve not only the right to purchase lower costing FDA-approved drugs abroad, but to bring these critical drugs back to America where the savings can be passed on to our own citizens. The Prescription Drug Price Parity for Americans Act, which improves upon last year's enacted version, would make this access possible.

High drug prices impact everyone—the young and the old, the insured and the uninsured—we all lose when prescription drugs are unaffordable. Much more needs to be done to expand access to lower priced prescription drugs sold abroad and the bill we are introducing today will help to offer that opportunity.•

THE 100TH ANNIVERSARY OF SELBYVILLE, DELAWARE

• Mr. BIDEN. Mr. President, there are times, it seems, when we celebrate "small-town America" as an idea, either in nostalgic longing or as an homage to traditional values and a spirit of community that seem elusive in the rush of modern life.

But the values and spirit of our small towns is more than just an idea; it is real, it is alive, it not only endures but thrives, to the benefit of us all, in places across this country, and certainly in towns up and down my home State of Delaware.

The Town of Selbyville, in Sussex County, the southernmost part of our State, is one such place. And it gives me great pleasure to pay tribute to Selbyville, as we celebrate the 100th anniversary of its incorporation.

The history of the Town goes back much further than 1902, to the late 1770s, when Benjamin Long, Arthur McCabe, John Murray, Reuben Stevens and Elijah Campbell bought a 250-acre tract at the head of the St. Martin's River, where a gristmill and sawmill operated.

The tract had been known as Sandy Branch, but about 50 years after the purchase, a country store owner named Sampson Selby began to mark packages for delivery "Selby-Ville."

In 1872, the Frankford and Breakwater Railroad reached the Town, so that its strawberries could be shipped to more distant markets. By 1918, Selbyville was the East Coast's main supplier of strawberries, and strawberries remained an important commercial base for the Town through the late 1930s.

Agriculture is still important to Selbyville, although now it's poultry and pork, corn and soybeans that occupy most of the farmers. And the Town has grown beyond its original business center, reaching out to US 113 with service industries and a shopping center.

The highway has become more important than the railroad, Selbyville has grown, but it is still a small Town a place of living history, a place driven by the values that grow from long-time association and the work ethic of an agricultural community, a place that feels like home.

We neighbors of Selbyville congratulate Mayor Clifton C. Murray; Town Council members Jay C. Murray, C. Frank Smith, III, Clarence W. Tingle, Jr., and Richard A. Duncan, Sr.; and all the citizens and friends of the Town, as they look forward to their official 100th anniversary celebration on May 25th.•

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Evans, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MEASURES REFERRED

The following concurrent resolution was read, and referred as indicated:

H. Con. Res. 324. Concurrent resolution commending President Pervez Musharraf of Pakistan for his leadership and friendship and welcoming him to the United States; to the Committee on Foreign Relations.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-6577. A communication from the Secretary of State, transmitting, pursuant to law, the Department's Annual Program Performance Report for Fiscal Year 2001; to the Committee on Governmental Affairs.

EC-6578. A communication from the Director, Office of Surface Mining, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Kentucky Regulatory Program" (KY–225–FOR) received on April 24, 2002; to the Committee on Energy and Natural Resources.

EC–6579. A communication from the Acting General Counsel, Office of National Drug Control Policy, Executive Office of the President, transmitting, pursuant to law, the report of a nomination for the position of Deputy Director of Supply Reduction, received on April 17, 2002; to the Committee on the Judiciary.

EC–6580. A communication from the Acting General Counsel, Office of National Drug Control Policy, Executive Office of the President, transmitting, pursuant to law, the report of a nomination for the position of Deputy Director of National Drug Control Policy, received on April 17, 2002; to the Committee on the Judiciary.

EC–6581. A communication from the Acting General Counsel, Office of National Drug Control Policy, Executive Office of the President, transmitting, pursuant to law, the report of a nomination for the position of Deputy Director for State and Local Affairs, received on April 17, 2002; to the Committee on the Judiciary.

EC–6582. A communication from the General Counsel of the Department of Defense, transmitting, a draft of proposed legislation related to civilian personnel, home-to-work transportation of employees, small business matters, reporting requirements in the Office of Federal Procurement Policy Act, and contractor claims; to the Committee on Armed Services.

EC–6583. A communication from the General Counsel of the Department of Defense, transmitting, a draft of proposed legislation relating to the management and operations of the Department of Defense; to the Committee on Armed Services.

EC–6584. A communication from the Director, Financial Crimes Enforcement Network, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Financial Crimes Enforcement Network; Anti-Money Laundering Programs for Financial Institutions" (RIN1506–AA28) received on April 24, 2002; to the Committee on Banking, Housing, and Urban Affairs.

EC–6585. A communication from the Director, Financial Crimes Enforcement Network, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Financial Crimes Enforcement Network; Anti-Money Laundering Programs for Operations of Credit Card Systems" (RIN1506–AA28) received on April 24, 2002; to the Committee on Banking, Housing, and Urban Affairs.

EC–6586. A communication from the Director, Financial Crimes Enforcement Network, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Financial Crimes Network; Anti-Money Laundering Programs for Money Services Business" (RIN1506–AA28) received on April 24, 2002; to the Committee on Banking, Housing, and Urban Affairs.

EC–6587. A communication from the Secretary of State, transmitting, pursuant to law, a report to review how consular officers issue visas in order to determine if consular shopping is a problem; to the Committee on Foreign Relations.

EC–6588. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, the report of additional legislative proposals for inclusion in the Foreign Relations Authorization Act, Fiscal Years 2002 and 2003; to the Committee on Foreign Relations.

EC–6589. A communication from the Director, Financial Crimes Enforcement Network, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Financial Crimes Enforcement Network; Anti-Money Laundering Programs for Mutual Funds" (RIN1506–AA28) received on April 24, 2002; to the Committee on Banking, Housing, and Urban Affairs.

EC–6590. A communication from the Secretary of the Treasury, transmitting, a draft of proposed legislation entitled "Federal Hospital Insurance Trust Fund Restoration Act of 2001" to restore the HI Trust Fund to its correct financial position; to the Committee on Finance.

EC–6591. A communication from the Regulations Officer of the Social Security Administration, transmitting, pursuant to law, the report of a rule entitled "Administrative Procedure for Imposing Penalties for False or Misleading Statements" (RIN0960–AF20) received on April 24, 2002; to the Committee on Finance.

EC–6592. A communication from the Chief of the Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "2001 Base Period T-Bill Rate" (RR–156448–01) received on April 25, 2002; to the Committee on Finance.

EC–6593. A communication from the Chief of the Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Master-Feeder Guidance" (Rev. Proc. 2001–57, 2001–50) received on April 25, 2002; to the Committee on Finance.

EC–6594. A communication from the Chief of the Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Disaster Relief Distributions by Charities to Victims of September 11, 2001 Terrorist Attacks" (Notice 2001–78, 2001–50) received on April 25, 2002; to the Committee on Finance.

EC–6595. A communication from the Chief of the Regulation Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Definition of Private Business Use" (RIN1545–AY88) received on April 25, 2002; to the Committee on Finance.

EC–6596. A communication from the Chairman of the Nuclear Regulatory Commission, transmitting, a draft of proposed legislation entitled "Nuclear Regulatory Commission Authorization Act for Fiscal Year 2003; to the Committee on Environment and Public Works.

EC–6597. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, a report entitled "Risk Assessment Guidance for Superfund Volume III Part A: Process for Conducting Probabilistic Risk Assessment"; to the Committee on Environment and Public Works.

EC–6598. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, a report entitled "Superfund Response Actions: Temporary Relocations Implementation Guidance OSWER 9230.00–97"; to the Committee on Environment and Public Works.

EC–6599. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans; South Carolina: Approval of Revisions to the 1-Hour Ozone Maintenance State Implementation Plan for the Cherokee County" (FRL7202–4) received on April 24, 2002; to the Committee on Environment and Public Works.

EC–6600. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Delegation of New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants for Guam and the States of Arizona, California, Hawaii, and Nevada" (FRL7201–2) received on April 24, 2002; to the Committee on Environment and Public Works.

EC–6601. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Outer Continental Shelf Air Regulations Consistency Update for Alaska; Correction" (FRL7201–8) received on April 24, 2002; to the Committee on Environment and Public Works.

EC–6602. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Protection of Stratospheric Ozone; Availability of Allowances to Produce Methyl Bromide for Developing Countries" (FRL7202–6) received on April 24, 2002; to the Committee on Environment and Public Works.

EC–6603. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Revisions to the California State Implementation Plan, Ventura County Air Pollution Control District and South Coast Air Quality Management District" (FRL7170–5) received on April 24, 2002; to the Committee on Environment and Public Works.

EC–6604. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Section 126 Rule: Revised Deadlines" (FRL7203–2) received on April 24, 2002; to the Committee on Environment and Public Works.

EC–6605. A communication from the Attorney-Advisor, National Highway Traffic Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Prohibitions on Sale or Lease of Defective and Noncompliant Motor Vehicles and Items of Motor Vehicle Equipment" (RIN2127–AI30) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6606. A communication from the Attorney-Advisor, National Highway Traffic Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Placement of Wheelchair Restraints on Buses" (RIN2127–AH03) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6607. A communication from the Assistant Chief, Competition Policy Division, Wireline Competition Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Implementation of Further Streamlining Measures for Domestic Section 214 Authorizations" (CC Doc. 01–150, FCC 02–78) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6608. A communication from the Acting Chief, Policy and Rules Division, Office of Engineering and Technology, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled

"Reallocation of the 216–220 MHz, 1427–1429 MHz, 1429–1432 MHz, 1432–1435 MHz, and 2385–2390 MHz, Government Transfer Bands" (ET Doc. No. 00-221, FCC 01-382) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6609. A communication from the Acting Chief, Policy and Rules Division, Office of Engineering and Technology, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Amendments of Part 15 of the Commission's Rules to allow certification of equipment in the 24.05–24.25 GHz band at field strength up to 2500 mv/m" (ET Doc. No. 98–156, FCC 01-357) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6610. A communication from the Acting Chief, Accounting Safeguards Division, Common Carrier Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "2000 Biennial Regulatory Review—Comprehensive Review of Accounting Requirements and ARMIS Reporting Requirements for Incumbent Local Exchange Carriers" (FCC 02–68) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6611. A communication from the Acting Chief, Policy and Rules Division, Office of Engineering and Technology, Federal Communication Commission, transmitting, pursuant to law, the report of a rule entitled "Amendment of Parts 2, 25 and 97 of the Commission's Rules with Regard to the Mobile-Satellite Service Above 1 GHz" (ET Doc. No. 98–142, FCC 02–23) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6612. A communication from the Chief, Enforcement Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "In the Matter of Amendment of Part 11 of the Commission's Rules Regarding the Emergency Alert System" (EB Doc. No. 01–66/FCC 02–64) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6613. A communication from the Legal Advisor, WTB/Auctions and Industry Analysis Division/Legal, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "In the Matter of Amendment of Part 1 of the Commission's Rules—Competitive Bidding Procedures" (WT Doc. No. 98–82; FCC 02–34) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6614. A communication from the Legal Branch Chief, Common Carrier Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Recovery of Carrier Specific Costs Directly Related to Providing Long-Term Number Portability" (FCC 02–16; CC Doc. 95–116) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6615. A communication from the Assistant Bureau Chief, Management, International Bureau, Federal Communications Commission, transmitting pursuant to law, the report of a rule entitled "Report and Order Establishing Rules and Policies for the Use of Spectrum for Mobile Satellite Services in the Upper and Lower L-Band" (IB Doc. No. 96–132, FCC 02–24) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6616. A communication from the Senior Deputy Bureau Chief, Common Carrier Bureau (Wireline Competition Bureau), Federal Communication Commission, transmitting, pursuant to law, the report of a rule entitled "Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunications Act of 1996, CC Doc. No. 96–128" (FCC 02–22) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–6617. A communication from the Chief, Accounting Policy Division, Common Carrier Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "In the Matter of Federal-State Joint Board on Universal Service, CC Docs. 96–45, 98–171, 90–571, 92–237, 99–200, 95–116, 98–170" (FCC02–43) received on April 25, 2002; to the Committee on Commerce, Science, and Transportation.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. LIEBERMAN, from the Committee on Governmental Affairs, without amendment:

H.R. 2305: A bill to require certain Federal officials with responsibility for the administration of the criminal justice system of the District of Columbia to serve on and participate in the activities of the District of Columbia Criminal Justice Coordinating Council, and for other purposes. (Rept. No. 107–145).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. CLELAND for the Committee on Armed Services.

Army nomination of Lt. Gen. Leon J. LaPorte.

By Mr. LEVIN for the Committee on Armed Services.

Air Force nomination of Maj. Gen. Daniel James III.

Air Force nominations beginning Brigadier General Thomas P. Maguire, Jr. and ending Colonel John M. White, which nominations were received by the Senate and appeared in the Congressional Record on April 22, 2002.

Marine Corps nomination of Maj. Gen. Gary H. Hughey.

Marine Corps nomination of Maj. Gen. James E. Cartwright.

Navy nomination of Adm. Thomas B. Fargo.

Navy nomination of Rear Adm. (lh) Charles H. Johnston, Jr.

Navy nomination of Vice Adm. Richard W. Mayo.

Navy nomination of Vice Adm. Walter F. Doran.

Mr. LEVIN. Mr. President, for the Committee on Armed Services I report favorably the following nomination lists which were printed in the RECORD on the dates indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that these nominations lie at the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

Army nominations beginning Catherine E Abbott and ending Jeffrey N Williams, which nominations were received by the Senate and appeared in the Congressional Record on February 6, 2002.

Army nominations beginning Eli T Alford and ending Eugene C Wardynski, Jr., which nominations were received by the Senate and appeared in the Congressional Record on February 6, 2002.

Army nominations beginning Bradley G Anderson and ending Donald A Zimmer, which nominations were received by the Senate and appeared in the Congressional Record on February 6, 2002.

Army nomination of Mary B. Bedell.

Army nomination of Rodney E. Hudson.

Army nomination of James R. Uhl.

Army nominations beginning Robert G. Anisko and ending Craig A. Webber, which nominations were received by the Senate and appeared in the Congressional Record on March 21, 2002.

Marine Corps nomination of Jason K. Fettig.

Army nomination of William K.C. Parks.

Army nominations beginning Michael J. Bennett and ending Robert S. Hough, which nominations were received by the Senate and appeared in the Congressional Record on April 9, 2002.

Army nominations beginning Frank E. Batts and ending Evelyn M. Wilson, which nominations were received by the Senate and appeared in the Congressional Record on April 9, 2002.

Marine Corps nominations beginning Bamidele J Abogunrin and ending Jay K Zollmann, which nominations were received by the Senate and appeared in the Congressional Record on April 9, 2002.

Army nominations beginning Michael D. Armour and ending David J. Wheeler, which nominations were received by the Senate and appeared in the Congressional Record on April 16, 2002.

Army nominations beginning Bryan T. Much and ending Lionel D. Robinson, which nominations were received by the Senate and appeared in the Congressional Record on April 16, 2002.

Army nominations beginning Carl V. Hopper and ending Timothy A. Reisch, which nominations were received by the Senate and appeared in the Congressional Record on April 16, 2002.

Army nomination of John R. Carlisle.

Army nomination of Bryan C. Sleigh.

Marine Corps nominations beginning Lester H. Evans, Jr. and ending Timothy M. Hathaway, which nominations were received by the Senate and appeared in the Congressional Record on April 16, 2002.

Marine Corps nomination of Thomas P. Barzditis.

Marine Corps nomination of Donald C. Scott.

Marine Corps nomination of John J. Fahey.

Air Force nominations beginning Loraine H. Anderson and ending Michael E. Young, which nominations were received by the Senate and appeared in the Congressional Record on March 6, 2002.

Air Force nomination of Marilyn D. Barton.

Air Force nomination of Larry O.* Goddard.

Navy nomination of Lawrence J. Holloway.

Navy nominations beginning Eric Davis and ending Frank D. Rossi, which nominations were received by the Senate and appeared in the Congressional Record on March 20, 2002.

Navy nomination of James E. Toczko.

Air Force nominations beginning Samuel E Aikele and ending Bryan M White, which nominations were received by the Senate and appeared in the Congressional Record on April 9, 2002.

Navy nomination of Bruce R. Christen.

Navy nomination of Cole J. Kupec.

Navy nomination of James E. Lamar.

Navy nominations beginning Robert E Bebermeyer and ending Benjamin A Shupp, which nominations were received by the Senate and appeared in the Congressional Record on April 9, 2002.

Air Force nomination of Michael B. Tierney.

Air Force nomination of Donald R. Copsey.

Army nominations beginning Mark H Abernathy and ending X0314, which nominations were received by the Senate and appeared in the Congressional Record on February 6, 2002.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. KERRY:

S. 2378. A bill to provide for the liquidation or reliquidation of certain entries; to the Committee on Finance.

By Mr. KERRY:

S. 2379. A bill to provide for the liquidation or reliquidation of certain entries of tomato sauce preparation; to the Committee on Finance.

By Mr. KERRY:

S. 2380. A bill to provide for the liquidation or reliquidation of certain entries of tomato sauce preparation; to the Committee on Finance.

By Mr. KERRY:

S. 2381. A bill to provide for the liquidation or reliquidation of certain entries of tomato sauce preparation; to the Committee on Finance.

By Mr. KERRY:

S. 2382. A bill to provide for the liquidation or reliquidation of certain entries of tomato sauce preparation; to the Committee on Finance.

By Mr. THURMOND:

S. 2383. A bill to amend chapter 71 of title 5, United States Code, to establish certain limitations relating to the use of official time by Federal employees, and for other purposes; to the Committee on Governmental Affairs.

By Mr. LEVIN:

S. 2384. A bill to establish a joint United States-Canada customs inspection project; to the Committee on Finance.

By Mr. BINGAMAN:

S. 2385. A bill entitled "The Production Incentive Certificate Program Revision Act"; to the Committee on Finance.

By Mrs. LINCOLN (for herself and Mr. SPECTER):

S. 2386. A bill to amend title XVIII of the Social Security Act to authorize physical therapists to diagnose, evaluate, and treat medicare beneficiaries without a requirement for a physician referral, and for other purposes; to the Committee on Finance.

By Mr. SANTORUM (for himself and Mr. GRASSLEY):

S. 2387. A bill to amend title II of the Social Security Act to deny social security old-age, survivors, and disability insurance benefits to fugitive felons and individuals fleeing prosecution, and for other purposes; to the Committee on Finance.

By Mr. HOLLINGS:

S. 2388. A bill to direct the Secretary of the Interior to study certain sites in the historic district of Beaufort, South Carolina, relating to the Reconstruction Era; to the Committee on Energy and Natural Resources.

By Mr. ALLEN:

S. 2389. A bill to designate the facility of the United States Postal Service located at 205 South Main Street in Culpeper, Virginia, as the "D. French Slaughter, Jr. Post Office Building"; to the Committee on Governmental Affairs.

By Mr. DURBIN:

S. 2390. A bill to improve health care in rural areas; to the Committee on Finance.

By Mr. DURBIN:

S. 2391. A bill to amend the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000 to permanently apply the Balanced Budget Act of 1997 medicaid disproportionate share transmission payment rule to public hospitals in all States, and for other purposes; to the Committee on Finance.

By Mr. EDWARDS (for himself, Mr. SMITH of Oregon, and Mrs. CLINTON):

S. 2392. A bill to amend the National and Community Service Act of 1990 to establish a Community Corps, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. DURBIN (for himself, Mr. KENNEDY, Mr. WELLSTONE, and Mr. CORZINE):

S. 2393. A bill to amend the Public Health Service Act to provide protections for individuals who need mental health services, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mrs. CLINTON (for herself, Mr. DEWINE, Mr. DODD, Mrs. MURRAY, and Mr. KENNEDY):

S. 2394. A bill to amend the Federal Food, Drug, and Cosmetic Act to require labeling containing information applicable to pediatric patients; to the Committee on Health, Education, Labor, and Pensions.

ADDITIONAL COSPONSORS

S. 410

At the request of Mr. CRAPO, the name of the Senator from Washington (Ms. CANTWELL) was added as a cosponsor of S. 410, a bill to amend the Violence Against Women Act of 2000 by expanding legal assistance for victims of violence grant program to include assistance for victims of dating violence.

S. 710

At the request of Mr. KENNEDY, the names of the Senator from Kansas (Mr. BROWNBACK) and the Senator from Kansas (Mr. ROBERTS) were added as cosponsors of S. 710, a bill to require coverage for colorectal cancer screenings.

S. 813

At the request of Mr. SANTORUM, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 813, a bill to amend title XVIII of the Social Security Act to increase payments under the Medicare Program to Puerto Rico hospitals.

S. 999

At the request of Mr. BINGAMAN, the names of the Senator from Michigan (Ms. STABENOW), the Senator from Nebraska (Mr. NELSON), and the Senator from Washington (Ms. CANTWELL) were added as cosponsors of S. 999, a bill to amend title 10, United States Code, to provide for a Korea Defense Service Medal to be issued to members of the Armed Forces who participated in operations in Korea after the end of the Korean War.

S. 1329

At the request of Mr. JEFFORDS, the name of the Senator from Colorado (Mr. ALLARD) was added as a cosponsor of S. 1329, a bill to amend the Internal Revenue Code of 1986 to provide a tax incentive for land sales for conservation purposes.

S. 1370

At the request of Mr. MCCONNELL, the name of the Senator from Nevada (Mr. ENSIGN) was added as a cosponsor of S. 1370, a bill to reform the health care liability system.

S. 2007

At the request of Mr. INHOFE, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 2007, a bill to provide economic relief to general aviation entities that have suffered substantial economic injury as a result of the terrorist attacks perpetrated against the United States on September 11, 2001.

S. 2010

At the request of Mr. LEAHY, the names of the Senator from Georgia (Mr. CLELAND) and the Senator from North Carolina (Mr. EDWARDS) were added as cosponsors of S. 2010, a bill to provide for criminal prosecution of persons who alter or destroy evidence in certain Federal investigations or defraud investors of publicly traded securities, to disallow debts incurred in violation of securities fraud laws from being discharged in bankruptcy, to protect whistleblowers against retaliation by their employers, and for other purposes.

S. 2079

At the request of Mr. ROCKEFELLER, the name of the Senator from North Dakota (Mr. CONRAD) was added as a cosponsor of S. 2079, a bill to amend title 38, United States Code, to facilitate and enhance judicial review of certain matters regarding veteran's benefits, and for other purposes.

S. 2189

At the request of Mr. ROCKEFELLER, the name of the Senator from Massachusetts (Mr. KENNEDY) was added as a cosponsor of S. 2189, a bill to amend the Trade Act of 1974 to remedy certain effects of injurious steel imports by protecting benefits of steel industry retirees and encouraging the strengthening of the American steel industry.

S. 2194

At the request of Mrs. FEINSTEIN, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 2194, a bill to hold accountable the Palestine Liberation Organization and the Palestinian Authority, and for other purposes.

S. 2215

At the request of Mr. SANTORUM, the name of the Senator from New Hampshire (Mr. SMITH) was added as a cosponsor of S. 2215, a bill to halt Syrian support for terrorism, end its occupation of Lebanon, stop its development of weapons of mass destruction, cease its illegal importation of Iraqi oil, and by so doing hold Syria accountable for its role in the Middle East, and for other purposes.

S. 2221

At the request of Mr. ROCKEFELLER, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 2221, a bill to temporarily increase the Federal medical assistance percentage for the Medicaid Program.

S. 2233

At the request of Mr. THOMAS, the names of the Senator from Nebraska (Mr. NELSON) and the Senator from South Dakota (Mr. DASCHLE) were added as cosponsors of S. 2233, a bill to amend title XVIII of the Social Security Act to establish a Medicare subvention demonstration project for veterans.

S. 2349

At the request of Mr. THURMOND, the name of the Senator from South Carolina (Mr. HOLLINGS) was withdrawn as a cosponsor of S. 2349, a bill to suspend temporarily the duty on Methoxy acetic acid.

S. 2359

At the request of Mr. THURMOND, the name of the Senator from South Carolina (Mr. HOLLINGS) was withdrawn as a cosponsor of S. 2359, a bill to suspend temporarily the duty with respect to Oxalic Anilide.

S. RES. 246

At the request of Mr. CAMPBELL, the name of the Senator from New Hampshire (Mr. SMITH) was added as a cosponsor of S. Res. 246, a resolution demanding the return of the USS *Pueblo* to the United States Navy.

S. RES. 247

At the request of Mr. LIEBERMAN, the name of the Senator from New Hampshire (Mr. SMITH) was added as a cosponsor of S. Res. 247, a resolution expressing solidarity with Israel in its fight against terrorism.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. THURMOND:

S. 2383. A bill to amend chapter 71 of title 5, United States Code, to establish certain limitations relating to the use of official time by Federal employees, and for other purposes; to the Committee on Governmental Affairs.

Mr. THURMOND. Mr. President, I rise today to introduce the Workplace Integrity Act of 2002, a bill that would monitor and greatly restrict the time spent by Federal employees on union-related activities. Federal spending on union activities is spiraling out of control, and this legislation, if enacted into law, would send a message to the American people that Congress is committed to curbing wasteful practices in our government. I think that my colleagues on both sides of the aisle would agree that we have a duty to ensure that limited monies are used both reasonably and efficiently.

One area of labor-related spending that should be closely examined is the use of official time. Official time is paid time when Federal employees represent union employees and bargaining units. Federal employees may use official time to take part in activities such as employee-initiated grievance procedures and union-initiated representational duties. Surprisingly, there are few limits on the use of official time. If costs associated with this practice are not contained, these expenditures will become exorbitant drains on the Federal treasury. Congress should make the fiscally responsible decision to impose sensible limitations on this practice.

Although significant resources are spent on union activities in the Federal Government each year, current costs are unknown. Limited studies indicate that the costs are high. In 1998, the Office of Personnel Management issued a report that tallied the costs associated with union activity in the Federal Government. The report found that during the first six months of calendar year 1998, official time totaled 2,171,774 hours, and its cost had a dollar value of $48,110,284. An astounding 23,965 Federal employees used official time, and 946 employees spent an alarming 100 percent of their time performing union-related activities. The report also found that 912 employees spent between 75 percent and 100 percent of their work hours on official time, and 1,152 employees spent between 50 percent and 75 percent on official time. The Department of the Treasury alone spent over $9 million on official time during this six-month time period. Based on the amount spent in six months, it is not unreasonable to expect that Treasury spent over $18 million during the entire 1998 calendar year. This report demonstrates that large sums are being spent on union activity, and I feel strongly that Congress should insist on a regular accounting of these costs.

Additionally, other studies indicate that union-related costs are not only high, but are increasing. In 1996, the General Accounting Office issued a report on the costs of labor-related activities at the Social Security Administration. The report found a steady growth in costs at the SSA during the 1990s. From calendar year 1990 to 1995, the amount of time spent on union activities at SSA increased from 254,000 hours to 413,000 hours, at a cost increase of over $6 million. In Fiscal Year 1995 alone, the cost attributed to official time was $12.6 million, the equivalent of the salaries and expenses of approximately 200 employees. More recently, the Commissioner of Social Security reported that the total expenses of labor activities in Fiscal Year 2000 was $13.5 million, an increase of $1.1 million over the Fiscal Year 1999 level.

These increasing costs are not limited to the Social Security Administration. A 1996 hearing of the Civil Service Subcommittee of the House Government Reform and Oversight Committee revealed that the use of official time at the Internal Revenue Service increased 27 percent from 1992 to 1996. At the U.S. Customs Service, the rising cost of union activity was more dramatic. The amount spent on official time increased from $470,000 in 1993 to more than $1 million in 1996, a jump of 119 percent. I am particularly concerned about these reports of rapidly expanding costs.

Despite the high and increasing costs, we do not presently know the total amount spent by the Federal Government on official time. We can estimate based on incomplete data, but we do not regularly gather information that would enable us to know the true costs and spending trends. This is unacceptable.

Furthermore, we do not even know the true costs at the Social Security Administration, the one agency where the use of official time has been thoroughly studied. The GAO report on union activity at the SSA found that the reporting system did not track effectively the number of union representatives charging time to union activities or the actual time spent. A subsequent report issued in 1998 by the SSA Inspector General also called into question the reliability of the data collected by SSA's reporting system. The Inspector General's report concluded that almost half of the SSA managers who were surveyed indicated that the system for supervising official time spent by employees on union activities was either somewhat ineffective or very ineffective. These findings demonstrate that Congress must do a better job of monitoring the costs associated with labor-related activities in the Federal government.

My bill would accomplish two important objectives. First, this legislation would require the collection of data on the amount of money spent on official time in the entire Federal Government. By requiring the collection of data associated with official time, Congress will have the information necessary to control costs in the future. Second, my bill would help ensure that Federal funds are spent wisely and judiciously. This legislation would limit a Federal employee's use of official time to 25 percent of the employee's total hours worked. I believe that this limitation is entirely reasonable. It would allow Federal employees to spend up to a quarter of their time on union-related activities and would also protect American taxpayers from ever-increasing costs.

During a period of fiscal discipline, we should seek to know the true costs of any activities supported by the American taxpayers. I encourage my colleagues to support my effort to place reasonable limitations on the taxpayer financing of union-related activities. By bringing the true costs to light and by seeking to restrain these escalating expenses, Congress will responsibly exercise its power of the purse. Furthermore, this bill would send a message to American taxpayers that their hard-earned dollars will not be spent in an uncontrolled and wasteful manner. To turn a blind eye to costs would be an abdication of our duty to the American people.

I ask unanimous consent that the text of the legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2383

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Workplace Integrity Act of 2002".

SEC. 2. LIMITATIONS RELATING TO THE USE OF OFFICIAL TIME BY FEDERAL EMPLOYEES.

Section 7131 of title 5, United States Code, is amended to read as follows:

"§ 7131. Official time

"(a) Official time may only be granted to an employee representing an exclusive representative to allow such employee to—

"(1) present or process a grievance on behalf of another employee in a unit represented by the exclusive representative;

"(2) be present during a grievance proceeding involving an employee in a unit represented by the exclusive representative;

"(3) negotiate a collective bargaining agreement under this chapter; or

"(4) take part in any proceedings approved by the agency.

"(b) Official time may only be granted to an employee represented by an exclusive representative (in a circumstance not covered by subsection (a)) to allow such employee to—

"(1) present a grievance on the employee's own behalf under a negotiated grievance procedure; or

"(2) take part in any proceedings approved by the agency.

"(c) Notwithstanding subsections (a) and (b), official time may not be granted to any employee for activities relating to the internal business of a labor organization (including the solicitation of membership, elections of labor organization officials, or collection of dues).

"(d) Official time under subsections (a) and (b) may be granted in any amount that the agency and the exclusive representative involved agree to be reasonable, necessary, and in the public interest, but only to the extent that, with respect to any employee, the total amount of official time granted to such employee for use during the calendar year does not exceed 25 percent of the total amount of time the employee would otherwise be in duty status during the same period.

"(e)(1) Not later than April 1 of each year, the Office of Personnel Management shall submit to the President and each House of Congress a report on the use of official time under this section. The report shall apply with respect to the calendar year preceding the submission date.

"(2) Each report under this subsection shall include, in the aggregate and by each agency—

"(A) the total number of employees to whom official time was granted under this section;

"(B) the total number of employee-hours of official time granted under this section;

"(C) the total costs attributable to official time granted under this section; and

"(D) the total number of each activity (as categorized by the Office) for which official time was granted under this section.

"(3) Agencies shall submit to the Office such data as the Office may by regulation require in connection with any report under this subsection.".

SEC. 3. EFFECTIVE DATE.

The amendment made by this Act shall take effect on the date of enactment of this Act, except that the first report under section 7131(e) of title 5, United States Code (as added by this Act) shall be submitted on the first April 1, following the date occurring 6 months after the date of enactment of this Act.

By Mr. BINGAMAN:

S. 2385. A bill entitled "The Production Incentive Certificate Program Revision Act"; to the Committee on Finance.

Mr. BINGAMAN. Mr. President, today I am introducing legislation to make several technical adjustments to the Production Incentive Certificate, PIC, program. The PIC program helps assure that the watch and jewelry industries in the U.S. insular possessions, particularly the U.S. Virgin Islands, USVI, will continue to provide critical sources of employment in the insular possessions. This legislation would improve the operation of the PIC program for both watch and jewelry manufacturers in the U.S. Virgin Islands and, over the longer term, would protect the PIC program and related duty incentives from the effects of any future reduction or elimination of watch tariffs.

The watch industry is the largest light manufacturing industry in the USVI and remains one of the most important direct and indirect sources of private sector employment in the Territory. The insular watch production industry is also highly import-sensitive and faces continued threats from multinational watch producers, who have continued to move their watch production to lower wage countries.

Congress and successive Administrations have recognized the importance of the watch industry to the USVI—and the import sensitivity of watches—through a series of significant enactments and decisions. The General Note 3(a) program, which Congress has incorporated in the Harmonized Tariff Schedule, grants duty-free treatment for qualifying insular possession watches and thereby provides a relative duty advantage vis-a-vis foreign watch producers. Through the PIC program, insular possession watch producers can obtain duty refunds based on creditable wages paid for watch production in the insular possessions. Additionally, in recognition of the relative advantage that duty-free treatment of watches provides to insular possession watch producers, Congress and successive Administrations have resisted efforts to eliminate watch duties on a worldwide basis.

In 1999, Congress extended the General Note 3(a) program and PIC program benefits to jewelry produced in the insular possessions. In doing so, Congress sought to promote vital employment in the insular possessions by extending existing watch industry incentives to jewelry production—an industry which utilizes many of the same skills and facilities as watch production. In recent months, three mainland jewelry manufacturing companies have established operations in the USVI and are expected to file for PIC benefits in the near future.

Recently, watch and jewelry producers in the Virgin Islands have consulted with the American Watch Association and U.S. watch firms that import substantial quantities of foreign made watches regarding proposals to preserve and protect benefits for insular possession watches and jewelry, while also mitigating the impact of any future reduction of duties on imported watches. These discussions have resulted in the parties' unified support for the legislation that I am introducing today.

The various technical adjustments set forth in this legislation would enhance the ability of insular watch and jewelry producers to utilize the PIC program while, at the same time, retaining overall PIC program unit and dollar value limits. Additionally, the legislation would establish a standby mechanism to mitigate the impact of any possible future reduction or elimination of watch duties on a worldwide basis through trade negotiations and congressional action. This mechanism—which has broad support among the insular and domestic watch manufacturing and distribution sectors—would ensure that any future reduction in watch duties does not disturb the relative value of current duty incentives and PIC program benefits for the insular watch industry. Importantly, this standby mechanism would have no effect on current watch duties or PIC program limits.

Under the PIC program, producers of watches and jewelry in the U.S. insular possessions are issued certificates by the Department of Commerce for specified percentages of the producer's verified creditable wages for production in the insular possessions. Based on these certificates, the producers are entitled to apply to the U.S. Customs Service for refunds on duties paid on watches. Certain technical provisions of the PIC program, however, impose unnecessary burdens on producers. These include unclear definitions, unduly complex PIC refund provisions and special issues relating to the extension of PIC benefits to jewelry. The legislation that I am introducing today includes technical adjustments to the PIC program to eliminate these burdens, while retaining overall PIC program limits on units and benefits.

Currently, producers must assemble often voluminous import entry information and apply to U.S. Customs for wage-based refunds. If a producer has not paid sufficient import duties, the producer must sell the PIC certificate to another firm, which then applies for the duty refund. In either event, the PIC program assures that an insular producer is compensated for a specified percentage of its verified production wages, regardless of whether it has paid the corresponding amount of import duties. The bill would simplify this refund process by providing producers with the option of applying directly to the Treasury Department for the full amount of their verified PIC program certificates.

For watches, the PIC program establishes a 750,000 unit limitation on the number of watches used to calculate an individual producer's PIC benefits. When the PIC program was extended to jewelry by Congress, this upper limit was also extended to each individual jewelry producer's qualifying jewelry production. While this limit may be appropriate for watches, which are technically sophisticated and relatively expensive, I am informed that it is likely to unduly limit jewelry production in the insular possessions, which relies on large quantities of relatively lower-priced units. My proposed legislation would address this issue by eliminating the 750,000 unit per producer limit for jewelry, while retaining the overall unit and dollar value limits for the PIC program as a whole.

When Congress extended the PIC program to jewelry in 1999, it sought to encourage the phased establishment of new jewelry production in the insular possessions through a transition rule. Under this rule, jewelry items that are assembled, but not substantially transformed, in the insular possessions before August 9, 2001 would be eligible for PIC program and duty-free benefits. Although this new provision has helped attract new jewelry production to the USVI, I am informed that some potential producers are facing administrative, technical and business delays which may severely erode the benefits of the transition rule. The bill would address this issue by extending this transition rule for new insular jewelry producers for an additional 18 months.

The bill would help to facilitate long term planning by existing insular producers and attract new producers to the insular possessions by extending the authorized term of the PIC program until 2015. The bill would also clarify current law by stating explicitly that verified wages include the amount of any fringe benefits.

For many years, multinational companies that import substantial quantities of foreign-made watches into the United States have sought to reduce or eliminate U.S. watch duties, either through multiple petitions for duty-free treatment for watches from certain GSP-eligible countries or through worldwide elimination of watch duties in trade negotiations. Insular possession watch producers have repeatedly opposed these efforts on the ground that the elimination of duties on foreign watches would eliminate the relative benefit that insular possession producers receive through duty-free treatment under the General Note 3(a) program and, in turn, lead to the eventual demise of the insular watch industry. Successive Congresses and Administrations have agreed with these arguments and refused to erode the benefits that insular possession producers receive under General Note 3(a) and the PIC program.

These continued battles over watch duties and the insular possession watch program have imposed significant resource burdens on Virgin Islands watch producers and the Government of the U.S. Virgin Islands, diverting resources and energy that could better be spent in enhancing growth and employment in the insular watch and jewelry industries. Virgin Islands watch producers, the AWA and representatives of U.S. firms that import foreign-made watches are seeking to address this long-standing issue by reconciling existing insular possession watch benefits with any worldwide reduction or elimination of watch duties. The legislation that I am introducing contains two mechanisms to help mitigate the impact of any future reduction or elimination of watch duties, while also preserving existing watch benefits.

The bill would put in place a standby mechanism that would preserve the benefits of duty-free treatment under General Note 3(a) in the event that Congress and a future Administration were to agree to eliminate or reduce duties on watches. This mechanism would preserve the relative tariff advantage that insular producers currently enjoy over foreign-made watches by incorporating a "hold harmless" provision in the PIC program. Under this standby mechanism, if watch duties were reduced or eliminated in the future, PIC payments to insular producers would also include an amount that reflects the value to the insular producers of the current General Note 3(a) benefit. This mechanism would facilitate the eventual reduction or elimination of watch duties on a worldwide basis while helping to assure that any such duty reduction does not lead to the demise of the insular industry.

Currently, payments under the PIC program are funded from watch duties. An alternative funding source would be required if watch duties were reduced or eliminated on a worldwide basis. The legislation that I am introducing provides that PIC benefits can be funded from jewelry duties or duties on other appropriate products.

It is important to bear in mind that these two mechanisms would only be activated in the event that watch duties are, in fact, reduced or eliminated in the future—decisions that would require considerable deliberation and consultation by the President and Congress. By assuring the continuation of current benefits for insular producers, however, these mechanisms would greatly mitigate the impact of any eventual decision by Congress to reduce or eliminate watch duties.

Congress has long recognized that the current watch industry incentives are critical to the health and survival of the watch industry in the U.S. Virgin Islands. By adopting this legislation, Congress can improve the operation of the PIC program for insular watch and jewelry producers and establish a mechanism to facilitate the eventual reduction or elimination of watch duties on a worldwide basis.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2385

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AMENDMENTS TO UNITED STATES INSULAR POSSESSION PROGRAM.

(a) PRODUCTION CERTIFICATES.—Additional U.S. Note 5(h) to chapter 91 of the Harmonized Tariff Schedule of the United States is amended—

(1) by amending subparagraphs (i) and (ii) to read as follows:

"(i) In the case of each of calendar years 2002 through 2015, the Secretaries jointly, shall—

"(A) verify—

"(1) the wages paid in the preceding calendar year by each producer (including the value of usual and customary fringe benefits)—

"(I) to permanent residents of the insular possessions; and

"(II) to workers providing training in the insular possessions in the production or manufacture of watch movements and watches or engaging in such other activities in the insular possessions relating to such production or manufacture as are approved by the Secretaries; and

“(2) the total quantity and value of watches produced in the insular possessions by that producer and imported into the customs territory of the United States; and

“(B) issue to each producer (not later than 60 days after the end of the preceding calendar year) a certificate for the applicable amount.

“(ii) For purposes of subparagraph (i), except as provided in subparagraphs (iii) and (iv), the term ‘applicable amount’ means an amount equal to the sum of—

“(A) 90 percent of the producer's creditable wages (including the value of any usual and customary fringe benefits) on the assembly during the preceding calendar year of the first 300,000 units; plus

“(B) the applicable graduated declining percentage (determined each year by the Secretaries) of the producer's creditable wages (including the value of any usual and customary fringe benefits) on the assembly during the preceding calendar year of units in excess of 300,000 but not in excess of 750,000; plus

“(C) the difference between the duties that would have been due on the producer's watches (excluding digital watches) imported into the customs territory of the United States during the preceding calendar year if the watches had been subject to duty at the rates set forth in column 1 under this chapter that were in effect on January 1, 2001, and the duties that would have been due on the watches if the watches had been subject to duty at the rates set forth in column 1 under this chapter that were in effect for such preceding calendar year.”; and

(2) by amending subparagraph (v) to read as follows:

“(v)(A) Any certificate issued under subparagraph (i) shall entitle the certificate holder to secure a refund of duties equal to the face value of the certificate on watches, watch movements, and articles of jewelry provided for in heading 7113 that are imported into the customs territory of the United States by the certificate holder. Such refunds shall be made under regulations issued by the Treasury Department. Not more than 5 percent of such refunds may be retained as a reimbursement to the Customs Service for the administrative costs of making the refunds. If the Secretary of the Treasury determines that there is an insufficient level of duties from watch and watch-related tariffs, the Secretary may authorize refunds of duties collected on jewelry under chapter 71 or any other duties that the Secretary determines are appropriate.

“(B) At the election of the certificate holder and upon making the certification described in this clause, the Secretary of the Treasury shall pay directly to the certificate holder the face value of the certificate, less the value of—

“(1) any duty refund previously claimed by the holder under the certificate, and

“(2) a discount of not more than 2 percent of the face value of the certificate,

as determined by the Secretary of the Treasury.

“(C) Direct payments under clause (B) shall be made under regulations issued by the Secretary of the Treasury. Such regulations shall assure that a certificate holder is required to provide only the minimum documentation necessary to support an application for direct payment. A certificate holder shall not be eligible for direct payment under clause (B) unless the certificate holder certifies to the Secretaries that the funds received will be reinvested or utilized to support and continue employment in the Virgin Islands.

“(D) The Secretary of the Treasury is authorized to make the payments provided for in clause (B) from duties collected on watches, watch movements, and parts therefor. If such duties are insufficient, the Secretary of the Treasury is authorized to make the payments from duties collected on jewelry under chapter 71 or any other duties that the Secretary determines are appropriate.”.

(b) JEWELRY.—Additional U.S. Note 3 to chapter 71 of the Harmonized Tariff Schedule of the United States is amended—

(1) by redesignating paragraphs (b), (c), (d), and (e) as paragraphs (c), (d), (e), and (f), respectively;

(2) by inserting after paragraph (a) the following new paragraph:

“(b) The 750,000 unit limitation in additional U.S. Note 5(h)(ii)(B) to chapter 91 shall not apply to articles of jewelry subject to this note.”; and

(3) by striking paragraph (f), as so redesignated, and inserting the following:

“(f) Notwithstanding any other provision of law, any article of jewelry provided for in heading 7113 that is assembled in the Virgin Islands, Guam, or American Samoa by a jewelry manufacturer or jewelry assembler that commenced jewelry manufacturing or jewelry assembly operations in the Virgin Islands, Guam, or American Samoa after August 9, 2001, shall be treated as a product of the Virgin Islands, Guam, or American Samoa for purposes of this note and General Note 3(a)(iv) of this Schedule if such article is entered no later than 18 months after such jewelry manufacturer or jewelry assembler commenced jewelry manufacturing or jewelry assembly operations in the Virgin Islands, Guam, or American Samoa.”.

SEC. 2. EFFECTIVE DATE.

The amendments made by this Act shall apply with respect to goods imported into the customs territory of the United States on or after January 1, 2002.

By Mr. SANTORUM (for himself and Mr. GRASSLEY):

S. 2387. A bill to amend title II of the Social Security act to deny social security old-age, survivors, and disability insurance benefits to fugitive felons and individuals fleeing prosecution, and for other purposes; to the Committee on Finance.

Mr. SANTORUM. Mr. President, the Federal Government should not be paying benefits to fugitives from justice. Today, I am introducing legislation which denies Social Security Old Age Survivors Insurance, OASI, and Social Security Disability Insurance, DI, benefits to fugitive felons and requires the Social Security Administration, SSA, to disclose information about the fugitives to law enforcement officers. I am pleased to be joined in this effort by the distinguished ranking member of the Finance Committee, Senator GRASSLEY.

There is precedent for this legislation in current law. The Personal Responsibility and Work Opportunity Act of 1996, P.L. 104–193, disqualified fugitive felons from receiving welfare cash assistance, Supplemental Security Income, SSI, food stamps, and housing benefits. Likewise, it allowed law enforcement officers to obtain the current addresses, photographs, and Social Security numbers of fugitives who received such assistance. I was the author of these prohibitions on Federal assistance for fugitive felons.

I am pleased to report that the current fugitive felons law is having a positive effect. It is saving taxpayers millions of dollars. More important, it is getting violent criminals off the streets. For instance, the Inspector General of USDA reported that as of January 2, 2001, more than 6,800 fugitive felon food stamp recipients were arrested. Similarly, SSA identified more than 28,000 fugitive SSI recipients, 14,000 of whom were identified in fiscal year 2000.

The legislation offered by Senator GRASSLEY and myself would further curtail a fugitive's financial ability to escape the law. In testimony before the Finance Committee on April 25, 2001, James G. Huse, Jr., Inspector General of the SSA, expressed frustration that SSA does not have the statutory authority to deny OASI and DI benefits to fugitive felons. The inability to cut off benefits to these fugitives costs the Social Security Trust Fund $39 million per year. He also testified that the Privacy Act prohibits SSA from providing law enforcement officials with information, such as the current addresses and Social Security numbers of fugitive felon recipients, which could lead to their apprehension. Mr. Huse told the Finance Committee,

> . . . this waste of Federal funds goes to the heart of our mission, and our inability to stop these payments is frustrating. What is more frustrating to us as a law enforcement organization is that these benefits were paid to some 17,300 fugitives, many of whom could have been apprehended had my office been able to provide law enforcement agencies with felons' addresses. The loss of money is disturbing; the thousands of criminals that could have been incarcerated but remain free is worse.

Mr. Huse further advised, “Congress may want to consider legislation, this session, that will permit us to treat felons as felons, regardless of the types of Social Security benefits they are using to finance their flight from justice.” That is exactly what this bill does.

The majority of Americans would agree it is bad policy to pay Federal benefits to fugitives from justice. The effect of such policy is to give criminals the financial means to continue avoiding the law. It is time to close legal loopholes which allow felons to receive OASI and DI payments while in fugitive status. I urge my colleagues to support this legislation.

Thank you, Mr. President.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2387

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION. 1. DENIAL OF SOCIAL SECURITY OLD-AGE AND SURVIVORS AND DISABILITY INSURANCE BENEFITS TO FUGITIVE FELONS AND INDIVIDUALS FLEEING PROSECUTION; PROVISION OF INFORMATION TO LAW ENFORCEMENT OFFICERS.

Section 202(x) of the Social Security Act (42 U.S.C. 402(x)) is amended—

(1) in the heading, by striking "Prisoners" and all that follows and inserting the following: "Prisoners, Certain Other Inmates of Publicly Funded Institutions, and Fugitives";

(2) in paragraph (1)(A)(ii)(IV), by striking "or" at the end;

(3) in paragraph (1)(A)(iii), by striking the period at the end and inserting a comma;

(4) by inserting after paragraph (1)(A)(iii) the following:

"(iv) is fleeing to avoid prosecution, or custody or confinement after conviction, under the laws of the place from which the person flees, for a crime, or an attempt to commit a crime, which is a felony under the laws of the place from which the person flees, or which, in the case of the State of New Jersey, is a high misdemeanor under the laws of such State, or

"(v) is violating a condition of probation or parole imposed under Federal or State law."; and

(5) in paragraph (3), by adding at the end the following new subparagraph:

"(C) Notwithstanding the provisions of section 552a of title 5, United States Code, or any other provision of Federal or State law (other than section 6103 of the Internal Revenue Code of 1986 and section 1106(c) of this Act), the Commissioner shall furnish any Federal, State, or local law enforcement officer, upon the written request of the officer, with the current address, Social Security number, and photograph (if applicable) of any individual who receives a benefit under this title, if the officer furnishes the Commissioner with the name of the individual, and other identifying information as reasonably required by the Commissioner to establish the unique identity of the individual, and notifies the Commissioner that—

"(i) the individual—

"(I) is described in clause (iv) or (v) of paragraph (1)(A); and

"(II) has information that is necessary for the officer to conduct the officer's official duties; and

"(ii) the location or apprehension of the individual is within the officer's official duties.".

By Mr. EDWARDS (for himself, Mr. SMITH of Oregon, and Mrs. CLINTON):

S. 2392. A bill to amend the National and Community Service Act of 1990 to establish a Community Corps, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. EDWARDS. Mr. President, I'm very pleased to rise today to introduce the School Service Act of 2002. This is legislation that can help foster the next generation of great American citizens.

When we think about education, we usually think about English, math, and science. But I believe education needs to do more than provide knowledge and career skills. It also has to teach citizenship, the lesson that America is about not only rights but also responsibilities, and that each of us, however humble or wealthy, has a calling to our community and to our country. In my view, service to the community ought to be more than just another afterschool activity, like basketball or photography. Service should be a part of every child's education, as much as math or science or anything else. If our children are going to believe in serving their community, we have to give them the experience of service while they're young, so they know in their bones that it matters.

In the last few months, the President and several of my Senate colleagues have offered proposals to engage more adult Americans in expanded national service programs. These are promising ideas, but I believe they're left out one key group: school-age students, especially high schoolers.

In the best service initiatives with teenagers, we've seen remarkable benefits, for students and the communities they serve. In one program, adults who had completed service projects more than 15 years earlier were still more likely to be volunteers and voters than adults who hadn't. In another program, kids who served had a 60 percent lower drop-out rate and 18 percent lower rate of school suspension than kids who didn't.

Just as important, the service also has tremendous impacts on communities. High school kids have built community centers in run-down neighborhoods. They've cleaned up polluted ponds. They've helped small children learn to read, and offered comfort to the elderly and sick. People in the community say this work is worth four times more than it actually costs.

It's time to encourage more States and cities to develop service programs for all their students. It's not enough that students study history to graduate. We should expect them to contribute to history, too. Some of my favorite models for engaging children in service come from my own State, in fact, from the high school in Raleigh that my children have attended.

With these thoughts in mind, today I am introducing, together with Senator GORDON SMITH and Senator CLINTON, the School Service Act of 2002. The proposal is very simple: We say to a limited number of States and cities, if you have schools that will make sure students engage in high-quality service before graduation, we will support those schools' efforts.

The service can be based in the classroom. It can be based in an afterschool program. It can be based in a summer program. And it can be directed or supervised by AmeriCorps members who are leaders and coordinators.

All that we ask is that you ensure two things:

First: real service with real benefits to communities. The Corporation's own studies show that a dollar invested in a good service effort produces benefits worth over four dollars. We need to keep that up.

Second: we want service that means something to young people, service that students reflect on and talk about with each other. We want kids seeing these experiences not as another chore, but as an exciting initiation into long lives of active citizenship. And we know service is often just that. Kids who serve grow up to volunteer more and to vote more throughout their lives.

Finally, our bill will hold these programs to high standards and require measurable success.

Let me stress: I don't think we should require my State or city to do anything. Nor should this program operate nationwide. My proposal is that for the State and school districts with schools that are ready, we ought to make sure every child has the opportunity and the responsibility to engage in service. Here in Congress, it is our responsibility to give those opportunities for service to our young people. When we do, our country will be richly rewarded in the years and decades to come.

By Mr. DURBIN (for himself, Mr. KENNEDY, Mr. WELLSTONE, and Mr. CORZINE):

S. 2393. A bill to amend the Public Health Service Act to provide protections for individuals who need mental health services, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. DURBIN. Mr. President, I rise tonight to introduce the Mental Health Patient Rights Act. This legislation will break down one of the barriers faced by thousands of Americans who face discrimination in the individual health insurance market because they have been treated at some time in their life for a mental condition. Senators KENNEDY, WELLSTONE, and CORZINE have joined me in this effort.

Each year some 18 million Americans suffer from depression, and fully a quarter of the country's adult population is faced with some form of mental illness. Many of them are not part of group coverage provided by employers and must rely on individual policies that they purchased themselves. Without coverage, many who are dealing with mental disease do not seek treatment. Indeed, repeated surveys have shown that concerns about the cost of mental care is one of the most common reasons that individuals decline to seek care. The Mental Health Patient Rights Act limits the ability of health care plans to redline individuals with a preexisting mental health condition.

I undertook this initiative when I read a letter from one of my Illinois constituents who was turned away from health care plans in the private nongroup market, due solely to a past history of treatment for a mental condition. This constituent, whom I will call Mary, suffered severe depression over 10 years ago and received treatment, which was successful. It allowed her to return to work.

At that time Mary had employer-sponsored health insurance through her husband's employment. But in the fall of 1998, Mary and her husband lost this employer-based insurance coverage when Mary's husband lost his job.

Mary applied for a comprehensive health insurance plan offered to individuals. Her application was declined because, as per the insurance company notice, due to her medical history of depression, she did not meet the company's underwriting requirements.

Mary wrote:

> As I see it, we are being punished for accessing health care. In 1987, when I became clinically depressed, I could have chosen to avoid proper medical care, become unemployed and received Social Security disability. I did not. I obtained the help I needed and continued to support myself, my family and contribute positively to society. Depression is a treatable medical illness. Insurance companies must stop their indiscriminate denial of coverage.

The Washington Post recently ran a column that documented a similar story about the discrimination that individuals with a history of mental illness face in our current health insurance market.

The column conveys the dilemma of Michelle Witte who was denied health insurance coverage because she was successfully treated for depression during her adolescence.

Unfortunately, Mary and Michelle are not alone. While the majority of Americans under age 65 have employer-sponsored group coverage, a significant minority, approximately 12.6 million individuals, rely on private, individual health insurance.

Underwriting in the individual health insurance market is fierce.

Just last week The Wall-Street Journal reported that a Wisconsin-based insurer, American Medical Security Group, Inc., is actually re-underwriting individual policies on an annual basis. At each annual renewal, this company reviews the individual claims filed in the previous year and increases premiums to policyholders whose claims exceed the standard. Under the current system of care in the United States, individuals who are undergoing treatment or have a history of treatment for mental illness may find it particularly difficult to obtain private health insurance, especially if they must purchase it on their own and do not have an employer-sponsored group plan available to them.

That is why I have introduced this legislation. The Mental Health Patients' Rights Act closes this loophole by limiting any preexisting condition exclusion relating to a mental health condition to not more than 12 months and reducing this exclusion period by the total amount of previous continuous coverage.

It prohibits any health insurer that offers health coverage in the individual insurance market from imposing a preexisting condition exclusion relating to a mental health condition unless a diagnosis, medical advice or treatment was recommended or received within the 6 months prior to the enrollment date.

And it prohibits health plans in the individual market from charging higher premiums to individuals based solely on the determination that the individual has had a preexisting mental health condition.

These provisions apply to all health plans in the individual market, regardless of whether a state has enacted an alternative mechanism, such as high risk pool, to cover individuals with preexisting health conditions.

The Mental Health Patients' Rights Act complements ongoing efforts to enhance parity between mental health services and other health benefits.

This is because parity alone will not help individuals who do not have access to any affordable health insurance due to preexisting mental illness discrimination.

The Patients' Rights Act does not mandate that insurers provide mental health services if they are not already offering such coverage. It simply prohibits plans in the private non-group market from redlining individuals who apply for general health insurance based solely on a past history of treatment for a mental condition.

The legislation is backed by more than compelling anecdotal stories. I asked for a study from the GAO and last month they told me the new study documents that individuals with mental disorders, past or present, face restrictions in purchasing health insurance in the individual market that exceed restrictions for physical health preexisting conditions in the same cost category.

GAO interviewed insurance carriers that sell individual market insurance and sell insurance in most of the 34 states in which carriers are permitted to medically underwrite.

Collectively, these insurers cover more than one million individuals representing more than 10 percent of all individual market enrollees. Researchers found that carriers denied coverage for applicants with selected mental disorders more than half of the time, while denying coverage for applicants with other selected chronic conditions just 30 percent of the time.

Even in states which have established subsidized insurance options as a coverage option for applicants rejected in the individual insurance market, sometimes called high-risk pools, these options have higher premium rates.

High-risk pools also may include more restrictions on mental health benefits than other benefits and many have waiting lists due to budget constraints.

In the seven states without high-risk pools and without guaranteed issue requirements, applicants with a history of mental illness are likely to find themselves without any viable health insurance coverage option.

In other words, it is not about money. If the insurance company wants to ask you if you have a history in your family of cancer, heart disease, diabetes, things that might have some impact on the cost of health insurance, it is understood that is part of underwriting. But now they are including mental illness as part of this inquiry, and regardless of the fact that it doesn't seem to be, or prove out to be as expensive to the insurance companies, they are just discriminating against people who have this history of mental illness.

That is why I am introducing this legislation.

It does not make sense that a person is rendered uninsurable for all health needs simply because he or she seeks treatment for mental illness. Mental illness is a disease just as cancer or asthma or the flu is a disease.

Yet it is clear that when it comes to mental health millions of Americans must battle not only with their disease, but for their access to adequate insurance coverage.

I invite my colleagues to enlist in this important initiative to ensure that such individuals are not discriminated against when applying for health insurance coverage.

More than 80 organizations representing consumers, family members, health professionals and providers have endorsed the Mental Health Patient Rights Act. I urge you to do the same.

Some of us who saw the movie, "A Beautiful Mind," are reminded that there are people who have suffered from mental illness who have recovered and made great contributions to America, as John Nash has at Princeton, and as those who have been involved in so many other walks of life. It is unfair in America for us to discriminate against a person because of a history of mental illness. Yet it is a fact of life.

I salute my colleagues, Senators WELLSTONE and DOMENICI, for their leadership on this issue. I join them in their effort and hope this bill will complement what they are doing to not only make mental illness subject to coverage by health insurance but also to end this discrimination against those who have a history of that illness. We should be working to break down the stigma of mental illness, not to maintain it.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2393

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Mental Health Patients' Rights Act".

SEC. 2. AMENDMENTS TO THE PUBLIC HEALTH SERVICE ACT.

Subpart 1 of part B of the Public Health Service Act (42 U.S.C. 300gg-41 et seq.) is amended by adding at the end the following:

"SEC. 2745. LIMITATION ON PREEXISTING CONDITION EXCLUSION PERIOD AND PREMIUMS WITH RESPECT TO MENTAL HEALTH.

"(a) LIMITATION ON PREEXISTING CONDITION EXCLUSION PERIOD.—

"(1) IN GENERAL.—Notwithstanding any other provision of law, a health insurance issuer that offers health insurance coverage in the individual market in a State may, with respect to an individual or dependent of such individual, impose a preexisting condition exclusion relating to a preexisting mental health condition only if—

"(A) such exclusion relates to a mental health condition, regardless of the cause of the condition, for which medical advice, diagnosis, care, or treatment was recommended or received within the 6-month period ending on the enrollment date;

"(B) such exclusion extends for a period of not more than 12 months after the enrollment date; and

"(C) the period of any such preexisting condition exclusion is reduced by the aggregate of the periods of creditable coverage (if any, as defined in paragraph (3)(A)) applicable to the individual or dependent of such individual as of the enrollment date.

"(2) DEFINITIONS.—In this section:

"(A) PREEXISTING MENTAL HEALTH CONDITION.—The term 'preexisting mental health condition' means, with respect to coverage, a mental health condition, including all categories of mental health conditions listed in the Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition (DSM IV-TR), or the most recent edition if different than the Fourth Edition, that was present before the date of enrollment of such coverage, whether or not any medical advice, diagnosis, care, or treatment was recommended or received before such date.

"(B) OTHER TERMS.—The terms 'preexisting condition exclusion', 'enrollment date', and 'late enrollee' shall have the meanings given such terms in section 2701 as relating to individual health insurance coverage.

"(3) CREDITING PREVIOUS COVERAGE.—For purposes of subsection (a), the term 'creditable coverage' has the meaning given such term in section 2701(c) and includes coverage of the individual under any of the following:

"(A) A college-sponsored health plan, or a plan under which health benefits are offered by or through an institution of higher education (as defined in section 481(a) of the Higher Education Act of 1965 (20 U.S.C. 1088(a)) in relation to students at the institution (not including benefits offered to such a student as a participant or beneficiary in a group health plan).

"(B) Title XXI of the Social Security Act.

"(C) A State or local employee health plan.

"(b) PROHIBITION ON INCREASED PREMIUMS BASED ON PREEXISTING MENTAL HEALTH CONDITION.—A health insurance issuer that offers health insurance coverage in the individual market in a State may not, with respect to an individual or dependent of such individual, require any individual (as a condition of enrollment or continued enrollment) with a preexisting mental health condition to pay a premium or contribution which is greater than a premium or contribution for an individual without a preexisting mental health condition based solely on the determination that such individual has a preexisting mental health condition, as such term is defined in subsection (a)(2)(A).

"(c) NONAPPLICABILITY OF ACCEPTABLE ALTERNATIVE MECHANISMS.—The provisions of section 2741(a)(2) shall not apply to a health insurance issuer that offers health insurance coverage in the individual market in a State, but only with respect to an individual, or dependent of such individual, with a preexisting mental health condition desiring to enroll in such individual health insurance coverage.".

AMENDMENTS SUBMITTED AND PROPOSED

SA 3381. Mr. BAUCUS submitted an amendment intended to be proposed by him to the bill H.R. 3009, to extend the Andean Trade Preference Act, to grant additional trade benefits under that Act, and for other purposes; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 3381. Mr. BAUCUS submitted an amendment intended to be proposed by him to the bill H.R. 3009, to extend the Andean Trade Preference Act, to grant additional trade benefits under that Act, and for other purposes; which was ordered to lie on the table; as follows:

At the end add the following:

DIVISION D—EXTENSION OF CERTAIN PREFERENTIAL TRADE TREATMENT AND MISCELLANEOUS TRADE PROVISIONS

TITLE XLI—EXTENSION OF GENERALIZED SYSTEM OF PREFERENCES

SEC. 4101. GENERALIZED SYSTEM OF PREFERENCES.

(a) EXTENSION OF DUTY-FREE TREATMENT UNDER SYSTEM.—Section 505 of the Trade Act of 1974 (19 U.S.C. 2465) is amended by striking "September 30, 2001" and inserting "December 31, 2006".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date of enactment of this Act.

(c) RETROACTIVE APPLICATION FOR CERTAIN LIQUIDATIONS AND RELIQUIDATIONS.—

(1) IN GENERAL.—

(A) ENTRY OF CERTAIN ARTICLES.—Notwithstanding section 514 of the Tariff Act of 1930 or any other provision of law, and subject to paragraph (2), the entry—

(i) of any article to which duty-free treatment under title V of the Trade Act of 1974 would have applied if the entry had been made on September 30, 2001;

(ii) that was made after September 30, 2001, and before the date of enactment of this Act; and

(iii) to which duty-free treatment under title V of that Act did not apply,

shall be liquidated or reliquidated as free of duty, and the Secretary of the Treasury shall refund any duty paid with respect to such entry.

(B) ENTRY.—In this subsection, the term "entry" includes a withdrawal from warehouse for consumption.

(2) REQUESTS.—Liquidation or reliquidation may be made under paragraph (1) with respect to an entry only if a request therefor is filed with the Customs Service, within 180 days after the date of enactment of this Act, that contains sufficient information to enable the Customs Service—

(A) to locate the entry; or

(B) to reconstruct the entry if it cannot be located.

SEC. 4002. AMENDMENTS TO GENERALIZED SYSTEM OF PREFERENCES.

(a) INTERNATIONALLY RECOGNIZED WORKER RIGHTS.—Section 507(4) of the Trade Act of 1974 (19 U.S.C. 2467(4)) is amended—

(1) by striking "and" at the end of subparagraph (D);

(2) by striking the period at the end of subparagraph (E) and inserting "; and";

(3) by adding at the end the following new subparagraph:

"(F) a prohibition on discrimination with respect to employment and occupation."; and

(4) by amending subparagraph (D) to read as follows:

"(D) a minimum age for the employment of children, and a prohibition on the worst forms of child labor, as defined in paragraph (6);".

(b) REVIEW OF ELIGIBILITY CRITERIA.—

(1) IN GENERAL.—Title V of the Trade Act of 1974 is amended by inserting after section 503, the following new section:

"SEC. 503A. REVIEWS.

"(a) ONGOING REVIEWS.—Notwithstanding any other provision of law, the President shall conduct on an ongoing basis a review of the eligibility criteria with respect to any country or article designated as eligible under this title. Such reviews, in addition to the reviews conducted pursuant to part 2007 of title 15, Code of Federal Regulations (as in effect on January 1, 2002), shall form the basis for any withdrawal, suspension, or limitation of benefits under section 502(d)(1) or section 503(c)(1).

"(b) WORKER RIGHTS REVIEWS.—

"(1) IN GENERAL.—In reviewing the eligibility criteria set forth in sections 502(b)(2)(G), 502(b)(2)(H), and 502(c)(7) as part of an ongoing review described in subsection (a) or as part of a specific request for review under part 2007 of title 15, Code of Federal Regulations, the President shall give special consideration to the findings of the International Labor Organization (or committees thereof) concerning the country under review.

"(2) REGULATIONS.—Not later than 180 days after the date of enactment of the Trade Act of 2002, the President shall promulgate regulations establishing guidelines for giving special consideration to the findings of the International Labor Organization (or committees thereof) as required by paragraph (1)".

(2) CONFORMING AMENDMENT.—The table of contents for title V of the Trade Act of 1974 is amended by inserting after the item relating to section 503, the following new item:

"Sec. 503A. Reviews.

TITLE XLII—MISCELLANEOUS TRADE PROVISIONS

SEC. 4201. IDENTIFICATION OF TRADE EXPANSION PRIORITIES.

Section 310(a)(1) of the Trade Act of 1974 (19 U.S.C. 2420(a)(1)) is amended by striking "Within 180 days after the submission in calendar year 1995 of the report required by section 181(b)" and inserting "Within 30 days after the submission of the report required by section 181(b)".

AUTHORITY FOR COMMITTEES TO MEET

SELECT COMMITTEE ON INTELLIGENCE

Mr. REID. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on Monday, April 29, 2002, at 6:30 p.m. to hold a closed business meeting.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGE OF THE FLOOR

Mr. GRASSLEY. Mr. President, I ask unanimous consent the privilege of the floor be granted to Tiffany McCullen, a Department of Commerce employee detailed to my staff on the Finance Committee, and to Elliott Langer, an intern from the Finance Committee for the duration of the Senate consideration of trade bills.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT—EXECUTIVE CALENDAR

Mr. REID. As in executive session, Mr. President, I ask unanimous consent that at 12 noon on Tuesday, April 30, the Senate proceed to executive session to consider Calendar Nos. 778 and 779, with the time until 12:30 equally divided and controlled between Senators LEAHY and HATCH or their designees; that upon the use or yielding back of the time, the Senate stand in recess until 2:15 p.m.; further, at 2:15 p.m., the Senate proceed to vote on Calendar No. 778, to be followed immediately by a vote on Calendar No. 779; that upon completion of the votes, the motions to reconsider be laid upon the table, the President be immediately notified of the Senate's action, and the Senate return to legislative session, without further intervening action or debate.

The PRESIDING OFFICER. Is there objection?

The Chair hears none, and it is so ordered.

Mr. REID. Mr. President, I now ask unanimous consent that it be in order to request the yeas and nays on the nominations, with one show of hands for a sufficient second.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The yeas and nays were ordered.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following promotions reported out earlier today by the Senate Armed Services Committee: Lt. Gen. Leon J. LaPorte to be general; and Adm. Thomas B. Fargo to be admiral; that the nominations be confirmed, the motions to reconsider be laid upon the table, the President be immediately notified of the Senate's action, any statements thereon be printed in the RECORD, and the Senate return to legislative session, without any intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed are as follows:

ARMY

The following named officer for appointment in the United States Army to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be general

Lt. Gen. Leon J. LaPorte, 0933.

NAVY

The following named officer for appointment in the United States Navy to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be admiral

Adm. Thomas B. Fargo, 9953.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now return to legislative session.

ORDERS FOR TUESDAY, APRIL 30, 2002

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until the hour of 10 a.m. tomorrow, Tuesday, April 30; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of the motion to proceed to H.R. 3009, the Andean Trade Act, with the time until 12 noon equally divided between the proponents and opponents of the motion; that the time during the adjournment of the Senate, the debate time, and the votes thereafter on the two judges be counted against cloture, and that the recess of the Senate tomorrow be counted against the cloture time; further, that the Senate recess from 12:30 to 2:15 tomorrow for our weekly party conferences.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. We appreciate the patience of the Presiding Officer.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. REID. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 7:24 p.m., adjourned until Tuesday, April 30, 2002, at 10 a.m.

NOMINATIONS

Executive nominations received by the Senate April 29, 2002:

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ALBERTO FAUSTINO TREVINO, OF CALIFORNIA, TO BE AN ASSISTANT SECRETARY OF HOUSING AND URBAN DEVELOPMENT, VICE SUSAN M. WACHTER, RESIGNED.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

ELIAS ADAM ZERHOUNI, OF MARYLAND, TO BE DIRECTOR OF THE NATIONAL INSTITUTES OF HEALTH, VICE HAROLD VARMUS, RESIGNED.

IN THE ARMY

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT IN THE RESERVE OF THE ARMY TO THE GRADES INDICATED UNDER TITLE 10, U.S.C., SECTION 12203:

To be major general

BRIGADIER GENERAL ALAN D. BELL, 4514
BRIGADIER GENERAL JAMES A. CHEATHAM, 4975
BRIGADIER GENERAL CHARLES E. GORTON, 6077
BRIGADIER GENERAL ROBERT L. HEINE, 0778
BRIGADIER GENERAL LAWRENCE J. JOHNSON, 8824
BRIGADIER GENERAL DAVID E. KRATZER, 9689
BRIGADIER GENERAL DENNIS J. LAICH, 2608
BRIGADIER GENERAL COLLIS N. PHILLIPS, 1258

To be brigadier general

COLONEL STEVEN R. ABT, 2197
COLONEL RITA M. BROADWAY, 0473
COLONEL MICHAEL J. DIAMOND, 8630
COLONEL JAMES P. EGGLETON, 1830
COLONEL JAMES A. HASBARGEN, 2340
COLONEL ROSEMARY R. LOPER, 7572
COLONEL JOHN Y. H. MA, 4469
COLONEL MATTHEW C. MATIA, 3950
COLONEL MICHAEL W. MEANS, 0221
COLONEL JAMES E. PAYNE III, 1273
COLONEL ROBERT A. POLLMANN, 9222
COLONEL JAMES W. RAFFERTY, 9483
COLONEL JAMES F. REYNOLDS, 3816
COLONEL THOMAS D. ROBINSON, 1193
COLONEL JOSE M. ROSADO, 5331
COLONEL DEAN G. SIENKO, 8565
COLONEL JAMES L. SNYDER, 3847

IN THE NAVY

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT IN THE UNITED STATES NAVY TO THE GRADE INDICATED UNDER TITLE 10, U.S.C., SECTION 624:

To be rear admiral (lower half)

CAPTAIN ROBERT J. COX, 3723
CAPTAIN DERWOOD C. CURTIS, 9914
CAPTAIN PETER H. DALY, 8726
CAPTAIN KENNETH W. DEUTSCH, 9948
CAPTAIN MARK T. EMERSON, 8886
CAPTAIN JEFFREY L. FOWLER, 7245
CAPTAIN JOHN S. GODLEWSKI, 1227
CAPTAIN GARRY E. HALL, 1756
CAPTAIN LEENDERT R. HERING, 4873
CAPTAIN ALAN B. HICKS, 8932
CAPTAIN DEBORAH A. LOEWER, 8508
CAPTAIN CARL V. MAUNEY, 8015
CAPTAIN WILLIAM J. MCCARTHY, 8575
CAPTAIN BERNARD J. MCCULLOUGH III, 4147
CAPTAIN MICHAEL H. MILLER, 6300
CAPTAIN ALLEN G. MYERS, 2554
CAPTAIN MARC L. PURCELL, 9342
CAPTAIN JAMES W. STEVENSON JR., 1918
CAPTAIN WILLIAM G. TIMME, 0212
CAPTAIN JOSEPH A. WALSH, 7361
CAPTAIN MELVIN WILLIAMS JR., 9480
CAPTAIN JAMES A. WINNEFELD JR., 5212

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES NAVY TO THE GRADE INDICATED UNDER TITLE 10, U.S.C., SECTION 624:

ADM. THOMAS B. FARGO

EXTENSIONS OF REMARKS

IN RECOGNITION OF HOSPITAL FOR SPECIAL SURGERY IN NEW YORK CITY

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mrs. MALONEY of New York. Mr. Speaker, I wish to recognize the Hospital for Special Surgery (HSS), founded and located in New York City, for receiving the first New York State Hospital Patient Safety Award for their superior effort to reduce medical errors. At a time when more attention is being paid to this area, the New York Department of Health created the award to promote measures to increase overall patient safety, and I am pleased that HSS has been the recipient of such an esteemed award.

Founded in 1863, the Hospital for Special Surgery is a world leader in orthopedics, rheumatology and rehabilitation. While the Hospital has monitored medication variances for many years, in July 2000 it began a project that required simple changes that yielded significant results. By asking doctors to use ballpoint pens, fax original requests and replace old fax machines, the program resulted in an astounding 97.6 percent decline in the number of illegible orders received in the pharmacy from November 2000 to December 2001.

These types of innovative developments of methodology and technology have resulted in the Hospital being consistently ranked among the top three orthopedic and rheumatology centers in the nation in US News & World Report's annual survey of America's best hospitals. To date, their emphasis has been on development of orthopedic devices, such as total joint replacements. For example, the first modern knee replacement was developed at HSS, a landmark innovation that has benefited the lives of millions of patients around the world. In efforts to continue to make strides in this important area of research, the Hospital for Special Surgery is establishing a National Center for Musculoskeletal Research.

HSS has also uniquely collaborated with education programs at Cornell University, Rensselaer Polytechnic Institute, City College of New York, and others that partner scientists and clinicians with faculty and students in mechanical engineering, materials science, civil engineering, veterinary medicine, and statistics to bring its biomedical advances to the bedside.

For these reasons and many others, the Department of Health for the United Kingdom of Great Britain has called upon HSS to train and mentor their physicians in order to improve orthopedic services in their countries. Currently, patients in Great Britain must wait 18 months before they may receive hip, knee or joint replacements, of which more than 70 percent require the use of a cane for more than a year after surgery. It is truly an honor for New York to have the Hospital for Special Surgery to be identified by the British healthcare system as a mentor and model for addressing this health challenge.

I applaud the Hospital for Special Surgery's commitment to better document, track and administer prescribed medications to patients and strongly support their efforts to identify and remedy one of the most preventable threats to patient safety. I am very supportive of the Hospital's National Center for Musculoskeletal Research, as its establishment will continue to pursue breakthroughs in researching the orthopedic and rheumatological conditions that affect millions of Americans.

TRIBUTE TO THE BELLEVILLE PUBLIC LIBRARY AND INFORMATION CENTER

HON. BILL PASCRELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. PASCRELL. Mr. Speaker, I would like to call to your attention the history and legacy of a groundbreaking institution, the Belleville Public Library and Information Center, in Belleville, New Jersey.

On Wednesday, April 24, 2002, friends, patrons, employees, and all those who have made the Belleville Public Library a cornerstone of its community gathered to celebrate its 100th anniversary.

It is thus only fitting that we honor the library's long history, in this, the permanent record of the greatest freely elected body on earth, for it has been a beacon of learning and information for generations.

The Belleville Public Library was founded on January 4, 1902 by the Tuesday Afternoon Reading Club. It was initially located in a small store on William Street with a collection of only 432 books. After a temporary move in 1904, the library was given its permanent home in 1909. With the help of philanthropist Andrew Carnegie and so many dedicated citizens, the building was erected at 221 Washington Avenue.

President John Fitzgerald Kennedy once said, "The goal of education is the advancement of knowledge and the dissemination of truth." The Belleville Public Library embodies this ideal, having made an impact on so many lives throughout its history.

One of the first libraries in the state to offer internet access, it today has sixteen computers. Citizens are provided free use of the internet and word processing programs. Well renowned for its cultural programming, the library also hosts monthly concerts, art lectures, poetry classes, video viewing, and book discussion groups.

The library's defining mark in the community, however, may be its work in serving the children of Belleville. With store hours for babies, toddlers, and preschoolers, as well as a major summer reading club and a myriad of activities throughout the year, the library's commitment to foster the growth of children is unwavering.

From its humble beginnings on William Street, the Belleville Public Library has grown into a public information center that had over 100,000 people pass through its doors in the year 2001.

Mr. Speaker, I ask that you join our colleagues, the Township of Belleville, and me in recognizing the Belleville Public Library and Information Center.

CONGRATULATING 17 NORTHWEST MISSOURI SCHOOL DISTRICTS

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. GRAVES. Mr. Speaker, I rise today to congratulate 17 Northwest Missouri school districts that have been recognized as "most-improved" by the Missouri Department of Elementary and Secondary Education. This recognition highlights the outstanding commitment Northwest Missouri has made to ensure that no child is left behind.

Since 1998, Missouri has administered the Missouri Assessment Program (MAP) tests yearly to measure a student's achievement. The mathematics assessment is given to fourth, seventh, and 10th graders. A communications arts assessment is given to third, seventh, and 11th graders, a science assessment is given to third, seventh, and 10th graders and a social studies assessment is given to the fourth, eighth, and 11th grades. A health/physical education assessment is given to fifth and ninth graders as well. These important tests help Missouri's schools identify both strong and weak academic areas. Most importantly, the MAP tests illustrate the progress Northwest Missouri's school districts have made in providing students with the best available education.

I would like to acknowledge the Saint Joseph school district, which appeared four times on the "most improved top ten" list. These schools are Hall Elementary, Webster Elementary (appeared twice), and Lafayette High School. Barry School, in Platte County, appeared three times on the top ten list, and Nodaway County placed four of its schools on the list.

Other Northwest Missouri schools appearing on the most improved list include Chillicothe High School, Penney High School, Pickering Elementary School, Tri-County High School, West Platte High School, Craig High School, Fairfax Elementary School, North Harrison High School, Northeast Nodaway High School,

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.
Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Pattonsburg High School, Savannah High School, Smithville High School, South Nodaway High School, Southwest High School, Stanberry Elementary, Tri-County Elementary, West Nordaway High School, and West Nodaway Elementary.

Mr. Speaker, please join me in congratulating the above schools for their ongoing efforts to strengthen education and the hard-working students who demonstrated their knowledge. I am confident these schools will continue to successfully meet their educational goals.

BILL TO ELIMINATE THE DISCRIMINATORY TREATMENT OF THE DISTRICT OF COLUMBIA UNDER THE FEDERAL HATCH ACT

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Ms. NORTON. Mr. Speaker, today I am introducing a bill to eliminate the discriminatory treatment of the District of Columbia under the federal Hatch Act. This bill would reverse the undemocratic and discriminatory inclusion of the District of Columbia, including its teachers, in the federal Hatch Act.

The introduction of this bill today follows the recent announcement by the U.S. Office of Special Counsel that the U.S. Merit Systems Protection Board (Board) had granted its petition for the removal of Mr. Tom Briggs, a D.C. public school teacher at Dunbar Senior High School. Mr. Briggs lost his job after the Board found that he had violated provisions of the federal Hatch Act that apply only to the District of Columbia and no other local jurisdiction. These provisions prohibit D.C. public school teachers and other D.C. government employees from being candidates for partisan political office, despite the fact that teachers in the 50 states are exempt from the Act, and despite the fact that the District of Columbia is the only local jurisdiction in the Act treated as if it were a federal agency. In 2000, Mr. Briggs ran as the Statehood Green party candidate for Ward 2 Council Member.

My bill would remove discriminatory provisions in the federal Hatch Act that apply only to the District of Columbia and would exempt D.C. teachers, like the teachers from the 50 states, from the federal Hatch Act prohibition against seeking partisan elective office. The effective date of the bill is the year 2000, in order to remove Mr. Briggs' apparent violation of an antiquated, anti-home rule law that cannot be justified today. The Briggs case is particularly harmful because the victims of this inequity are not D.C. employees but the children in Mr. Briggs' class, who will face severe disruption to the continuity of their learning by having their popular and energetic teacher removed prior to the close of the school year.

My bill would leave the District to craft its own local laws in accordance with local needs and norms. It is certain that the D.C. City Council would enact its own local law to avoid any gap, and I have secured the commitment of the appropriate members of the Council to introduce and guide the local law to passage.

This is not the first time I have objected to discriminatory treatment of the District of Columbia under the federal Hatch Act. Nearly a decade ago, Congress passed the Hatch Act Reform Amendments of 1993, a bill which ended most of the limitations on political rights of federal employees. However, the bill contained perverse provisions that leave D.C. government employees alone among employees of the 50 states and the four territories under the federal Hatch Act. Although I was successful in keeping the District of Columbia language out of the House version of the 1993 amendments, the Senate included the language. Opponents of Hatch Act reform blocked a conference on the House and Senate versions of the bill, where I had intended to press for the Senate to recede to the House's position. Consequently, the 1993 reform law passed ironically benefiting 62,000 federal employees who lived in the District and, if they taught at Dunbar could seek public office, yet punishing the 40,000 District employees targeted by the law. In my comments on the floor prior to passage of the 1993 bill, I said: "I serve notice now that I am not through today. I will not be through until, with the help of others in this House, I succeed in making District employees the equal of the employees of other state and local jurisdictions. Today, we must blush as we try to conceive of any justification for such disparate treatment. I pledge to work to eliminate the shameful distinction we create today."

After the 1993 fight, I subsequently introduced legislation in 1996 to free the District from discriminatory treatment under the federal Hatch Act. It has not been possible to move appropriate legislation since, largely because no overall review of the Hatch Act, where such changes are generally made, has occurred. However, in light of the Briggs termination, I am asking the House to pass a stand alone bill.

The case of Mr. Briggs simply brings home the sad fact that the District of Columbia, and particularly its school teachers, have been singled out in a manner that is a complete affront to fairness, democratic principles, and self government. I urge my colleagues to support this bill to eliminate the discriminatory treatment of the District of Columbia under the federal Hatch Act in order to remove this unjust anomaly without delay.

THE RETURN OF AN ANCIENT HATRED

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. FRANK. Mr. Speaker, one collateral disturbing aspect of the current crisis in the Middle East is the rise in anti-Semitism in various parts of the world. It is particularly distressing to see the virulent outburst of this vicious prejudice in Europe, where many of us had hoped that the terrible experience of the past formed a stronger barrier against it.

Obviously people have a right to be critical of particular policies of the government of Israel in a given time. Indeed, since Israel continues to be a vibrant democracy even in the face of the violence now occurring in that part of the world, some of the most trenchant criticisms of Israeli policy come from Israelis themselves. But there is a sharp line between expressing differences with particular actions of the Israeli government and expression of anti-Semitism, and, sadly, that line has been crossed far too often in recent months in Europe.

In a very well reasoned editorial on Saturday, April 20, the New York Times speaks out cogently against this renewed anti-Semitism. Because this is such a well reasoned and powerful statement on a subject of great importance to us in our deliberations, I ask that it be printed here.

THE RETURN OF AN ANCIENT HATRED

When many in the Muslim world blamed Israel and its supposed desire to discredit Islam for the Sept. 11 attacks, most Americans dismissed the report as a deformed joke. But just as the attacks forced Americans to face the fact that there are deadly serious groups seeking to destroy us, so some of the anti-Semitic actions in Europe in recent months cause us to wonder whether, six decades after the Holocaust, we are witnessing a resurgence of the virulent hatred that caused it.

Expressions of sympathy for the Palestinians or criticism of the Israeli military campaign in the West Bank are of course entirely appropriate. What is troubling are hateful statements and actions like the bombs thrown at Jewish schools, centers and groups in France, or the Orthodox Jews beaten on the streets of Belgium and Berlin or the truck bomb driven into the ancient synagogue in Tunisia. We worry that such actions, largely by Muslim extremists, touch a historic chord in Europe that is not being confronted.

Israelis have been too quick, over the years, to view criticism of their government as motivated by anti-Semitism. But it is hard to think of another word for the way some critics of Israel's policy toward the Palestinians are expressing their opposition. The dark of shadow of Europe's past seemed to be reappearing when the liberal Italian daily La Stampa depicted a baby Jesus looking up from the manger at an Israeli tank, saying, "Don't tell me they want to kill me again." Or when a Lutheran bishop in Denmark delivered a sermon in the Copenhagen Cathedral comparing Ariel Sharon's policies toward the Palestinians to those of King Herod, who ordered the slaughter of all male children under the age of 2 in Bethlehem.

Political opinion in Europe is certainly one-sided when it comes to the Mideast conflict. Members of the Norwegian Nobel committee have publicly called for the withdrawal of the Peace Prize from the Israeli foreign minister, Shimon Peres, but not from his co-winner, Yasir Arafat. The European Parliament voted to urge member governments to impose trade sanctions on Israel but urged no action against the Palestinian Authority. Historically, the far right and far left have not agreed on much. These days they seem united in their contempt for the Jewish state.

This was evident last summer at the international conference against racism in Durban, South Africa, which turned into a celebration of Israel hatred. Zionism was once again equated with racism and Israel's legitimacy came under repeated attack.

Focusing on the suffering of only one side is also not the same as anti-Semitism, although it is distressing. Just as there are

American politicians who believe they have no political room to maneuver when it comes to support for Israeli policies, so there are European politicians with large Muslim constituencies whose voters do not want to see them acknowledging gray areas in this fight. There are also other explanations for the European mood. Guilt over the Holocaust may be salved with the thought that Jews, too, can act with cruelty. And given American sponsorship of Israel, being fashionably anti-American can easily mean being anti-Israel.

But much of Europe has a special responsibility to be cautious. Its cultures are drenched in a history of anti-Semitism. The mixing of historic European anti-Semitism with the more modern version in the Muslim world is a dangerous cocktail.

All this does not mean that Israel should be above criticism. Far from it. But it does mean that when you read of hooded men shouting "Death to Jews" attacking a Jewish soccer team in suburban Paris, as happened recently, it should prompt some profound soul-searching about whether the past has come calling.

IN RECOGNITION OF HAROLD SNYDER

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mrs. MALONEY of New York. Mr. Speaker, I rise to pay tribute to Harold Snyder who will be celebrating his 80th birthday on April 25, 2002. Mr. Snyder has been a successful business man, a philanthropist, and a visionary.

Harold Snyder was born and raised in New York City. The son of immigrants, he grew up in desperate poverty, often going without adequate food or shelter. With determination and hard work, he helped raise his younger sister and in 1939 graduated from Erasmus Hall High School in Brooklyn, New York. After graduating, he served his country bravely and proudly in the Air Force from 1941 to 1945. He was able to use the benefits he received from his service to attend New York University, where he graduated in 1948. He then received his Master's degree from Columbia University in 1950.

With his wife Beatrice, Mr. Snyder began a personal and professional partnership that would last 50 years. In 1964, Harold and Beatrice co-founded Biocraft Laboratories, Inc. Under Mr. Snyder's leadership, Biocraft became one of the largest manufacturers of generic drugs in the United States. During the three decades of his tenure as President and Chief Executive Officer, Biocraft also became the first generic drug company listed on the New York Stock Exchange.

In 1996 Biocraft was acquired by Teva Pharmaceutical Industries Ltd., the largest pharmaceutical company in Israel. Mr. Snyder now serves on the Teva Pharmaceutical Industries, Ltd. Executive Committee and Board of Directors.

Along with his many professional accomplishments, Mr. Snyder was at the forefront of the effort to pass legislation to encourage the use of generic drugs, giving millions of people access to safe and effective low cost drugs. Mr. Snyder is one of the founders of the Pharmaceutical Industry Association and has lectured extensively on pharmaceutical manufacturing at various colleges and universities.

Mr. Snyder enjoyed 50 years with his beloved wife Beatrice, before she passed away in 1998. With their three children, Beryl, Jay and Brian, he formed the Beatrice Snyder Foundation which has championed a number of philanthropic causes, including the Lincoln Center of Performing Arts, the Memorial Sloan Cancer Center and the New York Hospital Medical Center of Queens. The generosity of the Snyder family has also touched the lives of those most greatly affected by the terrorist attacks on the World Trade Center, with their generous support of the September 11 Fund. Most recently, Mr. Snyder sponsored a scholarship to send an inner city high school student to Antarctica to work with scientists. By providing this exceptional opportunity, he hopes to inspire a talented young person to achieve.

Mr. Speaker, for his many contributions, I ask that my colleagues join me in saluting Mr. Harold Snyder.

TRIBUTE TO WILLIAM M. VACCA

HON. BILL PASCRELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. PASCRELL. Mr. Speaker, I would like to call to your attention the work of an outstanding individual, Mr. William M. Vacca, of Totowa, New Jersey, who was recognized on Wednesday, April 17, 2002 for his lifelong dedication to Don Bosco Technical High School in Paterson, New Jersey.

Bill Vacca joined the Athletic Department at Don Bosco as a volunteer in 1970, and has been there ever since. A full time employee in Passaic County's historic textile industry, Bill has dedicated an immeasurable amount to those who make up the Don Bosco Tech family.

It is thus only fitting that he be honored, in this, the permanent record of the greatest freely elected body on earth. This is a man who has lived the phrase "give something back."

Born in Paterson on September 29, 1953, to William and Catherine Vacca, Bill attended local public grammar school before moving on to Don Bosco Tech. Upon his graduation in 1970, he immediately began to invest his energies back into the institution he loved. After eleven years as Assistant Athletic Director, Bill Vacca was named Athletic Director in 1981.

Sadly, Don Bosco Tech will be permanently closing its doors later this year. This does not obscure the fact that Bill Vacca, along with so many other caring colleagues, made Don Bosco Tech a special place.

Mr. Speaker, I sent all three of my sons to Don Bosco. I can say without reservation that the work of individuals like Bill Vacca will live on in the faces of those who attended that wonderful school.

While the closing of Don Bosco Technical High School will cause great sadness in the greater Paterson area, it also be a time for celebration. All those touched by Bill Vacca and the Don Bosco community will treasure the memories and honor the successes they achieved.

The job of a United States Congressman involves so much that is rewarding, yet nothing compares to recognizing the efforts of individuals like Bill Vacca.

Mr. Speaker, I ask that you join our colleagues, the City of Paterson, Bill's family and friends, the Don Bosco Technical High School family, and me in recognizing the outstanding and invaluable service of William M. Vacca.

HONORING CALHOUN HIGH SCHOOL

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. PAUL. Mr. Speaker, I rise today to pay honor to the Calhoun High School "We the People . . . the Citizen and the Constitution" team from Port Lavaca, Calhoun County, Texas. Under the exemplary leadership of Gennie Burleson Westbrook, the 2001–2002 Calhoun High School team placed third in the statewide competition held on Janaury 5, 2002, at the University of Texas Law School in Austin, Texas, which was hosted by the State Bar of Texas. The team included the following students: Karin Chen, Candice Cook, Chelsea Ghiselin, Tiffany Harvey, Kimberlee Hobizal, Major Hoffman, Stephen Jedlicka, Scott Kelly, Josh McClellan, Thomas Nguyen, Matt Thomas, Vanessa Thorne, and Andrew Wu.

The "We the People" program was begun in 1987, with the goal of enhancing students' understanding of the institutions of American constitutional democracy, while guiding them to discover modern day applications of the Constitution and the Bill if Rights. It is a time consuming study requiring many hours of preparation, both in and out of the classroom. Each participant takes a multiple-choice test, and prepares for a simulated Congressional hearing in which students "testify" before a panel of judges.

Following a prepared five-minute presentation covering specific topics demonstrating their knowledge and understanding of constitutional principals, the judges quizzed the students with thought-provoking questions pertaining to their subject. The students took and defended their positions, using both historic and contemporary examples.

Preparation for the state contest also required assistance from members of the community who came forward to volunteer to work with the team members. I salute the following volunteers: Connie Hunt, Mark Daigle, Shannon Salyer, Britney Salyer, Edris Montalvo, Darren Hartl, Joane McDonough, Phillip Swope, and Larry Nichols.

I am proud to have these students in the 14th Congressional District of Texas. I am proud of the commitment to excellence and perseverance shown by each student. I am proud of the support shown by the parents and volunteers which helped them reach for their goal.

I trust all my colleagues join me in congratulating the 2001–2002 "We the People . . . the

Citizen and the Constitution” team on their third place win in state competition.

MEDIA MERGERS ATE OUR NEWS

HON. BERNARD SANDERS

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. SANDERS. Mr. Speaker, I would like to bring to your attention an excellent article that recently ran in Seven Days, a weekly newspaper in Burlington, Vermont. The article discusses the increasingly superficial reporting and a growing conservative agenda dominating the nation’s televisions, radios and newspapers. The article also highlights a Congressional Town Meeting that I held to discuss the topic of corporate control of the media.

[From the Seven Days, Apr. 24, 2002]

MEDIA MERGERS ATE OUR NEWS!

(By Susan Green)

The families flocking to Palmer? Here are some of the things that took place last Thursday: An Amtrak train derailed in Florida. Families of Flight 93 passengers listened to the September 11 cockpit voice recording. The Senate defeated a Bush administration proposal to drill in the Arctic National Wildlife Refuge. And four Canadian soldiers were killed by American “friendly fire” in Afghanistan.

But what did all three cable news channels—CNN, MSNBC and Fox—spend the night broadcasting? The arrest in Los Angeles of actor Robert Blake for murder. Their reports included his entire uneventful 40-minute ride to the police station.

“We’re inundated with scandal and sensationalism in the media. Important topics get very little attention,” suggests U.S. Congressman Bernie Sanders, who is alarmed that just a few multinational corporations “own and control the flow of information in the United States.”

This week Sanders will come home to host “The Media and Democracy,” two back-to-back forums on what he sees as increasingly superfical reporting and a growing right-wing agenda dominating the nation’s television, radio and newspapers. The town-meeting-style discussions, on Sunday in Montpelier and Monday in Burlington, will feature Robert McChesney and John Nichols, co-authors of It’s the Media Stupid.

Sanders and his two guests are particularly alarmed that a handful of media outlets—AOL/Time-Warner, Fox, NBC and Viacom—recently won a lawsuit to abolish a longstanding Federal Communications Commission rule that prohibited cable companies from acquiring local TV stations. In addition, any one company may soon be able to provide television service to more than 35 percent of the nation’s households, an arrangement that was previously forbidden. Smells like a monopoly.

“I’m organizing members of Congress to justify why it’s important to maintain those rules,” Sanders explains. “Radio was deregulated in 1996, and that’s been a disaster. Big companies, like Clear Channel, have bought up hundreds of locally owned stations across the country. Talk radio is now completely dominated by the Right. It’s a very frightening situation.” Of the 1225 stations Texas-owned Clear Channel owns nationwide 10 are in Vermont, four of those in the Burlington market—WCPV, WEZF, WJVT, and WXZO. Independents like Ken Squier find it challenging to compete. “They’ve got all the syndicated shows we might want and they go after the same advertising dollars,” says the head of Radio Vermont, a family of stations that includes WKDR, WCVT and WDEV. “Vermont Public Radio is also a problem. They are government-subsidized but hitting on the same sponsors we do.”

Vermont’s radio wars make more noise than corresponding battles in the print media. For one thing, there are fewer paper soldiers. The Burlington Free Press, purchased by the Virginia-based Gannett Corporation from a local publisher in the 1970s, maintains a moderate political tone in a one-daily town.

But “following the standard corporate line,” as Sanders puts it, may explain why the largest newspaper in Vermont never took a stand on the civil-union controversy, while David Moats at the independently owned Rutland Herald won a Pulitzer Prize for his editorials advocating equal rights for gay couples.

Author John Nichols, a Washington correspondent for The Nation, believes that the impending changes in FCC regulations “could have a profound effect on corporations like Gannett.” Despite owning 95 daily newspapers, 22 TV stations and the flagship national publication USA Today, the company is “not a major player” compared with an outsized media mogul like Rupert Murdock, says Nichols. Sanders asserts that the Australian honcho is an “extreme right-winger” who is “pushing the other media to the right.” The U.S. holdings include The New York Post and Fox. Murdoch’s News Corp. is fifth on a list of media monopolists, after Time Warner, Disney and Viacom. General Electric ranks seventh. Nichols thinks it’s probably just a matter of time before News Corp. or an equivalent mega-media organization grabs Gannett and turns all the little Free Press-like rags into strident conservative mouthpieces.

Of course, many Americans are getting out of the reading habit altogether. Television rules. Sanders points out that the three area network affiliates, WVNY, WPTZ and WCAX, are cogs in the machinery of giant conglomerates: Disney’s ABC, GE’s NBC and Viacom’s CBS, respectively.

Dianne Lynch, chair of the journalism department at St. Michael’s College in Colchester, suspects Sanders is “right about mainstream TV,” but, she suggests, “mainstream TV is no longer our only choice in getting information.”

As someone who’s professionally “wired”—she writes a column about women and technology for ABC.com—Lynch sees the Internet as a wellspring of diverse voices, along with cable television and many small publications. “When I was growing up, we only had four television channels to choose from. Today, I can get the BBC on my cable channel or read The London Times online,” she says. “People looking for a range of opinions know where to go for them.”

Nichols and McChesney believe those diverse views should come to us more easily—and claim it’s not too late to make sure they do. “We are actually at a critical transition point,” Nichols observes. If the 800-pound gorillas get their way, he contends, “in places like Burlington, newspapers, cable companies, TV and radio stations could all be owned by the same company. That’s not healthy—and I’m not overstating the case. We must be vigilant. A lot can be done at the grassroots level.”

That’s where Nichols, now 41, got his start. As a kid, he wrote for weekly newspapers in rural Wisconsin. “I’d take a camera and ride my bike to every little town meeting,” he recalls. “Apart from a few deviations into rock bands, journalism is what I’ve done all my life.”

In addition to the book he wrote with Robert McChesney, a University of Illinois research professor, Nichols penned last year’s Jews for Buchanan, about the 2000 presidential election fiasco in Florida. The duo teamed up again for Our Media, Not Theirs, a sequel to It’s the Media, Stupid due out this fall.

McChesney hosts “Media Matters,” a weekly radio AM program in his home state. He’s also written or edited a total of eight books, including Rich Media, Poor Democracy: Communication Politics in Dubious Times, which was published two years ago. Like Nichols, he has rock ’n’ roll roots. In 1979 McChesney founded a Seattle music magazine, The Rocket, that helped give birth to the grunge scene.

Not surprisingly, both men advocate self-empowerment. “The American people own the broadcast airways,” Nichols says.

“We have not begun to exercise our legitimate authority. But first, we have to think about what we would like. Once we imagine a media we want, then we can act. We have the ability to develop BBC-quality programming.”

Nichols acknowledges that the “unmitigated crap” now on TV should not be censored, however. “I’m not saying that, in my perfect media world, all we’d do is sit around and watch PBS. It doesn’t mean everything has to be of redeeming value. I just want citizens to understand they have a right to demand better.”

“Jerry Springer,” “Fear Factor” and “Judge Judy” should take note: Mindless programs can co-exist with more intellectual offerings. “But that lowest-common-denominator media does affect public policy,” Nichols says. “Stations like Fox have such jingoistic and irresponsible journalism. The Florida recount coverage was woefully inept, driven by the spin of the Democratic and the Republican camps. That’s what happens when you have bad media.”

Nichols, who has written for the New York Times and other prestigious publications also warns, “Until we get a better media, a lot of work we do on fundamental issues will go for naught. Without a media that allows diverse voices, it’s going to be hard to get the message out on all other important struggles.”

MSNBC runs a promo that boasts it’s a channel “with so many different points of view, one of them is bound to be yours.” But it’s unlikely any of them is Bernie’s. Sanders asserts that both newspapers and cable channels fail to present a true leftist or even balanced perspective. Programs devoted to serious news only explore opinions ranging from the center to the extreme right.

Oliver North, the Marine colonel who masterminded much of the covert and seemingly illegal Iran-Contra dealings in the ’80s, has been recruited by Fox News to command his own talk show. Not to be outdone, MSNBC boasts Alan Keyes, an ultra-conservative candidate in the last presidential election, now offering nightly punditry. CNN’s “Crossfire” always manages to find arch Republican cheerleaders like Robert Novak who can overpower even formidable Democratic operatives like James “Ragin’ Cajun” Carville.

Yet the tone of debate—when there is any—tends to be purposely theatrical. “Politics has become entertainment,” Sanders laments. Nobody’s talking about the nuts and bolts, he argues. "Despite all the hoopla over the economy, Americans are working longer hours for less wages. People have two or three jobs. That doesn't sound like a boom economy to me. Who's focussing on the plight of the middle class? It's a good issue, right? It's never discussed. The richest 1 percent owns more wealth than the bottom 95 percent does. Ever hear that on a TV program?"

Ditto for unionization, health care and a plethora of other themes neglected in favor of shallow examinations of movie stars who murder their wives, or the personal indiscretions of political figures. "We get endless coverage of sex, celebrity and crime," Sanders says.

He wonders why right-leaning news outfits have become so influential when "we are really a centrist country. Al Gore and Ralph Nader got a few million more votes than Bush, so actually we might be a hair to the left." Even in left-leaning Vermont, Sanders laments the dearth of progressive voices on the radio.

As one of only two Independents in the House of Representatives—Virgil Goode, Jr. of Virginia is the other—Sanders worries that the very notion of independence is being erased from what Americans see, hear and read. He compares the media monopoly by the Communist Party in the former Soviet union to today's corporate totalitarianism here.

The motivation is different, though. "If the progressive point of view was a marketplace seller, you would find it everywhere," Lynch suggests. "I do think everything's market-driven. Welcome to the world."

Whatever the agenda, Sanders sees diversity of viewpoints itself as crucial to our way of life. In a brochure announcing his "Media and Democracy" town meetings, he writes, "If just a few corporations are allowed to control both production and distribution of the news and programming across America, democracy itself is in danger." In a world in which cable companies, TV stations and local newspapers are all merged, "Millions of Americans will be receiving virtually all of their information from a single source," he points out.

Though she is also wary of "media consolidation," Lynch is more skeptical about championing the alternatives. "We have to be careful not to idealize independent ownership," she says. "Commercial pressures do not go away when you're individually owned. You don't suddenly have total freedom of expression, freedom from the marketplace. The homogeneity of the message is as much about commercial pressure as it is about corporate structure."

But Nichols hails the Green Mountain State as one of last bastions of media liberty. "Look at the Rutland Herald, a Pulitzer Prize-winning small newspaper. Vermont ain't perfect, but it's better than many places in the country. You still have a lot of locally owned operations. Things aren't so bad there."

Halfway around the globe, there's evidence of a movement to create a people's media. Nichols has spent time in New Zealand, which is "expanding the number of radio stations in the public sphere." He touts a station operated by the island nation's indigenous Maori people, and another "run by and for those under the age of 25."

In this corner of New England, "an individual state can have a lot of impact," Nichols adds. "You guys can really be part of a solution. Why not increase public funding for public radio or crate an all-news-all-the-time station? In the little state of Vermont, there is a lot you can do. If one place does it right, you can dramatically influence the rest of America."

Congressman Bernie Sanders, Robert McChesney and John Nichols weigh in on "The Media and Democracy" on Sunday, April 28, 7:30 p.m. at the Unitarian Church in Montpelier; and Monday, April 29, 7:30 p.m. at the CC Theater in Billings Student Center at the University of Vermont. A special free media workshop for teachers, and students and community members will be held on Monday at 4 p.m. in Waterman's Memorial Lounge at UVM.

IN RECOGNITION OF SENATOR ROY M. GOODMAN

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mrs. MALONEY of New York. Mr. Speaker, I rise to pay tribute to State Senator Roy M. Goodman, who was one of the most effective legislators ever to serve the East Side of Manhattan. Senator Goodman has devoted his career to making New York City a better place to live. His decision to retire from office has cost East Siders a remarkable leader and a renowned champion of the Arts.

A stalwart supporter of civic and community causes, Senator Goodman served 33 years in the State Senate. In recognition of his leadership skills, he was appointed the Senate's Deputy Majority Leader for Policy. During his tenure in Albany, more than 1,200 of the bills of which he was a sponsor became law.

Senator Goodman's major initiatives have included sponsorship of legislation to increase police patrols and toughen gun and ammunition controls; provide tax fairness for the owners of co-ops and condos; expand women's right to choose; increase protections against domestic violence; cut the state income and corporate taxes; provide better housing and tenant protection; protect children against abuse; combat discrimination; and expedite school construction. In addition, Senator Goodman was often chosen to be lead sponsor of the Mayor's proposals to increase state aid for New York City.

As the leading legislative advocate of the arts in New York State, he was Chairman of the Senate Special Committee on the Arts and Cultural Affairs. He is legendary for his success in obtaining state funding for New York's museums and cultural organizations. Senator Goodman was also appointed by President Bush and unanimously approved by the U.S. Senate as a member of the National Endowment for the Arts Council, on the basis of his distinguished service and eminence in the arts. In 1996, he was named Ambassador for the Arts by the National Endowment for the Arts in recognition of his unwavering support of the arts and cultural affairs.

From 1972 through 1975, Senator Goodman served as the Chairman of the New York State Charter Revision Commission for New York City, which significantly revised City government structure. In 1977, he was the Republican candidate for Mayor of New York City.

Father of three and grandfather of three, Senator Goodman received an A.B. degree with Honors from Harvard College in 1951 and a Master's Degree with Distinction from the Harvard Graduate School of Business Administration in 1953. He received an honorary Doctorate of Humane Letters from Pratt Institute.

Senator Goodman serves on the boards of the Carnegie Hall Corporation, Temple Emanu-El, and M & T Bank Corporation. He is also a member of the Harvard Overseer's Visiting Committee for the John F. Kennedy School of Government and a Fellow for Life of the Metropolitan Museum of Art. Additionally, he is President of the Goodman Family Foundation, a philanthropic trust. Senator Goodman will continue to play significant role in public life as CEO and President of the United Nations Development Corporation. I look forward to working with him in his new capacity.

In recognition of his many outstanding achievements, I ask my colleagues to join me in honoring State Senator Roy M. Goodman. Senator Goodman's years of devoted public service shine as a model for us all.

HONORING SAN MARCOS HIGH SCHOOL

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. PAUL. Mr. Speaker, I rise today to pay honor to the San Marcos High School "We the People . . . the Citizen and the Constitution" team from San Marcos, Hays County, Texas. Under the exemplary leadership of Paula Wolking and Lezlie Wiederhold, the 2001–2002 Calhoun High School team placed second in the statewide competition held on January 5, 2002, at the University of Texas Law School in Austin, Texas, which was hosted by the State Bar of Texas. The team included the following 29 seniors: Kelli Avila, Jason Baen, Marisa Bell-Metereau, Erin Blum, Paul Buntyn, Mariah Campbell, Amy Carlson, John David Carson, Samantha Charleston, Justyn Contreras, Heather Davis, Jacob Delgado, Veronica De La Garza, Matt Diaz, Shelby Eastland, Jessica Gifford, Megan Hansen, Kari Howe, J R Manrique, Rachel Martin, Genesis McCoo, Jenny Morrison, Lani Ogle, Valerie Perez, Amara Richardson, Orlando Sanchez, Francesca Scanio, Kim Spire, and Joshua Yanity.

The "We the People" program was begun in 1987, with the goal of enhancing students' understanding of the institutions of American constitutional democracy, while guiding them to discover modern day applications of the Constitution and the Bill of Rights. It is a time consuming study requiring many hours of preparation, both in and out of the classroom. Each participant takes a multiple-choice test, and prepared for a simulated Congressional hearing in which students "testify" before a panel of judges.

Following a prepared five-minute presentation covering specific topics demonstrating their knowledge and understanding of constitutional principals, the judges quizzed the students with thought-provoking questions pertaining to their subject. The students took and defended their positions, using both historic and contemporary examples.

I am proud to have these students in the 14th Congressional District of Texas. I am proud of the commitment to excellence and perseverance shown by each student. I am proud of the support shown by the parents and volunteers which helped them reach their goal.

I trust all my colleagues join me in congratulating the 2001–2002 "We the People . . . the Citizen and the Constitution" team on their second place win in state competition.

CHILD CUSTODY PROTECTION ACT

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. GRAVES. Mr. Speaker, H.R. 476, the Child Custody Protection Act, is an important measure that Congress should pass and allow President Bush to sign. Transporting minors across State lines for abortions to circumvent State parental involvement laws is a widespread problem in our country.

In this Country we, as citizens, do not allow our minor children to drive a car, to buy alcohol, or cigarettes, or even to vote. How can we as parents allow minor children to travel across certain State lines to obtain an abortion, without parental consent?

The purpose of the Child Custody Protection Act is twofold. The first is to protect the health and safety of young girls by preventing valid and constitutional State parental involvement laws from being circumvented. This is not a Federal parental involvement law. This plainly ensures that these State laws are not evaded through interstate activity. This bill is the Federal reinforcement to the enacted State measures providing constitutionally sound parental involvement in their childrens lives. Parental involvement during one of the most terrifying decisions a minor girl will ever make will improve medical care and safety for those young women.

The second purpose is to protect the rights of parents to be involved in the medical decisions of their minor daughters. Parents need to be aware that their minor daughter may be subjected to surgery or to the administration of drugs that could be dangerous to her health. There may be a multiple of potential health risks that the minor has no knowledge about including a history of family illness or allergies.

This is something that affects our entire Nation. In fact, in 1997, a study in the American Journal of Public Health reported that a leading abortion provider in Missouri refers minors out of State for abortions if the girls do not want to involve their parents. Reproductive Health Services, which performs over half of the abortions performed in Missouri, refers minors to the Hope Clinic for Women in Granite City, Illinois. Research reveals that based on the available data the odds of a minor traveling out of State for an abortion increased by over 50 percent when Missouri's parental consent law went into effect. Furthermore, compared to older women, underage girls were significantly more likely to travel out of State to have their abortions.

A 1999 St. Louis Post-Dispatch news report confirms that the Hope Clinic in Illinois continues to attract underage girls seeking abortions without parental involvement. According to the report, the Hope Clinic performed 3,200 abortions on out-of-State women last year, and the clinic's executive director estimates that number is 45% of the total abortions performed at the clinic. The executive director also estimates that 13% of the clinic's clients are minors.

This legislation will work to protect our young children. I thank my colleagues for supporting this legislation and I look forward to swift action by the Senate. We cannot allow our children to make this life altering decision alone. Parents need to provide a protective hand; H.R. 476 is the protection our children deserve.

YMCA OF GREENVILLE, SOUTH CAROLINA

HON. JIM DeMINT

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. DEMINT. Mr. Speaker, Whereas, the YMCA is dedicated to building strong kids, strong families and strong communities; and

Whereas, the YMCA serves people of all ages, incomes and abilities through a wide variety of programs and services designed to meet changing needs; and

Whereas, the YMCA of Greenville lives its mission every day, "To put Christian principles into practice through programs that build healthy spirit, mind and body for all"; and

Whereas, the YMCA of Greenville provides parents with high-quality, affordable child care, provides teens with a safe place to go after school; provides families a fun, affordable place to spend time together; provides seniors with social programs; and provides healthy programs and services for everyone in the community; and

Whereas, the YMCA of Greenville is part of a national movement that serves nine million children per year, that is the nation's largest child care provider, that currently serves one in ten teens, and that incorporate the values of caring, honesty, respect and responsibility into all of its programs; and

Whereas, the YMCA of Greenville will further its commitment to this community with the opening of the George I. Theisen North Greenville Family Branch YMCA.

Therefore, be it resolved by the United States Congress, that it takes great pleasure in recognizing the newest member of the Greenville YMCAs—the George I. Theisen North Greenville Branch YMCA—and acknowledging with great pride the positive impact of the organization in this community.

COMMEMORATE THE DEDICATION OF THE RENOVATED BETHESDA-CHEVY CHASE HIGH SCHOOL

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mrs. MORELLA. Mr. Speaker, I rise today to recognize and celebrate the dedication of a newly renovated Bethesda-Chevy Chase High School (B–CC High School). B–CC High School has, for the past seven decades, been a vital part of the community—growing from a little brick school house to the culturally diverse school it is today.

On April 28, B–CC alumni, families, former staff members, and students dedicated their renovated high school and highlighted the significant events occurring throughout the schools history. The origins of B–CC High School can be traced back to 1925, with a school house opening that was comprised of 14 classrooms and 388 students. The first graduating class in 1929, was comprised of six boys and eight girls.

During its history B–CC has created unforgettable moments for its students and community. In 1937, B–CC High School welcomed First Lady Eleanor Roosevelt to address its graduating class. During the 1940's, B–CC helped with the war effort by raising funds to help buy an amphibious tank for the army and other equipment. Also, 43 graduates of B–CC gave the ultimate sacrifice to ensure freedom during World War II. The 1950's brought change to B–CC as African-Americans were integrated into the school. In addition, the school was ranked as one of the top high schools in the country by Time magazine. The decade ended with future president John F. Kennedy delivering a commencement address in 1959.

On April 28, 2002, we celebrated the new era for B–CC High School with the dedication of the updated building. Principal Katy Harvey is fortunate to lead the school into the 21st century, with new architecture and technology that will enhance the learning environment. The new school is worth the wait and sacrifice you have all made. You reflect the diversity and strength that makes America great. Our community is richer because of the students, faculty, and administration of B–CC High School.

COMMEMORATING JOHN DYSON

HON. JOHN E. SWEENEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. SWEENEY. Mr. Speaker, today I recognize Mr. John Dyson, former Commissioner of Commerce for New York State, advocate of New York State businesses, and creator of the "I Love New York" advertising campaign—a campaign that is familiar to all of us—whether a resident of the state or first-time visitor. The slogan is still popular today and the tourism industry from the many diverse areas throughout the state have benefited from its success.

In 1975—the year John was hired as head of Commerce—New York State was in the midst of an economic recession. As state officials developed a campaign to market the state's vacation opportunities, John led a team that determined tourism could be a vehicle to reverse the state's economic position. The simple yet effective "I love New York" campaign aroused pride among New Yorkers and caught on quickly as it was easily applied to the city and the countryside and has grown world-famous.

In addition to creating a timeless campaign that is still relevant today and symbolic of everything the state has to offer—from the culture of the City to the lakes of Upstate—John proposed, fought for, and won legislation and tax cuts to keep business in the state. Without John and the incentives he spearheaded, we may not be able to go to a show at Radio City Music Hall or call New York City the home of the American Stock Exchange. Through John's determination, he engineered a deal to save Radio City Music Hall and spearheaded a state effort to keep The American Stock Exchange in New York City.

The success of New York State's tourism industry can be accredited to the dedication of John Dyson. New York had the unique culture and resources to offer, but John led the way in promoting those assets that had not yet been utilized to their fullest potential with a slogan that appears everywhere—from T-shirts to bumper stickers and was complemented by a jingle that plays over radio waves and television commercials. The extremely trying time of the September 11 terrorist attacks put New York to the test, but New Yorkers showed their strength and used the symbolic "I love New York" campaign to show their support and solidarity adapting the slogan to "I love New York Now More than Ever."

Mr. Speaker, please join me in recognizing the accomplishments of Mr. John Dyson and his devoted efforts on behalf of businesses and the tourism industry in New York State.

PERSONAL EXPLANATION

HON. GEORGE R. NETHERCUTT, JR.

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. NETHERCUTT. Mr. Speaker, I was present on the floor during passage of H.R. 3231 (Roll no. 116) and intended to vote in favor of the bill. The record, however, does not reflect that I cast a vote. Apparently my vote was not electronically recorded; therefore, I wish the record to note that I fully support the bill.

PERSONAL EXPLANATION

HON. JIM KOLBE

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 29, 2002

Mr. KOLBE. Mr. Speaker, on April 24, 2002, I was on the House Floor but inadvertently failed to vote during passage of H.R. 3763, the Corporate and Auditing Accountability and Responsibility Act. Had I voted, I would have voted "yea" on this vote (#110).

CORPORATE AND AUDITING ACCOUNTABILITY, RESPONSIBILITY, AND TRANSPARENCY ACT OF 2002

SPEECH OF

HON. MICHAEL G. OXLEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 24, 2002

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 3763) to protect investors by improving the accuracy and reliability of corporate disclosures made pursuant to the securities laws, and for other purposes:

Mr. OXLEY. Mr. Chairman, I want to take this opportunity to clarify several matters on this legislation. First, I want to discuss a specific provision of the legislation. H.R. 3763 provides enhancements necessary to support the Securities and Exchange Commission in its role to protect investors of public companies, including the unique relationships of auditors to the absentee shareholder. It is not intended to extend to auditors of privately-held companies or other, smaller regulated entities. These entities are uniquely different from global public companies in many ways. For example, many of these smaller companies do not have large executive staffs. Instead, they rely on their CPA/auditor to provide objective, trusted advice and counsel on a broad range of tax and business issues. Extending the reach of these restrictions to such firms could create unintended harmful consequences to an important segment of the U.S. economy.

It is for this reason that the bill contains section 2(j), clarifying the application of the bill. This section is intended to ensure that public regulatory organizations are properly focused on the auditors of public companies with respect to their audits of such companies. It is not meant to apply to the thousands of American accountants that continue to provide trusted advice to their small business clients.

Second, Mr. Chairman, I want to take this opportunity to correct a specific error that appeared in the Committee's report on the legislation. On page 31 of the Committee Report (H. Rept. 107–414), the sponsor of amendment No. 1b(5) is incorrectly identified as Ms. HOOLEY of Indiana. The correct sponsor should be Ms. HOOLEY of Oregon. I regret any confusion caused by this error and apologize to the gentlelady from Oregon (Ms. HOOLEY).

Finally, Mr. Chairman, I am including for the RECORD the cost estimate prepared by the Congressional Budget Office on H.R. 3763. It was not available at the time the Committee's report was filed on the bill, and I am including it here to ensure a complete legislative history for the bill.

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, April 26, 2002.

Hon. MICHAEL G. OXLEY,
Chairman, Committee on Financial Services, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 3763, the Corporate and Auditing Accountability, Responsibility, and Transparency Act of 2002.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contacts are Ken Johnson (for federal costs), Paige Piper/Bach (for the private-sector impact), and Susan Sieg Tompkins (for the state and local impact).

Sincerely,

BARRY B. ANDERSON
(For Dan L. Crippen, Director).

Enclosure.

CONGRESSIONAL BUDGET OFFICE COST ESTIMATE, APRIL 26, 2002

[H.R. 3763: Corporate and Auditing Accountability, Responsibility, and Transparency Act of 2002, as passed by the House of Representatives on April 24, 2002]

SUMMARY

H.R. 3763 would establish a new board to oversee the accounting industry and would give the Securities and Exchange Commission (SEC) the authority to review the board's decisions. This new board would be known as the Public Regulatory Organization (PRO). Also, the act would require the SEC to review the financial statements of public companies no less than once every three years. H.R. 3763 would mandate that the agency receive and publicize certain filings related to insider trading in electronic format. The SEC and the General Accounting Office (GAO) also would be required to complete a number of studies and rulemakings within several months of enactment.

In addition, H.R. 3736 would allow the SEC to assess new civil penalties for violations of the act's provisions. The act also would require that any civil penalities collected by the SEC from Enron Corporation, or from Arthur Andersen L.L.C. concerning its audits of Enron, be paid directly to former Enron employees and others designated by the agency.

Based on information from the SEC, CBO estimates that implementing H.R. 3763 would cost about $150 million over the 2002–2007 period, assuming the appropriation of the necessary amounts. Under current law, the SEC's discretionary costs are offset by fees the agency collects from securities markets. Enactment of H.R. 3763 would not change the amount of fees expected to be collected in the future. CBO also estimates that H.R. 3763 would increase revenues and direct spending. Therefore, pay-as-you-go procedures would apply. We estimate that the net change in such effects would be insignificant each year.

H.R. 3763 contains no intergovernmental mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would not affect the budgets of state, local, or tribal governments.

H.R. 3763 would impose several private-sector mandates, as defined by UMRA, on certain accountants, companies that issue registered securities, officers and directors of those companies, and certain owners of the securities. CBO cannot determine whether the total direct cost of those mandates would exceed the annual threshold established by UMRA for private-sector mandates

($115 million in 2002, adjusted annually for inflation), as we do not have sufficient information to estimate the cost of prohibiting insider trading during blackout periods when investment activity is restricted.

ESTIMATED COST TO THE FEDERAL GOVERNMENT

The estimated budgetary impact of H.R. 3763 is shown in the following table. The costs of this legislation would fall within budget function 370 (commerce and housing credit).

	By fiscal year, in millions of dollars				
	2003	2004	2005	2006	2007
CHANGES IN SPENDING SUBJECT TO APPROPRIATION[1]					
Estimated Authorization Level[2]	36	31	31	31	31
Estimated Outlays[2]	28	31	30	30	30

[1] H.R. 3763 also would have negligible net effects on revenues and direct spending.

[2] Subject to appropriation acts, the gross spending of the SEC is offset by fees the agency collects from securities markets. CBO estimates that the SEC collections will average about $1.6 billion a year over the next five years.

BASIS OF ESTIMATE

For the purposes of this estimate, CBO assumes that H.R. 3763 will be enacted by the end of 2002. Assuming appropriation of the necessary funds, CBO estimates that implementing H.R. 3763 would cost $150 million during the 2003–2007 period. The SEC's gross spending is offset by fees the agency collects from securities markets on transactions registrations, and mergers of securities. The act also would affect both revenues and direct spending, but the net impact would be negligible for each year.

Spending Subject to Appropriation

H.R. 3763 would require the SEC to review financial statements from every public company at least once every three years. Currently, the SEC employs about 300 people who review about 14,000 annual financial statements submitted by publicly traded companies at a rate of once every five to seven years. Based on information from the SEC, CBO expects that shortening the time between reviews to three years would require doubling the workforce that conducts such reviews. At current pay rates, CBO estimates that salaries and expenses for the new personnel would cost about $30 million a year, assuming appropriation of the necessary funds.

In addition, implementing two provisions of H.R. 3763 would require the SEC to upgrade its computer systems. First, the act would require the agency to establish a new rating system to review the financial statements of riskier companies more frequently. Also, the agency would have to receive and publicize electronically certain filings related to insider trading. Based on information from the agency, CBO expects that the computer upgrades needed to fulfill these requirements would cost about $1 million in 2003 and less than $500,000 every year thereafter, subject to the availability of appropriated funds.

H.R. 3763 also would require the SEC to review any sanctions or rulemakings proposed by the PRO. Based on information from the SEC, CBO expects that the agency would need to hire additional workers to oversee the PRO. Assuming that these new personnel would be compensated at current pay rates, CBO estimates that implementing these provisions would cost less than $1 million a year, subject to the availability of appropriated funds.

H.R. 3763 would require SEC and GAO to complete a number of studies and rulemakings within several months of the act's enactment. Based on information from the CBO estimates that implementing these provisions would cost $4 million over the 2002–2004 period, assuming the appropriation of the necessary amounts.

Revenues and Direct Spending

H.R. 3763 would establish new civil penalties for people who mislead auditors in a way that distorts financial statements, officers who trade their companies' stock during periods when employees are not allowed to trade that sock, and other persons who violate the act's provisions. Such civil penalties are recorded in the budget as governmental receipts (revenues). Based on information from the SEC, CBO estimates that these provisions would increase revenues by less than $500,000 a year.

Under the act, any civil penalties collected by the SEC under current law from Enron Corporation, or from Arthur Andersen L.L.C. related to its Enron audits, would be paid directly to Enron employees and others. Because of the low probability that the SEC would both assess and be able to collect civil penalties from these two companies, we expect that any change in direct spending that would result from this provision would be negligible.

Under the act, all financial statements required to be filed with the SEC under the securities laws would have to be certified by an accountant that was deemed qualified to do so by the PRO. CBO expects this provision would give the SEC, acting through the PRO, substantial authority to regulate and control entry into the accounting industry. In addition, the SEC could control the appointment of officers to the PRO board, would approve its annual budget, and could grant the PRO board members the authority to subpoena witnesses. Because the PRO would have regulatory power over the accounting industry, thus exercising the sovereign power of the federal government, CBO would consider it a governmental entity. As a result, we believe that its collections and spending should be included in the federal budget.

H.R. 3763 would require that the board by self-funded, although the act does not specify the nature or the intended payers of any fees or charges it might assess. Based on information from the SEC, we expect the PRO would cost at least a few million dollars a year to operate. Without such details, we cannot determine whether these fees should be classified in the budget as governmental receipts or offsetting receipts. CBO estimates, however, that the net effect of the board's collections and spending under H.R. 3763 would not be significant in any year.

PAY-AS-YOU-GO CONSIDERATIONS

The Balanced Budget and Emergency Deficit Control Act sets up pay-as-you-go procedures for legislation affecting direct spending or receipts. CBO estimates that H.R. 3763's net pay-as-you-go effects would be insignificant for each year.

ESTIMATED IMPACT ON STATE, LOCAL, AND TRIBAL GOVERNMENTS

H.R. 376 contains no intergovernmental mandates as defined in UMRA and would not affect the budgets of state, local, or tribal governments.

ESTIMATED IMPACT ON THE PRIVATE SECTOR

H.R. 3763 would impose several private-sector mandates, as defined by UMRA, on certain accountants, companies that issued registered securities, officers and directors of those companies, and certain owners of the securities. CBO cannot determine whether the total direct cost of those mandates would exceed the annual threshold established by UMRA for private-sector mandates ($115 million in 2002, adjusted annually for inflation), as we do not have sufficient information to estimate the cost of prohibiting insider trading during the blackout periods when investment activity is restricted.

Under the bill, independent public or certified accountants would be: Subject to a system of review by a public regulatory organization to be established under the act; prohibited from offering both audit and certain nonaudit consulting services (financial information system design or implementation services or internal audit services); and required to prepare final audit work papers and maintain them and other information related to certified financial statements for at least seven years.

According to the American Institute of Certified Public Accountants and other industry representatives, the industry currently: Sponsors a private entity that reviews independent accountants; has voluntarily stopped offering both audit and such nonaudit consulting services; and retains financial statement working papers and records for seven years.

Therefore, CBO estimates that the direct cost to comply with those new mandates would be small, if any.

H.R. 3763 would require that the public regulatory organization be self-funded. Based on information from the SEC, the annual cost of operating the public regulatory organization would be at least a few million dollars. Although the act does not specify the nature of the intended payers of any fees or charges to fund the organization, it is likely that such fees would be levied on the accounting industry and other private entities involved in investment activities. Currently, the accounting industry is self-regulated and voluntarily provides the funding.

Accelerated Financial Information Disclosure

Under sections 4 and 6 of the act, the SEC would prescribe rules that would require companies that issue securities to file and make public certain financial information on a rapid and essentially contemporaneous basis and to provide additional financial information in periodic financial reports to the SEC. The cost of providing real-time disclosure of financial information and additional financial reporting would depend on rules to be prescribed by the SEC. Since the regulations have not been established, CBO cannot estimate the cost to comply with those mandates.

Section 4 would require officers and directors of companies that issue securities and certain owners of such securities to disclose electronically to the SEC any insider trading before the end to the next business day. According to the SEC, insider trading disclosure is currently required to be reported to the SEC by the tenth day of the month following the month in which the trade occurred. Under the act, the SEC is required to facilitate electronic filing and disclosure through revising forms needed for reporting. Thus, CBO estimates that the cost of providing such information on an expedited basis would be small.

Section 4 also would require a company that issues securities to provide on their corporate Web site insider trading information before the end of next business day after the day the disclosure is received by the SEC. According to the SEC, an average of 15 to 20 insider trades per company each year would need to be posted on the company's Web site. With the requirement that the SEC facilitate electronic filing and disclosure, CBO, therefore, estimates that the cost of posting insider trading information on a company's Web site would be small.

Periodic Restrictions on Insider Trading

Section 5 would prohibit certain owners and officers of a company from selling equity securities issued by that company during a period (called "blackout" periods) when participants in the retirement plan are restricted in their ability to direct investments. Such periods may occur for administrative reasons, for example, when a plan changes recordkeepers. This restriction would increase the financial exposure of affected owners and officers and, thus, could impose a cost of them. CBO does not have sufficient information to estimate the amount of that cost.

Code of Ethics Disclosures

Section 8 would require the SEC to prescribe rules that would require companies that issue securities to immediately disclose electronically any changes in, or waiver of, their code of ethics to the SEC. Based on information from the SEC, a change in a company's code of ethics occurs very infrequently; therefore, CBO estimates the direct cost to comply with this requirement would be minimal.

Estimate prepared by: Federal Costs: Ken Johnson; Impact on the Private Sector: Paige Piper/Bach; and Impact on State, Local, and Tribal Governments: Susan Sieg Tompkins.

Estimate approved by: Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, April 30, 2002 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

MAY 1

9:30 a.m.
Banking, Housing, and Urban Affairs
To hold oversight hearings to examine the Treasury Department's report to Congress on International Economic and Exchange Rate Policy.
SD–538

Appropriations
VA, HUD, and Independent Agencies Subcommittee
To hold hearings on proposed budget estimates for fiscal year 2003 for the National Aeronautics and Space Administration.
SD–138

Commerce, Science, and Transportation
To hold hearings on the President's proposed budget request for fiscal year 2003 for the National Oceanic & Atmospheric Administration.
SR–253

Health, Education, Labor, and Pensions
Business meeting to consider the nomination of Elias Zerhouni, to be Director of the National Institutes of Health, Department of Health and Human Services (pending receipt by the Senate).
SD–430

10 a.m.
Appropriations
Defense Subcommittee
To hold hearings on proposed budget estimates for fiscal year 2003 for the United States Navy.
SD–192

10:15 a.m.
Foreign Relations
To hold hearings to examine the future of the North Atlantic Treaty Organization.
SD–419

10:30 a.m.
Appropriations
Legislative Branch Subcommittee
To hold hearings on proposed budget estimates for fiscal year 2003 for the Office of the Senate Sergeant at Arms and U.S. Capitol Police.
SD–124

2:30 p.m.
Banking, Housing, and Urban Affairs
Housing and Transportation Subcommittee
To hold oversight hearings to examine proposed legislation authorizing funds for the Temporary Assistance for Needy Families and Federal Housing Policy.
SD–538

Intelligence
To hold closed hearings on pending intelligence matters.
SH–219

MAY 2

9:30 a.m.
Veterans' Affairs
To hold hearings to examine pending legislation.
SR–418

Governmental Affairs
Investigations Subcommittee
To resume hearings to examine how gasoline prices are set and why they have become so volatile.
SD–342

10 a.m.
Banking, Housing, and Urban Affairs
To hold oversight hearings to examine bringing more Americans into the financial mainstream.
SD–538

Appropriations
To resume hearings to examine homeland security funding issues and proposed legislation making supplemental appropriations for the fiscal year ending September 30, 2002.
SD–192

Health, Education, Labor, and Pensions
Public Health Subcommittee
To hold hearings to examine certain provisions of the Hatch-Waxman Act, assuring greater access to affordable pharmaceuticals.
SSHR07

10:15 a.m.
Foreign Relations
International Operations and Terrorism Subcommittee
To hold hearings to examine the protection of U. S. citizens from terrorism abroad.
SD–419

2:30 p.m.
Judiciary
To hold hearings to examine restructuring issues within the Immigration and Naturalization Service, Department of Justice.
SD–226

MAY 3

10 a.m.
Governmental Affairs
International Security, Proliferation and Federal Services Subcommittee
To hold hearings to examine transformation plans of the United States Postal Service.
SD–342

MAY 7

9:30 a.m.
Governmental Affairs
Investigations Subcommittee
To hold hearings to examine the role of the Board of Directors in the collapse of the Enron Corporation.
SH–216

2:30 p.m.
Appropriations
To resume hearings to examine homeland security funding issues and proposed legislation making supplemental appropriations for the fiscal year ending September 30, 2002.
SD–192

3 p.m.
Armed Services
Airland Subcommittee
Closed business meeting to markup those provisions, which fall within the jurisdiction of the subcommittee, of proposed legislation authorizing appropriations for fiscal year 2003 for military activities of the Department of Defense.
SR–232A

4 p.m.
Armed Services
Personnel Subcommittee
Closed business meeting to markup those provisions, which fall within the jurisdiction of the subcommittee, of proposed legislation authorizing appropriations for fiscal year 2003 for military activities of the Department of Defense.
SR–222

5 p.m.
Armed Services
Readiness and Management Support Subcommittee
Closed business meeting to markup those provisions, which fall within the jurisdiction of the subcommittee, of proposed legislation authorizing appropriations for fiscal year 2003 for military activities of the Department of Defense.
SR–232A

MAY 8

9 a.m.
Armed Services
SeaPower Subcommittee
Closed business meeting to markup those provisions, which fall within the jurisdiction of the subcommittee, of proposed legislation authorizing appropriations for fiscal year 2003 for military activities of the Department of Defense.
SR–232A

10 a.m.
Armed Services
Strategic Subcommittee
Closed business meeting to markup those provisions, which fall within the jurisdiction of the subcommittee, of proposed legislation authorizing appropriations for fiscal year 2003 for military activities of the Department of Defense.
SR–222

11:30 a.m.
Armed Services
Emerging Threats and Capabilities Subcommittee
Closed business meeting to markup those provisions, which fall within the jurisdiction of the subcommittee, of proposed legislation authorizing appropriations for fiscal year 2003 for military activities of the Department of Defense.
SR–232A

2:30 p.m.
Armed Services
Closed business meeting to markup proposed legislation authorizing appropriations for fiscal year 2003 for military activities of the Department of Defense.
SR–222

MAY 9

9:30 a.m.
Finance
To hold hearings to examine revenue issues related to the Highway Trust Fund.
SD–215

Armed Services
Closed business meeting to continue to markup proposed legislation authorizing appropriations for fiscal year 2003 for military activities of the Department of Defense.
SR–222

MAY 10

9:30 a.m.
Armed Services
Closed business meeting to continue to markup proposed legislation authorizing appropriations for fiscal year 2003 for military activities of the Department of Defense.
SR–222

MAY 17

10:30 a.m.
Governmental Affairs
International Security, Proliferation and Federal Services Subcommittee
To hold hearings to examine non-proliferation programs, focusing on U.S. cruise missile threat.
SD–342

MAY 21

9:30 a.m.
Governmental Affairs
International Security, Proliferation and Federal Services Subcommittee
To hold hearings to examine difficulties and solutions concerning nonproliferation disputes between Russia and China.
SD–342

CANCELLATIONS

MAY 2

9:30 a.m.
Environment and Public Works
Superfund, Toxics, Risk, and Waste Management Subcommittee
To hold hearings to examine asbestos remediation activities in Libby, Montana, and evaluate public health concerns related to vermiculite home insulation.
SD–406

SENATE—*Tuesday, April 30, 2002*

The Senate met at 10 a.m. and was called to order by the Honorable E. BENJAMIN NELSON, a Senator from the State of Nebraska.

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

A voice from the past calls us to make our work an expression of our faith. In 1780, the father of the American Revolution, Samuel Adams, said:

"If you carefully fulfill the various duties of life from a principle of obedience to your heavenly Father, you will enjoy a peace which the world cannot give nor take away."

Let us pray: Gracious Father, we seek to be obedient to You as we fulfill the sacred duties of this Senate today. May the Senators and all who assist them see the work of this day as an opportunity to glorify You by serving our country. We renew our commitment to excellence in all that we do. Our desire is to know and do Your will. Grant us a profound experience of Your peace, true serenity in our souls that comes from complete trust in You, and dependence on Your guidance. Free us of anything that would distract us or disturb us as we give ourselves to the task and challenges today. In the Lord's name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable E. BENJAMIN NELSON led the Pledge of Allegiance, as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, April 30, 2002.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable E. BENJAMIN NELSON, a Senator from the State of Nebraska, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. NELSON of Nebraska thereupon assumed the chair as Acting President pro tempore.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

ANDEAN TRADE PREFERENCE ACT—MOTION TO PROCEED

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will now resume consideration of the motion to proceed to H.R. 3009, which the clerk will report.

The assistant legislative clerk read as follows:

> Motion to proceed to the bill (H.R. 3009) to extend the Andean Trade Preference Act, to grant additional trade benefits under that act, and for other purposes.

The ACTING PRESIDENT pro tempore. Under the previous order, the time until 12 noon shall be equally divided and controlled between the proponents and opponents of the motion.

RECOGNITION OF THE ACTING MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The Senator from Nevada is recognized.

SCHEDULE

Mr. REID. As the Chair has announced, we are now on the Andean trade bill. Until noon there will be remarks of those who favor it and those who are opposed to it. At noon we will vote on Michael Baylson and Cynthia Rufe to be United States District Judges for the State of Pennsylvania. There will be a half hour of debate on those two matters. Then we will vote this afternoon at 2:15, following our normal weekly party conferences.

Following disposition of these nominations, we will again go back to the Andean trade bill. A rollcall vote on adoption of the motion to proceed is expected today, sometime this evening. We hope those who wish to speak on this matter will do so. In the meantime, I ask unanimous consent that time under the quorum call I will initiate be equally charged against the proponents and opponents of this legislation.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. TORRICELLI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

COLLEGE EDUCATION COSTS

Mr. TORRICELLI. Mr. President, last year, the Senate made significant strides in easing the burdens of American families facing the mounting costs of a college education. In an initiative that I have sponsored, and in which I take enormous pride—the tax reduction legislation of last year—there is a provision allowing partial tuition, for the first time in American history, to become tax deductible.

Another measure that I successfully authored raised a cap on interest on student loans so that they could become deductible. In many ways, for middle-income families—indeed, for all American families—this was enormously helpful in easing the burden of an expensive college education.

You can imagine how distressed I was to discover in recent days that the administration has a new initiative that would now increase the burden of financing a college education—just as we were making all of this progress. The proposal, of course, is to prohibit the consolidation of student loans at low, fixed interest rates. This will compound the problems of millions of American families who rely upon student loans to finance a college education.

Under their current program, a family can take their various student loans, consolidate them in a single loan, and fix them at a determined interest rate, which is predictable and will not alter for the life of the loan. The savings, obviously, will allow students to consider going beyond college to graduate education. It allows young people who have these debts to begin families, buy homes, and start their lives.

Under the alternative proposal by the administration, students graduating from college will have variable interest loans. That would make it impossible to plan young lives. The debts begin at high interest rates and they are then subject to the market.

Young families having children, buying homes, in 5 years could find interest rates at significantly higher levels. They can go from college to graduate school and in the middle of graduate school discover their interest rates are going up and they cannot remain in school. This will affect an incredible 700,000 students per year who will have their finances radically changed by this inability to consolidate loans.

The administration argues that most of this consolidation is being done by medical students or law students who are going to have very high incomes so they can face this burden.

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

First, that is inaccurate. The average consolidated loan is $15,000. There are hundreds of thousands of students with these loans. Most of them are college students. They are getting bachelor's degrees. They may be going into teaching or social work or business; they may be young entrepreneurs; they could be of any walk of life; but they are at a stage of life when they cannot afford what amounts to a tax.

Make no mistake, this is a tax proposed by the Bush administration on middle-income families and college students. There is scarcely a segment of American society that can less afford a tax increase. This Senate recognized that fact last year. That is why my amendments to make college tuition tax deductible and to raise the cap on the deduction of student loans were accepted. We wanted to reduce the costs of college education, not increase them.

Even if the administration were right and many of these loans were going for medical students or law students or business students, does that make it the right priority for the country? Do we really want to make it even more expensive for people to go into medicine when doctors are already leaving the profession? Do we really want to make it harder for people to go to graduate school when we need engineers and businesspeople with real talents? This cannot be the right priority for the country.

I hope the administration will reconsider this proposal. The administration needs revenue. This cannot be the right way to approach it. Strangely, in this same Congress, while raising taxes on middle-income families and college students, the administration is proposing to revisit the estate tax, which we have already lowered, and increase the threshold so that only less than half of a percentage point of Americans are even subjected to the tax. And the rates on those people have been lowered. We are going to revisit that tax while taxing college students and middle-income families.

I cannot be the only person in this institution who thinks this does not make any sense for the country or the Congress. I hope we do not have a confrontation with the Bush administration on this point. I hope they reconsider it. I hope they withdraw it. It is just the wrong thing to do.

I yield the floor.

I suggest the absence of a quorum and the time be charged equally against both sides.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. INHOFE. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. CARNAHAN). Without objection, it is so ordered.

Mr. INHOFE. Madam President, I also ask unanimous consent that I be recognized as in morning business and that the time I use come off the postcloture time.

The PRESIDING OFFICER. Without objection, it is so ordered.

SPENDING VALUABLE TIME WITH CONSTITUENTS

Mr. INHOFE. Madam President, first of all, I have been a little disturbed recently—I am not mad at anybody—about all of this discussion about what we are doing here and why it is necessary to be here on Mondays and on Fridays when on Tuesdays and Wednesdays and Thursdays we are spending most of our time in quorum calls.

I think there is this Washington, DC, mentality that floats around that somehow if we are not here in Washington, DC, we, as Senators, are not doing our work.

Let me tell you, for those of us who go back to the district and are with our people—in my case, the people of Oklahoma, who make much more sense than anybody makes around this place—that time is more valuable, and it is harder. Our hours are longer. We work long hours when we are back there. Yet we see the bed check votes such as the one that brought us back last night. We come back, and we vote on something we could have been voting on anytime—on Tuesday, Wednesday, or Thursday.

Then you see the press corps around Washington. They all think everything that is worthwhile is happening in Washington. You read the Hill and you read Roll Call and they say it is perfectly reasonable for the majority leader to say everyone ought to be in Washington all the time.

I can tell you one of the problems we have is people who are in Washington all the time lose sight of who real people are. It is so hard to explain to people around here, but people in my State of Oklahoma understand it very well. There aren't any real, normal people in Washington. Everyone is either a Member or they are a staffer or they are a lobbyist or somebody else. To be able to get what is needed for America, you need to get back into real America. Oklahoma is real America. I can cite some examples.

I will be talking to the Duma this afternoon, the Russian Duma, about our new relationship with Russia. When I go back to Oklahoma, they will say: Wait a minute; why do we still have an ABM Treaty that was set up in 1972?

Fortunately, we are going to get rid of that thing. But why did it take this long? It took this long because people around this town don't understand pure logic. The logic is that at one time there were two superpowers, the U.S.S.R. and the United States. And I have to admit, as a Republican, this was done in a Republican administration. Henry Kissinger, back in the Nixon administration, put together something that said: I will make you a deal, U.S.S.R. We won't defend ourselves against you, if you don't defend yourselves against us. And if you shoot us, we will shoot you, and everybody dies and everybody is happy. It is called mutual assured destruction.

That might have made sense to some people back in 1972. It didn't to me, but it might have to some other people. Now we have a totally different world out there in Russia, which is a friend and ally of ours; yet we do have Iraq, Iran, Syria, and Libya, other countries harboring terrorists, developing weapons that will reach the United States, missiles that will reach us. Already China, North Korea, and Russia have such missiles. So how does it make sense in today's world that we don't defend ourselves?

I don't get the answers, but I get the questions when I go back to Oklahoma. Then I have to try to explain to them. I was criticized the other day by some of my conservative friends as to why I voted on some of the amendments in the farm bill. I voted on those because I went back. I have town meetings, as I am sure the Chair is aware. I get around and have as many as five, six in a day.

Oklahoma, particularly in the western part of the State, is agricultural. In Oklahoma, our farmers have three sources of income: Grain, livestock, and oil. They have this so-called marginal production. For a sustained period of time, all three of these were down, and they were really hurting. I sat down in places such as Shattuck, OK, and Gage, OK. I had farmers coming in and saying: For the first time in five generations, we will have to sell our farm. We can no longer stay in business.

For that reason, I realized that we have to do something that is different than what we have done before in transitioning into a new farm policy. So we did. And some of the amendments I voted for were pretty expensive. Nonetheless, that came from going back to the State, being there and listening to them instead of staying around Washington on the weekends.

On energy and ANWR, I can't believe we took all the time we did in trying to open ANWR for exploration. Here we are in a threatened position. Everyone is aware of it. After September 11, all of a sudden we find ourselves dependent upon other countries for 57 percent of our energy. We don't even pass something that will allow us to open up the Alaska Wildlife Refuge for exploration. I have yet to find one person to go up there to the ANWR on the North Slope of Alaska and come back here shaking their head, wondering why in the world we call that a pristine wilderness. It is nothing but a mud flat. It is a tiny area up there that would give us a great capacity of domestic crude.

In my State of Oklahoma, if we had all of our marginal wells—a marginal well is one that produces 15 barrels or less a day—if we had them all opened, if we had those wells flowing that we have had closed over the last 10 years, that would have produced the same amount of oil as we are currently importing from Saudi Arabia.

When you go back, you talk to real people. Last week, when we were having a town meeting, they were talking about this community planning bill that was going to come out, and now it has come out of the Environment and Public Works Committee. It will be considered on this floor. Do you know what that is all about? What that is about is a recognition that no good decisions are made unless they are made in Washington, DC.

Many years ago when I was mayor of Tulsa, there was a guy named Dr. Robert Fryley. He had gone into San Diego. Pete Wilson was mayor at that time. I was mayor of Tulsa. He had drawn these concentric circles that said: This is the way you should plan your community.

He came to Tulsa in the first 2 or 3 weeks that I was in office. He started talking about Tulsa. I said: Wait a minute. This property is owned by people. These people bought this property. You are going to change the value of the property to these people.

They said: That is of no concern to us.

That is what we now will be considering on the floor of the Senate—a bill that is going to allow us in Washington to decide what we in Tulsa, OK, do with our property.

I see others seeking the floor. I was killing a little time.

The other day I was at Eisenhower School. It is a school that has done some great things in the public school system that others are emulating. I received some letters. I will just read a couple. This one says:

> Thank you for my class. Your speech about rights and responsibilities was great and interesting. I really enjoyed you coming. It was fun. I learned a lot. Sincerely, Maggie.

Here is another one:

> Thank you so much for your presentation today. Our class really enjoyed it. I liked it a lot. I liked the part where you answered my question. Once again I enjoyed it a lot. Sincerely, Lauren Smith.

I ask unanimous consent that the rest of these letters be printed in the RECORD.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

DEAR SENATOR INHOFE: I want to thank you for coming to our class. I really learned a lot like the pilgrims really wanted to get to freedom so they traveled even though they knew a lot of them wouldn't survive for a year. I also learned about the government. I learned that there are 100 senators. Two for each state. I felt proud that I got to meet you! It was a pleasure to have you come to our class! You really made it an interesting day!

Sincerely yours,

SUSAN DIAZ.

P.S. I bet you have a big responsibility!

DEAR MR. INHOFE: I wanted to thank you for coming to our class. I had a very good time. I learned new things too like there are 100 senators and 435 representatives. I really like to learn new stuff like that. Thanks again.

Sincerely,

NOAH ZEIGLER.

DEAR SENATOR INHOFE: I want to thank you for teaching me stuff I have never known before. You taught me that the English fought England. It was an interesting visitation. By by.

Sincerely,

KYIA W.

DEAR SENATOR: Thank you for coming to our school. It was very very interesting. I learned that there are 435 State representatives and 100 senators. I think it is amazing that we won the revolutionary war.

I learned that people would strap dynamite on themselves. They thought God would bring them into heaven no matter what. Thank you.

Sincerely,

EVA.

DEAR SENATOR INHOFE: I want to thank you so much for coming to our class. That was a big opportunity that most kids don't get to have.

What I learned over your visit that I thought was really interesting was that people think that God would send them straight to Heaven if they killed themselfs.

Sincerely,

DANIELLE P.

DEAR SENATOR INHOFE: Thank you for coming to our school I enjoyed your presentation. I learned a lot of stuff like how the pilgrims won the Revolutionary War and about our freedoms and laws. I also think it's great that Afganistan got a new government. Thanks again.

Sincerely,

COLIN FERGUSON.

DEAR SENATOR INHOFE: I want to thank you for coming to our classroom. I really enjoyed your presentation. I learned that in Afghanistan they have mountains that are about 12,000 feet tall. I also learned that there are 100 senators. Two come from each state.

Sincerely yours,

BRYCE S.

DEAR SENATOR INHOFE: We really enjoyed you coming to our school. It was one big pleasure that I will never forget. Now I know what is going on in Afghanistan. It is really terrible. I hope you can come back and talk more. I didn't know there were 100 senators.

Sincerely yours,

LATOYA.

DEAR SENATOR INHOFE: It was a pleasure to hear you talk about lots of interesting facts on the Bill of Rights, our religion, our responsibilities, and the revolutionary war. It was a lot of fun having you come. You have taught us a lot of interesting things like, different cultures, and the constitution.

Sincerely yours,

BEN RICKMAN.

DEAR SENATOR INHOFE: I want to thank you for coming to our class. I enjoyed you talking to us. I learned a lot about the government. I learned that there are one hundred senators in the United States. It was a pleasure having you here.

Sincerely,

MATTHEW BREULO.

DEAR SENATOR INHOFE: I want to thank you for coming today. I think Maggie was glad you came today. It was our pleasure to listen to you. Your subject was very interesting. I hope you're right about war. I never knew that there were military grounds in Lawton. I enjoyed listening to you.

Sincerely yours,

ABBY JONES.

DEAR SENATOR INHOFE: I want to thank you for coming and talking about the Bill of Rights and lots of very interesting stuff. I think the most interesting part was when you talked about the Constitution. I enjoyed it very much. It was a pleasure having you here. So thank you.

Sincerely,

AVERY BOYD.

DEAR SENATOR INHOFE: I want to thank you for coming to our class. When you were here I learned that there were 435 state representatives and 100 senators in the United States of America. In each state there are two senators. I also learned that the war with Afghanistan should last about four more years. I hope you have a good day.

Sincerely yours,

HALEY HOLTZSCHER.

DEAR SENATOR INHOFE: I want to thank you for coming. I learned that there is a military base in Lawton. I enjoyed it when we talked about the Bill of Rights.

Sincerely yours,

JACKSON.

SENATOR INHOFE: Thank you for coming to our class. I learned a lot from you. I learned that the pilgrims fought the toughest army on the face of the earth and won. I also learned that we've had peace since 1776.

Sincerely,

JOHN YUAN.

DEAR SENATOR INHOFE: I want to thank you for telling us about some Bill of Rights. The things that you told us was so interesting. I learned a lot about the pilgrims. How they fought for our freedom. And thanks again for teaching things that I didn't know.

Sincerely yours,

AUBRI SETTLE.

DEAR SENATOR INHOFE: Thank you for coming to our classroom. I learned there are 2 senators from each state. There are so many things I learned they won't fit on this paper. I wish you had more time in our classroom. I hope you have a good spring.

Sincerely,

ETHAN GEHRING.

DEAR SENATOR INHOFE: Thank you for coming to 3rd grade. I enjoyed you talking to us about the bill of rights. I learned that there are 100 senators. There are 2 in each state.

Sincerely,

LAUREN RUSSELL.

DEAR SENATOR INHOFE: I want to thank you for coming to our class. Thank you for telling us about the Constitution. Thank you for coming again. Thank you for telling us how you work. Now we know it's a big job.

Sincerely yours,

JOHN PHILIPS HUGHES.

Mr. INHOFE. I wanted to stand in the Chamber and say if we ran this place the way it should be run, we could very easily handle all of the votes we need to handle on Tuesday, Wednesday, and Thursday, and allow those of us who care about going back to our States, spending time with our people and sharing the wisdom we get from the States, as opposed to from Washington, I think we would be a lot better off.

I yield the floor.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. WELLSTONE. Madam President, the Senator from South Carolina is going to speak for 30 minutes. I ask unanimous consent that I follow the Senator from South Carolina.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HOLLINGS. Madam President, with respect to the Andean trade compact and its re-enactment, and particularly with respect to the intent to put fast track on the particular Andean trade agreement, the contention is that without this fast track, we are missing out on all of these wonderful deals.

I wish I had time to give the litany of the wonderful deals on how the United States of America—from the Tokyo Round, Uruguay Round, right on down to the present scheduled rounds with the WTO and otherwise—has been going out of business. Literally, intentionally, we are going out of business, I would say. What we were trying to do was win the cold war. We wanted to defeat communism with capitalism. We sent over the Marshall Plan, with technology and expertise, and it worked. Everyone is happy with that.

Now, after 50 years, hometowns have been totally depleted of any industrial manufacturing.

Let me get right to the point and bring out the actual facts, using not just the record made here by the U.S. Trade Representative, but by the morning news. Let's look and find out what we are talking about with respect to trade agreements that we have been missing.

Well, if you look at the recent edition of the 2001 Trade Policy Agenda of the President of the United States on the trade agreements program, you will find in the glossary in the back that there are some 200 trade agreements made without fast track.

Do I need to remind the Senate that we just voted on—without fast track—a free trade agreement with Vietnam? Do I need to remind the body that we just voted on a free trade agreement with Jordan? I supported both of those. Do I need to remind them that we passed the Sub-Saharan Africa trade agreement, the Caribbean Basin Initiative Agreement, and the 1997 WTO telecommunications agreement? You can go down the list—and they are all listed in here.

We have made some 200 agreements in the last 10 years—all without fast track. We didn't give total fast track authority to President Clinton because we wanted to deliberate and make sure the economy of the United States was protected. And it has been working. But look not only at the red book here, but with respect to the national news, in the Washington Post, it said this last Thursday:

> United States signs trade agreement with eight African nations.

There are eight more trade agreements. We aren't missing out on all these so-called trade agreements. I wish the chairman of the Finance Committee could read the morning paper. He could find out that we did it without fast track. According to the financial news—let me read this to you. This is in the morning Financial Times:

> John O'Leary, former U.S. Ambassador to Chile and campaigner on a bilateral accord, said yesterday he expected a deal to be signed this year whether or not Mr. Bush won trade negotiating authority.
>
> . . . "It's not a matter of consequence who is first past the finishing line," he said. "But the deal with the EU is helpful for Chile because it gives fresh momentum to their negotiations with the United States."

We read it. If they brought a Chilean trade agreement—I would have to look at it obviously, but why would I vote for it? They have relatively the same standard of living. They have a respected judiciary, they have property rights, they have labor rights, and they are strong on the environment. I voted for NAFTA with Canada because we have relatively the same standard of living. But this total farce that we are missing out on agreements all over the countryside is just wrong, wrong, wrong.

The problem is the loss of jobs. You only have to go to the morning's paper. I hope the chairman, who just left the floor, will listen to this one. Of course, right now the best bet for the next few quarters is probably a jobless recovery in which the gross domestic product rises but unemployment stays high. After all, the economy needs to grow at about 3.5 percent just to prevent the unemployment rate from rising, and the odds are at least even that the growth will fall short of that mark. The funny thing is that a slow jobless and profitless recovery is exactly what level-headed people, such as economists at the Federal Reserve, have been predicting for a long time. So how did a far more bullish view become not just prevalent but more or less mandatory on Wall Street? How, with the business landscape still strewn with the rubble from the bubble, did that manic optimism so quickly become popular again? It seems that hype springs eternal.

That is the morning news, and that is why the Senator from South Carolina only asks for just a closer look.

Let me fulfill my obligation under the Constitution. Article I, section 8, says that—not the President of the United States, not the Supreme Court—but this branch of Government, the Congress of the United States, shall regulate foreign commerce. Now, these pollster politicians who come to Washington and crowd around take the easy course. They say: Free trade, free trade, fast track, fast track—and they don't have to take any responsibility. So when you lose all the jobs in St. Louis and in Charleston, SC, and you look around, you have to sort of take it or leave it. I didn't want to be against free trade, and that is what I had to vote for.

Madam President, it is just terrible when you read in that same New York Times this morning:

> Auto Parts Makers Grinding to a Halt

I have another article on a poster board, and I will get into the board debate when some of the others come with their particular boards. But the automobile industry is moving out of the United States. We have foreign locations here. Mercedes is in Alabama, BMW is in South Carolina, and some others are trying to get into the market.

As far as the American manufacturer making that profit is concerned and as far as the American manufacturer keeping on the cutting edge of technology—why did they move to China? General Motors was told by the Chinese they didn't know how to trade. They don't run around saying, be fair, be fair, level the playing field, be fair. That is outrageous child's talk. That doesn't happen in commerce. You trade for the benefit and economic strength and the profit of your company. So the Chinese told General Motors: Not only do you manufacture that GM automobile over here, but the most modern automobile design plant in the world is in China. And that is as a result of that particular trade agreement that, of course, General Motors made with the People's Republic of China.

The auto parts suppliers are grinding to a halt. They are moving those now. They used to send those down to Mexico, and we would get the finished product—the automobile—back. But you have here a quote from Paul Craig Roberts. Paul Craig Roberts served in the Reagan administration. This was an article in the Washington Times just the other day:

> The result is a decline in higher paying jobs in the United States as companies move higher value-added operations abroad to take advantage of cheaper labor.

A recent Cornell University study:

> "The Impact of U.S.-China Trade Relations on Workers, Wages and Employment," concludes that U.S. companies shift their production to China in order to produce for the U.S. market with cheap Chinese labor. The study estimates that a minimum of 760,000 U.S. jobs have been lost to China since 1992.

"An increasing percentage of the jobs leaving the U.S. are in higher-paying industries producing goods such as bicycles, furniture, motors, compressors, generators, fiber optics, clocks, injection molding and computer components." The shift in production is so extensive that the U.S. has run a trade deficit with China in advanced technology goods since 1995.

That is the old wag I was given when as Governor of South Carolina I testified 42 years ago before the old International Tariff Commission. We were about to lose so much of our textile industry that 10 percent of the consumption of clothing textiles in the United States would be represented in imports. In looking around the Chamber right this minute, two-thirds of the clothing I am looking at is imported, 86 percent of the shoes.

Then Tom Dewey, who represented the Japanese at the hearing and ran me around the hearing room, he said: "But, Governor, let them make the shoes and the clothing. We will make the airplanes and the computers."

Fast forward to the reality of today. They make the shoes, they make the clothing, they make the airplanes, they make the computers. We have a deficit in the balance of trade in computers and semiconductors.

High-tech, globalization, you have to understand it. Come on. Do not tell this Senator what globalization is. I do not want to sound like Vice President Gore, that I invented it, but I did travel 40 years ago to South America and Europe as a Governor, soliciting their investment. I was looking for jobs. I have been in this game for over 40-some years. Today, we have 117 German plants in little South Carolina.

I will never forget calling on Michelin in June of 1960, down in Paris, France, and I have now four beautiful plants of the French company. I also have the North American wonderful plant of Bowater. I see that rather than me trying to move corporations from overseas to the United States, which I am still trying to do—or more particularly carpetbagging New York in the Northeast—they are overjumping me into Mexico, into China, into Malaysia, into India.

Hewlett-Packard, Motorola, and all the rest of these big-name companies, the high-tech companies, are not saving us. We have to retrain.

I have another page of the Washington Post, "Dupont Plans to Cut 2,000 Jobs." Some of them, of course, are in South Carolina. Everywhere we turn, we hear about cutting jobs, and it is not textiles or low wage jobs. It is high-tech jobs.

I hope the Finance Committee will give me a hearing sometime. I would be delighted to educate that crowd because this is a fix. They have a bunch of oil people and a bunch of farmers and they could care less, as long as they get their depletion allowance and their subsidies, and then they come around hollering, "Protectionism, protectionism."

Well, that is the fundamental of government. We have the Army to protect us from the enemies without, and the FBI to protect us from enemies within. We have laws to protect clean air, clean water, the environment. We have Medicare to protect us from ill health. We have antitrust laws to protect us from monopolization and predatory practices. We have safety laws to protect us, safe machinery, safe working places and everything else.

I was in the Rotunda on a cold January day when President Reagan was sworn in for his second term. He raised his hand to preserve, protect, and defend, and everybody clapped. We were all overjoyed, and then we came down into the Senate Chamber and had to listen to a bunch of children running around hollering, "Protectionism." That is the function of government, and the security of this Nation.

It is like a three-legged stool. There is the one leg of the values as a nation, unquestioned. We are admired the world around for America's stand for individual rights, freedom, and democracy.

The second leg is the military. We are the superpower, unquestioned.

The third leg, economics, that is my point. It has been fractured, fractured intentionally, with this so-called free trade. We knew we had to sort of spread the wealth, spread the capitalism in order to defeat communism. It has worked, now to a counterproductive point. We will not be in a position to produce foreign aid, we will not be able to defend freedom the world around unless we have a strong economy.

I will never forget Akio Morita of Sony. We were in Chicago. We had a seminar, and he was talking about Third World nations. He turned and he said: In the Third World, the emerging nations, they have to develop a strong manufacturing capacity in order to become a nation state. Then talking along, he pointed over, and he said: Senator, that world power that loses its manufacturing capacity will cease to be a world power.

And we wonder why we do not have the influence?

They try to transfer it to hate. It is not hate. I have traveled. We have all traveled around. They admire and they like Americans in the Arab countries and everywhere else. You can go into downtown Baghdad, you can go into downtown Tehran in Iran right now, and they will come up to you and talk to you and say glad to see you. Do not give me all that hate stuff.

What is happening is we are losing our economic clout and our economic strength because we are exporting the jobs faster than we can create them.

In the Los Angeles Times, April 2, "High-Paid Jobs Latest U.S. Export," the No. 1 story on the front page of the Los Angeles Times.

I do not believe they read over in the Finance Committee. They give you all of this: We are missing out on agreements; we have to retrain.

They sound like Mao Tse Tung: You have to go out and re-educate.

Let us try it on for size. I had a plant close not long ago, Oneida. They made T-shirts. At the time of their closing, they had more than 400 employees. The average age was 47 years old, and tomorrow morning we have done it Washington's way. We have retrained. We have more than 400 people who are now skilled computer operators. Is a company going to hire the 47-year-old computer operator or the 21-year-old computer operator? You are not taking on the health costs for the 47-year-old and above. You are not taking on those retirement costs. You are going for the youngster who is just as expert. There you go, like we do not understand what is going on.

"Levi Strauss Closing Most U.S. Plants," another article, again in April. Every time I look around, they are closing, and what we have, so it is understood, is we have an affirmative action plan to get rid of the jobs. Mind you me, that is what I say, an affirmative action plan to get rid of the jobs.

Why? Well, let me refer to this article from Business Week. Business Week, in 1999, reported on, of all people, Mr. Industrial Success, Mr. Industrialist of All Times, John F. Welch—Jack Welch.

I ask unanimous consent to have the article printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD as follows:

(From Business Week, Dec. 6, 1999)

WELCH'S MARCH TO THE SOUTH

By Aaron Bernstein

WASHINGTON, Dec. 6.—One of General Electric Co. CEO John F. Welch's favorite phrases is "squeeze the lemon," or wring out costs to maintain the company's stellar profits. In the past year, the lemon-squeezing at GE has been as never before. In a new, superagressive round of cost-cutting, the company is now demanding deep price cuts from its suppliers. To help them meet the stiff goals, several of GE's business units—including aircraft engines, power systems, and industrial systems—have been prodding suppliers to move to low-cost Mexico, where the industrial giant already employs 30,000 people. GE even puts on "supplier migration" conferences to help them make the leap.

GE's hard-nosed new push could spark other companies to emulate its tactics. The supplier crackdown is reminiscent of a similar attempt by former General Motors Corp. parts czar Jose Ignacio Lopez de Arriortua. His efforts largely failed in the face of stiff supplier resistance. But if GE succeeds, other companies could be inclined to try again. GE officials at headquarters in Fairfield, Conn., say the business units are simply carrying out Welch's larger campaign to globalize all aspects of the company. Says Rick Kennedy, a spokesman at GE Aircraft Engines (GEAE):

> "We're aggressively asking for double-digit price reductions from our suppliers. We have to do this if we're going to be part of GE."
>
> GE's efforts to get suppliers to move abroad come just as World Trade Organization ministers start gathering in Seattle on Nov. 30. That timing could help make the GE moves an issue at the talks, where critics will be pointing to just such strategies—and the resulting loss of U.S. jobs to low-wage countries—as the inevitable fruit of unregulated trade. GE's 14 unions hope to make an example in Seattle of the company's supplier policy, arguing that it's paving the way for a new wave of job shifts. They plan to send dozens of members to march with a float attacking Welch. PALTRY WAR CHEST. The campaign by GE's unions, which bargain jointly through the Coordinated Bargaining Committee (CBC), is also the opening salvo of bargaining talks over new labor contracts to replace those expiring next June. Because GE's unions are weak—fully half of their 47,000 members at the company belong to the nearly bankrupt International Union of Electronic workers (IUE)—they'll have a hard time mounting a credible strike threat. Instead, the CBC is planning a public campaign to tar Welch's image. They plan to focus on likely job losses at GE suppliers. The unions also suspect that GE may move even more unionized GE jobs to Mexico and other countries once it has viable supplier bases in place. "GE hasn't moved our jobs to Mexico yet because our skilled jobs are higher up the food chain," says Jeff Crosby, president of IUE Local 201 at GE's Lynn (Mass.) jet-engine plant. "But once they have suppliers there, GE can set up shop, too." His members from parts supplier Ametek Inc. picketed the plant on Nov. 19 to protest GE's pressure on Ametek to move to Monterrey, Mexico.
>
> Although it has never openly criticized Welch before, the AFL–CIO is jumping into the fray this time. Federation officials have decided that Welch's widely admired status in Corporate America has lent legitimacy to a model of business success that they insist is built on job and wage cuts. "Welch is keeping his profit margins high by redistributing value from workers to shareholders, which isn't what U.S. companies should be doing," charges Ron Blackwell, the AFL–CIO's director of corporate affairs. Last year, the AFL–CIO proposed a bold plan to spend some $25 million on a massive new-member recruitment drive at GE, but the IUE wasn't willing to take the risk. So the federation is backing the new, less ambitious campaign that focuses on traditional tactics like rallies and protests. STRONG TIDE. GE's U.S. workforce has been shrinking for more than a decade as Welch has cut costs by shifting production and investment to lower-wage countries. Since 1986, the domestic workforce has plunged by nearly 50%, to 163,000, while foreign employment has nearly doubled, to 130,000. Some of this came from businesses GE sold, but also from rapid expansion in Mexico, India, and other Asian countries. Meanwhile, GE's union workforce has shriveled by almost two-thirds since the early 1980s, as work was relocated to cheaper, nonunion plants in the U.S. and abroad.
>
> Welch's supplier squeeze may accelerate the trend. In his annual pep talk to GE's top managers in Boca Raton, Fla., last January, he again stressed the need to globalize production to remain cost-competitive, as he had done in prior years. But this time, he also insisted that GE prod suppliers to follow suit. Several business units moved quickly to do so, with GEAE among the most aggressive. This year, GEAE has held what it calls "supplier migration" conferences in Cincinnati, near the unit's Evendale (Ohio) headquarters, and in Monterey, where an aerospace industrial park is going up.
>
> At the meetings, GEAE officials told dozens of suppliers that it wants to cut costs up to 14%, according to documents about the Monterey meeting at Paoli (Pa.)-based Ametek, whose aerospace unit makes aircraft instruments. The internal report, a copy of which BUSINESSES WEEK obtained, says: "GE set the tone early and succinctly: 'Migrate or be out of business; not a matter of if, just when. This is not a seminar just to provide information. We expect you to move and move quickly.'" Says William Burke, Ametek's vice-president for investor relations: "GE has made clear its desire that its suppliers move to Mexico, and we are evaluating that option. We have a long relationship with GE, and we want to preserve it."
>
> GEAE officials argue that heightened competition leaves them no choice. Jet engines sell for less than they did four years ago, says Kennedy, the unit's spokesman. Almost all GEAE's profits have come from contracts to maintain engines already sold. And that business is getting tougher, with rivals such as United Technologies Corp.'s Pratt & Whitney laying off thousands of workers to slash costs. "This company is going to make its net income targets, and to do it, we will have to take difficult measures," says Kennedy.
>
> Still, even some suppliers don't see the Mexico push as justified. They point out that GEAE's operating profit has soared by 80% since 1994, to $1.7 billion on sales of $10.3 billion. GE, they argue, is leading the cost cuts. "It's hard to give away 5% or 10% to a company making so much money when most of the suppliers are marginally profitable," says Barry Bucher, the CEO and founder of Aerospace International Materials, a $30 million distributor of specialty metals in Cincinnati. Nonetheless, Bucher says he's looking into a joint venture in Mexico in response to the demands from GE, his top customer.
>
> The unions, for their part, worry that GEAE will follow in the footsteps of GE's appliance unit. To remain competitive in that low-skilled, low-margin industry, GE Appliances has slashed its workforce nearly in half at its Appliance Park facility in Louisville, to some 7,500 today. Much of the work has been relocated to a joint venture in Mexico. Union leaders have tried to stave off further job shifts by offering concessions. In early November, the company agreed to a $200 million investment in Louisville in exchange for productivity improvements and lump-sum payments instead of wage hikes for its members. "We hope GE will see this as a solution they can adopt in jet engines and elsewhere," says IUE President Edward L. Fire.
>
> Labor's new campaign may embarrass Welsh and even prompt GE to tone down its demands on suppliers. But it won't rebuilt the union's clout at the bargaining table the way a serious organizing drive might have done. Until that happens, Welch probably has little to fear from his restive unions.

Mr. HOLLINGS. I read:

> One of General Electric Co. CEO John F. Welch's favorite phrases is "squeeze the lemon," or wring out costs to maintain the company's stellar profits.

How did you squeeze that lemon? I am thinking now that he is squeezing something else. Squeezing that lemon in Mexico, he said to all of his suppliers two years ago. You have to go down to Mexico and cut the cost of your particular supplies, or you will not be a supplier of General Electric.

When the best of the best blue-chip corporations of America has an affirmative action plan to get rid of the jobs and the industrial security of the United States of America, we are really in trouble. How does it occur? It is a natural thing.

In manufacturing, 30 percent of volume is in the labor costs. As much as 20 percent of sales can be saved by moving offshore to a low-wage country or down to Mexico, India, or China. If you retain your executive office, of course your sales force, but move your manufacturing offshore, if you have $500 million in sales, you can reap a profit of $100 million before taxes. Or you can stay in America, continue to work your own folks, and go broke. That is how they look at it.

So with the policies we have, they are not only moving their manufacturing, they are moving the executive office to Bermuda. They want the protection of the United States of America, but they don't want to participate in building up that protection. They want a free ride. That is why I say, in the Senate, we are in the hands of the Philistines. When my friend Bobby Kennedy really came in to national recognition he had published a book "The Enemy Within." He was talking about organized labor. Now I can write the book "The Enemy Within," and I can talk about management.

Who is opposing us in the Senate, trying to create jobs, trying to hold together the strength of our economy, trying to maintain our industrial backbone? Who opposes this? The Business Roundtable, the Conference Board, the National Association of Manufacturers, the Chamber of Commerce, the National Federation of Independent Business, the retailers that make a bigger profit, newspapers that take the handouts from the retail associations. They make the most of their profits in newspapers from retail advertising. So they put out those things, free trade, free trade, fast track, fast track, and here comes the whole K Street crowd.

I came here 35 years ago on the Commerce Committee. The very first person in the office on trade was a Japanese representative. No longer now. I haven't seen anyone from Japan in Lord knows when. I am trying to get there to see our Ambassador over there, Howard Baker. I respect their productivity and I have watched as we cry babied along. We never did open up their market. It was always a one-way street.

In fact, the Japanese got to the position of saying, wait a minute, we are not going to buy your bonds if that is what you want to do in trade. We found out long since that the Secretary of the Treasury really is trying to sell, as in the morning headlines, which says we have a deficit, so he is trying to issue $1 billion in bonds, borrowing $1 billion. We have had the Japanese juggle our trade policy.

But more than anything else, we have the arrogance now of the U.S. Chamber of Commerce. I speak advisedly of that body. Ten years ago I was their man. I was the Man of the Year of the U.S. Chamber of Commerce, if I quote correctly, Robert Thompson, who was the national president. He had me going around making talks and everything else because I had a standoff with my good friend Russell Long of Louisiana. We had labor law reform. On eight votes, up and down for cloture, I won and prevailed.

I don't come here as an enemy of business. I know way more in experience, I should say, about getting jobs and creating jobs, instituting technical training, imparting the tools, high tech, and globalization than most because I have been in the game. I am a friend of business, but I am a greater friend of the United States. I hate to see my country go to pot with this childish nonsense of free trade. We are missing out on agreements. Since NAFTA, I have lost 53,900 textile jobs alone. My friend, the Senator from North Carolina, Mr. HELMS, lost 124,000; 27,000 have been lost by the Senator from Mississippi. I don't know whether he is with us or not.

This is what the Chamber of Commerce, Tom Donohue, says, and he knows nothing about trade. In yesterday's National Journal's Congress Daily, I quote Tom Donohue, the president of the U.S. Chamber of Commerce. He said the Chamber would not accept a bill weighted down by amendments that exceed the average man or woman's sense of what is appropriate for the bill. We will kill it and the people who loaded it up will pay a political price. Donohue also said that the business community has been patient and supportive through the political process to get the trade authority bill before the Senate, but there will be dire consequences if the bill collapsed under partisan politics.

> I know of many manufacturing companies that will move their operations offshore. I brought that message home to specific legislators about firms and their States and districts.

That is a threat from the U.S. Chamber of Commerce.

Tell him to wake up. He headed the Trucking Association when Jack Welch was putting in his affirmative action plan to get rid of the jobs and move to Mexico. Donohue now will warn you they will move. Everybody knows this has been going on for 10 years. We are going out of business.

I wanted to bring that story home in this debate, not asking to vote pro or con with respect to a particular trade measure. As I say, I voted for Vietnam; I voted for Jordan; I voted for NAFTA with Canada. It is protecting not only your economy and your industrial strength but your standard of living.

Incidentally, on the one hand, you can certainly bar child employment, children and youth production. But you are not going to get Mexico to pass environmental laws we have. Or the labor laws. They have that advantage. In China, in India, in Malaysia, the competition can keep on whistling "Dixie," keep talking. It will not happen. It is not going to happen, and you can't blame them. If you were running the country of China, you would do the same thing. You wouldn't run around and say we have to get with the Americans and level the playing field, and put in these labor reforms, and put in these environmental requirements because we want to be seen as being fair. It is just absolute nonsense.

Madam President, what happens is Republican and Democrat Senators unanimously support these requirements before you open up Carnahan Manufacturing. Think about it. Before you open your manufacturing plant, you are going to have to have minimum wage, clean air, clean water, Social Security, Medicare, Medicaid, plant closing notice, parental leave, safe working place, safe machinery, antitrust provisions. And everything else of that kind.

You can go down to Mexico and pay 90 cents an hour and have none of those requirements.

In order to compete, is it the case we are going to go back and retrench on this high standard of living? No; not at all. That will never happen. But we will have to maintain a balance with respect to the economic strength. We have to maintain our steel production.

I will never forget, in 1961, before we got President Kennedy to enunciate his seven-point textile program, under the law—and, incidentally it is the law today—that before the President can take executive action unilaterally on a trade measure, he must prove that product is important to the national security of the United States. At that time we corralled five Cabinet members—one sub-Cabinet of the five, George Ball, because Dean Rusk was too busy, from the Department of State; Luther Hodges, Secretary of Commerce; Orville Freeman, the Secretary of Agriculture; Douglas Dillon, the Secretary of the Treasury, was there; and the Secretary of Labor, Arthur Goldberg.

They had hearings and we brought the witnesses. They made a finding, and the record is still there, that second to steel, textiles was the most important to our national security. The wag at the time was you cannot send them to war in a Japanese uniform—because they were bringing in all those textiles. The Japanese don't fool with textiles anymore. They have gone high-tech. Now you would say you wouldn't send them to war in a Chinese uniform and Gucci shoes. You have to have the clothing. You have to have the uniforms. So you have to have that measure because it is important to our national security.

We have to maintain a modicum of textile manufacturing. We certainly have to maintain the ability to produce steel. We have to retain these other industries—electronics, with respect to watch-making, and fine tooling, and hand tools, and computers. We have to retain some production of semiconductors and the like.

In doing that, let's correlate, if you please, our 28 agencies and departments into one department of trade and commerce. We are all over the lot. It is our fault. We have to begin to enforce our trade laws against dumping. We can't let Wal-Mart sell below cost. They would be in trouble. We would get them for antitrust, Robinson-Patman violations, and we would send them to the hoosegow. In international trade that happened in steel. Bob McNamara went running the world around saying to the Third World countries that in order to be a nation state, you have to have steel for the tools of agriculture and the weapons of war. So they had 2-percent steel plants built all over Latin America and the Middle East.

I have been into that game. Yes, the President was correct in moving on steel because they are dumping steel. I see it. My office is in Charleston, SC. I can look on the dock and see all of this Brazilian steel coming in at less than cost, putting out of business, 25 miles away, Nucor, the most productive of all steel plants in the world.

Please, spare me from the idea of productivity. If you go to the international section of the United Nations, if you go to the Labor Department, Department of Vital Statistics or otherwise, you will find they will agree the world around, the most productive industrial worker is the U.S. industrial worker. We keep nagging: We have to get productivity up. My steel plant is the most productive in the world, and they are dumping steel at less than cost and criticize the President for moving on this particular score. He was right. He is right. We have to maintain that.

We have to get a value-added tax to pay for this war on terrorism that is costing the country and offset the 17-percent value added tax advantage. For example, in Europe where it is rebated, it is costing us a 17-percent differential in trade right there.

Enforce our dumping laws, but please do not say you have to get more productive. What is not producing is not the industrial worker in the United States, it is the U.S. Congress. We haven't produced. We have been running around like lemmings: Free trade, free trade, fast track, fast track—having no idea in the Lord's world what we are doing; whereas we are exporting jobs faster than we can create them.

My time is up. I yield the floor.

Mr. REID. Madam President, we are, in a minute or 2, going to turn to two judicial nominations. We have had a number of Senators wishing to speak on the motion now before the Senate, so I ask unanimous consent that when the votes are completed this afternoon on the two judges, the Senator from Texas, Mrs. HUTCHISON, be recognized for up to 15 minutes; following her remarks, Senator WELLSTONE be recognized for up to 1 hour; following that hour, someone designated by the Republican leader would speak for 1 hour; and following that, Senator BAUCUS, chairman of the Finance Committee, would be recognized for 1 hour.

The majority leader wanted to have a vote on this tonight with the consent of Senator HOLLINGS and others, but it appears now there are a significant number of people who want to speak so that will probably necessitate carrying the vote over until tomorrow. I have not checked with the leader on that for sure.

I propound the request for the speakers who have been lined up. I have checked this out with the minority.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Madam President, what is now the business before the Senate?

EXECUTIVE SESSION

NOMINATION OF MICHAEL M. BAYLSON, OF PENNSYLVANIA, TO BE UNITED STATES DISTRICT JUDGE FOR THE EASTERN DISTRICT OF PENNSYLVANIA

NOMINATION OF CYNTHIA M. RUFE, OF PENNSYLVANIA, TO BE UNITED STATES DISTRICT JUDGE FOR THE EASTERN DISTRICT OF PENNSYLVANIA

The PRESIDING OFFICER (Mrs. CLINTON). Under the previous order, the Senate will now go to executive session to proceed to the consideration of Executive Calendar Nos. 778 and 779.

The Senator from Nevada.

Mr. REID. Madam President, the two managers, Senators LEAHY and HATCH, are not here. I therefore ask unanimous consent that during the quorum call I will suggest in just a minute the time be charged—equally against the two managers—on the motion.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LEAHY. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. Madam President, is the Senator from Vermont correct that following the two parties' caucuses this afternoon there will be two rollcall votes on judicial nominees?

The PRESIDING OFFICER. The Senator is correct.

Mr. LEAHY. Madam President, I will speak about that, but, first, I compliment the distinguished Presiding Officer and her colleague from New York for their invaluable help behind the scenes as we were fighting for the farm bill. As a result, the dairy farmers in my State of Vermont and in her State of New York are better off. I thank both Senator CLINTON and Senator SCHUMER for their help in that regard.

With today's votes, the number of federal judges confirmed since the change in Senate majority fewer than 10 months ago now exceeds 50 and totals 52. Under Democratic leadership, the Senate has confirmed more judges in fewer than 10 months than were confirmed by the Republican-controlled Senate in the 1996 and 1997 sessions combined. We have accomplished in less than one year what our predecessors and critics took two years to do.

The number of judicial confirmations over these past 10 months—52—exceeds the number confirmed in four out of six full years under Republican leadership, during all 12 months of 2000, 1999, 1997 and 1996. And we are ahead of the pace for all the years of Republican control. It exceeds the number of confirmations in the first year of the Reagan Administration by a Republican Senate majority. It is almost double the number of confirmations in the first year of the Clinton Administration by a Democratic Senate majority. And it is more than triple the number of judges confirmed for the George H.W. Bush Administration by a Senate of the other party.

The confirmation of Judge Rufe and Mr. Baylson today illustrates the progress being made under Democratic leadership, and the fair and expeditious way in which we have considered nominees. With today's confirmations, we will have confirmed three district court judges to the Eastern District of Pennsylvania in fewer than four months. On April 18th, the Senate confirmed, by a vote of 94 to zero, Judge Legrome Davis to the U.S. District Court for the Eastern District of Pennsylvania. Judge Legrome Davis was first nominated to the position of U.S. District Court Judge for the Eastern District of Pennsylvania by President Clinton on July 30, 1998. The Republican-controlled Senate took no action on his nomination and it was returned to the President at the end of 1998. On January 26, 1999, President Clinton renominated Judge Davis for the same vacancy. The Senate again failed to hold a hearing for Judge Davis and his nomination was returned to the President on December 15, 2000, after two more years of inaction in a second full Congress while the Senate was controlled by a Republican majority. Under Republican leadership, Judge Davis languished before the Committee for 868 days without a hearing, notwithstanding the strong support of Senator SPECTER. But he was unable to get the support he needed for him to go through.

This year we have moved expeditiously to consider Judge Davis. Judge Davis was nominated by President Bush in late January 2002 and he received a unanimous vote by the Judiciary Committee on April 11th—fewer than three months after his nomination and less than one month after his paperwork was completed. The saga of Judge Davis recalls for us so many nominees from the period January 1995 through July 10, 2001, who never received a hearing or a vote and who were the subject of secret anonymous holds by Republicans for reasons that were never explained. Judge Davis was a nominee held up for almost three years and when the Senate was finally allowed to vote on his nomination, he was confirmed by a vote of 94 to 0.

Judge Rufe and Mr. Baylson help fill vacancies on the Pennsylvania District Courts that existed long before the majority shifted last summer. One of the two vacancies has existed since December 31, 1998. Despite the fact that President Clinton nominated David Fineman to fill this judicial vacancy, Mr. Fineman never received a hearing and his nomination was returned to the President without action at the end of 2000. In contrast, we have moved expeditiously, as with Judge Davis, to consider Judge Rufe and Mr. Baylson. Both nominees were nominated by President Bush in January, received a hearing within days of their files being complete, and are being confirmed approximately three months after their nominations. Both nominees have been practicing law for more than 25 years and have a distinguished history of public service.

As our action today demonstrates, again, we are moving at a fast pace to fill judicial vacancies with nominees who have strong bipartisan support. I have a chart—I always have a chart, Madam President—and it demonstrates, that we are moving at a fast pace to fill judicial vacancies, especially with those nominees who have strong bipartisan support.

Partisan critics of these accomplishments ignore the facts. The facts are that we are confirming President Bush's nominees at a faster pace than the nominees of prior presidents, including those who worked closely with a Senate majority of the same political party. I again point out these are nominees who, by and large, are Republicans, by and large, are conservative

Republicans, but, by and large, have bipartisan support.

As long as I am Chairman of the Senate Judiciary Committee, I will do everything possible to protect the integrity and the independence of the Federal judiciary. I will not support an effort by any President—Republican or Democrat—to hang a sign on the courthouse door saying: only people of a certain political persuasion can have a fair hearing before those judges. I do not want the American public to look at a court and say: I am eligible to have my case heard in that court, but only if I am a very conservative Republican or I am a very liberal Democrat or if I am White or if I am Black or if I am poor or if I am rich. That is not the way it should be.

The distinguished Presiding Officer is a lawyer, and she knows that the Federal courts are supposed to be our bulwark of independence. It is one of the first things you learn in law school: The Federal court is a place you go where not only is justice supposed to be colorblind, it is supposed to be politically blind. And I do not believe I am fulfilling my constitutional obligations in the Senate if I vote for nominees who are put in for a specific purpose, to give an ideological slant of either the right or the left to the Federal courts.

I want everyone to know that, when they come to a Federal court, it will make no difference whether they are Republican or Democrat or rich or poor. No matter what their color, no matter what their religion, no matter what their age, no matter what their background, they should know they are going to be treated the same.

The judges that we have confirmed, as shown on this chart, passed that test. That is why both Republicans and Democrats have voted for them.

Now, in fact, I should point out that the rate of confirmation in the past 10 months actually exceeds the rates of confirmation in the past three Presidencies.

For example, in the first 15 months of the Clinton administration, 46 judicial nominees were confirmed, a pace on average of 3.1 per month. In the first 15 months of the first Bush administration, judges were confirmed at a pace of 1.8 judges per month.

Even in the first 15 months of the Reagan Administration, when a staunchly Republican majority in the Senate was working closely with a Republican President, 54 judges were confirmed, a pace of 3.6 per month. In fewer than 10 months since the shift to a Democratic majority in the Senate, President George W. Bush's judicial nominees have been confirmed at a rate of more than 5.2 judges per month, a faster pace than for any of the past 3 Presidents.

During the six and one-half years of Republican control of the Senate, judicial confirmations averaged 38 per year a pace of consideration and confirmation that we have already exceeded under Democratic leadership over these past 10 months in spite of all of the challenges facing Congress and the Nation during this period and all of the obstacles Republicans have placed in our path. As of today, we have confirmed 52 judicial nominees in just 10 months. This is almost twice as many confirmations as George W. Bush's father had over a longer period—27 nominees in 15 months—than the period we have been in the majority in the Senate.

I suspect the reason you hear so many complaints from the Republican side is that they are hoping people will not look at the facts, that they are hoping the people will not remember what they did to President Clinton. They do not want to have to admit what is an irrefutable fact, that the Democratic-controlled Senate is treating President George W. Bush far better than a Republican-controlled Senate treated President William Jefferson Clinton.

And, frankly, I get a little bit weary of the misstatements, I get a little bit weary of having members of my committee attacked for their patriotism or for their religion by those who feel we are not automatically rubberstamping the President's nominees. The Constitution says: advise and consent. It does not say: rubberstamp.

But I have also been here with six Presidents. I have had the same position with Republican Presidents and Democratic Presidents. I will not vote for anybody who is going to diminish the independence of the Federal judiciary.

In fact the Republican critics, because they do not want to admit the fact that we are moving much faster than they did with a Democratic President, typically compare apples to oranges to mischaracterize the achievements of the last 10 months.

They complain that we have not done 24 months of work in the fewer than 10 months we have been in the majority.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. LEAHY. Madam President, I see nobody seeking recognition. I ask unanimous consent to be able to continue for at least 1 minute after somebody else seeks recognition.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. Ironically, with today's confirmations, we even meet that unfair standard: Within the last 10 months we have confirmed about as many judges—52—as were confirmed by the Republican majority in the entire 1996 congressional session and in all of 1997 combined. We are now meeting their two-year figures is less than 10 months. Oh, and if you were wondering about Court of Appeals judges confirmed in the 1996 and 1997 sessions combined—their total was 7. We have already confirmed 9 in fewer than 10 months.

A fair examination of the rate of confirmation shows that Democrats are working harder and faster on judicial nominees, confirming judges at a faster pace than the rates of the past 20 years. The double standards asserted by Republican critics are just plain wrong and unfair, but that does not seem to matter to Republicans intent on criticizing and belittling every achievement of the Senate under a Democratic majority.

The Republican attack is based on the unfounded notion that the Senate has not kept up with attrition on the District Courts and the Courts of Appeals. Well, the Democratic majority in the Senate has not only been keeping up with attrition but outpacing it, and we have started to move the vacancies numbers in the right direction—down. By contrast, from January 1995 when the Republican majority took over control of the Senate until they relinquished control in June 2001, federal judicial vacancies rose by 65 percent, from 63 to 105.

The Republican majority assumed control of judicial confirmations in January 1995 and did not allow the Judiciary Committee to be reorganized after the shift in majority last summer until July 10, 2001. When I became Chairman of a Committee to which Members were finally assigned on July 10, we began with 110 judicial vacancies. With today's confirmation of Judge Rufe and Mr. Baylson, we have reduced the overall number of judicial vacancies to 88 and the number of district court vacancies to 58. Already, in fewer than 10 months in the majority, we more than kept up with attrition and begun to close the judicial vacancies gap that nearly doubled under the Republican majority. Under Democratic leadership, we have reduced the number of district court vacancies by almost 25 percent and the overall number of judicial vacancies by 20 percent, to below 90.

I happen to have a chart that shows what we have been doing. We see the trend under the Republican majority going up, and then we see the trend under the Democratic majority and how we have brought the vacancy number down.

The Democratic majority in the Senate has also kept up with attrition on the Courts of Appeals and been acting to close the vacancies gap on the Courts of Appeals that more than doubled under the Republican majority. Vacancies on the Courts of Appeals rose from 16 to 33 in the period January 1995 to July 2001, before the Senate was allowed to reorganize after the shift in majority last summer.

In the fewer than 10 months since the change in majority, the Senate has confirmed nine judges to the Courts of Appeals and more than kept up with the five vacancies that had arisen since July. In contrast, the Republican-controlled majority averaged only seven confirmations to the Courts of Appeals per year. Seven. This is what is somewhat distressing. I suppose they think if they keep saying it enough, the public will be fooled and the press will be fooled. I am willing to bet ultimately neither will.

In the fewer than 10 months the Democrats have been in the majority, we have already exceeded the annual number of Court of Appeals judges confirmed by our predecessors. The Senate in the last 10 months has confirmed as many Court of Appeals judges as were confirmed in all of 2000 and more than were confirmed in 1997 or 1999, and nine more than the zero from 1996. Another way to put it is that within the last 10 months, the Democratic majority in the Senate has confirmed as many Court of Appeals judges as were confirmed in the 2000 and 1996 sessions combined and confirmed more Court of Appeals judges than were confirmed in the 1999 and 1996 sessions combined or in the 1997 and 1996 sessions combined. Simply put, in fewer than 10 months we have already exceeded the number of Court of Appeals judges confirmed by a Republican majority in four of the six years in which they were in control. No matter what standard you use, we are moving very fast.

Under Republican leadership from 1995 through July 10, 2001, vacancies on the Courts of Appeals increased from 16 to 33, more than doubling.

When I became chairman of a Committee to which Members were finally assigned on July 10, we began with 33 Courts of Appeals vacancies. That is what I inherited. Since the shift in majority last summer, five additional vacancies have arisen on the Courts of Appeals around the country. With last week's confirmation of Judge Howard, we have reduced the number of circuit court vacancies to 29. That is, we have kept up with attrition by confirming five Court of Appeals judges and then acted to lower the number of vacancies by confirming four additional judges. Those are the facts. Since our Republican critics are so fond of using percentages, I will say that we will have now reduced the vacancies on the Courts of Appeals by more than 12 percent in the last 10 months.

Rather than the 38 vacancies that would exist if we were making no progress, as some have asserted, there are now 29 vacancies—that is more than keeping up with the attrition on the Circuit Courts. Republican critics unfairly seek to attribute to the Democratic majority the lack of action by the Republican majority before the historic change last summer.

While the Republican Senate majority increased vacancies on the Courts of Appeals by over 100 percent, it has taken the Democratic majority fewer than 10 months to reverse that trend, keep up with extraordinary turnover and, in addition, reduce circuit court vacancies overall. This is progress.

Rather than having the circuit vacancy numbers skyrocketing, as they did overall during the prior six and one-half years—more than doubling from 16 to 33—the Democratic-led Senate has reversed that trend. The vacancies numbers are moving in the right direction down.

Overall, in fewer than 10 months, the Senate Judiciary Committee has held 17 hearings involving 61 judicial nominations. With today's actions, we will have confirmed 52 of those nominees. By contrast, in the first 10 months of Republican control of nominations they held only 10 hearings and confirmed only 36 judges. We have held more hearings on judges than the Republican majority held in any year of its control of the Senate. The Republican majority never held 17 judicial confirmation hearings in 12 months.

Indeed, one-sixth of President Clinton's judicial nominees—more than 50—never got a Committee hearing and Committee vote from the Republican majority, which perpetuated longstanding vacancies into this year.

Despite the new-found concern from across the aisle about the number of judicial vacancies, no nominations hearings were held while the Republicans controlled the Senate in the 107th Congress last year. No judges were confirmed during that time from among the many qualified circuit court nominees received by the Senate on January 3, 2001, or from among the nominations received by the Senate on May 9, 2001.

The Democratic leadership acted promptly to address the number of district and circuit vacancies that had been allowed to grow when the Senate was in Republican control. The Judiciary Committee noticed the first hearing on judicial nominations within 10 minutes of the reorganization of the Senate and held that hearing on the day after the Committee was assigned new members.

That initial hearing included two District Court nominees and a Court of Appeals nominee on whom the Republican majority had refused to hold a hearing the year before. Within two weeks of the first hearing, we held a second hearing on judicial nominations that included another Court of Appeals nominee. I did try to schedule some District Court nominees for that hearing, but none of the files of the seven District Court nominees pending before the Committee was complete. Similarly, in the unprecedented hearings we held for judicial nominees during the August recess, we attempted to schedule additional District Court nominees but we could not do so if their paperwork was not complete. Had we had cooperation from the Republican majority and the White House in our efforts, we could have held even more hearings for more District Court nominees. Nevertheless, in fewer than 10 tumultuous months, the Committee has held 17 hearings involving 61 judicial nominations.

The Senate Judiciary Committee is holding regular hearings on judicial nominees and giving nominees a vote in Committee, in contrast to the practice of anonymous holds and other obstructionist tactics employed by some during the period of Republican control. The Democratic majority has reformed the process and practices used in the past to deny Committee consideration of judicial nominees. We have moved away from the anonymous holds that so dominated the process from 1996 through 2000. We have made home State Senators' blue slips public for the first time.

I do not mean by my comments to appear critical of Senator HATCH. Many times during the six and one-half years he chaired the Judiciary Committee, I observed that, were the matter left up to us, we would have made more progress on more judicial nominees. I thanked him during those years for his efforts. I know that he would have liked to have been able to do more and not have to leave so many vacancies and so many nominees without action.

I hope to hold additional hearings and make additional progress on judicial nominees. In our efforts to address the number of vacancies on the circuit and district courts we inherited from the Republicans, the Committee has focused on consensus nominees for all Senators. In order to respond to what Vice President CHENEY and Senator HATCH now call a vacancy crisis, the Committee has focused on consensus nominees. This will help end the crisis caused by Republican delay and obstruction by confirming as many of the President's judicial nominees as quickly as possible.

Most Senators understand that the more controversial nominees require greater review. This process of careful review is part of our democratic process. It is a critical part of the checks and balances of our system of government that does not give the power to make lifetime appointments to one person alone to remake the courts along narrow ideological lines, to pack the courts with judges whose views are outside of the mainstream of legal thought, and whose decisions would further divide our nation.

Some on the other side of the aisle have falsely charged that if a nominee has a record as a conservative Republican, he will not be considered by the Committee. That is simply untrue. The next time Republican critics are bandying around charges that the Democratic majority has failed to consider conservative judicial nominees, I hope someone will ask those critics about all the Federalist Society members we have confirmed and the Republican activists we have confirmed without a single dissenting vote. I do not believe that President Bush is nominating liberals and neither does the White House.

The Committee continues to try to accommodate Senators from both sides of the aisle. The Court of Appeals nominees included at hearings so far this year have been at the request of Senator GRASSLEY, Senator LOTT, Senator SPECTER, Senator ENZI, Senator SMITH, and Senator THOMPSON—six Republican Senators who each sought a prompt hearing on a Court of Appeals nominee who was not among those initially sent to the Senate in May 2001.

I tried to accommodate them. They asked if we could move their nominees ahead in the queue. We did. We heard them. We confirmed them. But knowing that no good deed goes unpunished, having moved nominees at the request of Republican Senators, moved theirs ahead of others, the same Republican Senators signed letters saying: It is terrible we are not moving them in order.

I have tried to accommodate them as much as I could. We would be moving a lot slower if we were going exactly in order. What we are trying to do is get those nominees on whom there is some consensus through first. That will put as many judges on the bench as possible.

I ask my colleagues, please, try to at least wait more than a week after I have accommodated you in moving your judge up for a hearing and getting them confirmed before you send out a letter saying: Why aren't you confirming more judges? I don't want to embarrass Senators by having a chart showing some of the letters and some of the statements they have made asking me to take their judges out of order, and then putting them side by side with their letters criticizing me for taking judges out of order. I am not going to do that, although I get sorely tempted.

I am also sorely tempted because the problems we are talking about arose on a Republican watch, while they were in the majority. It reminds me a little bit of an arsonist we had in Vermont when I was a prosecutor. There was a fellow who used to complain that the fire department wasn't responding fast enough. He was setting the fires. He was the one setting the fires. Rest his soul, he is no longer with us, but he used to complain they weren't responding fast enough, and he was the one setting the fires.

The whipsawing by the other side is truly remarkable. When we proceed on nominees that they support and on whom they seek action, we are criticized for not acting on others. When we direct our effort to trying to solve problems in one Circuit, they complain that we are not acting in another.

I imagine that over the next 10 days we will be hearing a refrain about the most controversial of President Bush's nominees who have not yet participated in a hearing. Some of them do not have the necessary home-state Senator support needed to proceed. Some will take a great deal of time and effort for the Committee to consider. I hope to be able to do something else that our Republican counterparts never did, which is to announce some scheduling decisions well in advance of hearings to come over the next several months.

But I do find it amazing that in spite of all we have done, all we are doing, and the fact that judges are moving much faster than they did in the past 6 years, our partisan critics will act as if we have not held a single hearing on a single judicial nominee. They will not acknowledge their role in creating what they now call a judicial vacancies crisis. They will not apologize for their harsh tactics in the six and one-half years that preceded the shift in majority.

They will not acknowledge that the Democratic majority has moved faster on more judges than they ever did. That will not acknowledge that we have been working at a record pace to seek to solve the problems they created.

We will keep on working. I am sure I will keep on listening to the partisan sniping, but we will keep moving faster than they ever did when they were in charge.

I remind everybody that this Senator would never vote for a nominee whose sole purpose in being there is to detract from the independence of the Federal judiciary and, instead, is intending to make the Federal judiciary ideologically pure one way or the other—and I don't care which way it goes; I will not vote for such a person. I want people to know that if any Vermonter or anybody from any State goes into a Federal court, they are going to have a fair hearing, and they will not be judged based on political party or political ideology. Whether they are plaintiff or defendant, whether they are Government or defendant, or whether they are rich or poor, they should be treated the same.

Each of the 52 nominees confirmed by the Senate has received the unanimous, bipartisan backing of the Committee. The confirmations of Judge Rufe and Mr. Baylson make the 51st and 52nd judicial nominees to be confirmed since I became Chairman last July. I would like to commend the members of the Judiciary Committee and our Majority Leader Senator DASCHLE and Assistant Majority Leader Senator REID for all of their hard work in getting us to this point.

The confirmation of the 52nd judge in fewer than 10 months, especially these last 10 months, in spite of the unfair and personal criticism to which they have each been subjected, is an extraordinary achievement and a real example of Democratic Senators acting in a bipartisan way even some on the other side have continued to make our efforts toward progress as difficult as possible.

U.S. POLICY TOWARD COLOMBIA

Mr. LEAHY. Madam President, I want to turn to another important topic—the situation in Colombia. Two weeks ago, Colombia's President, Andres Pastrana, was in Washington for what may have been his last official visit before the elections in May to choose his successor. He cannot run again under Colombia's Constitution. While I am sorry to see him leave, I am proud that he is departing through a democratic transfer of power, confirming, once again, his commitment to democracy in Colombia. I respect President Pastrana. I admire his attempts to bring peace to Colombia and his successes in improving relations between our two nations.

I do, however, have concerns about the administration's request for more assistance to Colombia. The reason we are given as to why we are spending such large sums of money in Colombia seems to change frequently—from fighting an insurgency to combating terrorism to protecting democracy to reducing the flow of drugs. Before we spend even more money down there, I hope the administration will articulate a clear plan, look carefully at the billions we have spent with little to show for it, and understand Colombia's need to take more responsibility for their own problem.

Colombia should not be blamed for America's drug problem. Even if no cocaine or heroin came here from Colombia, illegal drugs would still come into this country. As long as Americans spend billions on illegal drugs, somebody else is going to supply it.

In many ways Colombia fits into larger issues about our foreign assistance programs. I think it is time for us to re-examine the way foreign aid is being used. During the cold war, we would give foreign aid to countries simply because they claimed to be anti-Soviet Union. It didn't make any difference how it was used. After the Cold War, we starting giving money, while paying little attention to human rights violations by foreign militaries or security forces, to nations that would say that they would help fight drug trafficking. Today, I am worried that we are starting down a road where we give all sorts of assistance to governments that claim to be antiterrorist, irrespective of their commitment to democracy, human rights, or economic reform.

I have said over and over again that we should increase foreign assistance to many areas of the world. We have moral and strategic reasons for doing that. But we ought to at least stand for something when we provide this assistance. We can deliver a strong message that, while we don't expect an absolute replication of our form of government, we do expect you to respect human rights and other basic American values if you use our tax dollars.

There is no reason that countries cannot respect these values and use foreign aid effectively—these things go hand and hand. We have had some wonderful successes where we have done both. We have had some colossal disasters where we have not.

Madam President, I have known Colombia's President Pastrana for several years, and consider him a friend. He has worked diligently for peace, often at great personal risk, and while he ultimately was unable to obtain the peace agreement with the guerrillas that he so deeply wanted, his administration will be remembered for other achievements. Today, thanks to his efforts and those of Colombia's fine Ambassador, Luis Moreno, Colombia's relations with the United States, which had suffered under previous Colombian administrations, are strong and based on mutual respect.

I want to thank President Pastrana for his friendship, for the dignity that he restored to the presidency, for his dedication to his people. Although we did not always agree about U.S. policy toward Colombia, President Pastrana always treated me with respect and warmth. I am grateful to him, and wish him the best in the future. While I regret that I was unable to travel to his country during his term of office, I am determined to do so and look forward to visiting him there when I do.

The issue of U.S. policy toward Colombia is the subject of considerable concern in Washington, both because of President Pastrana's recent visit, and because of President Bush's supplemental appropriations request, which proposes to shift the focus of our assistance program in Colombia from counter-narcotics to counter-terrorism.

I am of mixed minds about this proposal, and want to take a moment to discuss some of my concerns.

Before we rush to bring the war against international terrorism to Colombia's jungle as the administration and some in Congress now urge, we would do well to understand that country's feudal history. We should also review what has been done with the nearly $2 billion we have appropriated for Colombia in the past two years.

"Plan Colombia," devised by the Clinton administration and the Colombian Government to counter the flourishing trade in cocaine from Colombia to the United States, called for $7.5 billion. Colombia was to contribute $4 billion, and, were told at the time, the U.S. share was $1.6 billion. Donations by other countries, mostly the Europeans, have not materialized. The Colombian Government's support has also fallen far short. For fiscal year 2003, the Bush administration seeks another $439 million in counter-drug aid, plus $98 million in military aid, for a total of $537 million.

So far, U.S. tax dollars have paid for a fleet of aircraft to spray chemical herbicide over large areas of the country planted in coca, combat helicopters to protect the planes from ground fire, and training and equipment for counter-drug battalions. More funds were provided for economic programs to give coca farmers alternative sources of income and to reform Colombia's dysfunctional justice system.

Because of the Colombian military's poor human rights record, Congress conditioned aid on the prosecution of military officers implicated in serious abuses, and on the severing of the military's links with illegal paramilitary groups. These groups, like the guerrillas, have been designated by the administration as terrorist organizations.

By any objective measure, Plan Colombia's results have been, at best, disappointing.

First, the State Department predicted a 30 percent reduction in coca cultivation by the end of 2002. Although 84,250 hectares were sprayed last year, coca cultivation in Colombia actually rose, by at least 21,100 hectares. There has not been any reduction in the flow of illegal drugs into the U.S., and virtually no one in the administration thinks there will be.

Second, while aerial spraying may at some point reduce the coca crop, there is vast territory ripe for future cultivation and a huge U.S. demand for drugs. Serious questions have been raised about the health and environmental impact of the spraying which need to be satisfactorily answered if this program is to continue. Manual eradication, as was done in Bolivia and Peru, should be reconsidered, and we should target the large growers, drug labs and traffickers. Moreover, any of these eradication efforts will ultimately fail without economic alternatives for those displaced by coca eradication.

Third, U.S.-funded economic programs have produced little in the way of viable alternatives. It is dangerous and difficult to implement these programs in conflict zones where coca is grown. The Colombian Government has not invested enough of its own money in these areas, and however much it has invested has produced few tangible results. Nor has it done enough to reform its sagging economy. This needs to be a partnership, and our support for alternative income programs should focus where the needs are greatest and programs can be sustained.

Fourth, senior military officers implicated in the murders of civilians, or who abet paramilitary violence and drug trafficking, have not been jailed despite the conditions on U.S. aid. Many remain on active duty and some have been promoted. Human rights investigators and prosecutors have been threatened, killed or forced to flee the country. While some soldiers have been suspended, none have been prosecuted and some have joined paramilitaries.

Under our law, the Secretary of State must certify that certain human rights conditions have been met prior to the release of military aid. Earlier this year, a number of high-ranking administration officials traveled to Colombia, and informed Colombian military officers that more progress was needed. Unfortunately, as far as I am aware, no such progress has taken place and therefore, to his credit, the Secretary has not made the certification. However, I am told the certification could come at any time, and if that is true I hope that it is based on facts and reflects a good faith application of the law.

Fifth, top paramilitary leaders, implicated in hundreds of murders, travel around the country and give press interviews despite numerous warrants for their arrest. One has to ask why these arrest warrants, many of which have been pending for years, have not been executed? Local military commanders share airfields, intelligence and logistics, and in some instances even coordinate attacks. While some members of paramilitaries have been captured, their influence has grown throughout the country and they are responsible for a large share of targeted assassinations and gruesome attacks against unarmed civilians. Like the guerrillas, the paramilitaries are deeply involved in drug trafficking. Continued U.S. aid to the Colombian military must be tied to accountability for abuses and to aggressively fighting the paramilitaries, particularly the United Self-Defense Forces of Colombia ("AUC").

Sixth, President Pastrana's brave efforts to negotiate peace, cynically spurned by the guerrillas, have collapsed. The violence has intensified and the guerrillas, especially the Revolutionary Armed Forces of Colombia ("FARC"), have sharply escalated kidnappings, assassinations and other terrorist acts. They are unlikely to be able to defeat the Colombian military, but they can lay siege to cities by cutting off water and power supplies. Colombia's generals are now asking the U.S. for aid to fight the war.

Americans need to understand that Colombia is really two "countries," which is at the heart of its problems. The thinly populated, impoverished eastern half, which the government has ignored for generations, is mired in the 19th Century, while the sophisticated, urban west is edging toward the 21st. There are deeply rooted social, economic and political reasons why Latin

America's oldest conflict is no closer to resolution, and why drug money, corruption and lawlessness permeate Colombian society. These problems, which ultimately only Colombians can solve, will not be fixed by attacking the symptoms, and an all out war against the twin terrorist threats—guerrillas and paramilitaries—would cost far more, take far longer, and wreak more havoc than anyone in Washington has acknowledged so far.

Until now we have confined our aid to fighting drugs. In the first sign of a shift, the administration asked Congress for an additional $98 million to protect 100 miles of an oil pipeline that has been a frequent target of guerrilla attacks that have cost Colombia $500 million a year in oil revenues. The White House is now seeking broad, new counter-terrorism authority in the fiscal year 2002 supplemental, opening the door to a deeper, open-ended U.S. involvement in Colombia.

If we go down that road what would be the likely result? Colombia is not Afghanistan, and no one supports sending U.S. troops. But while no two countries are the same, we gave over $5 billion to the military of El Salvador, a country with $\frac{1}{50}$th the land area of Colombia, and they could not defeat the guerrillas there. Are we, and the Colombian people who currently spend a meager 3 percent of GDP on the army, prepared for a wider war, the huge cost, many more displaced people, and the inevitable increase in civilian casualties? Is the only alternative to continue a limited, ineffective counter-drug strategy, and the growth in public support for the AUC which may ultimately pose a greater threat to the country than the FARC? Can the military be made to see their oft-times allies, the AUC, as terrorists to be fought as aggressively as the FARC? Should we send an envoy of the caliber of Richard Holbrooke to push for a cease fire, and actively support a much more inclusive negotiating strategy than was pursued previously? What about attacking the security problems that have given rise to the AUC, by strengthening Colombia's National Police, who have a cleaner human rights record and who may be more effective in responding to kidnappings and other terrorist acts?

We want to help Colombia, particularly as the FARC has evolved from a rebel movement with a political ideology to a drug-financed terrorist syndicate. But we and the Colombians need to be clear about our goals and what it would take to achieve them. We should not commit ourselves to a costly policy that is fogged with ambiguity, and we should not subvert our other objectives of promoting the rule of law, protecting human rights, and supporting equitable economic development. Goal-setting should also be coordinated, after the elections in May, with Colombia's new president, who may favor an entirely different approach.

Finally, just as Colombians need to take far more responsibility for their own problems, Colombia cannot solve America's drug problem. Too often, we unfairly blame Colombia, and the other Andean nations, for the epidemic of drug addiction in our own country. Our meager attempts to reduce demand for drugs have failed, and unless we devote far more effort to what we know works—education and treatment—the drugs will keep coming and Americans will keep dying.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SPECTER. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

JUDICIAL NOMINATIONS

Mr. SPECTER. Madam President, I thank the Chair and I thank my colleague from Vermont for awaiting my arrival. We have just been at a news conference on the introduction of legislation on nuclear transplants. There were many questions beyond what we had anticipated. I did want to have an opportunity to appear briefly in support of these two nominees who are from my state.

NOMINATION OF CYNTHIA M. RUFE

The nomination of Judge Cynthia Rufe comes to this floor after having been approved unanimously by the Judiciary Committee. She has an excellent educational background: A bachelor's degree from Adelphi University, a J.D. from the State University of New York. She has extensive experience in the private practice of law. She was in the public defender's office for some 5 years. She has been solicitor in her home county, Bucks County, PA, and has been a judge on the State Court of Common Pleas from 1994 to the present. She presides over the Criminal Court, Juvenile Court and Protection From Abuse cases.

Prior to her election to the position of judge in 1993, she maintained law offices in Newtown, Pennsylvania practicing civil and criminal litigation, family law and specializing in child abuse cases.

Before entering private practice in 1982, Judge Rufe served Bucks County as Deputy Public Defender, coordinating that office's Juvenile Division.

She also served as Solicitor for the Bucks County Children and Youth Social Services Agency for four years.

The Pennsylvania Supreme Court has appointed Judge Rufe to sit on the Appellate Procedural Rules Committee. She also serves the Pennsylvania Conference of State Trial Judges on their Judicial Education, Juvenile Court and Corrections Committees.

In addition, she served on a Federal task force to improve the quality of mental health treatment and services for female inmates in the Bucks County jail system.

Judge Rufe has been an active member of several community agencies related to the improvement of youth, families, and drug and alcohol issues, including serving as a member of the Board of Directors of Youth Services, Inc.; Organization to Prevent Teenage Suicide, Inc.; Reaching-at-Problems, Inc. Group Home; and Prevention and Rehabilitation for Youth and Development, Inc.

Judge Rufe has received countless awards from various women law organizations in the Commonwealth of Pennsylvania.

NOMINATION OF MICHAEL M. BAYLSON

Michael Baylson is a man I have known since 1965. He was one of the first people I appointed as an assistant district attorney when I was elected in 1965. I have known him intimately for the course of the past 37 years. I can attest to his capability.

He is a graduate of the University of Pennsylvania, with both a Bachelor of Science and a law degree. Beyond serving as an assistant district attorney in my office, where he was chief of the homicide division, and he handled some of the most complicated criminal prosecutions known, he later served as a U.S. attorney from 1988 to 1993. He has been a senior partner in the distinguished Philadelphia law firm of Duane, Morris & Heckscher, working on some very tough litigation matters in the areas of commercial and securities litigation and antitrust law.

Mr. Baylson served as United States Attorney for the Eastern District of Pennsylvania from 1988 to 1993. He was heavily involved in the Weed and Seed Program.

From 1966 to 1969, he was an assistant district attorney in the Philadelphia District Attorney's Office, where he served as chief of the Narcotics and Homicide Divisions.

He is the chair of the Specialization Committee and past chair of the State Action Exemption and Noerr Doctrine Committee of the Antitrust Law Section of the American Bar Association, and is a fellow of the American Bar Foundation.

He has also been on the faculty of the University of Pennsylvania Law School.

He received the United States Department of Treasury's U.S. Attorneys award for Distinction in Financial Management, 1993; Attorney General's Special Commendation Award, 1993; Inspector General's Prospective Leadership Award, U.S. Health and Human Services, 1992; and the Distinguished Service to Law Enforcement Award from the County and State Detectives Association of Pennsylvania, 1992.

Baylson has provided pro bono services to prisoners asserting civil rights violations and has represented defendants accused of crimes on a pro bono basis.

Madam President, while my colleague from Vermont is still in the Chamber, I want to make a comment or two about some discussions he and I have had, and which I have had with other members of the Judiciary Committee. It is my hope that we will be able to agree on a protocol of where we can come to an agreement in the Judiciary Committee, and really in the full Senate, as to how we handle judicial nominations.

We have seen recurrent problems when we have a Republican President and a Senate controlled by the Democrats. When the shoe was on the other foot, we had a President who was a Democrat and the Senate was controlled by Republicans. Before that, we had a Republican President and the Senate was controlled by Democrats.

So that in my Senate tenure we have had three situations where the White House and the Senate were controlled by different parties.

When there is debate about what has happened and how long the nominations have taken, although I have been here and followed the situation closely, I get lost in the statistics. I think the American people do too.

I do believe there have been failures on both sides, by both parties. I think the time has come to move beyond recrimination and to try to establish a protocol. Hopefully this protocol will provide for a certain number of days after a nomination has been submitted to be accorded a hearing, so many days later for a markup in an executive session, so many days later to be considered by the full Senate. Delays could occur at the discretion of the chairman of the committee, after consultation with the ranking member—not the concurrence of the ranking member but the consultation—similarly with the majority leader, with consultation with the minority leader.

I wanted to make those comments because one might say it is hard for the issue to disintegrate further, but I do see it disintegrating further. On May 9, we are going to have a one year anniversary of the submission of eight circuit judges, and I hope we do not have dueling press conferences. I hope we are able to work this out where we will have rules and a protocol established, regardless of who controls what.

Again, I thank the Chair for sitting overtime and I thank my colleague from Vermont for staying overtime.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. LEAHY. Madam President, I am always happy for the cooperation of the Senator from Pennsylvania, and I do compliment him on the two judges who will be confirmed today, recommended by him, and his efforts to get a consensus for them. I am well aware we can have dueling press conferences.

I have mentioned a number of courts of appeals judges were heard out of order at the request of Republican Senators, and I am sure if some of those same Senators were then to speak of the fact that some of the judges, their own nominees especially, were heard ahead of others, that they would see delicious irony in that.

I know we are supposed to recess. I yield the floor.

NOMINATION OF MICHAEL BAYLSON

Mr. HATCH. Madam President, I rise in support of the confirmation of Mr. Michael Baylson to the District Court of Eastern Pennsylvania. Mr. Baylson is another fine example of the qualified attorneys President Bush has named to the federal bench, and I am convinced based on his record that he will make an outstanding addition to an already prestigious court.

Mr. Baylson earned his undergraduate degree from the University of Pennsylvania's Wharton School. He then graduated from the University's Law School. After working as a volunteer for the public defender in Philadelphia, he joined the Philadelphia District Attorney's Office. My colleagues will remember that my friend the distinguished senior Senator from Pennsylvania, Senator SPECTER, was the Philadelphia District Attorney at this time. Mr. Baylson was quickly promoted to supervise that office's Narcotics Unit and then it Homicide Unit.

Mr. Baylson worked in private practice at the law firm of Duane Morris and Heckscher. Then, in 1988, he returned to public service as the United States Attorney for the Eastern District of Pennsylvania. There, he became well-known for his aggressive drug prosecutions. Mr. Baylson also was a pioneer in developing the Violent Traffickers Project, a program that uses a different strategy than the traditional tactic of arresting smaller dealers and then "flipping" them in order to convict the leaders of a drug conspiracy.

After leaving the U.S. Attorney's Office, Mr. Baylson returned to Duane Morris and Heckscher as a partner and has specialized in antitrust, federal securities, RICO and white collar crime matters.

Clearly, Mr. Baylson is a very talented attorney with a great deal of experience. I have no doubt that he is an excellent choice to be a judge on the District Court of Eastern Pennsylvania.

NOMINATION OF JUDGE CYNTHIA M. RUFE

Madam President, I rise in support of the confirmation of Judge Cynthia Rufe to the U.S. District Court for the Eastern District of Pennsylvania. Judge Rufe's nomination is yet another example of President Bush's effort to enhance our excellent and diverse federal judiciary. Judge Rufe has had a distinguished legal career. She is an outstanding Pennsylvania state judge who will only add to the distinguished federal court in the Eastern District of Pennsylvania.

Judge Rufe graduated with a B.A. in Political Science and Education from Adelphi University in 1970. After receiving her teacher's certificate from Bloomsburg University in 1972 and teaching high school social studies, Judge Rufe graduated from SUNY-Buffalo Law School in 1977.

After law school, and mindful of each attorney's responsibility to "serve the disadvantaged," she joined the Bucks County Public Defenders Office. In this role, her case-load ran the gamut from misdemeanors to homicides. At the Public Defender's Office, Judge Rufe developed an expertise in representing abused and neglected children.

As a result of that expertise, she created and led the Public Defender's Juvenile Division. Later, Judge Rufe rose to the level of Deputy Public Defender. In this position, she was responsible for managing the office's trial caseload.

In 1982, she left the Defender's Office to begin a private practice. Judge Rufe concentrated on litigation, especially criminal and juvenile law. Over the years, the Judge Rufe's practice expanded to include cases on employment, discrimination, personal injury, defamation, contracts, adoptions, estates and family law.

But, during this period, she never forgot about her community, and she served as Solicitor of the Bucks County Children and Youth Social Services Agency.

In 1994, Judge Rufe re-entered public life when she was elected to the Bucks County Court of Common Pleas. For the last eight years, she has developed a well-earned reputation for hard work and fairness.

It is a pleasure and a privilege to support Judge Rufe's nomination to the federal bench.

JUDICIAL CONFIRMATIONS

Madam President, I would like to respond briefly to some comments made earlier today on the topic of judicial confirmations. I had no intention of bringing up this topic today, but now I find myself with no choice but to set the record straight. I want to make one observation and then two simple points.

Madam President, my observation is this: The American people want this Senate to help—rather than hinder—President Bush. And that is true of every President. Everyone understands that we are living at a time of great national importance. Our government is being put to a test. President Bush is performing extraordinarily well, and he is leading our country and our military in the right direction to achieve prosperity and security for all Americans.

The American people support President Bush and his administration, and they correctly believe that the Senate should do the same.

But the people who follow the Judiciary Committee's record on reviewing and approving President Bush's judicial nominations are frustrated—for good reason—with the way in which this body has treated President Bush. They know that President Bush gave great care and attention to finding nominees who are extremely well-qualified, highly talented legal thinkers who hold mainstream American values. There is not an ideologue among them. To the contrary, President Bush's picks for the judiciary are all principled and fair people, from a variety of backgrounds and experiences, who are committed to following precedent, applying the law as it exists, and standing firm against judicial activism. President Bush should not be forced to divert any more of his time and attention away from the war on terrorism and his many domestic priorities in order to persuade this body to do what is right for the American people.

Now, Mr. President, I would like to make two points that directly respond to the comments made earlier today.

Madam President, the current Senate leadership is not doing a better job this Congress than the Senate has done under other Presidents. I listened as my colleague explained that, if looked at through the right looking glass, or examined in the right subsection of the right time period of the right session of the right Congress, then the current numbers are pretty impressive.

The most important measure of performance should be how we are handling the most important courts: the Circuit Court of Appeals. Let's compare the treatment of President Bush's first 11 circuit court nominees to the first 11 of previous presidents. President Reagan, the first President Bush and President Clinton all enjoyed a 100 percent confirmation rate on their first 11 circuit court nominees, and all were confirmed well within a year. President Reagan's first 11 were confirmed in an average of 39 days, the first President Bush's first 11 averaged 88 days, and President Clinton's first 11—only 115 days. The longest any of these individuals were held up in committee was 202 days. In stark contrast to previous Presidents, 8 of President Bush's first 11 nominations—made on May 9, 2001, almost a year ago—are still pending in committee without so much as a hearing! That's nearly 365 days, and only 3 of the President's first 11 nominees are confirmed. Is this what the Democratic leadership considers a record-breaking pace? It may be record-breaking, all right, but not the record they're talking about. They are confirming with the velocity of molasses.

Now I heard my colleague suggest that some of the first 11 nominees may have been superseded out of courtesy to Republican Senators who requested some later-nominated judges to move first. Well, I know how difficult it is to chair the committee, and such requests do come in. But I would suggest to my friend that he do what I did for President Clinton: consider more than one circuit nominee per hearing. That's what we did, under Republican leadership, no fewer than 10 times. Why not two at a time?

Of course, the pace of confirming a President's first 11 nominees is not the only measure by which the current leadership is falling short. My colleague suggested that kudos should be awarded for bringing the circuit court vacancy rate down to 29. Well, it was never that high at the end of any Congress when Republicans controlled the Senate. And I certainly don't recall that, during my chairmanship, any of our circuit courts were facing the kind of crisis that is going on today in the 6th Circuit Court of Appeals, where the court is operating at half-staff despite the fact that president Bush has nominated seven highly qualified people to serve on that court.

The fact is that, at the close of the 106th Congress, when I was chairman of the Judiciary Committee, there were only 67 vacancies in the federal judiciary. In the space of one Democratic-controlled congressional session last year, that number shot up to nearly 100, where it remains today. Under Republican leadership, the Senate confirmed essentially the same number of judges for President Clinton—377—as it did for President Reagan—382—which proves bipartisan fairness—especially when you consider that President Reagan had six years of his party controlling the Senate, and President Clinton had only two.

So how did we go from 67 vacancies at the end of the Clinton administration to nearly 100 today? There can be only one answer: The current pace of hearings and confirmations is simply not keeping up with the increase in vacancies. We are moving so slowly that we are barely keeping up with natural attrition. President Bush nominated 66 highly qualified individuals to fill judicial vacancies last year. But in the first 4 months of Democratic control of the Senate last year, only 6 Federal judges were confirmed. At several hearings, the Judiciary Committee considered only one or two judges at a time. The committee voted on only 6 of 29 circuit court nominees in 2001, a rate of 21 percent, leaving 23 of them without any action at all.

This leads to my second point, which is that the current situation has nothing whatsoever to do with ideology. I was surprised to hear my friend, the chairman of the Judiciary Committee, address earlier today the question of introducing ideology into the judicial confirmation process. Some of my Democrat colleagues have made no bones about the fact that this is exactly what they are seeking to do. In July, they have even held hearings expressly on how to justify it. We saw what happened to Judge Charles Pickering.

What is now occurring is far beyond the mere tug-of-war politics that unfortunately surrounds Senate judicial confirmation since Robert Bork. Some of my colleagues are out to effect a fundamental change in our constitutional system, as they were instructed to do by noted liberal law professors at a retreat early last year. Rather than seeking to determine the judiciousness of a nominee and whether a nominee will be able to rule on the law or the Constitution without personal bias, they want to guarantee that our judges all think in the same way, a way that is much further to the left of mainstream than most of President Bush's nominees.

In the judiciary that some would create, citizens will have to worry about the personal politics of the judge to whom they come for justice under the law. I strongly object to that result.

The legitimacy of our courts, and especially the Supreme Court, comes from much more than black robes and a high bench. It comes from the people's belief that judges and justices will apply a judicial philosophy without regard to personal politics or bias.

In conclusion, Madam President, it is time for this Senate to examine the real situation in the Judiciary Committee, rather than listen to more inventive ways of spinning it. We have lots of work to do. There are 90 vacancies in the federal judiciary—a vacancy rate of more than 10.5 percent—and we have 50 nominees pending, including 4 nominees for the Court of Federal Claims. Nineteen of the pending nominees are for circuit court positions, yet the Senate has confirmed only nine circuit judges this Congress. This is despite a crisis of 29 vacancies pending in the circuit courts nationwide—virtually the same number of vacancies pending when the Democrats took control of the Senate in June of last year.

Madam President, the American people are disappointed in this process. They want the Senate to help—not hinder—President Bush. I urge my friends across the aisle to focus on this situation, to step up the pace of hearings and votes, and to do what's right for the country.

Thank you, Madam President. I yield the floor.

RECESS

The PRESIDING OFFICER. Under the previous order, the hour of 12:30 p.m. having passed, the Senate will now stand in recess until the hour of 2:15 p.m.

Thereupon, the Senate, at 12:43 p.m., recessed until 2:15 p.m. and reassembled when called to order by the Presiding Officer (Mr. CLELAND).

* * *

EXECUTIVE SESSION—Continued

NOMINATION OF MICHAEL M. BAYLSON, OF PENNSYLVANIA, TO BE UNITED STATES DISTRICT JUDGE FOR THE EASTERN DISTRICT OF PENNSYLVANIA

The PRESIDING OFFICER. The clerk will report the first nomination.

The assistant legislative clerk read the nomination of Michael M. Baylson, of Pennsylvania, to be United States District Judge for the Eastern District of Pennsylvania.

The PRESIDING OFFICER. The question is, Will the Senate advise and consent to the nomination of Michael M. Baylson, of Pennsylvania, to be United States District Judge for the Eastern District of Pennsylvania? On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. REID. I announce that the Senator from Connecticut (Mr. DODD) is necessarily absent.

Mr. NICKLES. I announce that the Senator from North Carolina (Mr. HELMS) is necessarily absent.

I further announce that if present and voting the Senator from North Carolina (Mr. HELMS) would vote "yea."

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 98, nays 0, as follows:

ANDEAN TRADE PREFERENCE ACT—MOTION TO PROCEED—Continued

The PRESIDING OFFICER. The Senator from Texas.

Mrs. HUTCHISON. Mr. President, I rise to talk about the trade promotion authority legislation that is before the Senate.

America has the most productive, creative workforce in the world. Our industries are diverse. Our products are second to none. Now we must expand our reach to bring more of these goods and services to the global marketplace by passing trade promotion authority legislation.

Trade promotion authority had been used since President Ford's administration to implement trade agreements until it lapsed in 1994. The President has not had this trade promotion authority since 1994. If America is going to increase trade opportunities around the world, Congress needs to pass this legislation so the President has the ability to negotiate trade agreements with the knowledge that, while Congress retains its right to approve or reject a treaty, it will not try to amend or delay it.

Without this legislation, foreign governments may not be willing to sit at the negotiation table with the United States, knowing that they may put all of this time into a negotiation that would then be delayed or changed by Congress.

Ninety-six percent of the world's consumers live outside of the United States, representing a vast potential market for American exports. Unfortunately, other countries are moving forward in promoting trade while we are standing on the sidelines. While we delay, other countries are entering into agreements that exclude us. Our competitors in Europe, Asia, and Latin America have sealed more than 130 free trade compacts. Yet we are party to only three—Jordan, Israel, and NAFTA with Mexico and Canada. Again, there are 130 free trade agreements in the world and the United States is a party to only 3 of those.

A lack of free trade agreements puts American exporters at a significant disadvantage. For example, a $180,000 tractor made in America and shipped to Chile incurs about $15,000 in tariffs and duties upon arrival. That same tractor would face only $3,700 in tariffs if it were made in Brazil, and there would be none if it were made in Canada.

American businesses, farmers, and ranchers are the best, but they should not have to compete with this kind of disparity. Our inability to negotiate agreements with foreign countries is hurting U.S. industry and limiting economic growth. The TPA offers the United States a chance to reclaim momentum in the global economy by adding foreign markets and expanding our opportunity for American producers and workers.

For 60 years, Presidents and members of both parties in Congress have worked together to open markets around the world. Now, as we launch the next round of global trade negotiations, close cooperation is critical. In Texas, we have experienced the benefits of free trade as a result of NAFTA. Since the agreement was implemented in January 1994, Texas exports have grown much faster than the overall U.S. exports of goods. Texas merchandise exports in 2000 went to more than 200 foreign markets, totaling $69 billion—an increase of more than 22 percent since 1997.

On the agricultural front, Texas ranks third among the 50 States in exports, with an estimated $3.3 billion in sales in foreign markets in 2000. We are leading exporters of beef, poultry, feed grain, and wheat. NAFTA has helped us secure the No. 1 cotton exporting State status. Since the agreement took effect, we have increased cotton exports to Mexico from 558,000 bales to 1.5 million bales in 2000.

Some people fear that trade will hurt the United States because they believe we will end up lowering barriers more than our trading partners. This is a legitimate question, but the fact is that the United States is already generally very low in barriers compared to our trading partners. For example, the average U.S. tariff on machinery imports is 1.2 percent, while foreign tariffs on U.S.-made machinery in countries such as Indonesia, India, Argentina, and Brazil are 30 times higher. By negotiating trade agreements, such as Free Trade Area of the Americas, the benefits we will receive by lowering those high barriers to our goods and services far outweigh the effect of lowering our very small tariffs.

Another fear is the extent to which lowering barriers to the U.S. market will cause job losses as companies move manufacturing overseas. This could happen, but we do have superior quality and work ethic—that is undeniable. Beyond that, however, we must consider the extent to which we are already losing jobs to overseas plants because of the high barriers to our goods.

Some countries try to attract manufacturing jobs by raising barriers to imports. This forces companies that would otherwise have production facilities in the United States and then export their products to build plants in these foreign countries so they get around the tariffs. For example, Mars, Inc., the candy and pet food manufacturer, has their largest production facility in Waco, TX. They and other U.S. confectionary makers face an average of 25 percent in tariffs on confectionary candy exports and candy products to the European Union, and they have a 55-percent tariff on these goods to India. But the United States has virtually no tariffs on confectionary products. The employees of domestic candy makers would be much more secure if the President were able to negotiate a trade agreement that lowered these barriers overseas so they were not penalized for having U.S.-based manufacturing.

In addition to trade promotion authority, we will be debating related trade bills over the next few weeks. The Andean Trade Preference Act, which is the base bill we are debating today, seeks to help our counternarcotics efforts by providing people of the Andean region—South America—with economic opportunity other than drug trade. This bill can help U.S. develop overseas markets. If the beneficiary countries are able to use their exports to the United States to develop a healthier economy, it will create market opportunities for U.S. exporters.

The Andean Trade Preference Act has been successful in this respect. Since it went into effect in 1991, the four Andean countries have experienced $3 billion in new output and $1.7 billion in new exports. This has led to the creation of 140,000 legitimate jobs in this region, providing employment alternatives to people who might otherwise get involved in the drug trade.

Similarly, by extending the General System of Preferences, which provides duty-free status to certain items from developing countries, we can help to develop healthier economies that will inevitably demand U.S. products.

The other bill we are addressing during this debate is Trade Adjustment Assistance. This is a good program that would help those who lose their jobs because of trade. But we must also make sure this is not a program that is going to be so expensive and a program that discriminates among certain unemployed workers versus other unemployed workers versus employed workers. I think we might be taking a big chance with that part of the bill—not being as fully vetted and researched as the two parts that are trade promotion and Andean preference. These are two trade promotion acts that will have direct benefits to the workers and the people of America. It will also help the consumers of America get the lowest prices for goods that are imported without those artificial barriers.

So in this time of increased tension in many parts of the world, American leadership on trade is more important than ever. Giving President Bush a strong hand to negotiate, helping other countries to use the benefits of trade to develop legitimate businesses and economic growth are what we are addressing in the Senate with this trade package. Passing this legislation will ensure the continued growth of our economy and make sure that we are exporting our greatest ideals to the world—freedom, free enterprise, and democracy.

We must give the President this trade promotion authority so we will not be left behind. If America is only a party to 3 trade agreements out of 130, you know that other relationships are forming that keep America out.

We made a very good start with NAFTA. We have seen the benefits of NAFTA, that free trade agreement. Now we must extend NAFTA to South America with the Andean nations with which we have had trade relations. We need to come back and put in place trade with those countries without those barriers that have been put forward in the last year. We need to have good relations all over the world.

I think it is clear, from what is happening in the world and the lack of understanding in many parts of the world what freedom and free enterprise are, that we should be the leaders in opening free trade markets under an agreement that provides a level playing field for our workers and the workers of a foreign country. We should be the leaders, not the followers; not the people who are being dragged kicking and screaming into the new century.

We need free and fair trade. We can only get it by negotiating trade agreements and making sure there is a level playing field. If we have no agreements, we can have small barriers, they can have big barriers, and that is not a level playing field. We want a level playing field. Trade promotion authority and the Andean Preference Act will give us that.

I yield the floor.

The PRESIDING OFFICER [Mr. CARPER]. The Senator from Minnesota.

Mr. WELLSTONE. Mr. President, I ask unanimous consent that before speaking on the fast track bill, I be allowed to speak on the Middle East, and I will take about 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WELLSTONE. For colleagues who are watching, because I know there are a lot of people who want to speak, I probably will not take a full hour on my statement on fast track. I will try to proceed expeditiously, but first of all I do want to speak on the Middle East because I do not think we can ignore what is happening in the world. It has such a critical and crucial impact on our lives and our children's lives and our grandchildren's lives.

SEARCH FOR MIDDLE EAST PEACE

Mr. President, like many of my colleagues, I had enormous hopes for a permanent peace between Israel and the Palestinians before the collapse of the Oslo-Camp David peace process two years ago. Yet recently, as we all know, the situation in the Middle East has deteriorated dramatically, and what we have witnessed there is heartbreaking.

As I speak today, Palestinian gunmen remain holed up in the Church of Nativity, Israeli tanks are present in the West Bank, and Israeli and Palestinian civilians, seized by anxiety, fear stepping into the street in order to go about their daily lives. Across the region and in this country too, people are grieving for innocent Israelis and Palestinians who have lost their lives.

While there are new reports of clashes in Hebron, there is some positive news this morning. The month-long standoff at the Ramallah compound may be ending as U.S. and British security experts are expected to arrive today in the region to implement a U.S.-brokered plan. There are also signs of progress in Bethlehem, where there are news reports that many civilians not wanted by Israel will leave the church today.

Even in this time of terrible violence, however, we cannot lose hope, for the sake of Israelis and Palestinians everywhere who yearn for peace—and especially for their children, and the generations to follow. For them, we must continue to seek a pathway to peace.

To that end, Secretary Powell's mission to the region earlier this month was an important step. While a ceasefire was not achieved, the situation is less dangerous now than it might have been, without active U.S. engagement and Powell's vigorous diplomatic efforts. Events were spinning out of control earlier, especially on the border of Lebanon. But, the tense border situation seems to have cooled a bit, even if momentarily, due at least in part to Secretary Powell's work with the Syrians.

The real test, however, is whether the administration will stay engaged. It has finally left the side-lines and is onto the playing field of Middle East diplomacy, and it must stay in the game. Israeli officials say that conditions might worsen in the days to come, that Israel may witness a rash of suicide bombings as it pulls its forces back. If the administration, facing such an escalation of violence in the region, withdraws, as it has before, history will judge us harshly. If it continues to devote its time, energy and prestige to achieving the goals Mr. Bush laid out earlier this month, then the violence might be contained, and we may see progress. Engagement remains the only intelligent option for our country now.

We must pursue a courageous approach which seeks both to meet the critical need of the Israeli people to be free from terrorism and violence, and acknowledges the legitimate aspirations of the Palestinian people for their own state, a state which is economically and politically viable. Even in this horrific time, we must not lose sight of what should be our ultimate goal: Israel and a new Palestinian state living side-by-side, in peace, with secure borders.

For many, the last two years have shattered confidence in any peace process. It has raised questions in some people's minds about whether Palestinians and Israelis can ever really live and work together, supporting each other's aspirations for peace, prosperity and security.

We must do our best to work with the parties to restore calm, to end the bloodshed, and to get back to a political process that might address the underlying causes of this conflict.

I believe many of the elements of the path back to peace are known:

First, Palestinian leaders need to renew their severely damaged credibility as legitimate diplomatic partners by condemning terrorism and doing all in their power to combat it. Chairman Arafat has not consistently rejected or confronted terrorists; indeed if the evidence gather by the IDF is to be believed, he may have actually supported them. He cannot play both sides any longer, but must work to end terror and the sickening wave of suicide bombings Israel has suffered.

There must also be an end to the culture of violence and the culture of incitement in Arab media, in schools and elsewhere, which Arab and Palestinian leadership have allowed to go unchecked too long. Throughout the region, anti-Israel incitement is widespread and insidious: government-controlled press, television programs and school textbooks regularly demonize Israelis with vile language and images. Arab states must help put an end to this, as it badly damages all the parties and powerfully undermines the cause of the Palestinian people and their national aspirations.

President Bush and the international community have called on Israel to end its incursion into the West Bank, and Israel has begun a withdrawal, however partial and tentative. As President Bush stated, when Israel moves back, responsible Palestinian leaders and Israel's Arab neighbors must step forward, and demonstrate that they are working to establish peace: "the choice and the burden will be theirs." To that end, the Palestinian leadership must commit to resuming security cooperation with Israel, and the United States and the international community must assist the Palestinians in reconstituting an effective security mechanism so they can do so.

Second, Israel must show a respect for and concern about the human rights and dignity of the Palestinian people who are now and will continue to be their neighbors. It is critically important to distinguish between the terrorists and ordinary, innocent Palestinians who are trying to provide for their families and live an otherwise normal existence. Palestinians must no longer be subjected to the daily, often humiliating reminders that they lack basic freedom and control over their lives.

Third, the United States and the international community must begin immediately the urgent task of rebuilding so that ordinary Palestinians can resume a normal existence. The Palestinian economy has been battered and the infrastructure of the Palestinian Authority badly damaged. Last week, the World Bank identified a $2 billion need, estimating that the direct physical destruction of the public infrastructure alone is $300 million, and that at least 75 percent of the Palestinian workforce is now idle. At the same time, Israel is facing major economic challenges, with a serious recession and currency dropping to a new low recently. The international community and Israel's Arab neighbors must contribute to serious rehabilitation and economic development efforts.

Consistent with the UN Security Council resolutions, the United Nations fact-finding team must be allowed to visit the territories to examine what actually happened in the Jenin Refugee Camp. As Secretary Powell has declared, this is in the best interests of all concerned, especially in the best interests of the Israelis, to end speculation and have a full, accurate, public accounting of what actually occurred there. As soon as details on the composition of the team is resolved and the scope of its mission agreed upon, it must be allowed access to conduct its work.

Fourth, I believe there is no military solution to this conflict. The only path to a just and durable resolution is through negotiation. And there will be no lasting peace or regional stability without a strong and secure Israel, which is why the United States must maintain its commitment to preserving Israel's strength, and providing Israel substantial assistance.

I believe the United State must now push forward with specific and concrete ideas for rebuilding the shattered trust between the parties, bringing an end to the violence, and offering a new path back to the road of peace. The points of departure for such a plan are already in place—the UN Resolutions 242 and 338 and the earlier settlement negotiations conducted at Taba, Egypt in January 2001. The recent Arab League support of the Saudi proposal for normalization of relations between Israel and Arab nations is key. It acknowledges Israel's right to exist, and raises hope of a constructive Arab involvement in the search for peace. The United States should also consider supporting, with the consent of both parties, some kind of international observer force to enhance security for both sides. NATO might choose to take part in any such deployment, given Europe's continuing interest in containing the Middle East crisis. This could be followed, again with the agreement of all parties, with an international peace keeping force, if such a force could be helpful.

We cannot afford to dither. The administration should move decisively to convene a broad international conference loosely based on the Madrid conference of 1991, at which the exchange of land for peace became the basis for negotiation. The goals of the conference should be spelled out clearly: putting the breaks on the violence and speeding negotiations for a two-state solution.

Both sides will need to make painful choices if there is to be a just and stable peace. There must be a recognition of the tragic Palestinian refugee experience, and also an understanding that not all Palestinians refugees will be able to return to Israel. Many observers believe that the parties will eventually need to agree on a formula which would allow some refugees to return to Israel, and then provide for resettlement, and financial compensation for the remainder. And consistent with the Mitchell plan, Israeli settlement expansion in the occupied territories will have to be addressed and, as many observers have noted, some settlements may need to be dismantled. All of this should be negotiated by the parties themselves.

Despite the rage and raw feelings in the region now, most Israelis and most Palestinians crave a peaceful resolution to this conflict. This hunger for peace, and a sustained and vigorous engagement by the United States, are our best hope for achieving it.

ANDEAN TRADE

Mr. President, I debate this motion to proceed to fast track, the fast-track trade mechanism now known as the trade promotion authority. I oppose it on a lot of grounds.

First, I oppose the bill because of a principled opposition to the fast-track mechanism. I am not sure that for me this principle would in all cases be absolute and decisive, but I do lean against any fast-track mechanism for fundamental reasons. Second, I oppose the bill based on my judgement in advance of the unlikelihood of seeing negotiated trade agreements that I will be able to support on behalf of the people of Minnesota and of the nation. I base that judgement on the negative consequences of past trade agreements, the track-record of this administration so far, and on the text of the Trade Promotion Authority Act, which I believe is fundamentally flawed in its approach. Finally, I oppose moving to the fast-track bill because I believe it is irresponsible to discuss it before first addressing the urgent needs of workers in this nation.

Let me begin with my first reason for opposing the fast-track bill. I am inclined to oppose fast-track on general principles of democracy and representative accountability alone. Fast track procedures shorten necessary congressional debate and eliminate the option of amendments by elected and accountable representatives of the public. Under Article I, Section 8 of the Constitution, it is not the President but Congress that shall "regulate commerce with foreign nations" and I am not willing to shirk my responsibility to make fair trade policy by giving the President authority to determine trade policies without meaningful checks from Congress.

It is worth observing at the outset that when we say we are considering trade agreements under fast track procedures, the measures we are talking about generally entail the substantial changing of domestic laws. We are talking about packages of legislative changes that are the implementing bills for what the President and his representatives have negotiated with trading partners. We are not only discussing tariff schedules, important as those can be. We are talking about the alteration of domestic law. It is difficult to imagine good enough reasons to surrender our rights as Senators to unlimited debate on amendment of those measures before we have even seen them.

This bill, HR 3005, which the motion to proceed could bring before us by the end of the week if it is successful, would lock in fast-track rules now for debates and votes we will have later. By later, I mean at whatever point we consider implementing legislation for several of the trade agreements which the Administration is now negotiating such as an agreement entered into under the auspices of the World Trade Organization, agreements with Chile and Singapore, and an agreement establishing a Free Trade of the Americas or which it might negotiate under this authority between now and 2005. That is the duration of the bill's provisions if it is enacted. In other words, we are deciding now whether to establish special and highly restrictive rules which will govern our debate and votes later on implementing bills for agreements whose contents we will not know until that time.

That is the meaning of fast-track legislation. I wonder how many Americans are aware that the Senate might be willing to give away that much authority in the making of trade policy. If we pass this fast-track legislation, whatever agreement is negotiated and the changes in U.S. law that would be required in order for the United States to comply with it, will be considered automatically here in the Senate once that agreement is reached. This will take place on an expedited schedule, with no amendments, and with a limited number of hours of debate. Just one up-or-down vote on a giant bill changing numerous U.S. laws, with no amendments and limited debate. I am sorry to say that based on my experience, many of us in this body will probably be only partially aware of what is actually contained in such implementing bills. But in any case, even if we know every provision, we will not have the opportunity to change a single one.

During my time here in the U.S. Senate, I have consistently opposed the granting of fast-track authority for trade agreements. I opposed it for NAFTA. I opposed it for creation of the WTO. I have yet to be convinced of the need for any fast-track authority to achieve beneficial trade agreements. The record of the previous Administration appears to reinforce this conviction. During the 1990s we entered into nearly 200 international commercial agreements without fast-track, including the Caribbean Basin Initiative and agreements with sub-Saharan Africa, Jordan and Vietnam. I should repeat that nearly 200 trade agreements, and only two of those utilized fast track procedures. Last November, U.S. Trade Representative Robert Zoellick said that fast-track was a tool the administration could not live without. He said: "If I'm pressing my counterpart to go to his or bottom line, he or she is going to balk if they feel that Congress has the ability to re-open the deal. My counterparts fear negotiating once with the administration and then a second time with Congress."

Mr. President, if the previous Administration could so readily reach trade agreements without the benefit of fast-track, then I question the need to impose such procedures, which are inherently undemocratic. I also question what Mr. Zoellick is getting at. I would hope he understands that our system of government has three branches. That our system is based on checks and balances. And I would hope that in the nations with which we are negotiating trade agreements, that we are also promoting an agenda committed to democratic principles. Because when we talk about the fast-track mechanism, that is not the case. They shorten necessary debate. They eliminate the chance for amendment by elected and accountable representatives. They exclude meaningful participation in the legislative process by numerous groups which normally have at least some access to it.

For example, free trade is supposed to be good for the consumers. But how often do representatives of consumer organizations help to decide our negotiating goals? How many consumers are on the panels which advise negotiators? Corporations in various sectors help decide what our goals are, which is appropriate. But why not consumers? Consumers might argue that open trade is good; it can help bring higher quality goods and services at lower prices. But consumers might also point out that there need to be rules in an open trading system enforceable rules against downward harmonization of environmental and food-safety standards, enforceable rules against child labor, enforceable rules against the systematic violation of labor and human rights. These are not enforceable objectives of negotiators under this fast track bill. In fact, as negotiating objectives, they need not even be achieved for a trade agreement to come before the Senate and receive fast-track consideration. But they probably would be enforceable if we had a more democratic process for negotiating and considering trade agreements. And if the objectives were not achieved in the agreements, consumer advocates could find a member of the Senate willing to offer an amendment to change the proposal. But not under fast track.

I favor open trade. Open trade can contribute significantly to the expansion of wealth an opportunity. It can encourage innovation and improve productivity. It can deliver high quality goods and services to many consumers at better prices. Negotiated properly, trade agreements can help bring these benefits to all trading partners in fair way. However, I remain unconvinced of the need for a fast-track procedure in order for a president to achieve beneficial trade agreements.

Fast-track is not about politics. It is not be about providing the authority to a President whose trade policy we support, and not to one we do not. Fast track is about our responsibility as legislators to do our part to ensure fair trade in the global economy. Of course the White House should conduct trade negotiations. But there is no reason to give the White House autocratic power to do so. If a trade agreement cannot withstand the scrutiny of our democratic process, then it does not deserve to be enacted.

My second reason for opposing the motion to proceed to this bill is that I do not have confidence that the specific trade agreements that are likely to be negotiated with this fast-track authority would achieve an improvement in the standard of living and quality of life for a majority of Americans. Nor do I believe that such trade agreements would be likely to improve the lives of the majority of the populations of other countries, the countries with whom we trade. Therefore, I do not believe I am likely to support the agreements, or their implementing legislation. Why would I give up my right in advance to amend bills which I do not think I will be able to support?

We have had excellent debates over the nation's trade policy in recent years. We had a good debate over the North American Free Trade Agreement, the Uruguay Round of the General Agreement on Tariffs and Trade, which ultimately led to the creation of the WTO, over permanent normal trade relations with China, and more recently over trade and trade remedies regarding the steel industry. I would like to take a second to talk in particular about NAFTA and the WTO implementing legislation. I voted against the implementing legislation for those agreements because I believed those bills did not take this country in the right direction in trade policy. The results of those agreements have largely reinforced my view. I continue to regret that I did not have more opportunity to change those major pieces of legislation. I believe they have done us great harm.

I did not oppose NAFTA and the WTO because I am a protectionist. I am not. I don't have the slightest interest in building walls at our borders to keep out goods and services. Nor do I fear fair competition from workers and companies operating in other countries. I am not afraid of our neighbors. I don't fear other countries, nor their peoples. I am in favor of open trade, and I believe the President should negotiate trade agreements which lead generally to more open markets, here and abroad.

Indeed, I am very aware of the benefits of trade for the economy of Minnesota. I am told about them constantly. We have an extremely international-minded community of corporations, small businesses, working people and farmers in our state, and we have done relatively well in the international economy in recent years. Minnesota has lost some jobs to trade, as have most states. But we also benefit from trade. We benefit from both exports and imports. Exports create jobs, as we all know. But imports are not necessarily a bad thing either. They provide needed competition for consumers, and they also push our domestic companies to become better, to be as productive and efficient as they can be. Open trade can contribute significantly to the expansion of wealth and opportunity, and it tends to reward innovation and productivity. It can deliver higher quality goods and services at better prices. Negotiated properly, trade agreements can help bring all these benefits to all trading partners in a fair way.

My position is merely that Congress should exercise its proper role in regulating trade, which is what trade agreements do, so that the rules of international trade reflect American values. That is how American can lead in the world. It is how America should lead in the world.

What are American values when it comes to trade? We believe in generally open markets at home and abroad. But we also believe there is a legitimate governmental role in the protection and maintenance of certain fundamental standards when it comes to labor rights. There are certain fundamental standards when it comes to the environment. Standards when it comes to food safety and other consumer protections. Fundamental standards when it comes to democracy.

The question is how to pursue these values when we are negotiating trade agreements. The Bush administration believes that commercial property rights are primary in trade agreements, and should be enforceable with trade sanctions, and that environmental and labor rights are secondary. A majority of the Senate appears to agree. I do not. I don't believe most Americans agree with the President and the majority of the Senate on this question. I believe, and I believe that most Americans believe, that fundamental standard of living and quality-of-life issues are exactly what trade policy should be about. That is why strong and enforceable labor rights, environmental, consumer, and human rights protections must be included in all trade agreements, and as principle objectives in all trade negotiations. If trade agreements do not help to uphold democracy and respect for human rights, then they are deficient. That is my position. These should be the pillars of American leadership in the world.

At the same time we are told that America must lead on the issue of trade, we are also told that if we do not negotiate trade agreements, even ones which do not live up to our principles, then other countries will do so with each other in our absence. We will be left out. What a contradiction. We must lead, but we must do so by weakening our values. By leaving protection of workers rights out of the agreements we negotiate. By surrendering our principled linkage of human rights concerns to trade policy. Are we saying that when it comes down to it, money is what basically matters? Is that how we should lead the world? Not in my view.

Our trade policy should seek to create fair trading arrangements which lift up standards and people in all nations. It should foster competition based on productivity, quality and rising living standards, not competition based on exploitation and a race to the bottom. Protection of basic labor rights, environmental, and health and safety standards are just as important, and just as valid, as any other commercial or economic objectives sought by U.S. negotiators in trade agreements. We need to be encouraging good corporate citizenship, not the flight of capital and decimation of good-paying U.S. jobs. We ought not be pitting workers in Bombay against workers in Baltimore, making them compete against one another to get a decent living. Giving them ultimatums to accept an unlivable wage, or else. It is our responsibility in trade agreements to make the global trading system fair and workable.

It is the role of national governments to establish rules within which companies and countries trade. That is what trade agreements do. They set strict rules. If a country does not enforce respect for patents, trade sanctions can be invoked. If a country allows violations of commercial rules, trade sanctions can be invoked. You can bet that U.S. companies get right in the face of our negotiators to make sure that the rules in these agreements which protect their interests are iron clad and will be strictly enforced. Of course it is one of the goals of trade agreements to advance the interests of U.S. employers. But we are elected to help ensure that those agreements allows trade to benefit the interests of a majority of Americans, not only those with significant commercial interests abroad. I would go further and say that we also even have an interest in advancing the interest of a majority of people in other countries. Development abroad means more demand for products and services that we produce.

I believe our trade policy can achieve those goals. I wish that we would more often pursue them fully and in a balanced way. Our current trade policy is deeply skewed towards large corporate interests. That view is based on our experience with recent trade agreements. And unfortunately, this bill does little to require our negotiators to do better with new ones.

The negative effects of NAFTA, which took effect in 1994, and the WTO, created in 1995, demonstrate the harm in failure to negotiate important safeguards in trade agreements. NAFTA's damaging results have been documented by a range of reliable observers. They include loss of jobs, suppression of wages, and attacks upon and weakening of environmental and health and safety laws. Fast-track promoters want this authority to make it easier to extend NAFTA throughout the hemisphere in a proposed Free Trade of the Americas agreement and to expand the WTO in a new round of multilateral negotiation. If we repeat our past failure to include adequate labor, environmental, and health and safety provisions in new agreements, we only condemn ourselves to seeing some of NAFTA and other trade arrangements worst consequences again.

What have some of those consequence been? Let me draw from a report issued by the respected Economic Policy Institute. The report was issued in April of last year and is titled: "NAFTA at Seven: Its Impact on Workers in all Three Nations." E.P.I's study examined the effects of NAFTA seven years after it implementation and concluded that in the United States: "NAFTA eliminated some 766,000 actual and potential U.S. jobs between 1994 and 2000 because of the rapid growth in the U.S. export deficit with Mexico and Canada." Minnesota, according to the report, lost about 13,200 jobs due to the NAFTA related trade deficit. The report went on to say that in the U.S. "NAFTA has contributed to rising income inequality, suppressed real wages for production workers, weakened collective bargaining powers and ability to organize unions, and reduced fringe benefits." A second report released last October argues that when you look at the combined NAFTA and WTO trade-related job losses between 1994–2000, that number is over three million. According to the report, Minnesota lost nearly 50,000 jobs. E.P.I also estimates that 5 to 15 percent of the decline in real median wages can be explained by the increase in trade.

NAFTA also has not lived up to promises regarding the environment or domestic areas such as food safety. According to reports released by Public Citizen, since the implementation of NAFTA, U.S. food imports have skyrocketed, while U.S. inspections of imported food have declined significantly. Public Citizen notes that imports of Mexican crops documented by the U.S. government to be at high risk of pesticide contamination have dramatically increased under NAFTA, while inspection has decreased. It argues that U.S. border inspectors have simply been overwhelmed by the large volume of food imports entering the country from Mexico. In a report from September titled: "NAFTA Chapter 11 Investor-to-State Cases: Bankrupting Democracy," Public Citizen documents the frontal assault on American law by foreign investors using rights and privileges given to them in the NAFTA agreement. It states that "since the agreements enactment, corporate investors in all three NAFTA countries have used these new rights to challenge as NAFTA violations a variety of national, state and local environmental and public health policies, domestic judicial decisions, a federal procurement law and even a government's provision of a parcel delivery services."

Mr. President, our experience with NAFTA cannot be dismissed. It has contributed to a significant number of job losses and the suppression of real wages for production workers, who make up 70 percent of the workforce. Real wages have gone down in Mexico, too, despite the fact that some workers are performing high-skill, high-productivity labor. Our trade balance has dramatically worsened with respect to Mexico. And a number of U.S. firms not only have used the threat of relocating to Mexico to hold down wages, but some have even closed part of all of a plant in response to union organizing or bargaining. Violations of fundamental democratic principles, as well as of basic human and labor rights, continue to occur regularly in Mexico. And NAFTA's side agreement has not significantly improved Mexico's environment, or that of the U.S. Mexico border region.

NAFTA is a bad agreement. But I must also note briefly the tremendous weakness of this fast-track bill itself. The bill reported by the Finance Committee requires only that trading partners enforce existing labor and environmental laws. Nowhere in this bill does it state that parties must strive to ensure that their labor and environmental laws meet international standards. Nowhere in this bill do we demand that countries make progress in protecting the rights of workers and the environment. This is unacceptable. Have we learned nothing? Shouldn't we, at a minimum, require that countries try to do better?

The bill requires only that a country enforce its own laws as they stand today, and to add insult to injury, it has a loophole that allows countries to lower labor and environmental standards with impunity. It allows for strong enforcement of the provisions on intellectual property and other commercial rights, but then provides no adequate enforcement for violations of the labor and environmental provisions. In the real world, the effect of weak labor standards coupled with no enforcement mechanism means that while a U.S. company could easily bring a case against a country for not enforcing laws on copyright protection, that same country could fail to enforce minimum wage laws or even lower the minimum wage, and neither the U.S., nor a worker who is affected, could bring a case for violation of the trade agreement. I believe this provision shows exactly whose interests this bill is meant to benefit, and it's not the working man.

And unfortunately, the drafters have not learned from the mistakes of the NAFTA agreement when it comes to investor lawsuits. Just like under NAFTA, this bill does not forbid investor lawsuits that challenge domestic laws on the grounds of expropriation—expropriation that is not even limited to the long standing legal precedent that it must involve more than just a diminution in value or loss of profits. Today, as we debate the motion to proceed, a lawsuit is underway between a Canadian company and the U.S. government dealing with this very issue. Under NAFTA, the Canadian company Methanex has sued the U.S. government for $970 million in future profits due to California's banning of the chemical MTBE, which Methanex produces. Small leaks of MTBE from storage tanks, pipeline accidents, and car accidents were found to have contaminated 30 public drinking water systems in California. California banned the chemical on safety grounds and now we, the American people, are supposed to re-imburse the company that made the chemical for their lost profits? Absolutely not.

In 2000, another Canadian company, ADF Group Inc., filed a complaint using NAFTA's Chapter 11 on investment to challenge the federal requirement that U.S.-made steel be used in all federally funded highway projects. The case both challenges federal procurement policies and attacks a part of U.S. law that directly benefits American workers. Regardless of the outcome of this case, the fact that a private company could use NAFTA to challenge a popular domestic law that the U.S. has routinely tried to exempt from trade agreements, should trouble us all. The fast-track bill would do absolutely nothing to prevent more challenges to our Buy America Law in the future, and it would do nothing to guarantee that trade agreements will not be used to challenge laws we pass to protect our environment, public health and safety, and our workers.

Proponents of fast-track argue that these inadequate negotiating objectives will produce concrete gains in protecting workers' rights and the environment in future trade agreements, notably the FTAA, the WTO, and pending agreements with Chile and Singapore. But the Bush Administration has provided no basis for confidence that it is will willing to expend the necessary energy and political capital to actually move workers' rights and environmental provisions forward in any of these arenas. In fact, every word and action from the Bush Administration since it has been in office points to the contrary. It is simply untrustworthy when it comes to trade policy.

Section 131 of the Uruguay Round Agreements Act, as amended, directs the President to "seek the establishment . . . in the WTO . . . of a working party to examine the relationship of internationally recognized worker rights . . . to the articles, objectives, and related instruments of the GATT 1947 and of the WTO." Despite this crystal clear mandate from the U.S. Congress, the Bush Administration has refused even to propose a working party on worker rights at the WTO. U.S. Trade Representative Zoellick told the House Ways and Means Committee on October 9th that such a proposal "would kill our ability to launch the round . . . It has no chance whatsoever." The truth is, the Uruguay Round Agreements did not ask the President or his Trade Representative to evaluate the potential success of seeking a working party; it said the President "shall seek" such a party. Why would we give this President authority to negotiate trade agreements on an expedited basis, with no amendments, when it appears he already doesn't follow the instructions mandated by law from this body?

This Administration has publicly announced it will not enforce provisions negotiated in good faith by the Clinton Administration in the Jordan Free Trade Agreement. The Jordan agreement incorporated enforceable workers' rights and environmental protections in the core of the agreement subject to the same dispute resolution provisions as the commercial aspects. Yet in July, USTR Zoellick exchanged letters with the Jordanian ambassador to the U.S., in which both pledged not to use trade sanctions to resolve disputes under the agreement. This effectively gutted the path-breaking labor and environmental provisions in the Jordan agreement, since they are the only provisions not also covered by WTO rules, which authorize sanctions separately.

Also, the draft ministerial WTO declaration prepared for the next ministerial contains no progress on workers' rights whatsoever. There is not even a commitment for a formal cooperation agreement with the ILO, which would be a very minimal step forward, yet the Administration has not publicly criticized this aspect of the declaration.

The draft text of the FTAA, released in April, also contains no language whatsoever, not even as a proposal, linking trade benefits to workers' rights or environmental protection. If the FTAA negotiations continue on their current path, even the modest workers' provisions now included in the Generalized System of Preferences—which currently applies to virtually every Latin American country—will be rendered moot. In regard to the on-going Chile and Singapore negotiations, the Bush Administration has apparently retreated from the Jordan agreement commitments which were to be the baseline for the labor and environmental provisions of any new agreement. It has also failed to bring forth any proposals on labor and environment in the negotiations. Chilean negotiators have told reporters that the U.S. is only asking for monetary fines to enforce labor and environmental standards. This falls short of even the modest Jordan standard.

It is clear this Administration has no commitment to labor rights or the environment in its trade policy. In fact, it doesn't see them as fundamental principles necessary to achieve fairness in the global trading system—it sees them as "potential new forms of protectionism." This is what USTR Zoellick said in a speech to business associations in New Delhi last year. He also told the audience: "We can work cooperatively to thwart efforts to employ labor and environmental concerns for protectionist purposes."

Mr. President, we can not trust what this Administration says it will do when negotiating agreements because quite honestly, it doesn't believe what it is saying when it negotiates them. Worker's rights and protection of the environment in trade agreements are secondary to commercial interests. Period. They are secondary when it comes to workers and the environment abroad and they are secondary when it comes to workers' and the environment here.

For example, we have watched workers in the steel industry bear the brunt of ineffective trade policies and more recently, inadequate trade remedies on the part of this Administration. Although the President's recent Section 201 decision brought relief to some segments of the United States steel industry, it did nothing for Minnesota's Iron Range—nor for the iron ore industry in Michigan. While the President imposed a fairly significant tariff on every other product category for which the International Trade Commission (ITC) found injury, for steel slab he decided to impose "tariff rate quotas." This brings us virtually no relief.

Nearly 7 million tons of steel slab can continue to be dumped on our shores before any tariff is assessed. The injury will continue. Moreover, already some of our trading partners—Brazil, for example—are angling for exemptions that would drive the quota levels even higher. And, frankly, I fear this Administration might listen too sympathetically to such pleas.

In fact, members of the Senate's Steel Caucus recently received a letter warning of potentially devastating impact of grants of exclusions awarded by the Administration. As the President of the United Steelworkers of America, Mr. Gerard, says, "It would be tragic if having traveled so far to provide the industry and its workers and communities desperately needed relief, that the Administration now wasted this opportunity by making unwarranted exclusions at the behest of our trading partners."

Frankly, the commitment to protect domestically produced iron ore and the blast furnace capacity to process that iron ore is shockingly absent. We must remain vigilant.

All of this leads me to the final reason I oppose moving to the fast-track bill. It is obvious this nation has more urgent priorities than debating fast-track authority. America's manufacturing industry is in a deep, long-lasting crisis that threatens the future of American prosperity. Manufacturing job losses since July 2000 have totaled 1.3 million. Manufacturing employment peaked in March 1998 at 18.9 million, but since then has declined by more than 1.6 million jobs to a total of 17.3 million. Last year, total employment in manufacturing fell below 18 million for the first time since June 1965. From 1994 to the present, growing trade deficits have eliminated a net total of 3 million actual and potential jobs from the U.S. economy—nearly 50,000 of those jobs in Minnesota, representing 2% of the state's labor force. Let's be clear. This crisis is a result of a failure of economic and trade policy. We should be addressing this failure, not granting fast-track authority for major new trade negotiations.

Domestic companies are hurting and domestic jobs are being lost by the thousands because of unfair trading practices not adequately curbed or punished by our domestic trade policies. What's perhaps most troublesome is that the trade-related losses of the past decade happened during times of economic prosperity so their effect was masked. I think we are just starting to feel the real impact of this nation's misguided trade policies. And now the Administration wants even more authority—fast track authority—to perpetuate these misguided policies? Where are their priorities? Do they even recognize the needs of workers in America?

We must address the condition of the American worker first. Trade Adjustment Assistance is critical for thousands of American workers and their families, and it should not be bootstrapped to a flawed, undemocratic bill that will cause more long-term hardship. I support the trade adjustment assistance portion of this bill. It will provide important assistance that is urgently needed. But, I believe we should address TAA separately, on its own merits.

Congress established TAA in 1962 to assist workers whose job loss is associated with an increase in imports. Workers are eligible for up to 52 weeks of income support, provided they are enrolled in re-training. The program also provides job search and relocation assistance. Despite low unemployment through the second half of the 1990s, the number of workers eligible for TAA has increased. In 2000, approximately 35,000 workers received TAA benefits. Unfortunately, existing TAA eligibility requirements have not kept up with the changing times. TAA covers too few workers and fails to address major problems that workers and communities face. The TAA provision in this package would help change that.

It would broaden eligibility and expand benefits, providing benefits to secondary workers, including suppliers and downstream providers. For example, iron ore workers who faced layoffs because of increased steel imports would be covered. TAA eligibility would also be expanded to include workers affected by shifts in production, as well to those affected by increased imports. It would increase income maintenance from 52 to 78 weeks; substantially increase funds available for training; ensure workers who take a part-time job don't lose training benefits; and increase assistance for job relocation.

The expanded program would link TAA recipients to child care and health care benefits under existing programs, and provide assistance to recipients in making COBRA payments. When you lose your job you lose your health insurance, and unfortunately that often means you lose your healthcare. While I was in Minnesota last summer, I heard from working men and women who had lost their jobs because of the economic downturn. In the fall I spoke to many who had become unemployed as a direct consequence of September 11th. Many of them told me that they were eligible for COBRA assistance but couldn't afford it. The average cost of COBRA coverage for a family is $700, more than half the monthly unemployment benefit. 80% of dislocated workers don't purchase it because they can't afford it. They end up having to make an awful choice: the choice between food and clothes for their families and having health insurance. This is unacceptable. We must provide assistance to the unemployed to ensure they have affordable health insurance.

The TAA provision in this bill would recognize the special circumstances faced by family farmers, ranchers and independent fishermen, and would seek to provide assistance and technical support before they lose their businesses. It would provide wage insurance for older workers and help communities adjust to devastating job losses. Mr. President, entire communities are often affected by the closing of one textile factory or steel mill. We must coordinate federal assistance to these communities, help them develop strategic plans following job losses, and provide technical assistance, loans and grants.

As of December, in Minnesota over 3800 workers have applied for Trade Adjustment Assistance as a result of NAFTA. Entire companies have relocated to Mexico or Canada, or workers have been laid off do the increase in imports from those countries. We must guarantee that all Americans benefit from trade by providing adequate trade adjustment assistance. But even that is not enough. We must protect the standard of living and quality of life of the American worker. We must address decline in real median wages and the weakening of workers rights in this country. And we must do so before we even think about fast-track authority.

Why is it, for example, that we are proceeding to debate the need for expedited review of trade deals this Administration negotiates when we have yet to address the long over-due increase in the federal minimum wage. Have we considered the irony of this? Expedited review of trade agreements that cause us to lose jobs, that undermine worker safety and security around the globe, before we debate a paltry $1.50 increase in the minimum wage over three years?

Poverty has nearly doubled among full-time, year-round workers since the late 1970s—from about 1.3 million then to 2.4 million in 2000. There are millions of mothers and fathers toiling 40 hours a week, 52 weeks a year, who are still unable to meet their families' basic needs—food, medical care, housing, clothing. More than 32 million people in this country—more than 12 million of those children—were poor in 1999.

A key part of the problem is an unacceptably low minimum wage. Minimum wage employees working 40 hours a week, 52 weeks a year, earn only $10,712 a year—more than $4,300 below the poverty line for a family of three. The current minimum wage fails to provide enough income to enable minimum wage workers to afford adequate housing in any area of this country.

Mr. President, every day the minimum wage is not increased it continues to lose value, and workers fall farther and farther behind. Minimum wage workers have lost all of their gains since we last raised the minimum wage in 1997.

Today, the real value of the minimum wage is now $3.00 below what it was in 1968. To have the purchasing power it had in 1968, the minimum wage would have to be more than $8 an hour today, not $5.15. Since 1968, the ratio of the minimum wage to average hourly earnings dropped from 56% to 36%.

Members of Congress acted to raise their own pay by $4,900 last year—the fourth pay increase in six years. Yet we have not found time to provide any pay increase to the lowest paid workers, an increase that would add $3,000 to the income of full-time, year-round workers. Don't those who are most vulnerable in our society, those who are absolutely struggling to make ends meet, those who every day are forced to choose between food, clothing, shelter, or health care for their families, don't they deserve the modest increase in the minimum wage that is proposed in the legislation that has been stalled for far too long.

A gain of $3,000 would have an enormous impact on minimum wage workers and their families. It would be enough money for a low-income family of three to buy: over 15 months of groceries; over 8 months of rent; over 7 months of utilities; or put a family member through a 2-year community college program.

History clearly shows that raising the minimum wage has not had any negative impact on jobs, employment, or inflation. Rather, in the three years since the last minimum wage increase, the economy experienced its strongest growth in over three decades. Nearly 11 million new jobs were added, at a pace of 218,000 per month.

Nearly 9 million workers would directly benefit from the proposed minimum wage increase, many of whom are raising children. Thirty-five percent of these workers are the sole earners for their families. Sixty-one percent are women. Sixteen percent are African American and twenty percent are Hispanic American.

Finally, since a minimum wage increase goes to families who need every dollar for basic needs, raising the wage will provide a much-needed spur to our slowly recovering economy. Fifty-eight percent of the benefit of the 1996 and 1997 increases went to families in the bottom 40% of income groups. Over one-third of the benefit went to the poorest families, those in the bottom 20%.

A fair increase in the minimum wage is long overdue. This body should not be proceeding to this wrong-headed fast track measure at all. But at the least we should not be doing so in advance of considering a minimum wage increase to correct some of losses suffered as the result of our shameful inaction in the past. No one who works for a living should have to live in poverty.

I oppose the motion to proceed to fast-track authority for all the reasons I have laid out here today: the fast track mechanism is undemocratic, it is unlikely I will be able to support trade agreements negotiated under fast-track authority given the consequences of past trade agreements, the track-record of this Administration so far, and the text of the Trade Promotion Authority Act, and I believe is irresponsible to discuss fast-track authority before addressing the urgent needs of workers in this nation.

I know that I am not alone in my opposition to fast-track authority. And I know that proponents of it will try to cast this debate as one of protectionists versus free traders. Nothing can be farther than the truth. The debate today is one of free trade versus fair trade. I know the difference. The American people know the difference. The debate today is about the responsibility of this nation to ensure justice in the global trading regime, to ensure democracy, human rights and all the values that make this nation great are not swept aside in the name of trade promotion. And it is about ensuring the American worker is not swept under the rug in the name of free trade.

Mr. President, Americans and especially the American worker, understand the link between promoting human rights and democracy and promoting free trade. In fact, they demand that link. We have seen it in the street of Seattle, Washington; Genoa, Italy; and just two weeks ago here in Washington, DC. At the grassroots level, people are demanding that trade be more than the simple movement of capital. They are demanding that it be more than the protection of intellectual and investor property rights. They are demanding more than what we see in this fast-track bill. My position on trade agreements is their position. It is not "no, never." It is "yes, if." Yes to trade agreements if they protect democracy, human rights and internationally recognized labor rights; yes to trade agreements if they guarantee minimum safeguards for the environment; yes to trade agreements if they do not abandon family farmers to competition from export-oriented mega-farms abroad operating free from any environmental-regulation; yes to major trade agreements if they do not displace thousands of workers without any adjustment assistance. I oppose this motion to proceed and I will oppose the bill when it comes to the floor. To reiterate, Article I, section 8 of the Constitution says it is not the President but the Congress that shall regulate commerce with foreign nations.

I am not willing to shirk my responsibility of being a part of shaping a trade policy that can dramatically affect the quality of lives of families and people I represent in Minnesota. I do not understand how we could agree to a fast-track procedure whereby we could have a trade agreement which would entail actually changing some of our domestic laws that deal with consumer protection, that deal with worker rights, that deal with a whole range of issues, and that we basically surrender our rights to have the opportunity to have an amendment considered on the floor of the Senate. It makes no sense whatsoever.

This legislation locks us into fast-track rules now for debates and votes we will have later. The administration is talking about agreements with Chile and Singapore, the Free Trade Agreement of the Americas. In other words, we are deciding now whether to establish special and highly restrictive rules which will govern our debate on votes on pieces of legislation, votes that will take place later; an expedited schedule, no amendments, a limited number of debates. I don't understand it.

We can have trade legislation without this procedure. With fast track, any kind of trade agreement can come to the Senate floor. It can affect environmental laws that we pass in our States—in Delaware, in Minnesota. It can affect food safety legislation that we might pass in our States or pass in the Congress. It can overturn and declare trade illegal. It can be a trade agreement that we make with different countries, that further depress wages in our country. That means many working families will lose their jobs. That means no respect for basic child labor rights. And where there is no respect for human rights, there is no respect for democracy.

All of that can happen, and we are going to say through this legislation that we forfeit our right as Senators to represent people in our States and try and amend these agreements so we can provide protection for the people we represent? I say to colleagues, on principle alone, I oppose this.

By the way, I opposed the Democratic administration. It is not a matter of politics. I oppose any President having this authority. I don't believe we should give up what is not only our constitutional right but our responsibility as legislators.

Robert Zoellick discussed why he needs fast track: If I am pressing my counterpart to go to his bottom line, he or she will balk if they feel the Congress has the ability to reopen the deal. My counterparts fear negotiating once with the administration and a second time with the Congress.

From the floor of the Senate, I say for Mr. Zoellick, without acrimony, we have a system of checks and balances. We have three branches of Government. As a matter of fact, during the decade of the 1990s, we negotiated close to 200 trade agreements only two of which used the fast track procedure. I have a list of them. The list goes on and on and on.

Let me make a second point, which is more hard hitting. When I look at past trade agreements and some of the empirical evidence, I don't want to give up my right to amend future trade agreements which I think will have the same detrimental or an even more detrimental effect on families in the State of Minnesota or, for that matter, around the country.

Let's just take NAFTA. The Economic Policy Institute, a highly respected think-tank, issued a report last year entitled "NAFTA At Seven: Its Impact on Workers in all Three Nations." The report says:

> NAFTA eliminated some 766,000 actual and potential U.S. jobs between 1994 and 2000 because of the rapid growth in the U.S. export deficit with Mexico and Canada.

Minnesota lost 13,200 jobs due to the NAFTA-related deficit.

The report went on to say that in the United States:

> NAFTA has contributed to rising income inequality, suppressed real wages for production workers, weakened collective bargaining powers and ability to organize unions and reduced fringe benefits.

A second report released last October argues that when you look at the combined NAFTA and WTO trade-related job losses between 1994 and 2000—and I voted for neither agreement—the number is over 3 million. According to that report, Minnesota lost 50,000 jobs. The EPI estimates that 5 percent to 15 percent of the decline in real median wages can be explained by this increase in trade.

What are we saying? I will tell you something about potash workers. I was in Brainerd. It is so heartbreaking that 700 workers are out of work. When I called the CEO, he said to me: Senator, we can deal with any of the U.S. companies. We got killed by trade policy.

In greater Minnesota they were shut down and lost $20-an-hour jobs with health care benefits.

LTV's iron ore workers—slab steel is coming in, produced way below the cost of production, and 1,300 workers are out of work, having lost well-paying jobs with good health care benefits.

Apparel workers, textile workers, auto workers continue to lose their jobs. In all due respect, we are supposed to be the party that represents working people. We are supposed to be the party for jobs. I fail to see how we live up to this responsibility by signing on to a trade agreement where we do not even have the right to offer amendments.

These companies say to workers in this country: if you do not give up some of your health care benefits, or if you do not agree to keep your wages down, we are gone. They do not say to workers in Minnesota: we are going to North Carolina. They are leaving North Carolina, too. They are saying to American families: we are gone. We are going abroad. We are going to Juarez, or Singapore, or wherever. We are going to Vietnam. We are going to Cambodia where we can pay people 30 cents a day; we can hire little children; we can work them 18 hours a day; we can imprison people if they try to organize and form a union, and we can torture people and violate people's human rights. There are some 70 governments today in the world that systematically practice torture.

Then, what these companies say to these countries is: OK, we will come to your country, but if you dare ever pass legislation allowing people the right to organize and bargain collectively, then we will leave, or we will not come. You had better not have any environmental standards that make it hard on us, or then we will not stay. You had better not pass any laws that protect little children so they don't have to work 18 hours a day at age 11, or we will not invest in your country.

We are given all these arguments about how we should be internationalists. I am an internationalist. My father was born in Odessa, Ukraine. My father's family moved to stay one step ahead of the pogroms. He moved to Siberia in czarist Russia and then came here at age of 17. He fled czarist Russia. There was a revolution. He was going to go back, and his parents told him: Don't come back, the Communists have taken over, Kerenski is out and Lenin is in. He never saw his family again, and they, in all likelihood, were murdered by Stalin.

My father spoke 10 languages fluently. I don't. But I am an internationalist. That is not the issue.

I know we are part of an international economy. I just want to ask, are there not any new rules that go with this? Just as 100 years ago when we moved from a farm economy to a national economy to more of an industrial economy—remember what happened? The women said: We want the right to vote. And then workers organized for an 8-hour day and 40-hour week, and then other citizens, the farmers and Populists alliance, said: we want some antitrust action; these trusts are destroying our lives. And there was the Sherman Act and Clayton Act, and then other people said: we want direct election of Senators.

There was a group of citizens who in a democracy demanded what they as citizens in a democracy had the courage to demand, which was: As we move from an agrarian to a national economy, make that national economy work not just for these huge companies, but for all of us, for our families and our children.

Now we are in the 21st century. What we are saying is, with this new international economy, can't we make sure that this new economy works not just for large multinational corporations? Can't we make sure that this new international economy works for workers—workers here and workers in developing countries? Can't we make sure it works for the environment and works for human rights and democracy?

It breaks my heart that we are told we can lead, but we can't lead with American values. What we are hearing from the administration and some of the proponents of this is: We have to do this. We have to lead. But we dare not—and believe me, I will have an amendment on the floor that will do this—we dare not tie this to human rights or democracy. There cannot be any mention of human rights or democracy in any of these trade agreements. We are asked to lead, but not lead with our values. We are asked to lead, but not stand for human rights. We are asked to lead, but not stand for democracy. As a first-generation American, the son of a Jewish immigrant who fled persecution from Russia, I reject that proposition.

There is much I could say that is more technical, and I will as we get to amendments, but I have one other question. Why are we on this legislation? How about first raising the minimum wage? In the coffee shops of Minnesota, when I walk in with Sheila and have a cup of coffee and a piece of pie, people don't say: Are you going to get to fast track? People talk to me about wages. They talk to me a lot about education.

How about a debate about when we are going to fully fund special education and live up to our commitment? The Presiding Officer, as a former Governor, knows what that is all about in Delaware.

How about a debate about affordable prescription drugs for seniors, and for others as well? We should be able to reimport drugs from Canada. Farmers and consumers should be able to reimport drugs back from Canada, if they have met all their FDA requirements. It helps not only senior citizens but all of our citizens.

How about going from $5.15 an hour which, if it kept up with inflation, would be $8 an hour—$1.50 over the next 3 years?

In the State of Minnesota, to be able to afford housing at minimum wage, you would have to work 127 hours a week. There are not 127 hours in a week. It is just unbelievable. We are the Democratic Party. I am, today, speaking for the Democratic wing of the Democratic Party. Housing? In the State of Minnesota now, in the metro area, you will be lucky if you get a two-bedroom apartment for under $900.

Childcare? If you had a 2-year-old and 3-year-old, you would be very lucky if your expenses were less than $1,000 a month.

Of course, childcare workers make $6, $7, or $8 an hour with no health care benefits. You can't support yourself on minimum wage. If you are a single parent, that takes almost all of your income. It doesn't even meet the question of health care costs, food, transportation, and maybe once in a blue moon to go to a movie, or go out to eat.

Why aren't we focusing on the basic concerns of working families? I make this appeal on the floor of the Senate. Why aren't we talking about raising the minimum wage? Why aren't we talking about minimum wage jobs? Why aren't we talking about affordable prescription drugs? Why aren't we talking about health security for all? Why aren't we talking about how to meet these exorbitant health care expenses that small businesses can't meet? Why aren't we talking about what we are going to do as more and more of our neighbors, parents, or grandparents live to be 80 and 85 to make sure they can stay at home and live at home with dignity and not be forced to go to nursing homes? Why aren't we talking to our health care providers and to our physicians about adequate Medicare? Why aren't we talking about how we can have more support for nurses and attract more teachers? Why aren't we talking about retaining more teachers? Why aren't we talking about doing more for K–12? Why aren't we talking about affordable higher education, how we can make sure that every child by kindergarten knows how to spell his names, knows the alphabet, the colors, the shapes, and the sizes when they are ready to go to school?

Why in the world are we not focusing on these issues that are so important to the vast majority of the people we represent?

Why are we talking about fast track? Why are we calling upon all of us to give up our constitutional authority to amend trade agreements; to give up our responsibility to represent the people back in our States in case these trade agreements are antithetical to their rights as workers, or to their environment, or to their safety, or to their children; or to the rights of consumers?

I wouldn't do it for any President. Why don't I just lay my cards out on the table. Forgive me. I wouldn't do it for this President.

I don't see that this administration is at all committed to raising the minimum wage, or to making sure people have the right to organize and bargain collectively for labor law reform, or, for that matter, to protecting against repetitive stress injury, and to ensuring a safe workplace.

I don't think there is a great commitment on the part of this administration on behalf of the environment, consumers, or ordinary people who do not have all the capital and who make the huge contributions. I don't see a whole lot of commitment.

Now we are going to give this administration fast-track authority? I didn't vote to give it to the last administration. We can't come out here with an amendment to try to make things better. We can't fight to represent the people back in our States. And the trade agreements that I have seen so far—every single one—do not represent fair trade. They don't have child labor standards. They don't have basic human rights standards. They don't have any standards for protection of the environment. At the end of the day, there are depressed wages for workers not only in our country but in the developing countries as well. I think we can do better.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WELLSTONE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

INTEREST RATES FOR STUDENT LOANS

Mr. WELLSTONE. Mr. President, I have not had a chance to review the specifics of the President's proposal. Jill Morningstar works for me on education. She gave me a briefing last night, which I haven't had a chance to read.

As I understand it, the administration is now basically proposing that students will not be able to consolidate some of their students loans in order to lower the interest rates and give them a break on interest rates.

I want to say to the White House that this is a true no-brainer; that is to say, it is a nonstarter.

I think the more the administration hears from higher education students in the State of Minnesota and around the country, the more they are going to realize that it is not true that these students when not in school are traveling around the swank ski resorts or playing on all the swank golf courses because they have a ton of money. It is not true. If they are 18, 19, and 20, many of them are working several jobs 30 hours a week. Many of these students in my State—I bet in Delaware, too—are in their forties and fifties and are going back to school.

I am the beneficiary of the National Defense Education Act, which was a low-interest rate loan, and I only had to pay half of it back because I went into teaching.

We should be going in the direction of more affordable higher education—not less affordable.

I think the bind this administration is in with their proposal is they are trying to figure out ways of supporting the Pell Grant Program because so far in their budget they don't have the support for it and the ability to find other pots of money.

This is sort of an unconscionable tradeoff. This is not the way we get more funding for Pell grants or other worthy programs—basically by severely undercutting students' abilities to be able to combine their loans and pay a lower rate of interest.

This is really anti-education. Frankly, it is anti-student.

I want the higher education community in Minnesota to know that is why I came to the floor. I am adamantly opposed to this policy. I join the ranks of other Senators—Democrats and Republicans alike—in opposition.

I think for many middle-income families higher education ranks right up there as one of the huge issues. It is very important.

I imagine that back in my State—and other Senators and Representatives will be doing the same thing—I will be having some meetings with students. Unless I am wrong, I think we will see a tremendous reaction, a lot of organizing, and a lot of insistence that the administration change this policy.

I am on the floor of the Senate today to call upon the White House to basically back away. They are going in the wrong direction. They are going to really feel the political heat. You should really feel the political heat.

This is the bind we are in. All of these worthy programs are on a collision course with the tax cut. Let us have tax cuts. Let us do some of it, but there has to be balance.

We have done so much by way of tax cuts. Now they want to make these tax cuts permanent. We no longer have revenue when it comes to affordable higher education, prekindergarten, welfare reform, money for childcare, money for TANF, affordable housing, special education, title I, support for COPS, support for firefighters assistance grants, and more research for all kinds of disabling diseases and illnesses.

So many people in the last couple of days have come from our State asking about money for Alzheimer's, diabetes, Parkinson's, mental health, and on and on. The money isn't there. This is one little example.

I come to the floor of the Senate to make clear my opposition to the direction the administration is going. I call on students to organize for higher education to make sure their voices are heard. I think the administration needs to hear from you because they are about to make it harder for you to afford your education. That is a distorted priority. We ought not be making it harder for men and women—whatever their age—who want to pursue higher education. It makes no sense whatsoever.

I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. GRAHAM. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. JOHNSON). Without objection, it is so ordered.

Mr. GRAHAM. Mr. President, I rise this afternoon to express my strong support for the motion to proceed to the Andean Trade Preference Act.

Since 1991, the Andean Trade Preference Act has helped the countries of the Andean region—Bolivia, Peru, Ecuador, and Colombia—to more than double their exports to the United States, to nearly $2 billion in the year 2000.

At the same time, exports from the United States into the Andean nations saw a 65-percent increase between 1991 and 1999.

Colombia, Bolivia, Ecuador, and Peru have not only increased their exports, they have accomplished another important objective to them and to the United States; and that is, they are developing new, nontraditional sectors of their economy. They are developing legitimate commercial exports as alternatives to the illicit drug trade which has so bedeviled these countries in the recent past. This has been a huge benefit not only to the four countries of the Andean region but to the United States as well.

Today, as an example, 85 percent of Colombia's cut flowers go by export to the U.S. market. In fact, these flowers alone account for 80 percent of the air freight between the United States and Colombia.

In Peru, the asparagus industry has served as an example of what an alternative crop production can achieve—an alternative to illicit coca production. Asparagus, growing in Peru, now employs 40,000 people in a legal agricultural enterprise.

In spite of this progress, regrettably, the ATPA expired last year on December 4, its 10th birthday. It is in the national interest of the United states of America, as well as the national interest of the four nations of the Andean region, that this Congress act now to restore and enhance this highly successful program.

The House has already done so. In December of last year, it passed its version of Andean trade preference renewal and expansion. It is time for the Senate to do the same.

Why is this legislation important? And why is it important now?

I suggest three reasons: the grave consequences of inaction, the opportunity to strengthen the partnership between the United States and the Andean region, and as an important tool in our global war on terrorism.

What are some of the consequences of inaction?

The expiration of the ATPA is having an immediate and negative impact on the export industries that have blossomed under the benefits of this program, as well as industries that support this trade.

In February of this year, 2 months after the ATPA had expired, I requested that the administration grant a deferral on the collection of those additional duties which came due as a result of the expiration of the ATPA.

The President, in my judgment, agreed and used the administrative power to postpone the collection of those additional ATPA duties for 90 days with the expectation that Congress, during that period of time, would renew and extend ATPA.

That period of deferral is almost over. The 90-day clock runs out on May 16. If we have not completed all the work needed to pass this legislation into law by then—including passage by the Senate, a potential conference committee with the House of Representatives to resolve what differences might exist, and final signing into law by the President—if we do not do all of those acts by May 16, the U.S. Customs Service will start sending out bills for duties which would then be due and payable.

These bills will be steep for both importers and their customers. An example: Annual imports of flowers totaling $400 million from the region are liable for duties of up to 6.8 percent. Example: Annual imports of asparagus worth $50 million will get an additional 20-percent tariff. Example: Leather handbags and luggage imports of $20 million a year are subject to a 10-percent tariff. Example: Imports of precious metal jewelry, worth $140 million a year, will face up to 7-percent duties.

I know the Presiding Officer is a caring man and probably—I would say no doubt—gave to his wife, maybe to his mother as well, beautiful flowers for Valentine's Day and is preparing to do the same for Mother's Day. Chances are great that those flowers he has and will provide to his loved ones came from an Andean country. And the risk of applying these additional tariffs to the two most significant days of the year for the sale of flesh cut flowers, Valentine's Day and Mother's Day, representing 50 percent of the total cut flower imports, will be enormous.

Because of the temporary extension of ATPA, only the tariff duties have been deferred. Growers will still be responsible if the renewed ATPA fails to become law by May 16, only 4 days after Mother's Day. On top of that, if you send those flowers for Mother's Day, they will probably cost you about $6 more just because we have allowed ATPA to lapse.

With the proven, positive economic returns of the current ATPA, we must not only renew these trade benefits; the time has come to expand them.

The Andean landscape was noticeably changed in the year 2000 with the passage of the Caribbean Basin Trade Partnership Act. That legislation provided the Caribbean nations significant new trade benefits, essentially parity with the benefits which Mexico has received under the North American Free Trade Agreement Act. But in helping the Caribbean Basin, we have inadvertently hurt the Andean region.

The Andean apparel industry is tiny in comparison to the apparel industry in Mexico and the CBI countries. Of these three preferential trade arrangements in the Western Hemisphere, NAFTA accounts for approximately 55 percent of U.S. apparel imports. CBI has a 41-percent share. The Andean Trade Preference Act countries provide only 4 percent.

Despite its small share of our imports, the U.S. market is the recipient of over 90 percent of the Andean countries' apparel exports, so it is a small percentage of our imports of apparel from the Western Hemisphere. But our market is an extremely significant economic opportunity for these four countries. If Congress does not level the playing field between ATPA and the Caribbean Basin, the potential job loss is tremendous. Colombia alone stands to lose up to 100,000 jobs in just the apparel sector. As I will indicate later, there are already early indications of a significant relocation of the apparel assembly industry from the Andean trade area to CBI or Mexico because of the some 8- to 10-percent competitive advantage which Mexico and the Caribbean now have over the Andean region as it relates to the export of finished apparel products.

U.S. imports of apparel from Colombia in 2001 were down 18 percent over the year 2000. Total apparel exports to the United States from the Andean region were down over 11 percent for the same timeframe.

As a result, U.S. exports of cut pants to be assembled into apparel in the Andean countries was also down but down by an average of over 33 percent. This reduction in exports, which support the apparel industry, illustrates how the lack of trade benefits clearly hurts both the United States and the Andean countries.

We must create a business climate that can provide Andean citizens an alternative to illegal industries. Promoting legitimate economic development rather than leaving these countries at a competitive disadvantage with their near hemispheric neighbors, especially in highly mobile industries such as apparel, is a critical goal of this ATPA legislation.

If we are successful in our counternarcotics efforts in Colombia alone, it is estimated that there will be a quarter of a million people out of work. A quarter of a million people in Colombia earn their living in the elicit drug trade. It is our national policy and goal to try to eliminate that elicit drug trade. As part of that strategy, we have a role to play in developing legal alternative jobs for those people who we hope will lose their jobs in coca production and trafficking.

It is ironic that at the same time we are asking the region to eliminate an illegal industry that contributes almost 5 percent of its gross domestic product, we have created an environment which makes it more difficult for those same countries to retain legitimate industries.

It is imperative that we correct that inequality now and send a strong signal with a renewed and expanded Andean Trade Preference Act.

I have been talking about some of the immediate and microconsequences of inaction by the Senate. There are macroconsequences as well. As you can see in the chart I have brought, the Andean region is bordered on the north by Venezuela and on the south by Argentina. Venezuela, as evidenced by events in recent days, is facing an increasingly volatile and unstable political future. To the south, in Argentina, the economic situation is still reeling. Without active U.S. involvement in the region, the Andean nations could share the same fate as their northern and southern neighbors.

Our Andean neighbors are trying desperately to keep their houses from catching fire.

But the houses on both ends of the block are already in flames. The ATPA duty preferences expired, and the Andean countries are fighting that fire with water through buckets. We need a renewed and expanded ATPA to give them a big firetruck with a steady and reliable stream. We are sending exactly the wrong signal to our neighbors if we do not take active steps at this pivotal time.

The second reason this is important is the building of partnerships between the United States and the Andean region. While the clock is ticking on

Congress to act on ATPA legislation, there is another clock ticking in the Andean region and the Western Hemisphere, including the United States, in the area of apparel production. For now, many of the largest apparel assembly countries in Asia have been at a comparative advantage in the production of apparel. As an example, these two golf shirts, sold by the same company, same label, same color, would be considered identical. There is a difference. If you look inside the one, you will see that it was made in Nicaragua; the other was made in China. Other than that, they are identical.

One other area in which they are different—they both sell for approximately $20—is the shirt that is made in Nicaragua costs 10 percent more to produce than the shirt made in China. The shirt made in Nicaragua started as cotton grown in a U.S. field. That cotton was then made into the material from which this shirt was made. That material was then sent to Nicaragua, where it was assembled into this golf shirt. This shirt from China was made from Chinese cotton, converted into textile in a Chinese textile factory, and then assembled by Chinese workers.

That is a significant part of the reason, even though this had to come halfway around the world; whereas the one from Nicaragua only a few hundred miles, and the shirt from China costs 10 percent less to produce than did the shirt from Nicaragua. How has this imbalance been maintained? It has been maintained because the United States, as part of what is called the Multifiber Agreement, sets an annual limit on how much product of a particular apparel can be exported into the United States.

As an example, under current agreements, China is limited to exporting 2.374 million dozen golf shirts to the United States per year. That restriction on the amount of product that can be exported to the United States is a significant reason the partnership of the United States growing the raw material, converting it into clothing material, then shipping that to a Caribbean, Mexican, or Andean assembly factory for final conversion into the wearable product has been able to sustain itself.

In the year 2005, the Multifiber Agreement goes out of effect. In the next 3 years, the apparel industry in the Western Hemisphere must get substantially more efficient in order to compete with China and the other major Asian producers, which will likewise come out from under the restrictions of the Multifiber Agreement in 2005. Failure to become much more efficient, in my judgment, puts the whole partnership of U.S. agriculture, U.S. textile, and Caribbean, Mexican, or Andean assembly in serious jeopardy.

The assembly operations in this hemisphere, under our law—including the law we are now considering extending—must use U.S. fabric and yarn, buy U.S.-made sewing machines and equipment, and use U.S.-grown cotton and other fabric materials. If these industries do not become more efficient in the Andean region, the Caribbean, and Mexico, they will lose out in global competition to Asia. Then, American raw materials and equipment, and some 40,000 to 50,000 Americans who are involved in producing the material that goes into these garments that are assembled within the hemisphere will all be completely out of the picture. With the enhancement of the Caribbean Basin Initiative in 2000, fabric exports to Caribbean nations from America, or assembly of apparel items, rose 170 percent since 1999.

Last year, the United States exported $3 billion in cut parts to Caribbean nations, which supported some 60,000 jobs in the United States, 40,000 to 50,000 of which were in the textile industry. This increase in cut parts exports came despite an overall decline in U.S. exports of finished apparel from CBI countries.

What this all means is apparel manufacturers are substituting U.S. fabric and yarn for foreign inputs, proving that the partnership between the U.S. textile and yarn producers and the Caribbean assembly operators is working. That is the same result we hope to achieve in the Andean region. If we can make importing our fabrics more affordable, based on trade benefits and reduced tariffs, then American jobs will be saved.

But passing trade preference legislation is only part of the equation for making the apparel sector more efficient within our hemisphere. There must also be comprehensive implementation of both the letter of the law and the spirit behind it. Legislation expanding CBI in 2000 was a good example. Congress expanded the trade benefits for apparel assembled in the region from U.S. yarn and fabric. But there are still many more hurdles to clear before the region will be an efficient manufacturer of apparel—efficient in terms of our ability to compete with Asian manufacturers.

Secretary of Commerce Don Evans has taken the lead in coordinating the administration's long-term implementation of the Caribbean Basin Initiative. Last year, the Department of Commerce canvassed its overseas post in the Caribbean to identify other problems that are holding the countries back from more efficient production. The Department's exports identified issues such as poor transportation systems, high energy costs, unreliable energy supply, and the unpredictable business climate as obstacles to greater efficiency in the Caribbean assembly industry.

This year, the Department of Commerce has assembled an initiative to begin tackling some of these problems. When we pass Andean trade preference enhancement—and I am very optimistic that we will—there must be a similar effort to assure that not only are the trade benefits implemented but the region, as a whole, is prepared to meet the challenges of the sharply increased competition it will face in the post-2005 world.

The third and final reason I think this is important—and important now—is the role that this legislation will play in our effort to combat narcotics and counterterrorism. The ATPA is more than just good trade policy. The ATPA is a key tool in fighting our Nation's war against terrorism.

Recently, the Director of the CIA, Mr. George Tenet, came before the Senate Select Committee on Intelligence, of which I am privileged to be the Chair, and said Latin America is "becoming increasingly volatile as the potential for instability there grows." One reason he cited was the sluggish, oftentimes downward spiraling economy in Latin America. What was the other reason? Terrorism.

Some of the worst terror and violence in the world is happening in the Western Hemisphere. In Latin America, the evil hand of terror has become an everyday reality for too many. In Colombia, for example, paramilitary forces linked to the drug trade have instilled fear through random kidnappings and bombings. A statistic which I think would stun most citizens of the United States is this: In the year 2000, of all the worldwide incidents of terrorist attacks against United States citizens and United States interests, over 44 percent of those worldwide terrorist attacks against Americans occurred in a single country, Colombia.

Today in Colombia there is no substantial difference between one who is a drug trafficker and one who is a terrorist. Recent events, such as the indictment in a United States court of four members of the primary terrorist organization in Colombia, known by the name of FARC, on drug charges, confirm this trend.

In the early days in the Andean region the drug traffickers who were providing cocaine were highly centralized. They had a chief executive officer. They were vertically integrated. That started with growing of the coca in the fields to financing its distribution in the United States and other demand countries.

We made a major effort—we the civilized world, with the United States playing a key role—to take down these highly centralized drug organizations, particularly the Medellin and the Cali cartels. After a long period of significant investment and loss of life, we, the Colombians, and the international community were successful.

We thought that by taking the head off the drug cartel snake, we would kill the rest of the body. In fact, what we found in the late 1990s was these decapitated snakes were beginning to reconstitute themselves, and they were moving away from the large corporate model towards a more entrepreneurial model; where they used to have vertically integrated parts of the drug chain, now they have multiple, small drug traffickers for each phase of the process, from growing in the field to transporting, to the financing of the drug trade.

For a period of time, these new entrepreneurial drug traffickers found themselves at risk because they did not have the security blanket that the old centralized system had provided. So they turned to the modern economic guerrillas, the Al Capones of Colombia, and made a pact. The pact was: We will pay you well if you will provide us security so we can continue to conduct our illicit drug activities.

For awhile, that was the deal, but then the Scarfaces figured out: We are providing the capability of these drug traffickers to do their business, but they are making a lot more money in drug trafficking than we are in providing the security for the drug traffickers. So why do we not become drug traffickers ourselves? And they did.

By the end of the 1990s, the drug trade, particularly in Colombia, had been largely taken over by the former ideological guerrillas who had become the Al Capones and now were becoming drug traffickers.

The motives of those who commit violent acts throughout the world are variant, but one thread is predominant in nations plagued by terrorists: An economy unable to provide hope or a legitimate means for the people to earn a living. In Colombia, this condition is fed by the illegal businesses that are the root of violence: Drug cultivation and smuggling.

The recent escalation of tensions in Colombia magnifies the urgency of America's involvement in helping to sustain South America's oldest democracy, Colombia. At the same time, Peru, Ecuador, and Bolivia are also vulnerable to the surge of the illicit narcotics trade as they have developed alternative business programs.

Fifteen years ago, most of the cocaine in the region was grown in Peru and Bolivia and then transported to Colombia for processing. Those levels have been dramatically reduced, in large part because local farmers have been encouraged, in significant part through U.S. programs, to make the transition from illegal cocaine to a legal agricultural crop. With this continued commitment, our neighbors will have incentives to develop both legitimate economic alternatives to the production of drugs and real avenues to end the violence that plagues so much of our hemisphere.

If we are serious about halting the flow of illegal drugs to the United States, if we are committed to contributing to the stabilization of our nearest neighbors in the hemisphere, and if we are steadfast in our war against terrorism, then the United States must act now to both extend and expand these portrayed benefits, important for us and important for the four countries of the Andean region.

Time is short for the people of our regions who stand to lose should we fail to pass this legislation. The time is now. The days between now and when the crisis occurs on May 16 are few. I urge my colleagues to expeditiously move to the passage of this legislation, to the resolution of differences, and to accept the invitation to attend a signing ceremony in the Rose Garden and then to see that the roses of hope will begin to bloom again in the backyards and fields of our neighbors in the Andean region.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MCCAIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Ms. CANTWELL). Without objection, it is so ordered.

Mr. MCCAIN. Madam President, I appreciate the indulgence of my colleague from South Carolina. I will speak for 5 or 10 minutes. I thank him for the courtesy.

Madam President, the Senate is embarking on a historic debate, one in which we have the opportunity to expand economies, promote job creation, and reduce poverty, in the United States and around the world. As we consider this package of trade bills and debate whether to grant the President trade promotion authority, I hope we remain focused on the big picture. Both collectively and individually, these bills promote the expansion of global free trade and the prosperity that attends it.

Since the end of World War II, the United States has served as a global leader and champion of free trade. Regrettably, a recent surge of protectionism, often driven by special interests that care nothing for the welfare of the average American consumer, has severely handicapped our leadership. Major U.S. trading partners doubt our dedication to free trade, and not without cause. Recent protectionist policies on lumber and, most egregiously, on steel have fueled the scorn of our global trading partners—and rightly so. Failing to pass trade promotion authority will forfeit our nation's legitimacy as a global free trade leader and confirm the views of critics around the world who don't take our devotion to free trade, and consequently our global leadership, seriously. We cannot let this happen.

The authority first established by the Trade Act of 1974 and now proposed in TPA expired eight years ago. Since then, numerous trade agreements, in which the United States has not participated, have been negotiated and implemented around the world. The simple fact is that our trading partners are unwilling to negotiate agreements with an administration that lacks TPA.

Today, there are 130 preferential trade agreements, and the United States is a party to three of them.

Similarly, the United States is a party to only one of the 30 free trade agreements in the Western Hemisphere. Those 156 agreements to which we are not a signatory represent missed opportunities for all Americans.

The American people benefit enormously from trade, even if they often don't realize it. Today, over 12 million U.S. jobs depend on exports, and those jobs pay wages that are 13 to 18 percent higher than the national average. Every day, American consumers reap the benefits of trade in the form of lower-priced goods and services. The office of the U.S. Trade Representative estimates that the combined benefits of the North American Free Trade Agreement, NAFTA, and the Uruguay round agreements have saved the average American family of four between $1,300 and $2,000 a year. A University of Michigan study found that a global reduction of trade barriers could result in an additional income gain of $2,500 for the average American family of four.

Too often, our Nation's approach to trade has been to open foreign markets to American goods and services while erecting domestic barriers to foreign imports. But trade does not work that way. It is, by definition, a two-way street. Continuing along this protectionist path will ultimately cause more damage to the very American industries clamoring for protection today. Without reciprocity, the farmers and corporations of this Nation will soon lose access to the valuable markets they depend on to sell their goods. Such an approach turns trade, a positive-sum game in which all parties benefit from expanded economic opportunity, into a zero-sum game strangely reminiscent of a discredited, mercantilist past.

Expanding free trade is a way to improve the well-being of all Americans, particularly the working poor. The most basic economic analysis shows that tariffs represent an unfair tax on an already overtaxed public. Reducing barriers to trade is the equivalent of a tax cut for every consumer. Presidential trade negotiating authority was necessary in the past to reach the agreements from which Americans currently benefit. That same authority is needed for this administration and others to negotiate future agreements, to build on our prosperity.

By enabling the negotiation of bilateral and multilateral trade agreements, TPA will empower the President to eliminate trade barriers, reduce tariffs, and open foreign markets to American goods and services. American workers, farmers, businessmen, and consumers will benefit from the successful completion of the World Trade Organization negotiations in Doha, regional free trade agreements like the Free Trade Area of the Americas, and bilateral trade agreements such as those we hope to achieve soon with Singapore and Chile.

On a regional level, it is particularly urgent that we support our allies in the hemisphere by deepening our trade relationship with them, in order to advance broader American interests in Latin America. Let there be no doubt: the Andean Trade Preference Expansion Act is important to U.S. national security and the security of the democratically elected governments in the Andean region.

In 1991, former President Bush signed into law the Andean Trade Act. In a fresh approach to the war on drugs, he argued that promoting trade between the United States and the countries of the Andean region would expand their economies, create jobs outside the drug trade, and increase stability in the Andean region. After a decade in which democracy has taken root in these nations, these goals are even more important.

Although the original Andean Trade Act represented a modest effort—granting duty-free or reduced tariff treatment to a limited number of goods from Bolivia, Colombia, Ecuador, and Peru—it has produced many successes. Two-way trade between the United States and the Andean nations has more than doubled since 1991, and new industries have emerged as a result of the reduced-tariff benefits or the agreements.

In Colombia, for example, the fresh-cut flower industry has created over 150,000 new jobs. These people are now harvesting and planting flowers rather than trafficking illegal drugs. Similarly, in Peru, the benefits of the Andean Trade Act encouraged farmers to cultivate asparagus, creating 50,000 new jobs, and making asparagus that country's largest export crop to the United States. Today, farmers in the region are choosing to plant products to be exported under the Andean Trade Act, rather than coca. Our strategic goals in the region require us to build upon these successes.

The Colombia conflict lends particular urgency to the need for swift congressional action on Andean trade expansion. Not only are Colombia's people at risk from the FARC terrorists, Colombia's democracy is at risk from the corrosive effects decades of civil war have had on her institutions and her economy. The military and intelligence assistance America provides to Colombia is critical, but it is only a part of our policy response. We have an obligation to help our ally not only to defeat the terrorists, but to build the foundation for a lasting peace by supporting economic development in Colombia. Andean trade expansion provides a way to do that without costing U.S. taxpayers a dime.

The government of the region, burdened by the spillover effects of the Colombian conflict, are the most eloquent advocates for the tangible benefits provided by the Andean trade agreement. The group of nations that benefit from the act are critical to the hemispheric stability, prosperity, and democracy America has worked to foster in the region. These nations stand with us in wanting to end the economic despair and dislocation the Colombian conflict has projected across their borders. It is in America's interest to counter the economic destabilization that war has brought to Colombia's neighbors with the broad-based economic growth that represents the region's best hope.

The arguments that drive support for the Andean Trade Preference Expansion Act demonstrate how trade and development in the Andean region increase our national security. I hope the Senate will act swiftly on the ATPA, given the expiration of existing Andean trade preferences on May 16, as we accelerate our efforts to build prosperity and consolidate democracy in the region.

As we consider this entire legislative package, I would caution my colleagues against further efforts to restrict free trade. I hope we will avoid the temptation to support veiled protectionist measures in order to secure passage of this bill. We cannot, in good faith, work to promote trade liberalization with one hand while restricting it with the other. Such an approach will not further the expansion of global free trade. Indeed, it will only solidify the distrust of our allies and trading partners while doing nothing to increase the prosperity of the American people.

A critical component of this trade bill is how to develop the best possible solution for providing assistance to hard-working Americans who may lose their health insurance coverage as an unintended result of this legislation. This is a real concern and one that we must take seriously. However, we can't allow this issue to be politicized and used to deter the passage of this important trade bill. Both sides of the aisle have made significant progress toward a compromise. Now we must continue compromising until we iron out a fair and sound solution for addressing the health care needs of our Nation's workers.

Ensuring access to affordable and quality health care for all Americans must be a priority, and I commend each of my colleagues who are fighting for health care protections for workers possibly impacted by this bill. But this simply can't be done if partisan politics prevent us from working together to find a solution that is good for our workers and the overall quality of our health care system.

I look forward to this broad trade debate. I believe it is healthy for our Nation and our democracy for our leaders to make what is a compelling intellectual case for free trade, and to demonstrate to the American people how successful trade liberalization represents money in the pockets. We now have the opportunity to reverse the recent protectionist tide. It is time that we look to the future, consider the long-term interests of our Nation, and work urgently to provide the President with the authority he needs to negotiate for free trade.

Madam President, I reiterate, the situation in the four countries of Colombia, Ecuador, Bolivia, and Peru is such that we cannot delay, longer than May 16, passage of the Andean Trade Preference Expansion Act. I cannot tell you the problems that will result in that very delicate region of our hemisphere at that time if the Andean Trade Preference Expansion Act is not renewed.

Colombia is in serious trouble. Peru has only recently emerged from a very difficult period. Ecuador has been directly impacted by the conflict within Colombia. And, of course, Bolivia has had severe economic problems for a long period of time.

This is a small step but a very important one. And our failure—our failure—to act on this legislation I think would send a very bitter message to our friends and allies in our own hemisphere.

After passage of the North American Free Trade Agreement, America's goal was to have a hemispheric free trade agreement within a short period of time. Obviously we have fallen very short of that.

I look forward to a vigorous debate with my friend from South Carolina and my friend from North Dakota who just came to the Chamber. I hope this debate is based on our mutual concern for the workers of America, but that concern should also be balanced by our concern for the average working men and families in America who will find that goods and services are less expensive to them. History proves it. No, we don't like to see lumber workers or cotton farmers or wheat farmers or anybody else harmed by free trade. We can take care of that impact on our economy and still serve the greater good of our entire Nation.

I have had the great privilege of visiting South Carolina on many occasions. One of the greatest products of free trade is the BMW plant, which the Senator from South Carolina was instrumental in attracting to that great

State. It is always a privilege for me to go back and visit.

I yield the floor.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. HOLLINGS. Madam President, I thank my distinguished colleague from Arizona, ranking member and former chairman of our Commerce Committee.

The fact is, where we have that BMW plant, just 2 years ago, in Spartanburg County, we had 3.2 percent unemployment; it is now 6.1 percent. It is just an outflow, a stampede almost of the exportation of textile jobs in South Carolina. Since NAFTA we have lost 53,900 jobs. That is one of the things they are debating with respect to trade adjustment assistance to get health care. If you are going to have trade adjustment assistance, I certainly want to apply it to those lost jobs. They are out there struggling in the sense that almost, in a way, I don't have any more jobs to lose. I have to apply it to those because they are retrained and skilled.

I gave the example of Oneida, the little T-shirt plant where they had more than 400 employees with an average age of 47 years old, lose their jobs. So they trained them as expert computer operators, as Washington tells them to do. Who is going to hire the 47-year-old? They are going to hire 21-year-olds. So they are still out of a job. That is the desperate circumstance that is going on all over the country.

Mr. McCAIN. I thank my friend from South Carolina. He has the floor. May I ask unanimous consent for 1 minute to respond?

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCAIN. I say to the Senator from South Carolina, I know there are individual and heartbreaking stories of people who have lost their jobs in the textile industry in South Carolina. The fact remains that history and the record show that every American family, whether they are unemployed or employed or rich or poor, has benefited by the importation of less expensive goods and services into the United States. We balance this with assistance, training, in every way we can, including reaching agreement on health benefits for dislocated workers.

I never have sold anything to a grocery store. I bought a lot from grocery stores. I buy flowers a lot cheaper when they are grown in Colombia than when they are grown in South Carolina. It has never been my ambition for any child to grow up to work in a textile factory. I would much rather have them work in a BMW plant or high-tech factory or other kinds of employment for which we can provide the training and education.

I hope the Senator understands the fact that Americans have profited by free trade enormously. Yet we can still address the specific problems that result from dislocated workers. That is what free trade is all about. That is why I believe this Nation will continue to prosper when we have free trade agreements consummated between ourselves and our neighbors. We should be concerned about the economy of countries such as Colombia because their narcotraffickers can take over that country and export their goods, which are drugs, into this one.

I thank the Senator from South Carolina. I look forward to a renewal of our spirited discussion which we have had for many years, always marked by respect for the views of the junior Senator from South Carolina.

Mr. HOLLINGS. I thank the distinguished Senator from Arizona. There is no question that they are better jobs, but textiles are very good paying jobs at $10 and some odd cents an hour. Those are middle class Americans.

The Senator is correct, facts are facts. That is why this particular Senator, as Governor some 40 years ago, went to Europe to get that BMW plant. I didn't get BMW at that particular time. Since that time, in my travels to Germany, we now have in South Carolina 117 German plants in my little State. So, yes, we have gotten way better jobs. We have continued to work on that.

But I would just address a few comments with respect to the need for the trade bill. I heard my distinguished leader earlier today. He outlined the need for the trade bill. He said: Wait a minute, you have to understand, after all, these are just singular examples that I had given earlier in the morning's debate with respect to Vietnam and Jordan. Those are just one country. He said: But when you have multilateral countries, it is sort of hard to get them all together and then get an agreement, then bring it back to the Congress and have amendments.

Not so. The Andean trade agreement we are now discussing involves several countries. Without fast track, we have listed in the 2001 Trade Policy Agenda and 2000 Annual Report by the U.S. Trade Representative, some 100 different agreements. I have gleaned many of them. Of course, the African Growth Opportunity Trade Agreement, involved a few dozen countries. We got that without fast track. We told President Clinton we didn't want to abdicate our responsibility in regulating foreign commerce.

Article I, section 8 of the Constitution, says the Congress shall regulate foreign commerce. It doesn't say the President, or the Supreme Court, but the congressional branch, the legislative branch. We were not going to abdicate that authority, which we are being asked to do at the present time.

We didn't do it. And to refute that argument with respect to the multilateral requirements, the Caribbean Basin Initiative with nine countries; the chemical weapons treaty, of course, that we debated during the Clinton administration, there were over 100 countries; the semiconductor agreement with the European Union, the United States, Japan, and Korea, more than a dozen countries joined in that one without fast track; the telecommunications agreement with the Asia Pacific countries, that was more than a dozen countries involved there; the international tropical timber agreement with numerous countries, the United States; Central American Regional Trade Investment Agreement in November of 1998, there were nine countries; the WTO telecommunications agreement in 1997, that was some five dozen countries. So was the WTO financial agreement in 1999. I could go on and on.

Don't be sold a bill of goods about the difficulty of fine points and numerous countries. That happens right regularly, and that is why you have trade agreements, and that is why we have been able to get over a hundred during the past 10 years alone.

Now, Madam President, the next point that was made was that the United States has only 4 percent of the world's consumers. Of course, right to the point, the distinguished leadership is confusing the population with numbers of consumers. What we are really interested in is that 4 percent. Those who are opposing fast track are interested in those 4 percent of consumers because, unless you have a job and are making a living, we have consumers going out of business. That is the stopping, the cessation of consumption that has this economy in a funk.

I just had a gentleman, from SBC Communications, telling me how his stock had gone down. I said: Meet the group. MCI has changed leaders today. So you have all of these telecommunications companies that are high-tech, and more growth, and they are in a funk because we don't have manufacturing, we don't have jobs. We have been exporting jobs faster than we can possibly create them. The United States also has the most skilled and productive workforce in the world—what is left?

I pointed out here, with respect to the steel, that I commend President Bush for his recent actions. Mr. McNamara, the former Secretary of Defense and head of the World Bank, went running all around to the Third World emerging countries telling them they could not become a nation state unless they had steel—the capacity to produce steel for the weapons of war and the tools of agriculture. As a result, I look outside my office in Charleston at the dock, and they are off-loading Brazilian steel for construction all over the Southeast. Some 20 miles away is Nucor, the most productive, modern, competitive steel plant in the world. But how can they compete when the Brazilians are dropping steel off at less than cost on the dock there in Charleston. The rules are not being enforced.

What we need is not a free trade policy, we need competitive trade; we need to go back to the word itself—"trade"—something for something. Not aid. That is what the Andean thing is all about down there with Colombia, Ecuador, and Bolivia. They are saying: Look, get out of the drug business. That is what this initiative is about. Get out of the drug business and grow pineapples and bananas and that kind of thing.

I went and asked—in one of the meetings where I was getting a briefing in Bolivia a few years ago—what about this growing of pineapples. He looked at me and laughed. He said: You think I am going to struggle growing pineapples when I can get a little crop going and make a whole year's income in a week's time, when it would take a year with the pineapple crop, and have to worry about the weather?

He said: With these drugs, you don't worry about the weather.

Incidentally, he pointed out on the map an area as big as Georgia. He said: That is off limits for the Bolivian policy. We can grow anything we want to there.

Let's get into these trade agreements in depth and find out what is going on. The tail of the drug war is wagging the trade policy of America. I went up 14,000 feet to La Paz and they were chewing the drugs walking up and down the street. Oh, we had a wonderful thing. We had conquered a little bit of it. We had not conquered much. What was in Bolivia went into Colombia, and it gets into Peru and Ecuador—those four countries. The United States has one of the most open markets in the world. Well, that is exactly what they all argue, and everything else, that our open market is going to open their closed markets. In the 1990s, they argued that if we get these trade agreements, we will open the markets. We have yet to get into Japan or Korea.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. HOLLINGS. I ask unanimous consent—is the Senator from Arizona ready to speak?

Mr. KYL. I am. But if the Senator wants to close, that is okay.

Mr. REID. Mr. President, I yield from my time 10 minutes to the Senator from South Carolina.

Mr. HOLLINGS. I will complete this quickly.

Mr. DORGAN. Reserving the right to object, I ask unanimous consent to be recognized following Senator KYL's presentation.

The PRESIDING OFFICER. Is there objection?

Mr. REID. Reserving the right to object, I have to respond to Senator KYL because this deals with Senator LEAHY's committee.

Mr. KYL. Madam President, if I might suggest this: Probably Senator REID and I will have a colloquy over a series of unanimous consent requests that I will make. I will just count that on my time. When I am done, I will certainly have no objection to the Senator from North Dakota speaking.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. HOLLINGS. I thank the colleagues in the Chamber for allowing me to have a few more minutes. I wanted to make an important point.

Ten years ago, in 1992, they said that is what we needed, just exactly what they said—to open up the markets. We would get these agreements to open up the markets. So here is a booklet by the Special Trade Representative on foreign trade barriers, and it equaled some 262 pages. Now, after we have gotten the NAFTA agreement, which was to open up markets, and after we have gotten WTO, which is a multilateral agreement—incidentally, let's find out how many markets have been opened. The book now has gone from 262 pages to 455 pages. It has doubled.

We have doubled the foreign trade barriers. All these wonderful free trade agreements were supposed to open up the markets. You continually hear that, but that isn't what occurs. Twelve million export-related jobs are manufacturing jobs. There are less than 17 million manufacturing jobs left in the country. Manufacturing has gone from 26 percent of the workforce 10 years ago to 12 or 13 percent today. The export-related jobs pay 13 percent to 18 percent more. Definitely, the manufacturing jobs do pay more. The union jobs, in a general sense—such as the Longshoremen and the AFL–CIO—are the ones opposed to fast track, vigorously, because they are exporting their jobs out from under them.

The balance of trade—you cannot turn back the clock on trade any more than on technologies; namely, typewriters versus computers. This is the old argument about, wait a minute now, we went from the horse and buggy days to the automobile, and now in trade we are going from typewriters to computers.

Here is a sample of the U.S. trade deficit in the world. We have a $20 billion deficit in the balance of trade with computers. We have a deficit in the balance of trade with cellular telephones, pacemakers, night vision equipment and other telescopes, and electrocardiographs. I could go on and on. The idea that, son, you don't understand, we are moving into globalization, and we have moved now from typewriters to computers. I told the story years ago as a witness.

I was told: Look here, let them make the clothing and the shoes. We will make the airplanes and computers. The truth is they are making the shoes and clothing and the airplanes and computers.

Finally—and I am trying to close down for my distinguished friend from Arizona. In the 1990s, we liberalized trade and saw record economic growth and job creation, some 20 million new jobs created from 1994 to 2000, and without fast track.

I do not know who got these points up for the distinguished leader about why we need it, because, yes, we had wonderful economic growth, but we had that without fast track. That was due to another measure that we passed in 1993.

I thank the distinguished Senator, and I yield the floor.

The PRESIDING OFFICER (Mr. NELSON of Florida). The Senator from Arizona.

JUDICIAL NOMINATIONS

Mr. KYL. Mr. President, I appreciate the remarks of the Senator from South Carolina, and I ask that the record reflect my agreement with my colleague, Senator McCAIN, on this matter. Since I have agreed with Senator REID to discuss another matter, I will simply indicate at a later time I will make remarks concerning both the Andean trade bill as well as trade promotion authority.

There is another matter which is very timely. As a matter of fact, it is important we speak on it now because there is scant time to get some very important business done in the Senate, which has to do with the confirmation of judges but more specifically the holding of hearings on judges because they cannot be confirmed until there has been a hearing on them. For too many of our judges, we do not even have hearings scheduled.

It would be one thing if we waited 2 or 3 months after a nomination to schedule a hearing, but I am speaking of people who have been nominated now for almost an entire year and there has never been a hearing scheduled for them. I am going to take a minute or two to talk about who they are.

I will quote briefly from a Washington Post editorial and then propound a series of unanimous consent requests that will perhaps move us toward the hearings we need to get these judges confirmed.

Preliminarily, Democrats and Republicans can both cite a lot of statistics about judges confirmed under one administration or another, and can pat themselves on the back about a job well done. But it seems to me one thing stands out that is unmistakably clear, and that is when the President has nominated a distinguished American to serve on a Federal district court or, in this case, a Federal circuit court of appeals, and the Senate does not deign to give those people a hearing for over a year, something is wrong.

There is no excuse for holding someone for a full year. It has now been a year, minus 1 week, since the President made his first circuit court of appeals nominations, 11 in all. Eight of them have never had a hearing.

Quoting briefly from this Washington Post article of April 22:

> It has been nearly a year since President Bush nominated his first batch of judges.

Parenthetically, that was done on May 9, 2001.

> Of the initial group of 11 appeals court nominees, 8 have still not had hearings before the Senate Judiciary Committee. Two of these nominees are of particular local interest: John Roberts and Miguel Estrada. Both have been nominated to the D.C. Circuit Court of Appeals, which currently has 4 of its 12 seats vacant. Both, on the surface anyway, seem well qualified, having done extensive appellate work in the solicitor general's office and in private practice. Both have high profile bipartisan support. Yet neither has moved. And while Judiciary Committee Chairman Patrick Leahy has said that Mr. Estrada will receive a hearing this year, he has pointedly failed to promise the same for Mr. Roberts.

Skipping part of the editorial to two other quotes:

> Nominees should receive timely consideration out of deference to the President, out of respect for the institutional needs of the judiciary, and out of a sense of fairness to the individuals. But delays are particularly objectionable when nobody will even come forward to make a case against the nomination.

The final three sentences of the editorial:

> If there is a case to be made against either nominee, the onus is on opponents to make it and its proper forum is a hearing. If there is no case, the Senate should move to a vote. Either way, further delay is not the answer.

I ask unanimous consent that this Washington Post editorial dated Monday, April 22, 2002, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Apr. 22, 2002]

GIVE 'EM HEARINGS

It has been nearly a year since President Bush nominated his first batch of judges. Of the initial group of 11 appeals court nominees, eight have still not had hearings before the Senate Judiciary Committee. Two of these nominees are of particular local interest: John Roberts and Miguel Estrada. Both have been nominated to the D.C. Circuit Court of Appeals, which currently has four of its 12 seats vacant. Both, on the surface anyway, seem well qualified—having done extensive appellate work in the solicitor general's office and in private practice. Both have high-profile bipartisan support. Yet neither has moved. And while Judiciary Committee Chairman Patrick Leahy (D-Vt.) has said that Mr. Estrada will receive a hearing this year, he has pointedly failed to promise the same for Mr. Roberts.

Mr. Leahy is in a tough spot. He has taken a beating for his handling of judicial nominations, a beating that is largely unfair. The Senate has confirmed 45 judges since he took over the committee, which is a respectable pace. He certainly has not yet begun to match the obstructionism with which the same Senate Republicans who now criticize him managed the confirmation process while they were in charge of it. Neither, however, has he entirely restored dignity and fairness to it. Rather, like his predecessor Orrin Hatch (R-Utah), he is allowing individual nominness to sit around with no explanation for what are turning out to be long periods of time. These delays are hard to justify under any circumstances. Nominees should receive timely consideration out of deference to the President, out of respect for the institutional needs of the judiciary, and out of a sense of fairness to the individuals. But delays are particularly objectionable when nobody will even come forward to make a case against the nomination.

So far, anyway, nobody has made a serious case against Mr. Roberts or Mr. Estrada—neither of whom has an extensive public record of statements or writings to criticize. Liberal groups have complained that Mr. Roberts, as a lawyer for the government, helped write briefs that argued against abortion rights. The more general anxiety seems to be that both men are young, talented conservatives who could upset the D.C. Circuit's ideological balance. It is true that President Clinton's nominees to the D.C. Circuit were held up also—as, incidentally, was Mr. Roberts when he was initially nominated by the elder President Bush. But government by tit-for-tat is an ugly spectacle. If there is a case to be made against either nominee, the onus is on opponents to make it and its proper forum is a hearing. If there is no case, the Senate should move to a vote. Either way, further delay is not the answer.

Mr. KYL. I will indicate the names of these 8 nominees, and I will point out that of the 11 who were nominated by the President on May 9, 2001, 3 have been confirmed. Two of those were judges previously nominated by President Clinton, and I think that is interesting. The Judiciary Committee chairman is willing to move people who were nominated by President Clinton but not by President Bush. So when we talk about nominees of President Bush having been confirmed to the circuit court of appeals, remember that two of the three of this initial group were originally nominated by President Clinton.

The eight nominees who have languished before the committee are the following, and they are individuals all of extraordinary experience, intellect, and character:

John Roberts is a nominee to the DC Circuit. He is one of the leading appellate advocates in the United States, having argued 36 cases before the U.S. Supreme Court. He served as Deputy Solicitor General. I doubt there is another lawyer in this country in the Solicitor General's Office who has argued 36 cases before the U.S. Supreme Court.

Miguel Estrada is nominated to the DC Circuit. He has argued 15 cases before the U.S. Supreme Court, worked as a Federal prosecutor, as Assistant Solicitor General, and a Supreme Court law clerk. He came to America as a teenager, spoke virtually no English and, if confirmed, would be the first Hispanic ever to serve on the DC Court of Appeals.

Justice Priscilla Owen, who is a nominee to the Fifth Circuit, has served on the Texas Supreme Court since 1994. In her successful reelection bid in 2000, every major newspaper in Texas endorsed her.

Michael McConnell is a nominee to the 10th Circuit. He is one of the Nation's leading constitutional scholars and lawyers. His reputation for fairness and integrity has generated support from hundreds of Democrat law professors across the country.

Jeffrey Sutton is a nominee to the Sixth Circuit, another of America's leading appellate lawyers. He graduated first in his class from Ohio State Law School, has gone on to argue over 20 cases before the U.S. Supreme Court and State supreme courts, and served as the solicitor in the State of Ohio.

Justice Deborah Cook is also a nominee to the Sixth Circuit. She has served as a justice on the Ohio Supreme Court since 1994 and, before becoming a judge, was the first woman partner at the oldest law firm in Akron, OH.

Judge Dennis Shedd, a nominee to the Fourth Circuit, was unanimously confirmed to be a Federal judge in 1990. He is strongly supported by his home State Senators, Democrat HOLLINGS of South Carolina and Republican THURMOND of South Carolina. He served in the past as chief counsel to the Senate Judiciary Committee.

Finally, Judge Terrence Boyle, a nominee to the Fourth Circuit, was unanimously confirmed to be a Federal district judge in 1984. The former chairman of the State Democratic Party supports Judge Boyle's nomination, stating that he gives everyone "a fair trial."

On January 25, Judiciary Committee Chairman LEAHY indicated that Justice Priscilla Owen, Michael McConnell, and Miguel Estrada would receive hearings this year. Each has waited nearly a year for a hearing and more than 2 months for a hearing since this statement.

Chief Justice Rehnquist recently stated that the present judicial vacancy crisis is alarming and, on behalf of the judiciary, implored the Senate to grant prompt hearings and to vote these nominees up or down.

I conclude by showing two things. On this chart it shows the President's rate of judicial confirmations by the Senate, comparing President Clinton and President Bush. The red line ends at exactly 11 months after each President nominated his first nominees. These are both district and circuit court nominees.

By the end of 11 months, President Clinton had 67 percent of his nominees confirmed. President Bush, 11 months after his first nominee was made, only had 44 percent of his confirmed. At the end of 14 months, as it shows, President Clinton had 90 percent of his nominees approved—14 months after the first nomination was made. At the rate we are going, President Bush will be lucky to have 50 percent.

Let's be specific about circuit court nominees because I think this is even more telling. This chart shows the circuit court confirmation rates by the Senate. Again, after 11 months, President Bush has had 31 percent of his circuit court nominees approved by the Senate. By contrast, 63 percent of President Clinton's nominees were approved to the circuit courts after 11 months, and 14 months after he made his first nominee, 86 percent of President Clinton's nominees had been approved by the Senate. At the rate we are going now, we are obviously not going to get to 86 percent. We cannot get the confirmation until we have had a hearing. It would be reasonable to expect hearings to be held on the eight nominees within a year of the time they were nominated. Whatever the record of success, whatever the number of hearings that have been held for district court nominees, whatever else one might say, there is absolutely no excuse for not even scheduling a hearing on a circuit court nominee for a full year after that nominee was nominated by the President.

UNANIMOUS CONSENT REQUEST

I have a unanimous consent request to propound, and I expect a fulsome response from the Senator from Nevada. I ask unanimous consent no later than May 9, 2002, the Judiciary Committee shall conclude hearings on each of the eight nominations remaining of those made by President Bush on May 9, 2001, to the United States Circuit Court of Appeals.

Mr. REID. Mr. President, reserving the right to object, I have a number of things to say. I don't mean to detain people unnecessarily, but I don't think this is unnecessarily. I will take some time. The Senator from Arizona is welcome to stay or not. I have something I want to say regarding this issue.

One thing I want to say in my reservation, and I will save the rest as I get the floor, I have the greatest respect for my friend from Arizona, a man who is an outstanding lawyer. I knew of JON KYL's legal reputation in Nevada. I knew of him in Nevada because of his reputation in Arizona as a lawyer. He was good at a lot of things.

One of the things we look to JON KYL for with respect is his great knowledge of water law. In the arid Southwest, when a lawyer understands water rights, someone in the legal profession, someone who bears a standard, one whom others look up to—not many people know water law.

The point I am trying to make is that the Senator from Arizona is a fine lawyer. He is a fine Senator. But I want to remind him as to one of the things he spent a little time discussing today, the DC Court of Appeals—Senator KYL discussed the need to fill vacancies in the DC Circuit—President Bush has nominated two people to the circuit court. Because they have been nominated by President Bush, my friend from Arizona, the lawyer whose credentials I have already established, has changed his tune. Lawyers can do that. When they do, sometimes you have to bring it to them.

On March 19, 1997, for President Clinton we were trying to get approved a man by the name of Merrick B. Garland, a lawyer from Maryland, to be a U.S. Circuit judge for the District of Columbia.

The Senator from Arizona said, among other things, when responding to Senator SESSIONS: Like my colleague from Alabama, my colleague from Iowa, and others, I believe the 12th seat on this circuit does not need to be filled. I am quite skeptical that the 11th seat, the seat to which Mr. Garland has been nominated, needs to be filled, either. The case against filling the 12th seat is very compelling and it makes me question the need to fill the 11th seat.

He goes on to say: In the fall of 1995, the court subcommittee of the Judiciary Committee held a hearing on the caseload of the D.C. Circuit. Judge Silberman pointed out that the courtroom normally used for en banc hearings seats only 11. In other words, that is all they can accommodate.

Mr. President, the Senator from Arizona, 4 or 5 years ago, thought there was no need to have these seats filled in this circuit court. But he has changed his tune now because we have a different President.

For this and other reasons, I object.

The PRESIDING OFFICER. The objection is heard.

Mr. KYL. Mr. President, I very much appreciate the kind remarks that the Senator from Nevada made about my law career, and I do appreciate that sincerely. He knows of my affection for him.

Before I make my next request, I point one thing out with respect to what the Senator from Nevada said about my opposition to filling the 12th position on the D.C. Circuit Court of Appeals. At that time, there were two vacancies. He correctly read my remarks. I said I didn't think we needed to fill the 12th, and I had questions about the 11th. But there are now 4 vacancies, and I don't think there is any doubt we need to fill numbers 9 and 10. When we get up to No. 11, maybe I will have a question still, and I might even not support filling the 12th. But that was a totally different situation because we were talking about the 12th and final vacancy.

Here we have four vacancies, and I have advocated that we fill two of them.

In view of the objection that was heard, let me ask my colleague if he would agree to the following, and I propound this request: I ask unanimous consent no later than May 9, 2002, the Judiciary Committee will conclude hearings on at least seven of the eight remaining of those nominations made by President Bush on May 9, 2001, to the D.C. Circuit Courts of Appeals.

Mr. REID. Reserving the right to object, I don't often smile on the Senate floor, but I really have to smile at this request. The reason I do that is I had a Senator come up to me today and say: Why are we voting on all these judges? We voted on four judges last week. We voted two judges today.

I have other things I will say, but I object.

The PRESIDING OFFICER. The objection is heard.

Mr. KYL. Mr. President, I appreciate the objection.

We have voted on several judges. I am talking about holding hearings on judges nominated over a year ago, not voting on them; just holding a hearing and trying to hold the hearings before the anniversary day.

In view of that objection, let me propound this request: That no later than May 9, 2002, the Judiciary Committee shall conclude hearings on at least six of the eight nominations remaining of those made by President Bush on May 9, 2001, to the U.S. Circuit Courts of Appeals?

Mr. REID. Mr. President, we could go through 6, 5, 4, 3, 2, 1. I object.

I reserve the right to object in this instance because the Judiciary Committee is working very hard. Let me lay the foundation.

Senator LEAHY became chairman of the Judiciary Committee. In fact, we didn't organize—he became chairman sometime in July or August—because we had trouble getting the organization going after we took control of the Senate. Immediately after he became chairman of the committee, however, 9–11 occurred, and a short time after that, anthrax in Senator DASCHLE's office basically closed up one office building and that took care of half the Senators.

In spite of 9–11, the new leadership role that Senator LEAHY obtained, and the anthrax scare, he went ahead and held all kinds of meetings of the Judiciary Committee. I attended one in the basement of the Capitol. There we had a circuit court judge, Judge Pickering. I remember that very well because I had one of my Nevada judges there. I testified for my judge. It was very crowded. Senator LEAHY was commended, as he should have been, for holding the hearing. There was really no room.

Senator LEAHY has gone to great lengths to make the Judiciary Committee one that functions well. I will lay out in some detail what he has done to maintain the Senate's proper role in the selection of judges. Remember, the Judiciary Committee had the lead role in a number of other very important items following September 11. The work that we did with antiterrorism legislation was all done in the Judiciary Committee. Senator LEAHY, with his counterpart, Senator HATCH, worked night and day for weeks to get that done. We finally got it passed. It took an inordinate amount of time.

I say to my friend from Arizona, with the deepest respect, Senator LEAHY and the Judiciary Committee are going to hold hearings. They have already held hearings.

As I have said on this floor on a number of occasions: This is not payback time. If it were payback time, we would not have already approved 52 Federal judges since Senator LEAHY took over that committee. But we have approved 52 Federal judges.

If it were payback time, we would not be holding any hearings. Remember, we had judges who waited more than 4 years for a hearing. We are not going to do that.

People who are selected by the President of the United States to be judges, whether they are trial court judges or circuit court judges, are going to have hearings. I assume there would be some exceptions, but I can say, with little reservation, Senator LEAHY is going to hold hearings for all these people and in as timely a fashion as he can.

I therefore object.

The PRESIDING OFFICER. Objection is heard.

Mr. KYL. Mr. President, in deference to the Senator from Michigan who is here, I gather, to speak, instead of going through the numbers of 5, 4, 3, let me just see if I could get my colleague to agree to this because we do have a full week left. I am a member of the Judiciary Committee, and I can tell you, we have not been that busy. We have had plenty of opportunities for hearings. These eight nominees have been sitting around for a year, and none of them has had a hearing. We could easily have a hearing for two of these nominees before the anniversary date of 1 year from their nomination by the President.

I ask unanimous consent that no later than May 9, 2002, the Judiciary Committee shall conclude hearings on at least two of the eight nominations remaining of those made by President Bush on May 9, 2001, to the U.S. Circuit Courts of Appeals.

The PRESIDING OFFICER. Is there objection?

Mr. REID. Reserving the right to object.

The PRESIDING OFFICER. The Senator reserves the right to object.

Mr. REID. Mr. President, I can assure the Senator from Arizona and anyone within the sound of my voice that Senator PAT LEAHY is going to do the very best he can in holding hearings for all nominees, not only circuit court but trial court judges. As to whether or not he can complete two judges within the next week—the next 9 days is what it is because tomorrow is May 1—I really cannot tell Senator KYL whether that will take place.

But I know the Senator from Vermont is going to do the best he can. I heard him in a conversation today, right here. He was right here because he was at the leader's desk this morning talking about the judges whom we approved. I heard him talking to a Senator regarding a circuit court judge, that he would do a hearing in the immediate future. Immediate is pretty quick. I know that will be done.

With respect and the knowledge that Senator LEAHY is going to move it forward as quickly as he can, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. KYL. I think I know the answer to this, but it would certainly be possible for us to have a hearing on one nominee. As a member of the committee, I think it is doable, I can tell you. I think it is only fair that Senator LEAHY pick out one of these people and have a hearing for him or her 12 months after their nomination.

So, out of desperation, I ask unanimous consent that no later than May 9, 2002, the Judiciary Committee shall conclude hearings on at least one of those nominations remaining of those made by President Bush on May 9, 2001, to the U.S. Circuit Courts of Appeals.

The PRESIDING OFFICER. Is there objection?

Mr. REID. Reserving the right to object, my friend should not be desperate. This is not a desperate situation. I am not on Senator LEAHY's committee. I can't speak for his committee. But I have some responsibility to try to see that the Senate operates in an orderly fashion, especially things that go on here in the Chamber. I am convinced Senator LEAHY will do everything he can to move these men and women forward who have been nominated.

Remember, I am sure we have had at least 52 hearings. We have 52 judges who have moved forward during the last few months. That is pretty good. So it is not as if there is a so-called stonewall. He is doing the best he can.

I say with some degree of apology to my friends from Michigan and Kansas, I am going to speak for a few minutes on the judges situation, so I think they should rest their legs for just a little bit because I am going to speak.

The PRESIDING OFFICER. Is there objection?

Mr. REID. Yes, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. KYL. Mr. President, I guess in light of this last objection, as the lawyers say, I will rest my case. I think I have made my point. I hope we can have this conversation again in the next 2 days. Having had an opportunity to confer with Senator LEAHY, I hope the Senator from Nevada will have better news for us, but especially for the eight nominees who have been languishing now for a full year, and we can quickly move to have a hearing on at least some of those nominations.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. KENNEDY. Will the Senator yield?

Mr. REID. I am happy to yield without losing my right to the floor.

Mr. KENNEDY. Mr. President, I ask unanimous consent that we consider an increase in the minimum wage no later than June 15.

The PRESIDING OFFICER. Is there objection?

Mr. KYL. Yes, Mr. President. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. KENNEDY. I think I made my case.

The PRESIDING OFFICER. The Senator from Nevada, the assistant majority leader.

Mr. REID. Mr. President, I ask unanimous consent to speak as in morning business and the time count against the 30 hours, postcloture.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, just last week, as I indicated, the Senate confirmed its 50th judicial nominee. Today we got two more judges. This has happened in less than 10 months since the change in majority. More of President Bush's judicial nominees have been confirmed in less than 10 months than were confirmed in all 12 months of 4 of the 6 years Republicans controlled the Senate.

I have always been very dubious of numbers because even as one who did not have a degree in engineering or did not do much in the way of math in high school or college, I can still do a lot of things with numbers. We can manipulate numbers—you know that is easy to do. We can have all kinds of numbers games. I will run through a few numbers here this evening on judges.

The thing I want everyone to know is that Chairman PAT LEAHY is an honorable man. He represents a very small State in population, the State of Vermont. He takes a very close look at everything that affects Vermont. He does a great job for Vermont.

One reason I have so much respect for Chairman LEAHY is his view is of more than the State of Vermont. He has a national view. He has been a Senator for a long time, the first Democratic Senator ever elected from the State of Vermont.

He has been able to represent that State so well, but also do a good job for our country. A lot of times that is not easy to do, but he has done that.

He has been chairman of the Agriculture Committee. I served on the Appropriations Committee. He has been chairman of that very volatile Subcommittee on Foreign Operations, foreign aid—the committee from which people run. He doesn't run from that or anything else. He is a very courageous man, PAT LEAHY.

I only say that because we can do all kinds of things with numbers. My friend on the other side of the aisle can bring out fancy little charts and say this happened. I can bring them here and talk about what has happened. But I want everyone to look for just a minute in their mind's eye at PAT LEAHY. Does he want to leave a legacy in the Senate that he was the kind of person who would not approve people who are qualified lawyers who want to become Federal judges? The answer is no.

PAT LEAHY also before he came here was a prosecutor, a lawyer. He was a good one. He was a young man. But that is why he got elected to the Senate, because he was a great prosecutor.

Look at PAT LEAHY a little bit. Put yourself in his role. He wants to be recognized as somebody who runs the Judiciary Committee in a fair manner. I do not know of anyone who could question his honesty, his integrity, and therefore I say let's not really worry about all these numbers.

I can make a case with numbers. I think he has done more than he physically should have done, because it has just been so hard for him to do that. I talk about the committee hearing. My colleagues complained that we have only approved—I don't know how many circuit judges he said. But we had hearings on them. Pickering had a hearing. He couldn't make it out of committee. That is more than they gave our people.

He said some people on May 9 will have waited a year. Well, that is too long, and I recognize that. But it is not 4 years.

More than 50 of President Clinton's nominees never even got a vote. Others waited years to be confirmed. Still others languished for years and many months before a hearing and then no vote. They had hearings and never had a vote in the committee. The Judiciary Committee never voted. Where were the Republican voices of concern then?

Under Republicans, total court vacancies rose from 63 in 1995 to 110 in July 2001, when the committee reorganized, and circuit vacancies more than doubled from 16 to 33. The Republicans caused all the vacancies about which they are now complaining.

I had a big murder case when I practiced law. A young man shot his two parents. It was a very serious case, to say the least. But today people still joke about that case. There isn't anything to joke about. It is the old standard joke that you have heard a thousand times: He was now an orphan. He pled for the mercy of the court because he was an orphan. He killed his parents.

That is about what we have here. Republicans caused these vacancies. Vacancies continue to exist on the courts of appeals, in part because a Republican majority wasn't willing to hold a hearing or vote on more than half—56 percent—of President Clinton's circuit nominees in 1999 and 2000, and was not willing to confirm a single circuit judge during the entire 1996 session.

This is like somebody who kills his parents and then asks for mercy. They ask for mercy because they are an orphan.

They helped create these vacancies.

I repeat: On more than half—56 percent—of President Clinton's circuit nominees in 1999 and 2000, the Republicans were not willing to hold hearings and vote on them. In 1996, not a single circuit judge was confirmed. Some of the vacancies they are talking about go back to 1990, 1994, and 1996. They refused to fill the vacancies.

Under Senator LEAHY's leadership and Senator DASCHLE's leadership, judicial vacancies are going down, with 50 judges confirmed—as I indicated last week, it is now up to 52—including 9 circuit judges. That is more than were confirmed in all 12 months of 4 of the 6 years of Republican control. As of April 29, there were 90 vacancies, and 29 of them were circuit.

The Senate has already devoted a week in March to Senator LOTT's amendment, No. 3028, to the energy bill. One reason it took the energy bill so long is we had a week of time on the sense-of-the-Senate resolution demanding that those nominated last May 9 have a hearing by May 9. The Senate, of course, rejected this, as it should have done. An almost unanimous Senate supported, instead of the second-degree amendment to that resolution, the committee's continued fair treatment of judicial nominees and its efforts to schedule and hold regular hearings on judicial nominees.

That is what we said we would do. That is what Senator LEAHY is doing. The Judiciary Committee has continued its efforts in accord with the Senate resolution which passed this body. The Judiciary Committee held 17 hearings involving 61 judicial nominees. That is more hearings on judges than the Republican majority held in any year of its control of the Senate. They were considered en bloc form rather than one or two at a time. In effect, we have had at least 54 hearings.

I say that really skewing numbers a little bit because in some hearings more than one person was brought before the committee.

That is more hearings on judges than the Republican majority held in any year of its control of the Senate.

I repeat: The Judiciary Committee had 17 hearings in less than a year, and that is more than held in any year of the Senate when the Republicans controlled it.

Rather than berating the Judiciary Committee, I commend Senator LEAHY and the members of that Judiciary Committee for doing the good work they have done. Remember, they have more responsibility than just approving judges. The Republican leadership never followed a "first in, first out" rule. As the former chairman said in 2000, "If nominees were only considered in the order they were nominated, the process would grind to a halt as more qualified nominees would back up behind the questionable nominees." That makes sense.

The Democratic leadership has been working hard to process the nominations of qualified, noncontroversial nominees to address the vacancy crisis caused by previous Republican obstruction and inaction.

We are carefully reviewing the records of those nominated last May, as well as other nominees. All but one of those nominated last May 9 were chosen by the President without any consultation with both parties in the Senate. In spite of that, we have already expedited and confirmed three of them.

One of the May 9 nominees lacks home-State consent. Surely the minority is not suggesting overriding the Senate tradition of consent or what we call blue slips from both home-State Senators. Senator ORRIN HATCH—a dear friend—would never agree to that when he was chairman. He would never consider that. The other seven appear to be relatively more controversial nominees who require a great deal of background research. They will have hearings, but more work needs to be done. If the committee fails to do this thorough investigation of these men and women who would serve for life, it fails its job to the rest of us.

When these nominations come here, I depend on the Judiciary Committee. I am not a member of that committee. I assume that if there is a problem with one of them, someone is going to provide that for me. If they don't and something comes up later, I am going to be very upset, as well as Senator LEAHY and the other members of that committee. They need to take the time to do the job right.

Five of the May 9 nominees were nominated to seats that have been held vacant for years and years by Republicans. Well-qualified Clinton nominees to those seats were blocked by Republicans, including two well-qualified gentlemen active in the Hispanic community in Texas: Enrique Moreno and Judge Jorge Rangel; three distinguished lawyers from the African-American community: James Wynn and James Beatty of North Carolina, and Elan Kagen; and other nominees with equally outstanding credentials, such as Kent Markus of Ohio and Allen Snyder of the District of Columbia.

I would like to take just a little bit of time to pay our colleagues, our Republican counterparts, the courtesy of making sure that this request for unanimous consent for immediate action on Bush nominees is OK with them, including the anonymous Republican Senators who held up votes on Clinton nominees such as Bonnie Campbell, Judge Margaret Morrow, and many of the circuit court nominees who languished for years without ever receiving even a vote in committee.

The deep concern now expressed about vacancies was oddly silent when the minority—then the majority—was blocking more than 50 judicial nominees.

Some Republicans held these seats open for years for another President to fill. That President is President Bush. They wanted to save these seats for a Republican President. Maybe some thought these would be judicial activists for their agenda and would tilt the balance of numbers on these circuit courts to give Republican appointees a majority, with the hope of winning through these activists what they were not been able to win at the ballot box.

One of the people for whom I have the greatest respect—he is my friend, he has great Nevada roots, and he has all kinds of family in Nevada—is Karl Rove, a close confidant of the President. He has given speeches to conservative groups talking about he wants what he refers to as conservative judges. He has a right to say that. But that is why Chairman LEAHY has an obligation to look and make sure these people are qualified and that they have more credentials than just simply being conservative.

Advice and consent does not mean giving the President carte blanche to pack the courts. The committee's evaluation of nominees is a critical part of the checks and balances of our democratic Government that does not give the power to make lifetime appointments to one person alone to remake the courts along narrow ideological lines, to pack the courts with judges whose views are outside of the mainstream, and whose decisions would further divide our Nation.

President Bush has singled out Justice Scalia and Justice Thomas, the Supreme Court's most conservative Judges, as model Judges. Well, isn't it interesting he would do that. He has chosen Scalia and Thomas as model Judges. I wonder if that had anything to do with the decision they made dealing with Florida when they, in effect—there are not only articles written—lots of those—but there are books written of how Scalia steamrolled the other Judges. And Scalia elected George Bush President. Well, no wonder he thinks he is a model judge. I think if he selected me as President, as he did President Bush, I would also probably think he was a model.

The committee is acting responsibly. The Judiciary Committee, led by PAT LEAHY, is acting responsibly in its consideration and scheduling of nominees. We would be able to move more expeditiously on nominees if the White House were acting in a bipartisan way, by nominating more consensus nominees to these lifetime judgeships, conferring with the Judiciary Committee, conferring with home State Senators.

Even with the partisanship of the White House and the Republicans, Senator LEAHY's Judiciary Committee has had more confirmations of circuit court nominees in less than 10 months than were confirmed in a similar period for Presidents Reagan, Clinton, and the first President Bush.

Nine circuit court judges—consensus nominees—have been confirmed in less than 10 months. This is more confirmations of circuit nominees of President George W. Bush than in the first 10 months of the Reagan, Bush I, and Clinton administrations combined.

We also have the best pace of confirmation in recent history. The Democratic-led Senate is averaging 5 confirmations per month, as compared with 1.6 per month during Bush I, and 3.1 per month and 3.6 per month for President Clinton and President Reagan, even though they had Senate majorities from their own party.

So that is why I have objected to these motions. Chairman LEAHY and the Senate Judiciary Committee should be commended for reforming the process and practices used during the 6½ years of Republican leadership. We are holding more hearings for more nominees than in the recent past. We have moved away from the anonymous holds that so dominated the process from 1996 through 2000. We have made home State Senators' blue slips public for the first time.

The Democratic leadership and Majority Leader DASCHLE should be commended and not attacked with these unfair claims and motions.

Mr. President, I apologize to my friends, especially the Senator from Michigan, whom I know wishes to address the Senate. I also apologize and extend my deep appreciation to the Senator from Florida for his usual courtesy in remaining in the chair so the Senator from Michigan can speak. I am personally very grateful to the Senator.

The PRESIDING OFFICER. The Senator from Michigan.

Ms. STABENOW. Mr. President, first, I indicate to our leader from Nevada that he is certainly welcome to take whatever time is necessary to talk about this very important issue and to set the record straight. I very much appreciate the Senator being able to do that in such articulate terms so that it is very clear that we, in fact, are moving ahead in a way that, frankly, has been unheard of when we have had a President of one party and the Senate majority of another party in terms of confirming judges.

So I certainly associate myself with the Senator's comments and very much appreciate his advocacy.

PRESCRIPTION DRUGS

Mr. President, I rise this evening to speak about an issue that is incredibly important. It is probably one of the most important challenges facing our families today; and that is the question of the cost of prescription drugs.

I cannot think of a more important issue facing older Americans, who, on average, use 18 different medications in a year, or a more important issue facing families, who, for example, may have a disabled child, or a more important issue for anyone who is struggling and does not have coverage under their insurance policy for prescription drugs.

We know that right now, even as we are at the dinner hour on a Tuesday evening, there are seniors who are sitting down at their kitchen table and deciding: Do I eat supper or do I take my medicine?

We are the greatest country in the world. I say shame on us for our inability to address this issue and to have a Medicare prescription drug plan that lowers the costs for everyone. This is an issue that now touches every part of our economy.

Today, I met with the leadership of Michigan Blue Cross-Blue Shield. Yesterday, I met with people who are involved with hospitals and home health care agencies and nursing homes.

I meet with small business owners who cannot afford to keep their insurance for their employees because the costs are going up 30 percent, 40 percent a year, and the majority of that is the uncontrolled costs of prescription drugs. I meet with the big three automakers, and I hear the same thing.

These costs are out of control. There is no accountability, and it affects every part of our economy and the lives of too many Americans.

So I rise this evening to ask our colleagues on the other side of the aisle, and to ask the President of the United States, to join with us in a serious effort—not words, not efforts that look as if they do something on paper but do not really solve the problem—but to join with us in a serious effort to provide a comprehensive prescription drug benefit under Medicare that is long overdue, and to join with us in a number of issues and a number of strategies to lower the costs of prescription drugs for every American.

I find it extremely frustrating, when we know that American taxpayers underwrite much of the research—certainly the initial basic research through the National Institutes of Health for new prescription drugs, new technologies, new cures—and I certainly support that. I support the fact that we allow research tax credits and deductions. And taxpayers subsidize those efforts as well. It is important for us.

But I am very frustrated that after we have patents that are given for 15 years, 20 years, to companies to recoup their costs, when they do not have to have competition, we create a way for them to come up with these new, wonderful drugs that are lifesaving, and yet, at the end of the line, Americans pay more than anyone in the world—and that is not an exaggeration—for those drugs. If someone is uninsured, Heaven help them—which the majority of seniors are in this country—because when they walk into the pharmacy, they are paying the highest prescription drug price of anyone in the world.

Tomorrow, we are going to start Older Americans Month. And I say again, shame on us for not addressing this issue in a comprehensive manner.

I ask my colleagues to join with us in a number of efforts. One, we want to make sure that generic drugs are more available and that we close loopholes that are now used by the companies to change patents or do other things that stop generics from coming on the market even though it is the same—a very comparable drug—at a dramatically reduced price. We certainly have legislation right now in the Senate which Senator SCHUMER and Senator McCAIN have put forward that needs to be addressed.

We also need to do something about the explosion of advertising. Since the FDA changed the rules a number of years ago on direct consumer advertising, I daresay you can't turn on your television set in any 5-minute increment and not see at least one advertisement for a prescription drug. They are nice ads. Many of them are very pretty. But we pay a heavy price for that advertising.

We also pay a heavy price for the promotions that are going on in the doctors' offices and all of the effort that goes into this question of advertising rather than putting the money into research for more lifesaving drugs.

We want to address that in the Senate, and we ask our colleagues to join with us to stop this spiraling situation where right now there is twice as much being spent on advertising in this country, advertising and promotion of prescription drugs, than on research to create new lifesaving drugs. We intend to put forward proposals to do that in the next week.

I specifically wish to talk for a moment about S. 2244, an effort my colleague from North Dakota, Senator DORGAN, and many of us have joined in to provide another way of creating cost savings; that is, to open the border to Canada. I find it ironic that at the time we are creating open trade, fast track, a trade bill on the floor of the Senate, we have in place walls at the border of Canada. And coming from Michigan, where it is 5 minutes across the bridge, 5 minutes across the tunnel, this is a very real wall where we are told, based on legislation passed back in the 1980s, that even though you can get your medications made in America, FDA approved, safe drugs, my citizens in Michigan or those from Florida or anyone cannot go 5 minutes across that Ambassador Bridge or that tunnel and lower their cost because of a law that was put in place to protect our companies from competition.

We believe, those of us who have put forward S. 2244, that the wall needs to come down. If we are going to talk about open trade, we should not close trade. We should not be allowing lack of competition on prescription drugs. If we did that, we could see amazing changes immediately. It would not cost money other than probably a small amount as it relates to the FDA. We are not talking about any large sum of money to be able to open the borders and immediately we could lower costs 40 percent, 50 percent or more.

I took two different bus trips to Canada to demonstrate, as other colleagues have, the cost differences, working with the Canadian Medical Society, going through a Canadian physician and a Canadian pharmacy to demonstrate the differences in the prices for prescription drugs. I wanted to share with you some of those differences.

Zocor is a drug for high cholesterol. In Michigan, it is $109 a month for the prescription; it is $46.17 in Canada—$109 versus $46.

Even more dramatic is Tamoxifen. We had women on our bus trip with breast cancer. In Michigan, they are paying $136.50 a month for Tamoxifen. In Canada, they purchased it for $15.92—$136 versus $15.

There is something seriously wrong when our citizens are having to pay such a large amount of money when compared to other countries, particularly our Canadian neighbor to the north, and at the same time they are having to juggle all of the other expenses in their life, and many people are not being able to purchase Tamoxifen or Zocor or Prilosec, all of the other drugs where there is such a disparity.

I invite colleagues tonight to join with us in supporting S. 2244, to become cosponsors, to join with us in an effort to say that we are going to open the borders; we are going to create competition; and we are going to make sure Americans who underwrite so much of the cost of the new medications being developed every day have the opportunity to get the very best price.

We need to do that. It is long overdue. From my perspective, there is no excuse at this time not to proceed to support this effort to open the border, to create new opportunities for generic drugs, to make sure we are addressing the high cost of advertising and to put some sense around that, and promoting research rather than more advertising. These are all items that need to happen, and they need to happen now.

My biggest concern is that we don't have the same sense of urgency in the Congress that I hear from my own family, from neighbors and constituents I represent in Michigan. This is not a theoretical debate. This is real. This is about whether or not people will be able to live longer because they can benefit from the medications being developed with the help of taxpayers or whether they are going to struggle every day to decide whether to eat, to pay the utility bill, or to get their medicines they so desperately need.

We can do better. Our older citizens, our families, our children, our businesses wanting to cover their employees for health care costs deserve better. We have an opportunity to do that in the Senate and to say to everyone: We have really done something that will make a difference in the lives of the people we represent. I suggest the time is now.

I yield the floor.

(Ms. STABENOW assumed the chair.)

The PRESIDING OFFICER. The Senator from Florida.

Mr. NELSON of Florida. Madam President, I wanted to echo the eloquent comments the Presiding Officer, speaking in her capacity as the Senator from Michigan, has spoken about, a problem that is so rampant today.

Medicare was designed 37 years ago in 1965. Think of the condition of health care at that time. It was centered around acute care in hospitals. Thus, as we designed the system which would be a health insurance system for senior citizens to assist with medical expenses, what were most of the medical expenses? In 1965, they were expenses that were attendant to hospital care and physician services that often occurred in and around the hospital. Medicare Part B was set up for additional expenditures, primarily physician expenditures. That has served our senior citizens so very well, as a health insurance system at the time that they knew they needed health care, when, as we get older, things don't quite work as they did when we were 21.

Over that 37 years we have had these wonderful, I call them, miracles of modern medicine that have occurred through technology, through research, through the ingenuity of American enterprise. And as a result, we now have a health care system that produces prescription drugs that can often cure our ailments when compared with the state of medical care 37 years ago.

I talk about that little bit of history to follow the comments of the Senator from Michigan because it is instructive for us as to why we need to modernize the Medicare system 37 years later and now provide a prescription drug benefit.

There is no question in the State of Florida, with our abundance of wonderful, vibrant senior citizens, that people want Medicare modernized with a prescription drug benefit. Clearly, in the election of 2000, I talked about it, and I know both of the candidates for President talked about it in the State of Florida—indeed, they had signed up to the idea that we were going to be spending—then the figure was $300 billion to $350 billion over a 10-year period. That is what was thought to be the expenditures to give a fairly substantial Federal Government investment for providing prescription drugs to those who were eligible as senior citizens under Medicare. And here we are, a year and a half after that election, and we still have not enacted it.

The administration has come forth with a proposal for $190 billion over 10 years. That is not going to cut it because that is not what was promised. With the explosion of the cost of prescription drugs, the cost of that prescription drug benefit over the next decade might well be in excess of the $300 billion to $350 billion that we talked about during the campaign of 2000. So we ought to be addressing it here.

In the meantime, the Senator from Michigan has pointed out other ways that we can start addressing the cost of prescription drugs. Why could we not address a system by which we could suddenly pool the various needs and start buying in bulk and, therefore, bring down the cost per unit? That is a common economic principle. So as we approach a discussion of whether we are talking about trade or whether we are talking about judicial appointments, we need to constantly remind people about the promises and the expectations in the election for President in the year 2000, and those statements were very clear in the State of Florida, which became so critical for the outcome of the election.

ANDEAN TRADE

Madam President, since we are on the trade bill, I want to make a few comments about a tremendous dilemma that I have with regard to this trade bill. I am a free trader. I am for free and fair trade. That has basically been the kind of voting record that I have had in the last year and a half. I believe that a State such as my State, Florida, which is so affected by being not only a microcosm of America but now so much of a microcosm of the Western Hemisphere, will benefit economically by free and fair trade.

The dilemma in which I find myself, as does my colleague—my senior colleague, wonderful colleague, Senator BOB GRAHAM—is that the very premier industry of Florida, the citrus industry, the very industry whose symbol graces all of our license plates on our vehicles in Florida—the Florida orange—is threatened if we don't take action on an amendment in this bill.

What I have said is that I support free and fair trade. What we find is that, with the concentrated, frozen orange juice production, the country of Brazil has 50 percent of the world consumption of concentrated orange juice. Florida has 40 percent of the world's production, and that is primarily servicing the needs of the domestic market in the United States, a large part of which has been created as a result of the advertising over the last five decades by the Florida Citrus Commission, so that now orange juice is a regular staple of the diet at the breakfast table in America each morning. So it is 50 percent Brazil, 40 percent Florida, and the remaining 10 percent is spread throughout the rest of the planet.

The problem is that it is not free and fair trade if Brazil is allowed to undercut because of Brazil growers colluding into a cartel, undercutting the price of Florida, and dumping additional product on to the market. If there is not tariff protection for the Florida citrus industry, Brazil will be participating not in free and fair trade, but Brazil will have taken over the market and they will have a monopoly. A monopoly is exactly what we want to get away from in global economic markets. We want the crosscurrents of economic competition to bring the best product at the lowest price. That is not what is going to happen.

So the dilemma that my senior colleague, Senator GRAHAM, and I find ourselves in is wanting to support the administration on the trade promotion authority or, as some people call it, the fast track, where the administration can negotiate the agreement without every little detail having to be approved, except when the final agreement has to come back to the Congress, which I think is a step in the right direction, and facing the Hobson's choice that if we do so without an amendment that would protect this industry from a monopoly from foreign shores, our major citrus industry would be facing a life or death choice.

Now, that is not an easy choice for this Senator. So I call to the attention of the Senate the fact that Senator GRAHAM and I will be offering an amendment that doesn't specifically just speak to Florida orange juice but says that if there is an order by the International Trade Commission against dumping by companies or by a country, or if there is a countervailing duty as a result of an order by the Department of Commerce because foreign competition is subsidized by a foreign government and therefore it is not free and fair trade—if there is an order from either one of those two, whatever the commodity is, the tariff cannot be reduced until 1 year after that order by the Department of Commerce, or that order by the International Trade Commission has been removed, because that noncompetitive practice has been eliminated by that foreign country or those foreign corporations.

In other words, if we want to have free and fair trade and there is an order that another country is not being free and fair, we are not going to put the American industry at the disadvantage of having the tariff lowered so that anticompetitive action in that foreign country, against which there is already an order, is not able to protect that industry in America.

I am not just talking about orange juice. I am talking about steel. I am talking about salmon production in the Northwest. I am talking about honey production in Montana. I am talking about any commodity where organizations such as the Department of Commerce or the International Trade Commission say there is anticompetitive behavior, and therefore there is an order against that anticompetitive behavior; if that order is in place, then you cannot reduce the tariff.

That seems to me common sense. Therefore, there is no reason the administration should not accept Senator GRAHAM's and my amendment. Yet they will not. Just today Senator GRAHAM and I talked to the Secretary of Commerce: Well, we will look at it. I understand. That is a polite way of saying: No, we do not agree.

I have talked to people about this amendment until I was blue in the face. I have talked to the chief lobbyist for the White House as to why this is so important to Florida, which happens to be important to this administration. I have talked to members of the Finance Committee to get them to understand why this is so important, not only to Florida but to other States with regard to steel, salmon, and beekeepers in their honey production.

The fact is, the administration thinks it has the votes. In fact, it thinks it is filibuster proof; that it has more than 60 votes for this trade bill. Therefore, there is no willingness to engage in a discussion with Senator GRAHAM, me, and others about adding this amendment, as they did so vigorously in the House when, several months ago, they passed the trade promotion authority bill by the razor thin margin of one vote.

I can tell you, Madam President, it will not only be tonight, but I will continue to speak until my face, to use an old southern expression, turns blue. I will continue to speak every opportunity I have as we go about considering this trade bill over the course of the next 2 to 3 weeks.

I hope there are folks in the White House who are listening. The State of Florida has a great deal at stake in this debate. It is not that we are asking for any special protection; we are asking for free and fair trade. We do not want another country to have a monopoly of a single product that is so very important to our State of Florida.

Madam President, neither you nor I expected to be here at this late hour, but it was an opportunity for us to say something that is very important to this country.

I yield the floor.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. BROWNBACK. Madam President, I rise to speak on the pending business, the trade promotion authority bill. I will be brief.

I believe I am the only Member of the Senate who has worked in the Trade Representative's office. In 1991, I had a wonderful experience as we were negotiating several major treaties at that time. Without qualification, for the United States to engage in more trade negotiations and more trade agreements is positive.

There will be sectors in the United States that have difficulty. That is why we have trade assistance provisions, to make those transitions better. But overall, for the U.S. consumers and the U.S. economy, trade promotion, reducing barriers and tariffs—and tariffs amount to nothing more than taxes; tariffs are taxes—this is a positive action for U.S. producers and U.S. consumers. Not that it is uniform for everybody, but for the overall economy this is positive. It has been positive and remains positive.

Narrowly for my State, the State of Kansas, where we have a lot of agricultural exports, where at least 1 out of 3 acres goes to the export market, the international market is a critical market for us. A lot of our livestock goes to the international marketplace. It is a very important part of our business.

Aviation is a main part of our industry. Much of that goes into the international marketplace as well.

This is positive. It is probably the best thing we can do at this time, on top of the tax cuts, to stimulate the U.S. economy, and expansion of our broad-band access is a third issue that can stimulate the overall economy. Trade is a key one. It is broadly supported in this body. It is not supported by everybody, but overall it has a strong base of support and that is because our economy is built on trade and so much of our opportunities to expand this economy are built on trade. The trade needs to be both free and fair.

I hope we can get a strong vote for trade promotion authority to encourage the President to engage in substantial trade agreements with key trading partners of the United States so we can aggressively move our economy forward and out of the sluggish position and the negative growth we had last year and continue strong, positive growth.

I wish to talk narrowly about a particular provision I would like to see us take up, and I will be putting forward an amendment with regard to this issue, and that is expansion of trade in central Asia. I am referring to those countries known as the "stans," that were under the Soviet Union—Kazakhstan; Uzbekistan became more familiar to us in the war on terrorism; Turkmenistan, Armenia, Azerbaijan, Kyrgyzstan, Tajikistan as well. We need to enter into permanent normal trade relations with these nations.

As we seek to engage them, as we seek to work closer with them in the battle on terrorism, as we seek to engage them internationally, particularly Kazakhstan on expanded oil production and gas production so we are not as dependent on the Middle East for oil, it is very important that we engage them in the area of permanent normal trade relations; that we are able to give to them the same status we give to virtually every country trading with the United States around the world.

They are key countries. They are key in the battle on terrorism, as we have already seen. They are key in our energy diversity. I am hoping we can get more of our energy production at home. That is what we debated over the last 5 weeks.

We also need to diversify our source of energy. One of the key areas to which we can go is Kazakhstan and also Azerbaijan. We need to have permanent normal trade relations to expand that energy supply and expand that energy exchange.

They want to grow with us. Some are trying to pull them into being a radicalized militant state against the United States. There are forces in several of these countries seeking to do that. One of the best things we can do with them is to broadly engage them economically.

We have the opportunity, but we do not have PNTR with these nations in the central Asian region. We do with Georgia, we do with Kyrgyzstan, but not the other countries I named.

I will be putting forward an amendment, hopefully with a number of cosponsors, that is going to be modeled after the Central Asian Trade Act of 2002. In this bill, we would like to bring up the issue of PNTR with these central Asian countries.

I hope my colleagues will look at this carefully, critically, and with an eye to what is best for this region and what is best for the United States.

In our battle on terrorism, it is best we be engaged with these countries. In our battle to diversify our energy sourcing, it is best we be engaged with these countries. For their stability in this region of the world long-term, it is best that we are engaged. One of the prerequisites for us being able to do that is PNTR.

I am quite hopeful we can take this up; that it will be a noncontroversial amendment; that it can be accepted, passed, and that we can move this on through so we can get PNTR for central Asia and we can start working so we are not engaged in this region militarily, pull out of the area, then we see more militant activity buildup and we have to go back in. Rather, let's be engaged in this region on a long-term basis so we do not have to go in episodically, with billions of dollars, and try to clean up a problem that evolved over a period of time.

This is one we can head off at the pass. We can deal with this, we should deal with this, and I am hopeful we are going to be able to take this amendment up on PNTR for central Asia during this debate.

I yield the floor.

Mr. WYDEN. Madam President, as the Senate debates the Andean Trade Preference Expansion Act, ATPEA, I wish to call attention to another issue vital to the long term success of the Andean nations in the world economy.

International arbitration was created in order to mitigate the risks of overseas investment due to political consideration and capricious changes that can affect legal institutions. It gives investors and sovereign nations an agreed-upon mechanism to resolve disputes. Arbitration is a key building block to attract foreign investment, promote modernized legal systems, and provide for the kind of legal economy that we are seeking to foster with this legislation.

For this reason, Congress stipulated in the recent Andean Trade Promotion Act, ATPA, that beneficiary countries were required to recognize as binding and enforce international arbitral awards in favor of U.S. citizens and companies. I am concerned that the U.S. Government has not done enough to ensure that one beneficiary in particular, Colombia, has lived up to this requirement. Before Congress passes new legislation on this matter, shouldn't we hold countries accountable for violating this criterion under the previous legislation?

Unfortunately, Colombia has a disturbing trend of disregarding binding arbitration rulings. The Colombian Government has refused to abide by rulings of arbitration tribunals that are unfavorable, launching aggressive campaigns to undermine arbitration. It has utilized the inefficiencies of its internal legal structures to avoid payment. This blatant disregard for arbitration harms companies that have already invested in Colombia, dissuades others from investing much needed capital, and violates the qualification criteria for ATPA and ATPEA.

In one case, a 22-month binding arbitration tribunal, agreed to by the Colombian Government, ruled that Colombia must pay $61 million due to what it defined as reprehensible behavior and breach of contract. Despite concerns raised by Members of Congress, the Colombian Government has refused to even discuss the issue with the American companies. The cost to the Colombia economy in lost international investment due to this lawless behavior may be greater than any aid that we can provide, and indeed, raises questions about U.S. aid.

For these reasons, I call on the President of the United States and the U.S. Trade Representative in particular to hold Colombia, and any other country that fails to uphold the qualification criteria for ATPEA, to the letter of the law under consideration today. The administration is seeking expanded trade benefits, but it should first require that Colombia implement the rulings of arbitration panels. To do otherwise would undermine the intended effect of this legislation in lifting these developing nations to the status of new industrial democracies governed by the rule of law.

Mr. ALLEN. Madam President, I rise today to address the House version of the Andean Trade Act (H.R. 3009). First, I strongly support fair and free trade. Second, I favor granting the President trade promotion authority. Third, I believe that certain improvements can be made to help workers who lose jobs due to international competition. And fourth, I do believe the current Andean Trade Act should be extended.

However, as currently drafted, this is an Act that could have an adverse impact on the people of Virginia. In particular, Southside Virginia has been especially hard hit the past few years by the loss of textile and apparel jobs. Textile manufacturers in the United States are finding it more difficult, if not impossible, to compete with the low cost of overseas labor and limited environmental protection laws.

We must fully consider the potential impact of this Andean Trade proposal rather than rush into a convoluted procedure for voting on unrelated, albeit important, issues. The men and women involved in the manufacturing and production of textile and apparel products are suffering. We need to find ways to help these individuals, not bring additional heartache. The House version of this bill unnecessarily increases the amount of non-U.S. yarn and fabric coming into our country. The existing law has been sufficiently beneficial.

The U.S. textile and apparel industry, which employs 1.4 million people and accounts for 8 percent of all workers in our country, has fallen on hard times. Over the past five years, the textile industry has lost about 180,000 jobs, nearly one-third of the industry's workers. During this same time, there have been at least 220 textile plants that have closed their doors and ceased operations.

Last year alone, 116 mills closed in the United States. The workers at these locations lost their jobs as domestic producers struggled to compete with cheaply priced imports. As a matter of fact, almost 140,000 textile and apparel employees have lot their jobs in the last 15 months.

Just yesterday, DuPont Textiles and Interiors announced that it will be reducing its workforce by more than 2,000 employees worldwide. Unfortunately, 200 of those workers will be from Virginia.

Also in Virginia, we've lost Tultex, VF Imagewear, and Pluma. And, Burlington Industries in Pittsylvania County, which makes synthetic and wool products, has been forced to eliminate thousands of jobs.

As you know, the Andean nations are well known for their production of these products as well. Burlington and others will no doubt be impacted by the increase of products into our nation from these Andean countries.

My vote to oppose cloture is to take a stand for the right of Senators to fully consider the House version of this bill and offer amendments. As I have stated, I am a firm believer in free and fair trade agreements that will, on balance, benefit millions of Americans. But what has been happening in the textile and apparel industry is not desirable for the people of Virginia.

One aspect of trade is that some workers will almost inevitably have to move to other jobs. When workers are displaced, we must reasonably help ease the impacts of international competition. A bill I introduced last year, the Homestead Preservation Act (S. 1848) can assist these workers who have lost jobs due to international competition. This proposal would provide workers who have been displaced from their jobs because of international competition to become eligible for a secured loan so that they my continue making their mortgage payments on their home for up to one year while they find new employment.

In summation, I strongly support trade promotion authority to tear down tariffs and barriers to American products, goods and services. But trade promotion authority ought to be considered separately from the extension of the Andean Trade Act. I, nevertheless, look forward in the next few weeks to working with my colleagues to fully examine the House passed version of the Andean Trade Act and am hopeful that the Senate will pass a version that is not so harmful to U.S. textile jobs. My vote on procedure is to allow Senators the opportunity and right to calmly review, debate and revise the House passed version of the Andean trade bill without the confluence and distraction of other issues that should be addressed separately.

In the end, we need to pass three separate bills dealing with trade promotion authority, trade adjustment assistance, and the Andean Trade Act. Each of these measures should be accorded individual scrutiny, amendment and ultimate passage. Indeed, the tactic of merging these issues together can result in the House rejecting the most important of all three—trade promotion authority. This ploy to join all these items together can culminate in the unfortunate failure to pass any of these measures this year.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Madam President, what is now before the Senate?

The PRESIDING OFFICER. The motion to proceed to H.R. 3009.

Mr. REID. I ask unanimous consent that I be allowed to speak as in morning business and the time run against the 30 hours.

The PRESIDING OFFICER. Without objection, it is so ordered.

TERRORISM INSURANCE

Mr. REID. Madam President, I have used this illustration on other occasions—I hope not too many, but I know I have used it before—and the reason I do it is, for me, it is illustrative of what is taking place in the Senate.

When I was a little boy, I lived in a small town in southern Nevada. I had a brother who was 10 or 12 years older than I, and he got a job with Standard Stations one summer. That was a big deal for us. He was out of high school, and they transferred him to Las Vegas to be an assistant manager to a service station in Ask Fork, AZ. As a little boy, I never traveled anyplace, and he agreed to take his little brother to Ask Fork, AZ. Oh, I was excited about going there. I do not know how long he spent there, probably about a week or 10 days, but just the anticipation of the trip was really amazing because I had never been anyplace.

So I went to Ask Fork, AZ. It was a little railroad town in Arizona, very large compared to where I was raised, in Searchlight. When I arrived there, I learned my brother had a girlfriend. I thought he was going to be taking me every place, but he did not take me anyplace because he had this girl with whom he was involved.

He did take me to meet her little brother, who was about my age. So I spent a lot of time with him. I have never forgotten that because it was his house and they were his games and his equipment. Every game we started to play, I could beat him; it did not matter what it was. But I never won anything because he kept changing the rules so I could never win.

I went home, having seen a lot of the world, at least in my eyes—Ask Fork, AZ—having spent a week or 10 days with this boy about my age, and had never been victorious in anything because, I repeat, every time he would change the rules in the middle of the game anytime I was beginning to win.

I bring that to the attention of the Senate because that is what we have going on in the Senate now is the same kind of a deal with terrorism insurance. It does not matter what we do; it is not good enough. We start with this, we try that. Okay, that sounds good. We offer it in the form of a unanimous consent agreement. Well, that is not quite right; I think we had better change this. No, we cannot agree to allow you to bring that to the floor.

Weeks have gone by, and we now have no legislation in the Senate to deal with the serious problem the country is having. I will bet the Presiding Officer has had people call her and come to see her—realtors, people from banks and other financial institutions, insurance people, developers—saying: Senator, why have you not done something about terrorism insurance? My construction job cannot go forward. The insurance companies will not write me insurance.

They have come to me, and I have responded the way I think we all have: Well, this is something we should try to do something about.

Senator DASCHLE has been trying to get something to the Senate. He has worked with Senator DODD, he has worked with Senator HOLLINGS, he has worked with Senator SARBANES, and we have agreed to bring legislation to the floor. Last Thursday, I offered a unanimous consent agreement. I am not going to do that tonight—there is no one present for the minority—but I would like to, and I should. I would like to have them again object to the unanimous consent request to bring this legislation to the floor. We have also gone to the extreme. We first started out by saying: Why don't we have two amendments? They said: We want more than two. We said: How about four? Now we are at four amendments.

I cannot understand why we cannot do that. There is something about the bill that people do not like, have an up-or-down vote with an amendment.

We attempted to move the Dodd-Sarbanes-Schumer bill last December. There was no disagreement about the base bill, but over the amendments offered and the time to dispose of the amendments. On April 8, we tried to get another agreement to take up the legislation, and there was no objection to base text. The Republicans always agreed to the underlying Dodd-Sarbanes as the vehicle to bring to the floor. Now the objections are no longer about the number of amendments and the time agreements, but they are opposed to bringing it up.

A strange thing happened last June. The Democrats took control of the Senate. It is a slim margin, but we still have control of the Senate and we control the agenda. The minority might not like that but that is the way it is. That is the rules of the Senate. Therefore, Senator DASCHLE has a right to determine what legislation is going to be brought forward. The majority leader determines what bills are brought to the floor. If the minority is opposed, they have a right to offer amendments and attempt to modify the text of the bill. When it comes to terrorism insurance, this does not seem acceptable.

I want the world to know—because I don't want anyone from Nevada to think I am doing anything to hold up this legislation, or that any Democrat is doing anything to hold up this legislation; we are not—we are ready to legislate on terrorism insurance. As I have said, we have offered to bring up the bill with four amendments on each side. It gives everybody an opportunity to make the changes they seek. They object to this. The legislation is must-pass legislation. We need to get it out of here and get it to conference.

The White House says publicly they desperately want us to do something. They should weigh in with the Republican Members of this Senate and help move something forward. Treasury Secretary O'Neill testified today that the lack of terrorism insurance could cost 1 percent, at least, to gross domestic product because major products will not get financing due to lack of insurance.

It is not just insurance companies increasing their policies or changing them. Banks are refusing to finance large projects because they lack insurance coverage. Policies are going through the roof or they are excluding terrorism from the coverage. This has a devastating effect on the economy, and it will get worse.

I encourage my friends on the other side of the aisle to review today's testimony from Secretary O'Neill before Senator BYRD and the Appropriations Committee. The time to act is now. We can take up this legislation and move it very quickly or we can continue to keep changing the rules in the middle of the game and wind up with nothing. That would be very bad for our country.

I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. DAYTON). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, it is my understanding we are in a period of morning business; is that right?

The PRESIDING OFFICER. Not yet.

MORNING BUSINESS

Mr. REID. I ask unanimous consent the Senate now proceed to a period of morning business, with Senators allowed to speak during that period for not to exceed 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

INVESTING IN STUDENTS

• Mr. BAUCUS. Mr. President, I rise today to respond to a recent recommendation by the Administration to end fixed-rate consolidations of federal student loans in order to address a $1.3 billion shortfall in Pell Grant funds.

I fully agree with the President that we need to fund the Pell Grant program. But, as a constituent of mine in Montana recently said, "It makes no sense to rob Peter to pay Pell." Pell Grants are just one of the federal government's efforts to help students afford the rising costs of a college education. Moreover, Pell Grants are only available to low-income students.

Importantly, the federal government offers a variety of student aid, often in the form of subsidized or low-interest loans, to extend help to low- and middle-income students and families that don't qualify for Pell Grants. In fact, many Pell Grant recipients must also apply for loans in order to meet their education costs. These loans offer hope to students as they seek the advanced education, exposure to new ideas, and acquisition of new skills they require to secure good paying jobs.

We need to be consistent in sending that message of hope to students. In fact, we need to be more vigilant in sending that message in states like Montana, where the average cost of attending a public university has increased by 228 percent for in-state students and 257 percent for non-residents over the past 10 years. Those increases mean larger student loans, larger student debt, and greater student sacrifice. And I am very concerned about the kind of sacrifices Montana students must make to pay back an $18,000 student loan in a state whose average per capita income barely surpasses $20,000.

Simply put, we need to do more to help students invest in themselves, not less. Offering a fixed-rate interest on consolidated loans helps students; eliminating that option places additional financial stress on students. Good common sense tells me that we can not close this door on our students.•

NATIONAL CHARTER SCHOOL WEEK

• Mr. GREGG. Mr. President, last Thursday I joined my colleagues, Senators LIEBERMAN, HUTCHINSON, CARPER and BAYH, in introducing S. Res. 254, a resolution to designate the week of April 29th through May 2, 2002 as National Charter Schools Week. This year marks the 10th Anniversary of the opening of the nation's first charter school in Minnesota. In the last ten years, we have come a long way since that auspicious moment when one teacher collaborating with parents started a school specifically designed to meet the needs of the students in the community.

Today, we have well over 2,000 charter schools serving approximately 579,000 students. Charter schools are immensely popular: two-thirds of them report having waiting lists, and there are currently enough students on waiting lists to fill another 1,000 charter schools.

Charter schools are popular for a variety of reasons. They are generally free from the burdensome regulations and policies that govern traditional public schools. They are founded by principals, teachers and parents who share a common vision on education. Perhaps most importantly, charter schools are held accountable for student performance.

Since each charter school represents the unique vision of its founders, these schools vary greatly.

For example, in South Central Los Angeles, two former union teachers founded the Accelerated School, a charter school designed to serve students from the community. Students attending the school outperform students from neighboring schools. In fact, student performance at the Accelerated School exceeds district-wide average performance levels. Originally a K–8th grade school, the founders are now planning on adding a high school.

In Petoskey, Michigan, the Concord Academy provides an arts-focused curriculum that infuses the arts into the overall curriculum. The school has a 100 percent graduation rate which exceeds the graduation rate for the suburbs. The Concord Academy also spends an average of $2,500 less per student than traditional public schools. Like many charter schools, they are getting greater results using less money.

These are but a handful of the success stories in the charter school movement.

I expect that we will see the popularity of charter schools continue to grow. Last year, the President signed into law the No Child Left Behind Act, which gives parents in low-performing schools the option to transfer to another public school. The Act also provides school districts with the option of converting low-performing schools into charter schools. I believe these provisions will strengthen the charter school movement by creating more opportunities for charter school development. And, as parents exercise their right to school choice, the call for charters schools will grow.

I commend all those involved in the charter school movement. They have led the charge in education reform and have started a revolution. A recent study found that charter schools have had a positive impact on school districts. Districts with a large number of charter schools reported becoming more customer service oriented, creating new education programs, many of which are similar to those offered by charter schools, and increasing contact with parents.

I encourage my colleagues to visit a charter school this week to witness firsthand the ways in which these innovative schools are making a difference, both in the lives of the students they serve as well as in the community in which they reside.●

• Mr. HUTCHINSON. Mr. President, I rise in support of Senate Resolution 254, which designates April 29 through May 3, 2002, as "National Charter Schools Week," and was passed by unanimous consent on April 25, 2002. I am an original cosponsor of this resolution with Senators LIEBERMAN, GREGG, and CARPER, and I am proud to support our Nation's charter schools and highlight their impact on effective school reform across the country.

Charter schools are laboratories of reform and excellence. By allowing increased flexibility and autonomy, charter schools are able to implement new ideas, while still being held to high standards. Charter schools are also public schools, and must serve disadvantaged students and students with disabilities, often doing so with increased success. Studies have shown a link between increased student achievement and enrollment in charter schools. Most importantly, parents and communities are satisfied with charter schools, evidenced by two-thirds of charter schools having waiting lists.

The charter school movement continues to move forward as more and more states have passed laws authorizing charter schools. My home state of Arkansas is in the early stages of implementation, with six charter schools open at the beginning of the 2001 school year.

With the passage of the No Child Left Behind Act earlier this year and our continued support for charter schools across the country, we are saying to our parents, teachers, and students that our efforts are focused on increased academic achievement for all children. I hope that the charter school movement continues to grow and spurs innovation and reform to strengthen our nation's public school system.●

CONGRATULATING THE UNIVERSITY OF WISCONSIN-MADISON'S DAILY CARDINAL ON ITS 110TH ANNIVERSARY

• Mr. FEINGOLD. Mr. President, I am pleased to congratulate the University of Wisconsin-Madison's Daily Cardinal newspaper on its 110th year of independent publication. As a proud UW alumnus, I can attest to the Cardinal's tradition of public service and exceptional journalism.

Since 1892, student journalists at The Cardinal have gained valuable reporting experience while covering some of the country's most important news, from the declaration of war in 1941 to the events of September 11. The Cardinal's achievements have been recognized by the Los Angeles Times and Associated Collegiate Press and the Society of Professional Journalists, who named The Cardinal's Election 2000 coverage the Nation's best. Their excellence is further evidenced by the accomplishments of outstanding alumni like CNN correspondent Jeff Greenfield and ESPN chief of correspondents Andy Katz.

The Daily Cardinal is a source of pride for UW-Madison students past and present, and the State of Wisconsin. I commend The Cardinal for its accomplishments and look forward to celebrating its future success.●

CONGRATULATIONS TO SCOTT HIGH SCHOOL

• Mr. BUNNING. Mr. President, I rise today to honor the 17 members of the Scott High School Science Olympiad team for winning this year's state Science Olympiad Tournament on April 20 at Western Kentucky University in Bowling Green, Kentucky. Next, the team will have the unique opportunity to compete in the national competition at the University of Delaware on May 18.

Throughout the state competition, the students had the chance to compete in a variety of events covering all areas of science including: biology, chemistry, physics, anatomy, and mathematics. Some of these events required projects to be built in advance and taken to the competition while others include laboratory testing and other more conventional means of testing. I firmly believe that this competition was an extremely beneficial experience for all involved. The students have acquired useful and applicable information on a variety of interesting and engaging subjects while learning the importance of teamwork and competition. In order for Kentucky to keep up with the rapid pace of the scientific community, students, like those at Scott High School, must possess the desire to learn in depth about such topics as mathematics, biology, physics, and be able to apply this knowledge outside of the classroom.

I once again congratulate the Scott High School Science Olympiad team for their state title and wish them the best of luck in the upcoming national competition. Their dedication and hard work has not gone unnoticed. I would like to thank each and every one of them for their hard work and determination.•

CELEBRATING OXNARD HARBOR DISTRICT'S 65TH ANNIVERSARY

• Mrs. BOXER. Mr. President, the Oxnard Harbor District's Annual National Maritime Day Celebration will be particularly special this year, as the event will also recognize the district's 65th Anniversary on May 10, 2002.

Created in 1937, the Oxnard Harbor District owns and operates the Port of Hueneme, located in Ventura County, CA. The port greatly contributes to the economic success of California and the nation. More than $4 million worth of cargo moves through the port each year. In addition, the Port of Hueneme is the nation's number one seaport for exporting citrus products and conducts business with countries including Brazil, Costa Rica, Ecuador, Germany and Japan. The Oxnard Harbor District has every reason to be proud of its outstanding accomplishments and contributions to our nation's great maritime heritage.

To help recognize the district's long history, this year's event will feature the SS *Lane Victory*, one of America's last remaining World War II Victory ships, and a National Historic Landmark. It loaded its first cargo consignment in Port Hueneme in July 1945.

To conclude, I would like to add a special word of commendation to the International Mariners Center, whose unwavering and unparalleled support has been instrumental to the Oxnard Harbor District's success.

I thank the Oxnard Harbor District for their many contributions to the community, State and Nation, and wish the staff many more years of prosperity.•

THE SCHOOL SERVICE ACT OF 2002

• Mr. SMITH of Oregon. Mr. President, yesterday I joined my colleagues, Senator EDWARDS and Senator CLINTON, in introducing the School Service Act of 2002. This legislation will offer new support to school districts across America that want to give their students the opportunity to learn through community service.

Service-learning is much more than just community service done by school students, it is a method of classroom instruction that engages a student's intellect through hands-on work outside the classroom that benefits the community at large. Research shows that students participating in service-learning make gains on achievement tests, complete their homework more often, and increase their grade point averages. Service-learning is also associated with both increased attendance and reduced dropout rates. It is clear to educators across the country that service-learning helps students feel more connected to their own education while strengthening their connection to their community as well.

Thousands of students across Oregon participate in formal service-learning, and nearly every student in Oregon engages in community service through their schoolwork at some point or another, they just don't know that it's called service-learning. The School Service Act will give local schools and school districts the resources they need to formalize their commitment to service-learning. Under this legislation, school districts are eligible to apply for grants if they choose to make meaningful community service a requirement for graduation. It is my hope that schools will take advantage of this funding opportunity, and give their students the chance to experience the benefits of an education tied to community service.

My own State of Oregon is a national leader in service-learning, and I hope that this bill will help schools in my state continue their commitment to reclaiming the public purpose of education. I also hope that the School Service Act will encourage the further spread of service-learning across America, because I believe that it will improve education and, perhaps as important, instill students with an ethic of public service that will stay with them throughout their lives.•

VOTE EXPLANATION

• Mrs. CARNAHAN. Mr. President, early Sunday morning there were horrible tornadoes that killed a young child, injured many others and caused extensive damage throughout Marble Hill and other communities in southern Missouri. I believed it was important to visit the affected communities on Monday to comfort them and lend support. I regret that due to scheduling difficulties, I could not return to Washington in time for the vote on the motion to proceed to the Andean Trade Act.•

COLONEL DERRELL B. JEFFORDS, USAF

• Mr. McCAIN. Mr. President, I rise today to honor a great American patriot, Colonel Derrell B. Jeffords, USAF. As a young man, Colonel Jeffords knew that he wanted to serve his country in the military, dreaming of becoming an Air Force pilot. He began to realize his goals in June of 1944, when he graduated from the United States Army Air Force Cadet Flying School. Over the next 22 years of dedicated service, he distinguished himself not only as a skilled pilot, but also as an outstanding leader. After tours at 12 different bases in 20 years he answered his nation's call once more. In October of 1965, Colonel Jeffords reported to Vietnam for what would turn out to be his final deployment. On Christmas Eve 1965, just as President Johnson announced a week long bombing halt in North Vietnam, Colonel Jeffords' family received the painful telegram declaring him Missing in Action. His family learned that while on an armed reconnaissance mission, just south of Ban Bac, Laos, Colonel Jeffords' C–47 "Spooky" had been shot down.

Deryl Jeffords was only 13 years old when her father was shot down. She was forced to remember him through the letters that he wrote from Vietnam. Those letters never reflected any sign of fear, resentment or anger at being in Vietnam. To Colonel Jeffords, it was not a duty to serve in Vietnam, it was an honor. I was recently contacted by Ms. Jeffords, who told me about her father's life. Moved by the heroic story of Colonel Jeffords, I felt it necessary to rise on the floor of the United States Senate, to give her father the respect, honor, dedication and recognition that he so richly deserves from our country. Colonel Jeffords is an American hero, who fought for all citizens, so that we could keep the freedom that we enjoy today.

Colonel Jeffords will always be in the heart and soul of his family that he left behind. None of us should ever forget Colonel Derrell B. Jeffords, for he represents the very heart of what our country stands for. God Bless him.•

LOCAL LAW ENFORCEMENT ACT OF 2001

• Mr. SMITH of Oregon. Mr. President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of last year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred January 27, 1993 in Queens, NY. A gay man was beaten by two teenagers yelling anti-gay slurs. Junior Guerrero, 18, and Michael Ithier, 19, were arrested in connection with the incident.

I believe that government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.•

TRIBUTE TO THE NASHUA HIGH SCHOOL AP GOVERNMENT CLASS

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Tarin Lafrance and her Nashua Senior High School AP government class. The class was chosen to represent the State of New Hampshire in the "We the People . . ." national competition. Nashua will compete against other States in analyzing and interpreting the Constitution of the United States as it applies in everyday life.

As a former schoolteacher, I commend Tarin Lafrance and the entire class for their hard work in this competition. The students' dedication is evident as shown through their strong commitment to excellence in education. I applaud their efforts and innovative interpretations of the Constitution. In working to gain a better understanding of our democratic Republic, the class studied the historical background of the Constitution, the three branches of government, judicial review, the Bill of Rights, and the Constitution as it applies in today's society. So much of our Nation's history revolves around the Constitution, and more importantly, this document serves as the foundation of all our Government's decisions. Nashua's commitment to education is a positive example for the Granite State.

I commend all members of the class and wish them continued success as they travel to Washington, DC, to showcase their presentation. Good luck to Julie dePointbriand, Beth Drolet, Jennifer Dube, Brendan Farrell, Kyle Gilbertson, Laurie Gorham, Ariella Green, Kelly Hogan, Jerry Hopkins, Sarah Janowitz, Zach Janowski, Michael Kiser, Candice LeCourt, Fariha Mahmud, Holly Masek, Jennifer McDonald, Lisa Minich, Linnea Sanderson, Lauren Schneider, Stephen Schuler, Katie Staab, and Heather Zimmerman. Go Panthers! It is an honor to represent you in the Senate.•

TRIBUTE TO LAURIE L. CHANDLER

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Laurie L. Chandler, senior vice president of Fleet's Private Clients Group. Laurie has been named New Hampshire's Women in Business Advocate of the Year by the Small Business Administration of the United States.

Laurie's 20 years of experience in the financial services industry have been indispensable to the women in New Hampshire's small business community. Along with serving her current position at Fleet, Laurie developed and administered the Women Building Wealth Program of Fleet. The program, which consists of monthly informal seminars for business women, has been crucial to those within New Hampshire. Laurie's time mentoring women has been above and beyond any call of duty. She has been credited with consistently going the extra mile for businesswomen to succeed and always extending herself within the business community.

I commend Laurie for her continued dedication to the women in New Hampshire's business community. Her actions set a positive example for the Granite State. Her commitment and business savvy are well respected and admired amongst her peers and are exemplified by her position within the Fleet organization. I look forward to seeing more of Laurie Chandler within our business community and wish her continued success. It is an honor to represent you in the Senate.•

TRIBUTE TO JERRY MILLER

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Jerry Miller of Hampton. Jerry has been chosen as the New Hampshire Business Journalist of the Year by the Small Business Administration of the United States. Jerry serves as a correspondent for the Union Leader and New Hampshire Sunday News for the Portsmouth and Seacoast regions of the State.

Jerry has worked tirelessly to report on New Hampshire's small businesses for the past 12 years, covering issues including Pease Air Force Base and the Portsmouth Naval Shipyard. His career has been long and distinguished in both print and broadcast journalism, reporting on hundreds of issues each year. His dedication to the readers of New Hampshire is evident in the stories he writes; I commend him on success. As Jerry so humbly stated, "I have never tired of covering business in the Granite State, where the entrepreneurial spirit is alive and well. It's a spirit I've seen every day in the men and women who take the risks associated with businesses and job creation, so that they and others may enjoy their perceptions of the American dream." This further exemplifies why he was such a deserving candidate for this award.

I applaud Jerry on receiving this award and wish him continued success in keeping New Hampshire well informed. His commitment to small business is a positive example for the State and I look forward to reading Jerry's next article. It is an honor to represent you in the Senate.•

TRIBUTE TO PETER F. BURGER

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Mr. Peter F. Burger of Concord. Peter was recently named New Hampshire's Special District Advocate of the Year by the U.S. Small Business Administration. Currently practicing with the law firm of Orr & Reno, Peter's exemplary contribution to the small business community over the year made him the likely recipient of this award.

I applaud Peter's commitment to the International Trade Resource Center of Portsmouth. He has made time over the past decade to volunteer his services and expertise to the center, teaching classes and taking clients on a pro bono basis. Peter's time spent volunteering has been crucial to the center's clients. Without his contributions, the ITRC would not have been able to offer competitive and complete services to New Hampshire's small businesses.

New Hampshire's small business community is privileged to have such a dedicated member of their community. Peter has generously volunteered his time advising on numerous issues including trademark protection and licensing, contract issues related to e-commerce, financing, and mergers and acquisitions. Without the competitive edge ITRC and Peter offer to our State's small businesses, they would be at a disadvantage to their competition. I commend Peter on his dedication to the Granite State. It is an honor to represent you in the Senate.•

TRIBUTE TO GT EQUIPMENT TECHNOLOGIES, INC.

• Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to GT Equipment Technologies, Inc of Nashua, which has been chosen as New Hampshire's Small Business Exporter of the Year by the Small Business Administration of the United States.

GTi began in 1994 as a two person home-based operation and has grown into an 80 employee firm with this year's projected annual sales of $30 million. As one of New Hampshire's great export success stories, GTi has gained national recognition and numerous business awards. In 1997 GTi was designated one of Entrepreneur Magazine's top 100 fastest growing companies, as well as the president and CEO Kedar P. Gupta being named Entrepreneur of the Year. Along with numerous entrepreneurial awards for both Kedar and the executive vice-president Jonathan A. Talbott, GTi received NASA's Commitment to Excellence award of 1998 and Deloitte & Touche's 2000 list of the top 50 fastest growing technology companies. I applaud the dedication and hard work that Jonathan and Kedar have shown in the rise of their company. They have set a positive example of the risk and reward associated with starting and owning a small business for the Granite State.

As a former small business owner, I can appreciate the efforts required to have a successful business, and I wish GTi continued success in the coming years. As Jonathan so humbly stated, "As a company we strive to meet and exceed the expectations of our customers, and that's the key to our success. This award is really our employees, for their hard work, dedication, and long hours." It is an honor to represent you in the Senate.●

TRIBUTE TO LAURA L. MONICA

● Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Laura L. Monica, New Hampshire's Small Business Person of the Year by the U.S. Small Business Administration. Laura is currently president and owner of the Bow based company, High Point Communications Group.

I applaud Laura's determination and hard work in making High Point one of New Hampshire's successful small businesses. As a former small business owner, I understand the amount of energy that starting and running your own business requires. Laura started as a one woman team and has taken her company to a nine-person staff, with revenues exceeding $2.2 million. Laura followed her dream of changing and evolving the typical "public relations" model into a new strategic communications model designed specifically for businesses.

By reaching out and taking risks, Laura was able to make her dream of innovative and creative strategic communications a reality. I commend her business savvy and exceptional work ethic in the field of public relations. She has brought High Point to a higher level of work productivity and created a company which is able to compete with corporations. I will continue to work hard to protect New Hampshire's small businesses as I am assured that Laura Monica will continue to work hard in putting High Point on the map. With High Point being named as one of the "Top Ten Best Companies To Work for in New Hampshire" by NH Business Magazine, we can be sure to see even more great things from Laura Monica and her team at High Point Communications. I wish her continued success in years to come, it is an honor to represent you in the Senate.●

TRIBUTE TO ROBERT G. CARON

● Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to Mr. Robert G. Caron of Rye. Robert was named New Hampshire's SCORE Counselor of the Year by the U.S. Small Business Administration. His outstanding service to the Portsmouth Service Corps of Retired Executives made him the perfect candidate for this year's award.

I applaud his continued service and commitment to New Hampshire's small business community. His dedication to helping his fellow Granite Staters is exemplary. In his fourth year as a SCORE member, Robert is considered to be one of the most active counselors in the organization. Using his experience as the former senior vice president and CEO of an international chemical manufacturing company, he is able to effectively use his expertise in general management, marketing, profit and working capital improvement, strategic thinking and financial reporting.

The business savvy that Robert brings to New Hampshire's small business community is to be commended. His continued service to the Granite State is a positive example for others. Robert so humbly stated, "I'm grateful that SCORE has given me the opportunity to use my skills to help others in our community." New Hampshire is also grateful. It is an honor to represent you in the Senate.●

MESSAGE FROM THE HOUSE

Under the authority of the order of the Senate of January 3, 2001, the Secretary of the Senate, during the recess of the Senate, received a message from the House of Representatives announcing that the House has passed the following bill, without amendment:

S. 2248. An act to extend the authority of the Export-Import Bank until May 31, 2002.

ENROLLED BILL SIGNED

Under the authority of the order of the Senate of January 3, 2001, the following enrolled bill, previously signed by the Speaker of the House, was signed subsequently by the Acting President pro tempore (Mr. NELSON of Nebraska).

S. 2248. An act to extend the authority of the Export-Import Bank until May 31, 2002.

MEASURE HELD AT THE DESK

The following concurrent resolution was ordered held at the desk by unanimous consent:

S. Con. Res. 103. Concurrent resolution supporting the goals and ideals of National Better Hearing and Speech Month, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-6618. A communication from the Secretary of the Air Force, transmitting, pursuant to law, the report of an Average Procurement Unit Cost (APUC) breach; to the Committee on Armed Services.

EC-6619. A communication from the Acting Director, Office of Surface Mining, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "West Virginia Regulatory Program" (WV-088-FOR) received on April 26, 2002; to the Committee on Energy and Natural Resources.

EC-6620. A communication from the Director, Office of Congressional Affairs, Nuclear Material Safety and Safeguards, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled Final Rules—10 CFR Part 35, "Medical Use of Byproduct Materials," 10 CFR Part 20, "Standards for Protection Against Radiation," and 10 CFR Part 32, "Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material" (RIN3150-AF74) received on April 26, 2002; to the Committee on Environment and Public Works.

EC-6621. A communication from the Vice Chairman of the Export-Import Bank, transmitting, a report relative to a transaction involving U.S. exports to Israel; to the Committee on Banking, Housing, and Urban Affairs.

EC-6622. A communication from the Vice Chairman of the Export-Import Bank, transmitting, pursuant to law, a report relative to a transaction involving U.S. exports to Malaysia; to the Committee on Banking, Housing, and Urban Affairs.

EC-6623. A communication from the Vice Chairman of the Export-Import Bank, transmitting, pursuant to law, a report relative to a transaction involving U.S. exports to Austria; to the Committee on Banking, Housing, and Urban Affairs.

EC-6624. A communication from the Administrator, Dairy Programs, Agricultural Marketing Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Milk in the Upper Midwest Marketing Area—Interim Order" (Doc. No. DA-01-03; AO-361-A35) received on April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6625. A communication from the Administrator, Agricultural Marketing Service, Fruit and Vegetable Programs, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Marketing Order Regulating the Handling of Spearmint Oil Produced in the Far West; Salable Quantities and Allotment Percentages for the 2002-2003 Marketing Year" (Doc. No. FV02-985-1FR) received on April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6626. A communication from the Administrator, Agricultural Marketing Service, Fruit and Vegetable Programs, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Olives Grown in California; Increased Assessment Rate" (Doc. No. FV02-932-1 FIR) received on April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6627. A communication from the Administrator, Agricultural Marketing Service, Fruit and Vegetable Programs, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Tart Cherries Grown in the States of Michigan, et al.; Increased Assessment Rates" (Doc. No. FV02-930-2FR) received on April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6628. A communication from the Administrator, Agricultural Marketing Service, Fruit and Vegetable Programs, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Grapes Grown in a Designated Area of Southeastern California ; Revision to Container and Pack Requirements" (Doc. No. FV02-925-2 IFR) received on April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6629. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Citrus Canker Quarantined Areas; Technical Amendment" (Doc. No. 01-079-3) received on

April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6630. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Steam Treatment of Golden Nematode-Infested Farm Equipment, Construction Equipment, and Containers" (Doc. No. 01-050-2) received on April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6631. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Limited Ports of Entry for Pet Birds, Performing or Theatrical Birds, and Poultry and Poultry Products" (Doc. No. 01-121-2) received on April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6632. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Texas (Splenetic) Fever in Cattle; Incorporation by Reference" (Doc. No. 01-110-1) received on April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6633. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Gypsy Moth Generally Infested Areas" (Doc. No. 01-049-2) received on April 29, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-6634. A communication from the Assistant Attorney General, Office of Legislative Affairs, Department of Justice, transmitting, pursuant to law, the 2000 Annual Report of the National Institution of Justice (NIJ); to the Committee on the Judiciary.

EC-6635. A communication from the Acting Attorney General, Department of Justice, transmitting, pursuant to law, a report relative to the Foreign Intelligence Surveillance Act of 1978; to the Committee on the Judiciary.

EC-6636. A communication from the Chief Justice of the Supreme Court of the United States, transmitting, amendments to the Federal Rules of Civil Procedure that have been adopted by the Supreme Court of the Untied States; to the Committee on the Judiciary.

EC-6637. A communication from the Chief Justice of the Supreme Court of the United States, transmitting, amendments to the Federal Rules of Bankruptcy Procedure that have been adopted by the Supreme Court of the United States; to the Committee on the Judiciary.

EC-6638. A communication from the Chief Justice of the Supreme Court of the United States, transmitting, amendments to the Federal Rules of Appellate Procedure that have been adopted by the Supreme Court of the United States; to the Committee on the Judiciary.

EC-6639. A communication from the Chief Justice of the Supreme Court of the United States, transmitting, amendments to the Federal Rules of Criminal Procedure that have been adopted by the Supreme Court of the United States; to the Committee on the Judiciary.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. BIDEN (for himself, Mr. ALLEN, Mr. HOLLINGS, Mrs. BOXER, Mrs. MURRAY, Mr. SMITH of Oregon, Mr. NELSON of Nebraska, and Mr. DORGAN):

S. 2395. A bill to prevent and punish counterfeiting and copyright piracy, and for other purposes; to the Committee on the Judiciary.

By Mr. CARPER:

S. 2396. A bill to suspend temporarily the duty on prodiamine technical; to the Committee on Finance.

By Mr. CARPER:

S. 2397. A bill to suspend temporarily the duty on thiamethoxam technical; to the Committee on Finance.

By Mr. CARPER:

S. 2398. A bill to suspend temporarily the duty on mixtures of fluazinam; to the Committee on Finance.

By Mr. CARPER:

S. 2399. A bill to suspend temporarily the duty on benzyl carbazate; to the Committee on Finance.

By Mr. CARPER:

S. 2400. A bill to suspend temporarily the duty on esfenvalerate technical; to the Committee on Finance.

By Mr. CARPER:

S. 2401. A bill to suspend temporarily the duty on triflusulfuron methyl formulated product; to the Committee on Finance.

By Mr. CARPER:

S. 2402. A bill to suspend temporarily the duty on Avaunt and Steward; to the Committee on Finance.

By Mr. CARPER:

S. 2403. A bill to suspend temporarily the duty on 50% Homopolymer, 3-(dimethylamino) propyl amide, dimethyl sulfate-quaternized 50% polyricinoleic acid; to the Committee on Finance.

By Mr. CARPER:

S. 2404. A bill to suspend temporarily the duty on black CPW stage, 2,7-naphthalene disulfonic acid, 4-amino-3-[[4-[[-4-[(2 or 4-amino-4 or 2-hydroxylphenyl)azo] phenyl]amino]-3-sulfophenyl]azo]-5-hydroxy-6-(phenylazo)-trisodium salt; to the Committee on Finance.

By Mr. CARPER:

S. 2405. A bill to suspend temporarily the duty on fast black 287 NA paste, 1,3-benzenedicarboxylic acid, 5-[[4-[(7-amino-1-hydroxy-3-sulfo-2-naphthalenyl) azo]-1-naphthalenyl]azo]-, trisodium salt; to the Committee on Finance.

By Mr. CARPER:

S. 2406. A bill to suspend temporarily the duty on fast black 287 NA liquid feed, 1,3-benzenedicarboxylic acid, 5-[[4-[(7-amino-1-hydroxy-3-sulfo-2-naphthalenyl)azo]-1-naphthalenyl]az o]-, trisodium salt; to the Committee on Finance.

By Mr. CARPER:

S. 2407. A bill to suspend temporarily the duty on fast yellow 2 stage, 1,3-benzenedicarboxylic acid, 5,5'-[[6-(4-morpholinyl)-1,3,5-triazine-2,4-diyl]bis(imino-4,1-phenyleneazo)]bis-, ammonium/sodium/hydrogen salt; to the Committee on Finance.

By Mr. CARPER:

S. 2408. A bill to suspend temporarily the duty on cyan 1 RO feed, copper, [29H,31H-phthalocyaninato(2-)-N29,N30,N31,N32]-, aminosulfonyl sulfo derivatives, sodium salts; to the Committee on Finance.

By Mr. CARPER:

S. 2409. A bill to suspend temporarily the duty on cyan 1 stage, copper, [29H,31H-phthalocyaninato(2-)-N29,N30,N31,N32]-, aminosulfonyl sulfo derivatives. Tetra methyl ammonium salts; to the Committee on Finance.

By Mr. CARPER:

S. 2410. A bill to suspend temporarily the duty on cyan 1 OF stage, copper, [29H,31H-phthalocyaninato(2-)-N29,N30,N31,N32]-, aminosulfonyl sulf derivatives, sodium salts; to the Committee on Finance.

By Mr. CARPER:

S. 2411. A bill to suspend temporarily the duty on cyan 9075 stage, copper, [29H,31H-phthalocyaninato(2-)-N29,N30,N31,N32]-, aminosulfonyl sulfo derivatives, sodium salts; to the Committee on Finance.

By Mr. CARPER:

S. 2412. A bill to suspend temporarily the duty on yellow 1 stage, 1,5-naphthalenedisulfonic acid, 3 ,3'-[[6-[(2-hydroxyethyl)amino]-1,3,5-triazine-2 ,4-diyl]bis[imino(2-methyl-4,1-phenylene)azo]]bis-, tetrasodium salt; to the Committee on Finance.

By Mr. CARPER:

S. 2413. A bill to suspend temporarily the duty on yellow 1 G stage, benzenesulfonic acid, 3,3'-[carbonylbis[imino(3-methoxy-4 ,1-phenylene)azo]]bis-, disodium salt; to the Committee on Finance.

By Mr. CARPER:

S. 2414. A bill to suspend temporarily the duty on yellow 746 stage, 1,3- bipyridirium, 3-carboxy-5'-[(2-carboxy-4-sulfophenyl)azo]-1,2', dihydro-6'-hydroxy-4'-methyl-2'-oxo, inner salt, lithium/sodium salt; to the Committee on Finance.

By Mr. CARPER:

S. 2415. A bill to suspend temporarily the duty on black SCR stage, 2,7-naphthalene disulfonic acid, 4-amino-3-[[4-[[-4-[(2 or 4 -amino-4 or 2-hydroxyphenyl)azo]phenyl]amino]-3-sulfophenyl] axo]-5-hydroxy-6-(phenylazo)-trisodium salt; to the Committee on Finance.

By Mr. CARPER:

S. 2416. A bill to suspend temporarily the duty on magenta 3B-OA stage, 2-[[4-chloro-6[[8-hydroxy-3 ,6-disulphonate-7-[(1-sulpho-2-naphthalenyl) azo]-1-naphthalenyl] amino]-1,3,5-triazin-2-yl]amino]-5-sulphobenzoic acid, sodium/lithium salts; to the Committee on Finance.

By Mr. CARPER:

S. 2417. A bill to suspend temporarily the duty on yellow 577 stage, 5-(4-[4-[4-(4 ,8-disulfonaphthalen-2-ylazo)-phenylamino]-6-(2-sulfoethylamino)-[1,3 ,5]triazin-2-ylamino]phenylazo)isophthalic acid/sodium salt; to the Committee on Finance.

By Mr. CARPER:

S. 2418. A bill to suspend temporarily the duty on cyan 485/4 stage, copper, [29H,31H-phthalocyaninato (2-)-xN29,xN30,xN31 ,xN32]-aminosylfonyl [(2-hydroxy-ethyl)amino] sulfonyl sulfo derivatives, sodium salt; to the Committee on Finance.

By Mr. CARPER:

S. 2419. A bill to suspend temporarily the duty on R118118 Salt; to the Committee on Finance.

By Mr. CARPER:

S. 2420. A bill to suspend temporarily the duty on NSMBA; to the Committee on Finance.

By Mr. FEINGOLD (for himself and Mr. DOMENICI):

S. 2421. A bill to amend section 402A of the Higher Education Act of 1965 to define the terms different campus and different population; to the Committee on Health, Education, Labor, and Pensions.

By Mrs. CLINTON (for herself and Mr. SCHUMER):

S. 2422. A bill to suspend temporarily the duty on low expansion laboratory glass; to the Committee on Finance.

By Mrs. CLINTON (for herself and Mr. SCHUMER):

S. 2423. A bill to suspend temporarily the duty on low expansion laboratory glass; to the Committee on Finance.

By Mrs. CLINTON (for herself and Mr. SCHUMER):

S. 2424. A bill to suspend temporarily the duty on low expansion laboratory glass; to the Committee on Finance.

By Mr. BAYH (for himself and Mr. BROWNBACK):

S. 2425. A bill to prohibit United States assistance and commercial arms exports to countries and entities supporting international terrorism; to the Committee on Foreign Relations.

By Mr. SCHUMER:

S. 2426. A bill to increase security for United States ports, and for other purposes; to the Committee on Finance.

By Mr. BINGAMAN:

S. 2427. A bill to require the National Institutes of Mental Health and the Human Resources and Services Administration to award grants to prevent and treat depression; to the Committee on Health, Education, Labor, and Pensions.

By Mr. KERRY (for himself, Ms. SNOWE, Mr. HOLLINGS, Mr . STEVENS, Mr. BREAUX, Mr. MURKOWSKI, Mr. SARBANES, Mr. REED, and Mr. FEINGOLD):

S. 2428. A bill to amend the National Sea Grant College Program Act; to the Committee on Commerce, Science, and Transportation.

By Mr. HUTCHINSON (for himself, Mr. CRAIG, Mr. ENZI, Mr. GREGG, Mr. HAGEL, Mr. INHOFE, and Mr. SMITH of New Hampshire):

S. 2429. A bill to amend the Internal Revenue Code of 1986 to allow an above-the-line deduction from certain expenses in connection with the determination, collection, or refund of any tax; to the Committee on Finance.

By Mr. BREAUX (for himself, Mr. NICKLES, Mr. CLELAND, Mr. BROWNBACK, Mr. MILLER, Mrs. HUTCHISON, and Mr. HUTCHINSON):

S. 2430. A bill to provide for parity in regulatory treatment of broadband services providers and of broadband access services providers, and for other purposes; to the Committee on Commerce, Science, and Transportation.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mrs. FEINSTEIN (for herself, Mr. HATCH, Ms. STABENOW, Mr. REID, Mrs. BOXER, Mr. KENNEDY, Mr. CLELAND, Ms. CANTWELL, Mr. WYDEN, Mr. THOMAS, Mr. BINGAMAN, Mr. DOMENICI, Mr. JEFFORDS, Mrs. MURRAY, Mr. ROBERTS, Mr. FEINGOLD, Mr. HELMS, Mr. SARBANES, and Mr. AKAKA):

S. Res. 255. A resolution to designate the week beginning May 5, 2002, as "National Correctional Officers and Employees Week"; to the Committee on the Judiciary.

By Mr. LOTT:

S. Res. 256. A resolution making Minority party appointments for the Special Committee on Aging for the 107th Congress; considered and agreed to.

By Mr. BYRD:

S. Res. 257. A resolution expressing the gratitude of the United States Senate for the service of Suzanne D. Pearson to the Office of Legislative Counsel; considered and agreed to.

By Mrs. CLINTON (for herself, Mr. CAMPBELL, Mr. DEWINE, Mr. EDWARDS, Mr. JOHNSON, Ms. LANDRIEU, Mr. LEVIN, Mrs. MURRAY, Mr. ROCKEFELLER, and Mr. TORRICELLI):

S. Con. Res. 103. A concurrent resolution supporting the goals and ideals of National Better Hearing and Speech Month, and for other purposes; ordered held at the desk.

ADDITIONAL COSPONSORS

S. 839

At the request of Mr. LEAHY, his name was added as a cosponsor of S. 839, a bill to amend title XVIII of the Social Security Act to increase the amount of payment for inpatient hospital services under the Medicare Program and to freeze the reduction in payments to hospitals for indirect costs of medical education.

At the request of Mrs. HUTCHISON, the names of the Senator from North Carolina (Mr. EDWARDS) and the Senator from Washington (Ms. CANTWELL) were added as cosponsors of S. 839, supra.

S. 913

At the request of Ms. SNOWE, the names of the Senator from Delaware (Mr. BIDEN) and the Senator from Vermont (Mr. JEFFORDS) were added as cosponsors of S. 913, a bill to amend title XVIII of the Social Security Act to provide for coverage under the Medicare Program of all oral anticancer drugs.

S. 999

At the request of Mr. BINGAMAN, the name of the Senator from Delaware (Mr. CARPER) was added as a cosponsor of S. 999, a bill to amend title 10, United States Code, to provide for a Korea Defense Service Medal to be issued to members of the Armed Forces who participated in operations in Korea after the end of the Korean War.

S. 1194

At the request of Mr. SPECTER, the name of the Senator from Virginia (Mr. ALLEN) was added as a cosponsor of S. 1194, a bill to impose certain limitations on the receipt of out-of-State municipal solid waste, to authorize State and local controls over the flow of municipal solid waste, and for other purposes.

S. 1339

At the request of Mr. CAMPBELL, the name of the Senator from Hawaii (Mr. INOUYE) was added as a cosponsor of S. 1339, a bill to amend the Bring Them Home Alive Act of 2000 to provide an asylum program with regard to American Persian Gulf War POW/MIAs, and for other purposes.

S. 1644

At the request of Mr. CAMPBELL, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1644, a bill to further the protection and recognition of veterans' memorials, and for other purposes.

S. 1917

At the request of Mr. JEFFORDS, the name of the Senator from New Mexico (Mr. DOMENICI) was added as a cosponsor of S. 1917, a bill to provide for highway infrastructure investment at the guaranteed funding level contained in the Transportation Equity Act for the 21st Century.

S. 1998

At the request of Mr. ENSIGN, the name of the Senator from Virginia (Mr. ALLEN) was added as a cosponsor of S. 1998, a bill to amend the Higher Education Act of 1965 with respect to the qualifications of foreign schools.

S. 2194

At the request of Mr. MCCONNELL, the names of the Senator from New Hampshire (Mr. SMITH), the Senator from Alabama (Mr. SESSIONS), and the Senator from Georgia (Mr. MILLER) were added as cosponsors of S. 2194, a bill to hold accountable the Palestine Liberation Organization and the Palestinian Authority, and for other purposes.

S. 2200

At the request of Mr. BAUCUS, the names of the Senator from Oklahoma (Mr. INHOFE), the Senator from Georgia (Mr. CLELAND), the Senator from Arkansas (Mrs. LINCOLN), and the Senator from South Dakota (Mr. JOHNSON) were added as cosponsors of S. 2200, a bill to amend the Internal Revenue Code of 1986 to clarify that the parsonage allowance exclusion is limited to the fair rental value of the property.

S. 2210

At the request of Mr. SANTORUM, the name of the Senator from Oklahoma (Mr. NICKLES) was added as a cosponsor of S. 2210, a bill to amend the International Financial Institutions Act to provide for modification of the Enhanced Heavily Indebted Poor Countries (HIPC) Initiative.

S. 2215

At the request of Mrs. BOXER, the names of the Senator from New York (Mrs. CLINTON), the Senator from New York (Mr. SCHUMER), and the Senator from Louisiana (Ms. LANDRIEU) were added as cosponsors of S. 2215, a bill to halt Syrian support for terrorism, end its occupation of Lebanon, stop its development of weapons of mass destruction, cease its illegal importation of Iraqi oil, and by so doing hold Syria accountable for its role in the Middle East, and for other purposes.

S. 2384

At the request of Mr. LEVIN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 2384, a bill to establish a joint United States-Canada customs inspection project.

S. RES. 247

At the request of Mr. LIEBERMAN, the names of the Senator from Montana (Mr. BAUCUS), the Senator from California (Mrs. BOXER), the Senator from Iowa (Mr. HARKIN), the Senator from Arkansas (Mrs. LINCOLN), the Senator from Rhode Island (Mr. REED), and the Senator from Oregon (Mr. WYDEN) were added as cosponsors of S. Res. 247, a resolution expressing solidarity with Israel in its fight against terrorism.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BIDEN (for himself, Mr. ALLEN, Mr. HOLLINGS, Mrs. BOXER, Mrs. MURRAY, Mr. SMITH of Oregon, Mr. NELSON of Nebraska, and Mr. DORGAN):

S. 2395. A bill to prevent and punish counterfeiting and copyright piracy, and for other purposes; to the Committee on the Judiciary.

Mr. BIDEN. Mr. President, I rise today to introduce the Anticounterfeiting Amendments of 2002, along with Senators ALLEN, HOLLINGS, BOXER, MURRAY, SMITH of Oregon, NELSON of Nebraska, and DORGAN.

In February of this year, I held a hearing entitled, “Theft of American Intellectual Property: Fighting Crime Abroad and At Home,” and I issued a report on the status of our fight against this crime.

What I learned is that every day, thieves steal millions of dollars of American intellectual property from its rightful owners. Over a hundred thousand American jobs are lost as a result.

American innovation and creativity need to be protected by our government no less than our personal property, our homes and our streets. The Founding Fathers had the foresight to provide for protection of intellectual property, giving Congress the power to “promote the progress of science and useful arts” by providing copyrights and patents.

American intellectual property represents the largest single sector of the American economy, employing 4.3 million Americans. It has been estimated that software piracy alone cost the U.S. economy over 118,000 jobs and $5.7 billion in wage losses in the year 2000. Even more, the International Planning and Research Corporation estimates that the government loses more than a billion dollars worth of revenue every year from intellectual property theft.

To put that in perspective, with a billion dollars in additional revenue, the American government could pay for child care services for more than 100,000 children annually. Alternatively, $1 billion could be used to fund a Senate proposal to assist schools nationally with emergency school renovations and repairs.

There's another problem. Counterfeiters of software, music CDs and motion pictures are now tampering with authentication features. Holograms, certificates of authenticity, and other security features allow the copyright owners to distinguish genuine works from counterfeits. But now, highly sophisticated counterfeiters have found ways to tamper with these features to make counterfeit products appear genuine and to increase the selling price of genuine products and licenses. Put another way, not only do crooks illegally copy American intellectual property, they also now illegally fake or steal the very features property owners use to prevent that theft.

Copyrights mean nothing if government authorities fail to enforce the protections they provide intellectual property owners. The criminal code has not kept up with the counterfeiting operations of today's high-tech pirates, and it's time to make sure that it does. The Anticounterfeiting Amendments of 2002 update and strengthen the Federal criminal code, which currently makes it a crime to traffic in counterfeit labels or copies of certain forms of intellectual property, but not authentication features. For example, we can currently prosecute someone for trafficking in fake labels for a computer program, but we cannot go after them for faking the hologram that the software maker uses to ensure that copies of the software are genuine.

In addition, many actions that violate current law go unprosecuted in this day and age when priorities, such as the fight against terrorism and life-threatening crimes, necessarily take priority over crimes of property, be they intellectual or physical. Moreover, the victims of this theft often do not have a way to recover their losses from this crime. For this reason, the Anticounterfeiting Amendments of 2002 also provide a private cause of action, to permit the victims of these crimes to pursue the criminals themselves and recover damages in federal court.

Current law criminalizes trafficking in counterfeit documentation and packaging, but only for software programs. The Anticounterfeiting Amendments of 2002 update and expand these provisions to include documentation and packaging for phonorecords, motion pictures and other audiovisual works.

America is a place where we must encourage diverse ideas, and with that encouragement we must protect those ideas. They are the source of our music, our art, our novels, our movies, our software, all that is American culture and American know-how. The Anticounterfeting Amendments of 2002 give our ideas the protection they deserve.

I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2395

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Anticounterfeiting Amendments of 2002”.

SEC. 2. FINDINGS.

Congress finds that—

(1) American innovation, and the protection of that innovation by the government, has been a critical component of the economic growth of this Nation throughout the history of the Nation;

(2) copyright-based industries represent one of the most valuable economic assets of this country, contributing over 5 percent of the gross domestic product of the United States and creating significant job growth and tax revenues;

(3) the American intellectual property sector employs approximately 4,300,000 people, representing over 3 percent of total United States employment;

(4) the proliferation of organized criminal counterfeiting enterprises threatens the economic growth of United States copyright industries;

(5) the American intellectual property sector has invested millions of dollars to develop highly sophisticated authentication features that assist consumers and law enforcement in distinguishing genuine intellectual property products and packaging from counterfeits;

(6) in order to thwart these industry efforts, counterfeiters traffic in, and tamper with, genuine authentication features, for example, by obtaining genuine authentication features through illicit means and then commingling these features with counterfeit software or packaging;

(7) Federal law does not provide adequate civil and criminal remedies to combat tampering activities that directly facilitate counterfeiting crimes; and

(8) in order to strengthen Federal enforcement against counterfeiting of copyrighted works, Congress must enact legislation that—

(A) prohibits trafficking in, and tampering with, authentication features of copyrighted works; and

(B) permits aggrieved parties an appropriate civil cause of action.

SEC. 3. PROHIBITION AGAINST TRAFFICKING IN ILLICIT AUTHENTICATION FEATURES.

(a) IN GENERAL.—Section 2318 of title 18, United States Code, is amended—

(1) by striking the heading and inserting “TRAFFICKING IN COUNTERFEIT LABELS, ILLICIT AUTHENTICATION FEATURES, OR COUNTERFEIT DOCUMENTATION OR PACKAGING”;

(2) by striking subsection (a) and inserting the following:

“(a) Whoever, in any of the circumstances described in subsection (c), knowingly traffics in—

“(1) a counterfeit label affixed to, or designed to be affixed to—

“(A) a phonorecord;

“(B) a copy of a computer program;

“(C) a copy of a motion picture or other audiovisual work; or

“(D) documentation or packaging;

“(2) an illicit authentication feature affixed to or embedded in, or designed to be affixed to or embedded in—

“(A) a phonorecord;

“(B) a copy of a computer program;

“(C) a copy of a motion picture or other audiovisual work; or

“(D) documentation or packaging; or

"(3) counterfeit documentation or packaging,

shall be fined under this title or imprisoned for not more than 5 years, or both.";

(3) in subsection (b)—

(A) in paragraph (2), by striking "and" at the end;

(B) in paragraph (3)—

(i) by striking "and 'audiovisual work' have" and inserting the following: ", 'audiovisual work', and 'copyright owner' have"; and

(ii) by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following:

"(4) the term 'authentication feature' means any hologram, watermark, certification, symbol, code, image, sequence of numbers or letters, or other physical feature that either individually or in combination with another feature is used by the respective copyright owner to verify that a phonorecord, a copy of a computer program, a copy of a motion picture or other audiovisual work, or documentation or packaging is not counterfeit or otherwise infringing of any copyright;

"(5) the term 'documentation or packaging' means documentation or packaging for a phonorecord, copy of a computer program, or copy of a motion picture or other audiovisual work; and

"(6) the term 'illicit authentication feature' means an authentication feature, that—

"(A) without the authorization of the respective copyright owner has been tampered with or altered so as to facilitate the reproduction or distribution of—

"(i) a phonorecord;

"(ii) a copy of a computer program;

"(iii) a copy of a motion picture or other audiovisual work; or

"(iv) documentation or packaging;

in violation of the rights of the copyright owner under title 17;

"(B) is genuine, but has been distributed, or is intended for distribution, without the authorization of the respective copyright owner; or

"(C) appears to be genuine, but is not.";

(4) in subsection (c)—

(A) by striking paragraph (3) and inserting the following:

"(3) the counterfeit label or illicit authentication feature is affixed to, is embedded in, or encloses, or is designed to be affixed to, to be embedded in, or to enclose—

"(A) a phonorecord of a copyrighted sound recording;

"(B) a copy of a copyrighted computer program;

"(C) a copy of a copyrighted motion picture or other audiovisual work; or

"(D) documentation or packaging; or"; and

(B) in paragraph (4), by striking "for a computer program";

(5) in subsection (d)—

(A) by inserting "or illicit authentication features" after "counterfeit labels" each place it appears;

(B) by inserting "or illicit authentication features" after "such labels"; and

(C) by inserting before the period at the end the following: ", and of any equipment, device, or materials used to manufacture, reproduce, or assemble the counterfeit labels or illicit authentication features"; and

(6) by adding at the end the following:

"(f) CIVIL REMEDIES FOR VIOLATION.—

"(1) IN GENERAL.—Any copyright owner who is injured by a violation of this section or is threatened with injury, may bring a civil action in an appropriate United States district court.

"(2) DISCRETION OF COURT.—In any action brought under paragraph (1), the court—

"(A) may grant 1 or more temporary or permanent injunctions on such terms as the court determines to be reasonable to prevent or restrain violations of this section;

"(B) at any time while the action is pending, may order the impounding, on such terms as the court determines to be reasonable, of any article that is in the custody or control of the alleged violator and that the court has reasonable cause to believe was involved in a violation of this section; and

"(C) may award to the injured party—

"(i) reasonable attorney fees and costs; and

"(ii)(I) actual damages and any additional profits of the violator, as provided by paragraph (3); or

"(II) statutory damages, as provided by paragraph (4).

"(3) ACTUAL DAMAGES AND PROFITS.—

"(A) IN GENERAL.—The injured party is entitled to recover—

"(i) the actual damages suffered by the injured party as a result of a violation of this section, as provided by subparagraph (B); and

"(ii) any profits of the violator that are attributable to a violation of this section and are not taken into account in computing the actual damages.

"(B) CALCULATION OF DAMAGES.—The court shall calculate actual damages by multiplying—

"(i) the value of the phonorecords or copies to which counterfeit labels, illicit authentication features, or counterfeit documentation or packaging were affixed or embedded, or designed to be affixed or embedded; by

"(ii) the number of phonorecords or copies to which counterfeit labels, illicit authentication features, or counterfeit documentation or packaging were affixed or embedded, or designed to be affixed or embedded,

unless such calculation would underestimate the actual harm suffered by the copyright owner.

"(C) DEFINITION.—For purposes of this paragraph, the term 'value of the phonorecord or copy' means—

"(i) the retail value of an authorized phonorecord of a copyrighted sound recording;

"(ii) the retail value of an authorized copy of a copyrighted computer program; or

"(iii) the retail value of a copy of a copyrighted motion picture or other audiovisual work.

"(4) STATUTORY DAMAGES.—The injured party may elect, at any time before final judgment is rendered, to recover, instead of actual damages and profits, an award of statutory damages for each violation of this section in a sum of not less than $2,500 or more than $25,000, as the court considers appropriate.

"(5) SUBSEQUENT VIOLATION.—The court may increase an award of damages under this subsection by 3 times the amount that would otherwise be awarded, as the court considers appropriate, if the court finds that a person has subsequently violated this section within 3 years after a final judgment was entered against that person for a violation of this section.

"(6) LIMITATION ON ACTIONS.—A civil action may not be commenced under this section unless it is commenced within 3 years after the date on which the claimant discovers the violation.

"(g) OTHER RIGHTS NOT AFFECTED.—Nothing in this section shall enlarge, diminish, or otherwise affect liability under section 1201 or 1202 of title 17.".

(b) TECHNICAL AND CONFORMING AMENDMENT.—The item relating to section 2318 in the table of sections at the beginning of chapter 113 of title 18, United States Code, is amended by inserting "or illicit authentication features" after "counterfeit labels".

By Mr. CARPER:

S. 2420. A bill to suspend temporarily the duty on NSMBA; to the Committee on Finance.

Mr. CARPER. Mr. President, I ask unanimous consent that the text of the bills be printed in the RECORD.

There being no objection, the bills were ordered to be printed in the RECORD, as follows:

S. 2396

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PRODIAMINE TECHNICAL.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

"	9902.39.35	Prodiamine technical - 1, 3-benzenediamine, 2,6-dinitro-N1,N1-dipropyl-4-(trifluoromethyl)- (CAS No. 29091-21-2) (provided in subheading 2921.43.80)	Free	No change	No change	On or before 12/31/2005	".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2397

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. THIAMETHOXAM TECHNICAL.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

"	9902.39.35	Thiamethoxam technical -4H-1,3,5-oxadiazin-4-imine, 3-[(2-chloro-5-thiazolyl] methyllletrahydro-5-methyl-N-nitro (CAS No. 153719-23-4) (provided in subheading 2934.10.20)	Free	No change	No change	On or before 12/31/2005	".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2398

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. MIXTURES OF FLUAZINAM.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

"	9902.39.35	Fluazinam mixed with - 2-pyridinamine,3-chloro-N-[3-chloro-2,6-dinitro-4-(trifluoromethyl)phenyl]-5-(trifluoromethyl) (CAS No. 79622-59-6) (provided in subheading 3808.20.15)	Free	No change	No change	On or before 12/31/2005	".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2399

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. BENZYL CARBAZATE.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in the numerical sequence the following new heading:

"	9902.29.48	Phenylmethyl hydrazinecarboxylate (CAS No. 5331-43-1) (provided for in subheading 2928.00.25)	Free	No change	No change	On or before 12/31/2007	".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply with respect to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2400

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ESFENVALERATE TECHNICAL.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in the numerical sequence the following new heading:

"	9902.29.49	(S)-Cyano (3-phenoxy-phenyl)- methyl (S)-4-chloro-α-(1-methyethyl)-benzeneacetate (CAS No. 66230-04-4) (provided for in subheading 2926.90.30)	Free	No change	No change	On or before 12/31/2007	".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply with respect to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2401

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TRIFLUSULFURON METHYL FORMULATED PRODUCT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

"	9902.38.16	Mixtures of methyl 2-[[[[[4-(dimethylamino) -6-(2,2,2-trifluoroethoxy) -1,3,5-triazin-2-yl] -amino]carbonyl] aminc]sulfonyl]-3-methylbenzoate (CAS No. 126535-15-7) and application adjuvants (provided for in subheading 3808.10.15)	Free	No change	No change	On or before 12/31/2007	".

(b) EFFECTIVE DATE.—The amendment made by this section applies with respect to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2402

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AVAUNT AND STEWARD.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

"	9902.38.17	Mixtures of (S)-methyl 7-chloro-2,5-dihydro-2-[[(methoxycarbonyl) [4 (trifluoromethoxy) phenyl] amino]-carbonyl] indeno [1,2-e][1,3,4] oxadiazine-4a-(3H)-carboxylate (CAS Nos. 144171-61-9 and 173584-44-6) and application adjuvants (provided for in subheading 3808.10.25)	Free	No change	No change	On or before 12/31/2007	".

(b) EFFECTIVE DATE.—The amendment made by this section applies with respect to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2403

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. 50% HOMOPOLYMER, 3-(DIMETHYLAMINO) PROPYL AMIDE, DIMETHYL SULFATE-QUATERNIZED 50% POLYRICINOLEIC ACID.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

"	9902.38.34	50% homopolymer, 3-(dimethylamino) propyl amide, dimethyl sulfate-quaternized 50% polyricinoleic acid (provided for in subheading 3824.90.40.90)	Free	No change	No change	On or before 12/31/2007	".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2404

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. BLACK CPW STAGE, 2,7-NAPHTHALENE DISULFONIC ACID, 4-AMINO-3-[[4-[[-4-[(2 OR 4 –AMINO-4 OR 2-HYDROXYPHENYL)AZO] PHENYL]AMINO]-3- SULFOPHENYL]AZO]-5-HYDROXY-6-(PHENYLAZO)-TRISODIUM SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.40	Black CPW stage, 2,7-naphthalene disulfonic acid, 4-amino-3-[[4-[[-4-[(2 or 4 -amino-4 or 2-hydroxyphenyl)azo] phenyl]amino]-3- sulfophenyl]azo]-5-hydroxy-6-(phenylazo)-trisodium salt. (CAS No. 85631-88-5) (provided for in subheading 3204.14.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2405

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FAST BLACK 287 NA PASTE, 1,3-BENZENEDICARBOXYLIC ACID, 5-[[4-[(7-AMINO-1-HYDROXY-3-SULFO-2-NAPHTHALENYL)AZO]-1-NAPHTHALENYL]AZO]-, TRISODIUM SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.35	Fast black 287 NA paste, 1,3-benzenedicarboxylic acid, 5-[[4-[(7-amino-1-hydroxy-3-sulfo-2-naphthalenyl)azo]-1-naphthalenyl]azo]-, trisodium salt. (CAS No. not available) (provided for in subheading 3204.14.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2406

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FAST BLACK 287 NA LIQUID FEED, 1,3-BENZENEDICARBOXYLIC ACID, 5-[[4-[(7-AMINO-1-HYDROXY-3-SULFO-2-NAPHTHALENYL)AZO]-1-NAPHTHALENYL]AZO]-, TRISODIUM SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.35	Fast black 287 NA liquid feed, 1,3-benzenedicarboxylic acid, 5-[[4-[(7-amino-1-hydroxy-3-sulfo-2-naphthalenyl)azo]-1-naphthalenyl]azo]-, trisodium salt. (CAS No. not available) (provided for in subheading 3204.14.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2407

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FAST YELLOW 2 STAGE, 1,3-BENZENEDICARBOXYLIC ACID, 5,5′-[[6-(4-MORPHOLINYL)-1,3,5-TRIAZINE-2,4-DIYL]BIS(IMINO-4,1-PHENYLENEAZO)]BIS-, AMMONIUM/SODIUM/HYDROGEN SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.36	Fast yellow 2 stage, 1,3-benzenedicarboxylic acid, 5,5′-[[6-(4-morpholinyl)-1,3,5-triazine-2,4-diyl]bis(imino-4,1-phenyleneazo)]bis-, ammonium/sodium/hydrogen salt. (CAS No. not available) (provided for in subheading 3215.19.00.60)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2408

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CYAN 1 RO FEED, COPPER, [29H,31H-PHTHALOCYANINATO(2-)-N29,N30,N31,N32]-, AMINOSULFONYL SULFO DERIVATIVES, SODIUM SALTS.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.37	Cyan 1 RO feed, copper, [29H,31H-phthalocyaninato(2-)-N29,N30,N31,N32]-, aminosulfonyl sulfo derivatives, sodium salts. (CAS No. 90295-11-7) (provided for in subheading 3204.14.50)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2409

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CYAN 1 STAGE, COPPER, [29H,31H- PHTHALOCYANINATO(2-)-N29,N30,N31,N32]-, AMINOSULFONYL SULFO DERIVATIVES. TETRA METHYL AMMONIUM SALTS.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.41	Cyan 1 stage, copper, [29H,31H-phthalocyaninato(2-)-N29,N30,N31,N32]-, aminosulfonyl sulfo derivatives. Tetra methyl ammonium salts. (CAS No. not available) (provided for in subheading 3204.14.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2410

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CYAN 1 OF STAGE, COPPER, [29H,31H-PHTHALOCYANINATO(2-)-N29,N30,N31,N32]-, AMINOSULFONYL SULFO DERIVATIVES, SODIUM SALTS.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.42	Cyan 1 OF stage, copper, [29H,31H-phthalocyaninato(2-)-N29,N30,N31,N32]-, aminosulfonyl sulfo derivatives, sodium salts. (CAS No. 90295-11-7) (provided for in subheading 3204.14.50)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2411

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CYAN 9075 STAGE, COPPER, [29H,31H-PHTHALOCYANINATO(2-)-N29,N30,N31,N32]-, AMINOSULFONYL SULFO DERIVATIVES, SODIUM SALTS.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.43	Cyan 9075 stage, copper, [29H,31H-phthalocyaninato(2-)-N29,N30,N31,N32]-, aminosulfonyl sulfo derivatives, sodium salts. (CAS No. 90295-11-7) (provided for in subheading 3204.14.50)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2412

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. YELLOW 1 STAGE, 1,5-NAPHTHALENEDISULFONIC ACID, 3,3′-[[6-[(2-HYDROXYETHYL)AMINO]-1,3,5-TRIAZINE-2,4-DIYL]BIS[IMINO(2-METHYL-4,1-PHENYLENE)AZO]]BIS-, TETRASODIUM SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.39	Yellow 1 stage, 1,5-naphthalenedisulfonic acid, 3,3′-[[6-[(2-hydroxyethyl)amino]-1,3,5-triazine-2,4-diyl]bis[imino(2-methyl-4,1-phenylene)azo]]bis-, tetrasodium salt. (CAS No. 50925-42-3 (confidential TSCA listing)) (provided for in subheading 3204.14.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2413

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. YELLOW 1 G STAGE, BENZENESULFONIC ACID, 3,3′-[CARBONYLBIS[IMINO(3-METHOXY-4,1-PHENYLENE)AZO]]BIS-, DISODIUM SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.38	Yellow 1 G stage, benzenesulfonic acid, 3,3′-[carbonylbis[imino(3-methoxy-4,1-phenylene)azo]]bis-, disodium salt. (CAS No. 10114-86-0) (provided for in subheading 3204.14.50)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2414

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. YELLOW 746 STAGE, 1,3-BIPYRIDIRIUM, 3-CARBOXY-5′-[(2-CARBOXY-4-SULFOPHENYL)AZO]-1′,2′, DIHYDRO-6′-HYDROXY-4′-METHYL-2′-OXO-, INNER SALT, LITHIUM/SODIUM SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.44	Yellow 746 stage, 1,3-bipyridirium, 3-carboxy-5′-[(2-carboxy-4-sulfophenyl)azo]-1′,2′, dihydro-6′-hydroxy-4′-methyl-2′-oxo-, inner salt, lithium/sodium salt. (CAS No. not available) (provided for in subheading 3204.14.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2415

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. BLACK SCR STAGE, 2,7-NAPHTHALENE DISULFONIC ACID, 4-AMINO-3-[[4-[[-4-[(2 OR 4 -AMINO-4 OR 2-HYDROXYPHENYL)AZO]*COM003*PHENYL]AMINO]-3-SULFOPHENYL] AZO]-5-HYDROXY-6-(PHENYLAZO)-TRISODIUM SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.47	Black SCR stage, 2,7-naphthalene disulfonic acid, 4-amino-3-[[4-[[-4-[(2 or 4 -amino-4 or 2-hydroxyphenyl)azo] phenyl]amino]-3-sulfophenyl] azo]-5-hydroxy-6-(phenylazo)-trisodium salt. (CAS No. 85631-88-5) (provided for in subheading 3204.14.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2416

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. MAGENTA 3B-OA STAGE, 2-[[4-CHLORO-6[[8-HYDROXY-3,6-DISULPHONATE-7-[(1-SULPHO-2-NAPHTHALENYL) AZO]-1-NAPHTHALENYL] AMINO]-1,3,5-TRIAZIN-2-YL]AMINO]-5-SULPHOBENZOIC ACID, SODIUM/LITHIUM SALTS.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.45	Magenta 3B-OA stage, 2-[[4-chloro-6[[8-hydroxy-3,6-disulphonate-7-[(1-sulpho-2-naphthalenyl) azo]-1-naphthalenyl] amino]-1,3,5-triazin-2-yl]amino]-5-sulphobenzoic acid, sodium/lithium salts. (CAS No. 12237-00-2) (provided for in subheading 3204.16.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2417

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. YELLOW 577 STAGE, 5-[4-[4-[4-(4,8-DISULFONAPHTHALEN-2-YLAZO)-PHENYLAMINO]-6-(2-SULFOETHYLAMINO)-[1,3,5]TRIAZIN-2-YLAMINO]PHENYLAZO]ISOPHTHALIC ACID/SODIUM SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.46	Yellow 577 stage, 5-{4-[4-[4-(4,8-disulfonaphthalen-2-ylazo)-phenylamino]-6-(2-sulfoethylamino)-[1,3,5]triazin-2-ylamino] phenylazo}isophthalic acid/sodium salt. (CAS No. not available) (provided for in subheading 3204.14.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2418

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CYAN 485/4 STAGE, COPPER, [29H,31H-PHTHALOCYANINATO (2-)- XN29,XN30,XN31,XN32]-AMINOSYLFONYL [(2-HYDROXYETHYL)AMINO] SULFONYL SULFO DERIVATIVES, SODIUM SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

“	9902.39.48	Cyan 485/4 stage, copper, [29H,31H-phthalocyaninato (2-)- xN29,xN30, xN31,xN32] -aminosylfonyl [(2-hydroxyethyl)amino] sulfonyl sulfo derivatives, sodium salt. (CAS No. not available) (provided for in subheading 3204.14.30)	Free	No change	No change	On or before 12/31/2007	”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2419

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. R118118 SALT.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

"	9902.39.35	R118118 Salt - benzoic acid, 3-[2-chloro-4-(trifluoromethyl) phenoxy]-(CAS No. 63734-62-3) (provided in subheading 2918.90.20)	Free	No change	No change	On or before 12/31/2005	".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

S. 2420

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. NSMBA.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

"	9902.39.35	NSMBA - Benzoic acid, 4-(methylsulfonyl)-2-nitro (CAS No. 110964-79-9) (provided in subheading 2916.39.45)	Free	No change	No change	On or before 12/31/2005	".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of enactment of this Act.

By Mr. FEINGOLD (for himself and Mr. DOMENICI):

S. 2421. A bill to amend section 402A of the Higher Education Act of 1965 to define the terms different campus and different population; to the Committee of Health, Education, Labor, and Pensions.

Mr. FEINGOLD. Mr. President, I rise today with my colleague from New Mexico to introduce the TRIO Education Access Act of 2002, which will improve access to higher education by ensuring that these programs are available to all those in need.

While many students in my State benefit immensely from the TRIO programs, misguided regulations are preventing Wisconsin's two year colleges from receiving funds to begin more than one TRIO program for the entire State.

Many students today dream of going to college, but the things that can put college out of reach for some students don't always get the attention that they deserve. Students who face these additional barriers to higher education need a helping hand, and thanks to the TRIO Program, more students are getting the help they need.

The TRIO Program was so named because there were originally three programs, all of which had roots dating back to Lyndon Johnson's administration in the 1960s. Today TRIO consists of eight programs that offer vital advice and academic support to middle and high school students hoping to get into college, and it continues to offer that support to students after they enter college and begin working toward their diploma.

Many Federal education programs have come and gone, but the TRIO programs have not only survived, they've thrived and expanded to aid more than 10 million Americans.

In my home State of Wisconsin, many students at the University of Wisconsin's two-year colleges could reap tremendous benefits from the services the TRIO programs have to offer.

But today, because of the way that TRIO grants are structured, UW's 13 two-year colleges can only be considered for TRIO grants collectively, instead of applying for grants to serve each campus.

The Department of Education has ruled that the unique structure of the University of Wisconsin's two-year system, a centrally run system with 13 branch campuses, does not meet the criteria of having "independent" campuses.

This decision deeply concerns me, as the Federal Government is simply penalizing UWs' two-year colleges simply because of their administrative structure.

As a result of the Department of Education's decision, only one TRIO Program, the Student Support Services Program, is available to these two-year colleges. UW—Waukesha is home to a thriving Student Support Services Program, which offers students counseling and vital academic support and skills development.

But UW's two-year colleges deserve to have access to all the TRIO Programs available to four-year institutions, such as Upward Bound, Talent Search, and Educational Opportunity Centers.

In different ways, each of these programs has helped students break through difficult economic or physical circumstances to successfully enter and graduate from college. Students in the Upward Bound program are four times more likely to earn an undergraduate degree than those students from similar backgrounds who did not participate in TRIO.

Students in the TRIO Student Support Services program are more than twice as likely to remain in college than those students from similar backgrounds who did not participate in the program.

By discriminating against the unique structure of the University of Wisconsin's two year colleges, the Department of Education hurts the very population the TRIO Programs aim to serve.

That's why it's so important that the rules at the Department of Education be changed, so that Wisconsin's two-year colleges have the opportunity to apply individually for the TRIO grants they see fit.

By clarifying the "Different Campus" and "Different Population of Participants" in the TRIO regulations, this legislation makes UW's two-year colleges eligible for all the programs TRIO has to offer. No definition or regulation should get in the way of qualified Wisconsin students gaining access to TRIO programs and the chance to earn a college degree.

I have heard from many Wisconsinites who have shared their personal stories about how TRIO had made a difference in their lives. TRIO offers hope to millions of students across the country who dream of a college education, and students at the University of Wisconsin's two-year colleges should be no exception. Waukesha can be proud of the TRIO program that has served so many students at UW-Waukesha.

Now it's time to give UW-Waukesha, and other two-year colleges around my State, an opportunity to open more

TRIO programs, and open the doors of higher education to more Wisconsin students.

I urge my colleagues to co-sponsor this legislation.

By Mr. BAYH (for himself and Mr. BROWNBACK):

S. 2425. A bill to prohibit United States assistance and commercial arms exports to countries and entities supporting international terrorism; to the Committee on Foreign Relations.

Mr. BAYH. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2425

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "International Cooperative Antiterrorism Act of 2002".

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The use of terrorism is detestable and an illegitimate means of political expression.

(2) International terrorist organizations pose a direct threat to the United States, and this threat is becoming more acute and more difficult to prevent.

(3) The threat from international terrorism is made far more dangerous by the proliferation of chemical, biological, and radiological weapons and the means to produce those weapons.

(4) The prosecution of the war against international terrorist organizations must continue until the threat they pose to the people and interests of the United States is eliminated.

(5) The United States can only win the war against terrorism if it receives cooperation from other countries and entities.

(6) Protecting the United States homeland and United States interests overseas from terrorism is of the highest priority in the foreign relations of the United States.

(7) Cooperation in the global war against international terrorism must be a primary focus of United States foreign relations, United States assistance, and international security relations.

(8) Winning the global war against international terrorism requires cooperation from the international community, especially in the areas of preventing the financing of terror, sharing information on international terror networks, eliminating terror cells, and in preventing the promotion of virulent anti-Americanism with the intent to incite violence and the glorification of terrorism in state-owned media and state-controlled schools.

(9) The promotion of terrorism, intolerance, and virulent anti-Americanism in state-owned media and state-controlled education systems is abhorrent and poses a long-term threat to the safety and security of the United States as well as the community of nations.

(10) All countries and entities must be encouraged to cooperate in the global war against international terrorism.

(11) Some foreign governments and entities are doing little to counter proterrorist and prointolerance messages to mass audiences, including to school age children.

(12) Countries providing direct or indirect assistance to international terrorist organizations undermine the direct security interests of the United States.

(13) Countries demonstrating indifference to or providing actual endorsement of international terror as a legitimate political tool make a direct threat to the security interests of the United States.

(14) United States economic assistance programs and the transfer of United States Munitions List items are a critical tool of United States foreign policy and winning the global war against international terrorism.

(15) Countries receiving United States assistance and the export of items on the United States Munitions List should be expected to support the global war against international terror.

(16) Several existing laws, including the USA Patriot Act of 2001, the Antiterrorism and Effective Death Penalty Act of 1996, the Foreign Assistance Act of 1961, the Arms Export Control Act, and the Export Administration Act of 1979 (or successor statute), prohibit the provision of United States assistance, and the licensing for export of items on the United States Munitions List, to countries supporting terror or not fully cooperating in antiterror efforts of the United States. It would be appropriate in the implementation of these laws to apply the definition of "fully cooperative in the global war against international terrorism" set forth in this Act, including preventing promotion of terror in state-owned and state-controlled media and educational systems.

SEC. 3. STATEMENT OF POLICY.

It shall be the policy of the United States that—

(1) no United States economic assistance, other than humanitarian assistance, may be provided to any foreign country or entity that is not making a maximum effort to be fully cooperative in the global war against international terrorism; and

(2) no license for export of an item on the United States Munitions List to a country or entity may be issued if that country or entity is not making a maximum effort to be fully cooperative in the global war against international terrorism.

SEC. 4. PROHIBITION ON UNITED STATES ECONOMIC ASSISTANCE AND COMMERCIAL ARMS EXPORTS.

(a) UNITED STATES ECONOMIC ASSISTANCE.—If the President determines that a country or entity is not making a maximum effort to be fully cooperative in the global war against international terrorism—

(1) no United States economic assistance may be provided to such country or entity; and

(2) the United States shall oppose and vote against any lending from any international financial institution, including the World Bank, the International Monetary Fund, the Asian Development Bank, or other related institutions to such country or entity.

(b) COMMERCIAL ARMS EXPORTS.—No license for the export of an item on the United States Munitions List to any country or entity may be issued if the President determines that such country or entity is not making a maximum effort to be fully cooperative in the global war against international terrorism.

SEC. 5. REQUIREMENT FOR AN ANNUAL REPORT.

(a) REQUIREMENT FOR REPORT.—The President, in consultation with the Secretary of State, the Secretary of the Treasury, the Administrator of the United States Agency for International Development, and the Director of Central Intelligence, shall prepare an unclassified annual report that—

(1) contains a list of each country or entity for which the President has determined that there is credible evidence that such country or entity is not being fully cooperative in the global war against international terrorism under section 4; and

(2) describes for each country or entity listed under paragraph (1)—

(A) the specific failures of each country or entity to be fully cooperative in the global war against international terrorism;

(B) the reasons why such country or entity is not fully cooperative;

(C) the efforts being made by the United States Government to promote greater adherence by such countries or entities with the global war against international terrorism; and

(D) any removal of a country or entity from the list in paragraph (1).

(b) TRANSMISSION TO CONGRESS.—

(1) REPORT.—The report required by this section shall be submitted to Congress every year as a section of the annual country reports on terrorism required by section 140(a) of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (22 U.S.C. 2656(f)).

(2) BRIEFING.—The President shall make the appropriate officials available to provide a classified briefing to the appropriate committees of Congress if such committees request additional clarifying details on why a country or entity is listed under subsection (a)(1).

SEC. 6. PRESIDENTIAL WAIVER.

United States economic assistance or exports prohibited by section 4 may be provided to a country or entity described in that section if the President—

(1) determines that permitting such assistance or exports is important to the national security interests of the United States; and

(2) not later than 15 days before permitting such assistance or exports, furnishes a report describing the United States economic assistance or exports to be provided to the appropriate committees of Congress.

SEC. 7. DEFINITIONS.

In this Act:

(1) EXPRESSION OF SUPPORT FOR TERRORISM AGAINST THE UNITED STATES.—The term "expression of support for terrorism against the United States" means a pattern of actions or expressions that are designed to provoke or incite anti-American violence, advocate international terrorism, or to glorify the use of violence against citizens or government officials of the United States.

(2) FULLY COOPERATIVE IN THE GLOBAL WAR AGAINST INTERNATIONAL TERRORISM.—The term "fully cooperative in the global war against international terrorism" means a country or entity that has the necessary legal framework and, to the maximum extent possible, is enforcing efforts to—

(A) prevent the knowing financing of terrorism, including preventing—

(i) direct financial payments to any terrorist organization;

(ii) any terrorist organization or any entity supporting a terrorist organization from receiving financial services such as brokering, lending, or transferring currency or credit;

(iii) any person from soliciting funds or items of value for a terrorist group; and

(iv) any humanitarian or other nongovernmental organization from providing financial support to terrorist organizations;

(B) share intelligence information with the United States, including—

(i) releasing information to the United States related to any terrorist organization;

(ii) cooperating in investigations conducted by the United States; and

(iii) providing, to the extent possible, access to individuals suspected of or supporting terrorist organizations to United States investigators; and

(C) act against terrorist organizations, including—

(i) preventing terrorist organizations from committing or inciting to commit terrorist acts against the United States or its interests overseas;

(ii) preventing terrorist organizations from operating safe houses or providing transportation, communication, documentation, identification, weapons (including chemical, biological, or radiological weapons), explosives, or training to terrorists; and

(iii) in the cases of a country—

(I) investigating suspected terrorists within its national territory;

(II) enforcing international agreements and United Nations Security Council Resolutions against terrorism; and

(III) curbing any domestic expression of support for terrorism against the United States and its allies in state-owned media, state-sanctioned gatherings, state-governed religious institutions, and state-sanctioned school and textbooks.

(3) HUMANITARIAN ASSISTANCE.—The term "humanitarian assistance" means any humanitarian goods and services, including foodstuffs, medicines, and health assistance programs.

(4) TERRORIST ORGANIZATION.—The term "terrorist organization" means an organization designated as a foreign terrorist organization by the Secretary of State under section 219 of the Immigration and Nationality Act (8 U.S.C. 1189).

(5) UNITED STATES ECONOMIC ASSISTANCE.—The term "United States economic assistance" means—

(A) any assistance under the Foreign Assistance Act of 1961 (including programs under title IV of chapter 2, relating to the Overseas Private Investment Corporation);

(B) sales, or financing on any terms, under the Arms Export Control Act;

(C) the provision of agricultural commodities, other than food, under the Agricultural Trade Development and Assistance Act of 1954;

(D) financing under the Export-Import Bank Act of 1945; and

(E) does not include humanitarian assistance or other assistance that is intended to support cooperative antiterrorism, peacekeeping, counter-narcotics, nonproliferation and counter-proliferation programs, or funding for nongovernmental organizations promoting education and democratic institutions.

(6) UNITED STATES MUNITIONS LIST.—The term "United States Munitions List" means the defense articles and defense services controlled by the President under section 38 of the Arms Export Control Act (22 U.S.C. 2778).

By Mr. KERRY (for himself, Ms. SNOWE, Mr. HOLLINGS, Mr. STEVENS, Mr. BREAUX, Mr. MURKOWSKI, Mr. SARBANES, Mr. REED, and Mr. FEINGOLD):

S. 2428. A bill to amend the National Sea Grant College Program Act; to the Committee on Commerce, Science, and Transportation.

Mr. KERRY. Mr. President, I rise today to introduce with my colleagues, Ms. SNOWE, Mr. HOLLINGS, Mr. STEVENS, Mr. BREAUX, Mr. SARBANES, Mr. REED and Mr. FEINGOLD the National Sea Grant College Program Act Amendments of 2002, legislation to reauthorize the National Sea Grant College Program Act.

Congress established the Sea Grant program back in 1966. Since that time Sea Grant has provided the Administration and Congress a comprehensive vehicle that engages our best universities to respond to complex and changing ocean, coastal, and Great Lakes issues. The 31 Sea Grant programs, located in coastal and Great Lakes States and Puerto Rico, serve as the core of this dynamic national network of over 300 participating institutions involving more than 3,000 scientists, engineers, educators, students, and outreach experts.

Sea Grant's legislative charge is to "increase the understanding, assessment, development, utilization, and conservation of the nation's ocean and coastal resources by providing assistance to promote a strong education base, responsive research and training activities, and broad and prompt dissemination of knowledge and techniques". Sea Grant has consistently proven its value to taxpayers as a program that supports rigorous, high quality research that is directly responsive to the concerns of coastal constituents. The Sea Grant Program brings academic creativity and expertise to bear on a host of issues affecting the oceans, coasts and Great Lakes.

Most decisions that affect the coastal environment are made locally, and, through the Sea Grant Colleges, the federal government has the ability to partner with state and local constituencies to address national problems at state and local levels. Moreover, many coastal issues cross State jurisdictions and need to be addressed regionally. In addition to its state-based infrastructure, Sea Grant has developed a system of regional networks for organizing multi-state responses to regional/ecosystem-level problems.

The current administration proposed moving the Sea Grant program from the National Oceanic and Atmospheric Administration, NOAA, to the National Science Foundation, NSF. I do not support such a move. The Sea Grant program has been a success in NOAA and one has to wonder if something is not broke why should we fix it. This is obviously the case with Sea Grant and I see no reason why we should move the program from NOAA to NSF.

Allow me for a moment to point out one area where the Sea Grant/NOAA partnership is working. As Chairman of the Oceans, Fisheries and Atmosphere Subcommittee I know first-hand the struggles that commercial fishermen face as we try and rebuild our stocks. Sea Grant is currently working in coastal communities to better document the social and economic impacts of fishery regulations on communities, so that we can develop regulations that not only preserve and protect are valuable marine resources but also protect the fabric of our coastal communities. As you may know, the National Marine Fisheries Service is one of five line offices within NOAA, that is charged with regulating all of our domestic commercial fisheries. One thing that all of us from coastal states will agree on is the need to improve our knowledge of fishing communities and how regulations affect the lives of the people who live there.

A unique feature of the existing National Sea Grant College Program Act, which is maintained through this reauthorization bill, is that the majority of grants awarded require that every $2 of federal funds be matched by $1 of non-federal funds that are usually provided by host universities, as well as state or local governments, thus providing outstanding leverage as well as strong regional support for the federal funds awarded.

Because Sea Grant is non-regulatory and science-based, it serves as an "honest broker" among a wide range of constituents. In an age that emphasizes multi-disciplinary, goal-oriented, performance-measured partnerships, Sea Grant has demonstrated its capability to effectively deliver relevant science and services.

In short, Sea Grant offers numerous economic opportunities, problem-solving processes and programmatic efficiencies for the federal government to achieve its marine and coastal science agenda. Based on the Sea Grant College Program's remarkable capabilities, excellent track record, and cost effective use of federal funds, I ask for your support in quick passage of this reauthorization bill.

I ask unanimous consent the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2428

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Sea Grant College Program Act Amendments of 2002".

SEC. 2. AMENDMENTS TO FINDINGS.

FINDINGS.—Section 202(a)(6) of the National Sea Grant College Program Act (33 U.S.C. 1121(a)(6)) is amended by striking the period at the end and inserting ", including strong collaborations between Administration scientists and scientists at academic institutions.".

SEC. 3. REQUIREMENTS APPLICABLE TO NATIONAL SEA GRANT COLLEGE PROGRAM.

(a) QUADRENNIAL STRATEGIC PLAN.—Section 204 (c)(1) of the National Sea Grant College Program Act (33 U.S.C. 1123 (c)(1)) is amended to read as follows: "The Secretary, in consultation with the panel, sea grant colleges, and sea grant institutes, shall develop at least every 4 years a strategic plan which establishes priorities for the national sea grant college program, provides an appropriately balanced response to local, regional, and national needs, and is reflective of integration with the strategic plans of the Department of Commerce and of NOAA.".

(b) Allocation of Funding.—Section 204(d)(3)(B) of the National Sea Grant College Program Act (33 U.S.C. 1123(d)(3)(B)) is amended.—

(1) by striking "and" after the semicolon at the end of clause (ii);

(2) by adding at the end the following:

"(iv) encourage and promote coordination and cooperation between the research, education, and outreach programs of the Administration and those of academic institutions; and".

(c) Ensuring Equal Access.—Section 208(a) of such Act (33 U.S.C. 1127(a)) is amended by adding at the end the following: "The Secretary shall strive to ensure equal access for minority and economically disadvantaged students to the program carried out under this subsection.".

SEC. 4. TERMS OF MEMBERSHIP FOR SEA GRANT REVIEW PANEL.

Section 209(c)(2) of the National Sea Grant College Program Act (33 U.S.C. 1128(c)(2)) is amended by striking the first sentence and inserting the following: "The term of office of a voting member of the panel shall be 3 years for a member appointed before the date of enactment of the National Sea Grant College Program Act Amendments of 2002, and 4 years for a member appointed or reappointed after the date of enactment of the National Sea Grant College Program Act Amendments of 2002. The Director may extend the term of office of a voting member of the panel appointed before the date of enactment of the National Sea Grant College Program Act Amendments of 2002 by up to 1 year.".

SEC. 5. AUTHORIZATION OF APPROPRIATIONS.

(a) In General.—Subsections (a) and (b) of section 212 of the National Sea Grant College Program Act (33 U.S.C. 1131) are amended to read as follows:

"(a) Authorization.—

"(1) In general.—There are authorized to be appropriated to the Secretary to carry out this title—

"(A) $75,000,000 for fiscal year 2004;

"(B) $77,500,000 for fiscal year 2005;

"(C) $80,000,000 for fiscal year 2006;

"(D) $82,500,000 for fiscal year 2007; and

"(E) $85,000,000 for fiscal year 2008.

"(2) Priority research.—In addition to the amount authorized under paragraph (1), there are authorized to be appropriated for each of fiscal years 2004 through 2008—

"(A) $5,000,000 for competitive grants for university research on biology and control of zebra mussels and other important non-native species as identified in section 1301(b)(4)(A) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4171(b)(4)(A));

"(B) $5,000,000 for competitive grants for university research on oyster diseases, oyster restoration, and oyster-related human health risks;

"(C) $5,000,000 for competitive grants for university research on the biology, prevention, and forecasting of harmful algal blooms, including Pfiesteria piscicida; and

"(D) $3,000,000 for competitive grants for research contributing to the fisheries extension program to enhance, not supplant, existing core program funding.

"(b) Limitations.—

"(1) Administration.—There may not be used for administration of programs under this title in a fiscal year more than 5 percent of the lesser of—

"(A) the amount authorized to be appropriated under this title for the fiscal year; or

"(B) the amount appropriated under this title for the fiscal year.

"(2) Use for other offices or programs.—Sums appropriated under the authority of subsection (a)(2) shall not be available for administration of this title by the National Sea Grant Office, for any other Administration or department program, or for any other administrative expenses.".

(b) Distribution of Funds.—Such section is further amended by striking subsection (c) and inserting the following:

"(c) Distribution of Funds.—In any fiscal year in which the appropriations made pursuant to subsection (a)(1) exceed the amounts appropriated for fiscal year 2003 for the purposes described in such subsection, the Secretary shall distribute the excess amounts (except amounts used for the administration of programs) solely to—

"(1) State sea grant programs on a merit reviewed, competitive basis to support, enhance, and reward programs that are best managed and carry out the highest quality research, education, extension, and training programs; and

"(2) national strategic initiatives.".

By Mr. HUTCHINSON (for himself, Mr. Craig, Mr. Enzi, Mr. Gregg, Mr. Hagel, Mr. Inhofe, and Mr. Smith of New Hampshire):

S. 2429. A bill to amend the Internal Revenue Code of 1986 to allow an above-the-line deduction from certain expenses in connection with the determination, collection, or refund of any tax; to the Committee on Finance.

Mr. HUTCHINSON. Mr. President, I rise today to introduce legislation that will help ease the financial burden for the millions of Americans that find themselves extremely confused and frustrated every year as they try to prepare their tax returns. This year's tax filing deadline expired on April 15 for most American taxpayers, and the 17,000-page, 2.8 million-word tax code was more complex than ever. One estimate is that it now takes 28 hours and six minutes to tackle the Internal Revenue Service's 1040 form and do the necessary record keeping.

According to the Tax Foundation, it is estimated that in 2002, individuals and small businesses will spend approximately 5.8 billion hours complying with the Federal income tax code, with an estimated compliance cost of over $194 billion. This amounts to imposing a more than 20 cent tax compliance surcharge for every dollar the tax system collects. By 2007, the compliance surcharge is conservatively estimated at $244.3 billion. Under current law, there is a way for those taxpayers who itemize and accumulate tax preparation fees up to at least 2 percent of their Adjusted Gross Income to receive a financial break from the IRS to help offset the cost of having a tax preparer calculate their tax. The problem is that there are millions more low- or middle-income individuals and small business owners trying to decipher the same complicated instructions and forms, for which there is no tax break.

Since 1985, we have more than doubled the pages in the instruction booklet that accompanies the 1040. In response to this increased complexity, American taxpayers are seeking professional help at a record level that equals almost 60 percent of all returns filed. I believe it is time that we acknowledge how difficult our current tax system has become and help the millions of Americans who have to look to outside help in filing their yearly tax returns. I suggest that since the Federal Government is the party responsible for creating this overly complicated code, it is the Federal Government that should bear the burden of the costs that are incurred in its compliance.

My proposal is simple, my legislation provides for the expenses that are incurred by a taxpayer in having their return prepared to be fully deducted. This would be treated as an above-the-line deduction and would allow for anyone who pays for these services to deduct up to $500 of these costs. Further, for those who already qualify to have their preparation cost be deducted because they reach the 2 percent threshold, they can opt not to have this deduction apply and continue to have their tax preparation fees be deducted under the current guidelines.

I believe the legislation that I have introduced today will provide much needed relief to the millions of American taxpayers that are forced to comply with this complex code. I ask my colleagues for their support.

I ask unanimous consent that the text of the legislation be printed in the Record.

There being no objection, the bill was ordered to be printed in the Record, as follows:

S. 2429

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ABOVE-THE-LINE DEDUCTION FOR CERTAIN EXPENSES IN CONNECTION WITH THE DETERMINATION, COLLECTION, OR REFUND OF ANY TAX.

(a) Deduction Allowed Whether or Not Taxpayer Itemizes Other Deductions.—Section 62(a) of the Internal Revenue Code of 1986 (defining adjusted gross income) is amended by inserting after paragraph (18) the following new paragraph:

"(19) Certain tax expenses.—Unless the taxpayer elects to not have this paragraph apply, the deduction allowed by paragraph (3) of section 212 with respect to so much of the expenses described in such paragraph as does not exceed $500.".

(b) Effective Date.—The amendment made by this section shall apply to expenses paid or incurred in taxable years beginning after the date of the enactment of this Act.

By Mr. BREAUX (for himself, Mr. Nickles, Mr. Cleland, Mr. Brownback, Mr. Miller, Mrs. Hutchison, and Mr. Hutchinson):

S. 2430. A bill to provide for parity in regulatory treatment of broadband services providers and of broadband access services providers, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. BREAUX. Mr. President, I rise today along with Senators NICKLES, CLELAND, BROWNBACK, MILLER, HUTCHISON, and HUTCHINSON to introduce legislation that is designed to rejuvenate the struggling telecommunications and high-tech sectors of our economy. The Broadband Regulatory Parity Act of 2002 requires the Federal Communications Commission, FCC, to adopt rules that establish a level playing field for all broadband service providers in order to spur investment in broadband technology and to ensure that consumers can obtain the benefits of free and open competition.

Federal and State regulations on the books today governing high-speed Internet access are based largely on an outdated view of the telecom and high-tech industry. Both Federal and State regulators continue to view the emerging broadband market through different sets of eyes, focusing their regulatory policies on the type of provider rather than the type of service. Cable, wireless, and satellite providers face no regulation of their broadband networks, while telephone companies are heavily regulated. The effect of this disparate regulatory treatment among providers has been to construct a barrier to new investment in broadband networks by incumbent local telephone companies.

I am not alone in calling on the FCC to level the regulatory playing field for broadband providers. Several weeks ago, the High Tech Broadband Coalition, a group comprised of six leading trade associations representing the computer, telecommunications equipment, semiconductor, consumer electronics, software and manufacturing industries, filed comments with the FCC requesting the removal of burdensome, outdated regulations that are hindering investment and limiting competition in high-speed Internet access.

In order to promote free and fair competition in the broadband market, my legislation requires the FCC to promulgate regulations, within 120 days of enactment, to achieve regulatory parity between broadband services providers and facilities. The key provision in my bill is, I believe, the 120-day requirement for FCC action. The FCC, to its credit, is attempting by means of a tortuously slow process to move in the direction of regulatory parity among broadband services and providers. Once the FCC completes action on its rulemakings, however, its orders will certainly be appealed, just as the FCC's March 14, 2002, order declaring cable modem service to be an information service has already been appealed to the United States Court of Appeals for the Ninth Circuit. To effect this needed regulatory parity, we need the expert agency to accomplish this reform with the necessary fine tuning that will further the public interest, but we need the force of Congressional action to bring about prompt results. I urge prompt action on this legislation.

Mr. NICKLES. Mr. President, I'm pleased to join Senator BREAUX today to introduce a bill that will allow all providers of broadband services to compete under the same rules and regulations. This bill will bring certainty to the regulatory environment ensuring more Americans will have a choice in their broadband service provider.

Access to broadband is crucial to consumers and communities in today's economy. High-speed connections to the Internet can provide a lifeline to small businesses, schools and hospitals, and can help communities prosper and grow in the Information Age.

But unfortunately, different rules for competing high-speed Internet companies are stifling competition. Phone companies that offer the same service as wireless, satellite, and cable companies face different rules and regulations that raise costs and slow innovation. These rules make it more difficult and expensive for phone companies to provide broadband service, leaving millions of consumers without access to high-speed connections and millions more with only one choice.

This service disparity is growing wider, and dozens of communities are at risk of being left behind, especially rural areas and inner-city neighborhoods. This bill will help close the Digital Divide and help ensure that all Americans have choices for high-speed Internet services. This issue is not about choosing winners and losers, it is about helping to ensure that high speed Internet service is not only available but competitive and affordable all across the country.

The Breaux-Nickles bill is a free-market, deregulatory approach to encourage private companies to rapidly deploy this new technology. It does nothing to change what the 1996 Telecom Act sought to accomplish, to open up the local voice telephone market to competition. At the time, no one envisioned the growth of the Internet. In fact, the web browser had just been invented. This bill simply eliminates regulations that were intended for the legacy network but have been mistakenly applied to new infrastructure investment.

The goal of this bill is to provide an economic incentive for local telephone companies to upgrade their networks and to rapidly deploy high-speed, broadband services throughout the U.S. According to the most recent nationwide data, there are approximately 11 million high speed Internet subscribers. Of that total, 7.2 million currently use high-speed cable modems and 3.5 million use Digital Subscriber Lines (DSL) provided by the telephone companies.

Today's rules are not only unfair but they are a disincentive to deployment. No company will invest the capital required to upgrade their network and deploy new technologies when they are required to provide this new, upgraded technology to their competitors at a government-set price. If high speed, broadband service is going to be deployed rapidly throughout the country, especially in rural areas, the answer is not more rules and regulations, but a market-based deregulatory approach.

For a new market to evolve quickly and efficiently, government should not regulate the market out of existence before it has a chance to flourish. In fact, yesterday's Wall Street Journal had an editorial expressing concern about over-regulation at a critical time, it states, "Then the digital revolution ran headlong into the FCC and Congress, whose tender mercies enfolded consumer broadband at the moment of creation." It is not too late to encourage growth and innovation. As the Wall Street Journal points out, "There's still plenty of Internet and telecom enthusiasm out there, if only regulators will let it blossom."

With regulatory certainty, companies have the incentive to invest. For example, earlier this week, in my home State of Oklahoma, less than two weeks after Gov. Frank Keating signed the first state broadband parity law in the country, SBC Southwestern Bell announced a massive program of technology investment that will nearly double the number of Oklahoma towns with access to high-speed DSL Internet Access Service.

This initiative will bring high-speed DSL Internet service to 37 more towns, and expand access by building new broadband equipment in another 25 towns that already have the service. The initiative will make DSL available to about 137,000 more homes and businesses in 62 Oklahoma communities. SBC is making this investment at a time when they, and other telecommunications companies, have dramatically slashed capital spending throughout the country.

This is the kind of investment that regulatory certainty and real competition bring and that is why I strongly support this legislation. If we can do for the country what we have done for the state of Oklahoma, Congress will go a long way toward reversing the economic slide currently enveloping the telecom sector. When all broadband providers are allowed to compete under the same rules, consumers win and the economy wins. I am pleased to sponsor this bipartisan approach to promoting competition for broadband services.

STATEMENTS ON SUBMITTED RESOLUTIONS

SENATE RESOLUTION 255—TO DESIGNATE THE WEEK BEGINNING MAY 5, 2002, AS "NATIONAL CORRECTIONAL OFFICERS AND EMPLOYEES WEEK"

Mrs. FEINSTEIN (for herself, Mr. HATCH, Ms. STABENOW, Mr. REID, Mrs. BOXER, Mr. KENNEDY, Mr. CLELAND, Ms. CANTWELL, Mr. WYDEN, Mr. THOMAS, Mr. BINGAMAN, Mr. DOMENICI, Mr. JEFFORDS, Mrs. MURRAY, Mr. ROBERTS, Mr. FEINGOLD, Mr. HELMS, Mr. SARBANES, and Mr. AKAKA) submitted the following resolution, which was referred to the Committee on the Judiciary.

S. RES. 255

Whereas the operation of correctional facilities represents a crucial component of our criminal justice system;

Whereas correctional personnel play a vital role in protecting the rights of the public to be safeguarded from criminal activity;

Whereas correctional personnel are responsible for the care, custody, and dignity of the human beings charged to their care; and

Whereas correctional personnel work under demanding circumstances and face danger in their daily work lives: Now, therefore, be it

Resolved,

SECTION 1. DESIGNATION OF NATIONAL CORRECTIONAL OFFICERS AND EMPLOYEES WEEK.

That the Senate—

(1) designates the week beginning May 5, 2002, as "National Correctional Officers and Employees Week"; and

(2) requests that the President issue a proclamation calling upon the people of the United States to observe the week with appropriate ceremonies and activities.

Mrs. FEINSTEIN. Mr. President, I rise today to submit a resolution honoring our Nation's correctional officers and employees. This resolution reaffirms our support for the more than 200,000 corrections professionals who work in the face of danger while monitoring and reforming criminals and maintaining the safety of our communities.

I am pleased that Senators HATCH, STABENOW, REID, BOXER, KENNEDY, CLELAND, CANTWELL, WYDEN, THOMAS, BINGAMAN, DOMENICI, JEFFORDS, MURRAY, ROBERTS, FEINGOLD, HELMS, SARBANES, and AKAKA have joined me in submitting this resolution today.

The job of correctional officers and employees is a dangerous, and often thankless, one. Most of us leave for work knowing that we will return home safe and sound at the end of the day. But, corrections personnel are not afforded this luxury. They put their lives on the line every time they begin a shift.

Tragically, many correctional officers have been permanently injured or killed in the line of duty. In all, more than 361 correctional officers and employees have died while on duty. This year, we honor nine: John Burkett III, Wayne Mitchell, James Salvino, Gregory Collins, George Turner, Richard Huffman, Virgil Reel, Timothy Williams, and Rodney Welch, whom we lost during the past year. We must not forget the sacrifices made by these heroic individuals for our public safety.

These courageous officers all died while performing the normal day-to-day tasks their jobs asked of them. Whether they died transporting inmates or responding to disturbances within their facilities, their loss reminds us of the many brave acts that take place daily among correctional officers and employees.

Since prison security never rests, officers work all hours of the day and night, weekends, and even holidays. But, corrections professionals do much more than just watch over prisoners. They also play an important role in reforming them and in lowering recidivism rates. Through literacy programs and vocational training, they work hard to transform offenders into productive, law-abiding members of society, which is sometimes no easy task.

The efforts of America's correctional officers and employees to make our world a better, safer place too often go unnoticed. Few of us can truly appreciate the perils faced daily by these courageous public servants. We not only owe them our recognition, but our gratitude as well. To that end, I am pleased to offer this resolution to designate the week beginning May 5, 2002, as National Correctional Officers and Employees Week, and to honor and acknowledge their diligence and dedication to our public safety.

SENATE RESOLUTION 256—MAKING MINORITY PARTY APPOINTMENTS FOR THE SPECIAL COMMITTEE ON AGING FOR THE 107TH CONGRESS

Mr. LOTT submitted the following resolution; which was considered and agreed to:

S. RES. 256

Resolved, That the following be the minority membership on the Special Committee on Aging for the remainder of the 107th Congress, or until their successors are appointed:

Special Committee on Aging: Mr. Craig, Mr. Burns, Mr. Shelby, Mr. Santorum, Ms. Collins, Mr. Enzi, Mr. Hutchinson, Mr. Ensign, Mr. Hagel, and Mr. Smith of Oregon.

SENATE RESOLUTION 257—EXPRESSING THE GRATITUDE OF THE UNITED STATES SENATE FOR THE SERVICE OF SUZANNE D. PEARSON TO THE OFFICE OF LEGISLATIVE COUNSEL

Mr. BYRD submitted the following resolution; which was considered and agreed to:

S. RES. 257

Whereas Suzanne Pearson became an employee of the Senate on February 10, 1970, and since that date has ably and faithfully upheld the high standards and traditions of the Office of the Legislative Counsel of the United States Senate for almost 32 years;

Whereas Suzanne Pearson from January 1, 1991, to December 31, 2001, served as the Office Manager of the Office of the Legislative Counsel and demonstrated great dedication, professionalism, and integrity in faithfully discharging the duties and responsibilities of her position;

Whereas Suzanne Pearson retired on December 31, 2001, after more than 33 years of Government service; and

Whereas Suzanne Pearson has met the needs of the Senate with unfailing professionalism, skill, dedication, and good humor during her entire career: Now, therefore, be it

Resolved, That the United States Senate commends Suzanne D. Pearson for her almost 32 years of faithful and exemplary service to the United States Senate and the Nation, and expresses its deep appreciation and gratitude for her long, faithful, and outstanding service.

SEC. 2. The Secretary of the Senate shall transmit a copy of this resolution to Suzanne D. Pearson.

SENATE CONCURRENT RESOLUTION 103—SUPPORTING THE GOALS AND IDEALS OF NATIONAL BETTER HEARING AND SPEECH MONTH, AND FOR OTHER PURPOSES

Mrs. CLINTON (for herself, Mr. CAMPBELL, Mr. DEWINE, Mr. EDWARDS, Mr. JOHNSON, Ms. LANDRIEU, Mr. LEVIN, Mrs. MURRAY, Mr. ROCKEFELLER, and Mr. TORRICELLI) submitted the following concurrent resolution; which was ordered held at the desk:

S. CON. RES. 103

Whereas the National Institute on Deafness and Other Communication Disorders (NIDCD) reports that approximately 42,000,000 people in the United States suffer from a speech, voice, language, or hearing impairment;

Whereas almost 28,000,000 people in the United States suffer from hearing loss;

Whereas 1 out of every 3 people in the United States over 65 years of age suffers from hearing loss;

Whereas although more than 25,000,000 people in the United States would benefit from the use of a hearing aid, fewer than 7,000,000 people in the United States use a hearing aid;

Whereas sounds louder than 80 decibels are considered potentially dangerous and can lead to hearing loss;

Whereas the number of young children who suffer hearing loss as a result of environmental noise has increased;

Whereas every day in the United States approximately 33 babies are born with significant hearing loss;

Whereas hearing loss is the most common congenital disorder in newborns;

Whereas a delay in diagnosing a newborn's hearing loss can affect the child's social, emotional, and academic development;

Whereas the average age at which newborns with hearing loss are diagnosed is between 12 and 25 months;

Whereas more than 1,000,000 children received speech or language disorder services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) during the school year ending in 1998;

Whereas children with language impairments are 4 to 5 times more likely than their peers to experience reading problems;

Whereas 10 percent of children entering the first grade have moderate to severe speech disorders, including stuttering;

Whereas stuttering affects more than 2,000,000 people in the United States;

Whereas approximately 1,000,000 people in the United States have aphasia, a language disorder inhibiting spoken communication that results from damage caused by a stroke or other traumatic injury to the language centers of the brain; and

Whereas for the last 75 years, May has been celebrated as National Better Hearing and Speech Month in order to raise awareness regarding speech, voice, language, and hearing impairments and to provide an opportunity for Federal, State, and local governments, members of the private and nonprofit sectors, speech and hearing professionals, and the people of the United States to focus on preventing, mitigating, and curing such impairments: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) supports the goals and ideals of National Better Hearing and Speech Month;

(2) commends the 41 States that have implemented routine hearing screenings for every newborn before the newborn leaves the hospital;

(3) supports the efforts of speech and hearing professionals in their efforts to improve the speech and hearing development of children; and

(4) encourages the people of the United States to have their hearing checked regularly and to avoid environmental noise that can lead to hearing loss.

AMENDMENTS SUBMITTED AND PROPOSED

SA 3382. Mr. DAYTON (for himself, Mr. Craig, Mr. Durbin, Mr. Shelby, Mr. Kerry, Mr. Helms, Mr. Wellstone, Ms. Collins, Ms. Mikulski, Mr. Smith of New Hampshire, Mr. Dorgan, Mr. Allen, Mr . Hollings, Mr. Warner, and Mr. Levin) submitted an amendment intended to be proposed by him to the bill H.R. 3009, to extend the Andean Trade Preference Act, to grant additional trade benefits under that Act, and for other purposes; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 3382. Mr. DAYTON (for himself, Mr. Craig, Mr. Durbin, Mr. Shelby, Mr. Kerry, Mr. Helms, Mr. Wellstone, Ms. Collins, Ms. Mikulski, Mr. Smith of New Hampshire, Mr. Dorgan, Mr. Allen, Mr. Hollings, Mr. Warner, and Mr. Levin) submitted an amendment intended to be proposed by him to the bill H.R. 3009, to extend the Andean Trade Preference Act, to grant additional trade benefits under that Act, and for other purposes; which was ordered to lie on the table; as follows:

At the end of section 3(b), add the following:

(4) Limitations on trade authorities procedures.—

(A) In general.—Notwithstanding any other provision of law, the provisions of section 151 of the Trade Act of 1974 (trade authorities procedures) shall not apply to any provision in an implementing bill that modifies or amends, or requires a modification of, or an amendment to, any law of the United States that provides safeguards from unfair foreign trade practices to United States businesses or workers, including—

(i) imposition of countervailing and antidumping duties (title VII of the Tariff Act of 1930; 19 U.S.C. 1671 et seq.);

(ii) protection from unfair methods of competition and unfair acts in the importation of articles (section 337 of the Tariff Act of 1930; 19 U.S.C. 1337);

(iii) relief from injury caused by import competition (title II of the Trade Act of 1974; 19 U.S.C. 2251 et seq.);

(iv) relief from unfair trade practices (title III of the Trade Act of 1974; 19 U.S.C. 2411 et seq.); or

(v) national security import restrictions (section 232 of the Trade Expansion Act of 1962; 19 U.S.C. 1862).

(B) Point of order in senate.—

(i) In general.—When the Senate is considering an implementing bill, upon a point of order being made by any Senator against any part of the implementing bill that contains material in violation of subparagraph (A), and the point of order is sustained by the Presiding Officer, the part of the implementing bill against which the point of order is sustained shall be stricken from the bill.

(ii) Waivers and appeals.—

(I) Waivers.—Before the Presiding Officer rules on a point of order described in clause (i), any Senator may move to waive the point of order and the motion to waive shall not be subject to amendment. A point of order described in clause (i) is waived only by the affirmative vote of at least three-fifths of the Members of the Senate, duly chosen and sworn.

(II) Appeals.—After the Presiding Officer rules on a point of order under this subparagraph, any Senator may appeal the ruling of the Presiding Officer on the point of order as it applies to some or all of the provisions on which the Presiding Officer ruled. A ruling of the Presiding Officer on a point of order described in clause (i) is sustained unless at least three-fifths of the Members of the Senate, duly chosen and sworn, vote not to sustain the ruling.

(III) Debate.—Debate on a motion to waive under subclause (I) or on an appeal of the ruling of the Presiding Officer under subclause (II) shall be limited to 1 hour. The time shall be equally divided between, and controlled by, the majority leader and the minority leader, or their designees.

NOTICES OF HEARINGS/MEETINGS

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before the Committee on Energy and Natural Resources.

The hearing will take place on Tuesday, May 7, beginning at 9:30 a.m., in room 366 of the Dirksen Senate Office Building in Washington, DC.

The purpose of the hearing is to review the outlook for this year's wildland fire season as well as to assess the Federal land management agencies' state of readiness and preparedness for the wildland fire season.

Because of the limited time available for the hearing, witnesses may testify by invitation only. Those wishing to submit written testimony for the hearing record should e-mail it to shelly_brown@energy.senate.gov or fax it to 202-224-4340.

For further information, please contact Kira Finkler of the Committee staff at (202) 224-8164.

PERMANENT SUBCOMMITTEE ON INVESTIGATIONS

Mr. LEVIN. Mr. President, I would like to announce for the information of the Senate and the public that the Permanent Subcommittee on Investigations of the Committee on Governmental Affairs will hold a hearing entitled "The Role of the Board of Directors in Enron's Collapse." The subcommittee will call on past and present members of the Enron Board of Directors to obtain an insider's perspective on the board's oversight efforts, interactions with Enron management and Andersen, and failure to identify and respond adequately to warning signs of Enron's impending collapse.

The hearing will take place on Tuesday, May 7, 2002, at 9:30 a.m., in room 216 of the Hart Senate Office Building. For further information, please contact Elise J. Bean of the subcommittee staff at 224-3721.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet for a hearing on Richard Carmona, to be Surgeon General and Elias Zerhouni, to be Director of the National Institutes of Health during the session of the Senate on Tuesday, April 30, 2002, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON INDIAN AFFAIRS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Indian Affairs be authorized to meet on Tuesday, April 30, 2002, at 9:30 a.m., in room 438A of the Russell Senate Office Building to conduct a joint hearing with the Senate Small Business Committee on "Small Business Development in Native American Communities: Is the Federal Government meeting its obligations?".

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON SMALL BUSINESS AND ENTREPRENEURSHIP

COMMITTEE ON INDIAN AFFAIRS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Small Business and Entrepreneurship and the Committee on Indian Affairs be authorized to meet during the session of the Senate for a joint hearing entitled "Small Business Development in

Native American Communities: Is the Federal Government Meeting Its Obligations?" on Tuesday, April 30, 2002, beginning at 9:30 a.m., in room 428A of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON ANTITRUST, BUSINESS RIGHTS AND COMPETITION

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary Subcommittee on Antitrust, Business Rights and Competition be authorized to meet to conduct a hearing on "Hospital Group Purchasing: Lowering Costs at the Expense of Patient Health and Medical Innovations?" on Tuesday, April 30, 2002, at 2:30 p.m., in SD226.

Witness List: Ms. Trisha Barrett BSN, Assistant Director, Materiel Services, Value Analysis Facilitator, UCSF Medical Center, San Francisco, CA; Mr. Lynn R. Detlor, Principal, GPO Concepts, Inc., San Diego, CA; Dr. Mitchell Goldstein, Neonatologist, Citrus Valley Medical Center, West Covina, CA; Mr. Joe Kiani, President and Chief Executive Officer, Masimo Corporation, Irvine, CA, Mr. Mark McKenna, President, Novation, LLC, Irving, TX; Mr. Richard A. Norling, Chief Executive Officer, Premier, Inc., San Diego, CA; and Ms. Elizabeth A. Weatherman, Managing Director, Warburg Pincus, LLC, New York, NY.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON OVERSIGHT OF GOVERNMENT MANAGEMENT, RESTRUCTURING AND THE DISTRICT OF COLUMBIA

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Governmental Affairs Subcommittee on Oversight of Government Management, Restructuring and the District of Columbia be authorized to meet on Tuesday, April 30, 2002, at 2:30 p.m., for a hearing to examine "Kids and Cafeterias: How Safe are Federal School Lunches?".

The PRESIDING OFFICER. Without objection, it is so ordered.

PERMANENT SUBCOMMITTEE ON INVESTIGATIONS

Mr. REID. Mr. President, I ask unanimous consent that the Permanent Subcommittee on Investigations of the Committee on Governmental Affairs be authorized to meet on Tuesday, April 30, 2002, at 9:30 a.m., for a hearing entitled "Gas Prices: How Are They Really Set?".

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. WELLSTONE. Mr. President, I ask unanimous consent that privileges of the floor be granted to Fiona Wright during the debate on H.R. 3009.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRAHAM. Mr. President, I ask unanimous consent that a congressional fellow in my office, Ms. Tiffany Smith, be granted floor privileges for the remainder of the debate on this legislation.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. REID. I ask unanimous consent that the Senate proceed to executive session to consider the following nominations: Calendar Nos. 802 and 804 through 809; and all nominations placed on the Secretary's desk.

I further ask unanimous consent that the nominations be confirmed en bloc, the motion to reconsider be laid upon the table, any statements be printed in the RECORD, the President be immediately notified of the Senate's action, and the Senate resume legislative session, with the preceding all occurring without any intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

AIR FORCE

The following Air National Guard of the United States officers for appointment in the Reserve of the Air Force to the grades indicated under title 10, U.S.C., section 12203:

PN1496 Air Force nominations (13) beginning Loraine H. Anderson, and ending Michael E. Young, which nominations were received by the Senate and appeared in the Congressional Record of March 6, 2002.

PN1548 Air Force nomination of Marilyn D. Barton, which was received by the Senate and appeared in the Congressional Record of March 20, 2002.

PN1549 Air Force nomination of Larry O. Goddard, which was received by the Senate and appeared in the Congressional Record of March 20, 2002.

PN1655 Air Force nomination of Michael B. Tierney, which was received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1656 Air Force nomination of Donald R. Copsey, which was received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1622 Air Force nominations (51) beginning Samuel E. Aikele, and ending Bryan M. White, which nominations were received by the Senate and appeared in the Congressional Record of April 9, 2002.

ARMY

PN1550 Army nomination of Mary B. Bedell, which was received by the Senate and appeared in the Congressional Record of March 20, 2002.

PN1551 Army nomination of Rodney E. Hudson, which was received by the Senate and appeared in the Congressional Record of March 20, 2002.

PN1552 Army nomination of James R. Uhl, which was received by the Senate and appeared in the Congressional Record of March 20, 2002.

PN1588 Army nominations (10) beginning Robert G. Anisko, and ending Craig A. Webber, which nominations were received by the Senate and appeared in the Congressional Record of March 21, 2002.

PN1623 Army nomination of William K.C. Parks, which was received by the Senate and appeared in the Congressional Record of April 9, 2002.

PN1624 Army nominations (5) beginning Michael J. Bennett, and ending Robert S. Hough, which nominations were received by the Senate and appeared in the Congressional Record of April 9, 2002.

PN1625 Army nominations (8) beginning Frank E. Batts, and ending Evelyn M. Wilson, which nominations were received by the Senate and appeared in the Congressional Record of April 9, 2002.

PN1657 Army nominations (6) beginning Michael D. Armour, and ending David J. Wheeler, which nominations were received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1658 Army nominations (2) beginning Bryan T. Much, and ending Lionel D. Robinson, which nominations were received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1659 Army nominations (2) beginning Carl V. Hopper, and ending Timothy A. Reisch, which nominations were received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1660 Army nomination of John R. Carlisle, which was received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1661 Army nomination of Bryan C. Sleigh, which was received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1405 Army nominations (24) beginning Catherine E. Abbott, and ending Jeffrey N. Williams, which nominations were received by the Senate and appeared in the Congressional Record of February 6, 2002.

PN1406 Army nominations (41) beginning Eli T. Alford, and ending Eugene C. Wardynski Jr., which nominations were received by the Senate and appeared in the Congressional Record of February 6, 2002.

PN1407 Army nominations (66) beginning Bradley G. Anderson, and ending Donald A. Zimmer, which nominations were received by the Senate and appeared in the Congressional Record of February 6, 2002.

PN1408–1 Army nominations (339) beginning Mark H. Abernathy, and ending X0314, which nominations were received by the Senate and appeared in the Congressional Record of February 6, 2002.

MARINE CORPS

PN1621 Marine Corps nomination of Jason K. Fettig, which was received by the Senate and appeared in the Congressional Record of April 9, 2002.

PN1626 Marine Corps nominations (725) beginning Bamidele J. Abogunrin, and ending Jay K. Zollmann, which nominations were received by the Senate and appeared in the Congressional Record of April 9, 2002.

PN1662 Marine Corps nominations (2) beginning Lester H. Evans, Jr., and ending Timothy M. Hathaway, which nominations were received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1664 Marine Corps nomination of Thomas P. Barzditis, which was received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1667 Marine Corps nomination of Donald C. Scott, which was received by the Senate and appeared in the Congressional Record of April 16, 2002.

PN1668 Marine Corps nomination of John J. Fahey, which was received by the Senate and appeared in the Congressional Record of April 16, 2002.

NAVY

PN1554 Navy nominations (2) beginning Eric Davis, and ending Frank D. Rossi, which nominations were received by the Senate and appeared in the Congressional Record of March 20, 2002.

PN1589 Navy nomination of James E. Toczko, which was received by the Senate and appeared in the Congressional Record of March 21, 2002.

PN1627 Navy nomination of Bruce R. Christen, which was received by the Senate and appeared in the Congressional Record of April 9, 2002.

PN1628 Navy nomination of Cole J. Kupec, which was received by the Senate and appeared in the Congressional Record of April 9, 2002.

PN1629 Navy nomination of James E. Lamar, which was received by the Senate and appeared in the Congressional Record of April 9, 2002.

PN1630 Navy nominations (12) beginning Robert E. Bebermeyer, and ending Benjamin A. Shupp, which nominations were received by the Senate and appeared in the Congressional Record of April 9, 2002.

PN1553 Navy nomination of Lawrence J. Holloway, which was received by the Senate and appeared in the Congressional Record of March 20, 2002.

*Signifies nominee's commitment to respond to requests to appear and testify before any duly constituted committees of the Senate.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will return to legislative session.

MAKING MINORITY APPOINTMENTS FOR SPECIAL COMMITTEE ON AGING

Mr. REID. I ask unanimous consent that the Senate proceed to S. Res. 256, which is at the desk.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 256) making minority party appointments for the special committee on aging for the 107th Congress.

There being no objection, the Senate proceeded to the immediate consideration of the resolution.

Mr. REID. I ask unanimous consent the resolution be agreed to, the motion to reconsider be laid upon the table, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 256) was agreed to, as follows:

S. RES. 256

Resolved, That the following be the minority membership on the Special Committee on Aging for the remainder of the 107th Congress, or until their successors are appointed.

Special Committee on Aging: Mr. Craig, Mr. Burns, Mr. Shelby, Mr. Santorum, Ms. Collins, Mr. Enzi, Mr. Hutchinson, Mr. Ensign, Mr. Hagel, and Mr. Smith of Oregon.

THE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent the Senate proceed en bloc to the consideration of the following calendar items: Calendar No. 357, H.R. 495; Calendar No. 358, H.R. 819; Calendar No. 359, H.R. 3093; Calendar No. 360, H.R. 3282; and Calendar No. 361, S. 1721.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I further ask consent the committee amendments, where applicable, be agreed to; the bills be read three times, passed, and the motions to reconsider be laid on the table en bloc; and the title amendments, where applicable, be agreed to, that any statements be printed in the RECORD, and that the consideration of these items appear separately in the RECORD, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

RON DE LUGO FEDERAL BUILDING

The bill (H.R. 495) to designate the Federal building located in Charlotte Amalie, St. Thomas, United States Virgin Islands, as the "Ron de Lugo Federal Building," was considered, ordered to a third reading, read the third time, and passed.

DONALD J. PEASE FEDERAL BUILDING

The bill (H.R. 819 to designate the Federal building located at 143 West Liberty Street, Medina, Ohio, as the "Donald J. Pease Federal Building," was considered, ordered to a third reading, read the third time, and passed.

WILLIAM L. BEATTY FEDERAL BUILDING AND UNITED STATES COURTHOUSE

The bill (H.R. 3093) to designate the Federal building and United States courthouse located at 501 Bell Street in Alton, Illinois, as the "William L. Beatty Federal Building and United States Courthouse," was considered, ordered to a third reading, read the third time, and passed.

MIKE MANSFIELD FEDERAL BUILDING AND UNITED STATES COURTHOUSE

The bill (H.R. 3282) to designate the Federal building and United States courthouse located at 400 North Main Street in Butte, Montana, as the "Mike Mansfield Federal Building and United States Courthouse," was considered, ordered to a third reading, read the third time, and passed.

JAMES L. WATSON UNITED STATES COURTHOUSE

The Senate proceeded to consider the bill (S. 1721) to designate the building located at 1 Federal Plaza in New York, New York, as the "James L. Watson United Court of International Trade Building," which had been reported from the Committee on Environment and Public Works, with amendments, as follows:

(Omit the parts in black brackets and insert the parts printed in italic.)

S. 1721

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

[SECTION 1. DESIGNATION OF JAMES L. WATSON UNITED STATES COURT OF INTERNATIONAL TRADE BUILDING.]

SECTION 1. DESIGNATION OF JAMES L. WATSON UNITED STATES COURTHOUSE.

The building located at 1 Federal Plaza in New York, New York, shall be known and designated as the [“James L. Watson United States Court of International Trade Building”.] *“James L. Watson United States Courthouse”.*

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the building referred to in section 1 shall be deemed to be a reference [to the James L. Watson United States Court of International Trade Building.] *to the James L. Watson United States Courthouse.*

The committee amendments were agreed to.

The bill (S. 1721), as amended, was read the third time and passed, as follows:

S. 1721

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION OF JAMES L. WATSON UNITED STATES COURTHOUSE.

The building located at 1 Federal Plaza in New York, New York, shall be known and designated as the “James L. Watson United States Courthouse”.

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the building referred to in section 1 shall be deemed to be a reference to the James L. Watson United States Courthouse.

The title was amended so as to read: “A bill to designate the building located at 1 Federal Plaza in New York, New York, as the ‘James L. Watson United States Courthouse’.”.

Mr. REID. Mr. President, I ask unanimous consent the Senate proceed to the consideration of the following calendar items: Calendar No. 352, S. Con. Res. 102; Calendar No. 353, S. Res. 109; Calendar No. 354, S. Res. 245.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I further ask unanimous consent any committee amendment, where applicable, be agreed to, the concurrent resolution and resolutions and preambles be agreed to, en bloc, the title amendment, where appropriate, be agreed to, and the motions to reconsider be laid on the table, en bloc, and any statements be printed in the RECORD, and consideration of these items appear separately in the RECORD with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

NATIONAL SAFE KIDS WEEK

The Senate proceeded to consider the resolution (S. Con. Res. 102) proclaiming the week of May 4 through May 11, 2002, as “National Safe Kids Week.”

The concurrent resolution (S. Con. Res. 102) was agreed to.

The preamble was agreed to.

The concurrent resolution, with its preamble, reads as follows:

S. CON. RES. 102

Whereas unintentional injury is the number 1 killer of children under 15 years of age;

Whereas in 2000, more than 373,000 children under 15 years of age were treated in hospital emergency rooms for bicycle-related injuries, and more than 16,600 children under 15 years of age were treated for equestrian-related injuries;

Whereas more than 40 percent of all bicycle-related deaths are due to head injuries, approximately three-fourths of all bicycle-related head injuries occur among children under 15 years of age, and 60 percent of all equestrian-related deaths are related to head injury;

Whereas the single most effective safety device available to reduce head injury and death from bicycle and equestrian accidents is a properly fitted and safety certified helmet;

Whereas national estimates report that helmet use among child bicyclists is only between 15 and 25 percent;

Whereas every dollar spent on a bicycle helmet saves this Nation $30 in direct medical costs and other costs to society;

Whereas there is no national safety standard in place for equestrian helmets;

Whereas the National Safe Kids Campaign supports efforts to reduce equestrian-related head injuries;

Whereas the National Safe Kids Campaign promotes childhood injury prevention by uniting diverse groups into State and local coalitions, developing innovative educational tools and strategies, initiating legislative changes, promoting new technology, and raising awareness through the media; and

Whereas the National Safe Kids Campaign, with the support of founding sponsor Johnson & Johnson, has planned special childhood injury prevention activities and community-based events for National Safe Kids Week 2002, which will focus on the prevention of wheel-related traumatic brain injuries: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) proclaims the week of May 4 through May 11, 2002, as “National Safe Kids Week”;

(2) supports the efforts and activities of the National Safe Kids Campaign to prevent childhood injuries, including bicycle-related traumatic brain injuries and equestrian-related brain injuries; and

(3) requests that the President issue a proclamation calling upon the people of the United States to observe National Safe Kids Week with appropriate ceremonies and activities.

NATIONAL CHILDREN'S MEMORIAL DAY AND CHILDREN'S MEMORIAL FLAG DAY

The Senate proceeded to consider the resolution (S. Res. 109) designating the second Sunday in the month of December as “National Children's Memorial Day” and the last Friday in the month of April as “Children's Memorial Flag Day” which was reported with an amendment and an amendment to the title.

[Omit the part in black brackets and insert the part printed in italic.]

S. RES. 109

Whereas approximately 80,000 infants, children, teenagers, and young adults of families living throughout the United States die each year from myriad causes;

Whereas the death of an infant, child, teenager, or young adult of a family is considered to be one of the greatest tragedies that a parent or family will ever endure during a lifetime;

Whereas a supportive environment, empathy, and understanding are considered critical factors in the healing process of a family that is coping with and recovering from the loss of a loved one; and

Whereas April is National Child Abuse Prevention month: Now, therefore, be it

Resolved,

SECTION 1. DESIGNATION OF NATIONAL CHILDREN'S MEMORIAL DAY AND CHILDREN'S MEMORIAL FLAG DAY.

The Senate—

[(1) designates the second Sunday in the month of December as “National Children's Memorial Day” and the last Friday in the month of April as “Children's Memorial Flag Day”; and]

(1) designates December 8, 2002, as “National Children's Memorial Day” and April 26, 2002, as “Children's Memorial Flag Day”; and

(2) requests that the President issue a proclamation calling upon the people of the United States to—

(A) observe “National Children's Memorial Day” with appropriate ceremonies and activities in remembrance of the many infants, children, teenagers, and young adults of families in the United States who have died; and

(B) fly the Children's Memorial Flag on “Children's Memorial Flag Day”.

Amend the title so as to read: “A Resolution designating December 8, 2002, as ‘National Children Memorial Day’ and April 26, 2002, as ‘Children's Memorial Flag Day’.”.

The committee amendment was agreed to.

The resolution (S. Res. 109), as amended, was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 109

Whereas approximately 80,000 infants, children, teenagers, and young adults of families living throughout the United States die each year from myriad causes;

Whereas the death of an infant, child, teenager, or young adult of a family is considered to be one of the greatest tragedies that a parent or family will ever endure during a lifetime;

Whereas a supportive environment, empathy, and understanding are considered critical factors in the healing process of a family that is coping with and recovering from the loss of a loved one; and

Whereas April is National Child Abuse Prevention month: Now, therefore, be it

Resolved,

SECTION 1. DESIGNATION OF NATIONAL CHILDREN'S MEMORIAL DAY AND CHILDREN'S MEMORIAL FLAG DAY.

The Senate—

(1) designates December 8, 2002, as “National Children's Memorial Day” and April 26, 2002, as “Children's Memorial Flag Day”; and

(2) requests that the President issue a proclamation calling upon the people of the United States to—

(A) observe “National Children's Memorial Day” with appropriate ceremonies and activities in remembrance of the many infants, children, teenagers, and young adults of families in the United States who have died; and

(B) fly the Children's Memorial Flag on “Children's Memorial Flag Day”.

The title was amended so as to read: “A Resolution designating December 8, 2002, as 'National Children's Memorial Day' and April 26, 2002, as 'Children's Memorial Flag Day'."

NATIONAL OCCUPATIONAL SAFETY AND HEALTH WEEK

The Senate proceeded to consider the resolution (S. Res. 245) designating the week of May 5 through May 11, 2002, as "National Occupational Safety and Health Week."

The resolution (S. Res. 245) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 245

Whereas every year, more than 6,000 people die from job-related injuries and millions more suffer occupational injuries or illnesses;

Whereas every day, millions of people go to and return home from work safely due, in part, to the efforts of many unsung heroes—the occupational safety, health, and environmental professionals who work day in and day out identifying hazards and implementing safety advances in all industries and at all workplaces, thereby reducing workplace fatalities and injuries;

Whereas these safety professionals work to prevent accidents, injuries, and occupational diseases, create safer work and leisure environments, and develop safer products;

Whereas the more than 30,000 members of the 90-year-old nonprofit American Society of Safety Engineers, based in Des Plaines, Illinois, are safety professionals committed to protecting people, property, and the environment globally;

Whereas the American Society of Safety Engineers, in partnership with the Canadian Society of Safety Engineers, has designated May 5 through May 11, 2002, as North American Occupational Safety and Health Week (referred to in this resolution as "NAOSH week");

Whereas the purposes of NAOSH week are to increase understanding of the benefits of investing in occupational safety and health, to raise the awareness of the role and contribution of safety, health, and environmental professionals, and to reduce workplace injuries and illnesses by increasing awareness and implementation of safety and health programs;

Whereas during NAOSH week the focus will be on hazardous materials—what they are, emergency response information, the skills and training necessary to handle and transport hazardous materials, relevant laws, personal protection equipment, and hazardous materials in the home;

Whereas over 800,000 hazardous materials are shipped every day in the United States, and over 3,100,000,000 tons are shipped annually; and

Whereas the continued threat of terrorism and the potential use of hazardous materials make it vital for Americans to have information on these materials: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week of May 5 through May 11, 2002, as "National Occupational Safety and Health Week";

(2) commends safety professionals for their ongoing commitment to protecting people, property, and the environment;

(3) encourages all industries, organizations, community leaders, employers, and employees to support educational activities aimed at increasing awareness of the importance of preventing illness, injury, and death in the workplace; and

(4) requests that the President issue a proclamation calling on the people of the United States to observe "National Occupational Safety and Health Week" with appropriate ceremonies and activities.

EXPRESSING THE GRATITUDE OF THE UNITED STATES SENATE FOR THE SERVICE OF SUZANNE D. PEARSON TO THE OFFICE OF LEGISLATIVE COUNSEL

Mr. REID. Mr. President, I ask unanimous consent the Senate proceed to the consideration of S. Res. 257, submitted earlier today by Senator BYRD.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 257) expressing the gratitude of the United States Senate for the service of Suzanne D. Pearson to the Office of Legislative Counsel.

There being no objection, the Senate proceeded to consider the resolution.

Mr. BYRD. Mr. President, I rise to commend Ms. Suzanne Pearson who retired on December 31, 2001, after serving for almost 32 years in the Senate Office of the Legislative Counsel, including the last 10 years as Office Manager.

Mr. President, as President pro tempore of the Senate, it was my pleasure to oversee the Office of the Legislative Counsel when Suzanne Pearson was appointed to her position as Office Manager and also at the time of her retirement. I appreciated the great professionalism and dedication she displaced in her role as Office Manager, particularly the meticulous attention she paid to detail in preparing the expense vouchers of the Office for my approval.

We all rely on staff to effectively carry out our legislative responsibilities. Ms. Pearson has seen to it that the Office of Legislative Counsel and all Members of the Senate were well served due to her professionalism and dedication in helping to prepare legislative drafts.

Mr. President, I am proud to sponsor this resolution. Suzanne Pearson has served her Nation well for over 33 years. I wish Suzanne the very best for the future, especially time spent with her sisters, Catherine and Adrienne, and her nephews.

Mr. THURMOND. Madam President, I am proud to have co-sponsor with Senator BYRD a resolution commending Ms. Suzanne Pearson, who retired from the Senate on December 31, 2001. While serving as President pro tempore of the Senate, I had the pleasure of overseeing the work of the Office of the Legislative Counsel and, in particular, of working with Suzanne in her position as Office Manager.

I wish to join with Senator BYRD, and with all Senators, in expressing our deepest gratitude to Suzanne Pearson for her long years of service to the U.S. Senate. She has been part of the Office of the Legislative Counsel for almost 32 years, including the last 10 years as Office Manager; during that time she has provided valuable assistance to me and to my staff.

I and my staff appreciated the great dedication and professionalism she displayed in her work for the Senate. I know that her departure will leave a void that is difficult to fill. In adopting this resolution, the Senate recognizes her years of commitment to the Senate.

Madam President, I wish Suzanne Pearson well in her retirement.

Mr. REID. I ask unanimous consent the resolution and preamble be agreed to, en bloc, and the motions to reconsider be laid on the table, with no intervening action or debate.

The resolution (S. Res. 257) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 257

Whereas Suzanne Pearson became an employee of the Senate on February 10, 1970, and since that date has ably and faithfully upheld the high standards and traditions of the Office of the Legislative Counsel of the United States Senate for almost 32 years;

Whereas Suzanne Pearson from January 1, 1991, to December 31, 2001, served as the Office Manager of the Office of the Legislative Counsel and demonstrated great dedication, professionalism, and integrity in faithfully discharging the duties and responsibilities of her position;

Whereas Suzanne Pearson retired on December 31, 2001, after more than 33 years of Government service; and

Whereas Suzanne Pearson has met the needs of the Senate with unfailing professionalism, skill, dedication, and good humor during her entire career: Now, therefore, be it

Resolved, That the United States Senate commends Suzanne D. Pearson for her almost 32 years of faithful and exemplary service to the United States Senate and the Nation, and expresses its deep appreciation and gratitude for her long, faithful, and outstanding service.

SEC. 2 The Secretary of the Senate shall transmit a copy of this resolution to Suzanne D. Pearson.

MEASURE HELD AT THE DESK—S. CON. RES. 103

Mr. REID. Mr. President, I ask unanimous consent that S. Con. Res. 103 be held at the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR WEDNESDAY, MAY 1, 2002

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today it adjourn until the hour of 9:30 a.m., Wednesday, May 1. Following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of the motion to proceed to H.R. 3009 and vote on that motion.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I ask consent that it be in order to ask for the yeas and nays on that motion.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. REID. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 7:12 p.m., adjourned until Wednesday, May 1, 2002, at 9:30 a.m.

CONFIRMATIONS

Executive nominations confirmed by the Senate April 30, 2002:

THE JUDICIARY

MICHAEL M. BAYLSON, OF PENNSYLVANIA, TO BE UNITED STATES DISTRICT JUDGE FOR THE EASTERN DISTRICT OF PENNSYLVANIA.

NAVY NOMINATION OF JAMES E. LAMAR.

NAVY NOMINATIONS BEGINNING ROBERT E BEBERMEYER AND ENDING BENJAMIN A SHUPP, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON APRIL 9, 2002.

HOUSE OF REPRESENTATIVES—*Tuesday, April 30, 2002*

The House met at 12:30 p.m.

MORNING HOUR DEBATES

The SPEAKER. Pursuant to the order of the House of January 23, 2002, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning hour debates. The Chair will alternate recognition between the parties, with each party limited to not to exceed 30 minutes, and each Member except the majority leader, the minority leader, or the minority whip limited to not to exceed 5 minutes.

The Chair recognizes the gentleman from Illinois (Mr. WELLER) for 5 minutes.

PROVIDING PERMANENT TAX CUTS

Mr. WELLER. Mr. Speaker, I come to the floor today to draw attention to an issue that so many in this House have worked on over the last several years and that is an issue of fairness.

Over the last several years we have asked a basic question. Is it right, is it fair, that under our tax code a married working couple, where both the husband and wife are in the workforce, pay higher taxes than if they chose not to get married? That is an issue I was so pleased and when this House under the gentleman from Illinois' (Mr. HASTERT) leadership and with the leadership of the gentleman from California (Mr. THOMAS) of the Ways and Means Committee, that we succeeded as part of what is now known as the Bush tax cut, succeeded in passing legislation which eliminated the marriage tax penalty for almost 43 million married working couples who on average paid $1,700 more in higher taxes.

Let me give my colleagues an example of a married couple from Joliet, Illinois. This is Jose and Magdalena Castillo. They are laborers in Joliet, Illinois. They have a combined income of about $85,000. Their marriage tax penalty prior to the Bush tax cut was about $1,125 that Jose and Magdalena paid in higher taxes just because they are married. I also want to introduce their children, Eduardo and Carolina Castillo, and their benefit of the Bush tax cut from the doubling of the $500 per child tax credit as well. Of course, that was $500. We raised that to $1,000.

Here is the issue. Unfortunately, there are some arcane rules over in the other body which may require that the Bush tax cut sunset in the year 2011. What that means is in a few years, elimination of the marriage tax penalty and the $1,000 per child tax credit that the Castillo family benefits from will be eliminated, which means that their taxes will go up. Taxes go up $1,000 per child, as well as at least $1,125 a year when the marriage tax penalty elimination expires.

We had a very, very important vote, an important vote that was important for families like Jose and Magdalena Castillo on this House floor 2 weeks ago, and that vote was on making the Bush tax cut permanent. What that vote was all about was whether or not to impose a tax increase on over 100 million American taxpayers who benefit from the Bush tax cut, because if we fail to make the Bush tax cut permanent, which lowered rates for all taxpayers, which provided opportunities to set aside more in an IRA and a 401(k) and an education savings account, eliminated the marriage tax penalty for 43 million company couples like Jose and Magdalena Castillo, and also wiped out the death tax so we can keep the family farm and the family business in the family and in business when the founder passes on.

Unfortunately, as I said earlier, it is going to expire, and unfortunately, our friends on the other side of the aisle overwhelmingly on the Democratic side voted to increase taxes by opposing efforts to make permanent the Bush tax cut. That is why I think it is very, very important that we put a human face on those who would suffer and be hurt by Democratic efforts to raise taxes once again, by either suspending, eliminating or preventing the permanency of what we now call as the Bush tax cut.

As I said earlier, there are 43 million couples like Jose and Magdalena Castillo who benefit from the marriage tax penalty relief in the Bush tax cut, and in this case, Jose and Magdalena also benefit from $1,000 per child tax credit which helps families with children. They would also lose that if we fail to make the Bush tax cut permanent.

It is often said, and those who argue against cutting taxes always say, that if someone pays taxes they are rich. We know that over 100 million Americans benefit from the Bush tax cut. Some of those who really truly benefited are 3.9 million Americans who no longer pay Federal income taxes because of the Bush tax cut that we moved through this House of Representatives, thanks to the leadership of the gentleman from Illinois (Mr. HASTERT), and if the Democrats succeed in rescinding or repealing or preventing the permanency of the Bush tax cut, 3.9 million Americans, including 3 million Americans with children, will once again be placed back on the tax rolls. Voting against permanency of the Bush tax cut is a tax increase.

Let me go back to the issue which I first raised at the beginning of my remarks, and that is the whole issue of fairness. The tax code is complicated, and prior to the Bush tax cut, the complications of our Federal income tax forced 43 million Americans like Jose and Magdalena Castillo to pay higher taxes just because they are married.

What caused that is Jose and Magdalena are each in the workforce, they each work as laborers, and when someone gets married, they file their taxes jointly which pushes them into a higher tax bracket. We fixed that in the Bush tax cut. Let us make marriage tax elimination permanent.

My hope is before the end of this year that our friends in the other body as well as our friends on the other side of the aisle will work with us to help couples like Jose and Magdalena Castillo.

PROVIDING A PRESCRIPTION DRUG BENEFIT

The SPEAKER pro tempore (Mr. BOOZMAN). Pursuant to the order of the House of January 23, 2002, the gentleman from Ohio (Mr. BROWN) is recognized during morning hour debates for 5 minutes.

Mr. BROWN of Ohio. Mr. Speaker, I came to the floor today to talk about prescription drugs, how little this Congress is doing to provide a prescription drug benefit and how this body is doing even less to control the cost of prescription drugs, but I feel compelled to comment on the previous speaker's comments.

It is always nice to put a nice-looking family's picture in front of TV viewers and in front of this Congress and this Chamber and in front of the gallery to show how we care about people in this country, but the picture that he should have put in front of the voters, in front of the viewer, in front of this body is a picture of Ken Lay of Enron which got literally hundreds of millions of dollars in tax breaks as a result of the Bush administration's fervor for cutting taxes overwhelmingly for the rich and his fervor for protecting every corporate interest in the country and his fervor for giving tax giveaways, tax breaks to all of the biggest corporations in the country.

Six months ago this Congress gave $5 billion to the airlines in tax breaks, and in this case, in airlines, simply subsidies and in terms of just dollars from the Federal Treasury, but did nothing for laid-off workers. Similarly, the Bush tax program that my friend from Illinois just mentioned as he put the picture of a nice working-class family, that tax benefit goes overwhelmingly to the richest people in this country.

Last year 100 million people, he said, in America benefited from the tax cut. That may be true. People got a check for $300, but 43 percent of all the tax benefits from the Bush tax cut goes to the 1 percent richest people in this country. Eighty percent of the benefits go to the 10 percent wealthiest people in this country.

What does that say? It says that Congress last year and last week, as it did it again, made a choice. They made a choice. Do we give tax cuts to Ken Lay and Enron and United Airlines and the biggest corporations and the richest individuals in this country, or do we provide a prescription drug benefit to 15 million senior citizens who have no drug coverage? We made a choice. The Republicans in this body last week and last year made a choice. Do we cut taxes on the richest people in the country, on the largest corporations in the country and a few dollars from the rest of us, or do we pass legislation that provides money for education?

On issue after issue after issue, this Congress made the choice. It sides with corporate interests, on the chemical company on arsenic legislation. It sides with the insurance companies on privatizing Medicare. It sides with Wall Street in privatizing Social Security. It sides with the oil industry in writing environmental policy. It sides with Enron when writing energy policy. That is a choice. The choice is do we do what is right for the great majority of Americans or do we take the side of the wealthiest or the biggest corporations and the wealthiest individuals?

That picture, notwithstanding that my friend from Illinois put up, the fact is that that family may have gotten a little bit of money back in tax cuts, but that family will not be eligible for a prescription drug benefit because Congress, as they get older, because Congress will not do anything about prescription drugs because the money is not there. I repeat, Congress made the choice last week and made the choice last year, do my colleagues want a prescription drug benefit for the elderly or do they want to give tax cuts to the richest people in the country and the largest corporations in the country? Do they want to fully fund the education programs in this country that Congress says it wants to fund or do they want to give those tax breaks again to the wealthiest people? Do they fund our Medicare system which cuts payments for home healthcare, which cuts doctors' fees too much, which cuts hospitals, especially city hospitals in intercity and rural hospitals, or do they want to fund them properly or do they want to give away tax breaks to the richest citizens?

That is the choice we make here every day. That is the difference between Republicans and Democrats. Do we move forward and provide prescription drug benefits, provide for education, provide for Head Start, provide for food safety inspections, provide for strong environmental laws, or do we do the bidding of corporate America on issue after issue after issue? Give them the big tax breaks, weaken environmental laws, weaken food safety laws, weaken laws that protect the American public?

That is the choice we make. That is the choice that Congress made that was wrong in the last year and that the President and the administration has made. That is wrong. That is why we need to correct it.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess until 2 p.m. today.

Accordingly (at 12 o'clock and 44 minutes p.m.), the House stood in recess until 2 p.m. today.

□ 1400

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. CULBERSON) at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Preserved in Your grace, O Lord, at times we may seem at a standstill. But momentary inactivity may mean a fermenting of resolve.

Lord, grant to the Members of the House of Representatives a patience to listen to deepest convictions buried within the heart and their delegation. Inspire a practical wisdom that is wrapped in the art of timing.

Help all of Your people of this great Nation grow in perseverance. Deliver them from headline success, pollster popularity, and personal insecurity. Strengthened by faith in You, may quiet and stronger commitments prevail and produce enlightened options born of creative repression. Let yesterday's setbacks and compromise only store up energy for tomorrow's leap forward.

By taking one step at a time, may every American persevere in pursuing higher goals than those found in immediate satisfaction. May we prove faithful in seeking Your plan for us before reaction to every circumstance, now and forever. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from North Carolina (Mr. COBLE) come forward and lead the House in the Pledge of Allegiance.

Mr. COBLE led the Pledge of Allegiance as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

TRIBUTE TO THADDEUS STEVENS

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, on this day 136 years ago, one of the predecessors from my congressional district, a man named Thaddeus Stevens, stood in this Chamber and introduced the 14th amendment to the Constitution. The Civil War was over, but African Americans still were not guaranteed the rights of citizens. The 13th amendment had banned slavery, but many States were still refusing basic rights to black people.

In 1868, Thaddeus Stevens of Lancaster, Pennsylvania introduced the 14th amendment to fix that. His amendment guaranteed that all persons born in the United States were citizens, not just of this country, but also of the State where they lived. Thaddeus Stevens fought hard for the 14th amendment.

However, the 14th amendment was not enough for him. He wanted full equality among the races, but that was too much for his contemporaries. Disappointed, Stevens said that he would "Take all I can get in the cause of humanity and leave it to be perfected by better men in better times."

Stevens died soon afterwards and was buried in the only cemetery in Lancaster that did not discriminate. His tombstone reads this way: "I repose in this quiet and secluded spot, that I might illustrate in my death the principes which I advocated through a long life: equality of man before his Creator."

Mr. Speaker, Thaddeus Stevens was a great man indeed.

THE GIRL SCOUTS ARE A FIRST CLASS ORGANIZATION

(Mr. COBLE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COBLE. Mr. Speaker, when the Girl Scouts came to call on me for their annual visit to give me Girl Scout cookies, I said to them, I never hear from you all except at cookie time. They said, well, why not talk about us from time to time. So today I am going to talk about the Girl Scouts, Mr. Speaker.

Mr. Speaker, the Girl Scouts of the USA is the world's preeminent organization dedicated solely to girls, all girls where, in an accepting and nurturing environment, they build character and skills for success in the real world. In partnership with committed adult volunteers, girls develop qualities that will serve them all of their lives, like leadership, strong values, social conscience and conviction about their own potential and self-worth. Today, there are 3.7 million Girl Scouts, 2.7 million girl members, and 915 adult members.

Mr. Speaker, I encourage my colleagues to continue to purchase and consume Girl Scout cookies, but let us promote them year-round. The Girl Scouts are, indeed, a first-class organization.

TAINTED WATER SUPPLY AT YUCCA MOUNTAIN

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, on such a beautiful sunny day here in the Nation's Capitol, do we not think it might be refreshing to once in a while have a drink from a glass of cool refreshing water? Would we trust that water if it was from a well in southern Nevada 20 years from now?

Well, Mr. Speaker, are my colleagues aware that Yucca Mountain, Nevada, the space designated for the world's high-level nuclear waste dump, sits on a water reservoir? And are my colleagues aware that the Department of Energy has admitted that the rate of water infiltration into Yucca Mountain is 100 times higher than that which the Federal Government originally intended for the site? And did my colleagues know that even the smallest earthquake at Yucca Mountain could jar the repository, could break the casks that hold this high-level nuclear waste? If my colleagues knew that this glass of water may contain radioactive nuclides from spent fuel, they would not drink it.

Well, Mr. Speaker, Nevadans will not either. Storing spent fuel at Yucca Mountain, Nevada is a dangerous endeavor and needs to be stopped, for Nevada and for every American.

NATO EXPANSION SHOULD INCLUDE ROMANIA

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, I rise to express my strong support for Romania's membership into NATO. I was warmly welcomed to Cluj-Napoca, the sister city of Columbia, South Carolina, and I have seen firsthand as the roots of democracy flourish in Romania.

A recent article in The Washington Post cited the successful reform efforts of Romania, as well as the cooperation that Romania has offered to America to fight the war on terrorism. Romania has unconditionally opened its airspace to its allies with 20 NATO military flights daily. Its brave young men and women serve as peacekeepers in Kabul, and the Romanian government has offered a specialized mountain unit for service in the rugged terrain in Afghanistan.

I commend the efforts of Ambassador Sorin Ducaru, Foreign Minister Mircea Geoana, and Deputy Chief of Mission Stelian Stoian for their continuing important reforms and for joining the war on terrorism. Romania is proving itself as a trustworthy ally and should be granted membership to NATO with its neighbor, Bulgaria.

TANF REAUTHORIZATION

(Mr. DAVIS of Illinois asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAVIS of Illinois. Mr. Speaker, as we approach the reauthorization of TANF, let us be mindful of the fact that 75 percent of all new jobs are created in suburban communities, outside large inner cities. If we are to be successful with moving people from welfare to work, then we must make sure that there is adequate money, resources for transportation, so that the people can get from where there are virtually no jobs to where the jobs are.

Mr. Speaker, let us make sure that transportation is a part of TANF reauthorization so that people can get from welfare to where the jobs are.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Any record votes on postponed questions will be taken after debate has concluded on motions to suspend the rules, but not before 6:30 p.m. today.

NOTIFICATION AND FEDERAL EMPLOYEE ANTIDISCRIMINATION AND RETALIATION ACT OF 2001

Mr. SENSENBRENNER. Mr. Speaker, I move to suspend the rules and concur in the Senate amendments to the bill (H.R. 169) to require that Federal agencies be accountable for violations of antidiscrimination and whistleblower protection laws; to require that each Federal agency post quarterly on its public Web site, certain statistical data relating to Federal sector equal employment opportunity complaints filed with such agency; and for other purposes.

The Clerk read as follows:

Senate Amendments:

Page 2, line 6, strike out "2001" and insert "2002".

Page 2, in the table of contents, strike out

"TITLE I—GENERAL PROVISIONS"

"Sec. 101. Findings."
"Sec. 102 Definitions."
"Sec. 103 Effective date."

and insert

TITLE I—GENERAL PROVISIONS

Sec. 101. Findings.
Sec. 102. Sense of Congress.
Sec. 103. Definitions.
Sec. 104. Effective date.

Page 2, in the table of contents, strike out

"Sec. 206 Study by the General Accounting Office regarding exhaustion of administrative remedies."

and insert

"Sec. 206. Studies by General Accounting Office on exhaustion of remedies and certain Department of Justice costs."

Page 2, strike out all after line 9 over to and including line 13 on page 4 and insert:

SEC. 101. FINDINGS.

Congress finds that—

(1) Federal agencies cannot be run effectively if those agencies practice or tolerate discrimination;

(2) Congress has heard testimony from individuals, including representatives of the National Association for the Advancement of Colored People and the American Federation of Government Employees, that point to chronic problems of discrimination and retaliation against Federal employees;

(3) in August 2000, a jury found that the Environmental Protection Agency had discriminated against a senior social scientist, and awarded that scientist $600,000;

(4) in October 2000, an Occupational Safety and Health Administration investigation found that the Environmental Protection Agency had retaliated against a senior scientist for disagreeing with that agency on a matter of science and for helping Congress to carry out its oversight responsibilities;

(5) there have been several recent class action suits based on discrimination brought against Federal agencies, including the Federal Bureau of Investigation, the Bureau of Alcohol, Tobacco, and Firearms, the Drug Enforcement Administration, the Immigration and Naturalization Service, the United States Marshals Service, the Department of Agriculture, the United States Information Agency, and the Social Security Administration;

(6) notifying Federal employees of their rights under discrimination and whistleblower laws should increase Federal agency compliance with the law;

(7) requiring annual reports to Congress on the number and severity of discrimination and whistleblower cases brought against each Federal agency should enable Congress to improve its oversight over compliance by agencies with the law; and

(8) requiring Federal agencies to pay for any discrimination or whistleblower judgment, award, or settlement should improve agency accountability with respect to discrimination and whistleblower laws.

SEC. 102. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) Federal agencies should not retaliate for court judgments or settlements relating to discrimination and whistleblower laws by targeting the claimant or other employees with reductions in compensation, benefits, or workforce to pay for such judgments or settlements;

(2) the mission of the Federal agency and the employment security of employees who are blameless in a whistleblower incident should not be compromised;

(3) Federal agencies should not use a reduction in force or furloughs as means of funding a reimbursement under this Act;

(4)(A) accountability in the enforcement of employee rights is not furthered by terminating—

(i) the employment of other employees; or

(ii) the benefits to which those employees are entitled through statute or contract; and

(B) this Act is not intended to authorize those actions;

(5)(A) nor is accountability furthered if Federal agencies react to the increased accountability under this Act by taking unfounded disciplinary actions against managers or by violating the procedural rights of managers who have been accused of discrimination; and

(B) Federal agencies should ensure that managers have adequate training in the management of a diverse workforce and in dispute resolution and other essential communication skills; and

(6)(A) Federal agencies are expected to reimburse the General Fund of the Treasury within a reasonable time under this Act; and

(B) a Federal agency, particularly if the amount of reimbursement under this Act is large relative to annual appropriations for that agency, may need to extend reimbursement over several years in order to avoid—

(i) reductions in force;

(ii) furloughs;

(iii) other reductions in compensation or benefits for the workforce of the agency; or

(iv) an adverse effect on the mission of the agency.

(6) a detailed description of—

(A) the policy implemented by that agency relating to appropriate disciplinary actions against a Federal employee who—

(i) discriminated against any individual in violation of any of the laws cited under section 201(a) (1) or (2); or

(ii) committed another prohibited personnel practice that was revealed in the investigation of a complaint alleging a violation of any of the laws cited under section 201(a) (1) or (2); and

(B) with respect to each of such laws, the number of employees who are disciplined in accordance with such policy and the specific nature of the disciplinary action taken;

(7) an analysis of the information described under paragraphs (1) through (6) (in conjunction with data provided to the Equal Employment Opportunity Commission in compliance with part 1614 of title 29 of the Code of Federal Regulations) including—

(A) an examination of trends;

(B) causal analysis;

(C) practical knowledge gained through experience; and

(D) any actions planned or taken to improve complaint or civil rights programs of the agency; and

(8) any adjustment (to the extent the adjustment can be ascertained in the budget of the agency) to comply with the requirements under section 201.

Page 9, strike out lines 18 and 19 and insert “years (or, if data are not available for all 5 fiscal years, for each of those 5 fiscal years for which data are available)”.

SEC. 206. STUDIES BY GENERAL ACCOUNTING OFFICE ON EXHAUSTION OF ADMINISTRATIVE REMEDIES AND ON ASCERTAINMENT OF CERTAIN DEPARTMENT OF JUSTICE COSTS.

(a) STUDY ON EXHAUSTION OF ADMINISTRATIVE REMEDIES.—

(1) STUDY.—

(A) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the General Accounting Office shall conduct a study relating to the effects of eliminating the requirement that Federal employees aggrieved by violations of any of the laws specified under section 201(c) exhaust administrative remedies before filing complaints with the Equal Employment Opportunity Commission.

(B) CONTENTS.—The study shall include a detailed summary of matters investigated, information collected, and conclusions formulated that lead to determinations of how the elimination of such requirement will—

(i) expedite handling of allegations of such violations within Federal agencies and will streamline the complaint-filing process;

(ii) affect the workload of the Commission;

(iii) affect established alternative dispute resolution procedures in such agencies; and

(iv) affect any other matters determined by the General Accounting Office to be appropriate for consideration.

(2) REPORT.—Not later than 90 days after completion of the study required by paragraph (1), the General Accounting Office shall submit to the Speaker of the House of Representatives, the President pro tempore of the Senate, the Equal Employment Opportunity Commission, and the Attorney General a report containing the information required to be included in such study.

(b) STUDY ON ASCERTAINMENT OF CERTAIN COSTS OF THE DEPARTMENT OF JUSTICE IN DEFENDING DISCRIMINATION AND WHISTLEBLOWER CASES.—

(1) STUDY.—Not later than 180 days after the date of enactment of this Act, the General Accounting Office shall conduct a study of the methods that could be used for, and the extent of any administrative burden that would be imposed on, the Department of Justice to ascertain the personnel and administrative costs incurred in defending in each case arising from a proceeding identified under section 201(a) (1) and (2).

(2) REPORT.—Not later than 90 days after completion of the study required by paragraph (1), the General Accounting Office shall submit to the Speaker of the House of Representatives and the President pro tempore of the Senate a report containing the information required to be included in the study.

Page 12, after line 16, insert

(c) STUDIES ON STATUTORY EFFECTS ON AGENCY OPERATIONS.—

(1) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the General Accounting Office shall conduct—

(A) a study on the effects of section 201 on the operations of Federal agencies; and

(B) a study on the effects of section 13 of the Contract Disputes Act of 1978 (41 U.S.C. 612) on the operations of Federal agencies.

(2) CONTENTS.—Each study under paragraph (1) shall include, with respect to the applicable statutes of the study—

(A) a summary of the number of cases in which a payment was made in accordance with section 2414, 2517, 2672, or 2677 of title 28, United States Code, and under section 1304 of title 31, United States Code;

(B) a summary of the length of time Federal agencies used to complete reimbursements of payments described under subparagraph (A); and

(C) conclusions that assist in making determinations on how the reimbursements of payments described under subparagraph (A) will affect—

(i) the operations of Federal agencies;

(ii) funds appropriated on an annual basis;

(iii) employee relations and other human capital matters;

(iv) settlements; and

(v) any other matter determined by the General Accounting Office to be appropriate for consideration.

(3) REPORTS.—Not later than 90 days after the completion of each study under paragraph (1), the General Accounting Office shall submit a report on each study, respectively, to the Speaker of the House of Representatives, the President pro tempore of the Senate, the Committee on Governmental Affairs of the Senate, the Committee on Government Reform of the House of Representatives, and the Attorney General.

Page 12, after line 16, insert

(d) STUDY ON ADMINISTRATIVE AND PERSONNEL COSTS INCURRED BY THE DEPARTMENT OF THE TREASURY.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the General Accounting Office shall conduct a study on the extent of any administrative and personnel costs incurred by the Department of the Treasury to account for payments made in accordance with section 2414, 2517, 2672, or 2677 of title 28, United States Code, and under section 1304 of title 31, United States Code, as a result of—

(A) this Act; and

(B) the Contracts Dispute Act of 1978 (41 U.S.C. 601 note; Public Law 95–563).

(2) REPORT.—Not later than 90 days after the completion of the study under paragraph (1), the General Accounting Office shall submit a report on the study to the Speaker of the House of Representatives, the President pro tempore of the Senate, the Committee on Governmental Affairs of the Senate, the Committee on Government Reform of the House of Representatives, and the Attorney General.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. SENSENBRENNER) and the gentlewoman from Texas (Ms. JACKSON-LEE) each will control 20 minutes.

The Chair recognizes the gentleman from Wisconsin (Mr. SENSENBRENNER).

GENERAL LEAVE

Mr. SENSENBRENNER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 169 now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. SENSENBRENNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Federal Government must be the role model for civil rights, not for civil rights violations. For far too long there has been little accountability which Federal agencies discriminate and retaliate against their employees. I am happy to say that this is about to change with the enactment of the No FEAR bill, a bill that I introduced, together with the gentlewoman from Texas (Ms. JACKSON-LEE), and the gentlewoman from Maryland (Mrs. MORELLA), after a year-long investigation.

That investigation, as well as several General Accounting Office investigations, indicated a serious problem in the Federal Government. The congressional investigation found evidence that a Federal agency was allowing discrimination and retaliation against its employees. This evidence was supported by the GAO reports that investigated discrimination in the Federal workforce during the 1990s and found that complaints of discrimination by Federal agencies grew tremendously.

In fact, by 1999, the number of such complaints to the EEOC increased by almost 130 percent over the number of complaints in 1991. The GAO reported that complaints alleging retaliation against employees who had participated in the complaint process also increased.

The problem in the Federal workforce is threefold. First, because of inadequate notification requirements, many employees are not aware of their rights and many managers are not aware of their responsibilities. Second, Federal agencies and Congress cannot assess the extent of the problem due to inadequate reporting. Third, Federal agencies are not accountable for the misdeeds of their employees, because they simply tap the general Treasury to pay for court judgments and settlements in discrimination cases.

The No FEAR Act targets these 3 problems. The bill will require agencies to pay for all court settlements and judgments for discrimination and retaliation cases, instead of allowing the agency to use a government-wide slush fund. This will make agencies more accountable.

The bill has a notification requirement aimed at improving workforce relations by increasing managers' and employees' knowledge of their respective rights and responsibilities.

The Act also has reporting requirements that will help determine if a pattern of misconduct exists within an agency and whether that agency is taking appropriate action to address the problem. The GAO testified on May 9 that such tracking of complaints, cases, and costs are not occurring, but that it is critical to understanding whether a problem exists.

As the National Taxpayers Union stated in urging Congress to enact the legislation, "The No FEAR Act promotes the virtues of fiscal responsibility and accountability in government." And, as Jack White of Time Magazine stated, the No FEAR bill is the "first new civil rights law of the 21st century."

The No FEAR Act passed the House back in October of 2001 with a 420 to zero vote. The Senate, after 6 months, finally passed the bill and sent it back here with a few minor changes to the reporting requirements and 2 new GAO studies.

In closing, Mr. Speaker, this bill never would have happened without the hard work of Dr. Marsha Coleman-Adebayo, the Federal whistleblower who brought this issue to the forefront; Mr. Leroy Warren of the NAACP, and Steven Kohn of the National Whistle Blowers Center.

Mr. Speaker, the Federal Government should be a model of the best practices for a fair and open work environment. That was not the case in the 1990s, but must be the case in the 21st century. I urge my colleagues to support this bill.

Mr. Speaker, I reserve the balance of my time.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, though this might seem to be a little bit flowery, there are often times when we bring legislation to the floor of the House that has worked its will, and it makes a difference and it changes lives, and we are glad that it passed.

□ 1415

But sometimes we can call legislation a labor of love, and I would like to think that the work that the chairman of the Committee on the Judiciary has done symbolizes that.

I would like to personally thank the gentleman from Wisconsin (Chairman SENSENBRENNER) for having the stick-to-it-iveness to collaborate with me and to be responsive to issues that came to our attention when we were members of the Committee on Science. The gentleman from Wisconsin was chairman, and I was a member of that committee. I remain a member of that committee and the Committee on the Judiciary, and we remain colleagues working together. This legislation represents a challenge to all of us.

Finally, the story has a positive ending. It represents changing lives. Mr. Speaker, I might say, some lives were lost. This is an important initiative on the floor of the House today. Because of its importance, I took all necessary means from Texas to get here on time, and I am glad I just made it.

But let me speak to the No FEAR Act regarding the legislation that is now before us that has come to us from the United States Senate. This is a major step in our fight to end the insidious practice of discrimination and retaliation in our Nation's Federal workforce.

Mr. Speaker, in the fiscal year 2000, Federal employees filed nearly 25,000 complaints against Federal agencies through the EEOC process. These complaints resulted in over $26 million in discrimination complaint settlements and judgments, with an average process time of 384 days per complaint in 1998, while a case traveling through the entire complaint process, from filing through appeal, could take up to 38 months.

Some would say that is a waste of money. Some would say that this legislation will, in fact, save the government money by creating an atmosphere of tolerance and nondiscrimination, as the chairman said, in the 21st century. These numbers and process times indicate that discrimination is pervasive now in our Federal workplace, and we must change it.

Under the Civil Rights Act of 1964, it is illegal to discriminate against Federal employees on the basis of race, color, sex, religion, national origin, age, or disability. These laws have taken us a long way towards ensuring equality, job security, and the rule of law in the Federal workplace by protecting Federal employees from retaliation when filing complaints against either the agency or other employees of the Federal Government who act in supervisory roles.

Currently, Federal whistleblowers may file reprisal complaints with the Office of Special Counsel, the Merit System Protection Board, the Department of Labor, the Occupation and Safety Health Administration, OSHA. Federal whistleblowers are protected under several Federal laws, the primary one being the Whistleblower Protection Act of 1989.

But the number of actions and extensive process times indicate that this legislation is greatly needed. The No FEAR Act is instructive and important. Since its introduction in the 106th Congress as H.R. 5516, the Notification and Federal Employee Antidiscrimination and Retaliation Act of 2000, No FEAR, has stood for the principle that Federal employees should have no fear reporting discriminatory behavior by their Federal agency employers.

Like its predecessor, the legislation before us today, H.R. 169, demands that agencies be held accountable for their misdeeds, but H.R. 169 expands accountability through the entire Federal Government.

The American Federation of Government Employees have No FEAR because we are here to work with them. We know of the conscientious and well-meaning and hardworking Federal employees, and we affirm them today. The only thing this legislation attempts to do is to work with them to ensure that we have a Federal workplace that all of us can be proud of.

Let me put a face on this problem, Mr. Speaker. On October 2, 2000, the House Committee on Science held a hearing entitled "Intolerance at EPA, Harming People, Harming Science." That is when our hero, Dr. Marsha Coleman-Adebayo, an EPA whistleblower, won a $600,000 jury decision against EPA for race and sex discrimination under Title VII of the Civil Rights Act of 1964.

During that hearing, then chairman of the Committee on Science, the gentleman from Wisconsin (Mr. SENSENBRENNER) illuminated the dangerous precedent set by the EPA, stating "While EPA has a clear policy on dealing with employees who discriminate, harass, or retaliate against other EPA employees, no one apparently involved in the Coleman-Adebayo or Nolan cases have yet to be disciplined by EPA."

Here is what we have: We have a situation where Dr. Coleman-Adebayo was faced with constant harassment and discrimination, and it did not change. Could Members imagine that in a subsequent report, those employees that discriminated against her were applauded and complimented for their work? Do Members realize that in the testimony, a number of those stories that were not able to be presented personally, a number of those stories resulted in illnesses that employees suffered. One employee lost his life because of the stress.

The No FEAR bill now responds to a workplace that can be safe and hospitable.

First, the bill requires accountability throughout our Federal workplace, and disturbingly, under current law, Federal agencies are not held liable when they lose judgments. The No FEAR Act recognizes that accountability is important.

The No FEAR Act, secondly, requires Federal agencies to notify employees about any applicable discrimination and whistleblower protection laws, and report to Congress. That is a big step. If they come as new or old employees, they do not know.

Third, No FEAR recognizes Congress' intent that such legislation is necessary, but should not otherwise limit the ability of Federal employees to exercise their other rights.

Finally, No FEAR requires each Federal agency to send in an annual report to Congress listing, among other things, the number of cases the agency is involved in.

Let me applaud the Senate, Mr. Speaker, and say that I am gratified at the amendments they offered, the one expressing the sense of Congress that we should not be punitive on one side to help another side. We should not use a reduction of workforce or forced furloughs in order to pay for settlements.

I am very gratified that they have an amendment that will allow the reports to go to all committees of jurisdiction, and their third amendment that will ask for a study to see how much the cost is.

Mr. Speaker, I believe this labor of love is long overdue, creating a hospitable workplace, but applauding the working people of the Federal Government, and at the same time weeding out and pushing out discrimination.

I'd like to thank Judiciary Chairman JAMES SENSENBRENNER, Ranking Member JOHN CONYERS, and all my colleagues from both sides of the aisle for supporting this important civil rights legislation. This bill before us today, a substitute to H.R. 169 (the No Fear Act), is a major step in our fight to end the insidious practice of discrimination and retaliation in our Nation's federal workplace.

My friends, in fiscal year 2000, federal employees filed nearly 25,000 complaints against federal agencies through the EEOC process. These complaints resulted in over $26 million in discrimination complaint settlements and judgements, with an average process time of 384 days per complaint in 1998, while a case traveling through the entire complaint process from filing through appeal could take up to 38 months. These numbers and process times indicate that discrimination is pervasive in our federal workplace.

Under the Civil Rights Act of 1964, it is illegal to discriminate against federal employees on the basis of race, color, sex, religion, national origin, age, or disability. These laws have taken us a long way towards ensuring equality, job security, and the rule of law in the federal workplace by protecting federal employees from retaliation for filing complaints against either the agency or other employees of the federal government who act in supervisory roles.

Currently, federal whistleblowers may file reprisal complaints with the Office of Special Counsel ("OSC"), the Merit Systems Protection Board ("MSPB"), and the Department of Labor's Occupational Safety and Health Administration ("OSHA"). Federal whistleblowers are protected under several federal laws, the primary one being the Whistleblower Protection Act of 1989. But the numbers of actions and extensive process times indicate that further legislation is greatly needed.

Since its introduction in the 106th Congress as H.R. 5516, the Notification and Federal Employee Anti-discrimination And Retaliation Act of 2000 (No FEAR Act), has stood for the principle that federal employees should have "no fear" in reporting discriminatory behavior by their federal agency employers. Like its predecessor, the legislation before us today, H.R. 169, demands that agencies be held accountable for their misdeeds, but H.R. 169 expands accountability throughout the entire Federal Government.

Let me put a face on this problem. On October 2, 2000, the House Science Committee held a hearing entitled "Intolerance at EPA—Harming People, Harming Science?" Dr. Marshal Coleman-Adebayo, an EPA whistleblower, won a $600,000 jury decision against EPA for race and sex discrimination under Title VII of the Civil Rights Act of 1964. During that hearing, then Chairman of the Science Committee Sensenbrenner illuminated the dangerous precedent set by the EPA, stating, "While EPA has a clear policy on dealing with employees that discriminate, harass and retaliate against other EPA employees, no one apparently involved in the Coleman-Adebayo or Nolan cases have yet to be disciplined by EPA."

I note with concern that an internal EPA memo dated August 2, 2001 praised the managers named in Dr. Coleman-Adebayo's case as environmental leaders without a single mention of their role in violating her civil rights. When coupled with the high profile nature of the Dr. Coleman-Adebayo's case, I believe these actions send the wrong message to EPA and federal employees.

No FEAR contains four major provisions which address this problem. First, the bill requires accountability throughout our federal workplace. Disturbingly, under current law, federal agencies are not held liable when they lose judgements, awards or compromise settlements in whistleblower and discrimination cases. This has the effect of discouraging accountability because the Federal Government pays such awards out of a government-wide judgement fund. The No FEAR Act recognizes that accountability is the cornerstone of good management policy, and as such requires that when agencies lose judgments, awards, or compromise settlements in whistleblower and discrimination cases, the responsible agency must pay for the judgment out of its own budget, rather than out of a general federal judgment fund as currently occurs.

Second, No FEAR requires Federal agencies to notify employees about any applicable discrimination and whistleblower protection laws and report to Congress and the Attorney General on the number of discrimination and whistleblower cases within each agency.

Third, No FEAR recognizes Congress' intent that such legislation is necessary but should not otherwise limit the ability of federal employees to exercise other rights available to them under federal law.

Finally, No FEAR requires each federal agency to send an annual report to Congress listing, among other things: (a) The number of cases in which an agency was alleged to have violated any of the discrimination and whistleblower statues; (b) the disposition of each of these cases; (c) the total of all monetary awards charged against the agency from these cases; and (d) the number of agency employees disciplined for discrimination or harassment.

The Senate Amendments added a new section expressing the sense of the Congress that agencies should not use a reduction in force or furloughs as a means of funding a reimbursement under the Act. This amendment also ensures that managers have adequate training in the management of a diverse workforce and in communication skills.

The Senate amendment also strengthens the bill's reporting requirements specifying that the reports must be sent to the Government Affairs Committee, the House Governmental Reform Committee and other committees of jurisdiction; requiring agencies to report on their policies relating to disciplining employees who commit prohibited personnel practices revealed in the investigation of a discrimination complaint.

Finally, The Senate amendment requires GAO to study the methods that could be used by the DOJ to determine its costs of defending each discrimination and whistleblower case, and the extent of any administrative burden that making such determination would entail.

In all, No FEAR makes our agencies more accountable by creating incentives for them to monitor themselves.

Mr. Speaker, we have come a long way towards eliminating the culture of discrimination and harassment that exists in our federal workplace. As Members of Congress, we must make every effort possible to ensure that those victims and heroes who come forward to warn us of the violations existing in the federal workplace are protected from retaliation, treated with the respect and dignity, and are afforded the due process to which they are entitled to under the law.

Our federal employees cannot and must not live in fear. This bi-partisan legislation will ensure that they do not. I urge my colleagues to support it.

Finally, I would like to express my appreciation to Dr. Marsha Coleman. Adebayo, all the employees that I met with on this issue the entire workplace task force, the NAACP, the Chicago branch of the NAACP and President of the NAACP Kweisi Mfume for their leadership, help, persistence and commitment to the passage of the No FEAR legislation.

Mr. Speaker, it is my pleasure to yield 3 minutes to the gentleman from Illinois (Mr. DAVIS), the distinguished ranking member of the Committee on Government Reform's Subcommittee on Civil Service and Agency Organization.

Mr. DAVIS of Illinois. Mr. Speaker, I thank the gentlewoman from Texas for yielding time to me.

Mr. Speaker, I rise in strong support of what is being commonly called the No FEAR Act. I want to commend the gentleman from Wisconsin (Chairman SENSENBRENNER) and the gentlewoman from Texas (Ms. JACKSON-LEE) for their hard work, diligence, and tenacity in pursuing this legislation to get it to the floor today. They both have done outstanding work, and I appreciate their efforts.

Mr. Speaker, our goal should be to always have in place the most open and responsive workplace that can be created. This means that employees must feel free, uninhibited, and able to operate without fear. They must be able to operate knowing that should they reveal information, that should they bring to the surface what they have seen, and should they report what they know, that there will be no reprisals, there will be no retaliation, and there will be nothing that anybody will ever be able to do that will cause them grief.

I think the day is great because it means that the Federal Government is exercising the kind of leadership that we ought to provide. The Federal Government should be the barometer, the leader in causing our country to function a certain way. I have always been told that you cannot lead where you do not go. So if we expect the private sector to come on line, then it is only apt that the Federal Government lead the way, lead the way in tolerance, nondiscrimination, and no retaliation against those who would exercise the right to be responsible.

So again, Mr. Speaker, I commend the gentleman from Wisconsin (Chairman SENSENBRENNER) and the gentlewoman from Texas (Ms. JACKSON-LEE) for their leadership on this issue, and urge strong support. I look forward to its passage.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me again thank the gentleman for this long journey that we took, and mention my thanks to the other body in the framework that I am allowed to do so in accordance with the rules of the House.

Let me conclude by simply saying that we are our brothers' and sisters' keepers. I appreciate the distinguished gentleman from Illinois because of his leadership on civil service issues. His support on this is, of course, making it a bill that responds to all of our concerns.

Mr. Speaker, I would simply say that this bill helps the government to do its work. Part of the problem with the Environmental Protection Agency is that sociologists could not do science work, but they could do good sociologists work. The problems is that they were mistreated such that they were forced to do a certain kind of work that they were not prepared for, and therefore resulted in a whole series of inhospitable working conditions.

So this legislation is good for the government because it creates an atmosphere where we can do our maximum best work, and work collectively together without discrimination.

Mr. Speaker, I ask my colleagues to enthusiastically support H.R. 165, the No FEAR Act.

Mr. Speaker, I yield back the balance of my time.

Mr. SENSENBRENNER. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, this bill is now reaching its final legislative consideration, and when the Senate amendments are concurred in, it will go to the White House for the President's signature. This shows that our system of representative government works.

All too often we hear complaints that elected officials never listen, or, "My speaking out does not make any difference." I think this bill shows that elected officials do listen, and a few people speaking out when they have right on their side can bring about a change in the laws of the United States of America, which I hope will have a far-reaching impact in preventing discrimination and retaliation within the Federal workforce.

If it were not for the work of Dr. Marsha Coleman-Abebayo and the NAACP Federal Workforce Task Force, I do not think that the Congress could ever have known about how bad the situation was in the EPA. But they did speak out, they did present a convincing case. They convinced both the Committee on Science in the last Congress and the Committee on the Judiciary in this Congress, as well as this House and the other body, that we needed to change the law to try to clean up some of these abusive practices.

I hope that this legislation will go a long way to doing this by making the agency financially accountable for settlements and judgments caused by the misdeeds of their supervisors. The system does work, Mr. Speaker.

Ms. JACKSON-LEE of Texas. Will the gentleman yield?

Mr. SENSENBRENNER. I yield to the gentlewoman from Texas.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the gentleman for yielding to me.

I just wanted to add my appreciation to the NAACP and to all of the employees and the task force, and particularly acknowledge Mr. Kweisi Mfume, who was one of our witnesses, for his leadership and interest on this issue. I want to express my appreciation to all who were engaged in helping with this legislation.

Mrs. MORELLA. Mr. Speaker, I rise today in strong support of H.R. 169, the NO FEAR legislation. This bill provides essential help to whistleblowers and those that suffer discrimination, and it penalizes agencies that attempt to practice discrimination or punish whistleblowers. Under current law, most judgments or awards against the federal government, including federal agencies, are paid out of a general judgment fund and are not attributed to, or accounted for, by the agency responsible for the claim. This bill requires federal agencies to reimburse the government's judgment fund for amounts paid out in response to a court settlement, award or judgment against an agency in a discrimination or whistleblower protection lawsuit. Hopefully, by making agencies responsible for their actions, we can further decrease the reprehensible practice of discrimination and the needless punishing of whistleblowers.

This bill has several other important provisions which my colleague from Wisconsin has mentioned and so I would just like to take this opportunity to point out and recognize two individuals, Dr. Marsha Coleman-Adebayo and Mr. Leroy Warren, Jr. Both of these individuals live in my district, Montgomery County, Maryland and played an instrumental role in helping this legislation come to the floor today.

Mr. Warren is Chairman of the NAACP Federal Sector Task Force and was asked to investigate and address the ever-growing number of complaints of discrimination within the federal government. Mr. Warren's task force did an admirable job in bringing to light much of the discrimination that federal employees faced.

Dr. Coleman-Adebayo has become well known for her courageous fight against discrimination by the EPA.

She is someone who suffered terribly from her battle but persevered and won her case against the EPA. She has testified in front of both the Science and Judiciary Committees to alert all of us to the seriousness of what transpired in her case. And now, hopefully, because of the NO FEAR bill, the first civil rights bill of the 21st Century, victims of racial, sexual, and hostile work environments, and whistleblowers, will not have to suffer the pain and abuse that Dr. Coleman-Adebayo endured. Let us hope instead that H.R. 169 will push federal agencies to spend their time devising effective plans to address all forms of discrimination in the workplace.

I urge my colleagues to support this bill.

Mr. SENSENBRENNER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CULBERSON). The question is on the motion offered by the gentleman from Wisconsin (Mr. SENSENBRENNER) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 169.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. SENSENBRENNER. Mr. Speaker, on that, I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

☐ 1430

YOSEMITE NATIONAL PARK EDUCATION IMPROVEMENT ACT

Mr. RADANOVICH. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3421) to provide adequate school facilities within Yosemite National Park, and for other purposes, as amended.

The Clerk read as follows:

H.R. 3421

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Yosemite National Park Education Improvement Act".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) The three elementary schools serving the children of employees of Yosemite National Park are served by the Bass Lake Joint Union Elementary School District and the Mariposa Unified School District.

(2) The schools are in remote mountainous areas and long distances from other educational and administrative facilities of the two local educational agencies.

(3) Because of their remote locations and relatively small number of students, schools serving the children of employees of the Park provide fewer services in more basic facilities than the educational services and facilities provided to students that attend other schools served by the two local educational agencies.

(4) Because of the long distances involved and adverse weather and road conditions that occur during much of the school year, it is impractical for the children of employees of the Park who live within or near the Park to attend other schools served by the two local educational agencies.

(b) PURPOSE.—The purpose of this Act is to authorize the Secretary of the Interior to provide supplemental funding and other services that are necessary to assist the State of California or local educational agencies in California in providing educational services for students attending schools located within the Park.

SEC. 3. PAYMENTS FOR EDUCATIONAL SERVICES.

(a) AUTHORITY TO PROVIDE FUNDS.—For fiscal years 2003 through 2007, the Secretary may provide funds to the Bass Lake Joint Union Elementary School District and the Mariposa Unified School District for educational services to students who are dependents of persons engaged in the administration, operation, and maintenance of the Park or students who live at or near the Park upon real property of the United States.

(b) LIMITATION ON USE OF FUNDS.—Payments made by the Secretary under this section may not be used for new construction, construction contracts, or major capital improvements, and may be used only to pay public employees for services otherwise authorized by this Act.

(c) LIMITATION ON AMOUNT OF FUNDS.—Payments made under this section shall not exceed the lesser of $750,000 in any fiscal year or the amount necessary to provide students described in subsection (a) with educational services that are normally provided and generally available to students who attend public schools elsewhere in the State of California.

(d) ADJUSTMENT OF PAYMENTS.—Subject to subsection (c), the Secretary is authorized to adjust payments made under this section if the State of California or the appropriate local educational agencies do not continue to provide funding for educational services at Park schools at per student levels that are equivalent to or greater than those provided in the fiscal year prior to the date of enactment of this Act.

(e) SOURCE OF PAYMENTS.—

(1) AUTHORIZED SOURCES.—Except as provided in paragraph (2), in order to make payments under this section, the Secretary may use funds available to the National Park Service from appropriations, donations, or fees.

(2) EXCEPTIONS.—Funds from the following sources may not be used to make payments under this section:

(A) Fees authorized and collected under the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l–4 et seq.).

(B) The recreational fee demonstration program under section 315 of the Department of the Interior and Related Agencies Appropriations Act, 1996 (as contained in section 101(c) of Public Law 104–134; 16 U.S.C. 460l–6a note).

(C) The national park passport program established under section 602 of the National Parks Omnibus Management Act of 1998 (16 U.S.C. 5992).

(D) Emergency appropriations for Yosemite flood recovery.

(f) DEFINITIONS.—For the purposes of this Act, the following definitions apply:

(1) LOCAL EDUCATIONAL AGENCIES.—The term "local educational agencies" has the meaning given that term in section 9101(26) of the Elementary and Secondary Education Act of 1965.

(2) EDUCATIONAL SERVICES.—The term "educational services" means services that may include maintenance and minor upgrades of facilities and transportation to and from school.

(3) PARK.—The term "Park" means Yosemite National Park.

(4) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

The SPEAKER pro tempore (Mr. CULBERSON). Pursuant to the rule, the gentleman from California (Mr. RADANOVICH) and the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. RADANOVICH).

Mr. RADANOVICH. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3421, which I introduced, would authorize the Secretary of the Interior to provide supplemental funding and other services necessary to assist local school districts in providing educational services for students attending three schools located within Yosemite National Park.

The three schools in question are Yosemite Valley, which serves 46 students in K through eighth grades; El Portel Elementary, which serves 50 students in seven grades; and Wawona Elementary, which serves 20 students in grades K through 8 with only one teacher.

All three schools represent those one-room schools of yesteryear.

Mr. Speaker, California schools are unique in that operating funds for schools are based on an average daily attendance. Since the devastating 1997 Merced River flood, there has been a dramatic reduction in the number of park employees and thus fewer school children attending these schools. With fewer and fewer children attending these schools, fewer State dollars are committed. The result is that the superintendent for Yosemite National Park and the concessionaire serving park visitors are attracting less than qualified candidates to work in the park because families are not provided with adequate schools.

Meanwhile, while the Federal funding sources such as Impact Aid and PILT, which is Payment In Lieu of Taxes, are made available to Mariposa and Madera Counties where these schools exist and through which money is distributed, the reality is very few dollars are actually used to fund these classrooms. In light of these realities, I was able to secure special funding in the amount of $111,000 in FY 2002 Interior appropriations bills for these schools. However, going to the appropriators every fall for this critical assistance is not the most productive approach.

Therefore, for the reasons I have outlined, the solution before the House today is the best long-term approach to this problem.

Mr. Speaker, during subcommittee and committee considerations, I made a number of changes to H.R. 3421 that address issues raised by the administration, members of the Committee on Resources, and the Committee on Education and the Workforce. For example, the bill makes clear that funds made available by the Secretary under H.R. 3421 will not go towards new construction, construction contracts or major capital improvements, and thus would be limited to general upkeep, maintenance, and classroom teaching. I do not think that we should stand by and permit children of the Park Service and concessionaire employees from being deprived of their education simply because their parents have chosen to work in Yosemite National Park.

Mr. Speaker, H.R. 3421 as amended is supported by the administration and the minority and majority of the Committee on Resources. I urge my colleagues to support H.R. 3421, as amended.

Mr. Speaker, I reserve the balance of my time.

Mrs. CHRISTENSEN. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, H.R. 3421, sponsored by my distinguished colleague and chairman, the gentleman from California (Mr. RADANOVICH), authorizes the National Park Service to provide funds and services to supplement the educational services and facilities provided to the children of Yosemite National Park employees and the park concessionaire at three small local schools located within the park.

The legislation provides a very unique arrangement for funding local schools. As such, a number of issues and problems with the bill as you have heard were raised during a December 2001 hearing on this bill. In fact, while the National Park Service expressed sympathy with the purpose of the bill, they, on behalf of the administration, initially opposed the measure. I appreciate the willingness of the gentleman from California (Mr. RADANOVICH) to make a number of changes requested by the minority, including deleting the use of entrance and user fees to pay for the program, limiting funds to operations and services, and eliminating the authority of the Secretary to assume operation of the schools. There were also negotiations with the Committee on Education and the Workforce which shares jurisdiction on this matter with the Committee on Resources.

As the result of those negotiations, the bill was further amended to include among other things a limit on the authorization of funds to 5 years and a cap on the funds of the lesser of $750,000 or the amount necessary to provide students with normal educational services.

Mr. Speaker, as I noted earlier, this legislation provides a unique arrangement for funding what should be a local responsibility. However, with the changes that have been made to the bill, I have no objection to its consideration and passage today.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. RADANOVICH. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. RADANOVICH) that the House suspend the rules and pass the bill, H.R. 3421, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GUNN McKAY NATURE PRESERVE ACT

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3909) to designate certain Federal lands in the State of Utah as the Gunn McKay Nature Preserve, and for other purposes.

The Clerk read as follows:

H.R. 3909

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Gunn McKay Nature Preserve Act".

SEC. 2. DEFINITIONS.

For the purposes of this Act:

(1) PRESERVE.—The term "Preserve" means the Gunn McKay Nature Preserve as so designated by section 3(a).

(2) SECRETARY.—The term "Secretary" means the Secretary of Agriculture.

SEC. 3. NATURE PRESERVE.

(a) DESIGNATION.—The approximately 15 acres of National Forest System land generally depicted on the map entitled "Proposed Gunn McKay Nature Preserve" and dated March 2002, are hereby designated as the "Gunn McKay Nature Preserve".

(b) MANAGEMENT.—

(1) MANAGEMENT PLAN.—Not later than 120 days after the date of the enactment of this Act, the Secretary, in consultation with the City of Huntsville, Utah, and the Gunn McKay Nature Preserve Foundation, Inc., a nonprofit corporation, shall develop a management plan for the Preserve.

(2) COOPERATIVE AGREEMENT.—The Secretary is authorized to enter into a cooperative agreement with the Gunn McKay Nature Preserve Foundation, Inc. for the management of the Preserve.

(c) WITHDRAWAL.—Subject to valid existing rights, the Preserve is hereby withdrawn from all forms of location, entry, and patent under the public land laws, and the mining and mineral leasing laws of the United States, including geothermal.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3909 would designate approximately 15 acres of Forest Service land in the State of Utah as the Gunn McKay Nature Preserve in honor of my predecessor, who served in this body from 1971 to 1981. Gunn passed away October of 2000.

Several years ago, residents of Huntsville, Utah, learned that the U.S. Forest Service was planning to build a helicopter landing area. The site near the city limits was to have been on undeveloped Federal lands and used to facilitate fighting wildfires in the surrounding forests.

Huntsville residents became concerned about helicopters landing and taking off in such close proximity in their neighborhoods. They proposed to the Forest Service that this open space instead be designated as a nature preserve. A non-profit organization was formed and the Forest Service agreed with the residents' proposal.

In addition to designating 15 acres as the nature preserve, this bill authorizes the Forest Service to work with the city of Huntsville and the Gunn McKay Nature Preserve Foundation to develop a management plan.

The preserve would be managed by the U.S. Forest Service in cooperation with the Gunn McKay Nature Preserve Foundation. This area will not only serve as a buffer between the residential area of Huntsville and nearby Pineview Reservoir, but it will also stand as a fitting tribute to a man whose commitment to Utah's First Congressional District and preservation of Utah's natural beauty was outstanding. When visitors go to the preserve to contemplate the solitude, hike on the trails or just enjoy nature, they will also pass by a plaque in the entrance summarizing Gunn's life and many accomplishments.

Just as the preserve will be managed in perpetuity, so will Gunn's memory live on.

I urge my colleagues to support H.R. 3909.

Mr. Speaker, I reserve the balance of my time.

Mrs. CHRISTENSEN. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, I am pleased to join my chairman in support of H.R. 3909, the Gunn McKay Nature Preserve Act, which was introduced by the chairman of the Committee on Resources, the gentleman from Utah (Mr. HANSEN), in honor of former Congressman Gunn McKay.

Congressman McKay represented Utah's First Congressional District from 1971 until 1980 when he was defeated by the gentleman from Utah (Mr. HANSEN). The bill would designate 15 acres of land near Huntsville, Utah, as the Gunn McKay Nature Preserve. The land is presently managed by the Forest Service for recreational purposes. The Secretary of Agriculture in consultation with the city of Huntsville, Utah, and the Gunn McKay Nature Preserve Foundation would develop the plan for the preserve. No new mining claims would be permitted within the area.

This bill honors Congressman McKay, who died last year. I urge the adoption of the bill.

Mr. Speaker, I yield such time as he might consume to the gentleman from Utah (Mr. MATHESON).

Mr. MATHESON. Mr. Speaker, I rise today to give my support to this legislation.

When we talk about public land in Utah, we are used to speaking in terms of 100,000 acres or million-acre parcels. We speak in terms of mountain ranges, entire deserts, and swaths of forests. But today, we are giving our blessing to the setting aside of a relatively small but immensely beautiful and important piece of land.

The creation of the Gunn McKay Nature Preserve would protect 15 acres of forest land in Huntsville, Utah. Mr. Speaker, Gunn McKay was a devoted member of the Utah delegation, and he served our State with honor and dignity from 1971 to 1981.

He was a Coast Guard veteran, a school teacher, a successful businessman, and a chief of staff for Utah Governor Cal Rampton.

Although he told the Democratic leader, "I do not want to run for Congress; I have nine kids and a mortgage," run he did. A few terms later he was the senior member of Utah's congressional delegation, a member of the House Committee on Appropriations, and a champion for the people of his district.

Congressman McKay was a true public servant. He was quoted in one newspaper article a few years ago saying, "The greatest satisfaction was helping people who needed an advocate."

This refuge will not only serve as a lasting memorial to the work and dedication of Congressman McKay, it is also a testament to the statesmanship of the chairman, the gentleman from Utah (Mr. HANSEN). Too often in politics we get caught up in petty political squabbles. We lose sight of the bigger picture, of getting important work done for the good of our constituents. The passage of this bill shows that the chairman has not lost sight of the goal. He is a true gentleman of the House, and he spent the last 20 years representing the State of Utah with the class and dignity that is true to the people who have elected him.

Mrs. CHRISTENSEN. Mr. Speaker, I reserve the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank the gentleman for his kind remarks. I also thank my colleague, the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN), on this piece of legislation.

Mrs. CHRISTENSEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and pass the bill, H.R. 3909.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

RECOGNIZING THE HISTORICAL SIGNIFICANCE OF THE AQUIA SANDSTONE QUARRIES OF STAFFORD COUNTY, VIRGINIA TO CONSTRUCTION OF CAPITAL OF THE UNITED STATES

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 261) recognizing the historical significance of the Aquia sandstone quarries of Government Island in Stafford County, Virginia, for their contributions to the construction of the Capital of the United States.

The Clerk read as follows:

H. RES. 261

Whereas the First Congress passed the Residence Act authorizing the establishment of a Federal Capital as the seat of Government of the new Republic;

Whereas President George Washington, acting under the authority of the Residence Act, selected the present site of the District of Columbia as the new Federal Capital and seat of government;

Whereas President Washington, aided by then Secretary of State Thomas Jefferson, took personal charge of the plans for the development of the new seat of government;

Whereas President Washington decided that the public buildings of the new capital city should be faced in stone so that these buildings would equal or exceed in beauty the buildings of the established capitals of Europe and promote permanence and majesty on the Potomac;

Whereas President Washington, a boyhood resident of Stafford County, Virginia, recommended that the freestone quarries on Aquia Creek in Stafford County be purchased by the Commissioners of Public Buildings as stone quarries for the public buildings of the District of Columbia, a recommendation acted on by Pierre L'Enfant, the planner of the new capital city;

Whereas the new quarries, later named Government Island, became the major source of building stone for the Capitol, the White House, and numerous other public buildings in the District of Columbia;

Whereas there exists substantial evidence of 18th and 19th century stone cutting and quarrying techniques on Government Island, and this physical evidence sheds light on a valuable and informative chapter in the development of the United States Capital; and

Whereas the Board of Supervisors and residents of Stafford County, Virginia, have undertaken action to preserve Government Island for posterity and to make it available for the education and enlightenment of the public: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the national historical significance of the Aquia sandstone quarries of Government Island in Stafford County, Virginia, for their substantial contribution to the construction of the new Capital of the United States under the direction of President George Washington; and

(2) commends the Board of Supervisors and residents of Stafford County, Virginia, for their efforts to preserve Government Island and to make it available for visitation by the public.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentlewoman from the Virgin Islands (Mrs.

CHRISTENSEN) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 261, introduced by the gentlewoman from Virginia (Mrs. JO ANN DAVIS), would recognize the historical significance of the Aquia sandstone quarries of Government Island in Stafford County, Virginia, for their contribution for the construction of our Nation's Capital city.

The stone, selected by our first President, George Washington, was used to build the Capitol, the White House, and numerous other Federal buildings in the District of Columbia.

This stone was wisely selected by our first President in an effort to ensure that this Nation's Capital would be every bit as elegant and stately as the capital cities of Europe.

The resolution also recognized the great efforts of the residents of Stafford County to protect Government Island and to safeguard the history surrounding this important contribution to our Nation's Capital.

I commend my colleague, the gentlewoman from Virginia (Mrs. JO ANN DAVIS), for her excellent efforts in introducing this legislation. I urge my colleagues to support its passage.

Mr. Speaker, I reserve the balance of my time.

Mrs. CHRISTENSEN. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, this House Resolution recognizes, as you have heard, the historical significance of the Aquia sandstone quarries of Government Island in Stafford County, Virginia, for their contributions to the construction of the Capital of the United States and commend the Stafford County commissioners and local residents for their efforts to preserve the quarries.

The stone from these particular quarries dates back to the late 17th century and was chosen by then President George Washington for use at Mt. Vernon as well as the construction of the U.S. Capitol, the White House, the original Treasury building, the Patent office, and the earliest locks and bridges of the C&O Canal.

Over time, the quarries were exhausted and the site has since been through a number of private hands and has entered in and out of public ownership.

We support this resolution commending the local community for their latest efforts to preserve this interesting area.

Mr. Speaker, I reserve the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield as much time as she may consume to the gentlewoman from Virginia (Mrs. JO ANN DAVIS), the author of this legislation.

Mrs. JO ANN DAVIS of Virginia. Mr. Speaker, I thank the chairman for yielding me time.

Mr. Speaker, I am very proud of the many historically significant contributions the Commonwealth of Virginia has offered this great Nation. Virginia has given America eight of its distinguished men to the Office of Presidency, three of whom were born in the first district that I represent, and countless other elected officials, military heroes and active citizens to the cause of freedom and democracy.

Today, I rise to pay a specific tribute to the Aquia quarries of Government Island in Stafford, Virginia, for their contributions to the construction of our Nation's Capitol building and the White House, among many other prominent structures.

As our forefathers struggled to create a nation through a Declaration of Independence and an enduring revolution, they sought to express permanency in their new-found freedom. Led by Virginia native George Washington, America began to plan a city that would dignify the grandeur of the new United States of America. They chose the land situated geographically centered in the new Nation up the Potomac River and to the top of what was known as Jenkin's Hill, a place Pierre Charles L'Enfant, the city's planner called "a pedestal waiting for a monument."

□ 1445

I could not agree more. Our Capitol has survived over 200 years, through the War of 1812, the Civil War, and more recently, the building was a suspected target of the recent horrific terrorist attack on our country. This building has grown and matured into the great symbol of America. The freedoms that we hold so dear and recent events have only hardened my deep fondness for our Capitol and what it represents.

Although little known, the north section of the north wing of the Capitol and the White House were constructed of Aquia sandstone quarried from Government Island and along the Aquia Creek in Stafford County, Virginia; another proud Virginia contribution.

Stafford County's board of supervisors, County Administrator C.M. Williams, county historian Jane Conner, and the county's citizens should be commended for making the preservation of this island a priority. Their good work will ensure that this area is preserved for future generations to explore and enjoy.

I ask my colleagues to join me today in support of this resolution to honor the enduring construction of this building, the cornerstone of our democracy, and all that it represents.

I would like to thank the entire Virginia delegation for cosponsoring this House resolution commemorating the United States Capitol and the White House, highlighting their humble Virginia beginnings. Additionally, I would like to thank the Committee on Resources chairman, the gentleman from Utah (Mr. HANSEN) and the gentleman from West Virginia (Mr. RAHALL), the ranking member, and the Subcommittee on National Parks, Recreation and Public Lands for moving this important Virginia initiative.

I again encourage my colleagues' support.

Mrs. CHRISTENSEN. Mr. Speaker, I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CULBERSON). The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and agree to the resolution, H. Res. 261.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING STUDY OF VIRGINIA KEY BEACH, FLORIDA, FOR POSSIBLE INCLUSION IN NATIONAL PARK SYSTEM

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2109) to authorize the Secretary of the Interior to conduct a special resource study of Virginia Key Beach, Florida, for possible inclusion in the National Park System, as amended.

The Clerk read as follows:

H.R. 2109

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. STUDY AND REPORT.

(a) STUDY.—The Secretary of the Interior (in this Act referred to as "the Secretary") shall conduct a study of Virginia Key Beach Park in Biscayne Bay, Florida, which was used for recreation by African Americans at a time when public beaches were racially segregated by law. The study shall evaluate the national significance of the site and the suitability and feasibility of establishing the site as a unit of the National Park System.

(b) CRITERIA.—In conducting the study required by subsection (a), the Secretary shall use the criteria for the study of areas for potential inclusion in the National Park System contained in section 8 of Public Law 91–383 (16 U.S.C. 1a–5; popularly known as the National Park System General Authorities Act).

(c) REPORT.—Upon completion of the study, the Secretary shall transmit to the Congress a report on the findings of the study and the conclusions and recommendations of the Secretary.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

H.R. 2109, introduced by the gentlewoman from Florida (Mrs. MEEK) would authorize the Secretary of the Interior to conduct a resource study of Virginia Key Beach Park in Miami, Florida, to determine the suitability and feasibility of including this site as a unit of the National Park System.

Virginia Key Beach Park, located just off the coast of Miami between Key Biscayne and Fisher Island, was for decades the only beach in South Florida where African Americans were permitted during the days of segregation. This beach was very significant in the local community for its numerous gatherings, which included baptisms and religious services, courtship and honeymoons, organizational gatherings, visiting celebrities and family recreation.

However, in 1982 the city of Miami, citing the high cost of maintaining and operating the park, closed the beach. Since that time, the city of Miami has explored various options regarding ownership and the future of the beach, although nothing has yet come to fruition. Nevertheless, it is my understanding that the local community continues to be very interested in the fate of the park due in large measure to its historical significance.

This bill would authorize the Park Service to conduct a study to examine the possibility of including Virginia Key Beach Park as a unit of the National Park Service.

Mr. Speaker, this legislation is supported by both majority and minority, and I urge my colleagues to support this bill.

Mr. Speaker, I reserve the balance of my time.

Mrs. CHRISTENSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2109, which was introduced by my friend and our colleague, the gentlewoman from Florida (Mrs. MEEK), would authorize a special resource study of the historic Virginia Key Beach Park located on Biscayne Bay in Florida.

Virginia Key Beach derives its importance from its history more so than from its natural or recreational qualities, although there are those as well. It was the first beach in south Florida to be opened to African Americans, and for many years it was the only beach available to us. Encompassing just 77 acres, the beach was a popular recreational area for local African American families, churches and other organizations, and as we have heard, it was a site of many important private and public events.

At the hearing before the Subcommittee on National Parks, Recreation and Public Lands, the National Park Service testified in support of a park study of this important area.

It is important that we look for ways to commemorate and preserve not only the history of this site but also the natural and recreational qualities as well.

I want to commend the sponsor, the gentlewoman from Florida (Mrs. MEEK), for her leadership on H.R. 2109. I am pleased to support this study legislation, and I urge my colleagues to do likewise.

Mr. Speaker, it is my pleasure to yield such time as she may consume to the gentlewoman from Florida (Mrs. MEEK).

Mrs. MEEK of Florida. Mr. Speaker, I want to thank the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN), and I want to thank the gentleman from California (Mr. RADANOVICH).

I rise with great pride, Mr. Speaker, and in strong support of H.R. 2109, my bill to authorize the Secretary of the Interior to conduct a special resource study of Virginia Key Beach in Miami, Florida, for its possible inclusion in the National Park System.

I want to again thank the gentleman from Utah (Mr. HANSEN), the chairman, and the gentleman from West Virginia (Mr. RAHALL), the ranking member of the full Committee on Resources, the gentleman from California (Mr. RADANOVICH), the chairman, and the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN), the ranking member of the subcommittee, and their respective staffs for their assistance and cooperation.

I also want to thank my delegation in south Florida, a bipartisan delegation, for cosponsoring this bill.

Mr. Speaker, Virginia Key Beach is a historically important and environmentally significant place, worthy of being preserved and studied for its inclusion in the National Park System.

Virginia Key was the only beach in Miami where African Americans could go to swim in the 1940s, 1950s and early 1960s. It was called "Virginia Key Beach at that time, a Dade County Park for the exclusive use of Negros." It opened on August 1, 1945. Until that time, Miami's beaches had been reserved for whites only. In those days of segregation, Virginia Key Beach was the only way blacks could legally enjoy the ocean in Dade County.

Dade County created this park in response to the efforts of the African American community to integrate the beaches in Miami.

The location of this beach was less than ideal, Mr. Speaker. There was no bridge, and the only way to get to it was by taking a boat from the Miami River.

Despite these impediments, African Americans have made Virginia Key Beach a very thriving center for social and cultural activities. The beach became a cherished getaway, a social gathering place and even a sacred site for religious services.

I attended many baptisms at Virginia Key Beach. The beach was the site for many baptisms, courtships, honeymoons, organizational gatherings, visiting celebrities and family recreation. Even after integration granted everyone a free choice of recreation areas, Virginia Key Beach remained the popular preference for many in the African American community.

Mr. Speaker, this legislation is near and dear to my heart because I know the long way we have come because I used this park frequently myself and brought my children there when they were young. The fact that I am a Congresswoman today shows how much society has changed in the intervening years.

Virginia Key Beach is a national treasure that stands as a monument to America's journey toward racial equality. As a reminder of our national heritage, Virginia Key Beach symbolizes the struggle of African Americans in the 20th century during racial segregation in the South and the onset of the civil rights movement.

Mr. Speaker, there are very few sites in the National Park System that recognizes the struggle for civil rights. Out of 385 units currently in the park system, only 4 have been designated to commemorate the civil rights era. We need to do more to recognize the civil rights era. It is important to remember that segregation affected every aspect of our lives, even our leisure time.

In addition to representing an important part of the history of African Americans, it is also an exceptional natural resource characterized by a unique and sensitive natural environment. The beach is a part of an area known as Virginia Key. It is a 1,000 acre barrier island. There has been some limited development, but the island is non-residential and includes ponds and waterways, a tropical hardwood hammocks and a large wildlife conservation area.

The Key is home to more than 25 species of birds during the winter, while its shallow waters contain extensive grass beds that support manatees, young sea turtles and many juvenile fishes. The United States Army Corps of Engineers, through their shoreline damage program, is currently restoring the beach and native plants on the islands.

Finally, let me note, thanking this committee and my colleagues, the chairman and the ranking member, Virginia Key Beach is an excellent location and it is very accessible. Other national attractions in south Florida, such as Everglades National Park, Big Cypress and Biscayne National Park, have extraordinary resources, but they are not readily accessible for individuals without personal transportation; Virginia Key Park is. There is a good Miami-Dade bus connection there, and it is further enhanced by a link to south Florida's rail system.

Mr. Speaker, Virginia Key Beach occupies a special place in the heart of all of us from south Florida. It is a wonderful reminder of the struggle of African Americans for civil rights and social justice.

Inclusion in the National Park System would help ensure that Virginia Key Beach is preserved and protected for future generations. A special resource study is the first step.

This committee has taken the first step to bring this to the floor. I urge my colleagues to support this important legislation.

Mr. HASTINGS of Florida. Mr. Speaker, I come before you today to encourage my colleagues to support H.R. 2109, a bill which would authorize the Secretary of the Interior to conduct a special resource study of historic Virginia Key Beach, FL, for the inclusion into the National Park System. Mr. Speaker, I am proud to support a very important bill which will allow Congress to preserve and protect this beautiful beach site area.

This legislation allows for the beautiful palm-studded old Florida beach located on a 1,000-acre barrier island, one of Miami's real treasures, to be recognized as a National Park. Miami's historical Virginia Key Beach has been one of Florida's most beautiful and unique areas since 1896. When I was growing up, Virginia Key was at one time one of Miami's most popular beaches for African-Americans to enjoy. With its scant four-tenths of a mile of actual shoreline, the park was the only bathing beach in the county legally available to African-Americans.

Mr. Speaker, this bill does not add to the national debt, therefore I urge my colleagues to realize there is no need to oppose it for economic reasons. This bill does not change any of the requirements for the inclusion process for national parks. All this bill calls for is the recognition of the 77-acre historic Virginia Key Beach site in Miami, FL. Passing this bill would be a reasonable and responsible approach in recognizing the significant value of this former "colored beach."

Florida needs a place that is recognized for its historical significance, a place that can be enjoyed today for both recreational purposes and so that people can learn about the history of this extraordinary scenic recreational site that was once cherished as a "Paradise."

I respectfully ask that my colleagues in this Congress vote in favor of H.R. 2109 which would induct historic Virginia Key Beach into the National Park System.

Mrs. CHRISTENSEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. HANSEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and pass the bill, H.R. 2109, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to authorize the Secretary of the Interior to conduct a special resource study of Virginia Key Beach Park in Biscayne Bay, Florida, for possible inclusion in the National Park System.".

A motion to reconsider was laid on the table.

MUSCLE SHOALS NATIONAL HERITAGE AREA, ALABAMA

Mr. HANSEN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2628) to direct the Secretary of the Interior to conduct a study of the suitability and feasibility of establishing the Muscle Shoals National Heritage Area in Alabama, and for other purposes.

The Clerk read as follows:

H.R. 2628

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Muscle Shoals National Heritage Area Study Act of 2001".

SEC. 2. STUDY.

The Secretary of the Interior, in consultation with appropriate State historic preservation officers, States historical societies, and other appropriate organizations, shall conduct a study regarding the suitability and feasibility of designating the study area described in section 3 as the Muscle Shoals National Heritage Area. The study shall include analysis, documentation, and determination regarding whether the study area—

(1) has an assemblage of natural, historic, and cultural resources that together represent distinctive aspects of American heritage worthy of recognition, conservation, interpretation, and continuing use, and are best managed through partnerships among public and private entities and by combining diverse and sometimes noncontiguous resources and active communities;

(2) reflects traditions, customs, beliefs, and folklife that are a valuable part of the national story;

(3) provides outstanding opportunities to conserve natural, historic, cultural, or scenic features;

(4) provides outstanding recreational and educational opportunities;

(5) contains resources important to the identified theme or themes of the study area that retain a degree of integrity capable of supporting interpretation;

(6) includes residents, business interests, nonprofit organizations, and local and State governments that are involved in the planning, have developed a conceptual financial plan that outlines the roles of all participants (including the Federal Government), and have demonstrated support for the concept of a national heritage area;

(7) has a potential management entity to work in partnership with residents, business interests, nonprofit organizations, and local and State governments to develop a national heritage area consistent with continued local and State economic activity; and

(8) has a conceptual boundary map that is supported by the public.

SEC. 3. BOUNDARIES OF THE STUDY AREA.

The study area referred to in section 2 shall be comprised of the following:

(1) The part of the Tennessee River's watershed in northern Alabama.

(2) The cities of Florence, Sheffield, Tuscumbia, and Muscle Shoals City, Alabama.

(3) The towns of Anderson, Cherokee, Courtland, Leighton, Lexington, Littleville, Red Bay, Rogersville, Russellville, Town Creek, and Waterloo, Alabama, and their environs.

(4) Colbert, Lauderdale, Franklin, and Lawrence Counties, Alabama.

(5) Other areas that have heritage aspects that are similar to those aspects that are in the areas described in paragraphs (1) through (4) and which are adjacent to or in the vicinity of those areas.

SEC. 4. REPORT.

Not later than 3 fiscal years after the date on which funds are first made available for this Act, the Secretary of the Interior shall submit to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the findings, conclusions, and recommendations of the study.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2628, introduced by the gentleman from Alabama (Mr. CRAMER) would direct the Secretary of the Interior to conduct a study to determine the suitability and feasibility of establishing the Muscle Shoals National Heritage Area in northwest Alabama.

Mr. Speaker, the city of Muscle Shoals and the surrounding area of northwest Alabama has played an integral part in shaping many aspects of Alabama and southern culture.

☐ 1500

It is the birthplace of Helen Keller, setting for Henry Ford's utopian 75-Mile City, which inspired Frank Lloyd Wright's Broadacre City, a number of Victorian arts and crafts residences, and plays host to the annual music festival named for blues musician W. C. Handy. It is also the home of the Tennessee Valley Authority, the first piece of the New Deal legislation. A number of historic trails also transverse the area, including the Natchez Trail and the Trail of Tears.

Mr. Speaker, H.R. 2628 is supported by both the majority and the minority of the committee and the administration. I urge my colleagues to support H.R. 2628.

Mr. Speaker, I reserve the balance of my time.

Mrs. CHRISTENSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2628, introduced by my colleague, the gentleman from Alabama (Mr. CRAMER), would direct the Secretary of the Interior to do a National Heritage Area study of the Muscle Shoals area of northern Alabama.

The Muscle Shoals area has a long history of industry, transportation and music, among other things.

When the Subcommittee on National Parks, Recreation, and Public Lands held a hearing on H.R. 2628 earlier this year, the National Park Service testified in support of the study. Our other witnesses, including the gentleman from Alabama (Mr. CRAMER), also detailed and expanded upon the history of the Muscle Shoals area for the subcommittee. It is obvious that the communities of the Muscle Shoals area value their heritage and are looking for ways to maintain and enhance the historical and natural resources of the area.

Mr. Speaker, H.R. 2628 is a good bill. It is also noncontroversial. I support the passage of the legislation and urge its favorable consideration by the House today.

Mr. Speaker, I yield such time as he may consume to the gentleman from Alabama (Mr. CRAMER), the sponsor of this measure.

Mr. CRAMER. Mr. Speaker, I want to thank the Committee on Resources and the Subcommittee on National Parks, Recreation, and Public Lands for moving H.R. 2628, which is my bill, as well as the chairman, the gentleman from Utah (Mr. HANSEN), and the ranking member, the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN), very much for their consideration.

Both the chairman and the ranking member have made reference to this unique area of Alabama that has an extraordinary history. H.R. 2628 would allow us to do a study to determine the feasibility of collecting that history and naming our area a national heritage study area. It was passed by the committee itself by unanimous consent, so it is a very uncontroversial piece.

This area of northwest Alabama is adjacent to the State of Tennessee and the State of Mississippi as well, so my colleagues in the House, the gentleman from Mississippi (Mr. WICKER) and the gentleman from Alabama (Mr. ADERHOLT), both are cosponsors of this piece of legislation.

As the chairman referred to and the ranking member referred to in their remarks about H.R. 2628, this area of northwest Alabama has an extraordinary history of involvement. Native Americans were active in this particular area, and we have an Indian Mound Museum there that is one of the most extraordinary museums in the country.

As we move on through history, the Tennessee River has defined our area culturally as well as in terms of transportation issues as well. In the early 1920s, the Wilson Locks and Dam was built there even before TVA came into existence. At the time it was the largest lock and dam on the Tennessee River and one of the largest dams in the country as well.

President Roosevelt visited that area and was so impressed by the potential that he saw there that he was inspired to form the Tennessee Valley Authority, which has given us a significant part of our prosperity there, not only in the State of Alabama but in Tennessee and the entire region as well.

But as the chairman referred to, we are the home of the W. C. Handy Festival. That is a blues festival. W. C. Handy, unbeknownst to a lot of people in the country, is the "Father of the blues." He was born in Florence, Alabama, which is located in northwest Alabama. This festival has existed for 20 years and has brought thousands of music specialists from all over the country.

We have a verbal history that is available in our area of the music tradition that there is. Now, the Muscle Shoals Studio was a recent era of music that really was born out of the blues era. It is a sound recording studio that has been used by many musicians around the world. All of that kind of heritage was started back in the early 1920s and built on from there as well. So this feasibility study would give us the chance to catalogue a lot of that information.

Helen Keller was born in Tuscumbia, Alabama. That is within 5 miles of this Tennessee River, and within 10 miles of Florence, Alabama as well. Her home, Ivy Green, was preserved as a museum. There is a Helen Keller Festival there as well. A lot of Helen Keller relatives come back to that area to this particular festival.

Jesse Owens was born in Lawrence County, again, another 7 miles from the very center of the area we are talking about. There is a museum to celebrate his contributions to American history there as well.

The Frank Lloyd Wright structures we have in this area all combine to give our area of Alabama a unique history which we think is deserving of this declaration as a National Heritage Area study place.

I want to thank again the committee for giving us this opportunity, and I urge my colleagues to pass this important bill, H.R. 2628.

Mr. HANSEN. Mr. Speaker, I yield back the balance of my time.

Mrs. CHRISTENSEN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CULBERSON). The question is on the motion offered by the gentleman from Utah (Mr. HANSEN) that the House suspend the rules and pass the bill, H.R. 2628.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. HANSEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on the five bills just considered, H.R. 3421, H.R. 3909, H. Res. 261, H.R. 2109, and H.R. 2628.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

STRENGTHENING SCIENCE AT THE ENVIRONMENTAL PROTECTION AGENCY ACT

Mr. EHLERS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 64) to provide for the establishment of the position of Deputy Administrator for Science and Technology of the Environmental Protection Agency, and for other purposes, as amended.

The Clerk read as follows:

H.R. 64

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Strengthening Science at the Environmental Protection Agency Act".

SEC. 2. DEFINITIONS.

For purposes of this Act—

(1) the term "Administrator" means the Administrator of the Agency;

(2) the term "Agency" means the Environmental Protection Agency;

(3) the term "Deputy" means the Deputy Administrator for Science and Technology appointed under section 4; and

(4) the term "research" means research, development, and demonstration.

SEC. 3. RESEARCH MISSION OF AGENCY.

Conducting, sponsoring, and evaluating environmental science and technology research shall be a central mission of the Agency. The results of such research shall be used to help initiate, formulate, and carry out the Agency's agenda, and the Agency shall seek to increase the public's understanding of environmental science and technology by making those research results available to the public.

SEC. 4. DEPUTY.

(a) APPOINTMENT.—The President shall appoint, by and with the advice and consent of the Senate, a Deputy Administrator for Science and Technology, who shall coordinate and oversee the science and technology activities of the Agency and ensure that Agency decisions are informed by the results of appropriate and relevant research.

(b) RESPONSIBILITIES.—The Deputy shall—

(1) provide advice to the Administrator regarding science and technology issues and their relationship to Agency policies, procedures, and decisions;

(2) participate in developing the Agency's strategic plans and policies and review the science and technology aspects of those plans and policies;

(3) coordinate the acquisition and compilation of relevant science and technology information available from academic sources, government agencies, and the private sector;

(4) develop and oversee guidelines for the dissemination of research results conducted,

sponsored, or cited by the Agency to the public, including historically black colleges and universities, Hispanic-serving institutions, minority communities, and rural communities; and

(5) develop and oversee guidelines for peer review of science and technology research.

(c) QUALIFICATIONS.—An individual appointed under subsection (a) shall be a person who has an outstanding science and technology background, including research accomplishments, scientific reputation, and public policy experience.

(d) CONSULTATION.—Before appointing an individual under subsection (a), the President shall consult with the National Academy of Sciences, the National Academy of Engineering, the Science Advisory Board of the Agency, and other appropriate scientific organizations.

(e) COMPENSATION.—The Deputy shall be compensated at the rate provided for level III of the Executive Schedule pursuant to section 5314 of title 5, United States Code.

(f) CONFORMING AMENDMENT.—Section 5314 of title 5, United States Code, is amended by adding at the end the following:

"Deputy Administrator for Science and Technology of the Environmental Protection Agency.".

SEC. 5. ASSISTANT ADMINISTRATOR FOR RESEARCH AND DEVELOPMENT.

(a) TITLE AND TERM.—There shall be an Assistant Administrator for Research and Development of the Agency, who shall also have the title of Chief Scientist of the Agency. Appointments to such position made after the date of the enactment of this Act shall be for a term of 5 years unless sooner removed by the President.

(b) QUALIFICATIONS.—An individual appointed under subsection (a) shall be a person who has an outstanding science and technology background, including research accomplishments, scientific reputation, and experience in leading a research and development organization.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Michigan (Mr. EHLERS) and the gentleman from Washington (Mr. BAIRD) will each control 20 minutes.

The Chair recognizes the gentleman from Michigan (Mr. EHLERS).

GENERAL LEAVE

Mr. EHLERS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on H.R. 64, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. EHLERS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise in support of H.R. 64, the Strengthening Science at the Environmental Protection Agency Act.

Time and time again I have heard my colleagues say, "What I really want is the use of sound science at the EPA." The perception of how EPA decisionmakers use science in their regulatory actions seems to fall into two camps: One view comes from the regulated community who claims that controversial decisions have ignored the underlying science. The other view comes from environmental and public advocacy communities who claim that the Agency ignores the underlying science while letting the regulated community unduly influence the process.

While these constituency may forever disagree on controversial decisions, one theme is common to both camps and to Members of Congress and the Judiciary, they doubt that the EPA uses science appropriately in its regulatory decisions.

How should the EPA use science? Is science simply a cudgel used to win a court battle? Is it simply an afterthought to the regulatory process? No. Rather, science should be at the beginning, middle, and end of the agency's decision-making process. It should infuse every issue from the beginning of discussions on that issue.

Several independent reviews have concluded that there are significant problems with the way science is used within the EPA's decision-making structure. These reviews include expert panels of scientists commissioned by the Congress, the EPA, the MITRE Corporation, and the National Academy of Public Administration. The latest and most influential review, the National Academy of Sciences' 2000 report concluded: "The importance of science in EPA's decision-making process should be no less than that afforded to legal considerations. Just as the advice of the Agency's general counsel is relied upon by the administrator to determine whether a proposed action is legal, an appropriately qualified and adequately empowered scientific official is needed to attest to the administrator and the Nation that the proposed action is scientific."

H.R. 64 provides for that qualified scientific official. This legislation would establish a new Deputy Administrator for Science and Technology to serve as an advocate for, and reviewer of, sciences at the most senior levels of the Agency. Second, the legislation would convert the position of the Assistant Administrator of the Office of Research and Development to a set term and give that position the title of Chief Scientist for the Agency.

The Deputy Administrator position will bring a much-needed change to the culture of the EPA and ensure that science has a higher profile in the Agency's decision-making process. This person would not only be accountable to the administrator for improving and overseeing science at the Agency, but would also be accountable to the Congress. This relationship would bolster Congress' confidence in the appropriate role of science at the EPA and, therefore, in regulatory decisions.

The Deputy Administrator is also needed to coordinate research between the regulatory and scientific arms of the Agency. A common problem with trying to ensure that science is involved throughout the regulatory process is that the head of the scientific arm of the Agency, the Assistant Administrator for ORD, shares the same rank as the heads of the regulatory offices. The authors of the Academy report argued since the new Deputy would rank higher than the existing Associate Administrators, this person could foster research relationships between the Office of Research and Development and the regulatory offices.

While this first objective of H.R. 64 is intended to increase the political impact that science has at the Agency, the second objective, to establish a set term for the Associate Administrator of the Office of Research and Development, seeks to decrease political pressures on this office. Although the political aspect of the Associate Administrator's job often receives attention, the most important aspects of the job are not political. Since the Deputy Administrator could bear many of the political pressures inside the Agency, the Associate Administrator could focus his or her role as the Agency's chief scientist on inspiring and supervising a world class scientific organization.

Before I close, let me mention that this legislation has garnered support from a wide array of outside groups. It has received backing from prestigious scientific groups such as the American Chemical Society, the American Society of Mechanical Engineers, and the Society of Toxicology; from business groups, including the National Association of Manufacturers and the Business Roundtable; and from universities and other interested parties, including the National Association of State universities and Land Grant Colleges, and members of EPA's Scientific Advisory Board.

The time has come to strengthen science at the EPA. Congress can act now by passing H.R. 64.

Mr. Speaker, I reserve the balance of my time.

Mr. BAIRD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 64, a bill that will strengthen the use of science at the Environmental Protection Agency. I am proud to cosponsor this legislation.

The chairman has done a great job of describing the bill. I would like to make just a few additional points. H.R. 64 will ensure that science plays its proper role at the EPA, providing the basis for sound regulations that do not unduly impede economic development while protecting our environment.

The bill creates the new position of Deputy Administrator for Science and Technology. It also makes the Assistant Administrator for the Office of Research and Development a 5-year position, much like the directors of the NIH and the National Science Foundation.

There is another important section that clarifies that research is integral to the mission of EPA to protect human health and the environment.

□ 1515

Mr. Speaker, the bill is supported by a wide array of business and scientific organizations. I believe the Committee on Science has crafted a good bill that will help ensure that the best and most recent science is considered when the administrator makes regulatory decisions.

Ultimately, it will be up to the EPA administrator to listen to the scientists, but this bill will provide the experts with an opportunity to present their findings in a timely fashion. There are concerns both from the administration and environmental groups that this bill might create yet another layer of bureaucracy at the agency. This conceivably could occur by giving the deputy administrator a veto over regulations.

Mr. Speaker, I would like to ask the gentleman from Michigan (Mr. EHLERS) whether he agrees or disagrees with that view, and whether he would be willing to work with me and others to address continuing concerns within the bill?

Mr. EHLERS. Mr. Speaker, will the gentleman yield?

Mr. BAIRD. I yield to the gentleman from Michigan.

Mr. EHLERS. Mr. Speaker, I am happy to continue to work with the gentleman on these issues.

I would like to comment that the issue of creating another layer of bureaucracy has been raised by other Members, and that is totally false. It does not create another layer of bureaucracy, it creates two positions side by side in the same layer, and I believe it is an appropriate role for the science administrator to have an equal status with the administrator who runs the rest of the agency.

That is the real objective of this bill, to have science at a higher level, and I do not consider that an additional layer of bureaucracy; but I am pleased to work with the gentleman.

Mr. BAIRD. Mr. Speaker, I appreciate the clarification, and concur with the gentleman's position.

Mr. Speaker, I thank the gentleman from New York (Mr. BOEHLERT) for his outstanding work on this bill and his leadership of our committee. I also thank the gentleman from Michigan (Mr. EHLERS) for his work.

Mr. Speaker, I reserve the balance of my time.

Mr. EHLERS. Mr. Speaker, I yield such time as he may consume to the gentleman from New York (Mr. BOEHLERT), the chairman of the Committee on Science, and also express my appreciation for his work on this issue.

(Mr. BOEHLERT asked and was given permission to revise and extend his remarks.)

Mr. BOEHLERT. Mr. Speaker, I want to point out to Members that this measure is brought forward by the gentleman from Michigan (Mr. EHLERS), a doctor, a distinguished scientist in his own right, who is providing invaluable service to the Committee on Science. He and another gentleman from Michigan (Mr. BARCIA), are a dynamic duo who have worked tirelessly to advance this bill to the point where we have it on the floor today under the Suspension Calendar, which is reserved for noncontroversial measures. This is noncontroversial.

No Member in their right mind can come up with any logical reason why we should not have a chief scientist in the Environmental Protection Agency. No one in their right mind can come up with any reason why we should not have, as this bill provides, a deputy administrator for science and technology. We are in an institution and in a town where people love to say that they favor science-based decision-making. Some of those people favor it as long as it is politically convenient. When the conclusion of the scientist is not politically convenient, they look elsewhere. There will be no escaping what this bill does, and its intent. We want to have the best possible scientific guidance for the administrator of the Environmental Protection Agency, and we want the Environmental Protection Agency to give the administration and Congress the best possible advice that is based on sound science.

If we have that, I am convinced we can continue to go forward in a very responsible way to deal with such issues as global climate change.

Mr. Speaker, I applaud the gentleman from Michigan (Mr. EHLERS) for his work on this, and the dedicated work of the staff on both sides of the aisle. The Committee on Science has an outstanding staff. I think it is second to none, very capable individuals, individuals with advanced degrees in various science disciplines, and that serves us all well.

Mr. Speaker, I urge Members to pay attention to what we are doing here today, and I would expect unanimous support for this very worthy bill.

Mr. BAIRD. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the gentleman for his leadership, and the gentleman from Michigan (Mr. EHLERS) for his leadership on this issue.

I think the words which have been spoken are particularly instructive. As a member of the Committee on Science for a number of years, and having oversight over the Environmental Protection Agency, this legislation that provides for an administrator for science and technology emphasizes the partnership between what the agency does and science.

Everything that we have had the opportunity to investigate in the Committee on Science permeates the words "science and technology," and particularly over these last years we have been utilizing the concept of technology: Technology and weather, technology in the science of pollution and clean air, technology as it relates to education, technology as it relates to the whole concept of keeping our communities safer and cleaner. So in order to provide greater advice to the administration and to ensure that the Environmental Protection Agency is an agency that is strengthened with science, I believe this legislation is the right direction.

Mr. Speaker, I hope that as this legislation moves, we will be able to implement the position very quickly because I am seeing with the changing focus on the utilization of science and technology, the greater need for that expertise, expertise to the Congress and to the administration. It is my pleasure to add my support to this legislation because it strengthens the Environmental Protection Agency upon which we rely greatly as well as our local communities, and it gives the insight that is necessary to make the process of the environment and science holistic.

Mr. EHLERS. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Maryland (Mrs. MORELLA), who has worked so hard on science issues, particularly the need to recruit women and minorities into science.

Mrs. MORELLA. Mr. Speaker, I thank the gentleman from Michigan (Mr. EHLERS) for yielding me this time, and offer my commendation to the chairman of the Committee on Science, the gentleman from New York (Mr. BOEHLERT) and the ranking member, the gentleman from Texas (Mr. HALL), and the ranking member of the subcommittee, the gentleman from Michigan (Mr. BARCIA), and the gentleman from Washington (Mr. BAIRD) for this piece of legislation that comes before us today.

Mr. Speaker, it is with great pleasure that I rise in support and as a proud cosponsor of H.R. 64, the Strengthening Science at the Environmental Protection Agency Act. This bill makes important changes to the administrative structure at the EPA, establishing for the first time a clear chain of command for EPA science, and a dedicated office responsible for maintaining the highest possible standards.

With this bill, the House Committee on Science continues its mission to advance common sense bipartisan legislation that directly confronts deficiencies in our scientific enterprise. I am proud of our work together, and I thank the gentleman from Michigan (Mr. EHLERS) and the gentleman from Michigan (Mr. BARCIA) and the gentleman from Washington (Mr. BAIRD) for upholding that tradition in bringing the bill before us today.

Recent reviews of the Environmental Protection Agency have rated the quality of the science high. As individuals, the dedicated men and women of the EPA are doing their jobs with the professionalism and integrity we have come to expect, and have every right to demand. They should be proud of their efforts.

Unfortunately, these same reviews have been critical of the organization and focus of the research. The work is piecemeal, and not always directly applicable. The overall mission is unclear, and important areas are unsupported. We clearly need a more top-down approach, and this bill provides one.

Sound science requires strong leadership. Administrator Whitman has made a commitment to improve oversight of the S&T initiatives at EPA, and I applaud her efforts to conduct a thorough review of her agency. She has the will, and it is time for Congress to provide the way. This bill would create a deputy administrator for science and technology, and provide a clear mandate for the coordination and oversight of research activities. It also provides a chief scientist for the agency to provide guidance and perspective. These improvements are sorely needed.

Two years ago, the National Research Council issued a comprehensive review of EPA, and specifically called for the offices created by this legislation. In that review, the NRC highlighted the growing concerns about EPA science. They found the quality of work extremely high, but the perception low. The committee unanimously judged the lack of a top science official a major contributor, calling this state a "formula for poor scientific credibility outside the agency." This is simply not acceptable.

The EPA's work is too important to suffer from poor perception. A regulatory agency cannot function without the public's trust. As the agency with primary oversight of the Nation's environment, the scientific basis for EPA's regulatory decisions must be beyond reproach. We will always have debates over trade-offs between environmental and economic prosperity, between fair use and exploitation, and too much regulation and not enough. We cannot afford to have debates about the science. It must be reliable, timely and sound.

No corporation is run without a head and no enterprise succeeds without a leader. The EPA needs a clear hierarchy and a dedicated office to oversee the science portfolio and take responsibility for its focus and direction. The importance of the work requires it. The impact of the decisions demand it, and the American people deserve no less. I urge Members to support H.R. 64.

Mr. BARCIA. Mr. Speaker, I rise in support of H.R. 64, the Strengthening Science at the Environmental Protection Agency Act, legislation that will ensure that science plays a proper role at the Environmental Protection Agency. We must be sure that science will serve as the basis for sound regulations that do not unduly impede economic development.

I want to thank Congressman SHERWOOD BOEHLERT and VERNON EHLERS who worked closely with myself and Congressman RALPH HALL to craft a truly bipartisan piece of legislation. This legislation addresses recommendations made by the National Academy of Sciences and will do much to improve the quality of science at the Environmental Protection Agency.

This legislation emphasizes that research is integral to the mission of EPA to protect human health and the environment.

The creation of a Deputy Administrator for Science and Technology will ensure that science has an equal seat at the table when important decisions are made. Any regulation issued by the EPA must be based on the best scientific information available. I believe that the elevated status of this new position will ensure this is the case.

I urge my colleagues to support H.R. 64.

Mr. SMITH of Michigan. Mr. Speaker, I rise in support of this legislation sponsored by my good friend and colleague from Michigan, Mr. EHLERS.

This legislation, which establishes a Deputy Administrator for Science and Technology at the Environmental Protection Agency, fulfills a recommendation made in a report of the National Academy of Sciences. It is intended to give science a more visible role at EPA and to ensure a sound foundation for science at the agency.

As many in this body know, there is a widespread perception that politics more than science influences regulatory decisions at EPA. This bill addresses this problem, but it is only the beginning.

There needs to be a real change in the culture at EPA. Many have asked whether it is appropriate to have a regulatory body conducting and overseeing the science used to support its regulatory determinations. It seems to me that there is an inherent conflict of interest in such an arrangement. Even when EPA science is sound, there is an inescapable perception that the regulatory decision drove the science, not the other way around. This bill is a good start at raising the profile and centrality of science at EPA.

I want to thank the gentleman from Michigan for his leadership on this issue, and I urge my colleagues to support H.R. 64.

Mr. HOLT. Mr. Speaker, I rise today in support of H.R. 64, the Strengthening Science at the Environmental Protection Agency Act.

In a report published in June of 2000, the National Academy of Sciences recommended the restructuring of the EPA's science programs to strengthen the role that science plays in the decision-making process. The National Academy's recommendations call for the establishment of a Deputy Administrator for Science and Technology and an appointment for the position of Assistant Administrator for Research and Development.

I am pleased that Mr. EHLERS introduced H.R. 64, which will make these recommendations a reality. Protection of our environment is dependent on science both to assess problems and to develop solutions. This bill enhances the mission of the Environmental Protection Agency to include conducting, sponsoring, and evaluating environmental science and technology research. The agency will then use the results of this research to carry out the EPA's agenda with regard to protecting the environment.

With this shift to a more science-based decision-making process at the Environmental Protection Agency, it only makes sense that the people who oversee science and technology at the EPA should be well-respected researchers who understand the scientific process. This bill directs the President to appoint a Deputy Administrator for Science and Technology and an Assistant Administrator for Research and Development (or Chief Scientist) who both have outstanding backgrounds, including research accomplishments, scientific reputation and leadership experience.

Although I support this effort, I wanted to sound one cautionary note. As we pass this bill, we will need to monitor its implementation carefully. We want to make sure that our direction that EPA has a Deputy Administrator for Science and Technology and an appointment for the position of Assistant Administrator for Research and Development not be distorted by anyone with a political agenda. We want to make sure the people who fill these new positions at EPA are truly scientists, not politicians intent on using junk science or biased science to fulfill a political agenda. That is equally true for pro-industry and pro-environmental positions.

All too often in the environmental arena we see decisionmaking being dictated by a reliance on studies created or funded by industry. In many instances, we don't have access to the raw data underlying these studies. As any scientist will tell you, this is a perversion of the peer review process that is the basis of all good science. We have also seen groups make wild claims that have no basis in scientific analysis.

Mr. Speaker, H.R. 64 is a well-intentioned bill and a step forward to see that our decisions are guided by the best available data. I urge my colleagues to support it.

Mr. BAIRD. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. EHLERS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CULBERSON). The question is on the motion offered by the gentleman from Michigan (Mr. EHLERS) that the House suspend the rules and pass the bill, H.R. 64, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

EXTENDING AUTHORITY OF EXPORT-IMPORT BANK UNTIL MAY 31, 2002

Mr. BEREUTER. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2248) to extend the authority of the Export-Import Bank until May 31, 2002.

The Clerk read as follows:

S. 2248

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXTENSION OF EXPORT-IMPORT BANK.

Notwithstanding the dates specified in section 7 of the Export-Import Bank Act of 1945 (12 U.S.C. 635f) and section 1(c) of Public Law 103–428, the Export-Import Bank of the United States shall continue to exercise its functions in connection with and in furtherance of its objects and purposes through May 31, 2002.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Nebraska (Mr. BEREUTER) and the gentleman from Vermont (Mr. SANDERS) each will control 20 minutes.

The Chair recognizes the gentleman from Nebraska (Mr. BEREUTER).

GENERAL LEAVE

Mr. BEREUTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on S. 2248, and to insert extraneous material on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

Mr. BEREUTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this Member rises today in support of S. 2248, which is being considered today under suspension of the rules. This legislation simply extends the authorization for the Export-Import Bank until May 31, 2002, nothing more. Under current law, the most recent short-term reauthorization of the Export-Import Bank expires on April 30, 2002. If this subsequent short term authorization extension is not signed into law, the Export-Import Bank could not engage in new transactions and would have to wind down its current operations as of today, April 30.

Without the passage of this legislation the Export-Import Bank will not have the legal authority to issue new financing commitments in support of the export of U.S. made goods and U.S. origin services.

□ 1530

Each year, the bank supports more than 2,300 export transactions. Eighty-six percent of those transactions are for small and medium-sized businesses. The bank processes a daily flow of export cases and any expiration of the bank's charter will jeopardize pending sales and the jobs of U.S. workers tied to those transactions.

Even more important to small business, the Export-Import Bank has a Credit Committee which approves small business transactions. This Credit Committee meets often each week. If this extension is not passed, the Credit Committee will not be able to do their business, and small businesses in turn will be hurt the most.

Therefore, it is extraordinarily important that we approve this legislation today. I say that because tomorrow, in fact, we will be debating the Export-Import Bank Reauthorization Act of 2001 under a rule. That bill, introduced by this Member, of course, had careful attention in subcommittee and committee, and we are prepared to take it to the House floor tomorrow under a rule which is expected to be prepared this evening for consideration tomorrow.

Mr. Speaker, in conclusion, for these reasons and many others, it is extraordinarily important that we approve this 1-month authorization extension for the Export-Import Bank today.

Mr. Speaker, I reserve the balance of my time.

Mr. SANDERS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, with all due respect to my very good friend, the gentleman from Nebraska (Mr. BEREUTER), I rise as the ranking member of the Subcommittee on International Monetary Policy and Trade in strong opposition to this 30-day extension to the Export-Import Bank. I think it is time to send this bank a message, and I think we should vote down this extension and this bill this afternoon.

This bill, I should say, is being opposed by 10 of my colleagues who have sent a letter to every Member of Congress urging a "no" vote on this legislation. These Representatives are the gentleman from California (Mr. ROHRABACHER), the gentleman from Michigan (Mr. CONYERS), the gentleman from Texas (Mr. PAUL), the gentleman from Oregon (Mr. DEFAZIO), the gentleman from Ohio (Mr. KUCINICH), the gentleman from New York (Mr. HINCHEY), the gentlewoman from California (Ms. LEE), the gentleman from Missouri (Mr. CLAY), the gentleman from Ohio (Mr. BROWN) and the gentleman from New York (Mr. TOWNS).

This bill is also opposed by the Paper Allied Chemical and Energy Workers International, PACE, a union with over 300,000 members. It is opposed by the Independent Steel Workers Union. It is opposed by the U.S. Business and Industry Council and by the CATO Institute, a conservative think tank.

Mr. Speaker, this is an example of where progressives, such as myself, and conservatives, are coming together to protect the American taxpayer and the workers of this country in opposition to an outrageous example of corporate welfare.

While I do not often agree with the conservative columnist Robert Novak, I urge Members to read the article he wrote which appeared in yesterday's Washington Post which raises some very strong concerns about the Export-Import Bank.

Mr. Speaker, many supporters of the Export-Import Bank argue that the bank is necessary in order to create jobs. What I want to know, therefore, is if this bank is supposed to create jobs, how come the major beneficiaries of the Export-Import Bank, the corporations who have received the most assistance year after year, have substantially reduced their American workforce? In other words, instead of creating new jobs, these large corporations have taken money from the Export-Import Bank and, year after year, they have thrown tens and tens of thousands of American workers out on the street.

I think it is time to tell those folks who are at the trough for corporate welfare that if they want money from the taxpayers of this country, if they want help from the working people of this country, you do not lay off hundreds of thousands of American workers.

Mr. Speaker, some have talked about how 86 percent of the transactions from Ex-Im go to small business. That is correct. But that is a bit misleading, because 82 percent of the money, what is really important, goes to the Fortune 500 companies, while only 18 percent of the dollars and the subsidies go to small business.

Mr. Speaker, let me give a few examples of the work and the actions of some of the major beneficiaries of the Export-Import Bank. General Electric has received over $2.5 billion in direct loans and loan guarantees from the Export-Import Bank. They are, I believe, the second largest major beneficiary. Not exactly a small business. In fact, they are one of the largest corporations in the world. So all the taxpayers in America who are struggling to keep their heads above water, GE thanks you very, very much for your assistance.

What is this company doing? What do they say. Jack Welch, as everybody knows, was the very successful CEO of GE for many years. Let me quote Mr. Welch: "Ideally, you have every plant you own on a barge."

That is his philosophy. I respect the guy. He is up front. He says that the way you make money is to move to China and Mexico, pay workers there sub-standard wages, and throw American workers out on the streets. That is his business. I do not have a problem with that, but I do have a serious problem that American taxpayers' money, American workers' money, goes to companies who say, "Hey, wouldn't it be ideal if we could have all of our jobs on a barge and move to any country in the world where wages are lower?"

GE has moved jobs from State to State and country to country in search of lower wages. The company's biggest export is, in fact, jobs. In 1975, GE had 667,000 American workers. In 1995, they employed 398,000, a decline of 269,000 jobs. Now, is that not something? What a success story for Ex-Im; the number 2 recipient lays off hundreds of thousands of jobs.

Now, I was a mayor of a city for 8 years and we provided help to the business communities. But, you know what? We did not just give them a blank check. We said if you want taxpayer money, this is what we want from you in return. And I would suggest very strongly that what the taxpayers of this country want when they subsidize corporations is they want those corporations to reinvest in America, create jobs in America, and not run to China, Mexico and every country in the world where they can pay workers starvation wages.

Mr. Speaker, I reserve the balance of my time.

Mr. BEREUTER. Mr. Speaker, it is my pleasure to yield such time as he may consume to the gentleman from Ohio (Mr. OXLEY), the distinguished chairman of the Committee on Financial Service.

Mr. OXLEY. Mr. Speaker, I rise today to support the 30-day extension of Ex-Im's reauthorization. Let me take a few minutes to outline for my colleagues why this extension is so critical.

Without this 30 day extension, the Ex-Im Bank will not be forced to close its doors, but it will be prevented from doing any new business transactions. What does that mean? It means many U.S. manufacturers will have to sit idle waiting for a full-term authorization, losing millions of dollars in business every day. It means that workers whose jobs depend on exports financed by the Ex-Im Bank will face an unclear future.

It means that the international export community will view the U.S. Congress as unsupportive of U.S. exporters and will seek to capitalize by convincing foreign markets that they cannot rely any longer on U.S. manufacturers. I have already received a copy of a letter that calls into question the ability of Ex-Im to transact future deals. That is the international perception. It is critical that we refute that view by passing this legislation.

Mr. Speaker, tomorrow the House is scheduled to consider a 4-year reauthorization of Ex-Im that was approved by the Committee on Financial Services in October of last year. That legislation, H.R. 2871, received broad bipartisan support in the committee and was approved by a voice vote.

I want to thank the gentleman from Nebraska (Mr. BEREUTER), the chairman of the Subcommittee on International Monetary Policy and Trade, who, over the past several months, has worked closely with the administration to remedy some of its concerns related to the original legislation. Many of those concerns have been addressed and will be included in a manager's amendment to the legislation.

Mr. Speaker, the Ex-Im Bank is a vital tool for the American exporting community. The Ex-Im Bank provides loan guarantees, insurance and direct loans to U.S. manufacturers that seek to reach overseas markets when there is no available commercial financing or direct competition from another export credit agency.

There are over 70 foreign export credit agencies supplying more than $500 billion in financing for international exports. In order to remain competitive in the international arena, U.S. exporters need the Ex-Im Bank to compete on a level playing field. Without Ex-Im, our manufacturers would face an international market full of goods receiving government sponsored support, making it more difficult for them to offer their goods at a competitive price. Additionally, without Ex-Im, it will be more difficult for U.S. goods to reach emerging markets, effectively closing out the opportunity for U.S. businesses to build a customer base in those countries.

Let me reiterate, Mr. Speaker we will take up the full authorization for the Ex-Im Bank tomorrow, but today we must extend the charter of the bank for 30 days to ensure that Ex-Im can continue to create new business. I urge my colleagues to join me in voting to approve this 30-day extension of the bank and let the world know that we support American manufacturers, we support American workers and we support the American economy.

Mr. SANDERS. Mr. Speaker, I am happy to yield such time as he may consume to the gentleman from New York (Mr. LAFALCE), the ranking member of the Committee on Financial Services.

Mr. LAFALCE. Mr. Speaker, I find myself in agreement with much of what has been said by my friend the gentleman from Nebraska (Mr. BEREUTER) and my friend the gentleman from Ohio (Mr. OXLEY), so I rise in strong support of this 30-day extension of the Ex-Im Bank.

I think it is imperative that we continue the existence of Ex-Im Bank until no other country has the means of subsidizing their exports. Otherwise, we would be engaging in unilateral disarmament. We cannot do that. I do not foresee the day in the near future when we are going to have a multilateral agreement that ends all subsidies of exports.

So, this is really a necessity for survival. If we did not extend Ex-Im Bank, basically you would have to shut down its operations. That is just untenable.

Having said that, let me also say I share some of the concerns of my good friend, the gentleman from Vermont (Mr. SANDERS), both with respect to procedure and with respect to substance. About 30 days ago when we had another 30-day extension, I said that it would be difficult for me to support another extension unless we had come to the floor or would be coming to the floor with the authorization bill.

I wish we had done it in the past 30 days, but we are doing it tomorrow. So that is good enough, we are doing it tomorrow. But also my assumption is, and I am supporting the 30-day extension on the assumption that the gentleman from Vermont (Mr. SANDERS) and others who have differences of opinion, who want to perfect the bill, will be given the opportunity to offer their amendments on the floor of the House so they can be voted up or down.

On the basis of that assumption, I can and do support the bill.

Mr. BEREUTER. Mr. Speaker, will the gentleman yield?

Mr. LAFALCE. I yield to the gentleman from Nebraska.

Mr. BEREUTER. Mr. Speaker, I would like to confirm the gentleman's understanding and expectation. This Member has specifically urged the Committee on Rules and our colleagues in the Committee on Financial Services to make in order, for example, the Sanders amendment and the amendment of the gentlewoman from Illinois (Ms. SCHAKOWSKY) and others that were offered in committee but which were not approved.

I expect and am very assured that we are going to have a structured but broadly open bill for discussion tomorrow and that the concerns of the distinguished gentleman (Mr. LAFALCE) will be addressed tomorrow in the debate.

Mr. BEREUTER. Mr. Speaker, will the gentleman yield?

Mr. LAFALCE. I yield to the gentleman from Nebraska.

Mr. LAFALCE. Mr. Speaker, reclaiming my time, I find that a very persuasive reason for supporting today's bill. I thank the gentleman from Nebraska.

Mr. SANDERS. Mr. Speaker, I am very happy to yield such time as he may consume to the distinguished gentleman from Michigan (Mr. CONYERS).

Mr. CONYERS. Mr. Speaker, I thank the ranking member for yielding me time.

Mr. Speaker, I just heard this last colloquy with the gentleman from New York. If he still has faith in the Committee on Rules around here, that we are going to get a rule that will allow us to offer our amendments, I am going to pray tonight, I will burn a candle, I will do everything necessary, but let us see what happens about that tonight.

Now, the Export-Import Bank, I do not get this around here. $673 million in loans and loan guarantees for projects related to the Enron Corporation. Has that corporation been lifted up into this debate? Does anybody want to defend that? I will yield to them right now. $673 million in loans, leaving the taxpayers exposed to $514 million in loans.

Then they approved a $300 million loan for an Enron-related project in India, even though the World Bank, for whom I have not always praise, has refused to finance the very same project because it was not economically viable.

□ 1545

So what goes on here? This was created in the Depression to create jobs, and now they are operating in a totally reverse strategy. Is this new information to the committee? And they are providing the money to the Fortune 500 corporations, which are nice people and I like them a lot, but they are the ones that are contracting the labor force into United States as we meet.

So I come to this debate a little bit confused.

Mr. SANDERS. Mr. Speaker, will the gentleman yield?

Mr. CONYERS. I yield to the gentleman from Vermont.

Mr. SANDERS. Mr. Speaker, the gentleman comes from Detroit where General Motors is. How many workers have been laid off by General Motors, a major recipient of the Export-Import Bank? Does the gentleman have any idea?

Mr. CONYERS. Yes, Mr. Speaker. Roughly 200,000.

Mr. SANDERS. Well, they must be doing a good job with the money that they are getting. They sure are.

Mr. CONYERS. Mr. Speaker, from 559,000 to 314,000, and that is just one of the automobile corporations; they are all contracting. And most of the Fortune 500 companies are contracting their workforce. So how do we end up thinking that this is very important because this does not protect American workers? Why are we here?

Mr. BEREUTER. Mr. Speaker, it is my pleasure to yield 5 minutes to the distinguished gentlewoman from New York (Mrs. MALONEY), a member of the Committee on Financial Services.

Mrs. MALONEY of New York. Mr. Speaker, I thank the gentleman for yielding me this time.

I rise in bipartisan support of the 30-day extension reauthorization of the Export-Import Bank. One month ago Congress successfully passed a 30-day reauthorization by voice vote, and I urge my colleagues to once again support keeping the bank in business as we finish the reauthorization tomorrow.

Since 1934, the Ex-Im Bank has helped finance the sale of U.S. products around the world by providing loan guarantees, loans, and export credit insurance for U.S. businesses. While some opponents of the bank argue that it has outlived its use, I believe its mission is increasingly relevant in today's competitive global economy, especially as new opportunities for U.S. exports increase in emerging markets.

In politically developing regions like Eastern Europe and the former Soviet Union, projects often require the support of an export credit agency, and without Ex-Im Bank, they would be more likely to fall to foreign competitors.

Exports are increasingly important to the U.S. economy. The U.S. is far more dependent on exports today, which form a larger share of the GNP, than in the 1930s. In fiscal year 2000, the bank supported over $15.5 billion in U.S. exports, on a subsidy of $759 million.

The important point to remember about the bank is that it is a lender of last resort. It offers guarantees for loans that otherwise would not be made. Mr. Speaker, $15.5 billion may not be a large number in relation to the entire U.S. economy, but this $15.5 billion represents economic activity and U.S. jobs that, without Ex-Im Bank, support would not be available to American workers.

Across the country, Ex-Im Bank support goes to businesses, both large and small. I am frequently visited by constituents who use the Ex-Im Bank. In my district in New York, the bank has worked with financial institutions, import-exporters and manufacturers, totaling over $1 billion in exports since 1995. During this period, the bank has supported 72 different businesses in my district alone, including 19 small businesses.

While today's vote will keep the bank in business for 30 days, the House will consider the bank's reauthorization through 2005 tomorrow.

With the leadership of the ranking member, the gentleman from New York (Mr. LAFALCE) and the chairman of the committee, the gentleman from Ohio (Mr. OXLEY) and the subcommittee chairman, the gentleman from Nebraska (Mr. BEREUTER), this reauthorization builds on the bank's past successes. It has strong bipartisan support, and it also includes an amendment I offered in the subcommittee giving the bank explicit authority to turn down an application for Ex-Im support when a company has engaged in fraudulent business practices.

Mr. Speaker, this is an important institution, and I urge its continued support, both today and tomorrow.

Mr. SANDERS. Mr. Speaker, I yield myself such time as I may consume.

Last summer, I worked with my very good friend, the distinguished chairman of the subcommittee, the gentleman from Nebraska (Mr. BEREUTER) on issues relating to the Export-Import Bank. In fact, we introduced a bill, H.R. 2517, that would have gone a very long way in protecting the taxpayers of this country from corporate welfare and in protecting American workers, and I want to thank the gentleman from Nebraska for his support of that effort. A markup was scheduled to take place on that bill but, out of nowhere, the markup was canceled, and my suspicion is that the moneyed interests who like the Export-Import Bank as it is right now sent down the word from on top that that markup never take place. What we have in front of us is an outrageous example of corporate welfare.

Mr. Speaker, my feeling is that the American people who, in many instances, are working longer hours for lower wages than was the case 20 or 30 years ago, many of whom have no health insurance, our seniors do not have prescription drugs, we face a housing crisis, a child care crisis; in the midst of all of this, people are saying, why are the taxpayers of this country providing huge subsidies and loans to the largest multinational corporations in the world who pay their CEOs huge salaries, give them huge benefits, and companies that take this money from the taxpayers say, thank you very much and, oh, by the way, we are laying you off because we are going to China and hiring somebody at 20 cents an hour.

I think the American people want us to protect their dollars. I think they want us to protect American workers.

What is so bad about saying to a corporation, if you want taxpayers' money, then you have to protect American jobs? What a radical idea. But it is an idea that has not yet come to the Export-Import Bank.

There are a number of reasons why we should vote "no" and send a message to the Export-Import Bank.

Number 1, major corporations take the money, lay off American workers, and run abroad.

Number 2, the Export-Import Bank, as the gentleman from Michigan (Mr. CONYERS) indicated, has provided $673 million in financing to questionable Enron-related projects, projects, in some instances, that the taxpayers of this country may have to pick up the tab for.

Number 3, the Export-Import Bank is hurting steel workers. The Export-Import Bank has provided an $18 million loan to help a Chinese steel mill purchase equipment to modernize their plant. This Chinese company has been accused of illegally dumping steel into the U.S. According to the United Steel Workers of America, "It is disgraceful that the U.S. Government is bankrolling Chinese steel production when U.S. steel companies are declaring bankruptcy and American workers are being laid off."

Number 4, the Export-Import Bank is helping the Chinese military. The Export-Import Bank is subsidizing Boeing aircraft sales to the Chinese military. According to the President of Machinist Local 751, "Boeing used to make tail sections for the 747s in Wichita, but they moved the work to a military factory in Xian, China. Is this Boeing's definition of free trade, to have American workers compete with Chinese labor making $50 a month under military discipline?"

Number 5, the Export-Import Bank is helping General Electric ship jobs to Mexico.

Number 6, the Export-Import Bank is helping AT&T ship jobs to China. And on and on and on it goes.

Mr. Speaker, in my view, if we keep the Export-Import Bank, we should have firm guarantees from the companies that receive the money that they are going to grow American jobs, they are going to hire more and more workers, not lay them off. In my view, a much larger percentage of money from the Export-Import Bank should go to the small business community, the people who are creating jobs in America, not to the big corporations who are sending our jobs abroad.

So, Mr. Speaker, I believe that the time is now to send a message to the Export-Import Bank who have, for so long, ignored the needs of the American taxpayer and have ignored the needs of American workers. Let us shut them down. Let them think. Give them some time to think. This is going to be a very good reflective time, contemplative time. They could take the time off, go home, meditate, and try to understand how they can represent American workers and American taxpayers, rather than just the multinational corporations.

So I urge a "no" vote. I will insert into the RECORD at this time a statement from the United States Business and Industry Council, which opposes the extension; a statement from the Cato Institute that opposes the extension; and a statement on behalf of the Paper, Allied-Industrial, Chemical and Energy Workers representing 320,000 American workers who want to keep their jobs in this country.

The statements are as follows:

UNITED STATES BUSINESS AND INDUSTRY COUNCIL,
April 29, 2002.

OPPOSE THE 30-DAY EXTENSION OF THE EXPORT-IMPORT BANK—REQUIRE THAT IT SUPPORT JOBS AND INDUSTRY IN AMERICA, NOT OVERSEAS

On Tuesday, April 30, 2002, a 30-day extension of the Export-Import Bank will be on the House Suspension Calendar. On behalf of our domestic American member companies, we urge that you vote against S. 2248.

The Export-Import Bank was created in 1934 to increase U.S. jobs through exports. Today, the Export-Import Bank has strayed from this mission. It is now providing billions of dollars to multinational companies that are laying-off hundreds of thousands of American workers and shipping their jobs overseas.

By opposing the 30-day extension, you will be sending a message to the Export-Import Bank that it should only support companies and projects that increase jobs in the United States.

EXPORT-IMPORT BANK'S TOP CLIENTS CUT THEIR WORKFORCE

Time Magazine reports the top 5 recipients of Ex-Im subsidies over the past decade have reduced their workforce by 38%—more than a third of a million jobs lost. These five companies, which include giants Boeing and General Electric, have received more than 60% of all Ex-Im subsidies.

THE EXPORT-IMPORT BANK HAS HELPED CHINESE STEELMAKERS

The Export-Import Bank has provided an $18 million loan to help a Chinese steel mill purchase equipment to modernize their plant. This Chinese company has been accused of illegally dumping steel into the American market. The U.S. government should not bankroll Chinese steel production when U.S. steel companies are being forced into bankruptcy by imports.

THE EXPORT-IMPORT BANK IS HELPING THE CHINESE MILITARY

The Export-Import Bank is subsidizing Boeing aircraft sales to China. Yet, Boeing has been increasing the amount of aircraft production it does in China. It used to make tail sections for the 737 in Wichita, but then moved the work to a military factory in Xian, China. Besides being questionable on commercial grounds, such deals amount to the Ex-Im Bank subsidizing Beijing's defense industry at a time when China's military buildup threatens the stability of Asia.

These practices must end. Oppose the 30-day extension of the Export-Import Bank.

THE CATO Institute,
April 30, 2002.

TIME TO RETIRE THE EXPORT-IMPORT BANK, CATO STUDY CONCLUDES

WASHINGTON.—The House of Representatives faces a vote this week on whether to reauthorize the Export-Import Bank of the United States. A recent study published by the Cato Institute, "Rethinking the Export-Import Bank," finds that, "the Ex-Im Bank is a Great Depression-era agency that has little relevance in a time of increasingly open and sophisticated global markets."

According to the study:

Generous export subsidies don't equal better export performance. The United States exported roughly twice as much in 2000 as it did in 1990. By comparison, Germany's exports increased by 34%, Japan's by 66%, the U.K.'s by 51%, and France's by 36%. Yet according to a 1997 GAO analysis of official export support, the United States subsidized a much smaller share of its exports than any of these other nations. In addition, most (more than 80%) beneficiaries of Ex-Im financing do not face subsidized competition.

Export subsidies don't increase net employment or "improve" the trade balance. By overriding the market, the Bank directs credit to less efficient uses, creating distortions in the national economy, and imposing opportunity costs that are higher than the added value of the Bank's intervention.

It is neither fair nor constitutional that taxpayer dollars are being used to support particular businesses, including Enron, GE, and numerous other multibillion-dollar beneficiaries. Indeed, in FY2000, the top 10 recipients of the Bank's loans and long-term guarantees were large corporations that got 86% of those services. Private credit markets are far deeper and are more accessible than during the Great Depression when the Bank was founded, and large corporations should have no trouble financing creditworthy projects.

"Rethinking the Export-Import Bank" can be found at *http://www.freetrade.org/pubs/briefs/tbp-015es.html*. Daniel Griswold, associate director of Cato's Center for Trade Policy Studies, is available to provide comments and background. He can be reached at (202) 789-5260, or dgriswold@cato.org.

PACE,
April 29, 2002.

U.S. HOUSE OF REPRESENTATIVES,
Washington, DC.

DEAR REPRESENTATIVE: On behalf of the Paper, Allied-Industrial, Chemical and Energy Workers International Union (PACE) and our 320,000 members I would like to express our opposition of the bill to provide for a 30-day extension of the Export-Import Bank. The bill will be on the Suspension Calendar for Tuesday, April 30, 2002. We urge that you vote against this legislation.

The Export-Import Bank was created in 1934, in the midst of the Great Depression, to increase U.S. jobs through exports. Unfortunately, the Export-Import Bank has reversed this strategy and is now providing billions of dollars in corporate welfare to large, multinational companies. In many instances, the companies that receive Export-Import Bank support are precisely the ones that are laying-off hundreds of thousands of American workers and shipping those jobs overseas to China and Mexico.

By opposing the 30-day extension, we will be sending a message to the Export-Import Bank and its supporters: start protecting American workers, stop financing Enron-related projects, support our struggling steel industry, and only support companies that are working hard to increase jobs in the United States—not the ones that are exporting jobs. If we are successful, the Export-Import Bank may have to close its doors for one day. Hopefully, this 24-hour period will enable the bank to consider changing its policies to help American workers—not the multi-national companies that are shipping jobs overseas.

Here are the top five reasons to oppose this bill:

1. The Export-Import Bank Provides Corporate Welfare To Companies That Ship jobs Overseas.

On August 8, 1996, the director of the AFL–CIO task force on trade said that: "Ex-Im financing is corporate welfare with a fig leave of U.S. jobs."

According to Time Magazine, the top 5 recipients of Ex-Im subsidies over the past decade which include Boeing and General Electric have reduced their workforce by 38%—more than a third of a million jobs down the drain. These same 5 companies have received more than 60 percent of all Export-Import subsidies.

2. The Export-Import Bank Has Provided $673 million in Financing to Questionable Enron-related projects.

Since 1994, the Export-Import Bank has provided $673 million in loans and loan guarantees for projects related to the Enron Corporation leaving taxpayers exposed to $514 million. The Ex-Im Bank approved a $300 million loan for an Enron-related project in India even though the World Bank repeatedly refused to finance this project because it was "not economically viable."

According to Human Rights Watch, Amnesty International, Friends of the Earth and the Indian media, "Enron subsidiaries paid local law enforcement to suppress opposition to its power plant in which they arbitrarily beat and arrested dozens of villagers."

3. The Export-Import Bank Is Hurting Steelworkers.

The Export-Import Bank has provided an $18 million loan to help a Chinese steel mill purchase equipment to modernize their plant. This Chinese company has been accused of illegally dumping steel into the U.S. According to the United Steelworkers of America, "It's disgraceful that the U.S. government is bankrolling Chinese steel production when U.S. steel companies are declaring bankruptcy and American workers are being laid-off."

4. The Export-Import Bank Is Helping Boeing Ship Jobs to China.

The Export-Import Bank is subsidizing Boeing aircraft sales to China. According to the President of Machinists' Local 751: "Boeing used to make tail sections for the 737 in Wichita, but they moved the work to a military factory in Xian, China. Is this Boeing's definition of free trade, to have American workers compete with Chinese labor making $50 a month under military discipline?"

5. The Export-Import Bank Is Helping General Electric Ship Jobs to Mexico.

The Ex-Im Bank insured a $3-million loan to aid General Electric build a factory where Mexican workers will make parts for appliances to export back to the United States. This project is responsible for the loss of 1,500 American jobs in Bloomington, Indiana. Their jobs will now be performed by Mexican workers who are making $2 per hour.

These practices must end. Oppose the 30-day extension of the Export-Import Bank bill.

Sincerely,

LOWELL "PETE" STRADER.

Mr. Speaker, I yield back the balance of my time.

Mr. BEREUTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in fact, the legislation that we will take up tomorrow will be requiring an increase of Ex-Im Bank funds for small business—a requirement of not less than 20%. Already, 86 percent of the transactions of the Export-Import Bank do involve small business.

This is not a question about sending a message to the Export-Import Bank by failing to approve this 1-month extension today. This is a very serious matter for it would not be just a 24-hour hiatus. This, in fact, will disturb the Ex-Im transactions now under review. It will be particularly damaging to the small business community, as I pointed out in my earlier remarks.

A "Dear Colleague" has been sent around to Members of the House. It states that, in fact, this is only a small message, a 24-hour period. As I said, this is not accurate. If the House does not vote in favor of Ex-Im's 30-day reauthorization, the bank will not be able to transact any new business until there is agreement between the House and the Senate on the terms of Ex-Im's reauthorization. In fact, the unfortunate message that would be sent is a real one to American exporters that we have no confidence in the Export-Import Bank.

I would like to address 4 specific points that were made in the "Dear Colleague" letter. First of all, the Export-Import Bank is not corporate welfare. As I mentioned, 86 percent of Ex-Im's transactions are with small businesses. Ex-Im charges interest on its direct loans and premiums for its guarantees and insurance, costs that the U.S. exporters usually pass through to the overseas customers. Those charges usually range from 5 percent to 17 percent of the financing obtained, depending upon the risk.

Number 2, the Export-Import Bank, like other institutions was, in fact, a victim of Enron. The entire U.S. economy was caught off guard when Enron folded, including the Ex-Im Bank.

□ 1600

But Ex-Im is receiving installment payments from Enron for all Enron-related transactions. Ex-Im is participating fully in the Justice Department investigation to determine if Enron made any false statements to the government with respect to export-import transactions.

Number three, the Export-Import Bank Extension Act does fight for steelworkers. The full reauthorization bill, which will come to the floor tomorrow, has a very important provision added at the suggestion or at the amendment of our colleague from the committee, the gentleman from Pennsylvania (Mr. TOOMEY).

That legislation addresses the $18 billion guarantee approved by the Export-Import Bank in December of 2000 to support the sale of computer software by American exporters to Benxi Iron and Steel Company in China. The Benxi Company was subject to a final determination of steel dumping by the International Trade Commission subsequent to that transaction approval.

The bill conforms Ex-Im lending to current U.S. trade laws now, because of the Toomey amendment, by barring any Ex-Im loan or guarantee for production of substantially the same product that is the subject of a countervailing duty or anti-dumping order or a section 201 determination by the International Trade Commission.

The legislation now also requires the Export-Import Bank to develop procedures for loans and loan guarantees to a business, which is subject to a preliminary countervailing trade duty or an anti-dumping determination of material injury. So we have taken very specific action in the committee on the Toomey amendment to address the concerns that came out of the Benxi steel case.

Fourth, I would say the Export-Import Bank is critical in maintaining U.S. jobs. It creates thousands of jobs every year.

I would like to give a quote from John J. Sweeney, the President of AFL-CIO. He says, "As far as we're concerned, corporations which receive subsidies from the Export-Import Bank are merely vehicles through which jobs and income for American workers are created."

I might also mention, this legislation is supported by the International Association of Machinists and Aerospace Workers. They strongly support passage of the legislation.

Now is not the time to take an action that is not responsible. We need to approve the 1-month extension today to keep the disruption from the Export-Import Bank's customers, the American exporters, from taking place.

We will have a full debate tomorrow. I am confident that the bill will give the gentleman from Vermont (Mr. SANDERS), for example, and other key members of the committee, as well as certain other Members of the House who have important amendments, an opportunity to present such amendments to be fully debated, and if necessary, a vote in the House.

Mr. Speaker, it is important we approve this legislation today under suspension. I urge my colleagues to support the passage of S. 2248.

Mr. LAFALCE. Mr. Speaker, I rise in strong support of this 30-day extension of authorization for the Export-Import Bank. Absent this extension, the Bank's authorization will expire, forcing Ex-Im to begin liquidation of its existing contracts and prohibiting any new transactions.

It is very important to understand that this 30-day extension is independent of consideration of H.R. 2871, the 4-year reauthorization of the Ex-Im Bank. H.R. 2871 will be considered tomorrow under a rule, which will give Members an opportunity to offer and debate amendments to the bill. That is the appropriate venue for consideration of more substantive issues related to the Bank's authorization. Today's 30-day extension is necessary to avert a major disruption of Ex-Im operations during the time it takes to consider H.R. 2871 and conference it with the Senate.

Failure to pass the 30-day extension will not only harm the reputation of the Ex-Im Bank. It will also cause serious economic harm to American businesses, including the thousands of small business exporters that account for 90 percent of the Bank's transactions. It will be a setback for U.S. credibility in the global economy, potentially triggering lack of confidence in the U.S. government as a creditor and guarantor in international financial transactions. And it will send the wrong message on the foreign policy front at a time when we are working hard to engage with other countries in the war on terorism.

Mr. BEREUTER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. WALDEN of Oregon). The question is on the motion offered by the gentleman from Nebraska (Mr. BEREUTER) that the House suspend the rules and pass the Senate bill, S. 2248.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. SANDERS. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

PERSONAL EXPLANATION

Ms. HARMAN. Mr. Speaker, on roll call vote 114 last Thursday, April 24, I am not listed as having voted, although I am quite certain I placed my voting card into the voting machine.

Let the record show I intended to vote no on roll call vote 114, the Issa amendment to the Immigration Reform and Accountability Act.

AUTHORIZING USE OF CAPITOL GROUNDS FOR NATIONAL PEACE OFFICERS' MEMORIAL SERVICE

Mrs. CAPITO. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 347) authorizing the use of the Capitol Grounds for the National Peace Officers' Memorial Service.

The Clerk read as follows:

H. CON. RES. 347

Resolved by the House of Representatives (the Senate concurring),

SECTION 1. USE OF CAPITOL GROUNDS FOR NATIONAL PEACE OFFICERS' MEMORIAL SERVICE.

(a) IN GENERAL.—The National Fraternal Order of Police and its auxiliary (in this resolution referred to as the "sponsor") shall be permitted to sponsor a public event, the 21st annual National Peace Officers' Memorial Service (in this resolution jointly referred to as the "event"), on the Capitol Grounds, in order to honor the law enforcement officers who died in the line of duty during 2001.

(b) DATE OF EVENT.—The event shall be held on May 15, 2002, or on such other date as the Speaker of the House of Representatives and the Committee on Rules and Administration of the Senate jointly designate.

SEC. 2. TERMS AND CONDITIONS.

(a) IN GENERAL.—Under conditions to be prescribed by the Architect of the Capitol and the Capitol Police Board, the event shall be—

(1) free of admission charge and open to the public; and

(2) arranged not to interfere with the needs of Congress.

(b) EXPENSES AND LIABILITIES.—The sponsor shall assume full responsibility for all expenses and liabilities incident to all activities associated with the event.

SEC. 3. EVENT PREPARATIONS.

Subject to the approval of the Architect of the Capitol, the sponsor is authorized to erect upon the Capitol Grounds such stage, sound amplification devices, and other related structures and equipment, as may be required for the event.

SEC. 4. ENFORCEMENT OF RESTRICTIONS.

The Capitol Police Board shall provide for enforcement of the restrictions contained in section 4 of the Act of July 31, 1946 (40 U.S.C. 193d; 60 Stat. 718), concerning sales, advertisements, displays, and solicitations on the Capitol Grounds, as well as other restrictions applicable to the Capitol Grounds, in connection with the event.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from West Virginia (Mrs. CAPITO) and the gentlewoman from the District of Columbia (Ms. NORTON) each will control 20 minutes.

The Chair recognizes the gentlewoman from West Virginia (Mrs. CAPITO).

Mrs. CAPITO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Concurrent Resolution 347 authorizes the use of the Capitol Grounds for the 21st Annual National Peace Officers' Memorial Service to be held on May 15, 2002.

In 2001, over 230 Federal, State, and local law enforcement officers were killed in the line of duty protecting and serving our Nation. The officers remembered in this service represent the risk involved in civilian protection, as well as the selflessness necessary to perform their duties. This memorial service will honor the courage and commitment of these men and women.

The memorial service will be one part of the annual Police Week, which is sponsored by the National Law Enforcement Officers Memorial Fund. This week of special events always occurs during the calendar week in which the National Peace Officers Memorial Day falls.

The week features such events as the Eighth Annual Blue Mass at St. Patrick's Catholic Church, the National Police Challenge 50K relay, the 7th Annual Motorcycle Dice Ride, the Seventh Annual Law Ride, the 14th Annual Candlelight Vigil at the National Law Enforcement Officers' Memorial, the Fraternal Order of Police and Auxiliary Wreath-laying Ceremony, and the memorial service authorized by this resolution.

I am proud and honored to bring this bipartisan resolution to the floor. I urge my colleagues to join me in supporting this resolution, which honors the many brave men and women of law enforcement who gave their lives in the line of duty to make America a safer place to live and work. I urge my colleagues to join me in supporting this resolution.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Concurrent Resolution 347 authorizes the use of the Capitol Grounds for the 21st Annual National Peace Officers' Memorial Service, a most solemn and respectful public event honoring our Nation's brave civil servants. The event, scheduled for May 15, will be coordinated with the Office of the Architect of the Capitol and the Capitol Hill Police.

I strongly support this tribute to Federal, State, and local police who gave their lives in the daily work of protecting our families, our homes, our places of work, and us. Over 230 brave men and women were killed in the line of duty during 2001. Included in that number are the 72 officers who lost their lives on September 11, 2001.

On average, one officer is killed in this country every other day, approximately 23,000 are injured every year, and thousands are assaulted going about their daily routines.

During 2001, 219 policemen and 11 policewomen were killed. The average age of those killed was 38 years, and they had an average of 11.7 years of service. The youngest was 21 years old and the oldest was 78 years. Their years of service range from being a rookie to 38 years.

Today, peace officers often must keep the peace even in the homeland, as we saw on September 11, especially here in the District of Columbia. They must be prepared for the unimagined, not only to prevent crime but to prevent disaster, biological and terror.

Mr. Speaker, the ceremony to be held on May 15 is the 21st anniversary of this memorial service. Consistent with all Capitol Hill events, the memorial service will be free and open to the public.

I support the resolution, and I urge my colleagues to join me in supporting this tribute to our fallen peace officers.

Mr. OBERSTAR. Mr. Speaker, I rise in support of H. Con. Res. 347 and urge my colleagues to join me in support of this important resolution, which authorizes the use of the Capitol Grounds for the National Peace Officers' Memorial Service on May 15, 2002.

President Kennedy proclaimed May 15th as National Peace Officers' Memorial Day. Each year on this date we, as a Nation, have an opportunity to honor the dedication and devotion of our Nation's peace officers. This May will mark the 21st anniversary of the Memorial Service on the Capitol Grounds. The tragic events of September 11 have reminded us of the great personal sacrifices that our Nation's peace officers make in order to serve the public. Their selflessness has become a model of American strength and courage.

There are approximately 700,000 sworn law enforcement officers serving the American public today. During 2001, more than 230 peace officers were killed in the line of duty, of those killed, eleven were women. The average age of those killed in the line of duty was 38 years. The youngest officer killed was 21; the oldest was 78.

It is most fitting and proper to honor the lives, sacrifices, and public service of our brave peace officers.

I urge support for H. Con. Res. 347.

Mr. COSTELLO. Mr. Speaker, H. Con. Res. 347 authorizes use of the Capitol Grounds for the 21st annual National Peace Officers Memorial Service—a most solemn and respectful service. As a former law enforcement official, this ceremony has a special meaning to me, and I strongly support this resolution that honors the police officers, 230 brave men and women, who gave their lives in the daily work of protecting our families and us.

On average, one officer is killed in this country every other day, approximately 23,000 are injured every year, and thousands are assaulted going about their daily routines.

During last year very devoted, heroic officers from the ranks of State, local and Federal service were killed in the line of duty—219 men, and 11 women were killed. The average age of those killed was 38 years, and they had an average of 11.7 years in service.

In my State of Illinois 7 brave police officers dies in the line of duty during 2001—At this time I would like to read their names into the RECORD:

Myron Deckard—Vermillion County, Illinois
Stanley Talbor—Illinois State Police
Brian T. Strause—Chicago
Kevin Rice, Sr.—Rockford
Eric D. Lee—Chicago
Donan J. Faulkner, Jr.—Peoria
Hector A. Silva—Chicago

Mr. Speaker, the ceremony to be held on May 15 is the 21st anniversary of this memorial service. I support the resolution and urge my colleagues to join me in supporting this tribute to our fallen Peace Officers.

Mrs. NORTON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mrs. CAPITO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from West Virginia (Mrs. CAPITO) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 347.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING USE OF CAPITOL GROUNDS FOR NATIONAL BOOK FESTIVAL

Mrs. CAPITO. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 348) authorizing the use of the Capitol Grounds for the National Book Festival.

The Clerk read as follows:

H. CON. RES. 348

Resolved by the House of Representatives (the Senate concurring),

SECTION 1. AUTHORIZATION OF USE OF CAPITOL GROUNDS FOR NATIONAL BOOK FESTIVAL.

(a) IN GENERAL.—The Library of Congress (in this resolution referred to as the "sponsor"), in cooperation with the First Lady, may sponsor the National Book Festival (in this resolution referred to as the "event") on the Capitol Grounds.

(b) DATE OF EVENT.—The event shall be held on September 21, 2002, or on such other date as the Speaker of the House of Representatives and the Committee on Rules and Administration of the Senate jointly designate.

SEC. 2. TERMS AND CONDITIONS.

(a) IN GENERAL.—Under conditions to be prescribed by the Architect of the Capitol and the Capitol Police Board, the event shall be—

(1) free of admission charge and open to the public; and

(2) arranged not to interfere with the needs of Congress.

(b) EXPENSES AND LIABILITIES.—The sponsor shall assume full responsibility for all expenses and liabilities incident to all activities associated with the event.

SEC. 3. EVENT PREPARATIONS.

(a) STRUCTURES AND EQUIPMENT.—Subject to the approval of the Architect of the Capitol, the sponsor may cause to be placed on the Capitol Grounds such stage, seating, booths, sound amplification and video devices, and other related structures and equipment as may be required for the event, including equipment for the broadcast of the event over radio, television, and other media outlets.

(b) ADDITIONAL ARRANGEMENTS.—The Architect of the Capitol and the Capitol Police Board may make any additional arrangements as may be required to carry out the event.

SEC. 4. ENFORCEMENT OF RESTRICTIONS.

The Capitol Police Board shall provide for enforcement of the restrictions contained in section 4 of the Act of July 31, 1946 (40 U.S.C. 193d; 60 Stat. 718), concerning sales, displays, advertisements, and solicitations on the Capitol Grounds, as well as other restrictions applicable to the Capitol Grounds in connection with the event.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from West Virginia (Mrs. CAPITO) and the gentlewoman from the District of Columbia (Ms. NORTON) each will control 20 minutes.

The Chair recognizes the gentlewoman from West Virginia (Mrs. CAPITO).

Mrs. CAPITO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Concurrent Resolution 348 authorizes the use of the Capitol Grounds for the Library of Congress's National Book Festival, to be held on September 21, 2002. The National Book Festival is a two-day event that will educate children, promote the use of libraries, and encourage the joys of reading.

On Saturday, September 21, First Lady Laura Bush will launch the Second Annual National Book Festival by connecting with children all across America through live satellite feeds and Web casting of the event. This will be hosted from the main reading room of the Library of Congress for a captivating afternoon reading program. The reading celebration continues at the Thomas Jefferson Building and on the grounds of the United States Capitol.

Much of the weekend's festivities are modeled after a similar book festival that the First Lady launched in Texas. A variety of noted authors and national celebrities will participate, offering readings throughout the afternoon. In addition, folk, jazz, and blues artists will chronicle American storytelling through music.

The President and First Lady have been strong advocates of education and reading, since it serves as the foundation from which we all learn and grow. I encourage any Members in town that weekend to attend this event with their young family members, in addition to encouraging their constituents to participate in this event, either those that live here in Washington or via the Internet.

I support the resolution, and strongly urge my colleagues to join in support.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I join the gentlewoman from West Virginia (Mrs. CAPITO) in support of House Concurrent Resolution 348, to authorize using the Capitol Grounds on September 21 for the National Book Festival.

The event, jointly hosted by the Library of Congress and First Lady Laura Bush, is intended to promote the Nation's libraries and celebrate the joys of reading. The book festival, held in September of 2001, was a huge success, drawing approximately 30,000 people to Capitol Hill to enjoy public readings and listen to poetry and music.

The book signings by the festival's invited authors proved to be so popular that the authors had to be moved out of doors to deal with the long lines of loyal fans, leaving many of them to comment that they felt like rock stars.

The book festival 2002 is also expected to be as successful, with prominent authors, music, and other activities throughout the day. As with all events on the Capitol grounds, it is open to the public and is free of charge, and has the support of the Joint Committee on the Library.

The sponsors of this event will coordinate with the Architect of the Capitol and the Capitol Police.

Mr. Speaker, cities all over the United States, localities of every kind, are choosing books for the entire locality to read to once again promote the joy of reading in our society.

I can think of no more worthwhile on-site activity for this Congress to authorize than promoting the reading of books and the joy of reading itself for adults and children alike.

The book festival is a very worthwhile endeavor, and I urge my colleagues to support this resolution.

Mr. Speaker, I yield back the balance of my time.

Mrs. CAPITO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from West Virginia (Mrs. CAPITO) that the House suspend the rules and agree to the concurrent resolution, House Concurrent Resolution 348.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING USE OF CAPITOL GROUNDS FOR DISTRICT OF COLUMBIA SPECIAL OLYMPICS LAW ENFORCEMENT TORCH RUN

Mrs. CAPITO. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 354) authorizing the use of the Capitol Grounds for the District of Columbia Special Olympics Law Enforcement Torch Run.

The Clerk read as follows:

H. CON. RES. 354

Resolved by the House of Representatives (the Senate concurring),

SECTION 1. AUTHORIZATION OF USE OF CAPITOL GROUNDS FOR D.C. SPECIAL OLYMPICS LAW ENFORCEMENT TORCH RUN.

On June 7, 2002, or on such other date as the Speaker of the House of Representatives and the Committee on Rules and Administration of the Senate may jointly designate, the 2002 District of Columbia Special Olympics Law Enforcement Torch Run (in this resolution referred to as the "event") may be run through the Capitol Grounds as part of the journey of the Special Olympics torch to the District of Columbia Special Olympics summer games at Gallaudet University in the District of Columbia.

SEC. 2. RESPONSIBILITY OF CAPITOL POLICE BOARD.

The Capitol Police Board shall take such actions as may be necessary to carry out the event.

SEC. 3. CONDITIONS RELATING TO PHYSICAL PREPARATIONS.

The Architect of the Capitol may prescribe conditions for physical preparations for the event.

SEC. 4. ENFORCEMENT OF RESTRICTIONS.

The Capitol Police Board shall provide for enforcement of the restrictions contained in section 4 of the Act of July 31, 1946 (40 U.S.C. 193d; 60 Stat. 718), concerning sales, advertisements, displays, and solicitations on the Capitol Grounds, as well as other restrictions applicable to the Capitol Grounds, in connection with the event.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from West Virginia (Mrs. CAPITO) and the gentlewoman from the District of Columbia (Ms. NORTON) each will control 20 minutes.

The Chair recognizes the gentlewoman from West Virginia (Mrs. CAPITO).

Mrs. CAPITO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Concurrent Resolution 353 authorizes the 2002 District of Columbia Special Olympics Law Enforcement Torch Run, to be conducted through the grounds of the Capitol on June 7, 2002. The Capitol Police will host the opening ceremonies for the run, starting on Capitol Hill, which will be free of charge and open to the public.

Over 2000 law enforcement officers representing 60 local and Federal law enforcement agencies will carry the Special Olympics torch in honor of and to show their support for the 2,500 Special Olympians who will participate in this annual event.

For over a decade, Congress has supported this worthy endeavor by enacting resolutions for the use of the grounds. Since its inception, the Torch Run has been launched from the West Terrace of the Capitol building.

I urge my colleagues to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this event needs little introduction. 2002 marks the 34th anniversary of the D.C. Special Olympics. The torch relay event is a traditional part of the opening ceremony for the Special Olympics, which takes place at the Gallaudet University here in the District of Columbia.

□ 1615

Each year, approximately 2,500 Special Olympians compete in over a dozen events and over one million children and adults with special needs participate in the Special Olympics worldwide programs. The event is supported by literally thousands of volunteers. The goal of the games is to help bring mentally handicapped individuals into the larger society under conditions whereby they are accepted and respected. Confidence and self-esteem are the building blocks of these Olympic games.

I enthusiastically support this resolution and the very worthwhile endeavor of the Special Olympics. I urge passage of H. Con. Res. 354.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mrs. CAPITO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. WALDEN of Oregon). The question is on the motion offered by the gentlewoman from West Virginia (Mrs. CAPITO) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 354.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING USE OF CAPITOL GROUNDS FOR GREATER WASHINGTON SOAP BOX DERBY

Mrs. CAPITO. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 356) authorizing the use of the Capitol Grounds for the Greater Washington Soap Box Derby.

The Clerk read as follows:

H. CON. RES. 356

Resolved by the House of Representatives (the Senate concurring),

SECTION 1. AUTHORIZATION OF SOAP BOX DERBY RACES ON CAPITOL GROUNDS.

The Greater Washington Soap Box Derby Association (in this resolution referred to as the "Association") shall be permitted to sponsor a public event, soap box derby races, on the Capitol Grounds on June 22, 2002, or on such other date as the Speaker of the House of Representatives and the Committee on Rules and Administration of the Senate may jointly designate.

SEC. 2. CONDITIONS.

The event to be carried out under this resolution shall be free of admission charge to the public and arranged not to interfere with the needs of Congress, under conditions to be prescribed by the Architect of the Capitol and the Capitol Police Board; except that the Association shall assume full responsibility for all expenses and liabilities incident to all activities associated with the event.

SEC. 3. STRUCTURES AND EQUIPMENT.

For the purposes of this resolution, the Association is authorized to erect upon the Capitol Grounds, subject to the approval of the Architect of the Capitol, such stage, sound amplification devices, and other related structures and equipment as may be required for the event to be carried out under this resolution.

SEC. 4. ADDITIONAL ARRANGEMENTS.

The Architect of the Capitol and the Capitol Police Board are authorized to make any such additional arrangements that may be required to carry out the event under this resolution.

SEC. 5. ENFORCEMENT OF RESTRICTIONS.

The Capitol Police Board shall provide for enforcement of the restrictions contained in section 4 of the Act of July 31, 1946 (40 U.S.C. 193d; 60 Stat. 718), concerning sales, advertisements, displays, and solicitations on the Capitol Grounds, as well as other restrictions applicable to the Capitol Grounds, with respect to the event to be carried out under this resolution.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from West Virginia (Mrs. CAPITO) and the gentlewoman from the District of Columbia (Ms. NORTON) each will control 20 minutes.

The Chair recognizes the gentlewoman from West Virginia (Mrs. CAPITO).

Mrs. CAPITO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Concurrent Resolution 356 authorizes the use of the Capitol grounds for the greater Washington Soap Box Derby qualifying races to be held on June 22, 2002.

The event is open to the public and free of charge and the sponsor assumes responsibility for all expenses and liabilities related to the event.

The races are to take place on Constitution Avenue between Delaware Avenue and Third Street Northwest. The participants competing in the events are residents of the Washington metropolitan area and range in ages from 9 to 16. Participants will compete in three open divisions based on their experience in building their vehicles. This event is currently one of the oldest of its kind in the country, having taken place for over 55 years. The winner will go on to represent the Washington metropolitan area at the national finals to be held in Akron, Ohio, later in the summer.

Participants in these events learn the value of hard work, dedication and attention to detail, since any loose parts or screws may affect their time in the event.

I support the resolution and urge my colleagues to do the same.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am delighted to join the sponsor in supporting H. Con. Res. 356 and acknowledging the efforts of the gentleman from Maryland (Mr. HOYER), who has been such a great champion for his constituents for this event.

As usual, this event has bipartisan support with co-sponsors including the gentlewoman from Maryland (Mrs. MORELLA), the gentleman from Virginia (Mr. WOLF) and the gentleman from Virginia (Mr. MORAN), the gentleman from Maryland (Mr. WYNN), and myself.

H. Con. Res. 356 authorizes use of the Capitol grounds for the Greater Washington Soap Box Derby. Youngsters ages 9 through 16 construct and operate their own soap box vehicles. On June 22, 2002, these youngsters of the greater Washington area race down Constitution Avenue to test the principles of aerodynamics in hand-designed and -constructed soap box vehicles.

Many hundreds of volunteers donate considerable time supporting the events and providing families with a fun-filled day. The event has grown in popularity and Washington is now known as one of the outstanding race cities. In keeping with standard procedures, the event is conducted under conditions prescribed by the Architect of the Capitol and the Police Board. It is free and open to the public.

Mr. Speaker, I support H. Con. Res. 356 and thank the gentleman from Maryland (Mr. HOYER) for his work in originating this resolution.

Mr. HOYER. Mr. Speaker, for the past ten years, I have sponsored a resolution for the Greater Washington Soap Box Derby to hold its race along Constitution Avenue.

Once again, I am proud to have sponsored H. Con. Res. 356 to permit the 65th race of the Greater Washington Soap Box Derby. It is scheduled to take place on the Capitol grounds on Saturday, June 22, 2002.

This resolution authorizes the Architect of the Capitol, the Capitol Police Board, and the Greater Washington Soap Box Derby Association to negotiate the necessary arrangements for conducting the race in complete compliance with the rules and regulations governing the use of the Capitol grounds.

I request my colleagues to join with me, and other co-sponsors including representative JIM MORAN, CONNIE MORELLA, ELEANOR HOLMES NORTON, FRANK WOLF, and ALBERT WYNN in supporting this resolution.

The Soap Box Derby has been in the Washington, D.C., area since 1992. It has attracted over 50 contestants each year. The participants range from ages 9 to 16.

The participants work very hard to prepare for the local Soap Box Derby. They are given an opportunity to learn basic skills of workmanship. They build their own race cars from a kit provided by the All-American Soap Box Derby Program. The participants are able to enhance their building skills to create a basic style car.

Winners of three levels of the local race become eligible to compete in the National Soap Box Derby races held in Akron, Ohio. Prior to the National races, they attend a week of camp in "Derbytown" where they make lasting friendships while participating in a variety of sporting activities. The National races are held in August and give the participants a chance to win scholarships and merchandise prizes.

Mr. Speaker, this even has been called "The Greatest Amateur Racing Event in the World". This is a wonderful opportunity for our children from the District of Columbia, Maryland, and Virginia to venture into the world of science, while experiencing the spirit of competition.

Ms. NORTON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mrs. CAPITO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from West Virginia (Mrs. CAPITO) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 356.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mrs. CAPITO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on House Concurrent Resolutions 347, 348, 354, 356, the measures just considered by the House.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from West Virginia?

There was no objection.

SUPPORTING NATIONAL BETTER HEARING AND SPEECH MONTH

Mr. BILIRAKIS. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 358) supporting the goals and ideals of National Better Hearing and Speech Month, and for other purposes.

The Clerk read as follows:

H. CON. RES. 358

Whereas the National Institute on Deafness and Other Communication Disorders (NIDCD) reports that approximately 42,000,000 people in the United States suffer from a speech, voice, language, or hearing impairment;

Whereas almost 28,000,000 people in the United States suffer from hearing loss;

Whereas 1 out of every 3 people in the United States more than 65 years of age suffers from hearing loss;

Whereas although more than 25,000,000 people in the United States would benefit from the use of a hearing aid, fewer than 7,000,000 people in the United States use a hearing aid;

Whereas sounds louder than 80 decibels are considered potentially dangerous and can lead to hearing loss;

Whereas the number of young children who suffer hearing loss as a result of environmental noise has been increasing;

Whereas every day in the United States approximately 33 babies are born with significant hearing loss;

Whereas hearing loss is the most common congenital disorder in newborns;

Whereas a delay in diagnosing a newborn's hearing loss can affect the child's social, emotional, and academic development;

Whereas the average age at which newborns with hearing loss are diagnosed is between 12 and 25 months;

Whereas more than 1,000,000 children received speech or language disorder services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) during the school year ending in 1998;

Whereas children with language impairments are 4 to 5 times more likely than their peers to experience reading problems;

Whereas 10 percent of children entering the first grade have moderate to severe speech disorders, including stuttering;

Whereas stuttering affects more than 2,000,000 people in the United States;

Whereas approximately 1,000,000 people in the United States have aphasia, a language disorder inhibiting spoken communication that results from damage caused by a stroke or other traumatic injury to the language centers of the brain; and

Whereas for the last 75 years May has been celebrated as National Better Hearing and Speech Month in order to raise awareness regarding speech, voice, language, and hearing impairments and to provide an opportunity for Federal, State, and local governments, members of the private and nonprofit sectors, speech and hearing professionals, and the people of the United States to focus on preventing, mitigating, and curing such impairments: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) supports the goals and ideals of National Better Hearing and Speech Month;

(2) commends the 41 States that have implemented routine hearing screenings for every newborn before the newborn leaves the hospital;

(3) supports the efforts of speech and hearing professionals in their efforts to improve the speech and hearing development of children; and

(4) encourages the people of the United States to have their hearing checked regularly and to avoid environmental noise that can lead to hearing loss.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. BILIRAKIS) and the gentleman from Ohio (Mr. BROWN) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. BILIRAKIS).

GENERAL LEAVE

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on this legislation and to insert extraneous material on H. Con. Res. 358.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise in support of H. Con. Res. 358, which supports the goals and ideals of a National Better Hearing and Speech Month. Approximately 42 million Americans suffer from a speech, voice, language or hearing disability. For the last 75 years, the month of May has been celebrated as National Better Hearing and Speech Month to help raise awareness on how to prevent, mitigate and cure these impairments.

Communication is indispensable for learning, working, playing, and enjoying family life and friendships. Children with listening difficulties due to hearing loss continue to be an underidentified and underserved population. The earlier the problem is diagnosed and addressed, the less serious the long-term impact. That is why I was so pleased that provisions relating to hearing loss in infants were included in the Children's Health Act of 2000. My good friend from New York (Mr. WALSH) was instrumental in this effort.

This resolution commended the 41 States that have implemented routine hearing screening for every newborn delivered in a hospital. I am happy to report that my home State of Florida vigorously promotes this policy by screening the newborns at all birthing facilities prior to discharge. Recent developments have shown that interventions to address auditory problems in newborns greatly enhanced the success rate in overcoming hearing-loss issues. Each adult and child with hearing loss is affected differently, which is why it is critical to detect hearing loss early and to determine the extent of loss in order to intervene appropriately.

This resolution encourages all Americans to have their hearing checked regularly and encourages individuals to avoid environmental noise that can lead to hearing loss.

Mr. Speaker, I urge my colleagues to support H. Con. Res. 358.

Mr. Speaker, I reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the National Institute of Deafness and Other Communication Disorders reports that some 40 million people suffer from a speech, voice, language, or hearing impediments.

Many of these impairments are found at birth. Every day about 33 babies are born with hearing loss, the most common congenital disorder in newborns. For the past 75 years, May has been celebrated as National Better Hearing and Speech Month, raising awareness about speech, voice, hearing, and language impairments.

Federal, State, and local governments, as well as members of the speech and hearing profession, have used May as an opportunity to educate the public about preventing, mitigating, and treating these impairments.

This resolution commends their work and that of the 41 States that have implemented routine hearing screening for every newborn.

I want to thank my colleague, the gentleman from Kansas (Mr. RYUN), and others for introducing this resolution; and I hope my colleagues would support it.

I would add, Mr. Speaker, as we occupy time on the House floor today doing not inconsequential things but things that do not directly have major positive impact on people's lives, passing resolutions like this, which I do support, and using them to educate the public about preventing and mitigating and treating speech and hearing loss, I think this Congress needs to do more on real health issues. That means issues like prescription drugs, issues like access to health care, issues like ensuring 40 million Americans are insured. Because to be sure, Mr. Speaker, checking for hearing, doing screenings, all of these things are programs that we can do something about.

In addition to doing a resolution, I would hope this Congress would put aside its fervor to cut taxes on the wealthiest people and instead would be using some of those resources for prescription drugs, for hearing and speech screening, for all the kinds of things that will make people's health care better and make people's lives better.

Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Kansas (Mr. RYUN), who not only is the author of this resolution but who has personally experienced this problem and who has shared that with many of us over the years.

Mr. RYUN of Kansas. Mr. Speaker, today I come to the House in support of the National Better Hearing and Speech Month. For 75 years, the month of May has been designated as a time to celebrate the hope available to Americans with speech and hearing impairments and to raise awareness about the need to protect their hearing.

Speech and hearing impairments impair the lives of many Americans. In fact, almost 28 million people in the United States suffer from a hearing loss. One out of every three people in the United States of an age greater than 65 suffer some sort of a hearing loss and every day in the United States approximately 33 babies are born with significant hearing loss.

As someone who has had a hearing impairment, I certainly know what a gift sound is, and I also know some of the struggles that go along with finding a proper hearing aid. My hearing loss is as a result of an illness that I had as a child. It was discovered a time later, and then it was decades before I could find the proper hearing devices to help me.

My wife, Ann, served as my hearing aid. She graciously helped me communicate for years before I could find the solution that would help me and I could work with.

Many dedicated professionals have assisted me over the years in my quest to find the help I have sought. And I would like to thank them for the work they have done in making not only my life better but so many others.

For those who have yet to have a hearing loss and have good hearing, I urge you to avoid harsh environments with noises that can damage your hearing and cause permanent hearing loss. Any sounds over 85 decibels can damage your hearing. For example, listening to an ambulance siren for 9 seconds, a smoke alarm for a minute and a half, or airplane cabin noise for a couple of minutes can damage your hearing. And I will say it is not retraceable. It is much easier to protect your hearing now than to suffering from hearing impairments.

I urge my colleagues to support May as National Better Hearing and Speech Month. It would be an encouragement not only to your constituents but those who suffer some sort of hearing and speech impairment back in the district, as well as those dedicated professionals who have worked together to help make this a better field.

Mr. BROWN of Ohio. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, speaking earlier today, in fact, walking over from my office in Rayburn to the House floor to work with the gentleman from Florida (Mr. BILIRAKIS) on the Ryun legislation today, and I was talking to some people whose families have Alzheimer's, who are advocating for Alzheimer's patients, again, this Congress is falling short on substantive kinds of issues to help people with Alzheimer's. There are some four or five million people suffering from Alzheimer's today.

If we do not do the research right, if we do not take care of those people well enough, that number is going to be as high, they say, in the next few years as 14 million patients.

We are falling short on what we are doing for community health centers and the National Health Service Corps, from the Community Access Program that my friend, the gentleman from Texas (Mr. GREEN), has worked on, the Chronic Disease Prevention program with CDC, nurses shortage, pharmacist shortage, the problems with home health care reimbursement, the problems with physician reimbursements, the problems with hospitals, especially rural hospital and inner-city hospitals reimbursement.

Those are the kinds of issues this Congress should work on. Not to belittle this resolution, which is important to educate people on speech and hearing loss, but this Congress needs to get its act in gear and begin to deal with issues like prescription drugs and reimbursements issues for providers and all the kinds of public health issues that this Republican Congress does not seem too very interested in.

The gentleman from Florida (Mr. BILIRAKIS), the chairman of our subcommittee, has done yeoman's work in trying to bring these issues forward. Unfortunately, the Republican leadership is not nearly so interested as many of us are on the committee in moving forward on public health issues, on prescription drug issues, community health centers and community access programs and CDC, and all the things that really will make a difference beyond the passage of a few resolutions that this Congress seems intent on doing week after week after week.

□ 1630

Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Before I yield to the gentleman from New York (Mr. WALSH), I would thank the gentleman from Ohio (Mr. BROWN) for his kind remarks. Certainly I do not disagree with them. I think it is important that all of us, rather than just a lot of rhetoric, sit down and try to work these things out, and if we have basically hard, fast, nonobjective thoughts about how things ought to be, nothing is ever going to get done.

I dare say that the gentleman from Ohio is not among the category of some people who would rather have an issue November. I really feel with my heart that he wants to do something about these things, and hopefully, working together, we can accomplish it.

Mr. Speaker, I yield such time as he might consume to the gentleman from New York (Mr. WALSH), the author of the hearing bill in the year 2000, who along with the gentleman from Kansas (Mr. RYUN) has really been the conscience of the Congress on this issue.

Mr. WALSH. Mr. Speaker, I thank the gentleman from Florida (Mr. BILIRAKIS) for the leadership that he provides in this Congress on health issues and especially those that affect children.

I would respectfully disagree with my colleague from Ohio who spoke earlier. There is no partisanship in this issue. There is great leadership on both sides of the aisle from both parties. Our health is something we all hold in common.

I rise today in strong support of H. Con. Res. 358 designating May 2002 as National Better Hearing and Speech Month. I commend my colleague, the gentleman from Kansas (Mr. RYUN), for introducing this resolution and also for his hard work and contributions as a co-chair of the bipartisan Congressional Hearing Health Caucus. Because of his personal experience with hearing loss, he brings firsthand knowledge of living with hearing loss to our caucus and to the public as a whole.

Thirteen years ago I began working with the deaf and hard-of-hearing community to craft legislation to have all infants screened for hearing loss at birth. At that time, only three hospitals in the country had programs, and only 3 percent of all infants born in the United States were being screened.

Since passage of the Newborn Infant Hearing Screening and Intervention Act of 1999, which gives States seed money through HRSA and CDC to set up their own screening and intervention programs, we are now screening 66 percent of infants born. This is remarkable progress, and yet we have much more to do.

Unfortunately, this year's budget zeros out funding at HRSA for these programs and basically level-funds the programs at CDC. I am working very closely with my fellow caucus cochairs, the gentleman from Kansas (Mr. RYUN), the gentlewoman from California (Mrs. CAPPS), and the gentlewoman from New York (Mrs. MCCARTHY), to ensure that this critical program receives additional appropriations so that we can screen all children.

The science in this area is clear. By identifying children with hearing loss by age 3 months and beginning intensive intervention by age 6 months, these children can and do develop communication skills on par with their normal hearing counterparts by the time they are ready to enter school. The next step is to ensure that children identified get appropriate interventions through the medical, audiological, educational and community support systems. All of these components are equally important.

Before I close, I want to invite all of my colleagues to a hearing health fair to be held on Wednesday, May 8, 2002, from 11:00 a.m. to 1:00 p.m. in the Rayburn House Office Building foyer. At this event our Federal agency counterparts, as well as several advocacy groups, will have representatives at booths to meet with anyone needing information on hearing health issues. I encourage everyone to attend as this will be a wonderful opportunity to have questions answered on anything from hearing aids to testing and living with hearing loss.

While most of my comments have focused on infants with hearing loss, the issue affects people of all ages. Regardless of whether hearing loss is genetic, disease-based, a function of the aging process or of unknown etiology, most people can be helped to maximize their hearing capabilities and communication skills, and I encourage my colleagues to take the opportunity to get a hearing screening during National Better Hearing and Speech Month.

Mr. Speaker, in closing, I would just like again to thank the gentleman from Florida (Mr. BILIRAKIS) for his leadership. He is one of the newest members of the Health Hearing Caucus. We are delighted that he is and we urge him to continue his important leadership.

Mr. DINGELL. Mr. Speaker, for 75 years, May has been designated Better Hearing and Speech Month. With an estimated 42 million Americans affected by speech, language, and hearing disorders, audiologist and speech language pathologist have made a special effort during this month to inform, educate, and raise awareness about this critical health care issue.

It is estimated that one in six Americans has a hearing, speech, or language problem—a condition that makes it difficult to communicate with others. An impairment of the ability to hear, speak, or understand effectively can affect anyone, of any age, at any time. If left untreated these problems can limit a person at home, school, and work. With proper treatment, however, the isolating effects of communication disorders can be minimized or completely eliminated.

As with most health care conditions, it is critical that communication disorders be diagnosed early. As the most common congenital birth defect, hearing loss can severely affect a child's social, emotional, and academic development. That is why I urge all 50 states to follow the example of my home state of Michigan, and implement routine hearing screens for every newborn before they leave the hospital. Also, hearing loss among Americans age 65 and over affects one out of three people, but without effective screening, many are condemned to suffer in silence. We must seek comprehensive hearing screening for all Americans.

Therefore, I support this resolution recognizing May as Better Hearing and Speech Month and urge the people of the United States to focus on preventing, mitigating, and curing communication disorders.

Mrs. MCCARTHY of New York. Mr. Speaker, I rise today in support of H. Con. Res. 358 and in celebration of May, National Better Hearing and Speech Month.

Did you know that 28 million people in the United States today suffer from hearing loss, and 16 million people have a speech or language disorder? 42 million people have a speech, language, voice or hearing impediment. Hearing loss is the most common congenital disorder found in newborns, and ten percent of children entering the first grade suffer from mild speech disorders like stuttering.

As a nurse, I know the issue of speech and hearing health affects many different people, from infants to adults to senior citizens. You can be born with a disorder, or you can develop one later in life due to late onset of a specific impediment, a stroke or traumatic event. But many Americans don't realize the extent to which our society deals with speech and hearing disorders. That is why, since 1927, the speech and hearing community has celebrated May as a month to increase national awareness of this health problem.

As a nurse, I understand the importance of getting the right healthcare immediately, especially when it comes to our children. Deafness is the most common birth defect; that out of the 12,000 babies born in the U.S. each year with hearing loss, 4,000 of them are profoundly deaf and need a cochlear implant, and 8,000 need hearing aids. Unless a child gets medical attention by the time they are two, permanent damage is done to his or her language and speech.

A newborn hearing test is simple and easy, and only costs $35. Our babies are subjected to batteries of other tests, and I think it's crucial for this one to be included.

As a founding member of the Congressional Hearing Caucus, I am extremely proud of H. Con. Res. 358. Not only does this resolution support the goals and ideals of National Better Hearing and Speech Month, it calls attention to and commends the 41 states that have implemented routine hearing screenings of every newborn before the baby leaves the hospital.

The resolution also supports the efforts of speech and hearing professionals to improve the speech and hearing development of children and encourages all Americans to have their hearing checked regularly and to avoid environmental noise that can lead to hearing loss.

All across the United States, people are trying to make a difference. I commend everyone in the speech and hearing community for their education and awareness efforts, as well as the extraordinary level of care and medical attention they give to their patients.

Mr. BROWN of Ohio. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I do not have any further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. WALDEN of Oregon). The question is on the motion offered by the gentleman from Florida (Mr. BILIRAKIS) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 358.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

ESTABLISHING A NATIONAL MINORITY HEALTH AND HEALTH DISPARITIES MONTH

Mr. BILIRAKIS. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 388) expressing the sense of the Congress that there should be established a National Minority Health and Health Disparities Month, and for other purposes.

The Clerk read as follows:

H. CON. RES. 388

Whereas in 2000, the Surgeon General of the Public Health Service announced as a goal the elimination by 2010 of health disparities experienced by racial and ethnic minorities in health access and outcome in 6 areas: infant mortality, cancer screening, cardiovascular disease, diabetes, acquired immunodeficiency syndrome and human immunodeficiency virus infection, and immunizations;

Whereas despite notable progress in the overall health of the Nation there are continuing health disparities in the burden of illness and death experienced by African-Americans, Hispanics, Native Americans, Alaska Natives, Asians, and Pacific Islanders, compared to the United States population as a whole;

Whereas minorities are more likely to die from cancer, cardiovascular disease, stroke, chemical dependency, diabetes, infant mortality, violence, and, in recent years, acquired immunodeficiency syndrome;

Whereas there is a national need for scientists in the fields of biomedical, clinical, behavioral, and health services research to focus on how best to eliminate health disparities;

Whereas individuals such as underrepresented minorities and women in the workforce enable society to address its diverse needs; and

Whereas behavioral and social sciences research has increased awareness and understanding of factors associated with health care utilization and access, patient attitudes toward health services, and risk and protective behaviors that affect health and illness, and these factors have the potential to be modified to help close the health disparities gap among ethnic minority populations: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of the Congress that—

(1) a National Minority Health and Health Disparities Month should be established to promote educational efforts on the health problems currently facing minorities and other health disparity populations;

(2) the Secretary of Health and Human services should, as authorized by the Minority Health and Health Disparities Research and Education Act of 2000, present public service announcements on health promotion and disease prevention among minorities and other health disparity populations in the United States and educate the public and health care professionals about health disparities;

(3) the President should issue a proclamation recognizing the immediate need to reduce health disparities in the United States and encouraging all health organizations and Americans to conduct appropriate programs and activities to promote healthfulness in minority and other health disparity communities;

(4) Federal, State, and local governments should work in concert with the private and nonprofit sector to emphasize the recruitment and retention of qualified individuals from racial, ethnic, and gender groups that are currently underrepresented in health care professions;

(5) the Agency for Healthcare Research and Quality should continue to collect and report data on health care access and utilization on patients by race, ethnicity, socioeconomic status, and where possible, primary language, as authorized by the Minority Health and Health Disparities Research and Education Act of 2000, to monitor the Nation's progress toward the elimination of health care disparities; and

(6) the information gained from research about factors associated with health care utilization and access, patient attitudes toward health services, and risk and protective behaviors that affect health and illness, should be disseminated to all health care professionals so that they may better communicate with all patients, regardless of race or ethnicity, without bias or prejudice.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. BILIRAKIS) and the gentleman from Ohio (Mr. BROWN) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. BILIRAKIS).

GENERAL LEAVE

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H. Con. Res. 388.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise in support of H. Con. Res. 388. Thanks to numerous medical advances, Americans are healthier than they have ever been before.

Unfortunately, not all Americans have equally shared in this progress. During the 106th Congress, the Committee on Commerce, Subcommittee on Health and Environment, which I chaired, reviewed the health disparities that persist between minority groups and the non-Hispanic white population. Hepatitis C, heart disease, diabetes, lupus, lung cancer and cervical cancer are but a few of the diseases that disproportionately affect minorities in this country.

Congress took an important step forward in addressing health disparities when it passed the Minority Health and Health Disparities Research and Education Act of 2000 late in the 106th Congress. This important legislation created a new National Center on Minority Health and Health Disparities which coordinates biomedical and behavioral research on these issues at the National Institutes of Health. I was pleased to move this legislation through my subcommittee and support it on the House floor.

Among other things, the resolution we are considering today would call for the establishment of a National Minority Health and Health Disparities Month to focus educational efforts on the health problems disproportionately affecting minorities. It also calls on the Secretary of Health and Human Services to develop public service announcements on health promotion and disease prevention. Finally, H. Con. Res. 388 calls for dissemination of information that would help health care professionals communicate in a culturally sensitive manner with all of their patients.

Raising awareness of existing health disparities is necessary to improving the overall health and well-being of the American people. Mr. Speaker, I urge my colleagues to support H. Con. Res. 388.

Mr. Speaker, I reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield myself 2 minutes.

I rise in support of the Christensen resolution. Our values and success as a Nation are a function of multiple races, multiple ethnicities and multiple cultures. The Nation's health care system, our medical research, our medical education and our medical care, should reflect that fact, but we have major work to do.

Minority populations have higher rates of cancer, higher rates of heart disease, especially higher rates of diabetes, higher rates of HIV/AIDS. Minorities have shorter life expectancies, higher infant mortality rates and a high, much too high, incidence of premature death. Minorities are less likely in this health care system to receive cancer screening and monitoring. Minorities are less likely to receive childhood and adult vaccinations.

Unless we initiate changes explicitly aimed at reducing disparities in health and health care, those disparities will persist. This resolution is a good start. Among other things, it would encourage the establishment of the Minority Health and Health Disparities Month. It asks the Secretary to deliver public service announcements on health promotion and disease prevention among minorities. It encourages governments to work with the private sector to recruit and to retain qualified individuals from racial and ethnic and gender groups underrepresented in health care professions.

Mr. Speaker, I want to thank the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) for sponsoring this resolution. I urge my colleagues to support it.

Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I am pleased to yield such time as he may consume to the gentleman from Oklahoma (Mr. WATTS), one of our Republican leaders who has been so very much involved in this legislation but also the legislation we passed in the last Congress.

Mr. WATTS of Oklahoma. Mr. Speaker, I appreciate the gentleman from Florida (Mr. BILIRAKIS) yielding me the time.

Mr. Speaker, I rise to support and increase the awareness of a very serious problem in our Nation today. Despite so much progress in the field of medicine, there is a significant discrepancy in the health of ethnic minorities compared to the rest of our American population. The silent reality should spur more than indignation. The facts and statistics that make up this crisis must be a wake-up call to all of us, regardless of the color of our skin.

The resolution before the House today aims to raise the level of awareness to the disparity of health care concerning members of minority communities. It calls for a dedicated month of minority health care recognition, urges the Secretary of Health and Human Services to develop public service announcements on health promotion and disease prevention among minorities, requests the President to issue a proclamation on minority health care, and encourages better use of data and statistics in order to help eliminate health disparities.

Hispanics, black Americans, Indians and other members of racial minorities have had higher levels of cancer, cardiovascular disease, stroke, diabetes and infant mortality. This is more than a misfortune. It is a systemic emergency that we must view as a call to action.

Hippocrates recognized the importance of quality health care over 2400 years ago when he said, "A wise man should consider that health is the greatest of human blessings." Let us make sure that all Americans have access to the care they need to sustain a healthy life.

I thank the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) for sponsoring this resolution with me, and I urge my colleagues to support our legislation to increase the level of attention America pays to minority health disparities. With a heightened level of awareness, we can make our country a healthier Nation and better the lives of all her citizens.

Mr. BROWN of Ohio. Mr. Speaker, I yield 5 minutes to the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) who is the sponsor of this resolution.

Mrs. CHRISTENSEN. Mr. Speaker, I thank the gentleman from Ohio (Mr. BROWN) for yielding me the time.

I am pleased to rise in support of H. Con. Res. 388, expressing the sense of Congress that there should be established a National Minority Health and Disparities Month, and I want to begin by expressing my gratitude to my cosponsors of the resolution, my colleagues, Chairman of the House Republican Conference, the gentleman from Oklahoma (Mr. WATTS), and chairman of the Subcommittee on Workforce Protections of the Committee on Education and the Workforce, the gentleman from Georgia (Mr. NORWOOD) for their willingness to join me in putting this important resolution forward.

I also want to thank the gentleman from Florida (Mr. BILIRAKIS) and the gentleman from Ohio (Mr. BROWN) for their support in making it possible to bring this resolution to the floor of the House today.

Mr. Speaker, pick any minority community across our great Nation or any of our Nation's rural areas and the reports will be the same. Minorities and people living in those rural areas, of all races and ethnicities, are dying of preventable diseases in alarmingly excessive numbers. Heart disease, hypertension, HIV/AIDS, cancer, diabetes, stroke and kidney disease predominate as the leading causes of death in these groups in far greater numbers than that of white suburban or urban America.

In addition, substance abuse and diminished mental health continue to take a staggering toll on many individuals in this group and undermine the well-being of our communities.

This resolution in establishing a special month of focus on this national tragedy will hopefully forge a national resolve to close these gaps through increasing the awareness that gross disparities in health care continue to exist for people of color and those in our rural areas, which disrupt families, damage community and threaten our national security.

1645

While this resolution is only a beginning, I am pleased and honored to have had a role in bringing it to the floor today, because the existence and the impact of the centuries of disparities in health is a dark blot on this country's legacy, and it must be erased.

Achieving this important goal will not only take a strong and unwavering commitment, but also a significant investment, which would yield immeasurable dividends in terms of the health of our constituents and our Nation. To do otherwise would result in dire consequences of monumental and far-reaching threats, not only to the financial stability of this Nation, but also to our collective productivity, global competitiveness, and our defense capacity. These are risks we cannot afford and must not take.

While health is influenced by only three factors, genetics, environment and behavior, it is my belief that there has been too much focus on the behavior as individuals and not enough on the behavior of institutions that are supposed to serve us and the system that is supposed to provide us with health care. Just this past spring, following on three other important reports, failure to collect needed health data by race and ethnicity by Summit Health, a health care quality survey by the Commonwealth Fund, and another on language interpretation in health care settings by the National Health Law Program, the Institutes of Medicine, following on those, released a hard-hitting eye-opening report entitled Unequal Treatment: Confronting

Racial and Ethnic Disparities in Health Care.

Mr. Speaker, I am grateful for the opportunity that H. Con. Res. 388 provides to highlight the disparities in health care experienced by racial and ethnic minorities in our country and in our rural communities. The importance of such a month cannot be overestimated. Again, I want to thank my colleagues for their cosponsorship and support, and I urge everyone to support its passage and hope in doing so it will serve as a catalyst to recommit all of us to the creation of a health care system in this country where there are disparities for none and equity in access for all.

Mr. Speaker, I am pleased to rise in support of H. Con. Res. 388, expressing the sense of Congress that there should be established a national Minority Health and Health Disparities Month.

I want to begin by expressing my gratitude to my cosponsors of the resolution, my colleagues, the Chairman of the House Republican Conference, JC WATTS and the Chairman of the Workforce Protections Subcommittee of the Education and the Workforce Committee, CHARLIE NORWOOD, for their willingness to join me in putting this important resolution forward.

I also want to thank the Chairman and Ranking Member of the Energy and Commerce Committee for their support in making it possible for the resolution to be on the floor of the House today.

Mr. Speaker, pick any minority community across our great country, whether it be California or Virginia, New York or Texas, the U.S. Virgin Islands or Illinois or any of our nation's rural areas and the reports will all be the same: Minorities and people living in our rural areas, of all races and ethnicities, are dying of preventable diseases in alarmingly excessive numbers. Heart disease, hypertension, HIV/AIDS, cancer, diabetes, stroke and kidney disease predominate as the leading causes on the death certificates these groups in far greater numbers than that of white suburban or urban America.

In addition, substance abuse and diminished mental health continue to take a staggering toll on many individuals in this group, and undermine the well-being of our communities.

This resolution in establishing a special month of focus on this national tragedy, will hopefully forge a national resolve to close these gaps through increasing the awareness that gross disparities in health care continue to exist for people of color and those in our rural areas, which disrupt families damage communities and threaten our national security.

While this resolution is only a beginning, I am pleased and honored to have had a role in bringing it to the floor today, because the existence and impact of the centuries of disparities in health is a dark blot on this country's legacy, and must be erased.

Achieving this important goal will not only take strong, and unwavering commitment, but also a significant investment, which would yield immeasurable dividends, in terms of the health of our constituents and of our nation. To do otherwise would result in dire consequences of monumental and far reaching threats not only to the financial stability of this nation, but also to our collective productivity, global competitiveness, and our defense capacity—Risks we cannot afford and must not take.

Let me share some statistics, but let us never forget that each number represents a real person, who is a part of a real and living family and a community that needs him to her to be a part;

Around 40 million Americans have no health insurance of which 50% are minorities.

Rural populations which are disproportionately poor, uninsured and underserved compared to urban populations, and whose residents are often eligible but unenrolled in publicly sponsored programs are also at particular risk.

This lack of coverage alone, results in 83,000 deaths every year.

HIV/AIDS has become primarily a disease and epidemic of communities of color: In 2002 the rate of reported AIDS cases among African Americans was 8 times the rate for whites and 2 times the rate for Hispanics, which was about three times that of whites.

All minorities except Alaska Natives have a prevalence of type 2 diabetes that is 2 to 6 times greater than that of the white population.

Native American elders are 173% more likely to experience diabetes than the general population;

African Americans and other people of color are likely to seek care later and die in greater numbers from cancer.

This is particularly true for African Americans, whose men, for example, are 2 to 3 times as likely to die of prostate cancer as white men.

According to the national Kidney Foundation, African Americans, Asian and Pacific Islanders and Hispanics are three-times more likely to suffer from end-stage renal disease—complete failure of the kidneys to function—than whites.

In my own district, the U.S. Virgin Islands, we have the highest adjusted mortality rate for circulatory disease (namely heart disease and hypertension) in the Americas.

Our nation's poor, who are more likely to be rural or of color are more likely to be living with mental illness, and be untreated.

These are just a few of many areas where disparities are rampant.

Why is this so? One leading health expert at the National Institutes of Health has repeatedly pointed out that health or lack of it is influenced by three factors, behavior, genetics and environment.

While there is much in the news today about the role of genetics in the diseases that we all face, the evidence is that it plays only a small part.

Today, we are learning more about the relationship between health and the environment, which requires more attention as we can directly seek redress of those issues. And while some point to the fact that many of us in communities of color wait too long to seek treatment, eat the wrong foods, don't exercise or that we continue to smoke or engage in high risk behavior, there are other significant factors, which continue to lead to early death in our families which until now have largely been ignored.

It is my belief that there has been too much focus on our behavior as individuals and as a community and not enough focus on the behavior of the institutions that are supposed to help to serve us, and the system that is supposed to provide us with healthcare.

Just this last spring, following on three other important reports, on failure to collect needed health data by race and ethnicity by SHIRE, and a Health Care quality survey by the Commonwealth Fund, and one on the need for language interpretation in health care settings by the National Health Law Program, the Institutes of Medicine at the National Academy of Sciences released a hard hitting, eye opening report entitled; Unequal Treatment: Confronting Racial and Ethnic Disparities in Healthcare.

Mr. Speaker, I ask to submit testimony and summaries of these reports and one from the Kaiser Family foundation, which expand on these issues into my statement, into the record.

In this review of all current research and reports on health care delivery in this country tells an ugly story of health care deferred and denied simply because of race, ethnicity and language.

Mr. Speaker, I am greatful for the opportunity that H. Con. Res. 388 provides to highlight the disparities in health care experienced by racial and ethnic minorities in our country.

The importance of such a month and the need to have one is underscored by the reminder just today at a briefing on the hill from Dr. Brian Smedley of the Institute of Medicine that the issue of disparities is one of life and death, and testimony from Dr. Marsha Lillie Blanton, Vice President for Health Policy of the Henry J. Kaiser Family Foundation at our recent hearing, who stated in a representative survey sample, that most Americans, including people of color did not know that Blacks generally fare worse than whites in terms of infant mortality or that Latinos are less likely than Whites to have health insurance as well as other important facts about health disparities. To further aggravate an already bad condition, some of the same misperceptions are shared by health care providers.

Again I want to thank my colleagues for their cosponsorship and support.

I urge my colleagues to support its passage and hope that in so doing it will serve as the catalyst to recommit all of us to the creation of a health care system where there are disparities for none and equity in access for all.

Mr. Speaker, I submit the summary report I referred to earlier for the RECORD.

ELIMINATING RACIAL/ETHNIC DISPARITIES IN MEDICAL CARE: PROGRESS AND CHALLENGES

MARSHA LILLIE-BLANTON, DRPH, VICE-PRESIDENT, HEALTH POLICY, THE HENRY J. KAISER FAMILY FOUNDATION, FOR HEARING ON THE STATUS AND PROGRESS OF THE DEPARTMENT OF HEALTH AND HUMAN SERVICES INITIATIVE TO ELIMINATE RACIAL AND ETHNIC HEALTH DISPARITIES

THE CONGRESSIONAL BLACK CAUCUS, THE CONGRESSIONAL HISPANIC CAUCUS, AND THE CONGRESSIONAL ASIAN PACIFIC AMERICAN CAUCUS

APRIL 12, 2002

Good morning. First, I'd like to thank the members of the Congressional Black Caucus (CBC), the Congressional Hispanic Caucus

(CHC), and the Congressional Asian Pacific American Caucus (CAPAC) for holding today's hearing on the status and progress of the Department of Health and Human Services' initiative to eliminate racial and ethnic health disparities. I am Marsha Lillie-Blanton, a vice-president of the Henry J. Kaiser Family Foundation and director of the Foundation's work on access to care for vulnerable populations.

The recently released IOM report, Unequal Treatment, has helped to refocus the nation's attention on racial and ethnic disparities in medical care. The problem is by no means new, but seldom gets priority attention in public policy discussions around the health care system. Few would disagree that for most of this nation's history, race has been a major factor in determining if and where medical care was obtained; however, its influence today has become more subtle. Public policy efforts, most notably the enactment of Medicaid and Medicare and enforcement of the 1964 Civil Rights Act, have made an enormous difference in reducing the health care divides for some of this nation's most vulnerable populations. So much progress has been achieved that many tend to think that the problems that remain are inconsequential.

The IOW report provides compelling evidence to the contrary. After an extensive review of the research, IOM concluded that there is a "preponderance" of evidence that racial and ethnic disparities in medical care persist for a number of health conditions and services, some of which may contribute to the poorer health outcomes of people of color. The findings are consistent with those of a comprehensive review of the literature by Robert Mayberry and colleagues from the Morehouse School of Medicine, undertaken about a year ago with funding support from the Foundation.

While there are some who will question whether the racial/ethnic differences in the studies cited by IOM are real or a function of factors not well-measured, the IOM report should help to shift the research focus from documenting disparities to investigating their underlying causes and the impact of interventions. Investigating the underlying causes will be a challenge in large part because the influence of race on the health care system is deeply intertwined with other forces—especially economic and educational opportunities—that shape life in America. Disentangling this web of interrelated factors should be helpful in developing more targeted interventions, but pursuing that research agenda need not delay efforts to address those factors now known to create a barrier in obtaining greater equity in access to quality medical care.

As noted in the IOM report, many factors likely contribute to racial/ethnic disparities in medical care, including patient, provider, and health system related factors. Differences in the extent of health insurance coverage (see Figure 1) are perhaps the most widely recognized of factors, other than health needs, that account for variations in the medical care obtained. The uninsured are less likely than those who are insured to get appropriate care. However, evidence of racial/ethnic differences among individuals who are similarly insured is particularly disturbing since health coverage is considered the "great equalizer" in the health system. In a recent study by Johns Hopkins University researchers Daumit and Powe, the racial disparity in cardiac procedures among men and women was sharply reduced when patients with chronic renal disease qualified for Medicare. However, this study also found that even after enrolling in Medicare, black men with chronic renal disease were less likely to undergo invasive cardiac procedures than white men who were of similar age, clinical characteristics, and other sociodemographic factors (see Figure 2). This study provides strong evidence that race—independent of other factors—is associated with the medical care obtained.

Why such a challenging problem to address

Efforts to address racial inequalities throughout varying sectors of society are challenging for many different reasons, including the troubling history of race relations in America. However, misperceptions about the nature and extent of the problem in the health care system adds a new level of complexity to efforts to eliminate health and health care disparities. The battle we are waging is with perceptions, as well as the reality of life in America. Two issues, in particular deserve note.

First, the public has a marginal, at best, awareness of racial/ethnic disparities in our health system. In a 1999 national survey of a representative sample of about 4,000 adults, we learned that most Americans, including people of color, didn't know that blacks generally fare worse than whites in terms of infant mortality, or that Latinos are less likely than whites to have health insurance—two indicators that have received considerable attention in the media. The survey also found that a significant majority of whites perceive that African Americans and Latinos get the same quality of care as they do; however, the majority of African Americans and Latinos perceive that they get lower quality care than whites (see Figure 3). These findings make it clear that the public's knowledge about disparities should not be assumed and the challenge we face is one of public perceptions as well as reality. Not surprisingly, some of the misperceptions of the public are also found among providers of care.

Second, there is a common perception that disparities in medical care are largely a result of patient characteristics (their financial resources, education, help-seeking behavior, preferences for care). This perception persists despite an abundance of studies that control for patient level characteristics (e.g., as measured by income, education, severity of health condition). There are fewer studies that have assessed patient preferences for care, but some offer insight on this issue. In a study of the quality of medical care provided for congestive heart failure and pneumonia—two common health problems in which the care is fairly low-tech and thus assumed to be influenced less by patient choice—Harvard University researchers, Ayanian and colleagues, found that elderly black patients with Medicare received lower quality care than whites based on defined clinical criteria. Similar findings were observed for women relative to men. The analysis adjusted for age, income, and hospital teaching status and used the Rand appropriateness criteria to assess health need.

Perceptions of a problem often influence the actions taken (or not taken) to change policy and practices. If the public is unaware that a problem exists or misunderstands the nature of the problem, it will be difficult to mount effective efforts to address that problem. Societal change requires a public understanding and willingness as well as the resources to address the problem.

Strengthening the Federal response

In 1999, the U.S. Department of Health and Human Services (DHHS), under the leadership of former Surgeon General, Dr. David Satcher, took a bold step in announcing a national initiative to eliminate health disparities in six health areas by 2010. The Congress provided important leadership to this effort by legislatively mandating the IOM study of health care disparities, creating in statute a Center on Minority Health and Health Disparities at the National Institutes on Health (NIH), and requiring DHHS in 2003 to annually produce a report on the nation's progress in reducing health care disparities as a companion to the National Healthcare Quality Report.

From the leadership of the former Surgeon General and the Congress have come a number of DHHS agency-wide related efforts, including the establishment of Healthy People 2010 goals that are the same for everyone, regardless of race/ethnic identity. Also, DHHS agencies have developed strategic plans for their efforts to eliminate disparities and have funded new initiatives—both research and interventions—to address disparities. Most relevant to eliminating health care disparities are the nine centers of excellence grants of the Agency of Healthcare Research and Quality (AHRQ), which are financed through funds of AHRQ and NIH. These initiative also have served as the catalyst for a number of foundation and other private sector efforts to reduce disparities.

These efforts are an incredibly important start. Government, however, can and should do more. The interventions recommended by the IOM report are critical next steps. Moreover, the DHHS initiative now appears to lack visible senior leadership to direct and garner support for the efforts underway in the various agencies. Such leadership is essential for such a controversial initiative. To strengthen the federal response the initiative also will require, at the very least:

First, a strategic linking of the work to existing Department efforts around improving the quality of medical care and patient safety.

Initiatives on quality and patient safety have new dollars and the attention of clinicians and policymakers. It would be a missed opportunity if the medical care needs and concerns of people of color are not well integrated into the plans for research and new interventions in these areas. Also, efforts regarding disparities appear to be competing for scarce new resources. The view that focused efforts need new resources rather than an integration and allocation of some of the existing resources will hamper the short-term progress that can be achieved. This shift in direction will be no small feat to accomplish since DHHS staff and funded projects focused on quality issues and those focused on racial disparities generally are moving on separate tracks without much collaboration.

Second, an improvement of the information systems and the data used to answer questions about the health and medical care use of people of color.

DHHS has an important role to play in data collection and analysis. One reason we know so little about the health of Latinos, Asians, and Native Americans is that we simply have not collected the data. Even most national surveys that now over-sample African Americans and Latinos to produce reliable estimates are unable to provide estimates for Asian ethnic subgroups or Native Americans. Further complicating an assessment of disparities is that many health plans serving privately and publicly insured enrollees (whether in fee-for-service or managed care arrangements) do not collect data on the race and ethnicity of their patients. DHHS must encourage the collection of data in the private sector and collect and analyze the data on those who are publicly insured.

Third, a continuation of the Department's efforts to improve the public's awareness that the nation continues to be challenged in assuring that every American has timely access to high-quality medical care.

DHHS, through its partnerships and conferences, has already been engaged in efforts to promote dialogue and understanding about disparities. These efforts are extremely important. The Foundation, working in partnership with the medical community, is about to launch an initiative to raise physician awareness about racial disparities in medical care and encourage physicians to review the evidence and engage in a national dialogue about the issue. This is, at best, the beginning of national dialogue among one segment of the public—physicians. DHHS, working through respected and trusted leadership, should continue to improve awareness of disparities among the public generally. Whites need to be more aware of the real-life circumstances that face people of color. People of color need to be more aware of disparities so they can be more proactive in seeking needed care. This knowledge should result in greater acceptance of initiatives to remedy disparities.

In closing, let me say that race clearly matters in our health system, but so do many other factors—especially insurance coverage. Attention should be given to assuring that existing sources of coverage are not undermined. Medicaid, for example, is an essential source of coverage for about 1 in 5 non-elderly African Americans, Latinos, and Native Americans. In addition, people of color are disproportionately uninsured, and priority attention should be given to efforts to eliminate the insurance gap. It is also important to remember, however, that racial disparities among persons who are insured are an indication that expansions in coverage, though necessary, are not sufficient. The IOM report provides a blueprint for comprehensive reform to close the racial/ethnic divide in the health system.

Thank you for the opportunity to testify. I welcome any questions.

Mr. BILIRAKIS. Mr. Speaker, I continue to reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield 4 minutes to the gentlewoman from Texas (Ms. EDDIE BERNICE JOHNSON), Chair of the Congressional Black Caucus, who also is a nurse.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, let me express my appreciation for those who have helped to work on this resolution, because it is one that hopefully will start the ball rolling in getting some corrective action taken.

I stand before my colleagues today as a former health care professional to share really disturbing news. Sadly, in the year 2002, decades after the end of legal segregation, inequality based on race and ethnicity exists within our health care system. African Americans are 30 percent more likely to die of heart disease and cancer than Anglo Americans. Hispanics are more likely to be diagnosed with a chronic disease or a condition such as a heart attack, diabetes, or cancer than Anglo Americans. Infant mortality rates are more than twice as high for African Americans than Anglo Americans. In 2000, 47 percent of all HIV/AIDS cases reported in the U.S. were among African Americans and 21 percent among Hispanics.

Unfortunately, the bad news gets worse. Despite this glaring data revealing the health disparities between minorities and white Americans, the National Academy of Sciences tells us that minorities lag behind white Americans on nearly every measure of health care and treatment and are dying at higher rates. Minorities are less likely to be given appropriate cardiac medication or to undergo bypass surgery to treat a cardiovascular disease. Minorities are less likely to be placed on a waiting list for kidney transplants or to receive kidney dialysis or transplants.

My father was one of those. Minorities with HIV infection are less likely to receive antiretroviral therapy and other state-of-the-art treatments which could forestall the onset of AIDS. And minorities are less likely to receive appropriate cancer diagnostic tests and treatment.

There is really more bad news. Significantly, these disparities in treatment exist even when insurance status, income, age, and severity of conditions in minorities and whites are the same.

The good news is that we can address this problem by educating the public and the medical community about these disparities and take action to reduce them. House Concurrent Resolution 388 is a step in the right direction.

I agree with the gentleman, the chairman of the committee, it should not be a campaign issue. It is a serious issue that must be addressed. It would establish a National Minority Health and Health Disparities Month and calls for the government, private and nonprofit sectors, and the medical community to promote educational efforts, perform research, and conduct health care programs so that we may end health care disparities.

I urge my colleagues to support this resolution and work toward the elimination of racial and ethnic disparities in health care so that we can have some good news to share in the future.

Mr. BILIRAKIS. Mr. Speaker, I continue to reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield 3 minutes to the gentlewoman from the District of Columbia (Ms. NORTON).

Ms. NORTON. Mr. Speaker, I thank the gentleman for yielding me this time, and I want to congratulate the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) for her continuing work as chair of the CBC Brain Trust and for bringing her practice of medicine, which she had to leave in order to become a Member of the House, right into this House in the way in which she fastens our attention on health care, and particularly for improved health care for minorities.

But I have to say, Mr. Speaker, when they give you a whole month, it is because of what you do not have. And what minorities in this country do not have is health. And that is like saying what you do not have is the difference between life and death.

The racial and ethnic disparities are quite intolerable. About 10 percent of whites in this country do not have health care; three times as many Hispanics; twice as many blacks. The fact is minorities have to do for themselves, because we know that a lot of health care is related to life-style. And I am a strong proponent, for example, of harnessing overweight and obesity. I am a race walker. You have to do what you can do to deal with your health care. But obesity and overweight is a national problem, and yet there are some folks who have some health care to get them some advice as to what to do about it.

The current recession and the consequences of September 11 and anthrax have simply exacerbated the health care crisis in our country. And we are not close to closing this intolerable gap with placebos like tax credits. Let me tell my colleagues something: Low-income people do not pay a lot of taxes because they do not have a lot of money. So tax credits, for example, is like throwing crumbs at people who are very hungry.

But let me tell my colleagues something else. The American middle class has a very sensitive barometer to health care. In the early 1990s, there were Members who lost their seats in this House and in the Senate over the single issue of health care. And the reason is that health care is always a sleeper issue. And when we have the volatile mix of a recession and people losing their health care, watch out, Congress of the United States.

But we deserve to be called to account. The permanently uninsured are unable to raise the issue because they are the least powerful people in the society. It is only when there is a recession, when people who have a little bit of clout, the middle class, who lose their health care, that health care then rises to the top of the agenda. It is close to being there now.

In the 1990s, we were kind of creeping up on universal health care, going toward universal health care for children. And of course, there is universal health care for the very poor. But what about the working poor? What about the disincentive to go to work when you lose your health care? What about saying to welfare mothers you better go to work, and yet in the long run, lose your health care?

Poor health care in the United States has a disproportionately black and brown face, and yet in countries where there are nothing but black and brown faces, in many Third World countries, there is universal health care. Hey, what happened to the United States of America?

Some minimum of health care is what everybody deserves simply for being human. It is time we met that minimum standard in our own great country.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume to advise the gentlewoman that in our Committee on Energy and Commerce, as the gentleman from Ohio (Mr. BROWN) knows, just last week we marked up a piece of welfare legislation which afforded transitional Medicaid assistance for those people, with a recognition that of course the words of the gentlewoman are so very true. And so, hopefully, we are helping towards that.

Mr. Speaker, I continue to reserve the balance of my time, but also make available to the gentleman from Ohio (Mr. BROWN) any additional time he may need for his speakers.

Mr. BROWN of Ohio. Mr. Speaker, I thank my friend for the generous offer. We have a couple more speakers. We may not need that time.

Mr. Speaker, I yield 3 minutes to the gentleman from Illinois (Mr. DAVIS).

Mr. DAVIS of Illinois. Mr. Speaker, I want to thank the gentleman for yielding me this time, and I also want to commend the gentlewoman from the Virgin Islands for her outstanding work on this issue and commend all of these who have been instrumental in bringing this matter to the floor.

I rise in enthusiastic support of H. Con. Res. 388, which expresses the sense of Congress that there should be established a National Minority Health and Health Disparities Month. Dr. W. E. B. Dubois suggested that the problem of the 20th Century would be that of the color line. Dr. Dubois was profound and prophetic in his analysis, but we still have not solved the problem of the color line in the 21st century and it is vivid in our health care delivery system.

The persistent problem of health disparities continues to be the reality; that there is serious separation in this Nation. I stand here today to suggest that as long as health disparities persist, we will remain a Nation divided; divided along the lines of those who have and those who have not.

According to the report that we have been discussing, issued by the Institute of Medicine last month, racial and ethnic minorities experience a lower quality of health services and are less likely to receive even routine medical procedures than whites. The report goes on to suggest that when it comes to diagnostic exams for heart disease, cancer, end-stage renal disease, and kidney transplantation, African Americans and other minority groups receive less care than whites.

This report suggests that African Americans and other racial minorities die early and often because of a lack of quality care. The report, which is extensive, entitled "Unequal Treatment," really underscores the need to establish a National Minority Health and Disparities Month, a month that is set aside so that we can refocus, take a hard look, better understand, better realize the disparities, and then find the resources that are necessary to move us from the position of inequities to equality, to equal treatment, equal understanding, and equal recognition.

So again, I commend all of those who have been instrumental. I commend the chairman, the gentleman from Florida (Mr. BILIRAKIS), the gentleman from Ohio (Mr. BROWN), and certainly the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) for all of their serious leadership on these matters.

Mr. BILIRAKIS. Mr. Speaker, I continue to reserve the balance of my time, but make available to the gentleman from Ohio (Mr. BROWN) any time he may need.

Mr. BROWN of Ohio. Mr. Speaker, I yield 3 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

□ 1700

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the ranking member, the gentleman from Ohio (Mr. BROWN), for his constant and persistent leadership as it relates to health issues in general. I thank the gentleman from Florida (Mr. BILIRAKIS) for his leadership, and I acknowledge the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN), the gentleman from Oklahoma (Mr. WATTS), and the gentleman from Georgia (Mr. NORWOOD) for bringing this resolution to our attention.

Clearly this is a resolution that will speak loudly in its passage to the American people. In my district, I am often spoken to by constituents of their caring and concern about those individuals far and wide that we have to address, such as the catastrophe in Afghanistan, the crisis in Africa with HIV-AIDS; and at the same time, they are clearly concerned with the home front.

This legislation deals with the importance of dealing with the questions of minority health. With some 50 percent of the minority community without insurance, with the impact on rural areas, with African Americans and Hispanics being impacted in large numbers by HIV-AIDS, and in particular with a study that was just recently issued that suggested that even when minorities access health care, the difficulty is that there is unequal treatment. There are determinations made as to whether or not the individual that accessed the health care should be treated long term for diabetes, should be given the opportunity for triple or quadruple bypass and surgery. We have a crisis.

What we want to do with this resolution is focus on changing the attitude. At the same time, let me acknowledge that I hope this legislation will encourage the Bush administration to not repeal the requirement of low-income children being tested for lead poisoning. That would put thousands of our children in minority communities at risk. My district happens to be a very multicultural district. It has people from all walks of life; but one of the most crowded places in my district is the Harris County Public Hospital system. It is because people desire health care, and do not have the ability to access private health coverage, so they are at our public hospital systems. Those institutions need assistance from the Federal Government to assist them in lead poisoning testing for our children. They need assistance in making sure that Medicaid payments are being paid, and making sure that if someone needs quadruple heart surgery, that they can be referred out to our very fine institutions in the medical center. The partnership is extremely important.

So this resolution is of utmost importance. I thank the members of the Committee on Energy and Commerce, the Congressional Black Caucus and the Hispanic Caucus Health Task Force, which the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) and Congressman RODRIGUEZ lead, and I am a member of, and for the leadership behind educating both Congress and the American public.

Finally, racial and ethnic minorities tend to receive lower-quality health care than whites do, even when insurance status income, age, and severity of conditions are comparable according to the National Academies Institute of Health. Thousands of people suffer in America that is why we must pass this legislation to create a responsive and equal health system in America.

Mr. BROWN of Ohio. Mr. Speaker, I yield 2 minutes to the gentleman from Maryland (Mr. CUMMINGS).

Mr. BILIRAKIS. Mr. Speaker, I yield 2½ minutes to the gentleman from Maryland (Mr. CUMMINGS).

Mr. CUMMINGS. Mr. Speaker, this afternoon I rise in support of H. Con. Res. 388, a resolution to designate April as National Minority Health and Health Disparities Month.

In 2000, the Department of Health and Human Services and the U.S. Surgeon General established National Minority Health Month to promote national health and disease prevention. The goal was to build a public-private partnership, foster cultural competency among health care providers, encourage health education and training, and expand the use of state-of-the-art technology.

It is intended to be an inclusive initiative that addresses the health needs of African Americans, Hispanics, Asians, Native Americans, Pacific Islanders, Alaskan Natives and Native Hawaiians. Because the month will be nationally recognized, it will serve to raise awareness and reduce the problem of minority health disparity.

Mr. Speaker, a few weeks ago, the Congressional Black Caucus held its annual Health Braintrust. This year's focus was on minority health disparities. Testifying at the hearing from my district were Dr. Martha N. Hill, Dean of the Johns Hopkins School of Nursing; Professor Thomas E. Perez, who was the immediate past director of the Office on Civil Rights at HHS; and Dr. Thomas LaVeist, Johns Hopkins University, and an active health care researcher, including the role of race in health care services.

Also testifying were the authors of the Institute of Medicine's report, "Unequal Treatment: Confronting Racial and Ethnic Disparities in Health Care." The primary finding of this report publication, "Unequal Treatment," states that due to disparities in health care treatment, blacks and other minorities do not live as long as Caucasians.

Why is that? Because according to the Institute of Medicine's publication of "Unequal Treatment: Confronting Racial and Ethnic Disparities in Health Care," even those of us who are fortunate enough to have health insurance receive inferior medical care compared to our caucasian counterparts, even when insurance coverages are the same.

I would like to cite some of the specific facts for the record, and I think my colleagues might find them very, very disturbing.

African Americans were 1.5 times more likely to be denied managed care authorization in an urban emergency room. For senior citizens, African American patients were four times less likely than Caucasians to receive needed coronary bypass surgery. Black male seniors were nearly two times less likely to receive treatment for prostate cancer. And this is incredible, but black seniors were 3.6 times more likely to have lower limbs amputated due to diabetes. Think about it. Due to poor health care, African Americans and other minorities do not live as long as Caucasians. Blacks are 24 percent less likely to receive life-preserving medications for HIV and AIDS; 20 percent of blacks and 33 percent of Hispanics lack health insurance. This is two and three times greater than the rate for Caucasians. These disparities permeate in minority communities.

For example, as a Social Security issue, blacks collect fewer retirement benefits because we die earlier. I guess on the upside, while we comprise about 12 percent of the United States population, we collect about 23 percent of the Social Security disability benefits. Think about it. This is not a Social Security issue; it is a health issue.

Mr. Speaker, if there were equity in health care, African Americans would be able to work longer and live longer. Think about it. The economic impact of poor health care created for all Americans is crucial.

Mr. Speaker, I urge all Members to vote in favor of this. I thank the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN), and I thank the other side for their courtesy and kindness.

Mr. DINGELL. Mr. Speaker, I rise to voice my strong support for H. Con. Res. 388, establishing a National Minority Health and Health Disparities Month. This resolution has been crafted by my good friend and colleague, Representative CHRISTENSEN. The resolution was reported unanimously by the Committee on Energy and Commerce last week.

Mr. Speaker, this resolution will help to keep our attention focused on a disturbing fact of life. That fact is that people of color face devastating disparities in research, quality, access, and other measures of health care. Women are particularly hard hit, as reflected in the statistics. The prestigious Institute of Medicine recently published yet another study that shows we still have a long way to go before we can say that all Americans share equally in the benefits of modern medicine.

Mr. Speaker, I am pleased that this resolution specifically mentions the Minority Health and Health Disparities Research and Education Act of 2000. I was proud to join my colleagues, including Representatives JOHN LEWIS and JESSE JACKSON, JR., in that effort. That bill recognized that disparities exist throughout the development and delivery of health care. It was a good step, but clearly much more needs to be done. The entire health care system, from "bench to bedside," needs to be vigilant and to address disparities wherever and however they occur.

I applaud Representative CHRISTENSEN for bringing this resolution to the floor. I urge my colleagues to support her work and to support substantive efforts to eradicate health disparities in all programs that come before this body.

Ms. WATERS. Mr. Speaker, I rise to support H. Con. Res. 388, which would support the establishment of a National Minority Health and Health Disparities Month. The United States is a nation with a health system marked by its disparities. Too often, low-income Americans, racial minorities and individuals who lack health insurance find that quality health care is unavailable to them. At the request of Congress, the Institute of Medicine released a report this year confirming the existence of serious racial disparities in American health care.

Racial disparities in access to cancer screening contribute to higher cancer death rates for minorities. Black and Hispanic women are less likely to receive breast cancer screening with mammograms than white women, and black and Hispanic men are more likely to be diagnosed with more advanced forms of prostate cancer than white men. Last year, I introduced H.R. 3336, The Cancer Testing, Education, Screening and Treatment (Cancer TEST) Act, to provide cancer screening and treatment services for minorities and low-income populations. This bill now has 49 cosponsors.

Racial minorities have been disproportionately impacted by the HIV–AIDS epidemic. They now represent a majority of new AIDS cases and a majority of Americans living with AIDS. I am circulating a letter to the Chairman and Ranking Member of the House Subcommittee on Labor, Health and Human Services and Education Appropriations to request an appropriation of $540 million for the Minority AIDS Initiative in fiscal year 2003. Ninety Members of Congress have agreed to sign my letter.

Unfortunately, the problems in our nation's health system are only getting worse. A survey of California employers by the Kaiser Family Foundation shows that health insurance premiums increased by 9.9 percent in 2001. That is more than double California's 4.3 percent inflation rate. Furthermore, Calpers, the State of California's employee benefits system, plans to raise rates for its HMO premiums by 25 percent next year.

I urge my colleagues to vote in favor of H. Con. Res. 388 and support legislation that will guarantee every man, woman and child in America quality health care services, regardless of race, level of income or place or employment. Quality health care should be for everyone.

Mr. BILIRAKIS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. WHITFIELD). The question is on the motion offered by the gentleman from Florida (Mr. BILIRAKIS) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 388.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

HEMATOLOGICAL CANCER RESEARCH INVESTMENT AND EDUCATION ACT OF 2001

Mr. BILIRAKIS. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1094) to amend the Public Health Service Act to provide for research, information, and education with respect to blood cancer.

The Clerk read as follows:

S. 1094

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Hematological Cancer Research Investment and Education Act of 2001".

SEC. 2. FINDINGS.

Congress finds that:

(1) An estimated 109,500 people in the United States will be diagnosed with leukemia, lymphoma, and multiple myeloma in 2001.

(2) New cases of the blood cancers described in paragraph (1) account for 8.6 percent of new cancer cases.

(3) Those devastating blood cancers will cause the deaths of an estimated 60,300 persons in the United States in 2001. Every 9

minutes, a person in the United States dies from leukemia, lymphoma, or multiple myeloma.

(4) While less than 5 percent of Federal funds for cancer research are spent on those blood cancers, those blood cancers cause 11 percent of all cancer deaths in the United States.

(5) Increased Federal support of research into leukemia, lymphoma, and multiple myeloma has resulted and will continue to result in significant advances in the treatment, and ultimately the cure, of those blood cancers as well as other cancers.

SEC. 3. RESEARCH, INFORMATION, AND EDUCATION WITH RESPECT TO BLOOD CANCER.

Part C of title IV of the Public Health Service Act (42 U.S.C. 285 et seq.) is amended by inserting after section 419C the following:

"SEC. 417D. RESEARCH, INFORMATION, AND EDUCATION WITH RESPECT TO BLOOD CANCER.

"(a) Joe Moakley Research Excellence Program.—

"(1) In general.—The Director of NIH shall expand, intensify, and coordinate programs for the conduct and support of research with respect to blood cancer, and particularly with respect to leukemia, lymphoma, and multiple myeloma.

"(2) Administration.—The Director of NIH shall carry out this subsection through the Director of the National Cancer Institute and in collaboration with any other agencies that the Director determines to be appropriate.

"(3) Authorization of appropriations.—For the purpose of carrying out this subsection, there is authorized to be appropriated such sums as may be necessary for fiscal year 2002 and each subsequent fiscal year. Such authorizations of appropriations are in addition to other authorizations of appropriations that are available for such purpose.

"(b) Geraldine Ferraro Cancer Education Program.—

"(1) In general.—The Secretary shall direct the appropriate agency within the Department of Health and Human Services, in collaboration with the Director of NIH, to establish and carry out a program to provide information and education for patients and the general public with respect to blood cancer, and particularly with respect to the treatment of leukemia, lymphoma, and multiple myeloma.

"(2) Administration.—The Agency determined by the Secretary under paragraph (1) shall carry out this subsection in collaboration with private health organizations that have national education and patient assistance programs on blood-related cancers.

"(3) Authorization of appropriations.—For the purpose of carrying out this subsection, there is authorized to be appropriated such sums as may be necessary for fiscal year 2002 and each subsequent fiscal year. Such authorizations of appropriations are in addition to other authorizations of appropriations that are available for such purpose.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. BILIRAKIS) and the gentleman from Ohio (Mr. BROWN) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. BILIRAKIS).

GENERAL LEAVE

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on S. 1094, and to insert extraneous material on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today to encourage my colleagues to support S. 1094, the Hematological Cancer Research Investment and Education Act, introduced by Senator KAY BAILEY HUTCHINSON in the Senate, with a companion legislation in the House, H.R. 2629, introduced by the gentleman from Illinois (Mr. CRANE). Senator KAY BAILEY HUTCHINSON is present with us today, which is an indication of how significant the gentlewoman considers this legislation.

Blood cancers affect over 110,000 Americans. These devastating diseases are in desperate need of a cure. I am pleased to support the efforts of the National Institutes of Health to increase the research activities on these diverse cancers. Taxpayer dollars are wisely spent on research to help cure, and even better, prevent disease. For the past 5 years, Congress has committed to doubling the budget of the NIH. Last year alone, Congress dedicated over $23.3 billion to NIH. As we double the budget of any agency, we must ensure that these funds are appropriately focused at finding cures to our Nation's health problems.

The Hematological Cancer Research Investment and Education Act ensures that the Federal Government focuses appropriate resources on programs to address blood cancers, particularly leukemia, lymphoma and multiple myeloma. In particular, the bill directs the NIH to coordinate all blood cancer programs under the newly named "Joe Moakley Research Excellence Program." The bill establishes the "Geraldine Ferraro Cancer Education Program," to provide detection and treatment options for blood cancers, and I might add that the former Congresswoman Geraldine Ferraro is with us here today.

I thank both Senator KAY BAILEY HUTCHINSON and the gentleman from Illinois (Mr. CRANE) for their tireless efforts to raise public awareness about blood cancers. And I also recognize the health staff of the gentleman from Illinois (Mr. CRANE), Shalla Ross, who has worked diligently to ensure passage of this important legislation. I urge my colleagues to support S. 1094.

Mr. Speaker, I reserve the balance of my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, I rise in support of this legislation which sets the stage for a coordinated Federal research effort to combat blood cancers and launches a patient and public education campaign to get the word out on these cancers.

The death of our colleague, the esteemed Joe Moakley, raised the profile in this institution of leukemia and other blood cancers for all of us. More than 100,000 Americans will be diagnosed with blood cancers this year, and more than 60,000 will lose their lives to one of these cancers.

Former Congresswoman Geraldine Ferraro, who has joined us today, was diagnosed with multiple myeloma a few years ago. Since her announcement, she has turned a very private battle with cancer into a public campaign, educating Americans and policy makers, making a difference in their lives, educating us all about the disease and the need for enhanced research on cancer.

The bill we are considering today includes two important initiatives in honor of these two remarkable American leaders. It establishes the Joe Moakley Research Excellence Program to expand and intensify NIH research on blood cancers; and the Geraldine Ferraro Cancer Education Program, which will establish education programs designed for patients and for their families. It is an excellent bill. I urge my colleagues to support this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. BARTON).

□ 1715

Mr. BARTON of Texas. Mr. Speaker, I rise today in strong support of the Senate bill, S. 1094, presented in the Senate by my good friend, the Senator from Texas, Senator KAY BAILEY HUTCHINSON, who is on the floor with us today. Without her untiring work, we would not be here passing this bill on Blood Cancer Day. She has worked, I think, in a very positive, cooperative way. It is very rare for the Longhorns and the Aggies to work together, but on this bill the head Longhorn came to one of the head Aggies and we have made it happen.

There are a number of other people we need to thank: Obviously, the gentleman from Florida (Mr. BILIRAKIS) for allowing the bill to come on the suspension calendar; the full committee chairman, the gentleman from Louisiana (Mr. TAUZIN); the ranking member, the gentleman from Michigan (Mr. DINGELL); the gentleman from Ohio (Mr. BROWN); and the majority leader, the gentleman from Texas (Mr. ARMEY) has worked on this.

We have a number of distinguished visitors watching the proceedings today, I am told, including Senator HUTCHINSON's brother, Alan Bailey, who has a form of blood cancer. We also have the distinguished former Congresswoman and Vice Presidential candidate, Geraldine Ferraro, who has fought a courageous battle against blood cancer. Kathy Guisti is the President of the National Myeloma Association. And, as we pointed out, this is named in honor of former Congressman, Joe Moakley, and former Congresswoman Geraldine Ferraro, who is with us today.

Various forms of blood cancer afflict over 100,000 Americans every year. 60,000 Americans die of the disease. It is a disease that can strike with sudden swiftness and extreme ferocity. Some of the more common forms we know of are leukemia, lymphoma and multiple myeloma. If you have this disease in your family, it is a heartache to have to try to face up to it. My brother, the late John Barton, died of liver cancer, so I know from a personal perspective how tragic any kind of cancer is.

But with the passage of this bill that Senator HUTCHINSON has worked so hard for, we are going to begin to fight back. This would create an educational program, a research program, the Joe Moakley Research Excellence Program, and the Geraldine Ferraro Cancer Education Act. We can educate Americans all around the country. We can encourage the National Institutes of Health to provide more funding for research and education and outreach, and hopefully some day find a cure and find treatments for those that are already afflicted with the disease.

So I want to thank my good friend from Dallas, Texas, Senator HUTCHINSON, for moving the bill, I want to thank my good friend the gentleman from Florida (Mr. BILIRAKIS), for putting it on the suspension calendar, and I would encourage all Members to vote for it in the affirmative when we are given that opportunity.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. WHITFIELD). The Chair will remind all Members that it is not in order to refer to a Senator visiting the House Chamber.

Mr. BROWN of Ohio. Mr. Speaker, I yield 3 minutes to my friend, the gentleman from Massachusetts (Mr. McGOVERN), who was a long-term colleague, friend and employee of Mr. Moakley.

Mr. McGOVERN. Mr. Speaker, I want to first thank the gentleman from Florida (Chairman BILIRAKIS) and ranking member, the gentleman from Ohio (Mr. BROWN), for bringing this bill to the floor today. I want to thank our distinguished colleague from the other body, the junior Senator from Texas, for moving this bill forward. We are honored by her presence on the House floor today.

This bill, quite simply, directs the NIH to direct more funds to research, information and education on blood cancer diseases. As my colleagues here on the floor know so well, while less than 5 percent of Federal funds for cancer research are spent on blood cancers, they cause 11 percent of all deaths. One of those deaths was our colleague, Joe Moakley.

As many in this Chamber know, I worked for Joe Moakley for many years, from 1982 to 1996. He served not only as my teacher and mentor, but he was also my dear friend, in fact, my best friend.

Joe was a guy who, in many respects, represented the miracles of medical research and science. During years I knew him, he survived kidney cancer, a gangrenous gall bladder, prostate cancer, skin cancer, and hepatitis, that ultimately led to a successful liver transplant. Through it all, Joe Moakley emerged with flying colors, stronger and better than ever. However, when he was diagnosed with leukemia, it was a disease that he just could not beat.

There is not a day that goes by, Mr. Speaker, that I do not miss Joe Moakley, and I wish he were still here with us fighting the good fight, standing up for the causes that he believed in, and even entertaining us with his humor. I wish there had been a cure for the leukemia that took his life, and I believe that some day there will be a cure. The issue is not can there be a cure, rather, the issue is when, and that will depend on the money and resources that we invest in medical research.

One section of this bill will establish the Joe Moakley Research Excellence Program at NIH to expand, intensify and coordinate programs that support research on blood cancers, particularly leukemia, lymphoma and multiple myeloma. This, Mr. Speaker, is a honorable legacy, but, as Joe Moakley would say, the name means nothing if we do not put the money down, and I hope that we will do that.

I also want to say I am honored that former Congresswoman Geraldine Ferraro is with us today. I was a staff person when she was a Member of this House, and, being from Massachusetts, I remember what Tip O'Neill once said about her when she was nominated to be the Vice Presidential candidate for the Democrats, he said she will be not only a great vice president, but some day she will be a great president. I think he was right in that assessment. I admire her courage for coming forward with her own health challenges. She indeed is the inspiration for another section of this bill which would result in disseminating information on blood cancer diseases throughout this country.

Mr. Speaker, I urge my colleagues to pass this bill, and I hope the funds are there to carry out this important authorization.

Mr. BILIRAKIS. Mr. Speaker, I continue to reserve my time.

Mr. BROWN of Ohio. Mr. Speaker, I yield 4 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, it was just a couple of months ago when a few current Members of Congress had the honor and pleasure of gathering to listen to the Honorable Geraldine Ferraro. It was a joyous occasion, and it was a delight to be able to fellowship with our colleague, someone that many of us admired, some who had the opportunity to serve with her, and some, like myself, who did not. But certainly her history and her leadership are well-known to women around the Nation.

Her remarks were instructive and inspiring. But, as she concluded, she made an announcement that caused a pause, and many of us stopped midway in our thoughts and our speech and caught our breath. But she did not allow us to linger on our thoughts about what we perceived to be a catastrophic illness which she had announced that she had. She began energizing us and speaking about living, and how we could support their legislation before us to help some lives.

So today I come to the floor of the House in tribute to Congresswoman Geraldine Ferraro, and as well, to acknowledge my support for S. 1094, focusing on the blood cancer diseases that have taken the lives of so many, and, yes, to likewise thank the Committee on Energy and Commerce and its leadership, the chairman and ranking member of the full committee and chairman and ranking member of this subcommittee, and to acknowledge my colleague-friend from the other body, the junior Senator from Texas, thanking both of them as women to acknowledge that we can fight these diseases.

We can fight the fact that an estimated 109,500 people in the United States will be diagnosed with leukemia, lymphoma and multiple myeloma in 2002. We can fight the fact that these devastating blood cancers will cause the deaths of an estimated 60,000 persons. We can fight the fact that while less than 5 percent of Federal funds for cancer research are spent on these blood cancers, these blood cancers cause 11 percent of all cancer deaths.

That is why I am proud to support legislation that creates the Congressman Joe Moakley Research Excellence Program, our friend and colleague, who was such a fighter. It will now instruct the director of NIH to expand, intensify and coordinate programs for the conduct and support of research in this area. Then, as well, to be able to affirm the Geraldine Ferraro Cancer Education Program, that will direct the secretary to direct the appropriate agency within the Department of Health, in collaboration with the director of NIH, to provide education and information and encouragement to those who would understand better.

The aspects of this bill are powerful, research and education, and I cannot thank enough those who saw fit to carry this legislation in an expedited manner. Just sharing with both proponents on the floor of the House it was brought to my attention that those of us in the minority community may even be impacted in a more devastating manner. But this bill speaks to all of us as Americans, and it focuses on saving lives, for those who have suffered with blood cancer diseases, those who have lost their lives.

This is, in fact, an enormous tribute, but, most importantly, it shows we are going to act. I would encourage both the passage and the funding of this legislation, for tribute comes by action and not just words. I thank the distinguished members of this committee.

I ask my colleagues to support this legislation.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair would remind all Members that a proper reference to a Senator is as a sponsor of the measure.

Mr. BROWN of Ohio. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. BILIRAKIS) that the House suspend the rules and pass the Senate bill, S. 1094.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

SUPPORTING NATIONAL CHARTER SCHOOLS WEEK

Mr. CASTLE. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 386) supporting a National Charter Schools Week, and for other purposes

The Clerk read as follows:

H. CON. RES. 386

Whereas charter schools are public schools authorized by a designated public body and operating on the principles of accountability, parental involvement, choice, and autonomy;

Whereas in exchange for the flexibility and autonomy given to charter schools, they are held accountable by their sponsors for improving student achievement and for their financial and other operations;

Whereas 37 States, the District of Columbia, and the Commonwealth of Puerto Rico have passed laws authorizing charter schools;

Whereas 37 States, the District of Columbia, and the Commonwealth of Puerto Rico will have received substantial assistance from the Federal Government by the end of the current fiscal year for planning, startup, and implementation of charter schools since their authorization in 1994 under the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.);

Whereas 34 States, the District of Columbia, and the Commonwealth of Puerto Rico are serving over 580,000 students in more than 2,431 charter schools during the 2001–2002 school year;

Whereas charter schools can be vehicles for improving student achievement for students who attend them, for stimulating change and improvement in all public schools, and for benefiting all public school students;

Whereas charter schools must meet the same Federal student achievement accountability requirements as all public schools, and often set higher and additional goals, to ensure that they are of high quality and truly accountable to the public;

Whereas charter schools assess and evaluate students annually and often even more frequently, and charter school student achievement is directly linked to charter school existence;

Whereas charter schools give parents new freedom to choose their public school, charter schools routinely measure parental approval, and charter schools must prove their ongoing and increasing success to parents, policymakers, and their communities;

Whereas two-thirds of charter schools report having a waiting list, the average size of such a waiting list is nearly one-half of the school's enrollment, and the total number of students on all such waiting lists is enough to fill another 1,000 average-sized charter schools;

Whereas students in charter schools nationwide have similar demographic characteristics as students in all public schools;

Whereas charter schools in many States serve significant numbers of students from families with lower income, minority students, and students with disabilities, and in a majority of charter schools, almost half the students are considered at risk or are former dropouts;

Whereas charter schools have enjoyed broad bipartisan support from the Administration, the Congress, State Governors and legislatures, educators, and parents across the Nation; and

Whereas charter schools are laboratories of reform and serve as models of how to educate children as effectively as possible: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That—

(1) the Congress honors the 10th anniversary of the opening of the Nation's first charter school;

(2) the Congress acknowledges and commends the charter school movement and charter schools, teachers, parents, and students across the Nation for their ongoing contributions to education and improving and strengthening the Nation's public school system;

(3) the Congress supports the goals of National Charter Schools Week, an event sponsored by charter schools and charter school organizations across the Nation and established to recognize the significant impacts, achievements, and innovations of the Nation's charter schools; and

(4) it is the sense of the Congress that the President should issue a proclamation calling on the people of the United States to conduct appropriate programs, ceremonies, and activities to demonstrate support for charter schools in communities throughout the Nation.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Delaware (Mr. CASTLE) and the gentleman from Indiana (Mr. ROEMER) each will control 20 minutes.

The Chair recognizes the gentleman from Delaware (Mr. CASTLE).

GENERAL LEAVE

Mr. CASTLE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Con. Res. 386.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Delaware?

There was no objection.

Mr. CASTLE. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from Florida (Mr. KELLER), who is the author of this legislation.

Mr. KELLER. Mr. Speaker, I thank the gentleman from Delaware for yielding me time.

Mr. Speaker, I rise today in support of my resolution to honor National Charter Schools Week House Concurrent Resolution 386. This resolution recognizes the many contributions charter schools have made to strengthen America's public school system. I introduced this resolution because of my firm conviction that charter schools work to benefit all students and all schools.

This resolution honors the 10th anniversary of the opening of the Nation's first charter schools. It acknowledges and commends the charter school movement and it honors the parents, teachers and students across the Nation for their ongoing contributions to education and for strengthening the Nation's public school system.

Since 90 percent of the children in this country go to public schools, it is critical that we do what we can to strengthen the public school systems. Charter schools have done just that. In just 10 short years, there are already almost 2,500 charter schools serving half a million students across the country.

Currently, 37 States, D.C. and Puerto Rico have passed charter school laws. Florida's public school system already has over 200 charter schools serving almost 30,000 children. There are 11 charter schools in my districts alone. I often hear of the successes of Lake Eola Charter School and Hope Charter School in Orlando, Florida.

What are charter schools and why do they offer alternatives for our parents and children? Charter schools are public schools established under State law that are given varying degrees of autonomy from State and local regulations. Charter schools must meet the same Federal student achievement accountability requirements as all other public schools, and they often set higher and additional goals to ensure that they are a high quality and truly accountable to the public.

□ 1730

This flexibility and exchange for accountability often translates into higher test scores and innovative practices. They provide an option to parents, often from low-income families, who desire an alternative to their local school.

Charter schools, by their very nature, place more emphasis on parental involvement, increased instruction, higher academic standards, and character education. They routinely measure parental approval and student progress. Otherwise, they would cease to exist. A charter school is created out of the demand for an alternative to the local school and is often started up through a group of active parents and teachers. Many of them serve a specific need in the community. Some can be oriented toward math and sciences and others exist to satisfy a need for liberal arts. Each is unique, but necessary.

President Bush's landmark legislation, the No Child Left Behind Act, contains multiple provisions which support the expansion of charter schools. It provides for an additional $200 million to help establish 700 new charter schools, and we expect an additional $100 million this year for construction of new charter school facilities.

Mr. Speaker, I would again like to congratulate the students, parents, teachers, principals, and administrators who have embraced the charter school movement and have made it such a success. The bottom line is that charter schools work because they are free from burdensome regulations and, in return, are held accountable for academic results. I urge my colleagues to recognize the role charter schools have made to strengthen our public school system and vote "yes" on House Concurrent Resolution 386.

Mr. ROEMER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I obviously rise in support, strong support, of this resolution commending the very important contribution that charter schools make to our public schools across this great land, and also to designate a week of Charter School Appreciation Week.

I want to talk a little bit about the past, the present, and the future of charter schools. Our families and our parents and our teachers are all very excited and very concerned about the prospect of public education in America today. It continues to rank as one of the highest issues when we poll, when we go to town meetings, when we ask any families about their priority concerns across the United States.

The past of charter schools, when we first got into this issue, was working with the new Democrats here in the House of Representatives and working with the DLC, the Democratic Leadership Council, and the PPI, and coming up with more opportunities for parents to get public school choice; not to rip money away from public schools and transfer it to private schools, but help support the foundation of public schools, while also helping the reform movement, the accountability movement, the change movement, the new opportunities for students, parents, and teachers movement; to try to get new curriculum and new ideas in our public schools. This has caught fire, and a host of States now have passed enabling legislation at the State level to create charter schools. The Federal Government is passing new laws and new help, providing new resources for charter schools to go forward in today's education environment.

So the past has been our efforts to help at the national level to create incentives and carrots to foster more public school charter schools in the United States. Last year, Indiana became the 38th charter school State, and I am very proud of that.

What is the present state of charter schools? As I said before, charter schools stress accountability, parental involvement, choice, and autonomy, and I am glad that this type of innovation is now beginning in Indiana. Charter schools are public schools that respond to an increasingly high demand for choices from parents, from teachers, and from students. They represent reform, improvement, and innovation in public education. Charter schools often serve our at-risk students. Nearly 60 percent of charters serve a population in which more than 40 percent of students qualify for free or reduced lunches. More than half of all charter schools serve a population in which 40 percent of the students are minorities. Nearly half of all charter schools serve a population in which more than 40 percent of students are considered at risk or former dropouts.

So this is not going out and picking the best students and forming a school and then trying to raise test scores and separating the public students more and more, or cherry-picking the best and leaving some of the at-risk students behind. In fact, many of the charter schools are designed to go after those dropouts, to go after those at-risk students, to go after those students most in need.

Mr. Speaker, 34 States, including the District of Columbia and Puerto Rico, including Indiana, are serving more than 500,000 students in about 2,430 charter schools. I mentioned the District of Columbia, and I want to note the support of the gentlewoman from the District of Columbia (Ms. NORTON) for these charter schools. I have visited many of these schools in the D.C. area, and I want to say for the record that I think some of those schools are the most innovative, the strongest, some of the schools with the best teachers and students and success rates as any charter schools in America. I know that she is very proud of those charter schools.

So what is the future of charter schools? What do we need to concentrate on to make sure that these charter schools remain viable choices for parents, teachers, and students?

One obstacle for charter schools is to overcome the difficulties and problems of start-up costs. They need to get in a building, and oftentimes procuring that building is the single biggest impediment to starting that charter school. We need to provide Federal resources, maybe matching with bonds and other State incentives, to help start these charter schools.

Secondly, we need to share best practices. If there are some good charter schools in one State, we need to find ways to share those best practices, those successful schools with other charter movements in other States, and strengthen the accountability, because these schools need to be held accountable. If they are not working, they can be closed. We need to make sure that the State laws are good charter school laws.

Thirdly, we need to look at the per-pupil expenditures so that they are equal to other public schools. We are talking about public charter schools and other public schools, so let us make sure that these students get equal access, whether they go to a public charter school or a previous public school.

So I am very excited about this movement that is catching fire across this country. I am very excited about the New Democrats' support for this back 5 and 6 and 7 years ago when it was a new idea. I am very supportive in a bipartisan way of working with the Republicans and the administration to find new ways to support the growth of charter schools, as I have outlined, in the future.

Mr. Speaker, I reserve the balance of my time.

Mr. CASTLE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to rise in support of H. Con. Res. 386, recognizing the charter school movement for its contribution to improving our Nation's public schools.

Charter schools are independent public schools that are created by parents and teachers and operated with exemptions from most State laws and regulations. In just 10 years, the charter school movement has grown to over 2,400 schools enrolling 580,000 students in 34 States, the District of Columbia, and Puerto Rico. These schools provide new choices for parents of public schoolchildren and they serve as laboratories for innovative educational practices that improve student achievement.

In my State of Delaware, the first charter school located in Wilmington opened in 1996. Unlike other schools, Wilmington Charter School focused its curriculum on math and science and it has achieved top scores in the Delaware assessments in math, reading, writing and science. Like many charter schools, Wilmington Charter School boasts high parental involvement, excellent student behavior, and state-of-the-art technology in every classroom. Unlike many traditional public schools, however, charter schools are subject to an unprecedented level of accountability. They have detailed written performance contracts, and where they are unable to meet the terms of the contracts, the schools are closed.

Recently citing financial instability, the Delaware Department of Education took a first step toward the revocation of the charter of a charter school in my State. Many parents and students waged a heroic battle to keep the school doors open, attempting to fund the school with bake sales and auctions, and many are still reeling from the decision. Despite this setback, many Delaware charter schools continue to have more applications for admissions than they can currently accommodate. In my mind, this reinforces the need for alternative public education in Delaware.

Combined with high parent satisfaction and improved academic achievement, the strong support for Delaware charter schools has caused many school officials to acknowledge some of the failures of our traditional public schools, and they tell me it compels them to improve. With this week being National Charter Schools Week, April 29 to May 3, it is therefore fitting that we recognize our Nation's charter schools as another way to improve student achievement and increase parental involvement.

In conclusion, I want to thank the gentleman from Florida (Mr. KELLER) for his leadership on this issue, and I urge an "aye" vote.

Mr. Speaker, I reserve the balance of my time.

Mr. ROEMER. Mr. Speaker, I yield 4 minutes to the gentlewoman from the District of Columbia (Ms. NORTON), my classmate.

Ms. NORTON. Mr. Speaker, I appreciate the gentleman for yielding me this time, and I appreciate all of his work on this issue. He has been one of the movers and shakers for charter schools in this Congress. This is only one of the reasons I am in mourning that he is leaving the Congress. I want to thank the author of the resolution, H. Con. Res. 386, as well.

Mr. Speaker, the District of Columbia, our Nation's Capital, is supporting charter schools in a way that counts with the largest number of charter schools per capita in the United States. Fourteen percent of our youngsters go to charter schools, more than in any other State. We have 2 chartering authorities, including one that was authorized by this Congress pursuant to a bill I sponsored in 1995 with the agreement of the District of Columbia. All of our charter schools are public, nonsectarian schools. There are 13 elementary schools, 11 middle schools, and 16 high schools. I want to draw attention to one in particular, the Seed School, which is the first inner city charter boarder school in the United States. Yes, that is right. A boarding school of 14 children in a classroom, and it has attracted all kinds of private funds. We can imagine how surrounding these children with what such a school has to offer, what it means in terms of their career opportunities and their ability to get into top-flight schools.

We think our charter school movement here is a model for how to promote competition to the traditional public schools. This House may recall that there was fierce opposition in the District which this Congress tried to impose on the District vouchers, fierce opposition, rage, and yet the District has embraced charter schools like its second skin. They have proven to be better than vouchers because they are far less controversial and have a far greater variety of schools than we could ever have gotten with vouchers.

These schools are very independent. They are not tied to the bureaucracy of the public schools of the District of Columbia at all.

For those who say that the public schools need competition, they are right. Boy, has there been competition for our public schools. I think they have made our public schools better. The scores in the public schools are better than the scores in the charter schools, but at the very bottom, the very bottom, the charter schools are doing better, and that may be because of the teacher-student ratio, because there are a smaller number of students in those schools.

□ 1745

The competition is good, but it has been publicly accountable competition.

What the charter schools and the public schools do is really enable us to compare schools that are apples and apples, because there is an even playing field here. Both of them get public money; both of them must take every student; none of them can cream off the top; none of them can discriminate based on where they come from or what their parents are or what the test scores are; and they all have the same health, safety, financial, and reporting regulations.

So we are probably going to be the first jurisdiction with a critical mass that is able to compare how students do in charter schools with how students do in traditional public schools.

In some jurisdictions, I want to caution the Congress that charter schools have become more controversial. They are seen less as competition and more as a distraction. I regret that. That has not yet happened in the District of Columbia.

But caution has to be taken to make sure that where a critical mass of money is necessary to run a public school system, that that remains intact, and that the number of charter schools relative to the number of traditional public schools remains in some kind of balance, and people do not go off chartering, catch-as-catch-can, charter schools.

In any case, the District, its parents, its students, are embracing charter schools. What is happening in the District of Columbia, in the Nation's capital, there is a real, live, thriving charter school movement helping to improve educational opportunity by providing a variety of public school vehicles from which our public school children, indeed any child in the District of Columbia, can choose.

I urge Members to look at this model to see what it may have to offer for their own jurisdiction. I thank the gentleman for his work on this issue.

Mr. CASTLE. Mr. Speaker, I yield 3½ minutes to the gentleman from Wisconsin (Mr. PETRI)

Mr. PETRI. Mr. Speaker, I am pleased to speak in support of this resolution, as it once again recognizes the charter school movement for its contribution to improving America's schools.

Although Congress has been supporting the growth of charter schools for almost 10 years now, we should remember that this is, in fact, a grassroots movement. The movement was really started in the early 1990s by concerned parents and frustrated teachers who were fed up with the status quo, weary of fighting the bureaucracy that defeats innovation, and tired of seeing their children consigned to mediocrity and to failure.

In my State of Wisconsin, I am proud to say that we have a strong charter school program that was one of the first in the Nation to be established. I recently participated in the charter school conference held near my district. I was excited to learn of the innovation going on in my State.

For example, Wisconsin will soon have two virtual charter schools, which are public charter schools that conduct classes online. Thanks to Wisconsin's open enrollment law, children from anywhere in the State can apply to enroll in these schools. These virtual charter schools will provide a computer and Internet access to the enrolled children.

In these virtual schools, the parents have great control, and the parents make final decisions as to their child's personalized learning plan while still having full access to professionally-prepared curriculum and teacher support. Thus, this approach utilizes the advantages of home schooling, charters, and public school choice to create a unique educational experience.

I would like to thank my colleague, the gentleman from Florida (Mr. KELLER) for bringing forward this resolution. I appreciate the opportunity to speak in its support, and I urge my colleagues to support a National Charter

Schools Week, and to continue to encourage the growth of this important and successful reform movement.

Mr. CASTLE. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Ohio (Mr. BOEHNER), chairman of the Committee on Education and the Workforce.

Mr. BOEHNER. Mr. Speaker, in honor of National Charter Schools Week, I rise in strong support of House Concurrent Resolution 386 introduced by my friend and colleague, the gentleman from Florida (Mr. KELLER), also a member of our committee.

This week-long celebration, which runs through Friday, is cosponsored by more than 75 grassroots charter school support organizations in 45 States, and is coordinated by the Charter Friends National Network and the Center for Education Reform.

Also during this week there will be six charter school nights at major league baseball games in Colorado and in California. In addition, other national organizations have signed on as national supporting organizations for National Charter Schools Week, including the National Council of La Raza, the National Cooperative Bank Development Corporation, the Gates-EdVisions Project, and Youthbuild USA.

Although a relatively new phenomenon, charter schools have been at the cutting edge of educational reform for the past several years. Nowhere is this more true than in Dayton, Ohio, a new part of my district, the site of one of the fastest growing charter school movements in the Nation.

In Dayton, more than a dozen charter schools are up and running, serving thousands of area children. In Dayton and across the Nation, the contributions of charter schools are helping to strengthen our Nation's public schools. They are playing a key role in the effort to raise expectations and ensure that every child of every income and ethnic background has the chance for a safe and world-class education.

There are not many things that I and the editors of the Dayton Daily News agree on usually, but they were right on this one earlier this month when they wrote, and I will quote, "Charter schools deserve a chance. They can serve as models for public schools, and the competition they provide is a good thing."

In exchange for flexibility and freedom from regulations, charter schools are held accountable for improving the academic achievement of their students. This new-found flexibility and freedom has not only translated into higher test scores, but also innovative practices. I think it has empowered parents with the ability to seek out the best education possible for their own children.

In fact, we mirror these same principles of freedom, flexibility, and accountability through the Elementary and Secondary Education Act in H.R. 1, the No Child Left Behind Act, which the President signed into law earlier this year.

Currently, 37 States, the District of Columbia, and Puerto Rico have passed charter school laws, and more than a half a million students attend charter schools somewhere nationwide. My hope is that every State will have passed a charter school law in the very near future.

That said, Mr. Speaker, I would like to congratulate all of the students, parents, teachers, principals, and administrators who have embraced the charter school movement and are working to make it a success.

I would also like to recognize the efforts of two Ohio officials, State auditor Jim Petro and State Representative Jon Husted of Dayton, who have worked tirelessly on behalf of our State's charter schools.

Finally, I want to thank the gentleman from Florida (Mr. KELLER), the gentleman from Georgia (Mr. ISAKSON), the gentleman from Michigan (Mr. UPTON), and the gentleman from Indiana (Mr. ROEMER) for their efforts in bringing this resolution to the floor.

Mr. CASTLE. Mr. Speaker, I yield 2 minutes to the gentleman from Georgia (Mr. ISAKSON).

Mr. ISAKSON. Mr. Speaker, I thank the gentleman from Delaware for yielding time to me.

Mr. Speaker, I am pleased to rise in support of this resolution. I commend the gentleman from Florida (Mr. KELLER) for introducing it, because it recognizes an important principle: We in government know that regulation, with the best of intentions, is not always successful.

The charter school movement recognizes that empowerment of parents, teachers, and the children is almost always successful. That is the basic principle of the charter school movement. It engages the parents in setting the goals, it engages the faculty with the parents in setting the goals, and it asks for regulation waivers in return for the accountability for achievement and higher standards.

In my district in Georgia, the first charter school in our State was approved, and it has subsequently been reapproved. The results are remarkable. The parents are proud, the kids are engaged, and the faculty is a part of the decision-making process, the change, and the reform that has made the school movement a success.

So I commend the gentleman from Florida (Mr. KELLER), I commend those parents, as the gentleman from Ohio (Chairman BOEHNER) has said, and I commend those around the country that are trying to help public schools with that key process of parental involvement and teacher involvement in higher goals and better achievement.

Lastly, I want to add a comment. At our recess a few weeks ago, I traveled with USAID to Egypt and Ethiopia. In Ethiopia, I observed a program known as BESO, sponsored by Save the Children, CARE, World Learning, and USAID. It is a program that engaged, due to the following: It is basic educational structural overhaul. The result is, it is charter schools.

There in Ethiopia, where we have problems with AIDS, problems with Muslim children being able to go to school, problems with economic development because of poor job training, we are bringing in parents, most of whom never had an education, to be part of the school with their children and the teachers to set goals.

We saw children in the worst of impoverished situations achieving higher goals because their parents were involved, their government supported change, and because teachers, parents, and students were partners together.

The resolution of the gentleman from Florida (Mr. KELLER) is a good one. The charter school movement is a tremendous asset to public education. I commend the gentleman from Florida for its introduction. I support the resolution.

Mr. CASTLE. Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota (Mr. GUTKNECHT).

Mr. GUTKNECHT. Mr. Speaker, I thank the gentleman for yielding time to me. I rise in strong support of this important resolution.

Mr. Speaker, our Nation's charter schools have been a great boon to America's education system. My great State of Minnesota enjoys being at the forefront of many movements. Charter schools are no exception. St. Paul Academy in St. Paul, Minnesota, and Bluffview Montessori School in Winona, Minnesota, are America's first charter schools. These schools received their charters back in 1993.

Charter schools provide an innovative curriculum. Students are able to explore specific interests in a unique environment. Charter schools address the special needs of students who may not otherwise prosper in traditional public education systems.

Minnesota features charter schools that specifically address the needs of Hmong and Native American students.

A new agricultural charter school just opened in the Twin Cities. This is an excellent opportunity for urban students to expand their knowledge. Too many adults do not know enough about how food is produced. Charter schools are providing the innovative solutions to that gap of understanding.

As a component of public education, charter schools are a testing ground for education delivery systems, and they are proving very successful. With an enrollment of 175 students, Bluffview continues to prosper. Their students, with the guidance of 15 teachers, have consistently scored higher than national and State averages on standardized tests.

Charter schools provide a creative answer to the question of parental involvement, flexibility and accountability in the public school system, higher standards, and oversight by a sponsoring public district maintain quality and continuity in each school.

In the case of parental involvement, I want to tell Members about Sandy Bauer. Her children have already graduated from Bluffview. Her experience as a parent was so positive that she continues to be a volunteer. That is commitment. Her actions tell me that Bluffview is doing something right.

Accountability is best demonstrated by the creation of a charter document. This document specifically outlines the goals for achievement. I firmly believe in planning your work and working your plan. Charter schools, by their very nature, must meet the goals of their charter or they lose that charter.

I am proud to celebrate National Charter Schools Week. I wholeheartedly commend the charter schools, the movement, the charter school teachers, the parents, and the students for their ongoing contributions to education. They are leading our country to a brighter future for all students, and I am happy to cosponsor this important resolution.

Mr. ROEMER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I conclude by stating my very strong support for this resolution. I want to thank the gentleman from Delaware (Mr. CASTLE) for his support on this bipartisan resolution today, as well.

Mr. Speaker, I yield back the balance of my time.

Mr. CASTLE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to thank the gentleman from Florida (Mr. KELLER) for his sponsorship of this, and the gentleman from Indiana (Mr. ROEMER).

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. WHITFIELD). The question is on the motion offered by the gentleman from Delaware (Mr. CASTLE) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 386.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. CASTLE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

□ 1800

EDUCATION SCIENCES REFORM ACT OF 2002

Mr. CASTLE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3801) to provide for improvement of Federal education research, statistics, evaluation, information, and dissemination, and for other purposes, as amended.

The Clerk read as follows:

H.R. 3801

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—EDUCATION SCIENCES REFORM

SEC. 101. SHORT TITLE.

This title may be cited as the "Education Sciences Reform Act of 2002".

SEC. 102. TABLE OF CONTENTS.

The table of contents for this title is as follows:

Sec. 101. Short title.
Sec. 102. Table of contents.

PART A—ACADEMY OF EDUCATION SCIENCES

Sec. 111. Establishment.
Sec. 112. Organization.
Sec. 113. Functions.
Sec. 114. Delegation.
Sec. 115. Office of the Director.
Sec. 116. Priorities.
Sec. 117. National Board for Education Sciences.
Sec. 118. Commissioners of the National Education Centers.
Sec. 119. Office of Educational Resources and Dissemination.

PART B—NATIONAL CENTER FOR EDUCATION RESEARCH

Sec. 131. Establishment.
Sec. 132. Commissioner for Education Research.
Sec. 133. Duties.
Sec. 134. Biennial report.
Sec. 135. Standards for conduct and evaluation of research.

PART C—NATIONAL CENTER FOR EDUCATION STATISTICS

Sec. 151. Establishment.
Sec. 152. Commissioner for Education Statistics.
Sec. 153. Duties.

PART A—ACADEMY OF EDUCATION SCIENCES

SEC. 111. ESTABLISHMENT.

(a) ESTABLISHMENT.—There shall be in the Department an Academy of Education Sciences, to be administered by a Director (as provided in section 115) and a board of directors (as provided in section 117).

(b) MISSION.—The mission of the Academy is to provide national leadership in expanding fundamental knowledge and understanding of education, in order to provide parents, educators, students, researchers, policymakers, and the general public with reliable information about the condition and progress of education in the United States, educational practices that support learning and improve academic achievement for all students, and the effectiveness of Federal and other education programs. In carrying out this mission, the Academy shall conduct research, evaluation, statistics, and dissemination activities supported by Federal funds through the Academy and ensure that such activities—

(1) conform to high standards of quality, integrity, and accuracy; and

(2) are objective, secular, neutral, and nonideological and are free of partisan political influence and racial, cultural, gender, or regional bias.

SEC. 112. ORGANIZATION.

The Academy consists of the following:

(1) The Office of the Director (as set out in section 115).

(2) The National Board for Education Sciences (as set out in section 117).

(3) The Office of Educational Resources and Dissemination (as set out in section 119).

(4) The National Education Centers, which include—

(A) the National Center for Education Research (as set out in part B);

(B) the National Center for Education Statistics (as set out in part C); and

(C) the National Center for Education Evaluation (as set out in part D).

SEC. 113. FUNCTIONS.

The Academy, directly or through grants, contracts, or cooperative agreements, shall—

(1) conduct and support scientifically valid research activities, including basic and applied research, statistics activities, scientifically valid education evaluation, development, and dissemination;

(2) disseminate the findings and results of scientifically valid research in education;

(3) promote the application of knowledge gained from scientifically valid research activities;

(4) strengthen the national capacity to conduct scientifically valid research in education; and

(5) promote the coordination of scientifically valid research in education within the Department and the Federal Government.

SEC. 114. DELEGATION.

(a) DELEGATION OF AUTHORITY.—Notwithstanding section 412 of the Department of Education Organization Act (20 U.S.C. 3472), the Secretary shall delegate to the Director all functions for carrying out this title (other than administrative and support functions), except that—

(1) nothing in this title or in the National Assessment of Educational Progress Authorization Act may be construed to alter or diminish the role, responsibilities, or authority of the National Assessment Governing

Board with respect to the National Assessment of Educational Progress from those authorized by the National Education Statistics Act of 1994 immediately before the enactment of this Act;

(2) members of the National Assessment Governing Board shall continue to be appointed by the Secretary;

(3) section 302(f)(1) of the National Assessment of Educational Progress Authorization Act shall apply to the National Assessment Governing Board in the exercise of its responsibilities under this Act;

(4) sections 116 and 117(b)(2) shall not apply to the National Assessment of Educational Progress; and

(5) sections 116 and 117 shall not apply to the National Assessment Governing Board.

(b) OTHER ACTIVITIES.—The Secretary may assign the Academy responsibility for administering other activities, if those activities are consistent with—

(1) the Academy's priorities, as approved by the National Board for Education Sciences under section 116; or

(2) the Academy's mission, if the activities are not consistent with such priorities.

SEC. 115. OFFICE OF THE DIRECTOR.

(a) APPOINTMENT.—Except as provided in subsection (b)(2), the President, with the advice and consent of the Senate, shall appoint the Director of the Academy.

(b) TERM.—

(1) IN GENERAL.—The Director shall serve for a term of 6 years, beginning on the date of appointment of the Director, but may be removed by the President prior to the expiration of that term.

(2) FIRST DIRECTOR.—The President, without the advice and consent of the Senate, may appoint the Assistant Secretary for the Office of Educational Research and Improvement (as such office existed on the day before the date of enactment of this Act) to serve as the first Director of the Academy.

(3) SUBSEQUENT DIRECTORS.—The Board may make recommendations to the President with respect to the appointment of a Director, other than a Director appointed under paragraph (2).

(c) PAY.—The Director shall receive the rate of basic pay for level III of the Executive Schedule.

(d) QUALIFICATIONS.—The Director shall be selected from individuals who are highly qualified authorities in the fields of scientifically valid research, statistics, or evaluation in education, as well as management within such areas, and have a demonstrated capacity for sustained productivity and leadership in these areas.

(e) ADMINISTRATION.—The Director shall—

(1) administer, supervise, and coordinate the activities carried out under the Academy, including the activities of the National Education Centers; and

(2) coordinate and approve budgets and operating plans for each of the National Education Centers for submission to the Secretary.

(f) DUTIES.—The duties of the Director shall include the following:

(1) To propose to the Board priorities for the Academy, in accordance with section 116(a).

(2) To ensure the methodology applied in conducting research, evaluation, and statistical analysis is consistent with the standards for such activities under this title.

(3) To coordinate education research and related activities carried out by the Academy with such research and activities carried out by other agencies within the Department and the Federal Government.

(4) To advise the Secretary on research, evaluation, and statistics activities relevant to the activities of the Department.

(5) To establish necessary procedures for technical and scientific peer review of the activities of the Academy, consistent with section 117(b)(3).

(6) To ensure that all participants in research conducted or supported by the Academy are afforded their privacy rights and other relevant protections as research subjects, in accordance with section 184 of this title, section 552a of title 5, United States Code, and sections 444 and 445 of the General Education Provisions Act (20 U.S.C. 1232g, 1232h).

(7) To ensure that activities conducted or supported by the Academy are objective, secular, neutral, and nonideological and are free of partisan political influence and racial, cultural, gender, or regional bias.

(8) To undertake initiatives and programs to increase the participation of researchers and institutions that have been historically underutilized in Federal education research activities in the activities of the Academy, including historically Black colleges and universities and other institutions of higher education with large numbers of minority students.

(9) To coordinate with the Secretary to promote and provide for the coordination of research and development activities and technical assistance activities between the Academy and the regional governing boards and regional entities described in section 203 of the Regional Assistance Act of 2002 to ensure collaboration and resource sharing and reduce redundancy in such activities.

(10) To solicit and consider the recommendations of education stakeholders, in order to ensure that there is broad and regular public and professional input from the educational field in the planning and carrying out of the Academy's activities.

(11) At the discretion of the Director and in consultation with the National Academy of Sciences, to conduct a study to determine—

(A) a standard by which States may accurately measure the rate at which students drop out of or graduate from secondary schools in the United States (including on-time graduation); and

(B) the use of alcohol or illegal narcotics as contributing factors to incidents of school violence committed by students during the regular school day and while participating in other school-related activities.

(12) To carry out and support other activities consistent with the priorities and mission of the Academy.

(g) EXPERT GUIDANCE AND ASSISTANCE.—The Director may establish technical and scientific peer-review groups and scientific program advisory committees that the Director determines are necessary to carry out the requirements of this title. The Director shall appoint such personnel, except that officers and employees of the United States shall comprise no more than one-fourth of the members of any such group or committee and shall not receive additional compensation for their service as members of such a group or committee. The Director shall ensure that reviewers are highly qualified and capable to appraise education research and development projects. The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to a peer-review group or an advisory committee established under this subsection.

SEC. 116. PRIORITIES.

(a) PROPOSAL.—The Director shall propose to the Board priorities for the Academy (taking into consideration long-term research and development on core issues conducted through the national research and development centers (as defined in section 181)) identifying topics that may require long-term research and topics that are focused on understanding and solving particular education problems and issues, including those associated with the goals and requirements established in the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.), such as—

(1) closing the achievement gap between high-performing and low-performing children, especially achievement gaps between minority and nonminority children and between disadvantaged children and their more advantaged peers; and

(2) ensuring that all children reach, at a minimum, proficiency on challenging State academic achievement standards and assessments.

(b) APPROVAL.—The Board shall approve or disapprove the priorities for the Academy proposed by the Director, including any necessary revision of those priorities. The Board shall transmit any priorities so approved to the appropriate congressional committees.

(c) CONSISTENCY.—The Board shall ensure that priorities of the Academy and the National Education Centers are consistent with the mission of the Academy.

(d) PUBLIC AVAILABILITY AND COMMENT.—

(1) PRIORITIES.—Before submitting to the Board proposed priorities for the Academy, the Director shall make such priorities available to the public for comment (including by means of the Internet and through publishing such priorities in the Federal Register). The Director shall provide to the Board a copy of each such comment submitted.

(2) PLAN.—Upon approval of such priorities, the Director shall make the Academy's plan for addressing such priorities available for public comment in the same manner as under paragraph (1).

SEC. 117. NATIONAL BOARD FOR EDUCATION SCIENCES.

(a) ESTABLISHMENT.—The Academy shall have a board of directors, which shall be known as the National Board for Education Sciences.

(b) DUTIES.—The duties of the Board shall be the following:

(1) To advise the Director on the policies of the Academy.

(2) To consider and approve priorities under section 116 to guide the work of the Academy.

(3) To review and approve procedures for scientific peer review of the activities of the Academy.

(4) To advise the Director on the development of activities to be supported by the Academy, including the general areas of research to be carried out by the National Center for Education Research.

(5) To present to the Director such recommendations as it may find appropriate for—

(A) the strengthening of education research; and

(B) the funding of the Academy.

(6) To advise the Director on the funding of applications for grants, contracts, and cooperative agreements for research, after the completion of peer review.

(7) To review and regularly evaluate the work of the Academy, to ensure that scientifically valid research, evaluation, and statistical analysis are consistent with the standards for such activities under this title.

(8) To advise the Director on ensuring that activities conducted or supported by the

Academy are objective, secular, neutral, and nonideological and are free of partisan political influence and racial, cultural, gender, or regional bias.

(9) To solicit advice and information from those in the educational field, particularly practitioners and researchers, to recommend to the Director topics that require long-term, sustained, systematic, programmatic, and integrated research efforts, including knowledge utilization and dissemination of research, consistent with the priorities and mission of the Academy.

(10) To advise the Director on opportunities for the participation in, and the advancement of, women, minorities, and persons with disabilities in education research, statistics, and evaluation activities of the Academy.

(11) To recommend to the Director ways to enhance strategic partnerships and collaborative efforts among other Federal and State research agencies.

(12) To recommend to the Director individuals to serve as Commissioners of the National Education Centers.

(c) Composition.—

(1) Voting members.—The Board shall have 15 voting members appointed by the President, with the advice and consent of the Senate.

(2) Advice.—The President shall solicit advice on individuals to serve on the Board from the National Academy of Sciences, the National Science Foundation, and the Office of Science and Technology Policy.

(3) Nonvoting ex officio members.—The Board shall have the following nonvoting ex officio members:

(A) The Director of the Academy of Education Sciences.

(B) Each of the Commissioners of the National Education Centers.

(C) The Director of the National Institute of Child Health and Human Development.

(D) The Director of the Census.

(E) The Commissioner of Labor Statistics.

(F) The Director of the National Science Foundation.

(4) Appointed membership.—

(A) Qualifications.—Members appointed under paragraph (1) shall be highly qualified to appraise education research, statistics, evaluations, or development, and shall include individuals from each of the following groups:

(i) Educators, including classroom teachers, principals, and other school administrators.

(ii) Parents.

(iii) Business leaders.

(iv) Experts and scientists in research, statistics, evaluation, or development, who are recognized in their discipline as highly qualified to represent such discipline.

(B) Special rule.—A majority of the voting members of the Board must be appointed from the groups described in clauses (i) and (iv) of subparagraph (A).

(C) Terms.—Each member appointed under paragraph (1) shall serve for a term of 4 years, except that—

(i) each such member may be removed by the President before the expiration of that term;

(ii) the terms of the initial members appointed under such paragraph shall (as determined by a random selection process at the time of appointment) be for staggered terms of—

(I) 4 years for each of five members;

(II) 3 years for each of five members; and

(III) 2 years for each of five members; and

(iii) no member appointed under such paragraph shall serve for more than two consecutive terms.

(D) Unexpired terms.—Any member appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of that term.

(5) Chair.—The Board shall elect a chairperson from among the members of the Board.

(6) Compensation.—Members of the Board shall serve without pay for such service. Members of the Board who are officers or employees of the United States may not receive additional pay, allowances, or benefits by reason of their service on the Board.

(7) Travel expenses.—The members of the Board shall receive travel expenses, including per diem in lieu of subsistence, in accordance with subchapter I of chapter 57 of title 5, United States Code.

(8) Powers of the board.—

(A) Executive director.—The Board shall have an Executive Director who shall be appointed by the Board.

(B) Additional staff.—The Board shall utilize such additional staff as may be appointed or assigned by the Director, in consultation with the Chair.

(C) Detail of personnel.—The Board may use the services and facilities of any department or agency of the Federal Government. Upon the request of the Board, the head of any Federal department or agency may detail any of the personnel of that department or agency to the Board to assist the Board in carrying out this Act.

(D) Contracts.—The Board may enter into contracts or make other arrangements as may be necessary to carry out its functions.

(E) Information.—The Board may, to the extent otherwise permitted by law, obtain directly from any executive department or agency of the Federal Government such information as the Board deems necessary to carry out its functions.

(9) Meetings.—The Board shall meet not less than four times each year. The Board shall hold additional meetings at the call of the chairperson or upon the written request of at least six voting members of the Board.

(10) Quorum.—A majority of the voting members of the Board shall constitute a quorum.

(d) Standing Committees.—

(1) Establishment.—The Board may establish standing committees—

(A) to each serve one of the National Education Centers; and

(B) to advise, consult with, and make recommendations to the Director and the Commissioner of the appropriate National Education Centers.

(2) Membership.—A majority of the members of each standing committee shall be voting members of the Board whose expertise is needed for the functioning of the committee. In addition, the membership of each standing committee may include, as appropriate—

(A) experts and scientists in research, statistics, evaluation, or development who are recognized in their discipline as highly qualified to represent such discipline and who are not members of the Board, but who may have been recommended by the Commissioner of the appropriate National Education Center and approved by the Board;

(B) ex officio members of the Board; and

(C) policymakers and expert practitioners with knowledge of, and experience using, the results of research, evaluation, and statistics who are not members of the Board, but who may have been recommended by the Commissioner of the appropriate National Education Center and approved by the Board.

(3) Duties.—Each standing committee shall—

(A) at the discretion of the Board or the standing committee, review and comment on any grant, contract, or cooperative agreement entered into (or proposed to be entered into) by the applicable National Education Center;

(B) prepare for, and submit to, the Board an annual evaluation of the operations of the applicable National Education Center;

(C) review and comment on the relevant plan for activities to be undertaken by the applicable National Education Center for each fiscal year; and

(D) periodically report to the Board regarding the activities of the committee and the applicable National Education Center.

(e) Annual Report.—The Board shall submit to the Director, the Secretary, and the appropriate congressional committees, not later than July 1 of each year, a report that assesses the effectiveness of the Academy in carrying out its priorities and mission, especially as such priorities and mission relate to carrying out scientifically valid research, conducting unbiased evaluations, and collecting and reporting accurate education statistics.

(f) Recommendations.—The Board shall submit to the Director, the Secretary, and the appropriate congressional committees a report that includes any recommendations regarding any actions that could be taken to enhance the ability of the Academy to carry out its priorities and mission. The Board shall submit an interim report not later than 3 years after the date of enactment of this Act and a final report not later than 5 years after such date of enactment.

SEC. 118. COMMISSIONERS OF THE NATIONAL EDUCATION CENTERS.

(a) Appointment.—The National Education Centers shall each be headed by a Commissioner appointed by the Director. In appointing Commissioners, the Director shall seek to promote continuity in leadership of the National Education Centers and shall consider individuals recommended by the Board. The Director may appoint a Commissioner to carry out the functions of a National Education Center without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates.

(b) Pay.—The Commissioners shall each receive the rate of basic pay for level IV of the Executive Schedule.

(c) Qualifications.—Each Commissioner shall be highly qualified in the field of education research, statistics, or evaluation.

(d) Service and Removal.—Each Commissioner shall report to the Director and may be removed by the Director. A Commissioner shall serve for a period of no more than 6 years, unless reappointed by the Director, except that a Commissioner may serve for an additional period, not to exceed 1 year, until a successor has been appointed by the Director.

SEC. 119. OFFICE OF EDUCATIONAL RESOURCES AND DISSEMINATION.

(a) Establishment.—There is established within the Academy an Office of Educational Resources and Dissemination.

(b) Duties.—The Office of Educational Resources and Dissemination shall—

(1) disseminate information on scientifically valid research, statistics, and evaluation on education to the public, the media,

voluntary organizations, and other constituencies, especially with respect to information relating to, at a minimum—

(A) the core academic areas of reading, mathematics, and science;

(B) closing the achievement gap between high-performing students and low-performing students;

(C) educational practices that improve academic achievement and promote learning; and

(D) education technology, including software;

(2) manage the National Library of Education described in subsection (e), and other sources of digital information on education research; and

(3) make such information accessible in a user-friendly, timely, and efficient manner (including through use of a searchable Internet web-based online database) to schools, educators, parents, administrators, policymakers, researchers, public and private entities, entities responsible for carrying out technical assistance through the Department, and the general public.

(c) Additional Duties.—In carrying out subsection (b), the Office of Educational Resources and Dissemination shall—

(1) ensure that information disseminated under this section is provided in a cost-effective, nonduplicative manner, including the most current research findings, which may include through the continuation of individual clearinghouses authorized under the Educational Research, Development, Dissemination, and Improvement Act of 1994 (title IX of the Goals 2000: Educate America Act; 20 U.S.C. 6001 et seq.) (as such Act existed on the day before the date of enactment of this Act) or the clearinghouse authorized under section 2102(b) of the Elementary and Secondary Education Act of 1965 (as such section existed on the day before the date of enactment of the No Child Left Behind Act of 2001 (Public Law 107–110));

(2) prominently describe the type of scientific evidence that is used to support the findings that are disseminated;

(3) clearly explain the scientifically appropriate and inappropriate uses of—

(A) the findings that are disseminated; and

(B) the types of evidence used to support those findings; and

(4) respond, as appropriate, to inquiries from schools, educators, parents, administrators, policymakers, researchers, public and private entities, and entities responsible for carrying out technical assistance.

(d) Continuation.—The Director shall continue the existing awards of the Educational Resources Information Center Clearinghouses (established under section 941(f) of the Educational Research, Development, Dissemination, and Improvement Act of 1994 (as such provision existed on the day before the date of enactment of this Act)) for the duration of those existing awards, in accordance with the terms and agreements of such awards.

(e) National Library of Education.—There is established within the Office of Educational Resources and Dissemination a National Library of Education that shall be headed by an individual who is highly qualified in library science and shall collect and archive information, including products and publications developed through, or supported by, the Academy, and other relevant and useful education-related research, statistics, and evaluation and other information, projects, and publications that are consistent with scientifically valid research or the priorities and mission of the Academy and are developed by the Department, other Federal agencies, or entities (including entities supported under the Regional Educational Technical Assistance Act).

PART B—NATIONAL CENTER FOR EDUCATION RESEARCH

SEC. 131. ESTABLISHMENT.

(a) Establishment.—There is established in the Academy a National Center for Education Research (in this part referred to as the "Research Center").

(b) Mission.—The mission of the Research Center is—

(1) to sponsor sustained research that will lead to the accumulation of knowledge and understanding of education, particularly to improve student academic achievement and close the achievement gap between high-performing and low-performing students, including through the improvement of teaching and learning of reading, writing, mathematics, science, and other academic subjects;

(2) to support the synthesis and, as appropriate, the integration of education research;

(3) to promote quality and integrity through the use of accepted practices of scientific inquiry to obtain knowledge and understanding of the validity of education theories, practices, or conditions; and

(4) to promote scientifically valid research findings that can provide the basis for improving academic instruction and lifelong learning.

SEC. 132. COMMISSIONER FOR EDUCATION RESEARCH.

The Research Center shall be headed by a Commissioner for Education Research (in this part referred to as the "Research Commissioner") who shall have substantial knowledge of the activities of the Research Center, including a high level of expertise in the fields of research and research management.

SEC. 133. DUTIES.

(a) General Duties.—The Research Center shall—

(1) maintain published peer-review standards and standards for the conduct and evaluation of all research and development carried out under the auspices of the Research Center in accordance with this part;

(2) propose to the Director a research plan that—

(A) is consistent with the priorities and mission of the Academy and the mission of the Research Center and includes the activities described in paragraph (3); and

(B) shall be carried out pursuant to paragraph (4) and, as appropriate, be updated and modified;

(3) carry out specific, long-term research activities that are consistent with the priorities and mission of the Academy, and are approved by the Director;

(4) implement the plan proposed under paragraph (2) to carry out scientifically valid research that—

(A) uses objective and measurable indicators, including timelines, that are used to assess the progress and results of such research;

(B) meets the procedures for peer review established by the Director under section 115(f)(5) and the standards of research described in section 135; and

(C) includes both basic research and applied research, which shall include research conducted through field-initiated studies and may include ongoing research initiatives;

(5) promote the use of scientifically valid research within the Federal Government, including active participation in interagency research initiatives;

(6) ensure that research conducted by the Research Center is relevant to education practice and policy;

(7) synthesize and disseminate, through the Office of Educational Resources and Dissemination, the findings and results of education research conducted or supported by the Research Center;

(8) prepare and submit to the Director for approval a biennial report, as described in section 134, which shall be made available to the public through such means as the Internet; and

(9) carry out research on successful State and local education reform activities that result in increased academic achievement and narrowing of achievement gaps, as approved by the Director.

(b) Eligibility.—Research carried out under subsection (a) through contracts, grants, or cooperative agreements shall be carried out only by recipients with the ability and capacity to conduct scientifically valid research.

(c) National Research and Development Centers.—

(1) Support.—In carrying out activities under subsection (a)(3), the Director, acting through the Research Commissioner, shall support national research and development centers.

(2) Scope.—Support for a national research and development center shall be for a period of not more than 5 years, shall be of sufficient size and scope to be effective, and notwithstanding section 135(b), may be renewed without competition for not more than 5 additional years if the Director, in consultation with the Research Commissioner and the Board, determines that the research of the national research and development center—

(A) continues to address priorities of the Academy; and

(B) merits renewal (applying the procedures and standards established in section 135).

(3) Limit.—No national research and development center may be supported under this subsection for a period of more than 10 years without competition.

(4) Continuation of awards.—The Director, acting through the Research Commissioner, shall continue awards made to the national research and development centers in effect on the day before the date of enactment of this Act in accordance with the terms of those awards and may renew them in accordance with paragraphs (2) and (3).

SEC. 134. BIENNIAL REPORT.

The Director shall, on a biennial basis, transmit to the President, the Board, and the appropriate congressional committees and make widely available to the public (including by means of the Internet), a report containing the following:

(1) A description of the activities carried out by and through the Research Center during the prior fiscal year.

(2) A detailed summary of each grant, contract, and cooperative agreement in excess of $100,000 funded during the prior fiscal year, including, at a minimum, the amount, duration, recipient, purpose, and goal of the award and its relationship to the priorities and mission of the Academy, and the reports and publications produced, which shall be available in a user-friendly electronic database.

(3) A description of how the activities of the Research Center are consistent with the principles of scientifically valid research and the priorities and mission of the Academy.

(4) Such additional comments, recommendations, and materials as the Director considers appropriate.

SEC. 135. STANDARDS FOR CONDUCT AND EVALUATION OF RESEARCH.

(a) IN GENERAL.—In carrying out this part, the Director, acting through the Research Commissioner, shall—

(1) ensure that all research conducted under the direction of the Research Center follows scientifically based research standards;

(2) develop such other standards as may be necessary to govern the conduct and evaluation of all research, development, and dissemination activities carried out by the Research Center to assure that such activities meet the highest standards of professional excellence;

(3) review the procedures utilized by the National Institutes of Health, the National Science Foundation, and other Federal departments or agencies engaged in research and development and actively solicit recommendations from research organizations and members of the general public in the development of the standards described in paragraph (2); and

(4) ensure that all research complies with Federal guidelines relating to research misconduct.

(b) RESEARCH AWARDS.—

(1) IN GENERAL.—Research carried out under this part through grants, contracts, or cooperative agreements, at a minimum, shall—

(A) be awarded through a process of open competition; and

(B) be subject to a system of peer review of highly qualified individuals with an in-depth knowledge of the subject to be investigated—

(i) for reviewing and evaluating all applications for grants and cooperative agreements and bids for contracts that exceed $100,000; and

(ii) for evaluating and assessing the performance of all recipients of grants, cooperative agreements, and contracts.

(2) EVALUATION.—The Director, acting through the Research Commissioner, shall—

(A) develop the procedures to be used in evaluating applications for research grants, cooperative agreements, and contracts and specify the criteria and factors which shall be considered in making such evaluations; and

(B) evaluate the performance of each recipient of an award of a research grant, contract, or cooperative agreement at the conclusion of the award.

(c) LONG-TERM RESEARCH.—The Director, acting through the Research Commissioner, shall assure that not less than 50 percent of the funds made available for research for each fiscal year shall be used to fund long-term research programs of not less than 5 years, which support the priorities and mission of the Academy and the mission of the Research Center.

PART C—NATIONAL CENTER FOR EDUCATION STATISTICS

SEC. 151. ESTABLISHMENT.

(a) ESTABLISHMENT.—There is established in the Academy a National Center for Education Statistics (in this part referred to as the "Statistics Center").

(b) MISSION.—The mission of the Statistics Center shall be—

(1) to collect and analyze education information and statistics in a manner that meets the highest methodological standards;

(2) to report education information and statistics in a timely manner; and

(3) to collect, analyze, and report education information and statistics in a manner that—

(A) is objective, secular, neutral, and nonideological and is free of partisan political influence and racial, cultural, gender, or regional bias; and

(B) is relevant and useful to practitioners, researchers, policymakers, and the public.

SEC. 152. COMMISSIONER FOR EDUCATION STATISTICS.

The Statistics Center shall be headed by a Commissioner for Education Statistics (in this part referred to as the "Statistics Commissioner") who shall have substantial knowledge of statistical methodologies and activities undertaken by the Statistics Center.

SEC. 153. DUTIES.

(a) GENERAL DUTIES.—The Statistics Center shall collect, report, analyze, and disseminate statistical data related to education in the United States and in other nations, including—

(1) collecting, acquiring, compiling (where appropriate, on a State-by-State basis), and disseminating full and complete statistics on the condition and progress of education, at the preschool, elementary, secondary, postsecondary, and adult levels in the United States, including data on—

(A) student achievement in, at a minimum, the core academic areas of reading, mathematics, and science at all levels of education;

(B) secondary school completions, dropouts, and adult literacy and reading skills;

(C) educational access to, and opportunity for, postsecondary education, including data on financial aid to postsecondary students;

(D) teaching, including—

(i) data on in-service professional development, including a comparison of courses taken in the core academic areas of reading, mathematics, and science with courses in noncore academic areas; and

(ii) the percentage of teachers who are highly qualified (as such term is defined in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801)) in each State and, where feasible, in each local educational agency and school;

(E) instruction, the conditions of the education workplace, and the supply of, and demand for, teachers;

(F) the incidence, frequency, seriousness, and nature of violence affecting students, school personnel, and other individuals participating in school activities, as well as other indices of school safety, including information regarding—

(i) the relationship between victims and perpetrators;

(ii) demographic characteristics of the victims and perpetrators; and

(iii) the type of weapons used in incidents, as classified in the Uniform Crime Reports of the Federal Bureau of Investigation;

(G) the financing and management of education, including data on revenues and expenditures;

(H) the social and economic status of children, including their academic achievement;

(I) the existence and use of educational technology and access to the Internet in elementary schools and secondary schools;

(J) educational access to, and opportunity for, early childhood education; and

(K) the availability of, and access to, before-school and after-school programs (including such programs during school recesses);

(2) conducting and publishing reports on the meaning and significance of the statistics described in paragraph (1);

(3) collecting, analyzing, cross-tabulating, and reporting, to the extent feasible, information by gender, race, ethnicity, socioeconomic status, limited English proficiency, mobility, and disability, when such disaggregated information would facilitate educational and policy decisionmaking;

(4) assisting public and private educational agencies, organizations, and institutions in improving and automating statistical and data collection activities, which may include assisting State educational agencies and local educational agencies with the disaggregation of data;

(5) acquiring and disseminating data on educational activities and student achievement (such as the Third International Math and Science Study) in the United States compared with foreign nations; and

(6) conducting longitudinal and special data collections necessary to report on the condition and progress of education.

(b) TRAINING PROGRAM.—The Director, acting through the Statistics Commissioner, may establish a program to train employees of public and private educational agencies, organizations, and institutions in the use of standard statistical procedures and concepts and may establish a fellowship program to appoint such employees as temporary fellows at the Statistics Center in order to assist the Statistics Center in carrying out its duties.

SEC. 154. PERFORMANCE OF DUTIES.

(a) GRANTS, CONTRACTS, AND COOPERATIVE AGREEMENTS.—In carrying out the duties under this part, the Director, acting through the Statistics Commissioner, may award grants, enter into contracts and cooperative agreements, and provide technical assistance.

(b) GATHERING INFORMATION.—

(1) SAMPLING.—The Statistics Commissioner may use the statistical method known as sampling (including random sampling) to carry out this part.

(2) SOURCE OF INFORMATION.—The Statistics Commissioner may, as appropriate, use information collected—

(A) from States, local educational agencies, public and private schools, preschools, institutions of postsecondary education, vocational and adult education programs, libraries, administrators, teachers, students, the general public, and other individuals, organizations, agencies, and institutions (including information collected by States and local educational agencies for their own use); and

(B) by other offices within the Academy and by other Federal departments, agencies, and instrumentalities.

(3) COLLECTION.—The Director, acting through the Statistics Commissioner, may—

(A) enter into interagency agreements for the collection of statistics;

(B) arrange with any agency, organization, or institution for the collection of statistics; and

(C) assign employees of the Statistics Center to any such agency, organization, or institution to assist in such collection.

(4) TECHNICAL ASSISTANCE AND COORDINATION.—In order to maximize the effectiveness of Department efforts to serve the educational needs of children and youth, the Statistics Commissioner shall—

(A) provide technical assistance to the Department offices that gather data for statistical purposes; and

(B) coordinate with other Department offices in the collection of data.

SEC. 155. REPORTS.

(a) PROCEDURES FOR ISSUANCE OF REPORTS.—The Director, acting through the

Statistics Commissioner, shall establish procedures, in accordance with section 187, to ensure that the reports issued under this section are relevant, of high quality, useful to customers, subject to rigorous peer review, produced in a timely fashion, and free from any partisan political influence.

(b) REPORT ON CONDITION AND PROGRESS OF EDUCATION.—Not later than June 1, 2002, and each succeeding June 1 thereafter, the Director, acting through the Statistics Commissioner, shall submit to the President and the appropriate congressional committees a statistical report on the condition and progress of education in the United States.

(c) STATISTICAL REPORTS.—The Director, acting through the Statistics Commissioner, shall issue regular and, as necessary, special statistical reports on education topics, particularly in the core academic areas of reading, mathematics, and science, consistent with the priorities and mission of the Academy and the mission of the Statistics Center.

SEC. 156. DISSEMINATION.

(a) GENERAL REQUESTS.—

(1) IN GENERAL.—The Statistics Center may furnish transcripts or copies of tables and other statistical records and make special statistical compilations and surveys for State and local officials, public and private organizations, and individuals.

(2) COMPILATIONS.—The Statistics Center shall provide State and local educational agencies opportunities to suggest the development of particular compilations of statistics, surveys, and analyses that would assist those educational agencies.

(b) CONGRESSIONAL REQUESTS.—The Statistics Center shall furnish such special statistical compilations and surveys as the relevant congressional committees may request.

(c) JOINT STATISTICAL PROJECTS.—The Statistics Center may engage in joint statistical projects related to the mission of the Center, or other statistical purposes authorized by law, with nonprofit organizations or agencies, and the cost of such projects shall be shared equitably.

(d) FEES.—

(1) IN GENERAL.—Statistical compilations and surveys under this section, other than those carried out pursuant to subsections (b) and (c), may be made subject to the payment of the actual or estimated cost of such work.

(2) FUNDS RECEIVED.—All funds received in payment for work or services described in this subsection may be used to pay directly the costs of such work or services, to repay appropriations that initially bore all or part of such costs, or to refund excess sums when necessary.

(e) ACCESS.—

(1) OTHER AGENCIES.—The Statistics Center shall, consistent with section 184, cooperate with other Federal agencies having a need for educational data in providing access to educational data received by the Statistics Center.

(2) INTERESTED PARTIES.—The Statistics Center shall, in accordance with such terms and conditions as the Center may prescribe, provide all interested parties, including public and private agencies, parents, and other individuals, direct access, in the most appropriate form (including, where possible, electronically), to data collected by the Statistics Center for the purposes of research and acquiring statistical information.

SEC. 157. COOPERATIVE EDUCATION STATISTICS SYSTEMS.

The Statistics Center may establish one or more national cooperative education statistics systems for the purpose of producing and maintaining, with the cooperation of the States, comparable and uniform information and data on early childhood education, elementary and secondary education, postsecondary education, adult education, and libraries, that are useful for policymaking at the Federal, State, and local levels.

SEC. 158. STATE DEFINED.

In this part, the term "State" means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

PART D—NATIONAL CENTER FOR EDUCATION EVALUATION

SEC. 171. ESTABLISHMENT.

(a) ESTABLISHMENT.—There is established in the Academy a National Center for Education Evaluation (in this part referred to as the "Evaluation Center").

(b) MISSION.—The mission of the Evaluation Center shall be to conduct evaluations of Federal education programs administered by the Secretary (and as time and resources allow, other education programs) to determine the impact of such programs (especially on student academic achievement in the core academic areas of reading, mathematics, and science), to support synthesis and dissemination of results of evaluation research, and to encourage the use of scientifically valid education evaluation throughout the United States.

SEC. 172. COMMISSIONER FOR EDUCATION EVALUATION.

(a) IN GENERAL.—The Evaluation Center shall be headed by a Commissioner for Education Evaluation (in this part referred to as the "Evaluation Commissioner") who—

(1) shall possess a demonstrated capacity for sustained productivity and leadership in education evaluation, and be technically competent in conducting scientifically valid education evaluations; and

(2) shall oversee all evaluation activities of the Evaluation Center, the development of evaluation methodology, the reporting of findings of evaluations to the public and appropriate congressional committees, and other duties essential to carrying out the mission of the Evaluation Center.

(b) GRANTS, CONTRACTS, AND COOPERATIVE AGREEMENTS.—In carrying out the duties under this part, the Director, acting through the Evaluation Commissioner, may award grants, enter into contracts and cooperative agreements, and provide technical assistance.

SEC. 173. DUTIES.

(a) GENERAL DUTIES.—

(1) IN GENERAL.—The Evaluation Center shall—

(A) conduct or support evaluations consistent with the Evaluation Center's mission as described in section 171(b);

(B) evaluate programs under title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.);

(C) coordinate the activities of the Evaluation Center with other evaluation activities in the Department; and

(D) review and, where feasible, supplement Federal education program evaluations, particularly those by the Department, to determine or enhance the quality and relevance of the evidence generated by those evaluations.

(2) ADDITIONAL REQUIREMENTS.—Each evaluation conducted by the Evaluation Center pursuant to paragraph (1) shall adhere to the highest possible standards of quality for conducting scientifically valid education evaluation.

(3) REPORT.—The Director, acting through the Evaluation Commissioner, shall submit to the President and the appropriate congressional committees a report on the Evaluation Center's evaluation activities on a biennial basis.

(b) ADMINISTRATION OF EVALUATIONS UNDER TITLE I OF THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965.—The Director, acting through the Evaluation Commissioner, consistent with the mission of the Evaluation Center under section 171(b), shall administer all operations and contracts associated with evaluations authorized by part E of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6491 et seq.) and administered by the Department as of the date of enactment of this Act.

PART E—GENERAL PROVISIONS

SEC. 181. DEFINITIONS.

In this title:

(1) The terms "elementary school", "secondary school", "local educational agency", and "State educational agency" have the meanings given those terms in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801) and the terms "freely associated states" and "outlying area" have the meanings given those terms in section 1121(c) of such Act (20 U.S.C. 6331(c)).

(2) The term "Academy" means the Academy of Education Sciences established under section 111.

(3) The term "applied research" means research—

(A) to gain knowledge or understanding necessary for determining the means by which a recognized and specific need may be met; and

(B) that is specifically directed to the advancement of practice in the field of education.

(4) The term "basic research" means research—

(A) to gain fundamental knowledge or understanding of phenomena and observable facts, without specific application toward processes or products; and

(B) for the advancement of knowledge in the field of education.

(5) The term "Board" means the National Board for Education Sciences established under section 117.

(6) The term "Department" means the Department of Education.

(7) The term "development" means the systematic use of knowledge or understanding gained from the findings of scientifically valid research that may prove useful in areas (such as the preparation of materials and new methods of instruction and practices in teaching), that may lead to the improvement of the academic skills of students, and that are replicable in different educational settings.

(8) The term "Director" means the Director of the Academy of Education Sciences.

(9) The term "dissemination" means the communication and transfer of the results of scientifically valid research, statistics, and evaluations, in forms that are understandable, easily accessible, and usable, or adaptable for use in, the improvement of educational practice by teachers, administrators, librarians, other practitioners, researchers, policymakers, and the public, through the provision of technical assistance, electronic transfer, and other means.

(10) The term "field-initiated research" means basic research or applied research in which specific questions and methods of study are generated by investigators (including teachers and other practitioners) and that conforms to standards of scientifically valid research.

(11) The term "institution of higher education" has the meaning given that term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(12) The term "national research and development center" means a research and development center under section 931(c)(1)(B) of the Education Research, Development, Dissemination, and Improvement Act of 1994 (20 U.S.C. 6031(c)(1)(B)) (as such provision existed on the day before the date of enactment of this Act).

(13)(A) The term "scientifically based research standards" means research standards that—

(i) apply rigorous, systematic, and objective methodology to obtain reliable and valid knowledge relevant to education activities and programs; and

(ii) present findings and make claims that are appropriate to and supported by the methods that have been employed.

(B) The term includes, appropriate to the research being conducted—

(i) employing systematic, empirical methods that draw on observation or experiment;

(ii) involving data analyses that are adequate to support the general findings;

(iii) relying on measurements or observational methods that provide reliable data;

(iv) making claims of causal relationships only in random assignment experiments or other designs (to the extent such designs substantially eliminate plausible competing explanations for the obtained results);

(v) ensuring that studies and methods are presented in sufficient detail and clarity to allow for replication or, at a minimum, to offer the opportunity to build systematically on the findings of the research;

(vi) obtaining acceptance by a peer-reviewed journal or approval by a panel of independent experts through a comparably rigorous, objective, and scientific review; and

(vii) using research designs and methods appropriate to the research question posed.

(14) The term "scientifically valid education evaluation" means an evaluation that—

(A) adheres to the highest possible standards of quality with respect to research design and statistical analysis;

(B) provides an adequate description of the programs evaluated and, to the extent possible, examines the relationship between program implementation and program impacts;

(C) provides an analysis of the results achieved by the program with respect to its projected effects;

(D) employs experimental designs using random assignment, when feasible, and other research methodologies that allow for the strongest possible causal inferences when random assignment is not feasible; and

(E) may study program implementation through a combination of scientifically valid and reliable methods.

(15) The term "scientifically valid research" includes applied research, basic research, and field-initiated research in which the rationale, design, and interpretation are soundly developed in accordance with scientifically based research standards.

(16) The term "Secretary" means the Secretary of Education.

(17) The term "State" includes (except as provided in section 158 and in the National Assessment of Educational Progress Authorization Act) each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the freely associated states, and the outlying areas.

(18) The term "technical assistance" means—

(A) assistance in identifying, selecting, or designing solutions (including professional development and training to implement such solutions) leading to—

(i) improved educational practices and classroom instruction based on scientifically valid research; and

(ii) improved planning, design, and administration of programs;

(B) assistance in interpreting, analyzing, and utilizing statistics and evaluations; and

(C) other assistance necessary to encourage the adoption or application of scientifically valid research.

SEC. 182. INTERAGENCY DATA SOURCES AND FORMATS.

The Secretary, in consultation with the Director, shall ensure that the Department and the Academy use common sources of data in standardized formats.

SEC. 183. PROHIBITIONS.

(a) NATIONAL DATABASE.—Nothing in this title may be construed to authorize the development of a nationwide database of individually identifiable information on individuals involved in studies or other collections of data under this title.

(b) FEDERAL GOVERNMENT AND USE OF FEDERAL FUNDS.—Nothing in this title may be construed to authorize an officer or employee of the Federal Government to mandate, direct, or control the curriculum, program of instruction, or allocation of State or local resources of a State, local educational agency, or school, or to mandate a State, or any subdivision thereof, to spend any funds or incur any costs not provided for under this title.

(c) ENDORSEMENT OF CURRICULUM.—Notwithstanding any other provision of Federal law, no funds provided under this title to the Academy, including any office, board, committee, or center of the Academy, may be used by the Academy to endorse, approve, or sanction any curriculum designed to be used in an elementary school or secondary school.

(d) FEDERALLY SPONSORED TESTING.—

(1) IN GENERAL.—Subject to paragraph (2), no funds provided under this title to the Secretary or to the recipient of any award may be used to develop, pilot test, field test, implement, administer, or distribute any federally sponsored national test in reading, mathematics, or any other subject, unless specifically and explicitly authorized by law.

(2) EXCEPTIONS.—Subsection (a) shall not apply to international comparative assessments developed under the authority of section 153(a)(5) of this title or section 404(a)(6) of the National Education Statistics Act of 1994 (20 U.S.C. 9003(a)(6)) (as such section existed on the day before the date of enactment of this Act) and administered to only a representative sample of pupils in the United States and in foreign nations.

SEC. 184. CONFIDENTIALITY.

(a) IN GENERAL.—All collection, maintenance, use, and dissemination of data by the Academy, including each office, board, committee, and center of the Academy, shall conform with the requirements of section 552a of title 5, United States Code, the confidentiality standards of subsection (c) of this section, and sections 444 and 445 of the General Education Provisions Act (20 U.S.C. 1232g, 1232h).

(b) STUDENT INFORMATION.—The Director shall ensure that all individually identifiable information about students, their academic achievements, and their families, and information with respect to individual schools, remains confidential in accordance with section 552a of title 5, United States Code, subsection (c) of this section, and sections 444 and 445 of the General Education Provisions Act (20 U.S.C. 1232g, 1232h).

SEC. 185. AVAILABILITY OF DATA.

Subject to section 184, data collected by the Academy, including any office, board, committee, or center of the Academy, in carrying out the priorities and mission of the Academy, shall be made available to the public, including through use of the Internet.

SEC. 186. PERFORMANCE MANAGEMENT.

The Director shall ensure that all activities conducted or supported by the Academy or a National Education Center make customer service a priority. The Director shall ensure a high level of customer satisfaction through the following methods:

(1) Establishing and improving feedback mechanisms in order to anticipate customer needs.

(2) Disseminating information in a timely fashion and in formats that are easily accessible and usable by researchers, practitioners, and the general public.

(3) Utilizing the most modern technology and other methods available, including arrangements to use data collected electronically by States and local educational agencies, to ensure the efficient collection and timely distribution of information, including data and reports.

(4) Establishing and measuring performance against a set of indicators for the quality of data collected, analyzed, and reported.

(5) Continuously improving management strategies and practices.

(6) Making information available to the public in an expeditious fashion.

SEC. 187. AUTHORITY TO PUBLISH.

(a) PUBLICATION.—The Director may prepare and publish (including through oral presentation) such research, statistics, and evaluation information and reports from any office, board, committee, and center of the Academy as needed to carry out the priorities and mission of the Academy.

(b) PEER REVIEW.—All research, statistics, and evaluation reports conducted by, or supported through, the Academy shall be subjected to rigorous peer review before being published or otherwise made available to the public.

(c) ADVANCE COPIES.—The Director shall provide the Secretary an advance copy of any information to be published under this section at least 30 days before publication.

(d) ITEMS NOT COVERED.—Nothing in subsection (a) or (b) shall be construed to apply to—

(1) information on current or proposed budgets, appropriations, or legislation;

(2) information prohibited from disclosure by law or the Constitution, classified national security information, or information described in section 552(b) of title 5, United States Code; and

(3) review by officers of the United States in order to prevent the unauthorized disclosure of information described in paragraph (1) or (2).

SEC. 188. VACANCIES.

Any member appointed to fill a vacancy on the Board occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of that term. A vacancy in an office, board, committee, or center of the Academy shall be filled in the manner in which the original appointment was made. This section does not apply to employees appointed under section 189.

SEC. 189. SCIENTIFIC OR TECHNICAL EMPLOYEES.

(a) APPOINTMENT AND PAY.—The Director may appoint for limited periods of time and fix the pay of certain scientific or technical employees to carry out the functions of the Academy or the office, board, committee, or center, respectively, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, provided that—

(1) at least 30 days before the appointment of any employee under this subsection, the Director shall give public notice of the availability of such position and shall provide an opportunity for qualified individuals to apply and compete for the position; and

(2) the Director may not appoint an employee under this subsection unless the employee is necessary to provide the Academy with scientific or technical expertise that could not otherwise be obtained by the Academy through the competitive service and such necessity can be justified in a clear and convincing fashion.

(b) Maximum Number.—Employees appointed under this section and employed at the Academy at any particular time shall not exceed the greater of 20 percent of the total employees of the Academy or a total of 60 individuals.

(c) Maximum Pay Rate.—An employee appointed under this section may not be paid at a rate that exceeds the rate of basic pay for level V of the Executive Schedule, except that not more than 10 individuals appointed under this section may be paid at a rate that does not exceed the rate of basic pay for level IV of the Executive Schedule.

(d) Duration.—An employee appointed under this section may not serve longer than 6 years.

SEC. 190. VOLUNTARY SERVICE.

The Secretary, acting through the Director, may accept voluntary and uncompensated services to carry out and support activities that are consistent with the priorities and mission of the Academy.

SEC. 191. FELLOWSHIPS.

In order to strengthen the national capacity to carry out high-quality research, evaluation, and statistics related to education, the Director shall establish and maintain research, evaluation, and statistics fellowships in the Academy and institutions of higher education (which may include the establishment of such fellowships in historically Black colleges and universities and other institutions of higher education with large numbers of minority students) that support graduate and postdoctoral study, particularly for women and minorities, with such stipends and allowances (including travel and subsistence expenses) as the Director may determine necessary to obtain the assistance of highly qualified research, evaluation, and statistics fellows.

SEC. 192. RULEMAKING.

Notwithstanding section 437(d) of the General Education Provisions Act (20 U.S.C. 1232(d)), the exemption for public property, loans, grants, and benefits in section 553(a)(2) of title 5, United States Code, shall apply to the Academy.

SEC. 193. AUTHORIZATION OF APPROPRIATIONS.

(a) In General.—There are authorized to be appropriated to administer and carry out this title $400,000,000 for fiscal year 2003 and such sums as may be necessary for each of the 5 succeeding fiscal years, of which—

(1) no less than the amount provided to the National Center for Education Statistics (as such Center was in existence on the day before the date of enactment of this Act) for fiscal year 2002 shall be provided to the National Center for Education Statistics, as authorized under part C; and

(2) the lesser of 2 percent of such funds or $1,000,000 shall be made available to carry out section 117 (relating to the National Board for Education Sciences).

(b) Availability.—Amounts made available under this section shall remain available until expended.

TITLE II—REGIONAL EDUCATIONAL APPLIED RESEARCH AND TECHNICAL ASSISTANCE

SEC. 201. SHORT TITLE.

This title may be cited as the "Regional Assistance Act of 2002".

SEC. 202. TABLE OF CONTENTS.

The table of contents for this title is as follows:

Sec. 201. Short title.
Sec. 202. Table of contents.
Sec. 203. Regional educational applied research and technical assistance entities.
Sec. 204. Regional advisory committees.
Sec. 205. Priorities and evaluations.
Sec. 206. Authorization of appropriations.
Sec. 207. General provisions.

SEC. 203. REGIONAL EDUCATIONAL APPLIED RESEARCH AND TECHNICAL ASSISTANCE ENTITIES.

(a) Establishment.—

(1) In general.—The Secretary shall support, through competitive contracts, a system of regional educational applied research and technical assistance entities (in this title referred to as "regional entities") to provide applied research, dissemination, training, technical assistance, and development activities related to the administration and implementation of Federal education programs and other regional education needs to States, local educational agencies, schools, Indian tribes, community-based organizations, and other appropriate entities.

(2) Regions.—In establishing geographical regions to be served by the regional entities, the Secretary shall serve the same geographical regions as served by the regional educational laboratories established under section 941(h) of the Educational Research, Development, Dissemination, and Improvement Act of 1994 (as such provision existed on the day before the date of enactment of this Act).

(3) Allocation.—From the funds appropriated under section 206, the Secretary shall allocate for each region for each fiscal year an amount of funds that is comparable in proportion to the amount of funds awarded to serve the needs of that region under prior regional assistance programs under section 3141 and parts A and C of title XIII of the Elementary and Secondary Education Act of 1965 (as such provisions existed on the day before the date of enactment of the No Child Left Behind Act of 2001 (Public Law 107–110)) and section 941(h) of the Educational Research, Development, Dissemination, and Improvement Act of 1994 (as such Act existed on the day before the date of enactment of this Act).

(b) Activities of the Regional Entities.—

(1) Regional support activities.—The system of regional entities, established under subsection (a)(1), shall support applied research, development, dissemination, and technical assistance activities by—

(A) providing training and technical assistance regarding, at a minimum—

(i) the administration and implementation of programs under the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.);

(ii) scientifically valid research in education on teaching methods and assessment tools for use by teachers and administrators in, at a minimum—

(I) the core academic areas of mathematics, science, and reading; and

(II) education technology; and

(iii) the facilitation of communication between education experts, school officials, teachers, parents, and librarians, as appropriate;

(B) disseminating and providing scientifically valid research, information, reports, and publications that are usable for improving academic achievement, narrowing achievement gaps, and encouraging and sustaining school improvement, to—

(i) schools, educators, parents, and policymakers within the applicable region in which the entity is located; and

(ii) the Office of Educational Resources and Dissemination;

(C) carrying out applied research projects that are designed to serve the particular educational needs of the region, that reflect findings from scientifically valid research, and that result in user-friendly, replicable classroom applications geared toward promoting increased student achievement; and

(D) supporting development activities and contributing to the current base of education knowledge by addressing enduring problems in elementary and secondary education.

(2) Coordination and collaboration.—Each regional entity shall coordinate its activities, collaborate, and regularly exchange information with the Secretary, the Director of the Academy of Education Sciences, the Office of Educational Resources and Dissemination of the Academy, and other appropriate entities (including educational service agencies, as defined in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801)).

(3) Allocation of resources.—Each regional entity shall direct its resources under this title to, and within, each State in a manner that reflects the need for assistance, taking into account factors such as the proportion of economically disadvantaged students and the cost burden in areas of sparse populations, and giving priority to—

(A) schools with high percentages or numbers of students from low-income families, as determined under section 1113(a)(5) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6313(a)(5)), including such schools in rural and urban areas, and schools participating in schoolwide programs under title I of that Act (20 U.S.C. 6301 et seq.);

(B) local educational agencies in which high percentages or numbers of school-age children are from low-income families, as determined under section 1124(c)(1)(A) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6333(c)(1)(A)), including such local educational agencies in rural and urban areas; and

(C) schools that have been identified for school improvement under section 1116 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6316).

(4) Report to secretary.—Each regional entity shall submit to the Secretary an annual report, at such time, in such manner, and containing such information as the Secretary may require, which shall include the following:

(i) The information described in paragraph (5)(E).

(ii) A summary of the entity's activities during the preceding year.

(iii) A listing of the States, local educational agencies, and schools the entity assisted during the preceding year.

(5) REGIONAL CONTRACT BOARDS.—

(A) ESTABLISHMENT.—Not later than 120 days after entering into a contract under this section, a regional entity shall establish a regional contract board.

(B) COMPOSITION.—

(i) IN GENERAL.—The regional contract board shall be composed of—

(I) the chief State school officers (or other State officials in each State served by the regional entity who have primary responsibility under State law for elementary and secondary education in the State), or their designees, in the region served by the regional entity; and

(II) not more than 15 other members who are representative of the educational interests in the region served by the regional entity and are selected jointly by the officials specified in subclause (I) and the Governors of each State within the region, including the following:

(aa) Representatives of local educational agencies, including representatives of local educational agencies serving urban and rural areas.

(bb) Representatives of institutions of higher education.

(cc) Parents.

(dd) Practicing educators, including classroom teachers, principals, and administrators.

(ee) Representatives of business.

(ff) Policymakers, expert practitioners, and researchers with knowledge of, and experience using, the results of research, evaluation, and statistics.

(ii) SPECIAL RULE.—In the case of a State in which the Governor has the primary responsibility under State law for elementary and secondary education in the State, the Governor shall consult with the State educational agency in selecting additional members of the regional contract board under clause (i)(II).

(C) DUTIES.—The regional contract board shall—

(i) oversee, guide, and direct the regional entity's performance of its contract awarded under this section, subject to the Secretary's ultimate authority to enforce the contract;

(ii) ensure that the activities of the regional entity under this section monitor and address the educational needs of the region, on an ongoing basis;

(iii) ensure that the regional entity attains and maintains a high standard of quality in the performance of its activities, consistent with the standards established under section 205(b); and

(iv) ensure that the regional entity carries out its duties in a manner that promotes progress toward reforming schools and educational systems.

(D) ACCEPTANCE OF OTHER ASSISTANCE.—Each regional contract board may accept gifts, in-kind contributions, services, or other assistance to facilitate its activities.

(E) BOARD REPORT.—The regional contract board shall submit to the regional entity, for inclusion in the entity's annual report under paragraph (4), the following:

(i) A summary of the board's activities during the preceding year.

(ii) A description of how well the regional entity is meeting the educational needs of the region.

(iii) Any other information the Secretary may require.

(c) APPLICATION.—

(1) SUBMISSION.—Each regional entity seeking a contract under this section shall submit an application at such time, in such manner, and containing such additional information as the Secretary may reasonably require.

(2) PLAN.—Each application submitted under paragraph (1) shall contain a 5-year plan for carrying out the activities described in subsection (b) in a manner that addresses the priorities established under section 205(a) and addresses the needs of all States (and to the extent practicable, of local educational agencies) within the region, on an ongoing basis.

(3) ELIGIBLE APPLICANTS.—Contracts under this section may be made with private or public, for-profit or nonprofit research organizations, institutions, agencies, institutions of higher education, or partnerships among such entities, or individuals, with the demonstrated ability or capacity to carry out the activities described in subsection (b), which may include regional entities that carried out activities under the Educational Research, Development, Dissemination, and Improvement Act of 1994 (as such Act existed on the day before the date of enactment of this Act) and title XIII of the Elementary and Secondary Education Act of 1965 (as such title existed on the day before the date of enactment of the No Child Left Behind Act of 2001 (Public Law 107-110)).

(4) OUTREACH.—In conducting competitions for contracts under this section, the Secretary shall—

(A) actively encourage potential applicants to compete for such awards by making widely available information and technical assistance relating to the competition; and

(B) seek input from Governors, chief State school officers, educators, and parents regarding the need for applied research, dissemination, training, technical assistance, and development activities authorized by this title in the regions to be served and how those educational needs would be addressed most effectively.

(5) OBJECTIVES AND INDICATORS.—Before entering into a contract under this section, the Secretary shall design specific objectives and measurable indicators, using the results of the survey conducted under section 204(d), to be used to assess the particular programs or initiatives, and ongoing progress and performance, of the regional entities, in order to ensure that the educational needs of the region are being met and that the latest and best research and proven practices are being carried out as part of school improvement efforts.

(d) AUTHORITY.—

(1) IN GENERAL.—To carry out the activities described in subsection (b), the Secretary shall—

(A)(i) enter into contracts for a 5-year period with at least two regional entities for each region described in subsection (a)(2), of which at least one shall be a nonprofit entity;

(ii) ensure that the primary duties of at least one regional entity shall include activities described in subsection (b)(1)(A); and

(iii) ensure that the primary duties of at least one regional entity shall include activities described in subsections (b)(1)(C) and (b)(1)(D); and

(B) ensure that the regional entities have strong and effective governance, organization, management, and administration, and employ qualified staff.

(2) COORDINATION.—In order to ensure coordination and prevent unnecessary duplication of activities among the regions, the Secretary shall—

(A) share information about the activities of each regional entity with each other regional entity and with the Department, including the Director of the Academy of Education Sciences and the National Board for Education Sciences;

(B) create a strategic plan for ensuring that each regional entity increases collaboration and resource-sharing in such activities;

(C) where appropriate, ensure that the activities of each regional entity also serve national interests; and

(D) ensure that each of the regional entities funded under this title coordinates its activities with the activities of the other regional entities.

(e) CONTINUATION.—In order to carry out this title and facilitate the transition to regional entities, the Secretary—

(1) shall continue the existing awards of the regional educational laboratories established under section 941(h) of the Educational Research, Development, Dissemination, and Improvement Act of 1994 (as such provision existed on the day before the date of enactment of this Act), the Eisenhower Regional Mathematics and Science Education Consortia established under part M of such Act (as such part existed on the day before the date of enactment of this Act), and the Regional Technology in Education Consortia under section 3141 of the Elementary and Secondary Education Act of 1965 (as such section existed on the day before the date of enactment of the No Child Left Behind Act of 2001 (Public Law 107-110)), for the duration of those existing awards in accordance with the terms and agreements of such awards; and

(2) may extend for no more than 2 years the awards of the Comprehensive Regional Assistance Centers established under part K of the Educational Research, Development, Dissemination, and Improvement Act of 1994 (as such part existed on the day before the date of enactment of this Act).

SEC. 204. REGIONAL ADVISORY COMMITTEES.

(a) ESTABLISHMENT.—The Secretary shall establish a regional advisory committee for each region described in section 203(a)(2).

(b) MEMBERSHIP.—

(1) COMPOSITION.—The membership of each regional advisory committee shall—

(A) not exceed 25 members;

(B) contain a balanced representation of States in the region; and

(C) include not more than one representative of each State educational agency geographically located in the region.

(2) ELIGIBILITY.—The membership of each regional advisory committee may include the following:

(A) Representatives of local educational agencies, including rural and urban local educational agencies.

(B) Representatives of institutions of higher education, including individuals representing university-based education research and university-based research on subjects other than education.

(C) Parents.

(D) Practicing educators, including classroom teachers, principals, administrators, school board members, and other local school officials.

(E) Representatives of business.

(F) Researchers.

(3) RECOMMENDATIONS.—In choosing individuals for membership on a regional advisory committee, the Secretary shall consult with, and solicit recommendations from, the Governors, chief State school officers, and education stakeholders within the applicable region.

(4) SPECIAL RULE.—The total number of members on each committee who are selected under subparagraphs (A), (C), and (D) of paragraph (2), collectively, shall exceed the total number of members who are selected under paragraph (1)(C) and subparagraphs (B), (E), and (F) of paragraph (2), collectively.

(c) DUTIES.—Each regional advisory committee shall advise the Secretary on the following:

(1) The educational needs of its region (using the results of the survey conducted under subsection (d)), in order to assist in making decisions regarding the priorities established under section 205(a) and the priorities established under section 116 of the Education Sciences Reform Act of 2002.

(2) The quality of the applications submitted under section 203(c).

(3) The quality of the regional entity's performance of its contract.

(d) REGIONAL SURVEYS.—Each regional advisory committee shall—

(1) conduct a survey of the educational needs, strengths, and weaknesses within the region to be served;

(2) in conducting the survey under paragraph (1), seek input from Governors, chief State school officers, educators, and parents (including through a process of open hearings to solicit the views and needs of schools (including public charter schools), teachers, administrators, parents, local educational agencies, librarians, businesses, State educational agencies, and other customers (such as adult education programs) within the region) regarding the need for the activities described in section 203(b)(1) and how those needs would be most effectively addressed; and

(3) submit the survey to the Secretary and to the Director of the Academy of Education Sciences, at such time, in such manner, and containing such information as the Secretary may require.

SEC. 205. PRIORITIES AND EVALUATIONS.

(a) PRIORITIES.—The Secretary may establish priorities for the regional entities to address. The priorities shall directly correspond with the educational needs of the region, using the regional survey conducted under section 204(d).

(b) STANDARDS.—The Secretary shall establish standards, consistent with those established under section 135(a) of the Education Sciences Reform Act of 2001, for the conduct of research and development and the dissemination of scientifically based research by the regional entities.

(c) EVALUATIONS.—The Secretary shall provide for ongoing independent evaluations of the regional entities receiving contracts under this title, the results of which shall be transmitted to the appropriate congressional committees and the Director of the Academy of Education Sciences. Such evaluations shall include an analysis of the services provided under this title, the extent to which each of the regional entities meets the objectives of its respective plan (as submitted in its application under section 203(c)(2)), and whether such services meet the educational needs of State educational agencies and local educational agencies and schools in the region.

SEC. 206. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to carry out this title $189,000,000 for fiscal year 2003 and such sums as may be necessary for each of the 5 succeeding fiscal years.

(b) LIMITATION.—Not more than 5 percent of the funds appropriated under subsection (a) for a fiscal year may be used to establish and administer the regional advisory committees required under section 204 and to conduct the evaluations required under section 205(c).

SEC. 207. GENERAL PROVISIONS.

Part E of the Education Sciences Reform Act of 2002 applies to this title, as appropriate, except that any duty of the Director of the Academy of Education Sciences under that part shall be a duty of Secretary under this title.

TITLE III—NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS

SEC. 301. SHORT TITLE.

This title may be referred to as the "National Assessment of Educational Progress Authorization Act".

SEC. 302. DEFINITIONS.

In this title:

(1) The term "Director" means the Director of the Academy of Education Sciences.

(2) The term "State" means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

SEC. 303. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated—

(1) for fiscal year 2003—

(A) $4,600,000 to carry out section 302 (relating to the National Assessment Governing Board); and

(B) $107,500,000 to carry out section 303 (relating to the National Assessment of Educational Progress); and

(2) such sums as may be necessary for each of the 5 succeeding fiscal years to carry out sections 302 and 303.

(b) AVAILABILITY.—Amounts made available under this section shall remain available until expended.

TITLE IV—AMENDATORY PROVISIONS

SEC. 401. REDESIGNATIONS.

(a) CONFIDENTIALITY.—Section 408 of the National Education Statistics Act of 1994 (20 U.S.C. 9007) is amended—

(1) by striking "center", "Center", and "Commissioner" each place any such term appears and inserting "Director";

(2) in subsection (a)(2)(A), by striking "statistical purpose" and inserting "research, statistics, or evaluation purpose under this title";

(3) so that paragraph (1) of subsection (b) reads as follows:

"(1) IN GENERAL.—

"(A) DISCLOSURE.—No Federal department, bureau, agency, officer, or employee and no recipient of a Federal grant, contract, or cooperative agreement may, for any reason, require the Director, any Commissioner of a National Education Center, or any other employee of the Academy to disclose individually identifiable information that has been collected or retained under this title.

"(B) IMMUNITY.—Individually identifiable information collected or retained under this title shall be immune from legal process and shall not, without the consent of the individual concerned, be admitted as evidence or used for any purpose in any action, suit, or other judicial or administrative proceeding.

"(C) APPLICATION.—This paragraph does not apply to requests for individually identifiable information submitted by or on behalf of the individual identified in the information.";

(4) in paragraphs (2) and (6) of subsection (b), by striking "subsection (a)(2)" each place such term appears and inserting "subsection (c)(2)";

(5) in paragraphs (3) and (7) of subsection (b), by striking "Center's" each place such term appears and inserting "Director's"; and

(6) by striking the section heading and transferring all the subsections (including subsections (a) through (c)) and redesignating such subsections as subsections (c) through (e), respectively, at the end of section 184 of this Act.

(b) CONFORMING AMENDMENT.—Sections 302 and 303 of this Act are redesignated as sections 304 and 305, respectively.

(c) NATIONAL ASSESSMENT GOVERNING BOARD.—Section 412 of the National Education Statistics Act of 1994 (20 U.S.C. 9011) is amended—

(1) in subsection (a), by striking "referred to as the 'Board'" and inserting "referred to as the 'Assessment Board'";

(2) by striking "Board" each place such term appears (other than in subsection (a)) and inserting "Assessment Board";

(3) by striking "Commissioner" each place such term appears and inserting "Commissioner for Education Statistics";

(4) in subsection (a) by inserting "(carried out under section 303)" after "for the National Assessment";

(5) in subsection (b)(2)—

(A) by striking "ASSISTANT SECRETARY FOR EDUCATIONAL RESEARCH" in the heading and inserting "DIRECTOR OF THE ACADEMY OF EDUCATION SCIENCES"; and

(B) by striking "Assistant Secretary for Educational Research and Improvement" and inserting "Director of the Academy of Education Sciences";

(6) in subsection (e)(1)(A), by striking "section 411(b)" and inserting "section 303(b)";

(7) in subsection (e)(1)(B), by striking "section 411(e)" and inserting "section 303(e)";

(8) in subsection (e)(1)(E), by striking ", including the Advisory Council established under section 407";

(9) in subsections (e)(1)(F) and (e)(1)(I), by striking "section 411" each place such term appears and inserting "section 303";

(10) in subsection (e)(5), by striking "and the Advisory Council on Education Statistics";

(11) in subsection (e)(6), by striking "section 411(e)" and inserting "section 303(e)"; and

(12) by transferring and redesignating the section as section 302 (following section 301) of title III of this Act.

(d) NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS.—Section 411 of the National Education Statistics Act of 1994 (20 U.S.C. 9010) is amended—

(1) by striking "Commissioner" each place such term appears and inserting "Commissioner for Education Statistics";

(2) by striking "National Assessment Governing Board" and "National Board" each place either such term appears and inserting "Assessment Board";

(3) in subsection (a)—

(A) by striking "section 412" and inserting "section 302";

(B) by striking "and with the technical assistance of the Advisory Council established under section 407,"; and

(C) by inserting "(awarded by the Director, acting through the Commissioner for Education Statistics)" after "cooperative agreements";

(4) in subsection (b)(1), by inserting "of" after "academic achievement and reporting";

(5) in subsection (b)(3)(A)—

(A) in clause (i), by striking "paragraphs (1)(B) and (1)(E)" and inserting "paragraphs (2)(B) and (2)(E)";

(B) in clause (ii), by striking "paragraph (1)(C)" and inserting "paragraph (2)(C)"; and

(C) in clause (iii), by striking "paragraph (1)(D)" and inserting "paragraph (2)(D)";

(6) in subsection (b)(5), by striking "(c)(2)" and inserting "(c)(3)";

(7) in subsection (c)(2)(D), by striking "subparagraph (B)" and inserting "subparagraph (C)";

(8) in subsection (e)(4), by striking "subparagraph (2)(C)" and inserting "paragraph (2)(C) of such subsection";

(9) in subsection (f)(1)(B)(iv), by striking "section 412(e)(4)" and inserting "section 302(e)(4)"; and

(10) by transferring and redesignating the section as section 303 (following section 302) of title III of this Act.

SEC. 402. AMENDMENTS TO DEPARTMENT OF EDUCATION ORGANIZATION ACT.

The Department of Education Organization Act (20 U.S.C. 3401 et seq.) is amended as follows:

(1) Paragraph (4) of section 202(b) (20 U.S.C. 3412(b)) is amended to read as follows:

"(4) There shall be in the Department a Director of the Academy of Education Sciences who shall be appointed in accordance with section 115(a) of the Education Sciences Reform Act of 2002 and perform the duties described in that Act.".

(2) Section 208 (20 U.S.C. 3419) is amended to read as follows:

"ACADEMY OF EDUCATION SCIENCES

"SEC. 208. There shall be in the Department of Education an Academy of Education Sciences, which shall be administered in accordance with the Education Sciences Reform Act of 2002 by the Director appointed under section 115(a) of that Act.".

(3) In the table of contents in section 1 (20 U.S.C. 3401 note), the item relating to section 208 is amended to read as follows:

"Sec. 208. Academy of Education Sciences.".

SEC. 403. REPEALS.

The following provisions of law are repealed:

(1) The National Education Statistics Act of 1994 (title IV of the Improving America's Schools Act of 1994; 20 U.S.C. 9001 et seq.).

(2) Parts A through E and K through N of the Educational Research, Development, Dissemination, and Improvement Act of 1994 (title IX of the Goals 2000: Educate America Act) (20 U.S.C. 6001 et seq.).

(3) Paragraph (2) of section 401(b) of the Department of Education Organization Act (20 U.S.C. 3461(b)(2)).

SEC. 404. CONFORMING AND TECHNICAL AMENDMENTS.

(a) GOALS 2000: EDUCATE AMERICA ACT.—The table of contents in section 1(b) of the Goals 2000: Educate America Act (20 U.S.C. 5801 note) is amended by striking the items relating to parts A through E of title IX (including the items relating to sections within those parts).

(b) TITLE 5, UNITED STATES CODE.—Title 5, United States Code, is amended—

(1) in section 5314, by inserting a period after "Under Secretary of Education"; and

(2) in section 5315, by striking the following:

"Commissioner, National Center for Education Statistics.".

(c) GENERAL EDUCATION PROVISIONS ACT.—Section 447(b) of the General Education Provisions Act (20 U.S.C. 1232j) is amended by striking "section 404(a)(6) of the National Education Statistics Act of 1994 (20 U.S.C. 9003(a)(6))" and inserting "section 153(a)(5) of the Education Sciences Reform Act of 2002".

(d) ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965.—The Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.) is amended as follows:

(1) Section 1111(c)(2) is amended by striking "section 411(b)(2) of the National Education Statistics Act of 1994" and inserting "section 303(b)(2) of the National Assessment of Educational Progress Authorization Act".

(2) Section 1112(b)(1)(F) is amended by striking "section 411(b)(2) of the National Education Statistics Act of 1994" and inserting "section 303(b)(2) of the National Assessment of Educational Progress Authorization Act".

(3) Section 1117(a)(3) is amended—

(A) by inserting "(as such section existed on the day before the date of enactment of the Education Sciences Reform Act of 2002)" after "Act of 1994"; and

(B) by inserting "regional educational applied research and technical assistance entities established under section 203 of the Regional Assistance Act of 2002 and" after "assistance from".

(4) Section 1501(a)(3) is amended by striking "section 411 of the National Education Statistics Act of 1994" and inserting "section 303 of the National Assessment of Educational Progress Authorization Act".

(5) The following provisions are each amended by striking "Office of Educational Research and Improvement" and inserting "Academy of Education Sciences":

(A) Section 3222(a) (20 U.S.C. 6932(a)).

(B) Section 3303(1) (20 U.S.C. 7013(1)).

(C) Section 5464(e)(1) (20 U.S.C. 7253c(e)(1)).

(D) Paragraphs (1) and (2) of section 5615(d) (20 U.S.C. 7283d(d)).

(E) Paragraphs (1) and (2) of section 7131(c) (20 U.S.C. 7451(c)).

(6) Paragraphs (1) and (2) of section 5464(e) (20 U.S.C. 7253c(e)) are each amended by striking "such Office" and inserting "such Academy".

(7) Section 5613 (20 U.S.C. 7283b) is amended—

(A) in subsection (a)(5), by striking "Assistant Secretary of the Office of Educational Research and Improvement" and inserting "Director of the Academy of Education Sciences"; and

(B) in subsection (b)(2)(B), by striking "research institutes of the Office of Educational Research and Improvement" and inserting "National Education Centers of the Academy of Education Sciences".

(8) Sections 5615(d)(1) and 7131(c)(1) (20 U.S.C. 7283d(d)(1), 7451(c)(1)) are each amended by striking "the Office" and inserting "the Academy".

(9) Section 9529(b) is amended by striking "section 404(a)(6) of the National Education Statistics Act of 1994" and inserting "section 153(a)(5) of the Education Sciences Reform Act of 2002".

(e) SCHOOL-TO-WORK OPPORTUNITIES ACT OF 1994.—Section 404 of the School-to-Work Opportunities Act of 1994 (20 U.S.C. 6194) is amended by inserting "(as such Act existed on the day before the date of enactment of the Education Sciences Reform Act of 2002)" after "Act of 1994".

SEC. 405. EFFECTIVE DATE.

This Act and the amendments made by this Act shall take effect on October 1, 2002.

SEC. 406. SEVERABILITY.

If any provision of this Act, or the application of such provision to any person or circumstance, is held invalid, the remainder of this Act, or the application of such provision to persons or circumstances other than those as to which the provision is held invalid, shall not be affected thereby.

SEC. 407. ORDERLY TRANSITION.

The Secretary of Education shall take such steps as are necessary to provide for the orderly transition to, and implementation of, the offices, boards, committees, and centers (and their various functions and responsibilities) established or authorized by this Act, and by the amendments made by this Act, from those established or authorized by the Educational Research, Development, Dissemination, and Improvement Act of 1994 (20 U.S.C. 6001 et seq.) and the National Education Statistics Act of 1994 (20 U.S.C. 9001 et seq.).

The SPEAKER pro tempore (Mr. WHITFIELD). Pursuant to the rule, the gentleman from Delaware (Mr. CASTLE) and the gentleman from Michigan (Mr. KILDEE) each will control 20 minutes.

The Chair recognizes the gentleman from Delaware (Mr. CASTLE).

GENERAL LEAVE

Mr. CASTLE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous information on H.R. 3801.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Delaware?

There was no objection.

Mr. CASTLE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in strong support of H.R. 3801, the Education Science Reform Act Legislation, which transforms the Office of Education Research into a streamlined, more independent Academy of Education Sciences.

Earlier this year President Bush signed landmark education reforms into law, demanding new and more challenging standards of accountability from our States and improved student achievement from our schools. Recognizing that any successful education reform effort requires the best information on how children learn, the words "scientifically-based research" appear more than 100 times in the new law.

The reason for the focus on scientific research is simple: Educators need to know what works if they are to improve student achievement and narrow the gap between our lowest and highest performing students. Unfortunately, too much of what we recognize as education research is simply opinion buttressed by anecdotes. Consider the following examples:

Recently Congress established a national panel to evaluate existing research on the most effective way to teach children to read. They examined more than 100,000 federally-funded studies on reading, some written as far back as 1966, and concluded only 10,000 met their standards for scientific rigor.

From 1967 to 1976, the Federal Government managed the largest education research project ever conducted in the United States, comparing more than 20 different teaching programs on more than 70,000 students in 180 schools. Yet at the end of the study, all of the programs, those that were successful and those that failed, were recommended for distribution to schools. Today schools invest untold time and resources in one education fad after another. Without sound science to back program claims, teachers and school administrators are forced to use guesswork to determine the best classroom practices in students and students' achievement often suffers.

Even when scientific research is conducted, news of the findings seldom reaches teachers in the classrooms. When it does, it is often not relevant to the needs or it is not translated into understandable classroom applications. Two years ago I introduced legislation to improve the rigor and relevance of education research and to provide educators and policy-makers access to unbiased and reliable information.

The legislation before us today, H.R. 3801, picks up where that bill left off. It ensures that tried and true scientific information, not fads or fiction, form the basis for setting education policy and improving education practice. Specifically, H.R. 3801 attempts to address what I have come to know as serious shortcomings in the fields of education research, including the creeping influence of short-lived partisan or political operatives, the funding and dissemination of questionable studies, programs, and practices, and an overly bureaucratic office with no real sense of mission, mired by duplicative programs and competing interests.

Among other things, H.R. 3801 replaces the current Office of Education Research and Improvement with the new streamlined Academy of Education Science; insulates the new academy from inappropriate partisan or political influences; ensures that high quality standards put an end to education fads that masquerade as sound science; and creates a culture of science by allowing the new director to attract and retain the best researchers, evaluators and statisticians to the academy. It ensures that the research activities of the academy are driven by the needs of parents, teachers and school administrators, not ivory tower researchers; and ensures that technical assistance, including help in implementing the No Child Left Behind Act, is accountable to States and schools.

For more than 30 years, we have heard excuses on why education could not be held to the same standards as other professions, and for 30 years Federal research conducted by the Office of Educational Research and Improvement has been, to a large extent, a disappointment.

If we are to lift those who are struggling to achieve proficiency in reading, math and science, we must give our educators the information they need to help their students learn. For that to happen, we must expect more from our Federal investment in education research. We must expect scientific rigor and we must ensure that what works in education informs classroom practice.

To that end, H.R. 3801 makes long overdue changes to the Office of Education Research and Improvement. I urge my colleagues to support this bipartisan common sense legislation and send a strong message to the other body that the successful implementation of No Child Left Behind Act requires a Federal office that can deliver a high quality education research product.

Mr. Speaker, I reserve the balance of my time.

Mr. KILDEE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today's consideration of H.R. 3801 marks an important step in this committee's addressing the equal and effectiveness of education research and technical assistance. I believe our work on this legislation over the last 2 years has produced a good bipartisan product that warrants our support today. I do want to thank the gentleman from Delaware (Mr. CASTLE) and the gentleman from Ohio (Mr. BOEHNER) for their willingness to address Democratic concerns on this legislation.

This legislation addresses several critical issues in the area of education research. First is adequate resources. H.R. 3801 authorizes over $700 million for the department's research and technical assistance activities, nearly double existing funding. This level of funding is vital in the research academy created under this legislation to become a top flight education research organization.

This bill also includes the provisions sought by the gentleman from New York (Mr. OWENS), long a leader in Congress on education issues, to increase outreach and involvement of historically black colleges and universities and Hispanic-serving institutions, and to permit fellowships to build research, knowledge and experience.

In addition, H.R. 3801 ensures that research is conducted through national research and development centers and that 50 percent of research funding is for long-term research, both critical elements necessary to ensure high quality and effective research. This legislation also seeks to maintain the current governance relationship between the national assessment of educational process, the Department of Education, and the national assessment governing board, and in no way undermines any present authority provided to the board.

It is my intent that the changes made by this bill do not modify the manner in which the National Center for Education Statistics administers the national assessment.

Lastly, the bill ensures that we have a strong regional development and technical assistance focus that allows the continuation of existing life quality regional laboratories in comprehensive centers. Each region will competitively fund entities similar to the existing regional education laboratories and comprehensive assistance centers.

Our colleague, the gentleman from Wisconsin (Mr. KIND), has worked hard to ensure the bill's technical assistance focus would be responsive to local needs.

Mr. Speaker, a strong research focus at the Department of Education is vital to improving the educational achievement of our children. Coupled with the elements of the recently passed reauthorization of the Elementary and Secondary Education Act, this legislation can play a critical role in providing high quality research, technical assistance, and developmental activities. It is my belief that this legislation moves us in the right direction to accomplish these feats, and I urge Members to support it today.

Mr. Speaker, I reserve the balance of my time.

Mr. CASTLE. Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio (Mr. BOEHNER) the chairman of the Committee on Education and the Workforce.

Mr. BOEHNER. Mr. Speaker, the reauthorization of the Office of Education Research and Improvement has been waiting for more than 3 years to receive action on the floor of the House. And today we have the Education Science Reform Act of 2002 here through the hard work of the chairman of the subcommittee, the gentleman from Delaware (Mr. CASTLE), the ranking Democrat on the subcommittee, the gentleman from Michigan (Mr. KILDEE), who have done a marvelous job in bringing this bill together through subcommittee and full committee and here on the floor today. And without the leadership of the gentleman from Delaware (Mr. CASTLE), it just would not have happened at all.

Providing high quality, scientifically based education research is vital if we are going to improve our Nation's schools. The Education Science Act of 2002 does just that. In addition, it provides technical assistance to regions, States, districts, and schools that is accountable, customer-driven and focused on the implementation of the No Child Left Behind Act. Let me emphasize that the reforms in this bill will greatly assist in helping the No Child Left Behind Act, successfully transform and reform our schools.

Mr. Speaker, I especially want to thank the gentleman from Delaware (Mr. CASTLE) and the gentleman from Michigan (Mr. KILDEE) for their bipartisan leadership in working out this agreement. This is no small task since we have so few legislative days this year and I want to thank both of them very much. But they are not alone. The gentleman from Florida (Mr. KELLER), the gentleman from Colorado (Mr. SCHAFFER), the gentleman from Michigan (Mr. EHLERS), the gentleman from

Virginia (Mr. SCOTT), the gentleman from Wisconsin (Mr. KIND), the gentleman from New York (Mr. OWENS) and others have rolled up their sleeves and worked out the many differences that were in this bill.

The result was the bill went through both the subcommittee and the full committee by unanimous consent, and we expect the same level of support today here on the House floor. The President and the administration also support this bill. I especially want to thank Assistant Secretaries Russ Whitehurst and Becky Campoverde who, with their staff, worked closely with us as we brought this legislation forward. My thanks also to Jay Lefkowitz and Noel Franciso from the Office of Policy Development at the White House for their help.

Once again, I want to thank my colleague, the ranking Democrat on our committee, the gentleman from California (Mr. GEORGE MILLER), for making this bipartisan process work. We have continued the good relationship we had during the year-long work on the No Child Left Behind Act, and I am hopeful that we have set a new tone and a new example for the Congress, and that the approval of the House today of the Education Sciences Reform Act of 2002 demonstrates once again that we can do great things when we work together. The staff of the committee on both sides of the aisle is to be commended as well for all of their efforts in working with the Members and really doing the grunt work that brings us to a successful conclusion today. With that, I am going to thank my colleagues once again.

Mr. KILDEE. Mr. Speaker, I yield two minutes to the gentleman from Indiana (Mr. ROEMER).

Mr. ROEMER. Mr. Speaker, I rise to commend the gentleman from Delaware's (Mr. CASTLE) and the gentleman from Michigan's (Mr. KILDEE) contributions, particularly on our side from the gentleman from New York (Mr. OWENS), and the gentleman from Wisconsin (Mr. KIND), to improve the underlying bill to address the research and reform needed in this country to better share best practices throughout the United States to improve our school system.

The chairman mentioned one aspect of this bill that I have a caveat and a concern about, and that is the money that is provided for carrying out the No Child Left Behind Act, actually to provide training and technical assistance that will begin to take the first steps for the No Child Left Behind Act. The chairman said, I think, very articulately that that act was a bipartisan act, the Democrats and Republicans working with the President to maybe pass some of the most significant reforms in the past 20 years. I agree with that as well. However, if we do not provide the resources and the money to go along with the reforms to improve Title I programs, to support the teacher development, to help the schools in corrective action, then that bill starts to fall apart.

I would include after my statement an article by David Broader from this Sunday's Washington Post that says this: "The gap between the reality and the Washington rhetoric about raising standards in school while ensuring that no child is left behind is alarmingly large."

If the appropriators do not appropriate the significant funds and the sufficient funds to ensure that we can lock in these reforms, and the States are cutting their budgets and not providing us money to the State schools, then this reform, no child left behind, grows increasingly in peril of backsliding and going backwards on its commitments to children in this country.

I hope we keep our eye on the appropriations process.

The article mentioned is as follows:

[From The Washington Post]

A MATTER OF MONEY . . .

(By David S. Broder)

Last week Oregon newspapers carried an Associated Press report that more than 4,600 taxpayers had voluntarily donated almost $700,000 of their tax refunds from the state to a newly created fund for support of public schools.

It was a small percentage of the $240 million automatically rebated when revenue for the 1999–2001 biennium exceeded estimates. But with the economic slowdown now causing a budget crunch in Oregon, as in more than 40 other states, these taxpayers recognized that education is in jeopardy. A recent special session found the Oregon legislature cutting the schools' budget by $112 million.

What is happening in Oregon is happening across the country. The National Conference of State Legislatures reported last week that in the current fiscal year, 17 states faced reductions in their budgets for elementary and secondary schools, and 29 faced cuts for colleges and universities.

The gap between this reality and the Washington rhetoric about raising standards in schools while ensuring that "no child is left behind" is alarmingly large.

In just the past few days, parents and students in state after state have heard disturbing news about the schools. The Massachusetts House of Representatives received a committee-approved budget that would cut school spending 10 percent across the board, reducing state aid to local districts by $320 million.

In Tennessee, seven "Governor's Schools," where gifted and talented high school students lived together in dormitories for a month of challenging summer studies of science, the arts and even international relations, have been canceled. The $15 million cost apparently is more than the sate can afford to invest in its most promising young people.

At the other end of the educational spectrum, the administration of freshman New Jersey Gov. Jim McGreevey has petitioned for relief from the court order requiring the state to put extra funds in to the 30 poorest school districts. These districts—urban areas with low property-tax bases—were supposed to get $83 million extra in state funds to help them repair buildings, hire teachers and improve instruction. Instead, like every other district, they will be level-funded next year.

No governors or legislators want to damage the schools their constituents use. But the requirement to balance budgets in a time of slumping revenues has left them little choice. While Washington goes blithely on its way, cutting taxes, running up deficits and borrowing from Social Security, the states are in a jam.

What is happening to elementary and secondary schools is minor compared with the hit on higher education. In the face of rising enrollments, Pennsylvania is cutting its higher ed budget by almost 5 percent. Penn State students, who were hit with an 8 percent tuition increase this year, will face another tuition boost and a fee increase of up to $600 when they come back to school.

They are better off than students at the University of Washington, where the budget calls for a 16 percent tuition increase. And in education-conscious Iowa, the presidents of the three largest state universities said in a joint statement that the legislature's cuts "will unquestionably compromise the quality of our educational programs." State funding, which once paid 77 percent of the bills, now pays 60 percent, and most of the falloff has been made up by raising tuition.

The irony is that even as all this is happening, a poll released last week reaffirms the importance of education to most voters. The Public Education Network and Education Week newspaper reported that when it comes to balancing state budgets, voters overwhelmingly say that schools are the top priority. Education leads the No. 2 choice, health care, by a 3-to-1 margin. Law enforcement, welfare, services for seniors, transportation and economic development lag far behind.

But that is not what the budgets reflect. Medicaid payments are the fastest-growing state expenditures, and those costs leave little room for education or other programs.

Washington is not helping much. The federal government is still falling far short on its promise to pay 40 percent of the bills for special education students, whose needs are a crippling cost for local school districts.

After boosts in education spending by healthy double-digit percentages in the last year of the Clinton administration and the first year of the Bush administration, this year's federal budget calls for only a 2.8 percent increase.

With the feds preferring tax cuts to education aid, and the states cutting back because of their budget squeeze, America is in serious danger of backsliding on the promise to improve its schools.

Mr. CASTLE. Mr. Speaker, I have no further speakers and I continue to reserve the balance of my time.

Mr. KILDEE. Mr. Speaker, I yield four minutes to the gentleman from Virginia (Mr. SCOTT).

Mr. SCOTT. Mr. Speaker, I thank the gentleman for yielding me time.

I rise in support of the bill H.R. 3801 which restructures and refocuses the research branch of the Department of Education. I would like to thank the committee chairman, the gentleman from Delaware (Mr. CASTLE), and the ranking member, the gentleman from Michigan (Mr. KILDEE), for their leadership in crafting this bipartisan bill.

The bill before us significantly restructures the current research office, known as the Office of Educational Research and Improvement, into a new Academy of Educational Sciences.

□ 1815

The reformation of Federal educational research is absolutely essential if we are to close the achievement gaps and assure that all children have an opportunity of an equal educational opportunity. The work that we are doing on this issue will be critical in helping educators meet these challenges set forth in H.R. 1, the newly signed education bill.

As the Assistant Secretary of Education noted in his testimony before the Committee on Education and the Workforce, H.R. 1 mentions scientifically-based research over 110 times as it relates to educational programs. Yet there are significant deficits in what we know about how children learn and which programs work, especially when it comes to children who are disadvantaged, have limited English proficiency or have disabilities.

While our present educational system serves most children fairly well, it struggles to meet the needs of children with special challenges in their paths. The newly structured academy can help us figure out how to better serve all children, close achievement gaps and ensure that all children get a quality education.

In crafting this legislation, we paid special attention to making sure that the research conducted by the academy was focused on producing useful findings, that is, teaching methodologies that we could actually put into practice. We need to find programs that are scientifically proven to be effective in educating students who have traditionally been disadvantaged so that they, and their schools, can meet the standards set forth in H.R. 1.

Structuring the academy so that it concentrates on research that can be put into practice will be beneficial to all 15,000 school districts in the United States. The academy will serve as a national resource so that valuable time is not lost by each individual school and each individual teacher trying to reinvent the wheel and come up with educational programs to serve their students.

I am especially pleased that we are authorizing $400 million, double the funds now available for OERI. Funding for educational research has been anemic over the years, and no amount of restructuring will achieve the needed results if appropriate resources are not applied.

I would again like to thank the subcommittee chair and the ranking member for a chance to work on this bipartisan bill that restructures Federal educational research that empowers teachers and schools to be better able to do their jobs.

Mr. CASTLE. Mr. Speaker, I reserve the balance of my time.

Mr. KILDEE. Mr. Speaker, I yield myself such time as I may consume.

Just briefly, I want to thank the gentleman from Delaware (Mr. CASTLE) for our work together. He has always been open and frank, honest, and we had some very fruitful discussions, sometimes some differences with which we were determined to work out. It is always a pleasure to work with Governor CASTLE, and when the President signs this bill into law, he will be able to add another item to an already illustrious record, both as governor and as a Member of this House.

Mr. Speaker, I yield back the balance of my time.

Mr. CASTLE. Mr. Speaker, I yield myself such time as I may consume.

Let me just return the compliment to the gentleman from Michigan (Mr. KILDEE). Disagreeing with the gentleman is better than agreeing with most people I have learned. He is a great pleasure to work with. We have worked together on a number of issues now, and these are contentious issues I might add, and have been able to work them out, greatly to his credit, and I appreciate that.

I would also like to take this time to extend my heartfelt thanks to the many Members, staff and administration officials that made this bipartisan reform effort possible.

Although education research is not an area that commands the attention of many Americans, or even many Members of Congress for all that matter, I was fortunate to work with a group of dedicated professionals who wanted to make education research better. They include obviously the Subcommittee on Education Reform ranking member, the gentleman from Michigan (Mr. KILDEE); but also the gentleman from Colorado (Mr. SCHAFFER), the vice-chairman; the gentleman from California (Mr. GEORGE MILLER), full committee ranking member; as well as the gentleman from Florida (Mr. KELLER), the gentleman from Wisconsin (Mr. KIND), the gentleman from Georgia (Mr. ISAKSON), the gentleman from Virginia (Mr. SCOTT); the gentleman from Colorado (Mr. TANCREDO), and the gentleman from New York (Mr. OWENS). I thank all of them for their important contributions.

I also want to extend my gratitude to the gentleman from Ohio (Mr. BOEHNER), the chairman of the Education and Workforce Committee. Without his leadership and thoughtful counsel, we would not be on the floor today.

I would also be remiss if I did not thank President Bush, Secretary Paige and Under Secretary Hickock and Assistant Secretary Russ Whitehurst and Becky Campoverde. I am indebted to them all for raising the profile of this issue and for their year-long counsel and unwaivering support of the principles embodied in this bill.

Last but certainly not least, I want to thank the staff for their hard work and abiding interest in education reform. Often vacations were sacrificed and family dinners were put on hold to get us to the floor of the House of Representatives. I think one has to be a Member of the House to understand how important staffs are to us and the extraordinary work they did.

Although many offered a helping hand, I want to especially thank Sally Lovejoy, the boss in all this; Doug Mesecar, who is to my left; Bob Sweet, Patrick Lyden, Jo-Marie St. Martin; on the other side, Alex Nock, Denise Forte and Charlie Barone, all of whom did a superb job. This team really went above and beyond the call of duty, and I am grateful to them for their efforts.

I would particularly like to thank Kara Haas of my staff who has dedicated all the recent years to education issues and has done a wonderful job of pulling all of this together.

Mrs. MINK of Hawaii. Mr. Speaker, I rise in support of H.R. 3801, the Education Science Reform Act of 2002.

H.R. 3801 marks a significant step forward in the Congress' effort to improve the research, evaluation, and technical assistance focus of the Department of Education, High quality research, statistics, development, and technical assistance is critical to improving education in the 21st century.

H.R. 3801 authorizes a total of $700 million for the Department of Education's research, statistics, evaluations, and technical assistance activities. This is nearly double the current funding and ensures that almost 1 percent, or $400 million, of the Department's budget will be reserved for research activities. This ensures that the Academy of Education Sciences that the bill creates will become a premier education research organization that is capable of producing high quality research.

H.R. 3801 also creates the Regional Development and Technical Assistance program that provides funds for two entities per region. One entity will provide applied research and development while the other will provide technical assistance. These entities are governed by a local regional board that incorporates all States in the region and whose membership is chosen by the chief State school officer of each State.

I am pleased that H.R. 3801 will continue to allow all four states of the Federated States of Micronesia (FSM) (Chuuk, Kosrae, Pohnpei, and Yap) to participate in the program and be fully represented on the regional boards. Hawaii's educational laboratory, research, and technical assistance provider, the Pacific Resources for Education and Learning (PREL), has been successful and effective in meeting the needs of all the States in Hawaii's region, which includes Hawaii, the outlying area (Guam, American Samoa, and the Northern Mariana Islands) and the freely associated states (FAS)(Palau, the Marshall Islands, and the four States of the FSM, Chuuk, Kosrae, Pohnpei, and Yap) because of the participation of all the chief State school officers.

Mr. Speaker, I am pleased that Congress is committing to creating a strong office of research, statistics, evaluation, development, and technical assistance in the Department of Education. The Academy will be vital to future increases in student achievement and in the management and operation of our Nation's schools. H.R. 3801 makes the needed changes and adds the necessary resources to making this office a reality. I urge my colleagues to support this bill.

Mr. KIND. Mr. Speaker, I rise today in support of H.R. 3801, the Education Sciences Reform Act of 2002. As a member of the Education and Workforce committee, I am proud to have been a part of the bipartisan effort to strengthen the quality of public education in all regions of the country. This bill restructures the Office of Education Research and Improvement, OERI, first authorized in 1994, maintaining the regional support structures to help our schools succeed.

This issue is of special importance to the people of my district in western Wisconsin. The small, rural schools of my district strive to provide quality educational opportunities for their students, but need a support structure to help implement the many changes recently required by the Federal Government in the No Child Left Behind Act. OERI provides such a structure through regional laboratories and comprehensive centers. During reauthorization, I advocated for the continued funding of these regional entities that provide applied research and development along with technical assistance to schools in rural areas. At the same time, I support the need for a competitive environment geared toward performance-oriented funding for these regional entities. Without this type of regional structure, there would be no guarantee that schools such as those in my district would continue to receive these services.

The comprehensive centers and regional educational laboratories are invaluable resources for providing quality education to children in our small, rural schools. The mission of the regional comprehensive center is to provide technical assistance to schools and districts, while the regional labs create strategies to promote student improvement through applied research. Schools in rural areas are often faced with the challenges of serving a community with a small population, making it difficult to maintain adequate funding and a strong technology infrastructure. The labs and comprehensive centers offer the assistance needed to meet the needs of students in these areas. By supporting these entities, children in rural schools can be afforded the same types of educational tools that their counterparts in large, more urban schools receive: access to educational technologies, enrichment in math and science, and gifted and talented education, all of which help prepare our children everywhere for the workforce of the future.

In particular, the Wisconsin Center for Education Research, located in my home State, is able to provide schools with the tools they need for success. This comprehensive center at the University of Wisconsin-Madison School of Education provides services to Iowa, Michigan, Minnesota, North Dakota, South Dakota, and Wisconsin. All of these States contain a large number of small, rural schools in need of the technical assistance and applied research to continue providing quality education to the students of their districts. The Wisconsin Center provides proven, quality research dedicated to improving education for students of all ages, and is indeed one of the premier comprehensive centers in the Nation.

Mr. Speaker, I am proud to have been a part of the committee that recognized the importance of strong research and evaluation in providing quality education to students of our country. I would like to thank the subcommittee chairman from Delaware, Mr. CASTLE, the ranking member from Michigan, Mr. KILDEE, and the other members of the subcommittee for the continued efforts to make this bipartisan bill as strong as possible. Through our efforts we will continue to ensure that no child is left behind in our education system.

Mr. GEORGE MILLER of California. Mr. Speaker, I want to first applaud the achievement of Chairman CASTLE and Congressman KILDEE and their staffs for their work on this bill. Both members have championed the need for quality education research and this legislation reflects their leadership on this issue.

H.R. 3801 complements the bipartisan effort that started with the No Child Left Behind Act. In that landmark reform measure, states and schools district are now accountable for providing a quality education to all children. And, the availability of scientifically based research that demonstrates what works and what doesn't work will be critical in this effort. H.R. 3801 establishes the framework to make this happen.

This legislation injects a much needed culture of science into education research through the newly established Academy of Education Sciences.

The Academy will be responsible for ensuring that the research used by school districts in their reform efforts will be of the highest quality and meet the highest standards. The Academy will also conduct new research and be the arm through which this research is disseminated to the field.

H.R. 3801 will bring research directly into the classroom where it is needed the most. Through a system of regional technical assistance, school districts will be able to receive support tailored to their needs.

And, perhaps most important this legislation authorizes a new level of investment in education research to match the demand for quality science on what works to improve education.

Again, I commend the work of my colleagues Congressmen CASTLE and KILDEE and look forward to working with them as it continues through the legislative process.

Again, I want to applaud the work of the chairman and ranking member.

Mr. SMITH of Michigan. Mr. Speaker, I rise in support of the Education Science Reform Act.

As one famous scientist observed, "It is nothing short of a miracle that the modern methods of instruction have not yet entirely strangled the holy curiosity of enquiry." That scientist was Albert Einstein, and its apparent that since his day things haven't changed all that much.

Our colleges and universities are still the best in the world, but as international tests show, U.S.K.–12 students do not measure up to their peers in other industrialized countries.

As Chairman of the Subcommittee on Research, we have been advocating that we devote more of our education research funding to research on how kids learn. Our current knowledge of how children acquire such academic skills as reading and math is not well advanced. Further, we know very little about the how to link fundamental research and educational practice in the classroom.

We have to find out what works in the classroom, and what doesn't. In hearings before my subcommittee, we have found that new teaching methods and technologies are often introduced into classrooms with little or no data showing that they are effective.

This is unfortunate, and it means that many of our kids will not be prepared for the high-tech future. If we want to do a better job of imparting to students the skills they need to be successful in science and math, we have to employ the most effective teaching methods from kindergarten to college. To help do that, we must conduct the kind of research and date collections to better discover what works.

Currently, federal funding for education research is a fraction of a percent of all education spending. It stands to reason that increasing funding in this area will allow us to develop policies and programs that will spend the other 99+ percent of funding on education programs more effectively.

I am pleased that National Mathematics and Science Partnerships Act, which passed the House last summer, contains language I proposed to have NSF establish centers for education research. These multidisciplinary centers will focus on research that has the potential to transform education research and teaching practice.

Complementing this effort is the work being done by the Department of Education authorized in this bill. I am particularly pleased that the bill establishes "scientifically-based research standards" for this program. Witnesses before my subcommittee testified to the shortcomings of the research being conducted by the Education Department. This legislation brings scientific rigor to an area of research that often lacks it, and I want to commend the gentleman from Delaware, Mr. CASTLE, and the Chairman of the Education Committee, Mr. BOEHNER, for their work in making this needed reform.

Mr. Speaker, it is in this country's best interest to see that students receive the education they will need to compete and win in the global marketplace of the future. This bill will help us achieve that goal.

Mr. HOLT. Mr. Speaker, I rise today to speak on HR 3801, the Education Sciences Reform Act. The bill restructures the current statute governing the Office of Educational Research and Improvement by creating the Academy of Education Sciences.

While there are many positive things in this bill, it also has a number of weaknesses that should be addressed. Unfortunately, because this bill is on the suspension calendar, we will not get a chance to amend it. This legislation is missing two important initiatives, the Eisenhower Regional Mathematics and Science Consortia and the Eisenhower National Clearinghouse.

We must continue to make science education a priority in order to be prepared to compete in the global market place.

One way of doing this is the Eisenhower Regional Mathematics and Science Consortia. Currently, the 10 regional Eisenhower Mathematics and Science Consortia provide expert, research-based advice to teachers, schools, and states on how to improve their math and science programs and accountability systems.

The Consortia have economies of scale for expert staff and programs that most school districts could never duplicate; and as a network, their use of Federal resources is even more efficient.

With their regional partners, the Consortia provide professional development and technical assistance that enables teachers and policymakers learn from math and science research in their efforts to improve math and science teaching and learning.

The Consortia work with National Science Foundation to disseminate exemplary teaching methods for science and math.

The Consortia coordinate resources on math and science within their regions to maximize their collective impact.

The Consortia deliver customized services without red tape. Without the Consortia, teachers and administrators must procure other funds with the associated paperwork for assistance that the Consortia proactively supply without administrative burdens.

The other important science and mathematics institution is the Eisenhower National Clearinghouse.

The Eisenhower National Clearinghouse acquires and catalogs mathematics and science curriculum resources, creating the most comprehensive collection in the nation.

The clearinghouse provides the best selection of math and science education resources on the Internet.

The clearinghouse also supports teachers' professional development in math, science, and the effective use of technology.

Most importantly it serves all K–12 educators, parents, and students with free products and services. To help them do the best possible job of teaching math and science to our kids.

We must supply the resources for our schools and teachers for math and science education. Giving all children an understanding of science is one of the greatest challenges facing our nation today. The degree to which our children acquire these important skills will help determine their future economic success and, in turn, will help shape the productivity and economic future of the entire United States.

A quality science education is important for reasons of economics or national security. But it is also important for personal well-being and for the well-being of our democracy.

Science brings order, harmony, and balance to our lives. It teaches us that our world is intelligible and not capricious. They give us the skill for lifelong learning, for creating progress itself.

Mr. Speaker, this bill will pass today, but as it moves forward we should correct this oversight regarding the Eisenhower Regional Mathematics and Science Consortia and the Eisenhower National Clearinghouse.

Mr. CASTLE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. WHITFIELD). The question is on the motion offered by the gentleman from Delaware (Mr. CASTLE) that the House suspend the rules and pass the bill, H.R. 3801, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN THE ENGROSSMENT OF H.R. 3801, EDUCATION SCIENCES REFORM ACT OF 2002

Mr. CASTLE. Mr. Speaker, I ask unanimous consent that in the engrossment of the bill, H.R. 3801, the Clerk be authorized to make technical corrections and conforming changes to the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Delaware?

There was no objection.

HONORING UNIVERSITY OF MINNESOTA GOLDEN GOPHERS MEN'S HOCKEY AND WRESTLING TEAMS AND UNIVERSITY OF MINNESOTA-DULUTH BULLDOGS WOMEN'S HOCKEY TEAM FOR WINNING 2002 NCAA CHAMPIONSHIPS

Mr. ISAKSON. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 391) honoring the University of Minnesota Golden Gophers men's hockey and wrestling teams and the University of Minnesota-Duluth Bulldogs women's hockey team for winning the 2002 National Collegiate Athletic Association championships.

The Clerk read as follows:

H. CON. RES. 391

Whereas the University of Minnesota Gophers men's hockey team recently won the 2002 National Collegiate Athletic Association championship for the 4th time in the university's history;

Whereas the Minnesota Gophers men's hockey team had an impressive overall record of 32-8-4;

Whereas all but 1 of the players on the Minnesota Gophers men's hockey team are from Minnesota;

Whereas the Minnesota Gophers wrestling team won their second consecutive NCAA championship in 2002;

Whereas the Minnesota Gophers wrestling team was undefeated in the 2002 season and won the Big 10 Conference tournament;

Whereas the Minnesota Gophers wrestling team finished in the top 3 in the Nation for the 6th consecutive year;

Whereas 7 members of the Minnesota Gophers wrestling team earned All-American honors;

Whereas the Minnesota Gophers wrestling team produced 2 individual national champions;

Whereas on March 24, 2002, the defending NCAA Women's Ice Hockey National Champion, the University of Minnesota-Duluth Bulldogs, won the national championship for the second straight year;

Whereas the Minnesota-Duluth Bulldogs women's hockey team defeated Brown University in the championship game by the score of 3–2, having previously defeated Niagara University in the semi-final by the same score;

Whereas during the 2001–2002 season, the Minnesota-Duluth Bulldogs women's hockey team won 24 games, while losing only 6, and tying 4; and

Whereas all of the players on the Minnesota-Duluth Bulldogs women's hockey team showed tremendous dedication throughout the season toward the goal of winning the national championship;

Whereas all 3 of these teams display academic excellence by maintaining an average grade point average above the university-wide average; and

Whereas Congress should honor the excellence of athletic teams and encourage participation in collegiate athletics in order to build teamwork and dedication: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress honors the University of Minnesota Golden Gophers men's hockey and wrestling teams and the University of Minnesota-Duluth Bulldogs women's hockey team for winning the 2002 National Collegiate Athletic Association championships.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Georgia (Mr. ISAKSON) and the gentleman from Michigan (Mr. KILDEE) each will control 20 minutes.

The Chair recognizes the gentleman from Georgia (Mr. ISAKSON).

GENERAL LEAVE

Mr. ISAKSON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Con. Res. 391.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. ISAKSON. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of House Concurrent Resolution 391, a resolution that congratulates the University of Minnesota men's hockey and wrestling teams and University of Minnesota-Duluth women's hockey team for winning the 2002 National Collegiate Athletic Association Championships. I am very pleased to commend the gentleman from Minnesota (Mr. KENNEDY) for bringing this resolution, and I encourage all the Members of the House to support it.

Mr. Speaker, I reserve the balance of my time.

Mr. KILDEE. Mr. Speaker, I yield myself such time as I may consume.

I am very happy to rise to support H. Con. Res. 391 which honors the University of Minnesota Golden Gophers men's hockey and wrestling teams, and University of Minnesota-Duluth women's hockey team for winning the 2002

National Collegiate Athletic Association championship. They certainly are worthy of the accolades of this House.

Mr. Speaker, I reserve the balance of my time.

Mr. ISAKSON. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota (Mr. KENNEDY), the author of the resolution.

Mr. KENNEDY of Minnesota. Mr. Speaker, as basketball great Michael Jordan once said, "Talent wins games but teamwork and intelligence wins championships." It is with great pride that I rise today to introduce a resolution to honor the three Minnesota national champions, the Golden Gophers men's hockey and wrestling teams, and University of Minnesota-Duluth women's hockey team for winning the 2002 NCAA championships.

Minnesota has had a long and proud tradition of hockey. This is the fourth time that the University of Minnesota Gophers have won their national championship. I congratulate the team and their head coach Don Lucia. As Don Lucia says, "Hockey and Minnesota are synonymous with each other."

The Golden Gophers wrestling team became the first back-to-back Gopher national champions since 1940 and 1941, when the Minnesota Gophers won back-to-back football championships and consecutive national titles. I congratulate the team and their head coaches, Robinson and Morgan.

The University of Minnesota-Duluth women's hockey team captured their second straight NCAA championship. In the championship game, they beat Brown three to two. Congratulations to the team and their head coach, Shannon Miller.

All three of these should be considered and honored for their academic excellence as well. All three maintained grade point averages above the school average. Their hard work on and off the ice and mat have made them champions in the eyes of all Minnesotans.

I congratulate each and every player on these teams and their coaches for their hard work, perseverance and teamwork. The entire Minnesota delegation congratulates them.

Mr. KILDEE. Mr. Speaker, I reserve the balance of my time.

Mr. ISAKSON. Mr. Speaker, I am pleased to yield 2 minutes to the distinguished gentleman from Minnesota (Mr. GUTKNECHT).

Mr. GUTKNECHT. Mr. Speaker, I thank the gentleman from Georgia (Mr. ISAKSON) for yielding me the time, and I want to thank my colleague the gentleman from Minnesota (Mr. KENNEDY) for bringing this resolution forward. I am a happy and proud co-sponsor of it.

There are two sports that we take very seriously back in the State of Minnesota. One of them is hockey and the other is wrestling. Part of the reason I think we take them so seriously is because if one is going to excel in these two sports, they have to have enormous amounts of dedication to those spores.

So on behalf of all of the people of the great State of Minnesota, I rise in support of this resolution to congratulate the young men and women who have earned this recognition.

First of all, to win the national championship in hockey is something that is extremely difficult to do. We know that because in Minnesota, we have young people as old as 4 years old, parents are taking them down to the ice arenas. At 4 years old they are called mites, and they start skating and they start learning the sport of hockey, and to win a national championship is an honor that they can only dream of one day, and obviously it is with the leadership of the University of Minnesota and the Gophers, what they did today, that will give them even more impetus to work hard to try to achieve that dream.

Also, on behalf of the people of the State of Minnesota, we want to thank and congratulate the young women at the University of Minnesota-Duluth for their amazing accomplishment to win back-to-back national championships.

Finally, if there is any sport that requires more dedication than hockey it is wrestling, and for the University of Minnesota Golden Gophers to win that championship means an awful lot.

So again congratulations to all of the Gophers and the Bulldogs for their amazing dedication in winning these national championships. I hope my colleagues will please excuse us if our buttons seem to be bursting today, but we are extremely proud of the accomplishments of these young athletes. They demonstrate the pursuit of excellence is alive and well. It is living in Minnesota.

Mr. KILDEE. Mr. Speaker, I yield as much time as he may consume to the gentleman from Minnesota (Mr. OBERSTAR).

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman from Michigan (Mr. KILDEE) for yielding me the time, and I will be brief, but the University of Minnesota-Duluth women's hockey team is in my Congressional district, and I have visited with the team members on many occasions and especially with Chancellor Kathryn Martin, who is the first woman to hold the position of chancellor of the University of Minnesota-Duluth. It was under her leadership that the women's hockey program was nurtured and developed to the national prominence it has achieved.

If any person who is looking for a display of pure hockey as it should be played with skill, with passing precision and respect for players on each side of the rink, they should have followed the women's NCAA frozen four championship rounds because there one saw the display of hockey at its very best, without the body slams, without the sticks in the face, but with skill, precision passing, skill of skating and speed and superb demonstration of goalie skill on both sides of the rink.

All the teams that participated credited themselves remarkably by their display of sportsmanship and skill, but there is only one team that wins and 2-years in a row it has been the University of Minnesota-Duluth women's hockey team, and this year they were joined by their brothers, the men's hockey team. UMD was there before them.

☐ 1830

They won back-to-back championships. And this year, the men's hockey team won as well. As my colleague, the gentleman from Minnesota (Mr. GUTKNECHT) noted, the men's wrestling team won as well.

I might add a footnote to all this pride in hockey. The University of Minnesota Duluth Theater Troop has, for the fifth time in the 34 years of the competition, won the Kennedy Center National Collegiate Theater Competition. And for the second time in 3 years, drama is also a part of the human spirit.

To Kathryn Martin's credit, she has nurtured the drama program; herself a theater and drama professor and coach, she has nurtured this program. And to the great credit of UMD, the theater troop, for the second time in 3 years, was one of the four final winners of the Kennedy Center Theater Performance.

University of Minnesota on the athletic side as well as on the intellectual and spiritual side of lifting the human spirit has contributed enormously to the northland. And to all the scholar athletes and scholar theater performers who have participated and won national honors, as the gentleman said, our buttons indeed are bursting a bit. It is appropriate for us to offer this recognition on the House floor.

I thank the gentleman for the time, and I congratulate the University of Minnesota Duluth and the University of Minnesota main campus on their achievements.

Mr. KILDEE. Mr. Speaker, I yield back the balance of my time.

Mr. ISAKSON. Mr. Speaker, I yield myself such time as I may consume to conclude by commending the gentleman from Minnesota (Mr. KENNEDY) on offering the resolution, and I encourage my colleagues in the House to support it.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. WHITFIELD). The question is on the motion offered by the gentleman from Georgia (Mr. ISAKSON) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 391.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will now put the question on motions to suspend the rules on which further proceedings were postponed earlier today.

Votes will be taken in the following order:

Concurring in Senate amendments to H.R. 169, by the yeas and nays;

S. 2248, by the yeas and nays; and

H. Con. Res. 386, by the yeas and nays.

The Chair will reduce to 5 minutes the time for any electronic vote after the first such vote in this series.

NOTIFICATION AND FEDERAL EMPLOYEE ANTIDISCRIMINATION AND RETALIATION ACT OF 2001

The SPEAKER pro tempore. The pending business is the question of suspending the rules and concurring in the Senate amendments to the bill, H.R. 169.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin (Mr. SENSENBRENNER) that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 169, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 412, nays 0, not voting 22, as follows:

☐ 1859

So (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendments were concurred in.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. WHITFIELD). Pursuant to clause 8 of rule XX, the Chair will reduce to 5 minutes the minimum time for electronic voting on each additional motion to suspend the rules on which the Chair has postponed further proceedings.

EXTENDING AUTHORITY OF EXPORT-IMPORT BANK UNTIL MAY 31, 2002

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the Senate bill, S. 2248.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Nebraska (Mr. BEREUTER) that the House suspend the rules and pass the Senate bill, S. 2248, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 318, nays 92, not voting 24, as follows:

□ 1919

Mr. CAPUANO changed his vote from "yea" to "present."

So (two-thirds having voted in favor thereof), the rules were suspended and the concurrent resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

ANNOUNCEMENT OF INTENT TO OFFER MOTION TO INSTRUCT CONFEREES ON H.R. 2215, THE 21ST CENTURY DEPARTMENT OF JUSTICE APPROPRIATIONS AUTHORIZATION ACT

Ms. DEGETTE. Mr. Speaker, pursuant to clause 7(c) of rule XXII, I hereby announce my intention to offer a motion to instruct conferees on H.R. 2215 tomorrow.

The form of the motion is as follows:

I move that the managers on the part of the House at the conference on the disagreeing votes of the 2 Houses on the Senate amendment to the bill H.R. 2215 be instructed to:

1, agree to title IV of the Senate amendment (establishing a Violence Against Women Office); and

2, insist upon section 2003 of the Omnibus Crime Control and Safe Streets Act of 1968, as added by section 402 of the House bill (establishing duties and functions of the Director of the Violence Against Women Office).

ANNOUNCEMENT OF INTENTION TO OFFER MOTION TO INSTRUCT ON H.R. 2646, FARM SECURITY ACT OF 2001

Mr. ACKERMAN. Mr. Speaker, pursuant to clause 7(c) of rule XXII, I hereby announce my intention to offer a motion to instruct conferees on H.R. 2646.

The form of the motion is as follows:

I move that the managers on the part of the House at the conference on the disagreeing votes of the 2 Houses on the Senate amendment to the bill H.R. 2646 be instructed to insist on the provisions contained in section 945 of the House bill relating to unlawful stockyard practices involving nonambulatory livestock.

ANNOUNCEMENT OF INTENTION TO OFFER MOTION TO INSTRUCT CONFEREES ON H.R. 2646, FARM SECURITY ACT OF 2001

Mr. BLUMENAUER. Mr. Speaker, pursuant to clause 7(c) of rule XXII, I hereby announce my intention to offer a motion to instruct conferees on H.R. 2646.

The form of the motion is as follows:

I move that the House conferees on H.R. 2646, an act to provide for the continuation of agricultural programs through fiscal year 2011, be instructed to leave intact the House provisions of the House and Senate bills, specifically those which:

amend section 26 of the Animal Welfare Act, (7 U.S.C. 2156), subsection (e), to strike "$5,000" and insert "$15,000"; and to strike "1 year penalty provision" and insert "2 years";

and it provide that the amendments to section 26 of the Animal Welfare Act take effect 30 days after the date of enactment of this act.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. PENCE). Pursuant to clause 8 of rule XX, the Chair announces that he will postpone further proceedings today on the motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on remaining motions to suspend the rules will be taken tomorrow.

CONGRATULATING THE UNIVERSITY OF CONNECTICUT HUSKIES FOR WINNING THE 2002 NATIONAL COLLEGIATE ATHLETIC ASSOCIATION DIVISION I WOMEN'S BASKETBALL CHAMPIONSHIP

Mr. ISAKSON. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 401) congratulating the University of Connecticut Huskies for winning the 2002 National Collegiate Athletic Association Division I women's basketball championship.

The Clerk read as follows:

H. RES. 401

Whereas the University of Connecticut Huskies women's basketball team won its second National Collegiate Athletic Association championship in 3 years by defeating the University of Oklahoma by the score of 82–70;

Whereas the team, coached by NCAA Division I women's basketball Coach of the Year, Geno Auriemma, finished the 2002 season with a perfect 39–0 record, becoming only the 4th NCAA Division I women's basketball team to finish a season undefeated;

Whereas Sue Bird was chosen as the national women's Player of the Year;

Whereas Swin Cash was named the Final Four Most Outstanding Player;

Whereas Sue Bird, Swin Cash, Diana Taurasi, Asjha Jones, and Tamika Williams were selected as All-Americans;

Whereas the University of Connecticut Huskies' 35-point average margin of victory during the regular season was the largest average margin of victory in NCAA Division I women's basketball history;

Whereas the University of Connecticut Huskies dominated this year's championship tournament, averaging 83.3 points and a 27-point margin of victory en route to the championship;

Whereas the high caliber of the University of Connecticut Huskies in both athletics and academics has significantly advanced the sport of women's basketball and provided inspiration for future generations of young men and women alike; and

Whereas the University of Connecticut Huskies' championship season has rallied Connecticut residents of all ages behind a common purpose and triggered a wave of euphoria across the State: Now, therefore, be it

Resolved, That the House of Representatives commends the University of Connecticut Huskies women's basketball team for winning the 2002 National Collegiate Athletic Association Division I women's basketball championship and for completing the 2001–2002 season with a 39–0 record.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Georgia (Mr. ISAKSON) and the gentlewoman from Connecticut (Ms. DELAURO) each will control 20 minutes.

The Chair recognizes the gentleman from Georgia (Mr. ISAKSON).

GENERAL LEAVE

Mr. ISAKSON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Res. 401.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. ISAKSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of House Resolution 401. This resolution congratulates the University of Connecticut Huskies for winning the 2002 NCAA Division I women's basketball championship. This is the University of Connecticut's second NCAA championship in 3 years. As my colleagues may know, the team finished the 2002 season with an unblemished perfect record of 39 and 0 and became only the fourth

NCAA Division I women's team to finish the season undefeated. This is an amazing accomplishment and one worthy of recognition.

Mr. Speaker, I want to thank the gentleman from Connecticut (Mr. SIMMONS) for introducing this resolution, and I extend my congratulations to the team, their coach, and the university. I ask all of my colleagues to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Ms. DELAURO. Mr. Speaker, I yield myself such time as I may consume.

First, let me just thank the gentleman from Georgia (Mr. ISAKSON) for bringing this resolution to the floor, and those of us in Connecticut accept his good wishes on this issue. I also want to thank the gentleman from the Connecticut delegation (Mr. SIMMONS) for introducing the resolution honoring the Huskies for capping a perfect 39 and 0 season. That is right. Say it again; a perfect 39 and 0 season, with their third NCAA women's basketball championship. Under the guidance of NCAA division Coach of the Year, Geno Auriemma, the Huskies dominated their opponents on the court. The 2002 Huskies are destined to be remembered as one of the best basketball teams in sports history.

The people of Connecticut are justly excited and proud of their Huskies who have set an example for us all with their teamwork and with their standard for perfection. They ranked number 1 in the Nation in scoring, 3-point shooting percentage, scoring defense, and field-goal percentage allowed. They set an NCAA record with a season-long average victory margin of 35.4 points, and set a national record with 831 assists. Throughout the entire season, only 1 opponent lost by less than 10 points.

The individual talent of the Huskies' players, and particularly the 5 starters, meshed to make them an unbeatable force. Their talent was recognized with a number of accolades. All 5 of the starters, Asja Jones, Swin Cash, Tamika Williams, Diana Taurasi, and Sue Bird, made the Big East All Tournament team and they were also selected as All Americans. Swin Cash was named the final 4 most outstanding player. Sue Bird, who scored 14 points in the championship game, was chosen as the National Championship Player of the Year and won the Honda Award for women's basketball.

These women have illustrated for us the results of Congress's commitment, through Title IX, to getting girls involved in sports.

I might just add on a personal note, many, many, many years ago at the Academy of Our Lady of Mercy in Milford, Connecticut, I played basketball. I am so old in this process that women could only play half court at that time. We have really turned things around.

Really what title IX has provided is that it has shown that given the resources, that women are just as talented and as exciting to watch as any men's team that is out there. With their hard work, their absolute determination, and their commitment to teamwork and, quite frankly, doing what they love to do on and off the court, these talented young women have proven themselves to be role models for girls and boys across this great Nation. They have set a new standard of excellence that teams in the future will strive to match. The UCONN Huskies have achieved perfection and inspired us all.

Mr. Speaker, I congratulate the Huskies on their championship win and on their perfect season. They have truly earned this recognition. Go Huskies.

Mr. Speaker, I reserve the balance of my time.

Mr. ISAKSON. Mr. Speaker, I am pleased to yield 3 minutes to the distinguished gentleman from Connecticut (Mr. SIMMONS), the author of the resolution.

Mr. SIMMONS. Mr. Speaker, I thank the gentleman from Georgia (Mr. ISAKSON) for yielding me this time.

I rise today and join all of my Connecticut colleagues to honor the 2002 NCAA women's basketball champions, the University of Connecticut Huskies.

This resolution recognizes a team that my home State is so proud of, a group of young women who have excelled both on and off the court. Led by NCAA Player of the Year and WNBA number 1 draft pick, Sue Bird, along with her senior teammates, Asja Jones, Tamika Williams, and NCAA most outstanding player Swin Cash, the Huskies capped a perfect 39 and 0 season by beating the University of Oklahoma 82 to 70; 82 to 70. Mr. Speaker, 3½ million viewers, including all of Connecticut, watched with pride as the Huskies claimed their place as the undefeated national champions and one of the all-time greatest basketball teams in history.

Founded in 1881, the University of Connecticut has a rich history of providing educational opportunities for undergraduates of diverse interests, abilities and backgrounds, and the Huskies now add another national championship title to their world class academic reputation.

So many outstanding young women helped make the 2001–2002 season a smashing success, and I mentioned 4 seniors. But in addition to these, we have the fifth Huskie starter, Diana Taurasi, and other players on the team, all of whom could have started just about anywhere in the country.

□ 1930

There were Jessica Moore, Ashley Battle, Maria Conlon, Morgan Valley, Ashley Valley, and Stacey Marron. A special "Way to go, Huskies," goes to head coach Geno Auriemma, associate coach Chris Daily, and coaches Tonya Cardoza and Jamelle Elliott, as well as to athletic director Lou Perkins, and the parents of this team. Finally, I commend UConn President Phillip Austin and his administration for fielding such a fine team of scholar athletes.

Mr. Speaker, I look forward to standing on the floor next year, hopefully, to commend yet another UConn women's NCAA basketball champion. But for today, it is the 2002 team.

Mr. ISAKSON. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Connecticut (Mr. SHAYS).

Mr. SHAYS. Mr. Speaker, I thank the gentleman for yielding time to me, Mr. Speaker. This is going to be kind of an echo of the gentlewoman from Connecticut (Ms. DELAURO). We are going to say the same things, but every time we say it, we like it even more.

My constituents and all of Connecticut congratulate the University of Connecticut Lady Huskies for winning the 2002 NCAA Women's Basketball Championship. These Huskies truly deserve the title "Best in Show." In my expert opinion, this is the greatest team, the greatest team in the history of women's college basketball, and who knows if it will ever be repeated.

How good were the Huskies? Consider that in posting their 39 and O record, they never once trailed in the second half all season. Their average margin of victory was a remarkable 35 points. During the NCAA tournament, they won their six games by an average margin of 27 points.

At 87.5 points per game, they were the highest-scoring team in the Nation, and with an average of 51.4 points allowed, they had the second stingiest defense.

Mr. Speaker, this team is characterized by its quick passes, ferocious rebounding, intense defense, and precision shooting, all of which were a cut above the rest of the competition, a big cut above.

But most of all, what strikes me about the Lady Huskies is their emphasis on teamwork, their awesome teamwork: 831 assists. What a pleasure to watch them.

On their way to their second championship in three years, the Lady Huskies were led by the unselfish play of four sensational seniors and a super sophomore: National Player of the Year and All-American Sue Bird, Final Four Most Outstanding Player and an all-American, Swin Cash, and All-Americans Asjha Jones, Tamika Williams, and Diana Taurasi.

The Lady Huskies were also a team feared for their depth. I want to take a moment to recognize Maria Conlon, Stacey Marron, and two sisters, Morgan and Ashley Valley.

NCAA Coach of the Year, Geno Auriemma, put together an unbelievable team with his coaching staff.

These UConn Huskies are the new measure that all teams have to meet. They were really a joy to watch, and I congratulate them on all they have achieved.

I also want to congratulate them for being such extraordinary role models for Americans young and old.

Mr. ISAKSON. Mr. Speaker, I am very pleased to yield 2½ minutes to the gentlewoman from Connecticut (Mrs. JOHNSON), whose height might be challenging for basketball, but whose spirit is national championship caliber.

Mrs. JOHNSON of Connecticut. Mr. Speaker, I thank the gentleman from Georgia, but I would remind him in those days when speed mattered more than height, I was quite okay.

Mr. Speaker, I rise with my colleagues from Connecticut to pay tribute to a truly great team. These young women have played now, four of them, for 4 years for UConn, and it is not just the top team that is so impressive, it is all the way down through the bench that this team is truly a model for all young women across the Nation.

First of all, let me remind Members that on Sunday, March 31, they defeated Oklahoma University to win the NCAA tournament with a perfect record of 39 wins to zero losses.

I would also like to offer special congratulations to the head coach, Geno Auriemma, who won his third national title, and all the players this season, including the departing seniors, who have had a most remarkable 4 years.

Geno is a remarkable coach, and I think this team is, as his previous teams were, evidence not only of his skill and leadership, but their character and intelligence.

I rise today because these young women are not just champions in the basketball world, as important as that is. They are not only skilled individual basketball players, but they are outstanding team players, and it is that that their coach, Geno, has taught them: How to work together, how to help the other guy, how to make sure that each brings out the very best in the rest of the team, because success is never the consequence of any one individual player's skill, as in life success is never the consequence of one individual human being's actions, but always of the teamwork and interaction among free, capable, and skilled people.

But these young women are not just skilled athletes and great team members. They are, in fact, fine students. They do extremely well in their courses, and they are women of integrity and character.

Their concern for one another, the way they treat one another, the respect for one another, their honesty, their integrity, and their moral character has been an inspiration to the young women of our State and across the Nation, as well as their skill and teamwork.

I salute them here tonight on the floor of the House, and I join my colleagues from Connecticut and the people across our great State in saluting this women's basketball team for their enormous victory on Sunday, March 31.

Ms. DELAURO. Mr. Speaker, I yield myself such time as I may consume.

I just want to say that I think we can hear from what my colleagues from Connecticut and myself are saying as to how the UConn Huskies, the women, have captured the enthusiasm of the State, whether young or old, men or women, but particularly women.

I will just say that my mother, Louise DeLauro, is 88 years old. She is fixed to the TV when the women are playing, and I will tell Members why. When she was growing up, and I did not know this until really listening to her and watching her watch this game and looking at the plays, and it was just amazing to me, she talked about women's leagues when she was in school, in which she played in the city of New Haven, eight leagues of women playing in one city in our State. And given that she is 88 years old, Members can figure out how many years ago that was.

We literally have come full circle. This is intergenerational. We have Louise DeLauro at age 88 fixed to the TV, and we have young women all over our State looking at these women as real role models. It is a change in how not only our State, but this country views women in competitive sports and views women's basketball.

Mr. SHAYS. Mr. Speaker, will the gentlewoman yield?

Ms. DELAURO. I yield to the gentleman from Connecticut.

Mr. SHAYS. Very briefly, I would love to just say, Mr. Speaker, that this basketball team and the teams that Lew Perkins has put together, the athletic director, have brought Connecticut together.

I represent a part of Connecticut closer to New York City, and sometimes my constituents think they vote for the Governor of New York instead of Connecticut. But this basketball team has done an amazing job of making all of us so proud and feel so much a part of Connecticut.

I would say one other thing. When we watch this team, we are not going to see their names on the back of their Jerseys because Geno points out that they are all a team, and no one is better than the other. Their names are not there. They are the team, the UConn Huskies. They do a great job.

Ms. DELAURO. Mr. Speaker, I yield back the balance of my time.

Mr. ISAKSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I have no further questions, but I join with the gentlewoman from Connecticut (Ms. DELAURO), the gentleman from Connecticut (Mr. SIMMONS), the author of this legislation, the gentlewoman from Connecticut (Mrs. JOHNSON), and the gentleman from Connecticut (Mr. SHAYS) and others.

I commend it to the House and urge its adoption.

Mr. LARSON of Connecticut. Mr. Speaker, I rise today to honor the extraordinary dedication, hard work, and ability of the 2002 National Collegiate Athletic Association's Women's Basketball Champions, the Huskies of the University of Connecticut. I am proud to be an original cosponsor of House Concurrent Resolution—to honor the University of Connecticut women's basketball team for their incredible achievement. On Sunday, March 31, the Huskies completed their perfect season with a hard-earned victory over the Oklahoma Sooners. With a record of 39 wins and no losses, the Huskies were named for the second time in three years as the NCAA champions.

Of the five starters this season, four were seniors: Sue Bird, Swin Cash, Tamika Williams, and Asjha Jones. During their four years at the University of Connecticut, they had a record of 136–9, made three Final Fours, and won two National Championships. They were only the fourth team in women's college basketball history to go undefeated, tying the record for the most wins. Throughout the season the team had an average margin victory of 35.4 points, and never trailed in the second half of a basketball game.

Members of the team won various awards this season. Sue Bird won the Wade Trophy for National Women's Player of the Year, Naismith Player of the Year, and was selected for AP First Team All-America Honors. Swin Cash and sophomore Diana Taurasi were selected to the All-America Second Team, Asjha Jones made the All-America Third Team, and Tamika Williams received Honorable Mention All-America. Coach Geno Auriemma was selected as Naismith Coach of the Year and 2002 Russell Athletic/WBCA Division I National Coach of the Year.

Those associated with women's college basketball have claimed that this Husky basketball team is among, if not, the best team in the history of the Women's game. I believe the ultimate compliment was paid to this team when Pat Summitt, coach of the Tennessee Lady Vols, said: "[Geno's] done a great job with them and they're big play people all across the board. And what I really admire about this Connecticut team is how hard they play and how inspired they are in every possession. I did not recall seeing a player not play hard every possession. And that speaks for their character and what they brought to the court tonight against us. But I may do to the graduation and cheer. You think they'll let me go? I might be there.

I would like to extend my personal congratulations to the UConn Husky women's basketball team. The entire State of Connecticut is proud of the Husky team, which has helped turn Connecticut into the center of women's college basketball. Therefore, I ask my colleagues to join me in support of this resolution and to celebrate the talents of this exceptional team.

Mr. ISAKSON. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PENCE). The question is on the motion offered by the gentleman from Georgia (Mr. ISAKSON) that the House suspend the rules and agree to the resolution, H. Res. 401.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 1950

Mr. DAVIS of Illinois. Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H.R. 1950.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2871, EXPORT-IMPORT BANK REAUTHORIZATION ACT OF 2001

Mrs. MYRICK (during debate on H. Res. 401) from the Committee on Rules, submitted a privileged report (Rept. No. 107–423) on the resolution (H. Res. 402) providing for consideration of the bill (H.R. 2871) to reauthorize the Export-Import Bank of the United States, and for other purposes, which was referred to the House Calendar and ordered to be printed.

THE REAUTHORIZATION OF TANF

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. DAVIS) is recognized for 5 minutes.

Mr. DAVIS of Illinois. Mr. Speaker, as we move towards the reauthorization of TANF, and as we look at the whole question, the whole issue of welfare reform, I think there are some principles and concepts and realities and truisms that we need to deal with.

First of all, we need to understand that in order for people to move from welfare to work, that more education and training is needed and necessary, as opposed to more work requirements.

The 24-hour direct work-related activity that is proposed is too strict. The only 16-hour non-direct work-related activity does not allow an individual to receive adequate educational or vocational training, and does not allow the ability for adequate job training and education.

We need to understand, Mr. Speaker, that education is needed for recipients to get off welfare permanently. We need to allow recipients the opportunity of 24 months of job training or vocational training, and 2 years of degree attainment. That is to suggest that they need to be afforded the opportunity to acquire at least an Associate of Arts degree.

Recipients must compete with the lagging economy and the fact that more college graduates are now stuck in low-paying jobs. We need to understand that recipients need education, education, and education if they are to increase the possibility of moving from welfare to work.

We need to allow for high school diploma attainment, English language learner classes, and adult basic education, including adult literacy programs. Education and training make a critical difference in employability, earnings, and job retention.

In 1998, 28 percent of TANF recipients worked for substandard pay while still qualifying for aid. People leaving welfare earn around $6.61 per hour, or from $8,000 to $12,000 a year.

□ 1945

More education is obviously needed if they are to earn enough to earn a decent living. Welfare rolls dropped 22 percent between 1995 and 1997. However, poverty among families headed by single mothers dropped only 1 percent. The reality is that the poor are getting poorer. Many must choose between child care and work. We must reduce the extent and severity of poverty and promote self-sufficiency among families if we are doing anything serious about moving people from welfare to work. Child care funding needs to be adjusted for inflation. We must increase Federal funding for the child development funds to meet the needs of all eligible children. And we must invest enough in child care to make a difference. Mothers who work low-wage jobs often do not have benefits to leave work when the child is sick or they work conflicting hours. The annual cost of child care is $4,000 to $6,000 and can rise as high as 10,000. Child care must be an integral part of any effort to move people from poverty, from welfare to work.

So I urge, Mr. Speaker, that as we move towards reauthorization of TANF we realize what we are trying to do is to move people not from just welfare to work but from poverty to a decent level of living.

HONORING YOUTH NEED PRIME TIME

The SPEAKER pro tempore (Mr. KELLER). Under a previous order of the House, the gentleman from Indiana (Mr. PENCE) is recognized for 5 minutes.

Mr. PENCE. Mr. Speaker, I come today to this Chamber having had an extraordinary morning in east central Indiana. At my side was the conference chairman for the Republican majority of the Congress, J.C. Watts, who is, among other accolades including Orange Bowl hall of famer, a football player and one of the best known members of this institution nationally. He is a man, as I learned today, deeply committed to the least of these and to coming alongside those in community, not sadly, Mr. Speaker, often associated with the Republican Party in this day and age, but a community that is nonetheless deeply in need of attention and, specifically, legislative attention by this Congress.

Today J.C. Watts and I traveled to the west side of Anderson into, Mr. Speaker, a ramshackle house, dilapidated, the floors creaking beneath us, an old refrigerator humming in the back room full of Cokes and snacks. We stood before some 30 people, teenagers, largely minority young men and women, all of them from disadvantaged families, each of them from one degree or another in trouble with the law, in trouble at school. And all of these students gathered as this football player-turned-Congressman and as this talk show-host-turned-Congressman stood in front of them extolling the virtues of the leader of that organization, Youth Need Prime Time, Thomas Jackson; the work that he had done in that place and in lesser places, Mr. Speaker, over the last 16 years, touching the lives of some 3,000 young people in one of the most disadvantaged areas of the Second Congressional District of Indiana.

I heard J.C. Watts as he spoke about the lies on the street, having grown up in a disadvantaged black family himself. His father, Buddy, having not ever gone to school beyond the second grade, J.C. Watts was able to speak with authority to these young people about the lies of believing that it will never happen to me, believing that the rules of law and the rules of nature will never catch up with them and least of all the long arm of the law.

I saw those young people, Mr. Speaker, with rapt attention as they listened. But my heart nevertheless went out to the leaders of that organization who make it, Mr. Speaker, hand to mouth, barely paying the rent, barely having the resources to run the organization as it has impacted so many lives since 1986.

And my mind wandered to the legislation that we passed in this House almost now a year ago, legislation known as the Community Solutions Act. It was legislation commonly described as the faith-based initiative that would encourage charitable giving, expanding charitable choice to include faith-based organizations just like Youth Need Prime Time; and saying to these organizations that they would be allowed to compete for Federal grants in the areas of housing, job training, child welfare, child care services, crime prevention programs and the like.

As I looked this morning into the eyes of Sharekia, a 14-year-old girl who had made a decision, Mr. Speaker, to say yes to life, bringing a small child into the world even at that tender age, I thought of the frustration of a system that discriminates against ministries like Youth Need Prime Time simply because on occasion they mention God, on occasion they have a Bible study or have a cross on the wall.

So I simply rise today to speak of an extraordinary experience with J.C. Watts, a man of extraordinary voice in our party. But I also think, Mr. Speaker, of the critical need for this Congress and this government to amend the laws of this Nation, to come alongside organizations like Youth Need Prime Time, to courageous men like Thomas Jackson and his family and the volunteers that are there every day of the week, day in and day out, coming alongside some of the most troubled and disadvantaged young people in the district that I serve and saying that not only is the American dream alive, but it is alive for them if they will but have the faith and the self-sacrifice and the determination to reach it. Let us in this Congress extend the faith-based initiative and come alongside the least of these.

MUSHARRAF EASING UP ON TERRORISTS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New Jersey (Mr. PALLONE) is recognized for 5 minutes.

Mr. PALLONE. Mr. Speaker, since September 11 the United States and the rest of the world have been curiously watching President Musharraf of Pakistan and the role he has been playing on the war on terrorism. Fortunately, Mr. Speaker, he has been cooperative with the United States in our anti-terrorist activities. But unfortunately, Musharraf has shown no dedication to quelling terrorist activities in his own backyard, Pakistan and Kashmir.

Musharraf has created a double standard where he fights against terrorism globally, but winks at terrorist activity locally.

Mr. Speaker, following the October 1 attack on the Jammu and Kashmir State Assembly and the December 13 attack on the Indian Parliament last year, it was clear that action against Islamic militants needed to take place. At that time, it was reported that President Musharraf outlawed two organizations responsible for terrorism in Kashmir, Jaish e-Muhammad and Lashkar-e-Taiba, in addition to arresting nearly 2,000 men supposedly linked to terrorists. This was done in an effort to crack down on terrorists. The impression was also given by Musharraf that the madrassahs, those schools with training in fundamental Islamic principles which were directly linked to terrorism, would be closed throughout Pakistan. But, Mr. Speaker, this is in fact not the case at all.

To begin with, the 2,000 supposed militants rounded up were for the most part arrested for minor crimes. From my understanding, there were two exceptions to this: the arrest of Masood Azar, head of Jaish-e-Muhammad and the arrest of Hafiz Saeed, leader of Lashkar-e-Taiba.

At this point, however, Mr. Azar has been demoted to house arrest, Mr. Saeed has been freed, and most of the 2,000 others that have been arrested have been released under the condition that they maintain good behavior.

There is no accountability, Mr. Speaker, for terrorist activity in Pakistan or Kashmir.

Musharraf is reversing his crackdown on terrorists, and terrorist groups that formerly existed are now rejoining other groups under new names.

Mr. Speaker, President Musharraf is cozying up to the United States and its allies under the pretense that he is leading Pakistan in a war against terrorism, while at the same time he is condoning terrorism at home, in Pakistan, as well as in Kashmir. This is not only exemplified by the release of those arrested, but also by the continued operation of the religious schools with curricula that encourage violence. This double standard is unacceptable and should no longer be tolerated by the United States.

Mr. Speaker, it is no coincidence that Musharraf has released many of these arrested, including the leaders of terrorist organizations at the same time as the referendum which would continue his dictatorship for 5 more years.

Musharraf relies on the militant fundamentalists to maintain his illegal seizure of power as president. He does not have the legitimacy that comes from being elected president by the people of Pakistan. He is required to link his military rule to a fundamentalist religious theocracy in order to justify staying in office.

Mr. Speaker, I also believe that peace between India and Pakistan and the negotiated settlement of the Kashmir issue is inevitably linked to a democratic government in Pakistan. Democracies rarely war with each other and are more likely to settle their differences through peaceful means.

General Musharraf's actions are moving in the opposite direction. An extension of his military regime will mean more encouragement to terrorism in Kashmir and ultimately I unfortunately think the greater likelihood of war with India.

EXPRESSING SUPPORT FOR ABSTINENCE EDUCATION PROGRAMS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, the gentleman from Michigan (Mr. UPTON) is recognized for 60 minutes as the designee of the majority leader.

Mr. UPTON. Mr. Speaker, I know that there are a number of Members wishing to come over tonight to talk on this Special Order, and I also know that there is a markup going on in the Committee on Armed Services, so a number of Members may put their remarks in as an extension of remarks.

We are holding this Special Order tonight to provide our colleagues and the public with information about a key component of the 1996 welfare reform law, title V, Abstinence Education Block Grant program. When we passed welfare reform in 1996, we emphasized a number of points, two specifically: work and responsibility. And we have made great strides in promoting work, but too many young people's dreams have been cut short by poor decisions that dramatically affect the course of their lives.

Teen birth rates have been falling for the last 9 years and that is good news. But nearly half a million teens are giving birth each year, a rate higher than those of most industrialized nations. And 8,519 births last year are to girls under the age of 15. We know that out-of-wedlock births and teen births take a high toll on the teen mom, the child and our society as a whole; and we know that that life is rough for them as well. And while the teen birth rate may be falling, sexually transmitted diseases, STDs, have reached epidemic proportions in this country, placing the health and the very lives of sexually-active teens in peril.

Today, one in four sexually-active teens is infected with an STD. Numerous studies show that if you give abstinence education a chance to work, it does. I know in my State of Michigan we have been at the forefront of this effort, and we have made significant progress in reducing teen births and the number of abortions through education and mentoring programs, and that has got to be our national goal.

Mr. Speaker, President Bush got it right when he said that abstinence is not just about saying no to sex, it is about saying yes to a happy, healthier future. Anyone who thinks abstinence education does not work has only to examine the Michigan record, my State. Begun back in 1993, Michigan's Abstinence Partnership, MAP, the MAP program, is an innovative approach implemented through the community empowerment model.

Community coalitions plan, implement, evaluate, revise and monitor the program. Parent education is provided to encourage effective communication with youth about the importance and the benefits of choosing abstinence. For the last 3 years in a row, Michigan has received a bonus award from the Department of Health and Human

Services given each year to up to five States which experience the largest decrease in their ratio of out-of-wedlock to total births while also experiencing a reduction in their abortion rate.

□ 2000

Michigan is far from alone in embracing abstinence education as an effective means of reducing teen pregnancies in out-of-wedlock births and of protecting our young people from the scourge of sexually transmitted diseases.

State participation in the title V abstinence program is voluntary, and for every $4 in Federal funding States receive, they must put $3 into non-Federal funding. So it is a 4-to-3 match, and yet interest in this program is very high.

Today 49 out of the 50 States are participating in the program. Over one-third of all school districts in the Nation now choose to teach abstinence education in their classrooms, and as part of their abstinence education programs, States and local grantees have launched media campaigns to influence attitudes and behavior, develop abstinence curriculum, revamp sexual education classes, start mentoring programs and implement other creative and effective approaches to encourage abstinence.

It is important to note that reauthorization of title V abstinence education program, which we did in the Committee on Energy and Commerce last week, will in no way affect Federal support for other teenage pregnancy prevention sexual programs. Let me say that again. The reauthorization of this program last week in no way affects other Federal support for other teen pregnancy prevention programs. There are at least 25 Federal programs providing funding for contraceptive and sex education while there are only three abstinence-focused programs.

Contrary to claims that my colleagues may have heard about restrictions about what may be discussed in abstinence education programs, nothing in the Federal law or the guidelines to the States prohibits the discussion of any subject.

Contrary to the claim that there is no scientific evidence that abstinence programs work, there are, in fact, 10 scientific evaluations available now showing that abstinence education is effective in reducing sexual activity.

Since 1996, the enactment of the Welfare Reform bill included abstinence education, teen pregnancy and birthrates have been falling. That is great news, but we need to continue and build on that success. Out-of-wedlock births are often disastrous for mothers, children, society as a whole, and children born out-of-wedlock are far more likely to be poor, suffer ill health, drop out of school. In the case of boys, they are twice as likely to commit a crime, lead to incarceration by the time they reach their early 30s.

STDs have reached epidemic proportions in our country, placing the health and lives of sexually active young people in serious peril. In fact, in the 1960s, one in 47 sexually active teenagers were infected with an STD. Today it is not one out of 47, it is one out of 4. Young people need to know that having sexual relations puts them at risk not only for HIV/AIDS but also herpes, which is obviously incurable, and may affect babies during birth, resulting in severe damage or death.

Teens need to know they are at risk for human papillomavirus, PHV, which is the leading viral STD and which causes nearly all cases of cervical cancer, and they need to know that scientific research shows that condom use offers relatively little protection from herpes and no protection from HPV. Abstinence education programs provide the right information.

Too many of our kids' dreams have been cut short by poor decisions that dramatically alter the course of their lives. Abstinence education programs give our young both the inspiration and education that they need to make good, healthful decisions. Our young people look to us for clear messages and for help in setting high standards for themselves. Abstinence education programs will, in fact, give them that help.

I would yield to my friend and colleague, the gentleman from Oklahoma (Mr. SULLIVAN).

Mr. SULLIVAN. Mr. Speaker, I thank the gentleman from Michigan (Mr. UPTON) for yielding me the time.

Mr. Speaker, I am here tonight to raise some very important issues and shed light on the importance of abstinence education. Some would say we are sending a mixed message with both abstinence education and sex education. To say kids are hearing two messages which are confusing and that one should go away is absurd. Do we tell them if they are going to drink and drive to make sure they wear a seat belt? Do we tell them if they are going to use potentially deadly inhalers that they should sniff slowly?

No. We know that drinking and driving is wrong, period. We know that inhaling potentially deadly substances is wrong, period. In my opinion, sex ed or the just-in-case message is the cause of confusion for kids. Just as we expect kids not to drink and drive, because of the dangers they pose to themselves and others, we should teach them to be safe, truly safe, and have self-confidence in themselves without looking for their self-worth in physical activity that may put themselves and others at risk. Just as we expect them to excel at their studies, we should expect them to excel in making wise choices for themselves.

I believe this is truly compassionate conservatism. I know that certain behaviors will affect children adversely, and to work towards helping them understand how to act and why it is important in their own lives. What are the risks of not staying abstinent? STD, out-of-wedlock births, abortion, and physical and emotional injury. Here are some facts to consider.

In the 1960s, the dominant diseases related to sexual activity were syphilis and gonorrhea. Today they are incurable viral diseases. Approximately 6 percent of adolescent females tested at family planning clinics are infected with Chlamydia, which leads to the scarring of the fallopian tubes and is the fastest growing cause of infertility, and the National Institutes on Health Workshop on the Scientific Evidence of Condom Effectiveness for STD Prevention reported that there is no evidence that condoms reduce the sexual transmission of HPV, and no evidence that condom use reduces the risk for transmission of herpes.

In 1995, the year before we enacted welfare reform, 66 percent of families with children headed by a single parent were living in poverty. Living in a single-parent family approximately doubles the likelihood that a child will become a high school dropout. Is this the legacy we should be teaching kids to pass to their children?

No. I think we should teach children to act responsibly. I want to tell my colleagues about a great program in my district, KEEP. KEEP teaches kids outside the school setting how to build solid relationships and avoid peer pressure that might lead them down the road of sexual promiscuity. They help kids understand rules and boundaries necessary in relationships so that unplanned pregnancies can be avoided, and they do it in such a way as to make kids think, to answer questions and understand consequences, not just preach to them.

I commend them for their work and I firmly believe this approach is the correct one. Kids need to think through things before they take actions that may affect them adversely later in life.

One of the greatest tragedies of our days is not just that our babies are having babies, but that our young daughters are often taking the lives of their unborn children through abortion. Studies are beginning to show a link between breast cancer and abortion. Our young girls must be taught this, must know what the possibilities are when they choose to have sex outside of marriage and choose to have an abortion.

The psychological consequences of abortion are well known, even to women who have abortions, and the physical consequences range from the inability to conceive later to serious medical emergencies which threaten the life of the woman. Abstinence teaches self-respect and gives a path for kids to follow that does not lead them down a path like this.

There are consequences of early sexual activity, emotional, psychological injury. Sexually active youth live with anxiety about the possibilities of unwanted pregnancy or contracting a devastating sexually transmitted disease.

As the quotes we read from young people participating in abstinence programs unfortunately indicate, becoming sexually active makes young people vulnerable to emotional and psychological injury. Many young girls report experiencing regret or guilt after their initial sexual experience. So let us review.

Abstinence education teaches kids to avoid STDs, to avoid unplanned pregnancies, to avoid going down the path that leads towards abortion, to avoid the possibility of physical or emotional scars, towards self-confidence, and it gives the States the flexibility to decide which programs to fund.

It is a win-win situation all around, and I hope my colleagues in the House will support a strong abstinence education definition and continued funding for strong abstinence education programs.

Mr. UPTON. Mr. Speaker, I thank the gentleman from Oklahoma for his great statement, and I would yield to the gentleman from Florida (Mr. BILIRAKIS), my friend and colleague, and the Chairman of the Subcommittee on Health, who helped carry the abstinence reauthorization through the committee last week.

Mr. BILIRAKIS. Mr. Speaker, I thank the gentleman from Michigan (Mr. UPTON) for scheduling today's special order.

I, too rise, this evening to talk about an issue that the Committee on Energy and Commerce, Subcommittee on Health, which I chair, examined last week. I am referring, of course, to the Abstinence Only Education Funds, which are provided through title V of the Social Security Act.

The Committee on Energy and Commerce favorably reported legislation last week that would reauthorize this important program through fiscal year 2007. These Abstinence Only Education Funds were first included as part of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, which reformed our Nation's welfare laws to put an emphasis on work and end the seemingly endless cycle of dependency that was present under the old Aid to Families With Dependent Children Program.

Title V allocated $50 million for fiscal years 1998 to 2002 for block grants to States for the development of Abstinence Only Education programs. To date, 49 of the 50 States have elected to participate in this program. I am very pleased, of course, that my own State of Florida has elected to participate in this program.

In fact, during my subcommittee's hearing last week, we heard from Ms. Jacqueline Del Rosario, who runs a project in Miami titled ReCapturing the Vision. Ms. Del Rosario started the program in a middle school in an impoverished area of Miami, Dade County. In its 8 years of operation, participants in ReCapturing the Vision have only a 1.1 percent pregnancy rate, and I repeat that. In its 8 years of operation, participants in ReCapturing the Vision have only a 1.1 percent pregnancy rate.

Ms. Del Rosario testified that one reason why she believes her program has been so successful is because, "ReCapturing the Vision does not just teach teens to say no to sex, but we also build their values and cause them to embrace the future."

Ms. Del Rosario went on to add that "Contraceptives cannot protect a 15 year old from the erosion of her dignity and self-worth. There must be another value that causes teens to raise their standards and protect their emotional and physical health."

She further argued that diluting the Abstinence Only message was harmful. She went on to say, "I had heard it said that abstinence with contraceptives was a 'mixed message' but I never believed it to be true." However, she learned that, "Kids need a concise and clear message. To hear it from the students caused me to believe that we must be the voice that tells them that we expect them to abstain and we believe they can do it."

By continuing title V funding for another 5 years, we can encourage the development of more successful programs like ReCapturing the Vision. This is so critically important because the consequences of ill-advised sexual activity by young people is severe, and I asked her specifically during the hearing if the other title V programs in the rest of the country are somewhat similar to hers or at least follow basically the same concept, and her answer is, yes, they are.

Again, I want to emphasize, these are not "just say no" programs. They go into the broad work and the character of the individual. This is so critically important because the consequences of ill-advised sexual activity by young people is severe.

Another one of our witnesses, Dr. Joe McIlhaney, told us that, "Sexually transmitted infection is highly prevalent among adolescents. 3 to 4 million sexually transmitted diseases are contracted yearly by 15 to 19 year olds, and another 5 to 6 million sexually transmitted diseases are contracted annually by 20 to 24 year olds." As we all agree, and everybody agreed, abstinence is the only sure way to prevent the spread of sexually transmitted diseases, as well as out-of-wedlock pregnancies.

□ 2015

I would like to point out one important fact that I highlighted during my subcommittee's hearing and the subsequent full committee markup. Abstinence-only programs do not prohibit educators from discussing the facts about the effectiveness of contraceptives, the spread of sexually-transmitted diseases, or any other topic that might be raised. The only requirement is that the use of contraceptives cannot be advocated; only abstinence can.

In a recently-release interim report on the effectiveness of abstinence-only programs, the highly-respected research firm Mathematica noted that, and I quote, "Obtaining clear and definitive evidence on the success of abstinence evidence programs is a difficult task that requires time." Until this comprehensive assessment is complete, in spite of the fact we hear about the success rates by Ms. Del Rosario and others, until the assessment is complete, and given the anecdotal success we have learned about from programs like ReCapturing the Visions and others, we should continue to fund these programs so we can have an accurate picture of their effectiveness and to gain the value of the good that they do. The proven good they do.

I thank the gentleman for yielding.

Mr. UPTON. Mr. Speaker, I thank the gentleman from Florida for participating again tonight and for his leadership, which was certainly appreciated last week in committee.

Next I would like to yield to my friend, a member of the subcommittee that I chair, the Subcommittee on Telecommunications and the Internet, the gentleman from Nebraska (Mr. TERRY).

Mr. TERRY. Mr. Speaker, I thank my chairman. I appreciate that he is doing this special order tonight to bring the message out to the people of America what this good Congress is doing for our youth.

The gentleman was here in 1996 when this Congress passed the Welfare Reform Act with this important provision.

Mr. UPTON. Actually passed it four times.

Mr. TERRY. Four times. Well, the gentleman had a little trouble convincing some other people of the importance of not only helping people up out of poverty by teaching them special skills so they could become employed, but also on such important issues as teaching abstinence to our children.

It confuses me. I was simply a city councilman in 1996 when the gentleman were wrestling with this issue and facing several vetoes by the White House then. But I appreciate that the gentleman continued to persevere through those and eventually triumph, because I really feel it has been an important message to our youth that we adopt this Title V program where we have a specific, and let me stress that, a specific program to teach abstinence to our youth. It is the first time, as I understand, that Congress did this, in 1996.

I would assume that the Congress did it for the good-hearted and compassionate reason that when we want to lift people out of poverty, it is hard when we are trying to help a teenage mother out of poverty. If anything locks someone into their current status of poverty, it is having a child when one is 13, 14, 15, 16, and 17 years old. So it was certainly the compassionate thing to do, and I appreciate that.

It is just unbelievable to me now, entering my fourth year of Congress, and, again, I was not here in 1996, but that we are having these same battles again. It is just unbelievable when we look at the importance of such a program.

Let us talk a little bit about one of the reasons why I would assume it was such an important tenet in the Welfare Reform Act of 1996, and that is to try to help teenagers learn and understand the importance of not becoming a mother or a father when you are 14, 15, 16 years of age. So we are hoping to reduce the teenage pregnancy rate. In 1994, 46.6 out of every 1,000 teenagers became pregnant out-of-wedlock. Now, what is important, since the passage of this Act and this program, as of January 2000, this teenage pregnancy rate has fallen to 39.6 per 1,000 teenagers. That is incredible improvement over a short period of time.

The abstinence education programs that Congress began funding in 1996, I believe, has significantly contributed to this decrease. Here is a chart I brought for the American public tonight, and what we see here is at the zero level. This goes back to the 1940s when teenage pregnancy was really pretty rare all the way up to, and I am going to have to get away from the microphone here, but the spot I am pointing to is 1994, the critical year of the passage of the Title V abstinence program funding. That was the peak. That was the peak of teenage pregnancy.

I do not think it is coincidental that the time that we as a Nation agreed that abstinence was an important message for our teenagers that we have seen a dramatic drop in teenage pregnancy since then. When we had our hearing last week, some of the naysayers kept telling us, there is no evidence. There is no evidence. There is no evidence. But, my God, this is pretty dramatic. Does my colleague agree?

Mr. UPTON. Absolutely. I look at my State and that is exactly when teen pregnancies began to drop. And the nice thing about this program is it is not just Federal dollars, it encourages the States to establish their programs and it becomes a match. For every $4 of Federal dollars, the States have to come up with $3. And then there are incentives and awards if they actually do work.

Michigan has had a great program under the leadership of our governor, and we have seen that work and we have seen those rates continue to decline year after year.

Mr. TERRY. We in Nebraska have shared the same statistics because we have embraced the abstinence programs. We have several school districts, our public schools, that have adopted these programs and apply for reimbursement.

Mr. UPTON. One of the things I said last week during the markup in a discussion on the bill is that I visit a school, just like the gentleman does, just about every week, because I also serve on the Committee on Education and the Workforce. I go to all different sizes. I was on the Western Michigan University campus earlier this morning. But whether it be an elementary school, a high school, a private school, a charter school, and we passed a great charter school bill earlier this evening, but one of the toughest times that I have had sitting down with students is when I have met with kids that have kids, 13, 14, 15-year-old girls. They thought it was fun until they had the child. They see now what the work is and they have a tough life ahead of them. They really do. It is all we can do to encourage them to stay in school because their lives are changed dramatically if they do not continue to get that high school diploma or GED afterwards.

And as I have sat down with those girls, kids really is what it is, they know how tough it is. And it is that message, and I am now 49 years old and they do not always want to hear from a 49-year-old guy, so it is better for them to hear from their own peers. And they do not have a very good story to tell. We really got that discussion, as I said, at a number of different schools. We just sat around the table and they outlined for me the hardships that they now face and the realization that they probably should not have done what they did. And, frankly, it was before a lot of these programs came into play.

Abstinence does work. Those programs and that funding is important, and it keeps them on a much better path. Project Reality, a group from Illinois, came out with six good reasons to fund abstinence education: One, teens want to learn about abstinence. Nearly all teens, 93 percent, said they should be given a strong message about abstinence.

Mr. TERRY. Ninety-three percent felt they needed a strong message.

Mr. UPTON. Second, abstinence is the only 100 percent effective method of prevention. We know that. Three, most teens are not sexually active and most of those who are do not want to be.

The Center for Disease Control reports that about 36 percent of high school students are considered sexually active.

Four, abstinence education teaches the benefits of marriage and family. Surveys show that three out of four teens hope to have a good marriage and family life.

But here are two things that really stand out. Abstinence education offers significant economic and sociological benefits. Teens who choose abstinence are less likely to engage in other risk-related behaviors, such as underage drinking, smoking, and the use of illegal drugs. Pretty incredible.

Mr. TERRY. So a positive message goes across the board in their life.

Mr. UPTON. That is right. It is character and all the things we want. This program builds on that.

Mr. TERRY. Building character, self-esteem, the power to say no, to make those tough choices that our teenagers have to make on a daily basis.

Mr. UPTON. That is right.

Mr. TERRY. That is what this program teaches. It is not just the sex part, but it is teaching them the internal strength to say no; to recognize the situations where they can be manipulated by their peers; to identify that situation and remove themselves, but also to teach them the internal strength, the self-esteem to be able to say no once they have recognized that situation. That is important.

Mr. UPTON. Absolutely it is. That is why we had a very strong bipartisan vote last week to get this plan adopted. I think it was 35 to 17 in the committee. We look forward to having it on the floor for debate and a vote as early as next week as part of the welfare reform reauthorization bill.

Mr. TERRY. I look forward to that. And I really believe the abstinence program the Congress passed in 1996 and we get to authorize is one of the major causes of the drop in teenage pregnancy.

But we still have a long way to go. We have to recognize that while the hard empirical evidence may not be there for us yet, because of the fact that we are in the early stages of such an important program, that is not a reason to throw it out, as the 17 in our committee wanted to do.

Mr. UPTON. Well, imagine, as we look at the great progress that has happened on welfare reform. And it is on both sides of the aisle. The governors have done a terrific job. I have met with our Department of Social Services, now called our FIA offices back in Michigan. But as we look at the tremendous progress that we have had; more money for job training, assistance to help with health benefits, particularly Medicaid for families that before had an incentive to stay on welfare rather than go on to work, take a look at this program, the abstinence program, it is such a small amount of money really relative to the whole scheme of things. Fifty million dollars.

Mr. TERRY. Fifty million dollars.

Mr. UPTON. But look at the importance. Look at that drop, that fall off of the cliff of the birth rates for unmarried teens. Imagine if we went back to this program, to reauthorize it, as the governors have asked, and I think we have a strong bipartisan majority, certainly both in our Committee on Education and the Workforce and the Committee on Energy and Commerce, the committee we both serve on, but in this Congress as well, and imagine if we saw this program come to the brink of whether it gets reauthorized or not, something that all of us want, and somehow this program for abstinence was not included, despite the numbers showing the very positive effects of having this program included. Imagine if we just said no, we are not going to do that and then watched those numbers then rise.

Now, the jury is still out. We will see what the Congress does, this side as well as the other side of the Capitol, but imagine if all of a sudden we do not do it and the numbers go back up. Think of the impact on those kids that the gentleman and I see every day and of those families in virtually every single community across the country. I do not know that I could vote for a bill without this program.

Mr. TERRY. Not only on the sure ways that it affects teenagers' lives, but just think of the message that Congress sends, the message we would send the American public and the teenagers, which is that we do not care whether they abstain. Our only message is to teach them how to put a condom on right. That is a terrible message to send to our teenagers today that are looking, as the gentleman said earlier, for the right message.

Now, in this chart, and the gentleman and I have just talked about the importance of teaching a message to our teenagers to abstain from sex to prevent an unwanted pregnancy and, in essence, putting themselves into a position of perhaps perpetual poverty, but it is also health reasons, as we discussed in great detail in our committee last week. It is sexually-transmitted diseases.

As we have learned from the testimony, and the chairman of our Subcommittee on Health was up here and gave some great testimony from his witnesses that testified before his subcommittee, but the testimony that was presented to the rest of us in our committee was that when we really look at the true science of other ways of preventing STDs, sexually transmitted diseases, and how infective they can truly be, there is only one 100 percent sure way to avoid a sexually transmitted disease.

□ 2030

Mr. Speaker, from the testimony in our committee, I was very, very disheartened. It was depressing to learn that 3 million teenagers per year get a sexually transmitted disease, some of which they can never get rid of. It is not just go to the doctor and get a shot; some are deadly, or stay with them for the rest of their lives.

Mr. UPTON. Mr. Speaker, we learned that some of those diseases are not prevented with the use of a condom.

Mr. TERRY. That is right. The Journal of the American Medical Association published the results of a study on the effectiveness of condoms, which are the focus of most of the safe sex programs out there. It is 1,251 women whose partners consistently used condoms participated in the study. By its end, 34 percent of them had either contracted a sexually transmitted disease or became pregnant.

How do we teach our children safe sex, how to use contraceptives, how to use a condom, and look them straight in the eye and say they are safe?

Mr. UPTON. They are not. That is what the answer was, they are not. That is why this is the program that works best of all.

Mr. TERRY. Mr. Speaker, I was frustrated with the attempts for amendments in our committee by that small minority, and I am pleased that it has been pointed out this is a bipartisan effort. The vast majority agree that the abstinence message is the correct one for our teenagers. It is disheartening that there is a small minority out there.

Throwing away scientific studies, how do we look a teenager in the eye and say this is the proper way to put on a condom, and send them a message of abstinence at the same time? To a 16-year-old, that is tacit to approval, when an adult says the best thing is to abstain, but we know that you are not going to, so I am going to teach you to have safe sex using condoms correctly.

Now the testimony that the gentleman received in the Subcommittee on Health, and I truly believe to be plain common sense, that is tacit to approval. While safe sex education may be a proper place for parents and even in some discussions in more formal settings outside of the house, the fact of the matter is I do not know how we teach abstinence and safe sex at the same time. That is one of the issues that we are going to face when this bill is brought to the House floor. We are going to have to beat back several amendments to try and change an abstinence program into a safe sex program.

As I understand the way it works in Nebraska, and perhaps the gentleman can expand on how it works in Michigan, an entity, we have all the way from the Girls and Boys Town U.S.A., to Norfolk and Omaha public schools, to scouting that will adopt an abstinence-only program and teach that. Then they apply for reimbursement from the Federal Government out of that $50 million that we will allot with the reauthorization of this program. So it is not that we mandate on the public schools or other entities that this is the only thing that they can do. We say this is the most effective message or at least that is what I say is the most effective measure how to teach our children how to avoid sexually transmitted diseases and unwanted pregnancy, but we are not mandating. We are saying we will help you with the cost of this. I am proud in Nebraska we have several successful abstinence programs in place today.

Mr. UPTON. Mr. Speaker, we have been able to talk to participants that have participated in the program across the country. Whether it is Nebraska or Michigan or South Carolina, just about every State, and California is the one that does not participate, but the other 49 States do. In almost every single State we have testimonials from students that have participated that have said thank you. For those that did involve themselves with sex before, they are sorry. They talk about it in a number of testimonials that we have. It is important, and it is that type of peer pressure that works that we build upon as we see this program work in State after State after State.

Mr. TERRY. Mr. Speaker, according to our Nebraska Health and Human Services, since the program was implemented in 1996, we in Nebraska have brought this program to 15,000 students. It takes time to get a program like this up and running, the curriculum set, the standard set so they can move forward. 15,000 students is only in the last couple of years. But to exemplify the message that the gentleman just gave, let me read a letter from Girls and Boys Town. It used to be Boys Town, but they changed name to Girls and Boys Town.

In this letter it says, "Risk reduction sexuality education has been funded for many years. We are asking only for an equal opportunity to promote risk elimination. Changing the definition of abstinence to include birth control information and promotion will make it nearly impossible to tell which approach is the most effective in keeping our youth safe from disease and out-of-wedlock programs."

The counselors and the people that have developed the program at Girls and Boys Town are national leaders in this, and that is what they say: It confuses the message. They simply want the opportunity, when we have had years of funding sex education and reduction, let us go to prevention and teach that message. One more quote, if the gentleman will allow me to close with this, and I thank the gentleman for having this conversation with me.

This is from Lancaster County, that is Lincoln, Nebraska, and those in

Michigan know where Lincoln, Nebraska is, the home of the University of Nebraska. In the city of Norfolk, they have probably the most established abstinence programs in Nebraska.

Mike Huckabee, one of the counselors that helped develop this one in Lincoln, wrote to us, and forgive me for being a little wordy, but he has a paragraph that I think nails it for us. "Is abstinence effective? I firmly believe it is. Can I provide you with the evidence? The faces of those young people and parents tell me this is the message they are seeking to hear. They tell me they do not want the risk of STDs and pregnancies, that sex is not worth that. They tell me they can wait, they just need someone to support them in that decision. The evidence is around the corner, but for now I can only point you to the families who continue to tell us in droves to keep sending the message of abstinence until marriage, nothing else works. Abstinence works."

Let me go back to one sentence in my conclusion here. They just need someone to support them in that decision. Our teenagers, as the gentleman pointed out, are looking for their parents and the adults in society to support them in their decision for abstinence, and it is incumbent upon us in this Congress to support our teenagers when they decide to abstain from sex.

Mr. UPTON. Mr. Speaker, I thank the gentleman for his remarks tonight. As we look at a host of issues over this last year, a number of the votes that we have cast on other things, we have asked for science and the right equations be used as we cast these yes and no votes. The science is here. We know that this program works, and it would be wrong to deny this as a part of welfare reform as we look to have it reauthorized and continue to work and do what all of us want to have happen, and that is to move people that are currently able-bodied and have the tools to in fact lead productive lives and lead their families out of welfare and into a productive sector of our economy. This is a program that works.

The science shows that it does, and we have to make sure that we not only continue it, but we build upon it, allowing the governors to have the flexibility to match with their dollars to save more lives. That is what it is all about.

Mr. Speaker, I yield to the gentleman from Virginia (Mr. FORBES).

Mr. FORBES. Mr. Speaker, I thank the gentleman for his efforts in this regard.

I have listened to this debate tonight and I hear when people are talking about abstinence and all of the statistics, but let me give one actual fact. In one city that I represent, I had some of the leadership in that city that came to me and they said this, which just startled me. They said that 81 percent of the live births in that city were to unwed mothers, mostly teenagers. If we just stop and think about that, 81 percent, the economic and social consequences from that are enormous. The programs that they have been using, you can list all of them, but the one that is not there is abstinence education. We say this is a child problem. This is not a child problem, this is an adult problem.

I was amazed in Virginia when I had legislation there that would have allowed us to have abstinence education as a part of their curriculum, and in doing the debate and going through all of the issues that were there, there was one real culminating statement that was made by the opposition, and this was just to whether or not we should allow abstinence education to be taught. Somebody on the other side said we should not even teach abstinence education because it would confuse our children. If you do not think that our children are confused, all you have to do is spend 24 hours with them, and they are pulled in every direction imaginable, and they are looking to us not to confuse them more, but to set standards.

We do that every day. In government classes, we put them in at a high standard because we want them to be the best they can be in government. In English courses, we set a high English standard, and we say this is where you ought to reach and aspire to attain to. In our mathematics courses, we also do that.

The real question for us today is not whether abstinence works, it is whether or not we want it to work. The real question is not whether this standard is too high, it is whether we want a standard at all.

I have a great example of a student that I know back in one of the cities that I represent. He is now the most popular government teacher in that entire city; and yet he was at a point in his career when he was in high school, he did not know what he was going to do. One day a principal walking down the hall looked at that student, called him by name. He turned around and said, you would be a good teacher, you ought to be a teacher. Then he turned around and kept walking down the hall. It changed his life because that principal cared enough to set a standard and say you can do this. He became the best government teacher in that particular city.

Mr. Speaker, imagine if that teacher would stop our students and say when it comes to all of the problems that you have with sex today, if you would have abstinence, look at what would happen. One thing that we know is not every child would reach that goal, any more than they would in government or mathematics or English when we set high standards. But we know the ones that reach that goal, here are the things that would not happen to them: That student would not develop a sexually transmitted disease because of their abstinence; that student would not get an unwanted pregnancy because of their abstinence; that student would not keep from developing the career that they had always dreamed of because of that decision regarding abstinence; that student would not keep from going to college because of their decision to have abstinence. It certainly would not cause them to suffer from the guilt of making a bad decision that could negatively impact them for the rest of their lives.

□ 2045

But I would say to our chairman, despite all of your good works and all of the discussions we have heard here tonight and will continue to hear, I do not think we are ever going to reach the goal of having abstinence education in this country until parents really are demanding of us as leaders and educators, when they stand up and say our children deserve to have a program that works, and abstinence works.

I just thank the gentleman for his efforts on this. We will continue to work to make sure that all of our children get an opportunity to hear this standard and can strive to reach it.

Mr. UPTON. Mr. Speaker, I have a question of the gentleman. I know he is a great leader on this when he was in the legislature before he ran for Congress. Have his numbers been like Michigan's and other States across the country? Has the gentleman seen a real decline in pregnancy rates among teen moms?

Mr. FORBES. Ours is still at a point where it is too early probably for us to statistically be able to answer that. We believe that is what the numbers are indicating.

But let me tell you an even more compelling fact: I spend a lot of time going around to schools. I do not think one can just read about what students are thinking in a magazine or in a document or have some lobbyist tell you and that be the fact. I think the way you find out is to go in the schools and talk to the students.

There is not a school in my district that I am not in every year, once a year at least, talking to those students. When you do, and you sit down and you look at them and you talk to them, they are the ones that tell you this program works. They are looking for standards.

They are looking to us. We have been there. They do put more credibility in us sometimes than we give them credit for. When we tell them you can do well in college if you just try, a lot of them do that. When we tell them that abstinence works, it does work and they see the proof in the pudding. But if we tell them nothing, then they have no standards, no goals to reach.

So I suggest it is working not just because of statistics I see on paper, but looking into eyes of students I get to talk to, and they tell me it is working.

Mr. UPTON. I appreciate the gentleman's leadership. In the days past, and, obviously, in the days ahead, we have some big votes next week if we take this welfare reform bill up. This is an important component of that. I am delighted we passed it out of my committee, the Committee on Energy and Commerce, on a strong vote of 35 to 17, and we have to make sure we carry the day when we take this issue to the House floor for debate next week.

Mr. WILSON of South Carolina. Mr. Speaker, Heritage Community Services was formed as a coalition of community-based abstinence educators from across South Carolina with combined experience in the field totaling nearly 75 years. It was awarded a Title V abstinence education grant for implementing a state-wide program in 1998. Schools and communities have responded enthusiastically.

The Heritage programs are community-wide, serving more than 29,000 adolescents. The program's founder and CEO, Mrs. Anne Badgley, has been invited to address a number of Title V training programs across the country, as well as brief Pentagon undersecretaries of defense, the Army and Navy, and has testified before Congress.

GENERAL LEAVE

Mr. UPTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the subject of my special order just given.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

THE ABCs OF SECURING THE FUTURE OF OUR CHILDREN

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, the gentleman from Florida (Mr. BOYD) is recognized for 60 minutes as the designee of the minority leader.

Mr. BOYD. Mr. Speaker, I appreciate the opportunity to address the House and Nation tonight for a few minutes. The Blue Dog Coalition is going to use this hour to talk a little bit about ABCs.

Mr. Speaker, some may wonder, well, that is unusual for the Blue Dogs to be talking about the ABCs, but let me tell you a little bit about the Blue Dogs. We are a group of 33 Members of Congress, men and women, from all around the Nation that spends a great deal of our focus and efforts and time and resources here in Congress asking the Congress to act responsibly in its fiscal and budgeting matters.

We believe that this Congress and this Nation in the last year-plus has moved away from fiscal responsibility, and, as a result, we are endangering our children's future. So what we want to do tonight, Mr. Speaker, is talk about the ABCs of securing our children's future.

When Congress considered the budget last year, Mr. Speaker, the Blue Dogs warned about the danger of making long-term commitments for tax cuts or new spending programs based on projected surpluses. In less than a year's time, we have seen a dramatic reversal of the once promising budgetary outlook. We now face projections of deficits and increasing debt for the rest of the decade that go far beyond the temporary impact of the economic downturn or cost of the war on terrorism.

Congress and the President need to sit down, we need to roll up our sleeves, and we need to have an honest and open discussion about what we need to do as a Nation, as a Congress, to put the budget back in order, starting with the ABCs of fiscal discipline.

The Blue Dogs have outlined four solutions to avoid leaving our children and our grandchildren with the consequences of today's irresponsible budgeting decisions. The members of the Blue Dogs who are here tonight to address this House are going to talk about those four solutions. I want to outline them very briefly.

Number one is assuring honesty and accountability. We believe that the Budget Act of 1990, which expires later this year, should be reinstituted by this Congress. Unless we renew our budget discipline, Congress will continue to find ways to break its own rules and pass more legislation that puts more red ink on the national ledger.

The Budget Enforcement Act, of course, has two major provisions. One, it sets in place discretionary spending limits for 5 years; secondly, it extends and expands pay-go rules. The pay-go rule is simply legislation that says that mandatory spending or revenues that increase the deficit must be offset.

Secondly, the "B" of the ABCs is balancing the budget without raiding Social Security. We believe that this Congress should pass a balanced budget amendment to the Constitution which makes it a violation of the Constitution to deficit spend, unless there is an extraordinary vote of the Congress or an extraordinary reason to do so.

Thirdly, we believe that the third point that we would advance is what we call climbing out of the deficit ditch. That is, there should be a plan to restore balance to our Federal books, and that, of course, is going to be an issue that we get to talk about a lot in the near future because of the need to raise the Federal debt ceiling.

Fourthly, the fourth part of our ABCs is Defending Our Children From Paying Our Bills Act. This would require a supermajority to borrow money by the U.S. Congress. Many in this Chamber have, over the years, proposed that we would require a three-fifths vote to consider legislation that would raise taxes or some other sort of supermajority. Many of the Members of Congress support this notion, and we think that there ought to be also legislation which would require a three-fifths vote to borrow money.

I would like at this time to call on Members of the Blue Dogs, Mr. Speaker, that are in the Chamber. I would like to yield first to the gentleman from Illinois (Mr. PHELPS).

Mr. PHELPS. Mr. Speaker, I want to thank my friend and colleague, the gentleman from Florida (Mr. BOYD) for yielding. Let me first express my sincere appreciation for his leadership. He has been a consistent Member of Congress, not only of our Blue Dog Coalition, that has been steady at the helm in trying to bring attention to a problem with deficit spending and the need for balancing the budget and staying within our means. I appreciate coming on after his leadership being here before I entered Congress and helping us steer this direction. So I thank all my fellow Blue Dogs for giving me the opportunity to speak about a very important issue.

This is not our first and only time of trying to make this issue more paramount and put emphasis on what really needs to be done as we get through this session in terms of the money that is available and what we have hanging over our heads as debt in this country and the priority of our spending needs and how we should look at balancing the budget.

So tonight I just want to focus my time on discussing the Blue Dog plan for putting the budget back in order, starting with fiscal discipline. The Blue Dogs have consistently focused on fiscal discipline, having advocated honesty and responsibility in the budgeting process.

When Congress considered the budget last year, the Blue Dogs warned then about the danger of making long-term commitments for tax cuts or new spending programs based on projected surpluses. The projected surpluses were based on the very best of the situation that we were realizing through the high peaks of the economy in the last several years. That is not good, sound fiscal policy, to base anything on the very best. I believe we should look at the more reasonable moderate projections.

We did not. So, in less than a year's time, we have seen a dramatic reversal of the once promising budgetary outlook. We now face projections of deficits and increasing debt for the rest of the decade that go far beyond the temporary impact of the economic downturn or cost of the war on terrorism.

Congress and the President need to sit down, roll up our sleeves and have an honest discussion about what we need to put the budget back in order, starting with the ABCs of the fiscal situation we bring to your attention tonight.

The Blue Dogs have outlined four solutions, as the gentleman from Florida (Mr. BOYD) opened up our session tonight to say, to avoid leaving our children and our grandchildren with the consequences of today's irresponsible budgeting solutions.

The reason we keep drilling that point home about our children and our grandchildren is because we try to focus on what all of us hold sacred and dear, and that very much is an emotional tie back home to the real world. Sometimes the disconnect out here makes I think a lot of times people feel like we are not real people with real families, with real needs, and that we are somehow someone different.

We are just like any of you out there, and that is why we are trying to say we should treat this budget, which you have sent us here to lead the country with, as we would treat our own, that affects our own household, our children and our grandchildren.

So, we have outlined four solutions to avoid this particular problem. We want to assure honesty and accountability, and budget enforcement. Unless we renew our budget discipline, Congress will continue to find ways to break its own rules and pass more legislation that puts still more red ink on the national ledger. Enforceable budget restraints will shine a light on deceptive practices and construct a fiscal guardrail, keeping our spending within the Nation's fiscal means.

We are a unique body here. We can break the rules. We do, too often. And, guess what? We do not get caught at it often enough. That is what is happening here right now as this session unfolds. We are not dealing with the real numbers. The American people are not being told the true story, and yet they are being led to believe we can do all the good things that we asked and requested and promised we would do in our campaigns to get here to do what once we get here? To continue the deception? Or to lay it out in real terms, as we should, in honest measures. So budget enforcement is a real item.

☐ 2100

Balancing the budget without raiding Social Security. There is not one politician, not one campaigner, who said anything about getting into the Social Security trust funds or the surpluses. In fact, we said we have them locked away, right? Well, someone found the key. And when we open that door, there is an IOU there adding on to the other IOUs that we put on the American people for the past several decades. So this is adding on to the deficit that we already have in the Social Security and Medicare trust funds.

So we want to balance the budget without raiding Social Security. Well, how do we do that? Well, we need a constitutional amendment. We must vote on a balanced budget amendment to the Constitution that requires the President to submit, and Congress to enact, a budget that is in balance without using the Social Security surplus. Now, that takes courageous leaders. Every one of us claimed that we would be and that we were in order to be elected. Now we are here. Let us produce it. Let us not lend rhetoric; let us prove that we are those leaders that can make the tough decisions.

The amendment, to my way of thinking, could be waived in times of war or disaster, military conflict, or other threats to our national security. That does not mean that the present war on terrorism that we are in dictates the need for us to get into the Social Security and Medicare trust funds; it does not. Without the tax cuts that were imposed and the surpluses that were eroded and squandered because of that and other reasons, because of things that we did not look at last year or anticipate or ignored, whichever word we want to use to serve our purposes better, that is why we are where we are now. But we are talking about a military conflict or national security being compromised that is beyond our control, not because of what we added to the mistakes to get us to where we are now.

So I believe that a constitutional amendment is very much needed, and I am prepared to support it.

This would also include excluding the Social Security trust funds. Balancing the budget is meaningless if we borrow from our children and our grandchildren, as we said, to do it. This bill improves on other balanced budget amendments by excluding the Social Security trust funds from receipts. It is more of a crutch to lean on if we still depend on the Social Security trust funds to say we are going to have a constitutional amendment, not to get into the Social Security trust funds. So excluding those trust funds from the receipts would, I think, serve the purpose to keep us fiscally restrained and on the right path.

It also provides that when the trust funds begin to run a deficit, then Social Security would be placed back on budget, requiring that the government account for deficits elsewhere in the budget. See, that is what we do not embrace too often. We divert the attention away from those other things that sort of creep up in the budget, but we do not want seemingly the American people to discover what those are, so we divert it to the other priorities and things that we know that are popular. At least some want to do that.

Climbing out of the deficit ditch. Debt limit with a plan. Now, I have heard people on this floor of the opposite party say, show us your plan. Well, the plans that we have had cannot even get out of the Committee on Rules for a debate on the floor or to be voted on. Do we know why? Because they are afraid it would pass. It makes too much sense. It would put too much marginal people running in an election year on a compromising path. That is too uncomfortable. Let us deal with that later. That is the common cry we hear. Later, later, and the next thing we know, we are in our grandchildren's generation.

Blue Dogs believe that Congress has a responsibility to cover obligations through the end of the fiscal year, September 30, 2002, but that raising the debt limit by $750 billion as requested by the President is risky business, folks. First, the President and Congress must create a plan to put our fiscal house back in order, just as a family facing financial problems must work with a bank to establish a financial plan in order to get approval to refinance their debt, all their debts. That is all we are asking. It makes sense.

Defending our children from paying our bills. A supermajority, a three-fifths vote, would be required to borrow money. That is what I feel would be one of the four points of our plan that should be followed. All too often, we as Congress people and the President have been unwilling to make the tough choices to balance our priorities and have chosen to leave future generations, as I said and emphasized, to pay the bill for policies which benefit the current generation by increasing the borrowing. Making it harder for Congress to borrow money, just as we should make it harder to increase taxes, by requiring a supermajority, will protect the rights of future generations who are not represented in our political system, but will bear the burden of our decisions today.

Finally, just let me leave my colleagues with a personal situation. Being from Illinois, having served 14 years in the Illinois House, I have a little bit of knowledge of what goes on there with the budgetary policies in Illinois. Illinois, like probably all of the State legislatures across our land, shared the same maybe artificial enthusiasm, maybe overexaggerated the good times of our economic peaks as we have had in the last few years and said everything is hunky-dory, no problems. What that meant is, Members, bring your projects, bring everything to the forefront here and smooth sailing, because we are rolling high.

Well, in Illinois, just as here in Congress, a year ago, or even before that, Illinois was in good shape, fiscally in good shape. But because of misguided management from the top in Illinois, and too many that took advantage of an artificial, overpromoted situation, guess what now? We have prisons in my district, and we have unemployment rates exceeding 12 to 15 percent down State, southern-most Illinois. We are good neighbors in saying, we will take in the prisons in our communities where other parts of the State said, no, we do not want those kind of jobs here in our community. But we were hurting enough with the coal mine shutting down and a lot of other depressed, deprived situations in our economy, we said, we will be a good neighbor.

So I have one of every kind of penal institution the State has to offer in my district, even in my old State district, and we are proud to promote those economic jobs, economic builders. But now, now the Governor of Illinois and leaders of the State are saying, we have to close some of these prisons because we are broke. Somebody was asleep at the switch, and our own comptroller of the State over a year ago said, you better have a rainy-day fund, just like you do in your household when that roof might leak. Instead of just continuing to mop it up and treating the effect; you have to get the source of the problem where the hole in the roof is. That is what we have ignored in Illinois, even though there are a lot of good leaders who sounded the alarm, both in the legislature and constitutional officers, but not enough of the authority at the top.

So now we even have threatened Medicaid patients that will not get their due service, many that are the most vulnerable of our society, senior citizens. This is terrible. It could have been avoided. That is why we are stressing this four-point plan. Let us do what is responsible. Let us get to the source; and the source is recognizing that there should be honesty in budgeting, recognizing the true source of funds that we have that the Congressional Budget Office is reporting, instead of turning our heads the other way, hoping that the economy is going to get better and maybe make us right at some point down the road. That may be too late. Let us embrace what reality obviously is serving us now.

Mr. BOYD. Mr. Speaker, I want to thank the gentleman from Illinois. It is obvious to me, as he described his experience in the State legislature, that his State, like mine, is prohibited from borrowing money and must balance its budget. I believe that is the way that the Federal Government should do; and certainly one of the shortcomings in the way our Constitution is drafted is that we are allowed to borrow money in ordinary circumstances and, actually, we did run deficits from the late 1960s until about the year 2000, primarily in peace times. So we had a wonderful opportunity here in the 1990s, or here in the year 2000, 2001, now that we have worked so hard to get back into balance to do some really good things and pay down the Federal debt. We seem to have passed, or missed, that opportunity.

Mr. Speaker, I yield now to the gentleman from Utah (Mr. MATHESON), a member of our Blue Dog team who is actually a rising star in this Congress, I believe; and he is an excellent blue puppy.

Mr. MATHESON. Mr. Speaker, I thank the gentleman for his leadership. As one of the cochairs of the Blue Dog group, I just appreciate all he does. I am real proud to be a part of the Blue Dog Coalition, a group of 33 fiscally-conservative Democrats who like to talk about being fiscally responsible. We have been coming out here many times, Tuesday night. Every week we have been coming out here for the last few weeks, and we have been talking about issues of fiscal responsibility; and in particular, we have focused on what we see as a growing concern about increasing the debt that we incur in this country

Now, we have just been talking about this four-point plan; and I want to talk about one of those points, which is the notion that we need to climb out of this deficit ditch that we have gotten ourselves into in this country.

The Secretary of the Treasury has come to Congress three different times now and said, we are really up against our debt limit; we need Congress to raise our debt limit, and we need Congress to raise it by $750 billion. Now, that is a lot of money. We talk about numbers and throw out figures in Congress a lot, but $750 billion is a lot of money. What is unfortunate is that that request comes in with no plan, no suggestion of how we are going to get out of this pattern of deficit spending. I just do not think it is appropriate, and the Blue Dogs do not think it is appropriate for us to just give a blank check to both Congress and the administration to run up another three-quarters of a trillion dollars in debt.

We have been talking about this issue for the last few weeks. Some people say, why do you keep talking about it? Because this issue has not gone away and, no matter what we do in the short term, this issue is still not going away. It is not going to go away until we figure out a way to behave in a responsible way.

What the Blue Dogs are suggesting is this, for the short term. We recognize that this country faces some short-term deficit pressures. We understand we have a war on terrorism and homeland security concerns that are taking more resources than we thought would be needed when we passed a budget a year ago. We recognize the economy is in a recession. We do not want to force the government to have to take extraordinary actions because it is bumping up against the debt limit. So as a short-term proposal, our suggestion is that we do increase the debt limit by $150 billion, not $750 billion, but by $150 billion, which is still a lot of money; but that is the circumstance we are in right now. We think that will take us through the obligations of our current fiscal year, September 30 of this year.

Now, as part of this plan, what we are suggesting is that we offer this increase in the debt limit of $150 billion, but that it comes with a couple of other provisions. First is that we are going to prohibit any increase in debt limit beyond September 30 without a defined plan to balance the budget. It requires the President to submit to Congress, and for us to enact, a plan to balance the budget without using the Social Security surplus.

Now, we do not have to pass exactly what the President submits; but he has to submit something, and we have to pass something that is going to show that we get our budget in balance by the year 2007. So we are not talking about something radical that has to be done instantaneously as of October 1 of this year; we are allowing some time to get on the path to a balanced budget. But we are not going to offer too much time, because if we do not show some discipline around here, we are just going to keep running up more debt.

We also in this legislation, in offering to raise the debt limit by $150 billion, we require that the President conduct an annual threat vulnerability assessment, so that we can develop a coherent homeland security strategy. How life has changed since September 11. These were not issues that we were facing as a country, and these are critical issues; and Blue Dogs support the efforts of this country to address terrorist threats and provide homeland security.

□ 2115

We are adamant that it is important. We support those efforts, and it is going to take resources to conduct those efforts. We understand that.

But we need to address that new challenge in a rational way, and that means it is important that we have a defined homeland security strategy so that we as Congress can behave responsibly and fund in an appropriate way what it is going to take to provide reasonable homeland defense.

I think that this is a reasonable proposal. I think the Blue Dogs as a group feel real strongly about doing this. We may not be right on everything. We are open to suggestion. I call on other Members of Congress from both sides of the aisle, please discuss this plan we are promoting tonight. We are very open to suggestion. That is one of the hallmarks of the Blue Dogs is that we are happy to talk with anybody and put the numbers out on the table and have a frank discussion. It is too important for this country not to do this.

So we are going to keep coming back here and we are going to keep talking about this issue until Congress behaves in a responsible way. We are not going to just go off and agree to raise the debt limit by $750 billion with no plan, no sense of how we are going to get out of this, and dump it on the next generation. That is just not what we should be doing here. Our constituents did not elect us to avoid the tough decisions; they elected us to take on the tough issues. That is what the Blue Dogs are trying to do tonight. We are trying to start this dialogue with this four-point plan.

I encourage all of our colleagues to take a look at it, and let us let the dialogue begin.

Mr. BOYD. Mr. Speaker, I want to thank the gentleman from Utah. He makes a good point. I think any prudent family or business or local government in Utah or in Florida that suddenly found themselves in a situation where their spending obligations were greater than the revenue they were taking in would sit down with their family or business partners and maybe their banker and develop a plan in a hurry to figure out how to get out of that situation, to get back into black and out of red ink.

So I want to commend the gentleman from Utah for his very thoughtful presentation and his involvement in this process of helping us develop this four-point plan.

Mr. Speaker, I yield to the gentleman from Arkansas (Mr. BERRY).

Mr. BERRY. Mr. Speaker, I want to thank the gentleman from Florida for yielding to me and for his outstanding leadership, not only for the Blue Dog Coalition, but for this Congress and what I think are the next generations.

Mr. Speaker, this is not rocket science. Anybody that can add and subtract can figure this out. We know what we need to do. A year ago at this time, the Blue Dog Coalition met with the director of the Office of Management and Budget, Mr. Daniels. He made a presentation to us at that time.

He said this, and I will never forget it. He said, our greatest fear is that we are going to have so much money we are going to pay off all of the debt, and no one will have a safe place to invest their money because there will not be a U.S. Treasury bond.

When we hear that said now, it seems absolutely and utterly ridiculous. To the Blue Dogs at that time, it seemed a bit risky and foolish to even think that way, but the fact is, we have squandered the surplus. We have squandered a great opportunity in this country. One thing that we know we must get under control is the spending. We know that we cannot continue to borrow and spend and pass the debt on to our children and grandchildren.

The Blue Dogs have a four-point plan. We have worked diligently to come up with an honest assessment and an honest plan for what we need to do in this country to protect our children and grandchildren.

We come to this floor almost on a weekly basis, and have a great debate about protecting the unborn. I personally believe that we should, and I always vote to protect the unborn. And yet, we will come here and vote for a policy that will allow us to pass massive debt on to the unborn. We vote for a policy that allows our fighting men and women to go overseas and serve this country with great distinction, and then we ask them, now, after the war is over, after their fighting is done, come back to this country and go to work, because we borrowed the money from them to pay for it.

That is not right. It is immoral for us to continue to do that. Our plan would provide for the Budget Enforcement Act of 1990 to be enhanced and reauthorized. It would provide that if we are going to spend additional money or we are going to reduce the amount of money coming in to the government, that we would reduce spending in a way to go along with that so we maintain a balanced budget.

We provide a constitutional amendment that would allow this country to have a balanced budget without using the Social Security trust fund money to do it. It is not a balanced budget if we have to borrow the money from the Social Security trust fund to pay the bills. It is not a balanced budget if we just imagine that it is going to be balanced some day, like we have done in the past year. We cannot continue to do that.

The Social Security taxes that are paid in by the senior citizens, that have been paid in by the senior citizens, and that are paid in today by the working men and women of this country are supposed to be used and set aside in a trust fund to pay the Social Security benefits when those people come of age.

But right now, it amounts to only another income tax that is paid by the working men and women of this country, because we are spending every dime of it. We are not making any provisions to preserve the trust fund. We are not making any provisions to see that these obligations that we have when these people come of age to draw that money, that they are going to be able to receive it. It is irresponsible, and we should not continue to let this happen.

It is amazing to me that we can have a budget this year that does not provide for medicine for our senior citizens in this country. We are going to spend money on a lot of things in this budget. We are going to appropriate money for a lot of things. Some of them are absolutely critical, but very few are more important than the good health of our senior citizens.

It is amazing to me that we should allow one more year to pass in this Congress and not have a prescription drug benefit for our seniors because we have squandered the opportunity. The Blue Dogs have a plan to get out of the deficit ditch. We have a plan to prevent our children from having to pay the debts that we run up.

I think it is time for the Congress and the administration to sit down, be honest, look at the real numbers, look at what we know we have to do, and not continue to pass the burden on to our children and grandchildren.

One of the things I am proudest of in the time that I have served and represented the First Congressional District in the United States Congress is being a member of the Blue Dog Coalition. I think it is one of the most honest, determined groups that exist in this Congress. I think that their integrity is held together because they believe this is the right thing to do.

I want to say once again how proud I am of their plan, and that I think that the Congress should take a serious look at this plan and pass these bills that we are proposing, and do something real for the future of our children.

Mr. BOYD. Mr. Speaker, I want to thank the gentleman from Arkansas for his leadership. He has been a leader, especially on the health care issues, as a member of the Blue Dogs, and has worked diligently on the Patients' Bill of Rights, a prescription drug plan, and others, in addition to the fiscal and budget issues. So I thank the gentleman from Arkansas (Mr. BERRY) for being here tonight.

Next, Mr. Speaker, I yield to the gentleman from Arkansas (Mr. ROSS), his delegation mate, the blue puppy.

Mr. ROSS. Mr. Speaker, I thank my good friend, the gentleman from Florida, for yielding to me, one of the cochairs of the Democratic Blue Dog Coalition.

We have heard a lot of talk tonight about the Democratic Blue Dog Coalition. We are a group of 33 fiscally conservative Democrats that believe we ought to get our government, its budget, and our debt under control.

We are a group that is sick and tired of all the partisan bickering that goes on at our Nation's Capitol. It should not be about what makes the Democrats look good or bad or the Republicans look good or bad; it ought to be about doing right by the people who sent us to the Nation's Capitol to be their voice in government.

About this time last year, there was a lot of debate going on in this very Chamber about a surplus, a surplus that was projected to exceed $5 trillion over the next 10 years. Back last year when we stood here on the floor of the United States House of Representatives and talked about this projected $5 trillion surplus, the Blue Dogs tried to bring some fiscal responsibility to this Chamber and to the floor of the United States House of Representatives.

As that debate was going on, I voted against the Democratic budget last year. I voted against the Republican budget. I am trying to be bipartisan here. The Blue Dogs developed their own budget, and back in the days when we thought we had a surplus, when we were told that we had a surplus of $5 trillion over the next 10 years, here is what the Blue Dogs had to say about it 1 year ago.

We said that we ought to take that surplus and take 50 percent of it and pay down our Nation's debt, that we should take 25 percent of it and provide a tax cut for working families and those who need it the most, and take the remaining 25 percent and do things like truly modernize Medicare to include medicine for our seniors, strengthen our national defense, something we were talking about way before September 11 ever happened.

Of course, the Blue Dog budget failed. It did not pass. We passed a budget, or this Chamber passed a budget, without my vote, and now we have another budget before us this year which I voted against, a budget where in less than a year we went from talking about a $5 trillion surplus over the next 10 years to a budget for fiscal year 2003 that some say will cause us to deficit spend $80 billion, on the conservative side, and some say we will deficit spend to the tune of $120 billion.

Throughout the debate last year, we were told we had a surplus but it will not materialize. Rather, for the first time since 1997, this year's budget, fiscal year 2003, will put us back in the days of deficit spending for the first time since 1997. But when they were talking about that supposed surplus last year, we did not hear a lot of talk about the debt, a 5.9 trillion national debt.

Some people think we spend too much money in this country on food stamps. That is a couple of billion dollars a month. Some people in this country think we spend too much on foreign aid. That is $1 billion a month.

Mr. Speaker, we spend $1 billion every single day in America simply paying interest, not principal but interest, on the national debt. How much is $1 billion? I put that number in my calculator and I get that little "e" at the end.

What does it mean to us in our every-day lives? I will tell the Members what it means. One billion dollars can build 200 brand new elementary schools every single day in America. The $1 billion we are paying every day in interest on the national debt can complete important infrastructure projects.

In my congressional district, in the southern half of Arkansas, I have three interstates pending right now. There is Interstate 49. Give me a day and a half of the interest that we are now paying on the national debt and I can complete Interstate 49. Give me about a week of it and I can complete Interstate 69. Give me a few hours of it and I can complete Interstate 530. These are projects that are vital to provide economic opportunities for people from all walks of life.

□ 2130

That is what this debt means to us in our every-day lives, and the drain it is having on being able to do things like truly modernize Medicare to include medicine for our seniors. Medicare is the only health insurance plan I know of that does not include medicine, yet it is the plan that nearly every single senior citizen relies on day in and day out to stay healthy and to get well.

My grandparents left this country just a little bit better off than they found it for my parents. And my parents have left this country just a little bit better off than they found it for my generation. But I wonder, is this Congress, is this Government, is our generation going to leave this country just a little bit better off than we found it for the next generation, our children and our grandchildren?

Social Security is another issue that involves the debt. We have borrowed, our Government has borrowed $1 trillion from the Social Security trust fund with no provision on how it ever gets paid back. When you and I go to the bank to borrow money for a car or a home, what do the bankers ask you? They want to know how are you going to pay that money back. How much can you pay a month? How many years will you take to pay it back? And yet our Government has raided Social Security trust funds to the tune of over $1 trillion with no provision on how that gets paid back. And guess what? If we figure out how it does get paid back, Social Security as we know it today is still broke in 2041.

So our response to all this is simple. On Thursday, April 25, the Democratic Blue Dog coalition, 33 fiscally conservative Democrats, outlined four principles to prevent our children and grandchildren from being stuck with the burdens that our country is accumulating today because of our generation's budget decisions. We call these four principals the ABCs of fiscal discipline. A, assure honesty and accountability; B, balancing the budget without raiding Social Security; C, climbing out of the deficit ditch; and D, defending children from paying our bills.

The ABCs of fiscal discipline say we need enforceable budget constraints that will expose deceptive budget practices and provide our guardrail to keep our spending within the government's means. It says we need a balanced budget amendment to the Constitution that requires us to balance that budget every single year, an amendment that could only be waived in extraordinary times such as a war or military conflict, and that takes Social Security completely off the table. It will stop the politicians in Washington from raiding the Social Security and Medicare trust fund.

I served for 10 years in the Arkansas State Senate. Our Constitution required us to have a balanced budget, and for my 10 years there I took my experience as a small business owner to our State capital, and for 10 years I helped balance that State budget. If we can do it at the State level, if we can do it at the small town family pharmacy that my wife and I own in Prescott, Arkansas, then, yes, the United States government can do it as well.

It says that if we have to raise the limits on our national debt that we do so with a plan that will put our fiscal house back in order, just like a family facing financial hardships works to get approval to refinance their debts. And, finally, it says that Congress must have a super majority, a three-fifths majority vote to approve additional government borrowing.

We believe following the ABCs of fiscal discipline is the right thing to do for this Congress, for our Nation, and for the future of our children and grandchildren.

Mr. BOYD. Mr. Speaker, I want to thank the gentleman from Arkansas (Mr. ROSS) for his thoughtful remarks. He has, I think, outlined it very well.

I, too, as I said earlier, come from a State legislature in which it was against the rules of Constitution to spend money you did not have, that is, to borrow money. And it meant, Mr. Speaker, that we had to make some tough decisions at times. We had to go in and redo budgets at times. We had to go back and cut education and cut Medicaid, but at least we were not mortgaging the future of our children, and then we had to come back and figure out how we pay for those particular programs.

Mr. Speaker, it is just not right for us to, as American citizens today, to demand that we have these programs that are very costly and not be willing to step forward and pay for those and say to our children and grandchildren, we are going to have this program today for us, but we want you to pay the bill later down the road.

Now I think our business community is beginning to take a good, long, hard look also at what this extended deficit spending that we are looking at over the next decade is going to mean. Obviously, we know that we came through the decade of the 1970s and the 1980s with some huge deficits over the years. And who can ever forget in the 1970s where we had interest rates that went into the high teens and in some cases the low 20 percent interest rate? It made it very difficult. I was in business then, and I remember how difficult it was to continue to run my small business as I was leveraged pretty heavily. And so you had to take 20 cents out of the first dollar that you made and pay on the interest on your debt. I said that the business community is beginning to take a look at it.

I want to, Mr. Speaker, read from today's Wall Street Journal on the front page and the article is entitled "U.S. Debt Is Set to Rise Not Fall for Second Quarter." It is a very short article. I want to read it. It says the Treasury Department said it expected to borrow a net $1 billion during the April-to-June quarter. That is three months. The Treasury Department said it expected to borrow $1 billion, not repay a net $89 billion as it said it would do earlier this year in January.

So in January the Treasury Department was predicting that it would repay $89 billion of the Federal debt that we owed as a Government, but today they are saying no, we are not going to repay $89 billion. We will not repay anything. We will have to borrow an additional $1 billion during that quarter period.

The announcement, the department's first official acknowledgment of its dismal tax collections during the important April filing season, increases the likelihood that the Federal budget will linger in deficit for longer than the two years cited in congressional estimates. The government's troubled finances could even damp prospects for recovery by flooding debt markets and driving up interest rates.

I am sure that does concern the business community. "It is really a remarkably negative commentary on the government's financial fortunes," said John Youngdahl, an economist for Goldman Sachs. At a time when the economy might be picking up momentum, increasing private sector borrowing, the government's increased demand for debt runs the risk of creating more friction and consequently spurring somewhat higher rates than otherwise would be the case, Mr. YOUNGdahl said. That is one thing to be concerned about.

I think it is something that we are all concerned about, not only the business community. But what you have is for the home owner who has got a home mortgage, if he has got a $100,000 mortgage on his home and his interest rate goes up 200 points, that is $2,000 a year. Car loans, business loans, personal loans, I think this thing could be very, very serious, and we only hope that it will turn around quickly.

We know how to turn it around. We have got to plan and we are willing and ready to sit down with the administration leaders, the leaders of President Bush's administration and the leader of the Congress, lay out a plan, get us back into balance. It can be done. We did it in 1997 and certainly we can do it again.

Mr. Speaker, I want to thank the gentleman from Arkansas (Mr. ROSS) and the others who came to speak here tonight.

WATER SHORTAGE IN COLORADO

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, the gentleman from Colorado (Mr. McINNIS) is recognized for 60 minutes.

Mr. McINNIS. Mr. Speaker, this evening I want to talk about a number of different subjects, but primarily the subject is going to center around natural resources and water, especially water as it pertains to the West.

As many of you know, my district is the third Congressional district in the State of Colorado. The State of Colorado is the highest place, when you take the average elevation, it is the highest place on the North American continent. And as a result of that elevation and the mountainous terrain and the arid region that Colorado is kind of the apex of, there are a lot of different issues that deal with the West that you do not find in the East.

But before I do this, I want to talk a little about this weekend. I read tonight, maybe you will read it here in the next couple of days in the paper, but I read where a celebrity here in the United States, a celebrity who has been the beneficiary of the great things that this country offers, a celebrity who, to the best of my knowledge, has never had to pick up a weapon to defend their country, a celebrity who has made the comments that are about to be established from his yacht, his 130-foot or 150-foot yacht.

And as I understand these comments, and, again, this is being credited to him or it is in this interview, as I understand these comments from this celebrity, this celebrity is criticizing the Fox News station for being too patriotic, for being too patriotic. This celebrity has come out and said that the station had too much red, white and blue on their station, on their news network at September 11.

Can you envision that? Did you ever think that anyone in this country, that our forefathers would ever think that a celebrity who is the beneficiary of all the fruits that this country has provided to him, would have the audacity to say that our country is too patriotic?

I want to compare these short-sighted remarks, those selfish remarks, to what I experienced this weekend out in Colorado, and all of you have, I am sure, experienced the same things when you get out with the people that you represent.

I was in Pueblo, Colorado. I started out the day by going to a group of a number of probably about 200 young people, I would guess anywhere from 13 years old to 19 years old. These kids, they were trying to tell them to stay off of drugs. It was amazing. Drugs, alcohol, and drive with your seatbelts on. It was a great assembly that was put together. But I was surprised and, frankly, I was very encouraged and felt very positive by talking to these kids, how many of these young people wanted as a career to go in and serve our country in the military, how strongly these kids felt about the United States of America. And from this assembly I went on to a couple of town meetings.

Do you think in any of these town meetings I heard from constituents any indication at all that we should be less patriotic or our news networks are too patriotic? In fact, what you generally hear is just the opposite. How come they never tell the side of the greatest country in the history of the world? How come they always make us look like the bad guys? That is the kind of things you might hear.

Then that afternoon I have to go and I listen and I have an opportunity to participate in awarding the Korean medal for a former veteran. This veteran had received five bronze stars and this veteran had his entire family, 70, maybe 80 people at their function where we have presented the medal. And I tell you something, you talk about pride in this country and you talk about feeling good about the future of this country, the gentleman to whom I presented the medal served in the Korean War. He was in his 70s, maybe in his early 80s, so he had three generations, he had great-grandchildren there. And the red, white and blue around that yard, I wish I could have grabbed that celebrity and brought him to this yard, back yard in Pueblo, Colorado, and shown him what people in America feel about patriotism.

The United States of America has nothing to apologize about. What this celebrity ought to be doing is talking about what America has done for the rest of the world. There is no country in the history of the world, no country in the history of the world that has given away more in charity to the rest of the world, that has educated more people for the world, that offers better health care than anywhere else in the world, that has provided more tractors and more agricultural resources so that people can grow food and be more efficient on the growth of food than any other country in the world. There is no other country in the world that has offered more freedoms than the United States of America. None, zero, zip. No other country in the history of the world that has offered the freedoms that the United States of America has.

□ 2145

There is no other country in the history of the world that has stood up and put its young men and women, paying the ultimate sacrifice, at risk in other continents, to save those continents as we did in World War I, as we did in World War II, as we did to try in an attempt, a failed attempt, an attempt to stop communism from moving on to Vietnam, as we did in other places, as we are doing today.

The United States of America is a great country. It is a strong country; but it is a strong country that demands upon every generation, including our generation, and probably especially on those of us who were elected to serve the people, to represent the people, to pass on to the next generation that sense of patriotism, that sense of obligation, to make sure that the greatness of this country continues to the generation that follows them, that responsibility to be good Americans, to care about your family, to care about the defense of your country.

Bill Bennett wrote a book and says why do we fight. My colleagues will want to read that book. In fact, I think if I knew this celebrity would get the book I would buy a copy and send it to him. I was a little saddened by one of the people in our country, one of the people, this celebrity, the fruits he enjoys today would have been available to him probably anywhere else in the world, but in the country which gave it to him, he decides that maybe one of the news networks is too patriotic. Very short-sighted comment and a comment that I hope that individual at some point, at least in his own mind, retracts and begins to appreciate the sacrifice that a lot of people, generation after generation after generation in this country's history, the sacrifice that they have given so that people like him and other Americans can enjoy the fruits of our country.

What is most exciting to me is all of the things that go right. My colleagues do not hear some of these celebrities talking about what is going right in this country. It seems to many a lot of time what comes out of Hollywood is criticism of the President. We hear the movie actors that say, well, we are going to leave the country if George W. Bush becomes our President, and by the way, none of them did leave the country. They changed their mind because they realized what they had here, and some of these people ought to take a little time and talk about what is going right in our country.

When we look at what is going right as compared to what is going wrong, there is so much more that is right than wrong. Look at the young people and juniors and seniors and applicants to our academies, our military academies. These are some of the most qualified young people in the history of this country. Their capabilities, the tools that they have to learn, their focus is immense and I think is much greater than the previous generations.

What we read in the media is they focus on the drug problems of this generation. They focus on the sex problems of this young generation; but what is beginning to happen, that young generation is showing that they do have the capabilities to carry on the responsibilities, to continue to make this country great. We are beginning to see a movement toward family. We are beginning to see more religious involvement with these young people. We are beginning to see absolutely much, much more learning in their preschool years as they come up.

So there are a lot of things that are going right, and that is what made me feel good about the weekend. I spent the weekend seeing things that were going right, only to read this quote or these quotes that have been attributed to this celebrity, and I think that my colleagues may have seen it in today's papers or certainly will be in tomorrow's papers about what this person has said. I hope any of my colleagues that have admired this person somewhat discount that admiration when they take a look at the comments that this particular person made.

That is enough for that. Let me move on to the subject that I really want to talk about this evening and that is water. As I mentioned earlier at the opening of my remarks, the western United States geographically, obviously, is different than the eastern half of the United States. There are a lot of things that differentiate the West from the East, and one of them is water.

I want to show my colleagues a map. This map here will depict a number of things which we will go over here in just a minute. Let me tell my colleagues about the first thing the map is going to depict. That is the ownership of public lands versus public lands in the East. Remember that upon settlement of the United States, the population, when our country just got started, as we all know, the population was along the east coast and that as our country began to grow, in order to get people out into the land, we had to give them some kind of incentive.

Back in those days, one could not just get a deed that says you own the land. They actually needed to possess the land; and as I said before, that is where the saying that possession is nine-tenths of the law comes from. So for our country to grow, we needed one incentive to get people to move off the comfort of the east coast into the new land that this country wanted to expand into, and we wanted to get possession of that property so that another country could not come and take that land from us so we could protect the land.

In order to do that, the government made a very conscious decision, and that is, to give land away through what is called land grants. They had first made land grants actually in an attempt to bribe British soldiers to defect from the British troops to help us in the Revolutionary War, saying to these soldiers we are starting a new country and if you come with us we will give you land in our new country. That is how the Homestead Act in this country, actually what we would call the land grants, first came from.

This worked pretty effectively. What they would do is they would send families west. They would give them, say, 160 acres; and 160 acres in most of the eastern United States was enough acreage for a family to survive upon, and let me point out here. My colleagues will note that on this map, most of the map east of, say, Denver, Colorado, here in this point, we come right down here, most of the white part of this map is land that is privately owned. That is because in almost all of these locations here where the white is and almost all of those locations, one can support a family off 160 acres. The land is very fertile.

In fact, to give my colleagues an idea of the water, and we will go over this point again, but 73 percent of the water precipitation, surface water, stream water in this country is in this part of the country. So this is a very, very, very fertile land. Once we get west of Denver, Colorado, into this land with all the color that is where we get into the public lands, and that land is very, very dry, very arid, very dependent upon dams.

What happened is the settlers began to come west. This idea of putting people out on the land was working pretty effectively, but then all of the sudden when they got to Denver and they hit the Rocky Mountains, word got back to Washington, they are not settling up there. They are going around it. They could not feed a family off 160 acres. They had to go out to the Imperial Valley in California to find that kind of fertile land.

Washington knew that they needed to do something, something to claim that land for the country. What did we do? How do we figure out how to get people to occupy those lands so that the government knows our citizens are on it? So what they decided to do in that mountain country where 160 acres could not support a family is one of the ideas, well, let us go ahead and give them an equivalent amount of land, maybe let us give them like $3,000 acres maybe, that is the equivalent of what needs to match 160 acres in the fertile grounds of eastern Colorado or Nebraska or some of these other States.

At the time, they had given a lot of land to railroads, and they were under a lot of political pressure not to give that land away. So they decided instead, in this west, in this arid part, they would allow the people to go ahead and use it. They would give them incentives to use it, but they would retain the title to the government and keep those as public lands, but they always had the concept that these public lands would envision multiple use, many uses.

When I grew up and we went into a national forest or public lands, there was always a sign that hung there, for example, "Welcome to the White River National Forest, Land of Many Uses."

That is the concept upon which the West was really settled as far as land ownership goes.

The reason I am telling my colleagues this or the reason why we are reviewing the public lands and private lands issue is because it has a lot to do with the water issues that we face out in the West that again differentiates us from the East. Remember my statistics and let me draw on this map for just a moment.

If we drew a line approximately like this, 73 percent, 73 percent of the water, surface water in the country is in this portion of the United States. That is where 73 percent of it is. We have got about 13 percent of the water in the Pacific Northwest. We have got 13 percent of the water there, and then the rest of it, the rest here for that many States, that is 14 percent of the water. Look at those numbers again. Seventy-three percent of the water on this part of the country, 13 percent up here in this section, and 14 percent for all of these States down there.

This is arid country. This is country where out here a lot of times the dispute is in the East on how to get rid of the excess water. Hey, do not drain it on my property. How are we going to drain it? Put it here; put it there. In the West, our primary issues are how do we conserve the water, how do we store the water, how do we use the water. And of course, in the West, as in many lands in the east, agricultural plays a very important part.

Remember when we talked about water, there are a number of different things to keep in mind. First of all, 97 percent of the water in the world, 97 percent of it is salt water, and under today's technology, we really do not have an economical way to convert that to desalinate that water from ocean water to clear drinking water. So right off the bat we are dealing with 3 percent of the world's water. Three percent of the world's water, about 78 percent of that 3 percent, about 78 percent of that 3 percent, is tied up in the polar icecaps. So the actual amount of water that we have to deal with is really very, very small.

In fact, if we wanted to use a percentage number, I will write it on the chart here, but how much of the world's water rivers contains, it looks like this, .001 percent. That is what small amount of water is contained in the rivers in the world, and the rivers are our life blood. In fact, in the Colorado State capital, in their rotunda written on there, they have something to the effect that I think it was Hornsberry that wrote, that says in this land life is written in water, and many people have said water runs almost as thick as blood out there in this dry region.

Let me talk about real quickly how water is used. One of the things that amazed me as I got into water, remember, water is a very boring subject. Most people do not care much about water until they turn on the faucet and there is no water coming out of the faucet and they flush the toilet and no water comes into the bowl or they go out to recreate or fish and the stream's dried up. There are a lot of different uses of water.

I started studying water about 20 years ago; and to this day, to this day, the most amazing thing about water to me is the quantity of water that is necessary to do things in our everyday life, and I am going to go over a few of those things with my colleagues right now.

Take a look. Water usage, here is a fun chart. Direct uses of water daily, this is what the average person uses in a day drinking and cooking, 2 gallons. Flushing the toilet, 5 to 7 gallons per flush, although we have newer toilets, more advanced toilets that can now do it with 3 gallons. Washing machine, 20 gallons per load. Dishwasher, 25 per loads. Just to take a shower, 7 to 9 gallons per minute.

Remember that using water is not like using gasoline. Water is a renewable resource. On gasoline, once it is used, it is gone; but with water they have often said one person's waste is another person's water, and there is a lot to be said there. Water recirculates. It has got an entire lifecyle of its own so that when we use water for these daily needs, it does not mean that we have wasted the water, but we still have to conserve that water. We have got to be careful that we do not go to excess.

Take a look at what it requires to grow food, and I will give some acreage, some interesting statistics on acreage; but if we look over here to my left, look at this. Growing food for a loaf of bread, it takes 150 gallons of water from the time someone starts to prepare the field to grow the wheat, they grow the wheat and the other ingredients to mill the flour and things like that. By the time that loaf of bred is produced, they have used 150 gallons of water. An egg, one egg, not a dozen eggs, one egg, 120 gallons of water.

□ 2200 A

quart of milk, 223 gallons of water. To have one quart of milk. One pound of oranges, 47 gallons. One pound of potatoes, 23 gallons.

On average, and my colleagues probably did not know this, it takes more than 1,000 gallons of water to produce three meals a day for one person. More than 1,000 gallons of water a day to give us three balanced meals per day. Pretty interesting.

What happens to 50 glasses of water? Forty-four glasses are used for agriculture, three glasses are used by industry, two glasses are used by cities, and a half a glass is used in the countryside. So, obviously, of those 50 glasses, if we had 50 glasses of water that represented the usage in our country, 44 of those glasses of water go to agriculture.

Why so much water for agriculture? Again, some pretty interesting statistics. To grow an acre of corn we can expect off that acre that we will have 4,000 gallons of water a day evaporate off that acre. It takes 135,000 gallons to grow one ton of alfalfa. A hundred thirty-five thousand gallons. As I said, it takes 1,400 gallons of water to produce the meal of a quarter pound hamburger, an order of fries, and a soft drink. So if my colleagues go down to the local McDonald's restaurant and buy a hamburger, a soft drink and fries, 1,400 gallons of water were necessary for the complete process to get that food to the table.

Forty-eight thousand gallons are needed to produce the typical American Thanksgiving dinner for eight people. Imagine that. When we go to Thanksgiving dinner, eight people sit down to have dinner, 48,000 gallons of water were utilized to bring all of the tidings of Thanksgiving to that table. It is immense the use of water that we have.

That is why water is such a critical subject for us. It is boring, but if I had my way about it, I would make it a mandatory course in every classroom in every school in America. I would make it required so that all Americans have a better understanding of just how critical that resource is and has become.

It takes 39,000 gallons of water to produce a domestic automobile, 1,800 gallons of water just to produce the cotton in a pair of jeans, and 400 gallons of water just to produce enough cotton for one shirt. So the shirt I am wearing right here, which is 100 percent cotton, took 400 gallons of water to get that shirt to where I can wear it. It is amazing. It is incredible.

What is happening now, this year, of course, is that we have a drought. And as I mentioned earlier, the drought has hit different parts of the country very hard. Here in the east last weekend we had some good rains. I think we got up to 2 inches in this particular area. But in the west we face a drought conditions that, in many cases, we have not seen in 100 years. And the reason we say 100 years is that that is the first time records were kept. So I wanted to visit just a little about what that impact is and why it is so critical for those of us that live in the arid States to store our water, to have that capability.

Remember, in a State like Colorado, and my district is the high mountains of Colorado, in an average year we have all the water we could possibly use for about a 60-to-90-day-period of time. When is that period of time? That period of time, on a typical year, is what is called the spring runoff, when the snow melts off those high peaks and we have that runoff. Sometimes, in fact, it floods, and we have terrible floods. But the dams have helped us control those floods.

When that 60-to-90 day period of time is over, what do we do for water then? Again, the dams come back in. In the west, we need to have those dams because we cannot count on water continuously year-round. Unfortunately, these water resources have not been evenly allocated across this great country of ours, so the dams play more and more of an important role, for not only human consumption, but for electrical generation.

Take a look at this chart. This reflects the primary use of dams. I think this is pretty interesting. The primary purpose or benefit of dams in the United States. And by the way, there is about 70,000 to 80,000 dams in the United States. Now, when we think of dams we think of Hoover Dam, Glen Canyon Dam, or smaller dams, like the Shoshoni Dam in the Glenwood Canyon, or different ones like that. But the first dams, for example, that we know of in the United States were actually the Anasazi Indians down in the southwestern part of Colorado, the Four Corners area. And there is evidence there that when they came and they learned how to dam up the water, because the water was again in such an arid area, it is thought that one of two things drove the Anasazi Indians into extinction, or at least out of that area.

One of them was the lack of water or, two, dealing with the enemy. They had enemies out there, and somehow the enemies were able to get into the cliff dwellings. But we think primarily it was water.

Look at the primary purpose or benefit of U.S. dams. Recreation, 32 percent; irrigation, 10 percent; public water supply, 19 percent; flood control, 14 percent; hydroelectricity, 2 percent; and stock and farm ponds, 17 percent.

Now, you will see some national organizations that oppose dams. They oppose a dam no matter how justified it is. No matter how well planned it is, no matter what kind of protections have been placed for the environment and to the benefit of the environment, no matter what is done, there are large well-financed organizations that oppose dams regardless of the merits. But they do not understand, or maybe they do understand and it is a way of restricting the life-style that we have in the west, but it is so critical to look closely and get an idea of what happens to us out in Colorado, for example, after that 90 days or so when the spring runoff trickles down to small streams and our mighty Colorado is reduced dramatically in size, and what we have to do for water to get through the rest of the year.

And it is not just drinking water. Take a look at now the dependency we have on hydroelectricity. That is the cleanest way to produce power of any power that we know, outside of nuclear. And even cleaner than the nuclear, because with nuclear we still have a waste material, as many of my colleagues know with our debate on Yucca Mountain in Nevada and so on. Water is truly the cleanest way to generate our electricity. The difficulty is we do not have enough rivers or enough dams to produce hydroelectricity in such a way that it could become our primary generation of electricity in this country. But where we can utilize it we should utilize it.

And a natural benefit of a dam, when you back up water, you also provide recreation opportunities. In the western United States, the greatest recreational facility, I think, from a water perspective, is Lake Powell. The Colorado River, which is about 1,500 miles long, has several major dams on it, and one of those lakes that has been backed up as a result of Glen Canyon is Lake Powell. Lake Powell actually has more shoreline than the entire Pacific West Coast. Recreation is critical. For those who talk about family recreation and the importance for us to bring families back together, recreation on a lake like Lake Powell is an important factor out there in the west.

Flood control. We have had some horrendous floods. Again, unfortunately, the laws of nature do not allow the river, like the Colorado, to run at a steady flow 12 months of the year. Sometimes it runs with horrendous bursts. In fact, if any of my colleagues ever have an opportunity and are near Gunnison or Montrose, Colorado, take the time to go see the Black Canyon National Park. It is a beautiful, beautiful national park. And when you get to the visitor's center at the Black Canyon National Park you will see rocks the size of this table over here to my right, the size of this table and probably twice as high. That is a sample of the rocks that are thrown through that river. That is how powerful that river is going through that canyon. That rumbling down of those rocks sounds like a tornado going on down there in the spring runoff.

We have to be able to control floods. And take a look, while on the way to the Black Canyon National Park and, hopefully, you will go through a beautiful town called Grand Junction, Colorado. Grand Junction used to be desert. Desert still remains on the other side of it. But take a look at what irrigation did for that community. Grand junction, Colorado, is probably the clearest example in the country of what happens when you have water and what happens when you do not have water.

The dividing point there is the interstate highway. As you go down the interstate in Grand Junction, when you look to the north, or if you are headed westbound, when you look to the right it is arid desert land. It is beautiful in its own way, but there are no people living out there. There is not much wildlife out there. In fact, there is not much life. There are no trees or plants out there. It is dry dirt. On the left-hand side, which is the south side, left hand as you are going west, the south side is the result of irrigation. There are orchards; wine orchards, apple orchards, and lots of wildlife.

Obviously, that is where the people live. It is because we had the ability to store water and to release that water year-round so that side of the highway can stay green. Year-round, that portion of land can support wildlife, human habitation and, frankly, I think increase and improve the areas of the environment that we think are important, gold medal fishing, for example, and a lot of other things.

Water is such a critical resource for us. Again, I urge my colleagues here in the east, during times when we have decisions to make about the west, please understand we are not trying to make a battle or make a geographical difference with the country. We do want Members to come to the realization, or at least understand that our needs in the west are dramatically different when it comes to some of these natural resources, whether we are talking about private lands or public lands, or whether we are taking about lots of water, like here in the east, where 73 percent of the Nation's surface water exists. Out there, in the center of the west, we have 14 percent.

So when we talk about our water storage facilities, listen to us, support us. There is a move out there to take down Lake Powell. Many of in this room have never been to Lake Powell. If you want to do your family a favor, if you want to have a great trip, one of those kind of vacations that your family will remember for many, many, many years into the future, go to Lake Powell. Take a look at that dam there, how much electricity that generates, and take a look at the flood control. As a Congressman, they will give you a tour. They give general tours, but tell them you really want to know about this project.

I urge my colleagues from the east to take a trip and go out there, and have one of your days set aside simply to learn about the project. So that when the radical fanatics come to these Chambers and try to get you to sign on to a resolution to tear down the dam at Lake Powell, you will have a very clear and immediate understanding of the ramifications that that has to the western half of your country, the kind of ramifications it has not only for hydroelectricity but for flood control, for water storage, for recreation, for farms. Remember that when you hear somebody approach you and say we need to take down dams.

One of my biggest problems with the Clinton administration was the Clinton administration was always trying to show that they were the environmental administration, so they made some pretty brash statements and they made some pretty illogical decisions, like the Grand Escalante Staircase, without any input from State officials; with proclamations that we need to start taking down dams, not building dams. It was almost as if that administration had an anti-human bias built into their policy. Well, fortunately, that has been moderated and a common sense approach will allow people in the east to understand the special circumstances of those of us who live in the west.

Let me mention something else. I want to show the drought conditions that we are currently experiencing. This is a color-coded map. Here are the codes: Abnormal dry, which means just an off year; drought moderate is the light brown; the dark brown is drought severe, and the red is drought extreme.

If you look to the left of the poster, here is the State of Colorado. This actually is the Colorado River right here, going down like this. The Colorado River runs about 1,500 miles. Only a small part of it is in Colorado. The Colorado provides 75 percent of the water that goes into it. Maybe 200 miles of the Colorado River is in Colorado, of the 1,500 miles total. It goes down through Utah, Arizona, and actually ends up in Mexico.

But my point here is to look at the drought conditions that we face. Now, we face some of these similar conditions on the East Coast, but out here in the west, where we start out with very arid conditions, look how much of it is in a moderate drought. All the light brown. But look what is in severe extreme drought. Look how much of that portion down here.

□ 2215

Look at what this is. This is a tough situation this year. Do you know how we are going to get through it? Do you know how we got through the semi-dryness last year? Because generations before us had the foresight to build major storage projects so when we ran out of water or did not have enough snow in the high peaks, we would have enough water to give us a crutch to get through to the next snow season. That is exactly why we will survive the drought in Colorado, even though it is severe, a drought that we have not seen since 1977 is the last time I recall. It appears that this one is going to be much more severe.

But we will be able to, we will be crippled, but we will be able to get through it because we have water storage. We have the capability to draw down on reservoirs. It is like your bank account. You always want to have a surplus in your bank account so if you have an emergency you can draw down on your savings. That is what these storage projects allow us.

But what has happened in the last few years through a huge public relations effort, they have been very successful in giving a negative connotation to the world dams and water storage projects. We in the West find ourselves constantly trying to explain, look, it is not a nasty word. It is a word that is necessitated by our lifestyles out in the West. It is necessitated by our needs for the environment. It is necessitated for our electricity. It is necessitated for flood control. These water storage projects are very, very important for us.

Now, what else happens when we face drought conditions? Fire. This year looks to be, if the conditions stay the same as they have up through this last week, this year could be the worst fire year since we kept records in this country. I want to say through the hard efforts of people like Gale Norton at the Department of the Interior, and Ann Veneman over at the Department of Agriculture, the head of the parks, these teams have come together and we have created a National Fire Council.

Last year through a lot of efforts, both Republican and Democrat, we put together the resources necessary to upgrade our firefighting capabilities in this country. We hired an additional 5,000 firemen. We picked up thousands of pieces of new equipment. In the last several months, we have disbursed those equipment and resources throughout the country so when we have a fire, as we had in Bailey up in Park County, Colorado, last weekend, we were within a very short period of time able to devote substantial resources to fighting that fire.

We have made dramatic improvements. Not only do we have a dry year, but we have had years and years and years of policies on the public lands, remember earlier my comments when we talked about the public lands, we have had years and years of policies of not allowing those forests to be cleaned. In essence, ignoring some of those forests. We now have lots of wastes on the floor of the forest. I call it gunpowder. What you see on my left, that will not be an uncommon sight in the mountains. We are going to see some of our biggest fires in Florida and in the East.

I think this year we have the team together. We never know what we are going to face, but based on past history, we think that with a little luck and a little blessing and the good Lord, we are going to be able to fight these fires successfully, but it is going to be a challenge.

Again, the importance of water storage. When we get out to some of these fires, one of the most important things to have is access to water. What does every fire truck in the West carry with them? They carry tarps. Why? A simple reason. As soon as they get to the scene of a fire, they create a dam. Think about it. Out in the rural areas, and I used to be a volunteer fireman, one of the first things that we learned was how to use a tarp. Firefighters put it in the stream and very quickly build up a dam so we have a water reservoir that we could pull the water out of to fight the fire. Again, another use of dams, another use of water storage that a lot of us do not think about in our day-to-day lives.

Let me show Members the inferno. These are the kinds of things that we are going to face this summer. That is a blow up, meaning the wind and heat. All of the conditions are perfect for what is called a blow up. That kind of inferno, unfortunately, will occur. To a large extent we cannot help it. We cannot have more rain. That is up to the good Lord. We cannot control where lightning strikes; that is up to the good Lord.

But in the management of our forests and in the management of our firefighting resources and in the allocation of our land management resources, a lot of these fires can be impacted or alleviated with proper land management. Again in the East, you deal with it differently because you do not have the public lands. In the West, we have lots of public pressure, a lot of times from people in the East who have never experienced life in the West, who are not acquainted with what it is like to be completely surrounded by public lands.

In my district, I have about 120 communities. These are small towns with the exception of two which are fairly large. All but one of them are completely surrounded. In other words, 119 are completely surrounded by public lands. And the rules and regulations that we deal with with public lands restrict the amount of freedom. In a lot of cases, it is very justified. But as in most cases where the government gets involved, you will find on some occasions they go overboard. Sometimes they go overboard, for example, by not allowing people to clean up the forests. This is a contributing cause to this kind of inferno.

Let me talk just a few more minutes about the importance of water in the West, about the importance of water storage in the West. I have made several key points to Members, and I want to summarize them. Keep in mind that 97 percent of the water in the world is in the oceans. It is salt water. We do not have an economic way to convert that water to drinking water that is affordable on any kind of mass scale. Of the remaining 3 percent, clear water, nonsalt water, 78 percent of that water is tied up in the polar ice caps. So we have a very small amount of water that is either not tied up in the ice caps or not salt water for our usage. Conservation is a critical element for us.

As our country continues to grow in population, obviously we need to practice more and more conservation. But remember that conservation and water is much trickier than, say, conservation of fuel or electricity. I will give Members an idea. When somebody comes in and says we want you to line your irrigation ditches, in other words put in concrete, and we can prevent seepage so you lose less water. The difficulty is that your seepage in your ditch may very well be providing the water for the spring 3 or 4 miles away.

Mr. Speaker, our generation does not have the capability to radar underneath the ground very effectively. We can pick up things above the ground, but what future generations will have the capability to do is they will have the capability to look underneath the ground, and at some point they will be able to figure out the logistics of those millions of miles of water streams underneath the Earth's surface. Then water management will make a lot more sense. Then conservation will be able to be done with much more precise science; but today, conservation is important.

But the key of my comments to Members this evening is not only to ask, as I have done on a number of occasions from this very podium, to ask for your indulgence when we talk about land issues in the West, because of the fact that the public lands really for the most part are in the West, they are not in the East, so I ask cooperation from my colleagues from the East, try and take a few moments, really you have the responsibility to take a few moments and understand the issues that we deal with because we have public lands. We have to deal with the government every minute of our lives out there when your community is surrounded by public lands. Our communities are completely, not partially, and this is not an exaggeration, our communities are completely dependent upon the Federal lands.

When we talk about water, out in my district, the water in my district either comes across, stores or ponds or originates on public lands. It is a big, big issue for us. The concept of multiple use is critical for our life-style. All of our highways, whether it is a radio antenna, whether it is our power lines, our fishing, our farming, our environmental protection, we deal with the government in every phase of that. Many in the East do not have to deal with any phase of that, at least as it pertains to the issue of public and private lands. You own the lands. We do not in the West. It is the same thing. There is the same kind of differential that begins to emerge when we talk about building water storage facilities on public lands, when we talk about the importance of water storage in the West.

Remember my earlier statistic, 73 percent of the water in this country is east of the Mississippi. Seventy-three percent of the surface water is east of the Mississippi. The western mountain region, that western area which is huge, which is about half of the United States, not quite but almost half of the United States in land mass, we have 14 percent of the water. Fourteen percent of the water, and almost half the land mass of the United States. So water storage is so, so critical for us out there.

Finally, keep in mind what water storage, what it does. It provides flood control. It provides hydroelectricity. It provides recreation. And probably as important as anything that I have just mentioned, probably more important than anything that I have just mentioned, it allows us to save water and build up a reservoir so when we face the kind of drought conditions that we are facing today in the West, we have the capability to draw from that reservoir, at least from a limited period of time to try and get us through until the next snow season.

Colleagues, I appreciate your time this evening. I appreciate the fact that I am allowed, and have this great privilege in this country to come to this House well and try to work with my colleagues in the East, Republican or Democrat, to tell you how important it is that you understand the geographical differences, the water differences between the eastern United States and the western United States.

Mr. Speaker, I appreciate this time, and look forward to Members' cooperation on these issues in the future.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. MASCARA (at the request of Mr. GEPHARDT) for today on account of personal reasons.

Ms. MILLENDER-MCDONALD (at the request of Mr. GEPHARDT) for today and the balance of the week on account of important legislative business in the district.

Mr. CRANE (at the request of Mr. ARMEY) for today on account of personal reasons.

Mr. CANNON (at the request of Mr. ARMEY) for today and the balance of the week on account of personal reasons.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. DAVIS of Illinois) to revise and extend their remarks and include extraneous material:)

Mr. DAVIS of Illinois, for 5 minutes, today.

Mr. PALLONE, for 5 minutes, today.

Mr. LIPINSKI, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Ms. NORTON, for 5 minutes, today.

Mr. BLUMENAUER, for 5 minutes, today.

Ms. BERKLEY, for 5 minutes, today.

(The following Member (at the request of Mr. SULLIVAN) to revise and extend his remarks and include extraneous material:)

Mr. PENCE, for 5 minutes, today.

SENATE ENROLLED BILL SIGNED

The SPEAKER announced his signature to an enrolled bill of the Senate of the following title:

S. 2248. An act to extend the authority of the Export-Import Bank until May 31, 2002.

ADJOURNMENT

Mr. MCINNIS. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 10 o'clock and 30 minutes p.m.), the House adjourned until tomorrow, Wednesday, May 1, 2002, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

6486. A letter from the Congressional Review Coordinator, Department of Agriculture, transmitting the Department's final rule—Infectious Salmon Anemia; Payment of Indemnity [Docket No. 01-126-1] received April 12, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

6487. A letter from the Administrator, Department of Agriculture, transmitting the Department's final rule—Farm Loan Programs Account Servicing Policies—Reduction of Amortized Shared Appreciation Recapture Amortization Rate (RIN: 0560-AG43) received April 18, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

6488. A letter from the Administrator, Department of Agriculture, transmitting the Department's final rule—Lamb Promotion, Research, and Information Order [No. LS-01-12] (RIN: 0581-AC06) received April 19, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

6489. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Fluazinam; Pesticide Tolerance [OPP-2002-0003; FRL-6831-8] (RIN: 2070-AB78) received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

6490. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Fenhexamid; Pesticide Tolerance [OPP-301228; FRL-6829-9] (RIN: 2070-AB78) received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

6491. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Sodium Starch Glycolate; Exemption from the Requiremnt of a Tolerance [OPP-2002-0018; FRL-6833-9] (RIN: 2070-AB78) received April 16, 2002, pursuant to 5

U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

6492. A letter from the Director, FDIC Office of Legislative Affairs, Federal Deposit Insurance Corporation, transmitting the Corporation's final rule—Engaged In The Business of Receiving Deposits Other Than Trust Funds (RIN: 3064-AC49) received April 22, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

6493. A letter from the General Counsel, Federal Emergency Management Agency, transmitting the Agency's final rule—Final Flood Elevation Determinations—received April 22, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

6494. A letter from the General Counsel, Federal Emergency Management Agency, transmitting the Agency's final rule—National Flood Insurance Program (NFIP); Increased Rates for Flood Coverage (RIN: 3067-AD27) received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

6495. A letter from the Acting Assistant General Counsel for Regulatory Services, Department of Education, transmitting the Department's final rule—Program of Research on Reading Comprehension—received April 19, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

6496. A letter from the Director, Regulations Policy and Management, Department of Health and Human Services, transmitting the Department's final rule—Medical Devices; Reclassification of Three Anesthesiology Preamendments Class III Devices into Class II [Docket No. 99N-0035] received April 22, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6497. A letter from the Director, Regulations Policy and Management Staff, Department of Health and Human Services, transmitting the Department's final rule—Prescription Drug Marketing Act of 1987; Prescription Drug Amendments of 1992; Policies, Requirements, and Administrative Procedures; Delay of Effective Date [Docket No. 92N-0297] (RIN: 0905-AC81) received April 22, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6498. A letter from the Director, Regulations Policy and Management Staff, Department of Health and Human Services, transmitting the Department's final rule—Medical Devices; Device Tracking [Docket No. 00N-1034] received April 17, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6499. A letter from the Director, Regulations Policy and Management Staff, Department of Health and Human Services, transmitting the Department's final rule—Topical Antifungal Drug Products for Over-the-Counter Human Use; Amendment of Final Monograph [Docket No. 99N-4063] (RIN: 0910-AA01) received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6500. A letter from the Director, Regulations Policy and Management Staff, Department of Health and Human Services, transmitting the Department's final rule—Cold, Cough, Allergy, Bronchodilator, and Antiasthmatic Drug Products for Over-the-Counter Human Use; Partial Final Rule for Combination Drug Products Containing a Bronchodilator; Correction [Docket No. 76N-052G] (RIN: 0910-AA01) received April 15, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6501. A letter from the Director, Regulations Policy and Management Staff, Department of Health and Human Services, transmitting the Department's final rule—Food Additives Permitted for Direct Addition to Food for Human Consumption; Change in Specifications for Gum or Wood Rosin Derivatives in Chewing Gum Base; Correction [Docket No. 99F-2533] received March 19, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6502. A letter from the Director, Regulations Policy and Management Staff, Department of Health and Human Services, transmitting the Department's final rule—Topical Nitrofurans; Extralabel Animal Drug Use; Order of Prohibition [Docket No. 01N-0499] received April 15, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6503. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Implementation Plans Georgia: Approval of Revisions to State Implementation Plan [GA-46-200221(a); FRL-7172-7] received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6504. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Air Quality Implementation Plans; New Hampshire; Post—1996 Rate of Progress Plans [NH-046b; A-1 FRL-7171-9] received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6505. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; State of New York [Region II Docket No. NY56-240; FRL-7172-6] received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6506. A letter from the Acting Chief, Policy and Rules Division, Federal Communications Commission, transmitting the Commission's final rule—Reallocation of the 216-220 MHz, 1390-1395 MHz, 1427-1429 MHz, 1429-1432 MHz, 1432-1435 MHz, 1670-1675 MHz, and 2385-2390 MHz Government Transfer Bands; and ; Amendment of Parts 2 and 95 of the Commission's Rules to Create a Wireless Medical Telemetry Service; and Amendments to Part 90 of the Commission's Rules Concerning Private Land Mobile Radio Services [ET Docket No. 00-221, RM-9267, RM-9692, RM-9797, RM-9854; ET Docket No. 99-255, PR Docket No. 92-235; WT Docket No. 97-153] Received April 25, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

6507. A letter from the Director, Office of Personnel Management, transmitting the Office's final rule—Absence and Leave; Use of Restored Annual Leave (RIN: 3206-AJ51) received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Government Reform.

6508. A letter from the Director, Office of Personnel Management, transmitting the Office's final rule—Basic Pay for Employees of Temporary Organizations (RIN: 3206-AJ47) received April 15, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Government Reform.

6509. A letter from the Director, Office of Personnel Management, transmitting the Office's final rule—Placement Assistance and Reduction in Force Notices (RIN: 3206-AJ18) received April 18, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Government Reform.

6510. A letter from the Director, Office of Personnel Management, transmitting the Office's final rule—Federal Employment Priority Consideration Program for Displaced Employees of the District of Columbia Department of Corrections (RIN: 3206-AI28) received April 18, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Government Reform.

6511. A letter from the National Oceanic and Atmoshperic Administration, transmitting the Administration's final rule—Endangered and Threatened Species; Final Rule to Remove Umpqua River Cutthroat Trout From the Federal List of Endangered and Threatened Species [Docket No. 000404093-0093-01; I.D. 121198A] (RIN: 0648-AN90) received April 18, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

6512. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 of the Gulf of Alaska [Docket No. 011218304-1304-01; I.D. 031202A] received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

6513. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Atlantic Highly Migratory Species; Commercial Shark Management Measures [Docket No. 011218303-1303-01; I.D. 110501B] (RIN: 0648-AP70) received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

6514. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic; Closure [Docket No. 001005281-0369-02; I.D. 111601A] received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

6515. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Vessels Catching Pacific Cod for Processing by the Inshore Component in the Western Regulatory Area of the Gulf of Alaska [Docket No. 011218304-1304-01; I.D. 022502D] received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

6516. A letter from the Director, Policy Directives and Instructions Branch, INS, Department of Justice, transmitting the Department's final rule—Release of Information Regarding Immigration and Naturalization Service Detainees in Non-Federal Facilities [INS No. 2203-02] (RIN: 1115-AG67) received April 18, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on the Judiciary.

6517. A letter from the Secretary of the Commission, Bureau of Competition, Federal Trade Commission, transmitting the Commission's final rule—Premerger Notification; Reporting and Waiting Period Requirements—received April 15, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on the Judiciary.

6518. A letter from the General Counsel, Federal Emergency Management Agency, transmitting the Agency's final rule—Hazard Mitigation Planning and Hazard Mitigation

Grant Program (RIN: 3067-AD22) received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

6519. A letter from the General Counsel, Federal Emergency Management Agency, transmitting the Agency's final rule—Assistance to Firefighters Grant Program (RIN: 3067-AD21) received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Science.

6520. A letter from the General Counsel, National Science Foundation, transmitting the Foundation's final rule—Misconduct in Science and Engineering—received April 18, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Science.

6521. A letter from the Acting Deputy General Counsel, SBA, Small Business Administration, transmitting the Administration's final rule—Small Business Size Standards; Inflation Adjustment to Size Standards (RIN: 3245-AE56)—received April 18, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Small Business.

6522. A letter from the Chief, Regulations Unit, Internal Revenue Service, transmitting the Service's final rule—Investment Credit on Transition Property—received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

6523. A letter from the Chief, Regulations Unit, Internal Revenue Service, transmitting the Service's final rule—Intermet Corporation & Subs V. Commissioner [Docket No. 8246-97] received April 16, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

6524. A letter from the Chief, Regulations Unit, Internal Revenue Service, transmitting the Service's final rule—2002 Limitations Adjusted As Provided In Section 415(d) (Notice 2001-84) received April 22, 2002, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. BOEHLERT: Committee on Science. H.R. 2051. A bill to provide for the establishment of regional plant genome and gene expression research and development centers; with amendments (Rept. 107–422). Referred to the Committee of the Whole House on the State of the Union.

Mrs. MYRICK: Committee on Rules. House Resolution 402. Resolution providing for the consideration of the bill (H.R. 2871) to reauthorize the Export-Import Bank of the United States, and for other purposes (Rept. 107–423). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. HUNTER (for himself, Mr. Cunningham, and Mr. Saxton):

H.R. 4618. A bill to amend the Magnuson-Stevens Fishery Conservation and Management Act to provide for the conservation of stocks of Pacific highly migratory species by directing the Secretary of Commerce to prohibit pelagic longline fishing in the exclusive economic zone off the coasts of the States of California, Oregon, and Washington; to the Committee on Resources.

By Mr. NETHERCUTT:

H.R. 4619. A bill to authorize the Secretary of the Army to provide a credit toward the non-Federal share of the cost of the feasibility study for the project for flood control in the vicinity of Sprague, Lincoln County, Washington, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. OTTER (for himself, Mr. Hansen, Mr. Pombo, Mr. Radanovich, Mr. Stump, Mr. Hefley, Mr. Gibbons, Mr. Simpson, and Mr. Hunter):

H.R. 4620. A bill to accelerate the wilderness designation process by establishing a timetable for the completion of wilderness studies on Federal lands, and for other purposes; to the Committee on Resources.

By Mr. PETERSON of Minnesota (for himself, Mr. McGovern, Mr. Rohrabacher, Mr. Lynch, Mr. Faleomavaega, Mr. Kildee, Mr. Sanders, and Ms. Ros-Lehtinen):

H.R. 4621. A bill to amend title 39, United States Code, to authorize additional compensation to be paid to certain veterans in receipt of compensation for a service-connected disability rated totally disabling for whom a family member dependent on the veteran for support provides care; to the Committee on Veterans' Affairs.

By Mr. RADANOVICH:

H.R. 4622. A bill to require Federal land managers to support, and to communicate, coordinate, and cooperate with, designated gateway communities, to improve the ability of gateway communities to participate in Federal land management planning conducted by the Forest Service and agencies of the Department of the Interior, and to respond to the impacts of the public use of the Federal lands administered by these agencies, and for other purposes; to the Committee on Resources, and in addition to the Committee on Agriculture, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. SMITH of Texas (for himself, Mr. Pomeroy, Mr. Foley, Ms. Hart, Mr. DeLay, Mr. Bryant, Mr. Goodlatte, Mr. Jenkins, Mr. Cannon, Mr. Green of Wisconsin, Mr. Keller, Mrs. Johnson of Connecticut, Mr. Stearns, Mr. Nussle, Mrs. Capito, Mr. Gilchrest, Mr. Culberson, Mr. Weller, and Mr. Upton):

H.R. 4623. A bill to prevent trafficking in child pornography and obscenity, to proscribe pandering and solicitation relating to visual depictions of minors engaging in sexually explicit conduct, to prevent the use of child pornography and obscenity to facilitate crimes against children, and for other purposes; to the Committee on the Judiciary.

By Mrs. TAUSCHER (for herself and Mr. Spratt):

H.R. 4624. A bill to promote the non-proliferation of nuclear weapons and other weapons of mass destruction; to the Committee on International Relations, and in addition to the Committee on Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. KENNEDY of Minnesota (for himself, Mr. Gutknecht, Mr. Ramstad, Ms. McCollum, Mr. Sabo, Mr. Luther, Mr. Peterson of Minnesota, and Mr. Oberstar):

H. Con. Res. 391. Concurrent resolution honoring the University of Minnesota Golden Gophers men's hockey and wrestling teams and the University of Minnesota-Duluth Bulldogs women's hockey team for winning the 2002 National Collegiate Athletic Association championships; to the Committee on Education and the Workforce. considered and agreed to.

By Mr. STARK:

H. Con. Res. 392. Concurrent resolution to protect private decisions about marriage; to the Committee on Education and the Workforce.

By Mr. SIMMONS (for himself, Mr. Shays, Mrs. Johnson of Connecticut, Mr. Larson of Connecticut, Ms. DeLauro, and Mr. Maloney of Connecticut):

H. Res. 401. A resolution congratulating the University of Connecticut Huskies for winning the 2002 National Collegiate Athletic Association Division I women's basketball championship; to the Committee on Education and the Workforce. considered and agreed to.

PRIVATE BILLS AND RESOLUTIONS

Under clause 3 of rule XII,

Mr. LATOURETTE introduced a bill (H.R. 4625) for the relief of Zdanko Lisak; which was referred to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 113: Mr. Sherman.

H.R. 198: Mr. Burton of Indiana.

H.R. 292: Mr. McGovern.

H.R. 348: Mr. Rodriguez.

H.R. 488: Mr. Blagojevich.

H.R. 602: Mr. Leach.

H.R. 690: Ms. Sanchez.

H.R. 730: Mr. Payne.

H.R. 792: Mr. Bentsen.

H.R. 898: Ms. McKinney, Mr. Kennedy of Rhode Island, Ms. Millender-McDonald, Mr. McNulty, Mr. Clement, Mr. Udall of New Mexico, Mrs. Maloney of New York, Ms. Carson of Indiana, Mrs. Jones of Ohio, and Ms. Norton.

H.R. 938: Mr. Jackson of Illinois.

H.R. 1005: Mr. Souder.

H.R. 1081: Mr. Wolf and Mr. Taylor of Mississippi.

H.R. 1086: Ms. Norton.

H.R. 1108: Mr. Foley and Mrs. Tauscher.

H.R. 1109: Mr. Collins, Mr. McCrery, Mr. Herger, Mr. Kingston, and Mr. Simmons.

H.R. 1177: Mr. Ackerman.

H.R. 1213: Mr. Strickland.

H.R. 1268: Mr. Foley.

H.R. 1309: Mr. Houghton.

H.R. 1343: Mr. Sweeney.

H.R. 1353: Mr. Thune.

H.R. 1465: Mr. Abercrombie.

H.R. 1475: Mr. Mascara.

H.R. 1581: Mr. Price of North Carolina, Mr. Shays, Mrs. Myrick, and Mr. Houghton.

H.R. 1613: Ms. Harman and Mr. Larson of Connecticut.

H.R. 1651: Mr. Mascara.

H.R. 1759: Mr. Price of North Carolina.

H.R. 1764: Mr. Oberstar.

H.R. 1808: Mr. Mascara, Ms. Velázquez, Mr. Gutierrez, Mr. Lampson, Mr. Capuano, Mr. Costello, and Mrs. Mink of Hawaii.

H.R. 1822: Mr. Pastor.

H.R. 1861: Mr. LaFalce.

H.R. 1873: Mr. Kind.

H.R. 1904: Mr. Hall of Ohio.

H.R. 1935: Mr. Boucher, Mr. Crowley, Mr. Scott, Mr. Thompson of Mississippi, Mr. Tiberi, Ms. Kilpatrick, Ms. Rivers, Mr. Portman, Mr. DeMint, Mr. Stupak, Ms. Ros-Lehtinen, and Mrs. Roukema.

H.R. 1983: Mr. Cannon.

H.R. 2029: Mr. McCrery.

H.R. 2055: Mr. Dan Miller of Florida.

H.R. 2117: Mr. Stark, Mr. Jones of North Carolina, and Mr. Evans.

H.R. 2161: Mr. Holden and Mr. Smith of Washington.

H.R. 2173: Ms. McCollum and Mrs. Capps.

H.R. 2357: Mr. Weller.

H.R. 2466: Mr. Price of North Carolina, Mr. Bentsen, Mr. McInnis, Mr. LaHood, and Mr. Collins.

H.R. 2487: Mr. Neal of Massachusetts and Mr. Olver.

H.R. 2570: Ms. Velázquez, Mr. Rahall, and Ms. Brown of Florida.

H.R. 2623: Mrs. Biggert.

H.R. 2638: Mr. Shows, Mr. Wu, Mr. Vitter, Mr. Bonilla, and Mr. Schaffer.

H.R. 2662: Mr. McDermott.

H.R. 2735: Mr. Akin, Mr. Sweeney, and Mr. Pastor.

H.R. 2763: Mr. Brown of South Carolina.

H.R. 2788: Mr. Payne and Mr. Bishop.

H.R. 2820: Mr. Markey, Ms. Kilpatrick, Mr. Hoyer, Mr. Bishop, Mr. Engel, Mr. Olver, and Ms. Lofgren.

H.R. 2837: Mr. Blumenauer.

H.R. 2874: Mr. Sanders, Mr. Rodriguez, Mr. Rangel, Ms. Carson, of Indiana, Mr. Coyne, and Mr. George Miller of California.

H.R. 2974: Ms. Rivers and Mrs. Napolitano.

H.R. 3132: Mr. Thompson of California, Mr. Frank, Mr. Meehan, and Ms. Baldwin.

H.R. 3185: Mr. George Miller of California.

H.R. 3324: Ms. McCollum, Ms. Brown of Florida, Ms. Dunn, Mr. Paul, Mr. Israel, Mr. Lampson, and Mr. Frank.

H.R. 3335: Mr. Schiff.

H.R. 3414: Mr. Olver.

H.R. 3424: Ms. McCarthy of Missouri, Mr. Hilleary, and Mr. Young of Florida.

H.R. 3430: Mr. Wilson of South Carolina.

H.R. 3450: Mr. Gilman, Mrs. Napolitano, Mr. Weller, and Ms. Waters.

H.R. 3464: Mr. Cummings, Mr. Larson of Connecticut, Mr. Lantos, Mr. Holt, and Mr. Rangel.

H.R. 3469: Mr. Farr of California, Mr. Frank, Mr. Maloney of Connecticut, Mr. Brady of Pennsylvania, Mr. Ford, Ms. McKinney, Mrs. Davis of California, Mr. Wu, Mr. Jackson of Illinois, Mrs. Clayton, Mr. Frost, Mr. Rangel, Mr. McDermott, Mr. Hinchey, Mr. Nadler, Mr. McGovern, Mr. Thompson of California, Mr. Honda, Mr. Owens, and Mr. Kucinich.

H.R. 3478: Mr. Thompson of California, Mr. Hayes, and Mr. Calvert.

H.R. 3491: Mr. English.

H.R. 3521: Mr. Ackerman.

H.R. 3524: Mr. Rodriguez.

H.R. 3552: Mr. Pallone, Mr. Doyle, and Ms. Carson of Indiana.

H.R. 3569: Mrs. Jo Ann Davis of Virginia.

H.R. 3631: Ms. Eshoo.

H.R. 3663: Mr. Ackerman.

H.R. 3686: Ms. Carson of Indiana.

H.R. 3729: Ms. Solis, Mrs. Lowey, and Mr. Sanders.

H.R. 3747: Mr. Moran of Virginia.

H.R. 3794: Mr. Moran of Virginia, Ms. Schakowsky, Mr. Hinchey, Ms. Pelosi, and Mr. Ramstad.

H.R. 3804: Mr. Gilchrest, Mr. Frank, Ms. Kaptur, Mr. McDermott, Ms. Woolsey, Ms. Rivers, Mr. Abercrombie, Mr. DeFazio, Mr. George Miller of California, Mr. Rahall, Mr. McGovern, Mrs. Maloney of New York, Mr. Kucinich, Mr. Sawyer, Ms. McCollum, Mr. Tierney, Mr. Allen, Mr. Davis of Illinois, and Mr. Lewis of Georgia.

H.R. 3805: Mr. Pence and Mr. DeLay.

H.R. 3831: Ms. Carson of Indiana.

H.R. 3833: Mr. Wynn, Mr. Weller, and Mr. Pomeroy.

H.R. 3834: Mr. Levin, Mr. Kanjorski, Mr. Radanovich, Mr. Wamp, Mr. McDermott, Mr. Thune, Mr. Leach, and Mr. Ross.

H.R. 3884: Ms. Schakowsky.

H.R. 3887: Mr. McGovern, Ms. Velázquez, Mr. Udall of Colorado, and Ms. Roybal-Allard.

H.R. 3895: Mr. Forbes.

H.R. 3898: Mrs. Christensen.

H.R. 3899: Mr. Bishop.

H.R. 3915: Mrs. Morella.

H.R. 3916: Mrs. Mink of Hawaii and Mr. Towns.

H.R. 3932: Mr. Greenwood, Mr. Sabo, Mr. Hall of Ohio, and Mr. Delahunt.

H.R. 3961: Mr. Blagojevich.

H.R. 3973: Mr. Paul.

H.R. 3976: Mr. Frank.

H.R. 3995: Mr. Kennedy of Minnesota, Mr. Whitfield, Mrs. Johnson of Connecticut, Mr. Upton, Ms. Pryce of Ohio, and Mr. Young of Alaska.

H.R. 4000: Mr. Wamp and Mr. Farr of California.

H.R. 4003: Mr. Hinchey.

H.R. 4012: Mr. Radanovich.

H.R. 4017: Mr. Gutierrez, Mr. Hinchey, Mr. McGovern, Mr. Snyder, Mr. Wexler, Mr. Filner, Mr. Lipinski, Mr. Bilirakis, Mr. Frank, and Mr. Gonzalez.

H.R. 4018: Ms. Baldwin.

H.R. 4043: Mr. Burton of Indiana.

H.R. 4055: Mr. Dan Miller of Florida.

H.R. 4066: Mr. Bartlett of Maryland, Mr. Moran of Virginia, Mr. Green of Texas, Mr. Olver, Mr. Kirk, Mr. Hall of Ohio, Mr. Filner, and Mr. Platts.

H.R. 4071: Mr. Deutsch.

H.R. 4073: Mr. Roemer, Mr. Hyde, Mr. Lantos, and Mr. Houghton.

H.R. 4078: Mr. Acevedo-Vilá, Mr. Tiberi, and Mr. Blumenauer.

H.R. 4098: Mr. Markey.

H.R. 4099: Mr. Callahan.

H.R. 4163: Mr. Hinchey, Ms. Carson of Indiana, Mr. Ford, and Mr. McGovern.

H.R. 4209: Mrs. Capps, Mr. Waxman, Mr. Shaw, Mr. Deutsch, and Mr. Udall of Colorado.

H.R. 4447: Mr. LoBiondo.

H.R. 4448: Mr. LoBiondo.

H.R. 4481: Mr. Oberstar, Mr. Lipinski, and Mr. Baker.

H.R. 4483: Mr. Wamp, Mr. Linder, Mr. Gutierrez, Mr. Pence, Mr. Lampson, Mr. Wilson of South Carolina, Mr. Aderholt, Mr. McGovern, Mr. Berman, Mr. Weiner, Mr. Wexler, Mr. Ramstad, Mr. Sweeney, and Mr. Foley.

H.R. 4496: Mr. Callahan.

H.R. 4498: Mr. Callahan.

H.R. 4515: Mr. Oberstar.

H.R. 4524: Ms. Schakowsky, Mr. English, Mrs. Meek of Florida, and Mr. McGovern.

H.R. 4582: Mr. McGovern.

H.R. 4584: Mr. Burr of North Carolina, Mr. Whitfield, and Mr. Pickering.

H.R. 4585: Mr. Burr of North Carolina, Mr. Whitfield, and Mr. Pickering.

H.R. 4592: Ms. Pelosi, Mrs. Napolitano, Ms. Watson, Mr. Berman, Mr. Filner, Mr. George Miller of California, Mrs. Tauscher, Mr. Gallegly, Ms. Harman, Mr. Schiff, Ms. Roybal-Allard, Mr. Radanovich, and Mr. Lantos.

H.R. 4593: Mr. Israel, Ms. Sanchez, Mr. John, and Mr. Sandlin.

H.R. 4600: Mrs. Capito, Mr. Sessions, Mr. Pitts, and Mr. Wamp.

H.R. 4608: Mr. Ryun of Kansas and Mr. Moore.

H.J. Res. 40: Mr. Sweeney.

H.J. Res. 90: Ms. Sanchez.

H. Con. Res. 238: Mr. Brown of South Carolina.

H. Con. Res. 271: Mr. Ferguson.

H. Con. Res. 315: Mr. Jones of North Carolina.

H. Con. Res. 336: Mr. George Miller of California.

H. Con. Res. 345: Mr. Baird.

H. Con. Res. 350: Mr. Hefley and Mr. Coble.

H. Con. Res. 386: Mr. Ehrlich and Mr. Gutknecht.

H. Con. Res. 389: Mr. Gutknecht, Mr. Ramstad, Ms. McCollum, Mr. Sabo, Mr. Luther, Mr. Peterson of Minnesota, and Mr. Oberstar.

H. Con. Res. 390: Mr. Israel, Mr. Gilman, Mr. Walsh, Mr. McGovern, Mr. Meehan, Mr. Bonior, and Mr. McNulty.

H. Res. 269: Mr. Israel.

H. Res. 393: Mrs. Morella, Mr. English, Mr. Sherman, Mr. McGovern, Mr. Grucci, Mr. Holden, Mr. Cantor, Mr. Sweeney, and Mr. Shays.

H. Res. 400: Mr. Weldon of Florida, Mr. Greenwood, Mr. Castle, Mr. Hinchey, and Mr. Waxman.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolutions as follows:

H.R. 1950: Mr. Davis of Illinois.

AMENDMENTS

Under clause 8 of rule XVIII, proposed amendments were submitted as follows:

H.R. 2871

Offered By: Mr. Sanders

Amendment No. 1: At the end of the bill, add the following:

SEC. . INFORMATION AND CERTIFICATIONS REQUIRED FROM COMPANIES SEEKING OR RECEIVING NEW ASSISTANCE.

Section 2 of the Export-Import Bank Act of 1945 (12 U.S.C. 635) is further amended by adding at the end the following:

"(g)(1) As a condition of providing assistance to a company in connection with a transaction entered into on or after the date of the enactment of this subsection, the Bank shall require the company to submit to the Bank the following information on an annual basis:

"(A) The number of individuals employed by the company in the United States and its territories.

"(B) The number of individuals employed by the company outside the United States and its territories.

"(C) A description of the wages and benefits being provided to the employees of the company in the United States and its territories.

"(2)(A) Beginning 1 year after the Bank provides assistance to a company in connection with a transaction entered into on or after the date of the enactment of this subsection, the company shall, on an annual basis, provide the Bank with a written certification of—

"(i) the percentage of the workforce of the company employed in the United States or its territories that has been laid off or induced to resign from the company during the preceding year; and

"(ii) the percentage of the total workforce of the company that has been laid off or induced to resign from the company during the preceding year.

"(B)(i) If, in the certification provided by the company, the percentage described in subparagraph (A)(i) is greater than the percentage described in subparagraph (A)(ii), then the company shall be ineligible for further assistance from the Bank until the company provides to the Bank a new written certification in which, for the year covered by the new certification, the percentage described in subparagraph (A)(i) is not greater than the percentage described in subparagraph (A)(ii).

"(ii) If the company does not provide a certification required by subparagraph (A), or provides a false certification under this paragraph, then 60 days thereafter the Bank shall withdraw all assistance from the company, and the company shall thereafter be ineligible for assistance from the Bank.".

EXTENSIONS OF REMARKS

TRIBUTE TO THE ORRSTOWN LODGE NO. 262 F & A.M.

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. SHUSTER. Mr. Speaker, I rise today to pay tribute to the Orrstown Lodge No. 262 F & A.M. for their one hundred and fiftieth anniversary. On March 1st, 1852, the Grand Lodge of Pennsylvania granted a charter for the establishment of a masonic lodge in Orrstown. The charter members were: Henry Ruby, John Orr, James B. Orr, William Orr, William F. Breckenridge, Joseph Johnston, John Wunderlich, and Jacob Heck, who all lived in Orrstown and the vicinity. James B. Orr, the first Worshipful Master, and the seven other charter members, desired a lodge in their own town, not just for more accessibility, but because they knew that the community of Orrstown would uphold the values, traditions, and beliefs of Freemasonry. On May 6th, the first meeting of the masonic lodge of Orrstown came to order and opened in Ancient form. They would meet on the first and third Thursday of the month until November 20, 1879, when they became a moon lodge. Since that time they have met on the Thursday night on or before a full moon.

I would like to impress upon my colleagues that although their longevity is impressive, the traditions and values that have been passed on through these years are their most notable achievements. Freemasons began as a society that was based on the principles of morality and brotherhood. A society in which education and charity are bricks in the foundation of their existence and altruism is central in the character of its members. A mason is a man of integrity and honor. Attributes that are not only beneficial to the man who possesses them but to the community where the man resides. The Orrstown Lodge has been instrumental in helping to develop such qualities.

In the popular Masonic book "The Builders," author Joseph Fort Newton answers the question: "When is a man a Mason?" He writes, "When he can look out over the rivers, the hills and the far horizon with a profound sense of his own littleness in the vast scheme of things, and yet have faith, hope and courage, which is the root of every virtue * * *. When he knows how to sympathize with men in their sorrows, yea even in their sins—knowing that each man fights a hard fight against many odds. When he has learned how to make friends and to keep them and above all, how to keep friends with himself * * *. When he knows how to pray, how to love, how to hope. When he has kept faith with himself, with his God; in his hand a sword for evil, in his heart a bit of a song; glad to live, but not afraid to die. Such a man has found the only secret of Freemasonry, and the one which it is trying to give to all the world." The world would be a better place if only we had more of such men.

Mr. Speaker, I urge you to join me In congratulating the Orrstown Lodge on their one hundred and fifty year anniversary. I wish the members of this extraordinary organization the very best in the years to come.

ON THE 32ND ANNIVERSARY OF EARTH DAY

HON. ROBERT A. UNDERWOOD

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. UNDERWOOD. Mr. Speaker, as the 32nd anniversary of Earth Day was recently celebrated, it was wonderful to note how environmental conservation issues have become part of the public consciousness. The grassroots movement that established the environment as an important political issue in the 1970s has brought lasting changes on both the national and local level. In Congress, the need for environmental legislation has resulted in the passage of the Clean Air Act, the Clean Water Act, the Federal Environmental Pesticide Control Act, the Endangered Species Act, and the Safe Drinking Water Act. On the local level, communities all over the nation, including those in my district of Guam, continue to celebrate Earth Day.

Our local environmental agency, the Guam Environmental Protection Agency (GEPA), has organized numerous activities to celebrate Earth Day. The programs planned by GEPA embrace the theme "Environmental Education is for Everyone". All the activities promote environmental awareness and the idea that individual action makes a difference. GEPA is celebrating Earth Day by holding activities through the month of April. Projects include island wide trash clean-ups, hazardous waste and 'white good' collections, and a Run/Walk/Jog to raise environmental awareness. Other planned activities include a young person's art competition to illustrate environmental success stories sponsored by the United Nations, and two coral reef clean-ups to be performed by local scuba divers. Today, I wish to congratulate and commend GEPA's efforts to improve the state of the environment on Guam.

Environmental protection and resource conservation help make the planet a healthy place to live and save critical resources for the future. Thus, our actions today benefit not only ourselves, but the generations yet to come. As we say in Chamorro, "Prutehi i tano'-ta": we must protect our land.

Earth Day is an important reminder that we must all work together to sustain our island resources and to remember that every action does make a difference, On the national level, I will continue to advocate for the environment and the people of Guam, supporting bills that promote wise management of our coastal zone, protect our resources, and conserve our coral reefs. However, it is the actions of local agencies and people who effect real environmental change. On this anniversary of Earth Day, I would like to thank the Guam Environmental Protection Agency and the people of Guam who work to preserve our natural marine and terrestrial resources, to achieve clean air, land, and water, and to protect the natural environment on our island.

THE PACIFIC HIGHLY MIGRATORY SPECIES CONSERVATION ACT OF 2002

HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. HUNTER. Mr. Speaker, today I am proud to introduce the Pacific Highly Migratory Species Conservation Act of 2002, which amends the Magnuson-Stevens Fishery Conservation and Management Act to keep the West Coast Exclusive Economic Zone (EEZ) free of pelagic long-line fishing.

For those new to the issue, pelagic long-lining is a fishing method that uses long-lines more than 20 miles in length, which are suspended horizontally over the water by surface floats. Attached to that long-line are lines and hooks that dangle vertically in the water for as long as twelve hours. Those baited hooks are meant to catch highly migratory species of fish such as swordfish and tuna, but they have the unintended consequence of also catching many other sea creatures swimming by in search of a meal. On the East Coast, the species that are caught in this gear by mistake (called by-catch) include endangered sea turtles, dolphins, pilot whales, porpoises and even sea birds. These creatures are stuck on the longline until it is reeled in, which takes several hours. Many cannot withstand the long soak time while stuck on the line, and they have no escape from predators.

A lesson from history is proof of the need to address this problem: For over 150 years on the East Coast, commercial swordfish harpooners maintained a strong viable fishery by targeting fish that were adults and that have spawned more than once. After the introduction of drift long-lining in the late 1960s, swordfish and marlin stocks decreased at a rapid rate. In fact, it took less than 30 years to virtually bring these species to their dangerously low levels of today. We have a thriving harpoon industry in California with exceptionally high quality product that should be protected.

Congress has debated how to restrict or eliminate the use of the pelagic long-line gear in East Coast and Gulf of Mexico waters over the last three years. Unfortunately, the National Marine Fisheries Service is considering

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.
Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

allowing the experimental use of these non-selective and destructive long-lines within the 200 mile West Coast EEZ. This would have a devastating impact on all West Coast pelagic fisheries, but most particularly in California, where long-lining has not been previously permitted.

My bill will protect the species in the West Coast waters from long-line gear, remove pelagic longline gear from the West Coast EEZ from the Canadian border with Washington State to the Mexican border with California. Our marine ecosystems will be protected from the devastating impact of the gear and serve as a successful example of sound fisheries management. In California's commercial fisheries, there are more selective ways to target economically valuable pelagic species. We should not let the mistakes made in the East Coast and Gulf of Mexico waters replicate themselves on the West Coast.

CELEBRATING THE 90TH ANNIVERSARY OF GIRL SCOUTS OF THE USA

HON. GERALD D. KLECZKA

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. KLECZKA. Mr. Speaker, I congratulate the Girl Scouts of the USA this year for their 90th anniversary. Since 1912, the Girl Scouts have strived to help all girls grow strong by teaching them to develop to their true potential. Through girl scouting, girls acquire self-confidence and expertise, take on responsibility, and are encouraged to think creatively: all qualities essential for good citizens and leaders.

Today, with a membership of 3.8 million, the Girl Scouts are the largest organization for girls in the world. Of that 3.8 million, almost one million of those are adult volunteers, who dedicate their time and enthusiasm to ensure that Girl Scouting is available to every girl in every community, reaching beyond racial, ethnic, socioeconomic or geographic boundaries.

Scouting encourages girls to study fields that are typically male dominated, such as science, technology, health and sports. Of the more than 50 million women who are Girl Scout Alumnae, over two-thirds are doctors, lawyers, educators, or community leaders—including many Congresswomen. Former Girl Scouts include Eileen Collins, the first female space shuttle commander, Olympic Gold Medallist Jackie Joyner-Kersee and Senator HILLARY RODHAM CLINTON.

For 90 years, Girl Scouts have paved the way for girls of all ages, empowering them to become leaders, and community activists. Through their dedication, Girl Scouts have improved our communities, and adults have realized they can be positive role models to children. Many thanks and congratulations to the Girl Scouts for their invaluable achievements over the last 90 years.

RECOGNIZING RICHARD DARMANIAN

HON. CALVIN M. DOOLEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. DOOLEY of California. Mr. Speaker, I rise today to recognize the accomplishments of Richard Darmanian, an exemplary citizen deeply admired by all who have worked with him, especially members in the Armenian community throughout California and the United States for his assiduous devotion as an educator and community leader.

This month, Mr. Darmanian's peers recognized him for his fifty years of altruistic service to his community, wherein he served as director of the Armenian National Committee (ANC) of Central California from 1988 to 1996 and as an educator and administrator in the Fresno Unified School District since 1952.

Mr. Darmanian is a respected leader whose efforts championed the vision of an established Armenian community in the San Joaquin Valley. Twenty-five years ago, he was instrumental in founding the Armenian Community School of Fresno, an institution that has helped to teach Armenian children their heritage and language.

At a time when leadership is in high demand, Mr. Darmanian is a beacon to the young, enabling a new generation of leaders. His work has brought the Central Valley a deeper understanding and appreciation of the Armenian culture.

Mr. Speaker, I ask that you and my distinguished colleagues join me in congratulating Mr. Richard Darmanian on being recognized by the Armenian National Committee of Central California. His commitment and dedication to the entire community deems him more than worthy of this acclamation. I wish him continued success, both personally and professionally.

HONORING MYRON PITTMAN ON HIS 102ND BIRTHDAY

HON. MICHAEL G. OXLEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. OXLEY. Mr. Speaker, it is my honor today to pay tribute to a distinguished resident of Bucyrus, OH, on the occasion of his 102nd birthday.

Myron J. Pittman was born on April 30, 1900, in northwest Ohio. He graduated from high school in 1918, and subsequently went to work for the Ohio State University, checking and reporting on dairy herd production throughout the State of Ohio. Mr. Pittman later attended Otterbein College—until, as he says, he "ran out of money."

He moved to Crawford County in the mid-1930s and ran a dairy farm there through the 1960s. At various times, Mr. Pittman also worked as a rural mail carrier and for the Ohio Department of Highways. A dedicated community supporter, he served as a member of the Whetstone Local School District Board of Education for 9 years. Mr. Pittman is a longtime member of Woodlawn United Methodist Church in Bucyrus.

Mr. Pittman and his wife Opal enjoyed more than 74 years of marriage before she passed away in 2000. He has two daughters, Mary Gast of Marion County and Barbara Quaintance of Crawford County, and enjoys spending time with his 4 grandchildren and 4 great-grandchildren.

Mr. Pittman is in good health and takes no medications. He has a sharp mind, and keeps a close eye on the goings-on in Washington. His voting record is truly inspirational: he has voted in every Presidential election since the Coolidge/Davis contest of 1924.

I know that my colleagues join me in saluting Mr. Pittman's contributions to his community and in wishing him a happy 102nd birthday.

TRIBUTE TO SALLY ANN ROBISON

HON. JOHN T. DOOLITTLE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. DOOLITTLE. Mr. Speaker, today I wish to remember and honor a woman who was a leader in public education in Northern California, Mrs. Sally Ann Robison. After a lifetime of dedication to her family, faith, and students, Sally passed away on April 25, 2002. She was 58 years old.

The former Sally Ann Franklin was born in Riverside, California, on September 30, 1943, to Albert John Franklin and Mary Jane Richards. She grew up in the Cities of Stockton and Sacramento, where she attended C.K. McClatchy High School and Sacramento City College. After graduating from California State University, Chico, Sally earned a Master of Arts degree in education from California State University, Sacramento. With this training, she forged a lifetime of public service in the field of education.

Her long and distinguished career as an educator spanned from North America's Pacific Coast to Western Europe, and from the classroom to the boardroom. While stationed in Germany with her husband, Air Force Academy graduate Jim T. Robison, Sally taught school for six years. Upon returning to California, she was an instructor for three years in the Sacramento City Unified School District and for one year in Gridley, California. Then, for 22 years, she taught at Noralto Elementary School in the North Sacramento Unified School District. Most recently, she taught kindergarten for six years at Pasadena Avenue Elementary School in the San Juan Unified School District.

Aside from her efforts in the classroom, Sally's passion for teaching children to read led her to serve on the California State Textbook Adoption Committee. Additionally, she was greatly concerned with higher education. Since December 1992, she served on the Sierra College Board of Trustees. Thus, she had a role in shaping the lives of students from kindergarten to college, the beginning and ending of one's academic experience.

Being both socially-conscious and socially active, Sally belonged to many community organizations. These included the San Juan

Teachers Association, the California Teachers Association, the National Education Association, and the South Placer County Republican Women, Federated. While known for her quiet, friendly demeanor, Sally also had great integrity and a steely resolve. Standing for what was right at all times was important to her, even if it meant standing alone.

Most importantly, Sally Robison was devoted to her family and was a committed member of the Sunset Christian Center in Rocklin, California.

She is survived by her husband of 32 years, Jim, her daughters, Amy and Ashley Robison, and her granddaughter, Alexis Robison. I join with her family, friends, and community in mourning her passing.

May you rest in peace, Sally.

HONORING DONNA LLOYD

HON. DALE E. KILDEE

OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Tuesday, April 30, 2002

Mr. KILDEE. Mr. Speaker, I rise today to pay tribute to the Executive Director of Community Home Health Hospice, Donna Lloyd. Donna is leaving her position after sixteen years providing end-of-life care.

Donna Lloyd has worked tirelessly to ensure the dying are given comfort and a high quality of life. Under her direction Community Home Health and Hospice has maintained a significant place in the health care community of Michigan. Aiding patients in Genesee, Oakland, Livingston, Shiawassee and Lapeer Counties, it has served as a role model for other community based hospices. Currently occupying a 19,000 square foot facility, patients may live out the remainder of their days in a familiar and home-like setting.

Over the years, Donna has been recognized as a leader in the hospice movement. She was nominated for the "Heart of Hospice" award by the National Hospice Organization in 1993. She helped write the standards and regulations for Hospice Residences in Michigan. Her experience organizing, and expanding a hospice gave her a unique perspective for this work.

Mr. Speaker, I ask the House of Representatives to join me today in congratulating Donna Lloyd as she begins a new phase of her life. Her compassion for the dying has benefited everyone.

RETIREMENT OF PITTSBURGH POLICE COMMANDER GWEN ELLIOTT

HON. WILLIAM J. COYNE

OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, April 30, 2002

Mr. COYNE. Mr. Speaker, I rise today to observe that Pittsburgh Police Commander Gwendolyn J. Elliott is retiring after more than 25 years of service with the Pittsburgh Bureau of Police.

Commander Elliott has a long and commendable career of public service. She served from 1964 until 1969 in the United States Air Force. She subsequently served in the Air National Guard from 1969 until 1973 and in the Army Reserves from 1974 until 1979. She worked as a Crisis Intervention Counselor at a Massachusetts community-based treatment center, and as a mental health counselor, before joining the Pittsburgh Bureau of Police in May 1976. After working as a Patrol Officer for eight years, she was promoted to the rank of Sergeant. Two years later, she was promoted to Commander and served as the Night Watch Commander commanding five precincts until June 1990. From June 1990 until October she served as Commander in Charge of the Office of Family Violence, Youth, and Missing Persons, where she supervised 30 Detectives. She also served as Assistant to the Mayor for Youth Policy from January 1994 to January 1996. Most recently, she served as the Commander in Charge of the Zone 3 Station.

Commander Elliott has also been actively involved in a number of community activities. She has served as President of the Women Police of Western Pennsylvania and of the East Liberty Business & Professional Women's Club. She has served on a number of boards, including the boards of Pittsburgh Community Services, the Center for Victims of Violent Crimes, United Cerebral Palsy, Three Rivers Youth, and the Parental Stress Center. She is a member of a number of other civic organizations as well.

Today is Commander Elliott's last day on the job. Upon her retirement, she will be working on a new project—Gwen's Girls, a local agency with a mission to reach out and help at-risk adolescent girls. On behalf of the people of Pennsylvania's 14th Congressional District, I want to commend Commander Elliott for her many years of dedicated public service and wish her well in this new endeavor.

TRIBUTE TO RON CAWDREY

HON. GRACE F. NAPOLITANO

OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, April 30, 2002

Mrs. NAPOLITANO. Mr. Speaker, I rise today to honor and pay tribute to Ron Cawdrey, a remarkable community activist and public servant who recently passed away at the age of 65. As we join his family and friends and mourn for their loss, it is only appropriate that we remember Ron and his significant contributions to the community.

Ron Cawdrey served as an officer on almost all the civic organizations in the City of Redondo Beach: the Rotary Club, the Chamber of Commerce, the Redondo Beach Roundtable, the Eagles, the American Legion, the Knights of Columbus, and most importantly, the city council are greatly indebted to a man whose mission in life was to serve his fellow citizens. Few individuals have been more devoted to their hometown than Ron has to Redondo Beach, a fact that was recognized when he was presented the first Mayor's Lifetime Community Service Award.

It is rare to find people whose sense of civic duty, are on par with Ron Cawdrey. At the young age of 19, Ron began his journey of public service by managing youth baseball teams. He had a six-year interruption when he was drafted and proudly served in the 82nd Airborne Division of the U.S. Army. Upon his return, Ron continued to pursue his passion in community service and became actively involved with local Democratic politics along with the local union, where he ultimately served as vice president of the Communications Workers of America, Local 9400, representing 10,000 members in California.

Ron Cawdrey will be remembered and missed not only by his family but also by a grateful community. Therefore, I ask my colleagues to join me in paying tribute to Ron Cawdrey for his exemplary service to his community and his country.

RECOGNITION OF THE TWENTIETH ANNIVERSARY OF THE WHITEHEAD INSTITUTE

HON. MICHAEL E. CAPUANO

OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, April 30, 2002

Mr. CAPUANO. Mr. Speaker, twenty years is not a long time as historic institutions go in Cambridge, Massachusetts, but it's an epoch in a rapidly evolving field like biomedicine. In the past 20 years, science has begun to understand diseases, such as cancer and HIV/AIDS, at the molecular level and illuminated the processes that impel human growth and development. It has begun to use the regenerative powers of the body's own stem cells for therapeutic purposes.

The Whitehead Institute in Cambridge, Massachusetts, has been significantly involved in all these advances. Jack Whitehead, a visionary businessman and entrepreneur, made possible its creation. Endowed by a major gift from Mr. Whitehead, and with continuing support and guidance from the Whitehead family, the Whitehead Institute celebrates two decades of remarkable progress and looks forward to a future on the very frontiers of science.

Researchers at Whitehead are among the Nation's best competitors for competitive research dollars. Often, their work pushes the boundaries of established academic disciplines and explores problems that are part chemistry, part biology, part engineering, part computing, not quite "owned" or funded by any single field. Yet it is this kind of inquiry that often yields the greatest breakthroughs: the whole may be far greater than the sum of its parts. The Whitehead encourages and participates in imporant collaborations—between disciplines, between institutions, and even between countries.

For the past 20 years, the Institute has developed innovative ideas and methods that have been adopted by the world scientific community. Perhaps the most noteworthy has been an entirely new way to sequence the human genome and uncover the genetic codes that make our bodies what they are. The Center for Genome Research at Whitehead was a principal contributor to the human gene map unveiled two years ago at the White House.

While the Institute's reach is national and global, I want to note and commend its work in Massachusetts. Its distinguished staff finds time for an annual program of activities for high school teachers and students, helping them understand and benefit from their research. Every year, hundreds of local residents attend the Whitehead's science symposium and a regular series of colloquia on issues in science and public policy.

On the occasion of its 20th Anniversary in 2002, Mr. Speaker, I am pleased to commend the generosity of the Whitehead family that created this great research institute and recognize also the many subsequent donors who have sustained it. The faculty and staff of the Whitehead Institute may take credit for many biomedical advances that promise to assuage human suffering and prolong human life. We can look forward with great anticipation to its future discoveries.

TO PROTECT PRIVATE DECISIONS ABOUT MARRIAGE

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. STARK. Mr. Speaker, I rise to introduce a resolution "To Protect Private Decisions About Marriage." The decision to marry is one of the most personal and important decisions that many of us will make in our lifetime. When you ask someone to spend the rest of his or her life with you, it should be done out of love, admiration, devotion and respect. Choosing to get married is a truly monumental decision and is usually one of the most memorable moments of our lives.

Because the decision to marry is such a personal one, interference from outside parties is rarely warranted or appreciated. Many Americans turn to their friends, family or religious leaders when making a decision about marriage. Others turn only to their future partner. No one, however, turns to the government. And for good reason. Government interference in decisions about marriage is simply not warranted.

Unfortunately, President Bush does not agree. The Bush Administration has proposed to spend $30 million dollars to promote marriage in this year's welfare reauthorization bill. This misguided policy intrudes on private decision between adults and takes needed funds away from programs that actually help raise poor people out of poverty.

This year, Congress must consider legislation to reauthorize the welfare program. The Temporary Assistance for Needy Families (TANF) program, passed in 1995, helped many citizens find work, but not necessarily work that pays a living wage. As we consider reauthorizing TANF, we have an opportunity to direct our welfare program toward the important goal of lifting the poor out of poverty. The Bush administration, however, would rather push poor people into marriage.

Stable, healthy marriages are very important for raising our children. The very institution of marriage is a cornerstone of our society and is a critical element in creating stable families. Marriage is not for everyone, though. Some people simply cannot make marriages work, for personal, religious or other reasons. In more tragic cases, marriage is literally not safe because of an abusive spouse. Government involvement in marriage, therefore, is just not appropriate.

The American people agree. According to a recent Pew Research Center study, 79 percent of Americans believe the government should not develop programs to encourage people to marry or remain married. Furthermore, 66 percent of Americans who identify themselves as "strongly religious" believe the government should not interfere with decisions about marriage, according to the same poll. The American people clearly do not agree with the President's proposal.

In addition, government interference in promoting or coercing people to marry could have unintended, tragic consequences. According to a joint report by the Departments of Justice and Health and Human Services, 25 percent of women said they have been raped or physically assaulted by their current or former spouse. More alarming still, research shows that 60 percent of women on welfare have suffered from domestic violence. As these statistics confirm, if government were to encourage or coerce someone on welfare to get married, it would not guarantee a healthier or safer family, and it could endanger the lives of mothers and children.

Not only is government involvement in promoting marriage a potentially dangerous endeavor and an unnecessary intrusion of privacy, it also takes money away from programs that really do create more stable and healthy families.

The problems facing poor people on welfare won't be solved by getting married. What families on welfare need is greater access to childcare, healthcare and job training. Evidence shows that an overwhelming obstacle for welfare parents looking for a job is the lack of quality, affordable childcare for their children. Providing better, stable childcare has proven working adults in employment. This applies to healthcare and job training as well. By providing better healthcare and more access to job training, we can equip poor families with the tools they need to provide for their families and have more stable lives. Why should we waste $300 million coercing people to get married when that money could be better spent helping people out of poverty?

The Bush Administration's marriage promotion proposal is misguided, potentially harmful, and not supported by the American people. The resolution that I am introducing today says it is the sense of Congress that government resources not be used to influence, promote, or coerce individuals' private decisions about marriage. I hope my colleagues will join with me in supporting this important resolution and I call on the Bush Administration to reconsider this ill-advised proposal.

HONORING THE PONTIAC NATIONAL ASSOCIATION OF NEGRO BUSINESS AND PROFESSIONAL WOMEN'S CLUB AWARD RECIPIENTS

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. KILDEE. Mr. Speaker, I ask the House of Representatives to join me in congratulating the recipients of the annual awards presented by the Pontiac National Association of Negro Business and Professional Women's Club. The awards will be presented at a luncheon on May 4th.

Over the past 37 years the Pontiac Club of the National Association of Negro Business and Professional Women will present the awards to individuals and organizations that have strived to improve the common good of all people. At the ceremony Lillie Nicholas will receive the Sojourner Truth Award, Hobert Maxey will receive the the Frederick Douglass Award, the Honorable Brenda Lawrence, Dr. Sharon L. Blackman, and Patricia L. Guthery will receive the Black Woman Achiever Award. Donald and Patricia Cordell and Alma M. Bradley-Pettress will receive the Community Service Award. The Ombudswoman Award will be presented to Karen Barner.

Mr. Speaker, the Pontiac Club of the National Association of Negro Business and Professional Women has given over $36,000 in scholarships. This has enabled many African American students to pursue further education. I ask the House of Representatives to join me in commending the Club and their members for their contributions to the Pontiac area and their efforts to promote education.

BLOOMFIELD CITIZENS COUNCIL AWARDS

HON. WILLIAM J. COYNE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. COYNE. Mr. Speaker, I rise today to pay tribute to a number of Pittsburgh residents who will be honored on May 4th with Bloomfield Citizens Council Awards.

Every year, the Bloomfield Citizens Council gives out these awards to recognize members of the community who have improved the quality of life in the Bloomfield neighborhood of Pittsburgh. I would like to take this opportunity to commend the 2002 award winners for their efforts to make Bloomfield a better place to live.

Robert Scullion, Jr. has been selected as the 2002 recipient of the Mary Cercone Outstanding Citizen Award. This award is given to individuals who demonstrate "an unselfish commitment to others and a deep love for the community of Bloomfield." Mr. Scullion, a lifelong Bloomfield resident, has demonstrated his commitment and love in a great number of ways, including his efforts on behalf of organizations like the Blind Outdoor Leisure Organization and the National Alliance for Autistic

Research, his volunteer work for the St. Francis Hospital Ministry and the Prison Ministry for Western Penitentiary, and his participation in a number of Bloomfield sports leagues.

A Community Commitment Award will go to Mr. Joseph Covelli, who has served the community through his job as Principal of Elizabeth Seton Elementary School, as well as his work on such annual events as the Halloween parade and the Bloomfield Citizens Council Marathon Festival. Mr. Covelli also coaches a girls' softball team, and he has been very active in church affairs.

The Bloomfield Citizens will present four individuals with its Youth Dedication Award this year. Mrs. Lisa Thompson Gallagher will receive the Youth Dedication Award for coaching softball for the Bloomfield Girls Athletic Association for 15 years. Ms. Marlene Scholze will receive this award for volunteering as a softball coach for nearly 20 years. Mrs. Beverly Helwich was selected to receive a Youth Dedication award for her many years of coaching softball and basketball. She also has volunteered her time to the Immaculate Conception Athletic Association, which sponsors elementary school football. Mrs. Kim Schimmel Spears will receive a Youth Dedication Award for her many years of coaching basketball, softball, tee-ball, and Little League.

The Bloomfield Citizens Council will again present a number of awards for Christmas decorations this year. Mrs. Pat Donatelli Melfi and her sons will receive the Keeping Christ in Christmas Award for the nativity scene they created. Brian and Tresmarie Foulton Scanlon will receive the Most Outstanding and Completely Decorated Home Award this year. They are repeat award winners, having won this award previously in 1998. Finally, the Most Creative Design Award will be presented to Mrs. Pat and Miss Dana Smith for a decoration scheme that accented many of the architectural features of their home.

In closing, let me just say that all of the individuals receiving 2002 Bloomfield Citizens Council awards have made important contributions to the quality of life in Bloomfield. On behalf of the residents of Bloomfield and the rest of the 14th Congressional District, I thank them for their efforts and congratulate them on their selection as recipients of 2002 Bloomfield Citizens Council awards.

IN MEMORY OF KIMBERLY "KIM" ANNE HOLLOWAY

HON. GRACE F. NAPOLITANO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mrs. NAPOLITANO. Mr. Speaker, I rise today to honor the memory of a young woman, Kimberly "Kim" Anne Holloway who unexpectedly passed away on March 2, 2002 due to complications from a kidney infection. I ask my colleagues to join me, together with her family and friends in mourning for her untimely death.

Kim was born on June 10, 1974 in Santa Monica, California to Daniel and Hilda Holloway. Growing up in LaPuente, California, she graduated from William Workman High School and proceeded to Mount San Antonio College. Kim was an honor student and talented athlete who excelled in soccer and track. To help pay for college, she worked as a scheduler at Disneyland in Anaheim. Kim later transferred to California State University at Fullerton, and was looking forward to graduating in June.

Kim loved the simple things in life; literature, music, movies, and like every other teen, fashion. But what endeared Kim to her family and friends was that she was always there when they needed her. Always ready to help out her brother or sisters, or a friend in need.

Mr. Speaker, a person's life is not measured by the length of their stay here on Earth, but rather by the quality of the life they lived. By this measure, Kimberly Anne Holloway is richer than many of us could ever become. She was a dedicated student, a hardworking employee, a loyal friend, and most importantly, a loving daughter.

CALLAWAY GARDENS 50TH ANNIVERSARY

HON. MAC COLLINS

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. COLLINS. Mr. Speaker, on May 21, 2002 one of Georgia's treasures will celebrate its 50th anniversary. Created as a place "prettier than anything since the Garden of Eden," Cason and Virginia Callaway envisioned a verdant preserve of some of the most beautiful flora and fauna in our nation. Today, Callaway Gardens is all of that and so much more.

Featuring the world's largest man-made inland, white-sand beach, a world-class resort, world's largest azalea garden, acclaimed golf, birds of prey program, and a collection of plumleaf azaleas, a plant which the Callaway's rescued from the verge of extinction, Callaway Gardens has been a place of relaxation and beauty for generations of Americans.

Keats once wrote,

> "A thing of beauty is a joy for ever:
> Its loveliness increases; it will never
> Pass into nothingness; but still will keep
> A bower quiet for us, and a sleep
> Full of sweet dreams, and health, and quiet
> breathing."

That is the most appropriate description I have ever heard for Callaway Gardens.

As the family of Cason and Virginia Callaway celebrate the 50th anniversary of their parents' dream, I congratualte them for continuing to make that dream a reality. A friend of farmers, environmentalists, and those who appreciate beauty, the Callaways have crafted a marvel of modern day horticulture and botany in the midst of rural Georgia. I am pleased to represent the people who work at and lead Callaway Gardens, and I am pleased that such a thing of beauty is located in the Third District of the great State of Georgia.

STUDENT CONGRESSIONAL TOWN MEETING

HON. BERNARD SANDERS

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. SANDERS. Mr. Speaker, today, I recognize the outstanding work done by participants in my Student Congressional Town Meeting held this spring at the University of Vermont. These participants were part of a group of high school students from around Vermont who testified about the concerns they have as teenagers, and about what they would like to see government do regarding these concerns.

I respectfully request that the following testimonials be included in the CONGRESSIONAL RECORD.

ON BEHALF OF SAM PARKER, BECCA VAN HORN, AND ELI BRANNON REGARDING FREE TRADE

(April 8, 2002)

ELI BRANNON: Free trade is a method for countries to trade internationally without having to worry about tariffs or barriers. The first step towards free trade was taken in 1948 with the creation of GAT, the General Agreement Tariffs rate. GAT was formed as a way to provide rules for countries to dismantle trade barriers and organize a system of commercial business. Unfortunately, it did not live up to expectations.

GATT was transformed into the World Trade Organization, or WTO, on January 1, 1995. Before the World Trade Organization was created, North America had already created its own system of trade, the North American Free Trade Agreement, or NAFTA. NAFTA has grown to include Canada, the U.S. and Mexico. Free trade is supposed to help support the countries involved. It does create more jobs, lowers taxes on trade, and makes some Second World Nations like South Korea and Taiwan want to attend trade liberalization. However, the advantages are overshadowed by the numerous disadvantages, including worker exploitation, job loss effects on the agricultural community, and the obvious attempt for corporate profit.

SAM PARKER: NAFTA was originally established to help solve North America's problems, increase of trade surplus, standard of living, and better jobs, among other things. Before NAFTA, the U.S. agricultural trade surplus with Mexico and Canada was $203 million. Since NAFTA was established in 1994, this surplus fell $1.498 million.

What NAFTA does not openly stop our economy's advancement, it has set it far behind. NAFTA promised an increase in jobs for Americans. Not only has this not happened, but more than 350 U.S. workers have lost their jobs. Many of these jobs were given to Mexican workers being paid one-third of what Americans are paid.

Another promise of NAFTA was to boost the agricultural economy. The farming community has been given nothing but false hopes with the promise of more jobs. Farming income has declined and consumer prices have gone up.

Although NAFTA and free trade look appealing on the outside, the effects are devastating to most working-class persons.

BECCA VAN HORN: I pledge allegiance to the flag of the multinational corporations, and to the profit for which they stand, one interlocking directorate under no government, indivisible, with monopoly and cheap labor for all.

This pledge epitomizes the only noticeable progress of the World Trade Organization. Free trade, and therefore NAFTA and the World Trade Organization, which attempts to globalize economies without globalizing human rights, only leads to big corporations exploiting the Third World. While supporting the capitalists, the big corporations who benefit most from free trade, the World Trade Organization advances by exploiting the Third World proletarians, opposing human rights and demands for adequate working conditions.

The World Trade Organization thrives on maintaining the status quo by taking American jobs and giving them to eleven-year-old Indonesian children working in a Nike factory for 83 cents per day. Free trade helps the First World, but leaves the poorest with barely .4 percent of all global trade. That is barbaric. You do not keep the standard of living for America by exploiting one group of people. The Third World has taken an incredible hit.

The World Trade Organization supports groups like the International Monetary Fund, whose only purpose is to loan money to countries in dire situations, and then demand the money back at an incredibly high interest rate. By supporting organizations like the IMF, and only looking at how the rich can flourish, the World Trade Organization is dooming the Third World to never advance economically.

This is not an impossible situation. If free trade focuses on advancing all social classes, it will be beneficial to the First and Third worlds. There would be more American jobs, farmers could prosper, and, although big corporations would lose money, they could begin to cleanse their moral values.

If the Third World is able to focus on trading with each other and the First World on an equal basis, their children could go to school and their economy progress. If an organization like the U.N. helped put that eleven-year-old Indonesian child into a plausible trade, their population would not be doomed to factory work at subsistence wages and no benefits.

Of course, it would be difficult. But free trade attempts to globalize only one aspect of our world, increasing the disparity in every other way. Free trade, and therefore NAFTA and the WTO, globalizes economies, not for the betterment of the world, but for corporations and consumerism, creating a never-ending spiral of the rich remaining rich and the poor remaining poor.

ON BEHALF OF RUTH BLAKE

REGARDING STRAIGHT TALK VERMONT

(April 8, 2002)

RUTH BLAKE: Straight Talk Vermont is one of the programs run out of the Community Justice Center, and some of the things they are involved in is Arts are Wonderful, a group of high school students getting together and working on art projects and learning different types of art. They have a Team Reaching In, which is like a song-poetry kind of group. They have Art from the Inside Out, which is a group of UVM art majors who are teaching majors, teaching middle schoolers and young students art. And the Teen Expressions, which is what I'm part of. It is a group of high schoolers from around the area, and they get together, and plan different events, and fun things to do, as something else to do besides drinking and drugs and that kind of stuff.

Straight Talk Vermont is the overall thing. They help people at high risk, and it—they just help build and become better. What I'm involved in is the Teen Expressions Dance Company, and they're putting on a dance performance. It is a group of young amateur performers. We are just getting together and choreographing and dancing, performing.

GRIMES TO BE HONORED BY GREATER PITTSTON CHAMBER

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. KANJORSKI. Mr. Speaker, I rise today to call the attention of the House of Representatives to the well-deserved recognition that the Greater Pittston Chamber of Commerce will provide to Mr. John F. Grimes, a good friend of mine, at its 80th annual dinner meeting on May 1.

It is with good reason that the Chamber refers to Jack as its "secret weapon" for attracting quality businesses to sites in the Pittston area. He was instrumental in the recently announced agreement to bring 1,200 jobs to the area at the new TJ Maxx distribution center to be located in the Vogelbacher Industrial Park. In all, the Chamber credits Jack as being responsible for bringing 4,500 jobs to the Greater Pittston Area since his involvement began with the Chamber.

Jack has deep roots in the community—he was born in Pittston and has lived there all of his life. In 1942, after graduating from St. John the Evangelist High School, Jack began a 21-year career with the Lehigh Valley Railroad. Within just a few years of beginning his career with the railroad, Jack was appointed assistant division engineer and became the youngest person ever to be assigned to that position of responsibility. During his career, Jack earned two professional licenses: surveyor and civil engineer.

Although Jack remained very committed to his job, he has also made community service a major part of his life. He served as the president of the Lions Club of Pittston, and has been a lector and usher at St. Mary's Church. He has also contributed to the city of Pittston by serving as a member, secretary and president of the planning commission over a period of more than 30 years.

Knowing of Jack's commitment to his community, his colleagues called on him to be the executive director of the Pittston Chamber of Commerce. During his tenure, Jack reactivated the Pittston Area Industrial Development Authority as a subsidiary function of the chamber. He has aggressively campaigned to bring new industry to the region, and he has helped publicize Pittston's strongest assets to companies seeking to relocate in the city. Jack Grimes has become a valuable partner with local, county, and State officials who diligently work to revitalize the Greater Pittston area. For all of these reasons, the Friendly Sons of St. Patrick rightly honored Jack as their Man of the Year in 1996.

Mr. Speaker, on behalf of the people of the Greater Pittston area, I extend my deepest appreciation to Jack Grimes for his lifetime of commitment to promoting industrial and business development throughout his community. I am pleased to call to the attention of the House of Representatives his service to the community and the well-deserved tribute he will receive on May 1, and I wish him all the best.

THE MARTIN'S COVE LAND TRANSFER ACT (H.R. 4103) SHOULD BE ADOPTED BY THE CONGRESS

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. LANTOS. Mr. Speaker, I rise today to express my strong support for H.R. 4103, the Martin's Cove Land Transfer Act, introduced in this House by our distinguished colleague from Utah, Mr. HANSEN, the Chair of the Committee on Resources. The legislation directs the Secretary of the Interior to offer to convey to the Church of Jesus Christ of Latter-day Saints federal lands in the state of Wyoming known as Martin's Cove. The Church would be required to pay the fair market value for acquisition of the land and any improvements.

Generally speaking, Mr. Speaker, I have strongly supported the acquisition of lands by the federal government. During the time I have served in this body, I have introduced and supported a number of bills which have provided for the addition of new lands to the Golden Gate National Recreation Area in California and the acquisition of other lands for preservation and protection by the federal government.

It may appear to be an unusual step that I support this legislation which would provide for the sale of federal lands. The land at Martin's Cove, however, is unique. Clearly the transfer of this parcel of land from the federal government to the Mormon Church makes good sense for all concerned.

Mr. Speaker, this site is a particularly important historical site for Latter-day Saints. At or near Martin's Cove in 1856 some 150 emigrants of the Willies and Martin handcart companies lost their lives in an early fall snowstorm. Those who perished were buried where they died, and many were placed in common graves because of the difficult and trying conditions.

Many members of these two groups had begun their trek to Salt Lake City in Europe, and others joined the group in the eastern United States. They sought a new life in the American West and the freedom to practice their religion. This loss of life was one of the most tragic events in the entire westward migration on the Oregon and Mormon trails in mid-nineteenth century America.

It is obvious that this site holds a special significance for the many descendants of those who survived this ordeal, many of whom are Latter-day Saints. But it is also a holy place as well for other members of the church who give special honor to their pioneer heritage.

Mr. Speaker, the church's interest in acquiring this site is consistent with the federal government's interest in public access and preservation of this location. The church has an interest in preserving this place as an authentic historic site. It has an interest in maintaining relics and evidences of the Mormon, Oregon and Pony Express trails that pass through the area. The church also has an interest in making the area accessible to visitors in a way that will preserve the historic significance of the place. Furthermore, I believe that the church's commitment to this site in care, concern and funds is likely to be much greater than that of the federal government, and as a result the area will be better preserved under Latter-day Saint stewardship than under federal control.

Finally, Mr. Speaker, I do not see this legislation for the transfer of this particular piece of land to be establishing any precedent for the sale or transfer of other federal lands. Clearly this is a unique situation. The Church of Jesus Christ of Latter-day Saints has an interest that is very similar to the federal interest to preserve, protect and provide public access to the site. This land transfer makes eminent sense, but it clearly does not change any federal policies or practices regarding the protection and preservation of public lands.

Mr. Speaker, I commend my colleague from Utah, Mr. HANSEN, for introducing this legislation, and I urge my colleagues to join me in supporting it.

RECOGNITION OF VOLUNTEER SKY MARSHALS

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. MOORE. Mr. Speaker, after the tragic events of September 11th, many dedicated Americans served our nation as volunteer Sky Marshals. I recently received a piece of correspondence from one of my constituents, Bob Dremann, whose son John served as a volunteer Sky Marshal after September 11th. I have included a copy of Mr. Dremann's correspondence, and agree with him that volunteers like his son John deserve Congress's recognition for their service.

Rep. MOORE: My son, John S. Dremann, just completed his detail as a volunteer Sky Marshal. He volunteered shortly after the 9/11 attacks. They were looking for persons who had federal law enforcement training and those who carried a handgun as a part of their jobs. He is now being relieved by persons who were hired and trained to be a Sky Marshal after 9/11. John is now going back to his previous job as an Avation Specialist with the U.S. Customs Service. He flies in a corporate jet looking for the bad guys, breaking laws off the Florida coast. Volunteers from other agencies also served as volunteer Sky Marshals. They are all returning to their old jobs, but, I feel they deserve our special thanks for the work that they did to protect us. The purpose of this note is to encourage you to create a Congressional recognition program for my son and all of the other brave persons who served as a Sky Marshal volunteer during the recent emergency. I would not rely on the FAA or Customs to do an adequate job of recognizing these persons. Besides, they protected all of us, so wouldn't it be very appropriate for the Congress to come up with a recognition program. Something he could show his grandchildren someday. Thank you for your help on this.

Sincerely,

BOB DREMANN.

PERSONAL EXPLANATION

HON. JOHN R. THUNE

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. THUNE. Mr. Speaker, on April 24, while fulfilling my responsibilities as a member of Congress and escorting President Bush to South Dakota, I was unable to vote on roll call votes 107 through 110. If I had been present I would have voted NO on roll call vote 107; NO on roll call vote 108; NO on roll call vote 109 and YEA on roll call vote 110. I ask unanimous consent that this, along with a statement, be placed at the appropriate place in the CONGRESSIONAL RECORD.

POEM FOR VIETNAM VETERANS

HON. MARK GREEN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. GREEN of Wisconsin. Mr. Speaker, I submit this poem for the RECORD.

WRITTEN AND DEDICATED TO ALL THE VIETNAM VETERANS

(By Boatswains Mate Robert W. Perry)

We were the men sent to Nam
We were there to save the day
And for protecting these people's freedom
We were paid about four bucks a day

We walked through these smelly paddies
It was always so damn hot
My buddies just kept dying
In a land that God forgot

We trudged through the bush with our sixteens
Eating and breathing orange dust
We worked like we were on a chain gang
And always too tired to cuss

All the time them bullets kept coming
It was more than we could stand
Hell folks we weren't convicts
We were defenders for their foreign land

So when this life is over
And there are no more worries to stand
We're gonna do our last parading in the far away
Promised Land

Once there, St. Peter will greet us and he will yell
"Come on in you men from Nam, you've done your stretch in hell."

Sadly missed by the American people. We will never forget their plight.

HONORING THE GRADUATE CLUB AS THEY CELEBRATE THE 100TH ANNIVERSARY OF THEIR HOME AT 155 ELM STREET

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Ms. DELAURO. Mr. Speaker, it is with great pride that I rise today to extend my sincere congratulations to New Haven, Connecticut's Graduate Club as they celebrate their 100th anniversary at 155 Elm Street. Throughout its history, the Graduate Club has been a social institution in our community—bringing town and gown together for nearly 200 years.

Established in 1892, the Graduate Club was founded to provide a place where faculty and graduates could socialize and work. While there were many clubs, organizations, and public resorts, they were generally dominated by undergraduates. Their first president, Arthur W. Colton, Yale 1890, with a number of other men, held the first meeting in November of 1892 and adopted the name Graduate Club, only because the more common University Club was already being used by undergraduates.

The Graduate Club found its first home at the Anktell House where it remained until the Spring of 1894 when it was forced to seek other quarters due to the expansion of Yale University. It was in their second home on Chapel Street that members signed the Articles of Association. Blending academic and civic interests, membership grew and steadily strengthened the young organization. With the turn of the century membership continued to increase and a mounting waiting list continued to expand. It was evident that the Club had to seek a larger venue.

Closely following the bicentennial celebration of Yale University, the Graduate Club acquired the historic home of Eli W. Blake at 155 Elm Street. Though there was a need for alteration and enlargement of the property, a date was set for the formal laying of the cornerstone: April 26, 1902. The celebration of a centennial anniversary is always a special occasion. It is especially so for the Graduate Club because they are recognizing the anniversary of the establishment of their home. Being able to remain in the same building, particularly during the many phases of revitalization, is a great accomplishment.

What began as a means to distinguish a collegiate generation gap has grown into a popular and respected gathering place. You can often find New Haveners dining in the Club and it is sought out for meetings or social gatherings. It has become a true New Haven landmark. I am honored to rise today to join the New Haven community in congratulating the past and present membership on this wonderful occasion.

IN RECOGNITION OF METHODIST HOSPITAL'S NEW STROKE CENTER

HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. BENTSEN. Mr. Speaker, I rise to congratulate the Texas Medical Center's Methodist Hospital as it dedicates its new Stroke Center on May 1, 2002, located in Houston, Texas. The dedication will provide the hospital with an opportunity to showcase the comprehensive new facility for the treatment and care of stroke patients.

Founded in 1919, Methodist Hospital, the anchor facility for the Methodist Health Care System, has earned nationwide recognition. Methodist Health Care System is a nonprofit, comprehensive medical service and health care organization. It has expanded the world-renowned clinical and service excellence of its founding entity, Methodist Hospital, through community hospitals, a health plan with multiple products and an acclaimed home health agency. Affiliated with the Texas Conference of the United Methodist Church, Methodist Health Care System strides to treat everyone it serves as a person of sacred worth and value.

As the primary, private, adult teaching hospital for Baylor College of Medicine, Methodist Hospital, directs millions of research dollars into patient care and offers the latest innovations in medical, surgical and diagnostic techniques. For the past eighty years the hospital has established a legacy of medical milestones that continues to attract patients from around the world. Its international physician referral network and affiliations with hospitals that span four continents, including information centers in Guatemala City, Istanbul, and Mexico City, have placed Methodist at the forefront of the world's medical research and education.

As you may know, much has been learned about the causes and prevention of strokes. In an effort to respond to those patients suffering from a stroke, who at one time were thought of as untreatable, Methodist Stroke Center has coordinated a multi-disciplinary rapid response system. This system consists of a highly trained team of experts ranging from neurologists, cardiologists, to rehabilitative specialist. The services provided arc extensive and cover all aspects of stroke treatment. The Stroke Center is one of the many facilities within the Methodist Health Care System that has been nationally recognized by the medical community. In fact, Methodist Hospital was named among the country's top centers for urology, otolaryngology, kidney disease, ophthalmology, and neurology in U.S. News and World Report's 2001 Annual Guide to "America's Best Hospital." Additionally, the hospital is consistently ranked as most preferred in Houston's Biannual Healthpoll Survey and was recognized by Hospitals and Health Networks as one of "Health Care's 100 Most Wired" health care facilities. The medical staff includes dozens of physicians listed in The Best Doctors in America.

Mr. Speaker, I congratulate Texas Medical Center's Methodist Hospital for its eighty-three years of excellence and innovation in improving the quality of life and I look forward to the medical advances that will continue to emanate from its exceptional staff.

A TRIBUTE TO SPENCER MARK RITCHIE

HON. SAM JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. SAM JOHNSON of Texas. Mr. Speaker, I rise to pay tribute to Spencer Ritchie who is leaving the Hill this week to finish his last semester and pursue his degree at Texas Tech University in Lubbock, Texas, and then maybe even law school. The efforts and energy of Spencer will be missed dearly by all members of my office.

Spencer is a first-rate Southern gentleman with a keen understanding of people, poise and patience; the latter is most needed when juggling numerous tasks while managing the front desk.

He conquered the thankless jobs of being the gatekeeper, all the while supporting my entire staff and office guests. Because of his academic performance and student leadership, Texas Tech selected Spencer to represent the University as a Presidential Intern—and they could not have selected a more well-rounded young man who puts priorities like faith and family first.

Although he's only been with the office for a short time, he's left a lasting impression on many. Numerous constituents and visitors have commented to my staff and me that Spencer has an amazing way with making people feel welcome. Spencer has the unique ability to make every guest feel like family—and after meeting Spencer, they wanted to be Texans too!

His knowledge, insight, guidance and generosity have been inspiring to others. Though Spencer's good graces will be missed in Washington, I know that our loss is most definitely Texas Tech's gain.

He enjoyed a unique and historic experience and one which I hope will serve him well as he continues his education and begins his career. You name it—he's done it. No job is too big or too little for Spencer. He just does it—and he does it enthusiastically with a smile on his face and a laugh for others. He's given Capitol tours in the wake of September 11th. He's welcomed tired tourists from Texas! He's written letters and called constituents. I was proud to have him up front as an ambassador, if you will, for the people of the Third District.

So much of what we do in Congress is done for the next generation, for young people like Spencer. He can be proud that what we have done in this Congress has not only been done for him—but with him.

Like each Member of Congress, he is now a part of this institution. And as of Friday, he will be a part of its history. I wouldn't be surprised if he may even be part of its future, returning some day as a staff member or even a Representative!

Too many Americans do not have a full understanding of how hard the staffs of Members of Congress work, how conscientious they are and how much they care about doing the right thing for their country, regardless of whether they are conservatives or liberals, moderates, Republicans, Democrats or Independents.

Spencer has learned that lesson firsthand. So he will have something that many of his neighbors and friends and relatives will not have had: hands on experience of how the greatest democratic institution in the world works.

He will have the opportunity to go back and tell our fellow citizens that the system works—and that it works well! And that they need to participate, not necessarily run for Congress, but to participate by voting. By speaking out. By writing. By communicating—by involving themselves in the democratic process that makes our great nation a beacon of freedom and liberty!

I wish Spencer luck and look forward to the day when I meet him again—as a proud Texas Tech graduate and SAM JOHNSON office alum!

PERSONAL EXPLANATION

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. MOORE. Mr. Speaker, I rise in support of Representative CAL DOOLEY's motion to instruct conferees to agree to Senate provisions that would lift a ban on private financing of agricultural sales to Cuba. Unfortunately due to reasons beyond my control, I was not able to vote; had I been able to vote, I would have voted in favor of lifting the ban on private financing of agricultural sales to Cuba.

The Dooley motion to instruct conferees, relating to Sec. 335 of the farm bill and agricultural trade with Cuba, permits only private financing of agricultural sales to Cuba, and maintains the United States ban on government financing. The Dooley provision says that that private enterprise should make lending decisions. The Federal Government should not be in the position of denying private entities the right to finance sales of agricultural goods to Cuba. Under current law, no provision of credit from a United States financial entity of any kind is allowed. United States agricultural exporters must either arrange for credit through an overseas bank, or must insist on cash in advance from the Cuban importer.

Even with these cumbersome restrictions, United States farmers have been able to realize more than $35 million in sales to Cuba within the last 3 months, including Kansas wheat. Cuba has purchased a wide range of American products, including rice, chicken, soybeans, wheat, corn, and vegetable oil.

The Cuba Policy Foundation recently released a study showing the embargo of Cuba is costing United States farmers up to $1.24 billion in annual exports to Cuba, and another $3.6 billion in agricultural related output. Moreover, the American public supports agricultural trade with Cuba. In a 2001 poll, conducted for the Cuba Policy Foundation, 71.3 percent of Americans agreed that American companies should be allowed to sell food to Cuba. My

State of Kansas' potential income from Cuban food exports is predicted at $38,770,000 per year including the creation of 1,098 new jobs.

Today, the 40-plus year-old embargo against Cuba has failed to achieve the policy objectives of the United States. The cold war has been history for well over a decade; why continue to make the Cuban people and American farmers suffer for a war we won on so many other fronts?

TRIBUTE TO CHAPLAIN JAMES E. WALKER

HON. JAMES E. CLYBURN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. CLYBURN. Mr. Speaker, I rise today to pay tribute to a man of great principle and faith, U.S. Army Chaplain James E. Walker of Columbia, South Carolina. This is a man whose path I crossed 30 years ago to the month. He was a bright, young student at C.A. Johnson High School in Columbia then, and was selected to introduce me as the speaker of their Honors and Awards Day, when I was in Governor John West's office. The event was a memorable one for me, but I had no idea that my comments at the time would touch the soul of young James Walker. To this day, he still has the program from the event and remembers my urging to set goals and make plans to achieve them. These sentiments I have expressed countless times over the years when visiting school groups. Yet this is one of few opportunities I have had to join in celebrating with a young man who took my words to heart and achieved amazing things as an adult.

On Thursday, May 2, 2002, Chaplain Walker receives the promotion to Army Colonel at the U.S. Army Chaplain Center and School at Fort Jackson in Columbia, South Carolina. On that day his story will come full circle to the place where it began. In his hometown, Chaplain Walker will officially achieve this well-deserved ranking as a reflection of his hard work and dedication.

On September 11, 2001, I was on Capitol Hill watching the smoke rise from the Pentagon in disbelief. However, Chaplain Walker had no time that day to stop and watch the tragedies unfold before his eyes. He, too, was in the Washington area. He was at Ground Zero—the Pentagon—ministering to those who were wounded and in shock. In the subsequent weeks, Chaplain Walker served tirelessly at the Pentagon's makeshift triage station for three weeks to "care for the wounded, minister to the living and honor the dead." For this service, our nation owes him a debt of gratitude.

This tremendous strength in the face of adversity is a hallmark of Chaplain Walker's career. He is one of 138 African-American Army Chaplains among the 2,000 Chaplains serving the Army worldwide. His military service has taken him to Desert Storm where he ministered to troops in Saudi Arabia, Iraq and Kuwait. For his skilled pastoral work in trying times, he was awarded the Saudi-Kuwait Liberation Medal. Chaplain Walker has received numerous other commendations including the Bronze Star, Meritorious Service Medal, Army Commendation Medal, Army Achievement Medal, National Defense Service Medal, Southeast Asia Service Medal, and the Army Service Ribbon.

This outstanding service record was built on the strong foundation he received growing up in Columbia. He graduated C.A. Johnson High School and earned a Bachelor of Science from my alma mater, South Carolina State College. He served seven years in the Army as a Signal Officer before becoming a chaplain. He received his Master of Divinity and Doctor of Ministry from Andover Newton Theological School in Newton Center, Massachusetts. His thirst for knowledge also led him to attain a Master of Business Administration from Western New England College and Master of Arts degrees from Boston College both in Massachusetts.

Mr. Speaker, although my duties here in Washington prevent me from sharing this memorable day with in person, I ask that you and my colleagues join me in congratulating Chaplain James E. Walker for his outstanding service and well-deserved promotion. He is a fine example of what can be achieved in life with a strong desire to learn and a willingness to serve others. It is fitting that he receives this promotion while in his hometown. I wish him good luck Godspeed as he returns to service at the Office of the Chief of Chaplains in Arlington, Virginia.

MOURNING THE LOSS OF A GREAT MAN

HON. STEVE C. LaTOURETTE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. LATOURETTE. Mr. Speaker, on April 11, one of our area's most beloved citizens passed away—former Congressman J. William Stanton, who served in the House of Representatives from 1965 to 1982. I am honored to have known Bill Stanton, whom I considered a dear friend and mentor. In fact, I know that I would not be a Congressman today had it not been for his unparalleled guidance and support.

Bill Stanton was born in Painesville in 1924, and was a longtime resident of my hometown, Madison. Bill was a graduate of Culver Military Academy, and was the institution's Man of the Year in 1994. He also was a graduate of Georgetown's School of Foreign Service. In addition, he was a proud veteran and was the Army's youngest commanding officer in the Pacific Theater during World War II—attaining the rank of captain at the age of 21. He returned from war with the Bronze Star with Oak Leaf Cluster, the Purple Star, and other decorations.

When Bill came home, he ran a Lincoln-Mercury dealership, making him the youngest franchised dealer in Ford history in 1948 at the age of 24. He also had the distinction of giving legendary football coach Don Shula his very first job—selling cars. Don Shula and Bill Stanton remained lifelong friends.

Bill got his political start in Lake County, and served as a Lake County Commissioner for 8 years starting in 1956. He often called those years the "happiest time of his political career." He then proudly represented Madison and the former 11th Congressional District in Congress for 18 years, from 1964 to 1982. He served his district with great honor and distinction, and was an amazingly popular Congressman. In one election, he lost only five precincts in his entire district.

Of course, it wasn't always such smooth sailing. When Bill was running for re-election after serving one term in Congress, he was campaigning down in Ravenna in Portage County, which then was part of the 11th district. Bill met an older woman at an event and introduced himself, saying: "My name's Bill Stanton and I hope you'll vote for me in Congress."

The woman looked at him and replied, "I certainly will, young man. We've gotta get rid of that guy we've got there now."

When Bill retired from Congress, he devoted his time to causes that were important to him. He became an advisor to the World Bank, a post he held until 1993, and he also served on the board of Bread for the World, an organization devoted to easing world hunger. In addition, he was on the Board of Regents of Catholic University.

Bill's passing was unexpected and certainly too soon. Just a few weeks before his death, he returned home to attend an event where I was roasted to benefit the United Way. I was thrilled to see Bill, and was so honored that he'd traveled so far to be with me on that special night.

I also am pleased that a few years ago we were able to dedicate the Old Camp Isaac Jogues in Madison and rename it in Bill's honor. The Madison park was always loved by Bill Stanton, and his family had ties to it. Bill's father, Frank built the chapel that still stands at the park.

Bill Stanton was a great man and a great friend, and I miss him greatly. My thoughts and prayers are with his wife, Peggy Smeeton Stanton, his daughter, Kelly Fordon of Grosse Pointe, MI, and his three grandchildren—Jack, Charles, and Megan.

IN RECOGNITION OF SEXUAL ASSAULT AWARENESS MONTH

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Ms. PELOSI. Mr. Speaker, I commend Congresswoman CAROLYN KILPATRICK and Congresswoman DEBORAH PRYCE for their leadership and thank them for organizing today's statements in recognition of Sexual Assault Awareness Month.

An estimated 302,100 women and 92,700 men are forcibly raped each year in the United States. There were 9,443 reported forcible rapes in California in 1999 alone. This number is undoubtedly low, since a majority of rapes and sexual assaults are never reported. Sexual assault is a problem of sweeping proportions across the nation.

One way that we can combat sexual assault is by raising public awareness, both here in

Congress and in our local communities. California officially recognized Sexual Assault Awareness Month by resolution in 1987.

Sexual assault is a problem for us all. As legislators, we are responsible for letting women and families know that we take the problem of sexual assault seriously. The Violence Against Women Act provides funding to battered women's shelters, rape crisis centers, a hotline for domestic violence community programs on domestic violence, and rape education and prevention. With the reauthorization of the Violence Against Women Act in 2000, Congress reaffirmed this nation's commitment to ending domestic and sexual violence.

Full funding of the Violence Against Women Act will allow communities across the country to carry this legacy forward. Unfortunately, President Bush's budget falls $111.3 million short of fully funding critically important programs such as transitional housing for victims of domestic violence, shelter services, and rape education and prevention. As we recognize Sexual Assault Awareness Month, I urge my colleagues to dedicate the necessary resources to fulfill the mission of the Violence Against Women Act.

HONORING THE 50TH ANNIVERSARY OF THE ESTABLISHMENT OF ALBERTS PLASTERING

HON. MARK GREEN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. GREEN of Wisconsin. Mr. Speaker, I offer these remarks before the House today to honor the 50-year anniversary of the establishment of Alberts Plastering, Inc., a fine family business in my district.

When Morris "John" Alberts founded Alberts Plastering 50 years ago in 1952, he set a high standard for his craft that is still maintained by Alberts Plastering today. Over the years, he and his son John worked very hard to build not just their business, but also our communities and our state.

Morris "John" Alberts passed away 12 years ago, but his legacy is now carried forward by John Alberts and a dedicated and hardworking group of over 100 professionals.

A business is only as strong as its people and its ideals. Alberts Plastering has lasted 50 years because it is made up of great folks and is built on a foundation of solid values. I'm confident those people and ideals are strong enough to carry it forward for another 50 years and beyond.

WORKERS MEMORIAL DAY

HON. DENNIS MOORE

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 30, 2002

Mr. MOORE. Mr. Speaker, on Sunday, April 28, 2002, American workers across the nation recognized the significant contributions of American labor to the founding and growth of our country. Every year, Workers Memorial Day gives working men and women an opportunity to acknowledge labor's great achievements and promote much needed improvements in working conditions.

While decades of hard work and struggle by workers and their unions have resulted in vast improvements in working conditions, the toll of workplace injuries, illnesses and deaths remains unacceptably high. According to recent figures from the Bureau of Labor Statistics, 5,915 workers died from on-the-job injuries in 2000, while an additional 50,000 to 60,000 workers die each year from occupation-related injuries and diseases. Another 6 million workers sustain serious injuries every year while at work.

Workers Memorial Day is held on April 28 to commemorate the creation of the Occupational Safety and Health Administration [OSHA], which has dedicated itself to reducing workplace injuries since its inception in 1971. Over the past three decades, workplace fatalities have been cut in half and occupational injury and illness rates have declined 40%. At the same time, U.S. employment has doubled from 56 million workers at 3.5 million worksites to 6 million workers at approximately 7 million sites.

I believe our country must do even more to reduce workplace injuries and illnesses. Congress can and should dedicate itself to achieving these goals by passing common sense and long overdue ergonomics legislation. Unfortunately, last year Congress passed a Disapproval Resolution that overturned the Clinton Administration's sensible ergonomics rule. President Bush signed this resolution into law in March 2001, and the Bush Administration recently announced its plans to push for voluntary ergonomics standards.

The ergonomics guidelines developed during the Clinton Administration were developed after years of studies and analyses, and were based upon sound science. I disapprove of Congress's elimination of the important rule designed to identify and remove hazards to workers' health, and will continue to urge my colleagues to pass legislation requiring the Department of Labor to draft a meaningful ergonomics standard.

As we remember the millions of workers who have sustained injuries and, in many cases, died as a result of workplace hazards, members of Congress and working Americans must continue to fight for stronger safety and health protections for workers everywhere. Working men and women deserve these protections, and have certainly earned them. While we celebrate Workers Memorial Day once a year, we must dedicate ourselves to improving safety and health in every American workplace on a daily basis.

CORPORATE AND AUDITING ACCOUNTABILITY, RESPONSIBILITY, AND TRANSPARENCY ACT OF 2002

SPEECH OF

HON. JOHN R. THUNE

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 24, 2002

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 3763) to protect investors by improving the accuracy and reliability of corporate disclosures made pursuant to the securities laws, and for other purposes:

Mr. THUNE. Mr. Chairman, there is little debate and even less doubt that our economic system is the best in the world. However, we learned last year that companies have the capacity to violate laws, deceive investors, and through those actions defraud the public. This is not a fault of our economic system. Instead it is the result of action of a few dishonest and irresponsible few, and it underscores our nation's reliance on, and the value of, the rule of law throughout our society.

I believe that because of these actions Congress must restore confidence in our economic system by recognizing and acting on the excesses of those few bad actors. Today, Mr. Chairman, Congress will act, in the wake of the Enron collapse, to pass legislation designed to protect investors and employees from what happened at Enron.

First, this legislation acts to restore confidence in accounting practices. It is important that we have a strong and healthy accounting industry to keep companies financially sound and to provide investors with solid information. This bill creates a new, public regulatory board with strong oversight authority that will be under the direct authority of the Security and Exchange Commission (SEC) and will have to certify any accountant wishing to audit the financial statements required from public issuers of stock.

Second, the bill increases corporate disclosure and responsibility. Investors rely on information to make their financial decisions. This legislation will increase the amount of real-time information made available to American investors, employees and the general public. For example, off-balance sheet transactions, like the special entities made famous by Enron, would have to be fully disclosed, and companies would be required to disclose information about their financial health more quickly and in plain English. Lastly, it would make it unlawful for anyone associated with a company to interfere with the auditing process.

It is also vital for workers to be able to maintain a safe and secure retirement. For that reason, the bill helps to protect 401 (k) retirement plans by prohibiting corporate executives from making insider stock sales when other employees can't.

Lastly, this legislation strengthens the SEC by increasing its budget and allowing it to perform additional tasks and oversight duties. The SEC will also be required to conduct regular and thorough reviews of the largest and most widely-traded companies.

We've seen the excesses that dishonesty in our economic system can bring. Today, Congress will act to make sure that dishonest businessmen can't game our economic system, deceive investors and ruin the lives of their employees. This bill does that, which is why I support this common-sense legislation.

HOUSE OF REPRESENTATIVES—*Wednesday, May 1, 2002*

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. GUTKNECHT).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

HOUSE OF REPRESENTATIVES,
Washington, DC, May 1, 2002.

I hereby appoint the Honorable GIL GUTKNECHT to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

PRAYER

The Reverend Jim Congdon, Pastor, Topeka Bible Church, Topeka, Kansas, offered the following prayer:

Almighty God, we pause this morning to give You thanks.

We thank You for another day to live and work in the United States.

We thank You for Your Word, which teaches us righteousness and justice and equity.

We thank You for giving us a system of government that honors our dignity and checks our depravity.

We repent for the spirit of self-sufficiency that tells us we do not need You and the spirit of arrogance that tells us we do not need others.

On this first day of May, dear Father, we make a new commitment to live our Nation's motto, In God We Trust.

For You are the rock of our salvation.

You are our hiding place in times of terror.

You are the truth in whom we can rely.

Our Nation needs a third great spiritual awakening. May it begin here with each of us.

Bless these men and women who represent America. Bless them in their deliberations to seek and find Your wisdom, that Thy will be done on earth as it is in heaven.

Hear our prayer, for You are our Lord and savior. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from New York (Mr. McNULTY) come forward and lead the House in the Pledge of Allegiance.

Mr. McNULTY led the Pledge of Allegiance as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

WELCOMING PASTOR JIM CONGDON, PASTOR, TOPEKA BIBLE CHURCH

(Mr. RYUN of Kansas asked and was given permission to address the House for 1 minute.)

Mr. RYUN of Kansas. Mr. Speaker, I rise this morning to welcome my good friend, Pastor Jim Congdon, to the floor of the House of Representatives. It was my distinct honor to invite Pastor Congdon to deliver our opening prayer this morning, and I am grateful for his willingness to do so.

Pastor Congdon is from Topeka, Kansas, and pastors the Topeka Bible Church, which my family and I attended for several years. It was a privilege to call Jim my pastor, and I am grateful for his continued friendship and dedication to the ministry.

I also want to welcome Jim's wife, Melody, to the House Chamber. I know she came with Jim and she speaks for a lot of different people in the church. She is a constant source of strength and support in the ministry at the Topeka Bible Church.

Finally, I want to welcome the 62 students from Cair Paravel Latin School that are seated in the gallery. Pastor Congdon teaches philosophy at Cair Paravel, and these 9th and 10th graders are in D.C. for part of their studies. I thank them all for being here.

I thank Jim and Melody for their presence, and God bless them.

CONGRATULATING FLORIDA INTERNATIONAL UNIVERSITY SCHOOL OF NURSING

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, keeping in mind the national nursing shortage that health care experts cite could become pervasive, I would like to congratulate the School of Nursing at my two-time alma mater, Florida International University, for its commitment to the future of nursing.

The school recently celebrated its 20th year of existence and already has produced exceptional nurses, nurse practitioners and nursing leaders who contribute to the health and well-being of south Florida. Its prominent faculty includes as director Dr. Divina Grossman; Dr. Kathleen Blais; Dr. Marie-Luise Friedemann; Paula Alexander-Delpech; and Dr. John McDonough.

By reaching out to high school and first year college students, focusing on underrepresented minority groups and retraining foreign doctors for nursing, the school is working toward a slogan of Solving the Nursing Shortage Through Excellence and Opportunity.

Mr. Speaker, the FIU School of Nursing has come a long way, and I ask that my colleagues join me in congratulating it for 20 years of unparalleled excellence for our community and indeed our Nation.

APRIL IS SEXUAL ASSAULT AWARENESS MONTH

(Mr. DAVIS of Illinois asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAVIS of Illinois. Mr. Speaker, April is Sexual Assault Awareness Month, and I join with all of those across the country who are taking the opportunity to raise this issue, and that is the issue of sexual assault that occurs far too often, often goes unreported, often leaves individuals feeling shameful and feeling that they have no place to turn.

That is a kind of terror and a kind of terrorism that our country must rid itself of. So I urge all of us to join together to make sure that we can reduce the incidences of sexual assault.

ASTHMA AWARENESS DAY

(Mr. FOLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FOLEY. Mr. Speaker, today is Asthma Awareness Day, and as a former suffering asthmatic, I want to commend this Congress for the work and research efforts that have been undertaken by the National Institutes of Health.

I want to give my colleagues a few of the statistics that are startling: 4.8 million children have asthma; 10.6 million people have experienced an asthma

☐This symbol represents the time of day during the House proceedings, e.g., ☐1407 is 2:07 p.m.
Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

attack or episode in the past 12 months; 3.9 million asthma-related outpatient visits to private physicians; and another 2 million asthma-related visits to emergency departments. Over 12,288 people died of asthma-related symptoms. The cost, of course, is staggering, $12.7 billion. Missed school days, 10.1 million annually, and missed work days, over 3 million.

Much work needs to be done, but the first most important work is to continue to promote asthma awareness and research, hopefully to bring a breath of life to young children and cure this disease.

RADIOACTIVE MATERIAL MOVING ACROSS AMERICA

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, do my colleagues recognize this symbol here, the national symbol for dangerous radioactivity? I hope so. Because these signs, and we should get used to them, will soon be in our neighborhoods, our communities, near our schools and parks, along our highways and railways in our districts.

The most dangerous toxic type of radioactive material known to man, spent nuclear fuel, is very close to being carried through 44 States, 703 counties and 109 major metropolitan areas, and probably through my colleagues' own neighborhood. If this Congress votes to pass the resolution designating Yucca Mountain as the Nation's nuclear waste dump, we will see this symbol driving by our homes, schools and churches for at least the next 38 years.

Mr. Speaker, are our constituents prepared to live near a nuclear shipping route that leads to Yucca Mountain? Are the 123 million Americans living near these routes prepared for a nuclear disaster? Let us protect our rail and highways and, more importantly, our American families. Vote no on House Joint Resolution 87.

SEXUAL ASSAULT AWARENESS MONTH

(Ms. KILPATRICK asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. KILPATRICK. Mr. Speaker, I rise today in support of the over 260,000 women who are sexually assaulted in America every year. We just concluded sexual assault month last month as we ended the month of April.

Today, May 1, I want to make sure that Americans know that sexual assault will not be tolerated. There are programs in our government, both public and private, that help sexual assault victims reach their potential if they have been horrendously assaulted. This is a better country than that. We are better people than that. There are programs both for the assaulter, as well as the woman or man who has been assaulted.

It is our responsibility as families, as leaders, to work with these people who need additional assistance. Mr. Speaker, I would hope that we as American citizens reach out to those people, support the programs and move this country forward.

TEN COMMANDMENTS AND CHILD PORNOGRAPHY

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, a week ago hundreds of my constituents watched something very sad in my district. A work crew placed a piece of sheet metal over a plaque depicting the Ten Commandments that hung on the wall of the Chester County Courthouse for over 80 years. The county commissioners did not want to do it, but a Federal judge ordered it.

This week, a newspaper, the Pittsburgh Post Gazette, all the way on the other end of the State, said the court's order was reminiscent of the Taliban and the Buddha statues, but I find it more disturbing than that.

Last week, the Supreme Court ruled that computer child pornography was perfectly legal as long as real kids were not used making it. We can turn on the TV at 4:00 in the afternoon, watch Jerry Springer interview people about their most disgusting sexual activities. The American Nazi Party is told they have a constitutional right to march through a Jewish neighborhood in Illinois, but a plaque of the Ten Commandments is so offensive we have to cover it up.

I am not exaggerating. The woman who sued our county said she was offended every time she went to the courthouse seeing the plaque. Mr. Speaker, something is very, very wrong with America's court system when child pornography is protected, can be viewed on computers, but the Ten Commandments have to be covered up.

MAKE EVERY MONTH SEXUAL ASSAULT AWARENESS MONTH

(Ms. SCHAKOWSKY asked and was given permission to address the House for 1 minute.)

Ms. SCHAKOWSKY. Mr. Speaker, the month of April, which was Sexual Assault Awareness Month, has come to an end. However, I propose that we make every month sexual assault awareness month until there is no longer a woman in this world who fears being raped or assaulted.

We are devoting extensive resources to ending terror around the world, while at the same time 1 in 6 women continue to be terrorized by sexual assaults in their lifetime. Sadly, this is not new or shocking news as each year the statistics change very little.

It is time to take a stand. It is time that we make ending violence against women a national priority. It is time that we devote the same amount of resources to ending a form of violence that terrorizes over half the population of this globe as we provide to the war on terrorism.

We can do something about it today. There will be a motion to instruct today introduced by the gentlewoman from Colorado (Ms. DEGETTE) which will instruct conferees to agree that we should strengthen the Violence Against Women Office and make it independent within the Department of Justice. This will make sure that we put the kind of attention and resources that we need to stop violence against women.

RECOGNIZING THE GOODWILL AND ALTRUISM AT THE PLACENTIA TRAIN ACCIDENT

(Mr. GARY G. MILLER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GARY G. MILLER of California. Mr. Speaker, on April 23, a terrible train accident occurred in my district in Placentia, California. Tragically 2 people lost their lives while hundreds of others were injured.

I rise today not to add commentary to the unfortunate accident, but rather to recognize the goodwill and altruism that is very much a part of America in a post-September 11 world.

Mr. Speaker, the fire, police and ambulance services, along with the local hospitals, all reacted swiftly to the accident. There were bystanders who rushed to the scene to offer aid and comfort to those who were hurt. One of those bystanders, a convenience store owner, rushed to the scene with cases of bottled water. Another grabbed a first aid kit from her car and rushed to help. Employees from a local telephone company brought dozens of cell phones to the emergency center so people could call their loved ones.

Despite the tragedy of the situation, average Americans rose to the occasion to help strangers and friends alike.

Mr. Speaker, if there is anyone who wonders what makes an American an American, they need only look at the simple acts of kindness and charity that citizens everywhere engage in when something terrible happens. America is the same today as it was in the wake of September 11. It is strong and will remain so regardless of whatever hardships are thrown our way.

GROWTH IN THE ECONOMY

(Mr. PENCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PENCE. Mr. Speaker, we heard about the Bush recession on this floor months ago, even though the recession in which we found ourselves had begun a matter of weeks after George Bush became President of the United States. So I am waiting, Mr. Speaker, to begin to hear about the Bush recovery on this floor from our friends on the other side of aisle.

The Department of Commerce announced the economy grew by 5.8 percent in the first quarter of 2002, and even The Washington Post credited tax cuts in part for fueling this recovery.

There is more that needs to be done. There is not yet good news in the area of unemployment, so we must practice fiscal discipline and additional tax relief to certify the Bush recovery. We must make last year's tax cuts permanent, Mr. Speaker, and we must not spend one penny more than the President's request in the upcoming defense supplemental.

Tax relief, fiscal discipline, the cornerstone of the Bush recovery.

□ 1015

BRING OUR CITIZENS HOME

(Mr. LAMPSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMPSON. Mr. Speaker, well, here we are at the beginning of May 2002. Ludwig Koonz was taken to Italy in 1994. Jeff Koonz, his father, won court cases prior to that giving him custody. Jeff continues to fight the fight to get his son returned, the U.S. citizen's son returned, to the United States of America.

The mother who took the child, Ilona Staller is still doing her pornography. She still has her Web site up. She is still doing exotic sex shows all over the world, raising her son in that environment. We have not heard from our State Department. We do not know exactly what they are doing about this to fight to bring every U.S. citizen who is outside of this country and who wants to be here in the United States home, where they belong.

All I can ask is that you consider, my colleagues, what you would do if it were your child. Would you sit by complacently, like we are doing; or would you be standing on the shores of our country demanding that every child taken out of our country be returned? Help us bring our children home.

STRENGTHEN WELFARE REFORM

(Mr. HERGER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HERGER. Mr. Speaker, I am honored to be part of the effort to strengthen the historic 1996 welfare reform law, TANF, or Temporary Assistance to Needy Families.

Since 1996, nearly 3 million children have been lifted from poverty. Nine million citizens have left the welfare rolls altogether. And the black child poverty rate is at its lowest point in history.

Mr. Speaker, over the past 6 years, we have found that a paycheck is the best path from poverty to self-sufficiency. The Republican plan and the President's plan will help even more low-income parents know the dignity that comes from a paycheck instead of a welfare check.

Through welfare reform, we can assist even more low-income Americans improve the quality of their lives for themselves and their children.

PRAYERS FOR MARTIN AND GRACIA BURNHAM

(Mr. TIAHRT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIAHRT. Mr. Speaker, today marks the 340th day that Martin and Gracia Burnham have been held captive by Muslim terrorists in the Philippines.

Today is May Day, traditionally a festive day to celebrate spring time. This May Day will not be festive for Martin and Gracia. It will be a day of terror, as each of the past 339 days has been. Unfortunately, it will not be a joyous day for their children either, Jeff, Mindy, and Zach. It will another day these children are without their beloved parents.

America has the personnel, the necessary tools, the training, and the ability to rescue Martin and Gracia Burnham from the Islamic terrorists that hold them hostage. All we lack is the political will to do it.

I ask my colleagues: What would you want if you were held captive today by terrorists? I can answer that for you. You would want your government to do everything it possibly could as quickly as it could to get you free. That is exactly what we should encourage our administration to do.

As always, I ask you to join me in prayer for Martin and Gracia and for their loved ones that this nightmare may soon be over.

EXPORT-IMPORT BANK REAUTHORIZATION ACT OF 2001

Mrs. MYRICK. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 402 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 402

Resolved, That any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the committee of the Whole House on the state of the Union for consideration of the bill (H.R. 2871) to reauthorize the Export-Import Bank of the United States, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Financial Services. After general debate the bill shall be considered for amendment under the five-minute rule. It shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule the amendment in the nature of a substitute recommended by the Committee on Financial Services now printed in the bill. The committee amendment in the nature of a substitute shall be considered as read. All points of order against the committee amendment in the nature of a substitute are waived. No amendment to the committee amendment in the nature of a substitute shall be in order except those printed in the report of the Committee on Rules accompanying this resolution. Each such amendment may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such amendments are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the committee amendment in the nature of a substitute. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

SEC. 2. After passage of H.R. 2871, it shall be in order to take from the Speaker's table S. 1372 and to consider the Senate bill in the House. All points of order against the Senate bill and against its consideration are waived. It shall be in order to move to strike all after the enacting clause of the Senate bill and to insert in lieu thereof the provisions of H.R. 2871 as passed by the House. All points of order against that motion are waived. If the motion is adopted and the Senate bill, as amended, is passed, then it shall be in order to move that the House insist on its amendment to S. 1372 and request a conference with the Senate thereon.

The SPEAKER pro tempore (Mr. GUTKNECHT). The gentlewoman from North Carolina (Mrs. MYRICK) is recognized for 1 hour.

Mrs. MYRICK. Mr. Speaker, for the purposes of debate only, I yield the customary 30 minutes to the gentleman from Florida (Mr. HASTINGS); pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Yesterday, the Committee on Rules met and granted a structured rule providing for consideration of the bill H.R.

2871, the Export-Import Bank Reauthorization Act of 2001. The rule waives all points of order against consideration of the bill and provides for 1 hour of general debate equally divided and controlled by the chairman and ranking member of the Committee on Financial Services.

The rule further provides the amendment in the nature of a substitute recommended by the Committee on Financial Services now printed in the bill shall be considered as an original bill for the purpose of amendment and shall be considered as read. It waives all points of order against the bill as amended and makes in order only those amendments printed in the report of the Committee on Rules accompanying the resolution.

H. Res. 402 provides that the amendments printed in the report shall be considered only in the order printed in the report, may be offered by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to an amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole.

The rule also waives all points of order against the amendments printed in the report and provides one motion to recommit with or without instructions.

Finally, it provides that after the passage of H.R. 2817, it shall be in order to take from the Speaker's table S. 1372, consider it in the House, and move to strike all after the enacting clause and insert the text of H.R. 2871 as passed by the House. It waives all points of order against consideration of the Senate bill and the motion to strike and insert.

If the motion is adopted and the Senate bill, as amended, is passed, then it shall be in order to move that the House insist on its amendments and request a conference.

H. Res. 402 is a bipartisan, fair rule; and it allows for four Democrat amendments.

Mr. Speaker, the Export-Import Bank Reauthorization Act of 2001 reauthorizes the bank for 4 years and has important provisions that encourage small business transactions; and it allows other key changes that will improve the operations of Ex-Im.

The mission of Ex-Im is to support export financing of U.S. goods and services. Ex-Im is designed to help U.S. exporters match competition from foreign export credit agencies in Japan, Germany, France, and other countries.

By law, Ex-Im is intended only to fill gaps in commercially available financing for U.S. exports by serving as a lender of last resort and not competing with private lenders. Ex-Im is also required by law to work towards securing international agreements to reduce government-subsidized export financing, thereby promoting free and fair trade.

I want to commend my colleague, the gentleman from Nebraska (Mr. BEREUTER), for responding to concerns about the dumping of steel products on the U.S. markets. He has included a provision that directs Ex-Im to reevaluate the adverse-impact test it performs. This bill now seeks to ensure the bank takes into account the interest of U.S. industries before approving a transaction.

H.R. 2871 is a strong piece of legislation that will help American manufacturers, American workers, and the American economy. This bill was crafted with substantial Democrat input and was reported out of the Committee on Financial Services on a bipartisan vote. I urge my colleagues to support this rule and to support the commonsense legislation that it underlies.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume. I would like to thank my good friend, the gentlewoman from Charlotte, North Carolina (Mrs. MYRICK), for yielding me this time.

Mr. Speaker, this bill reauthorizes the Export-Import Bank of the United States through fiscal year 2005. It mandates changes in bank programs and creates a new division in the Bank for Africa. And I would like to personally extend my thanks to my colleague and good friend, the gentleman from Nebraska (Mr. BEREUTER), for enhancing this bill through working with our colleagues to provide that provision.

The Export-Import Bank operates under a renewable charter, the Export-Import Bank Act of 1935, and was last fully authorized in 1997 through September 30, 2001. A short-term extension through April 30, 2002, was passed by voice vote on March 19. I supported that measure in 1997 and likely will support the base bill today.

But, Mr. Speaker, although some amendments were permitted, five, and I think each of them highlights concerns that our Congress Members have, certainly I do, of the many amendments that were not accepted, one in particular, in my judgment, should have been. That amendment, authored by the gentlewoman from Illinois (Ms. SCHAKOWSKY), represented the creation of a Human Rights Impact Assessment Office within the bank. That office would have been tasked to ensure that the bank identify human rights' concerns when projects were considered for financing.

In addition, the amendment would have directed that the new office would report to the President and the Congress on the potential human rights impact of every proposed project of $10 million or more.

Mr. Speaker, if the bank is using taxpayer dollars to fund projects, it should also have at its disposal the tools to ensure that those projects do not violate human rights. In my view, this should be a minimum expectation.

On the subject of human rights, one amendment has been permitted to be considered. It was also authored by the gentlewoman from Illinois (Ms. SCHAKOWSKY). It states the sense of the Congress that the bank should have available to them an assessment of each financed project's potential impact on human rights.

This is a good start, Mr. Speaker; but it does not direct the bank to report on the human rights impacts of its projects, nor does it identify where the bank will get this data.

□ 1030

Mr. Speaker, another important amendment accepted for consideration with this bill was introduced by the gentleman from Vermont (Mr. SANDERS). This incredibly thoughtful amendment would prohibit companies from receiving future Export-Import Bank assistance if they lay off a greater percentage of workers in the United States than they lay off in foreign countries.

Mr. Speaker, the original bill was introduced in 1935 to create jobs in the midst of the Great Depression. We need to make sure that the bank fulfills that mission, and does not simply finance large corporations with little or no thought to American workers.

An investigation in the other Chamber recently revealed that over $650 million loans were given to Enron. We still do not know if those loans will be defaulted at the taxpayers' expense. Once again, a major corporation, Enron, had a party, and the American people may have a hangover.

Mr. Speaker, this bill does take some positive steps, but in my view it does not go nearly far enough. These two amendments that I just mentioned address human rights and American workers issues which are critical to the original intent of the bill. I urge my colleagues to support these amendments, and give active attention to the debate as it progresses today.

Mr. Speaker, I reserve the balance of my time.

Mrs. MYRICK. Mr. Speaker, I yield 4 minutes to the gentleman from Nebraska (Mr. BEREUTER), the chairman of the Subcommittee on International Monetary Policy and Trade.

Mr. BEREUTER. Mr. Speaker, I rise in strong support of H. Res. 402, which is a rule under which the Export-Import Bank Reauthorization Act of 2001 will be debated, and I thank the gentlewoman for yielding me this time, and for the effort of the gentleman from Florida (Mr. HASTINGS) as well. And the whole Rules Committee and especially the chairman and ranking member of the committee, the gentleman from California (Mr. DREIER) and the gentleman from Texas (Mr. FROST) and their staff are owed great credit and appreciation for their assistance in crafting the rule.

The gentleman from Florida (Mr. HASTINGS) is exactly right, as the gentlewoman from North Carolina (Mrs. MYRICK) also recognized, that the legislation covered by this Rule comes to the House through a bipartisan effort, with substantial input from numerous members. In fact, I think the very complete input from both sides of the aisle, and the democratic process certainly had its positive impact at both the subcommittee and the committee level.

The Export-Import Bank is an independent U.S. Government agency that creates and sustains American jobs by providing direct loans to buyers of U.S. exports, guarantees to commercial loans to buyers of U.S. products, and insurance products which greatly benefit short-term small business sales. The Export-Import Bank finances exports such as civilian aircraft, electronics, engineering services, vehicles, agricultural equipment, and so on. It is also important to note that the Export-Import Bank charges risk-based interest and fees on the users of its credit products. As a result, last year, the Export-Import Bank generated $1 billion of net income to the U.S. Government.

To illustrate the importance of the bank, in fiscal year 2000, they supported $15.5 billion in U.S. exports through an appropriation of $759 million. Moreover, in the past 60 years, the Export-Import Bank has supported more than $300 billion in U.S. exports. It also needs to be noted that the Ex-Im Bank is only intended to be the lender of last resort, and the Bank is not intended to compete with private lenders.

Mr. Speaker, this legislation is not simply a reauthorization. While the executive branch, regardless of who is in the White House, always seems simply to want a straightforward reauthorization of everything, this committee has taken the time and made the effort to give us some basic reforms.

For example, we provide in greater detail how the following subjects will be addressed, to enhance the role of small and medium-sized businesses in using the bank, to have a dramatic outreach program, and to increase the percentage of the total resources that go to small and medium-sized businesses. The gentleman from Florida (Mr. HASTINGS) has mentioned our special effort with respect to Africa, both the reauthorization of the advisory committee for Sub-Saharan Africa, and the creation of an Office of Africa within the bank, and the latter comes from one of our Member's initiatives.

The gentleman from Pennsylvania (Mr. TOOMEY) has taken the controversial Ex-Im Bank transaction for American exporters to Benxi Iron and Steel firm, and he has given us some very important reform legislation which is a part of the bill today. It relates to American exports to those businesses abroad that are parts of sectors for which a 201 case has been made under the International Trade Commission or where dumping is formally ruled to be taking place.

Finally, the gentleman from Florida (Mr. HASTINGS) made one point about the initiative of the gentlewoman from Illinois (Ms. SCHAKOWSKY), a distinguished member of the subcommittee and committee. The only disagreement this Member has had with her approach is that she would mandate a special human rights report to be made by the Export-Import Bank. In fact, the State Department issues such country human rights reports, and we have in this legislation recognized it the key agency to provide human rights information to all of the agencies of the Federal Government.

The gentlewoman's alternative amendment, which is made in order, certainly is one I can support. And, in fact, we can strengthen it by insisting that the State Department's human rights country report for the particular country that would be the destination for an American export be considered by the Export-Import Bank by report language during a House-Senate Conference.

Mr. Speaker, I urge support of the legislation.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, to respond to the gentleman with reference to the amendment offered by the gentlewoman from Illinois (Ms. SCHAKOWSKY), my feeling is that the human rights division of the State Department does cover many of these measures; but I do believe that they would have to rely upon the information that they receive from the Export-Import Bank. If the Export-Import Bank does like some agencies do, then they very well may not have a full report.

Mr. BEREUTER. Mr. Speaker, will the gentleman yield?

Mr. HASTINGS of Florida. I yield to the gentleman from Nebraska.

Mr. BEREUTER. Mr. Speaker, maybe I was not clear. I expect to support and urge support for the gentlewoman's amendment that has been made in order, and to strengthen provisions of her amendment by the report language.

Mr. HASTINGS of Florida. Mr. Speaker, I yield 4 minutes to the gentleman from Vermont (Mr. SANDERS), the former mayor of Burlington, Vermont, who has particularly keen insight into the matter the gentleman is about to discuss.

Mr. SANDERS. Mr. Speaker, I thank the Committee on Rules for making my amendment in order which we will be debating later today, and I especially thank the subcommittee chairman, the gentleman from Nebraska (Mr. BEREUTER), who promised me that he would support getting that amendment on the floor, and he did.

Mr. Speaker, I rise as the ranking member of the relevant subcommittee, and I must say, unlike many others, and perhaps as one of two independents in the House of Representatives, I have some very, very strong concerns about the direction of the Export-Import Bank. It is my belief that unless we make fundamental changes in that bank and the way that it functions, that we should eliminate it because as presently constituted, it amounts to huge corporate welfare for some of the largest multinational corporations in America.

The truth of the matter is, and I think it is high time Congress woke up to it, and this goes well beyond the Export-Import Bank, the trade policy of the United States is a failure.

Mr. Speaker, we have a $300-plus billion trade deficit. It is not just steel, it is not just textiles. All over America, in rural America, in my State, small manufacturing plants are going out of business because they cannot compete with imports that come into this country made in China where workers are being paid 20 cents an hour. The big untold story of trade policy is that corporate America has sold out American workers, sold out the American people, laid off millions of American workers in search of cheap labor all over the world. We have a $360 billion trade deficit, tell me how our trade policy is successful. The mythology out there is we do not have to worry about old manufacturing jobs, steel, textiles, cars, those are not good jobs. All of our young people are going to have high tech, computer jobs, minimum $50,000 a year, let the Mexicans and the Chinese have those other jobs. What a terrible thing to say to millions of workers.

The result is that high school graduates today who go into the job market are making 20 percent less than was the case 25 years because the factory jobs are not there, and what is there are McDonald's and Burger King, low wages, part-time, no benefits. We have to rebuild manufacturing in this country and create decent paying jobs for our working people.

Export-Import Bank is part of the problem, not the cause. Check the record. Over 80 percent of the money that comes from Export-Import Bank goes to large, Fortune 500 corporations. We give them the money, and General Electric and Motorola and Boeing say thanks, taxpayers. By the way, we are laying off American workers because we are off to China and Mexico; but give us some more money.

Some of us have a radical idea. We think before we give taxpayer money out to large, multinational corporations, maybe, just maybe, we might want to insist that they do something about creating jobs in the United States of America. I know that that is a very radical idea, that taxpayer money be used to create jobs in America. The bottom line is that if we are going to give these Fortune 500 companies money, let them sign on the line and work on ways to create jobs in America. The major companies that have received Ex-Im money are the major job cutters in America. I want somebody to explain that to the workers in America that have been laid off, that their tax dollars go to precisely the companies that are laying off more workers than anyone else. It is absurd on the surface.

Mr. Speaker, I have an amendment that will address it, and I hope we will get strong bipartisan support. It is time that we change the trade policy in America. This is a good way to start.

Mr. HASTINGS of Florida. Mr. Speaker, I yield back the balance of my time.

Mrs. MYRICK. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore (Mrs. MYRICK). Pursuant to House Resolution 402 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 2871.

□ 1042

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 2871) to reauthorize the Export-Import Bank of the United States, and for other purposes, with Mr. GUTKNECHT in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. Pursuant to the rule, the bill is considered as having been read the first time.

Under the rule, the gentleman from Ohio (Mr. OXLEY) and the gentleman from New York (Mr. LAFALCE) each will control 30 minutes.

The Chair recognizes the gentleman from Ohio (Mr. OXLEY).

Mr. OXLEY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise today to urge my colleagues to support H.R. 2871, the Export-Import Bank Reauthorization Act of 2001. This is an extremely important piece of legislation for American manufacturers, American workers and the American economy. By reauthorizing the Export-Import Bank, we will demonstrate our commitment to promoting U.S. goods throughout the world. This legislation reauthorizes the Export-Import Bank for 4 years, and makes several important changes in how Ex-Im operates.

This is the first major piece of legislation relating to international trade to come out of the Committee on Financial Services. H.R. 2871 was reported by voice vote with strong bipartisan support on October 31 of last year. I am proud of all of the hard work by the committee on this bill, and I would like to take this opportunity to thank the chairman of the subcommittee on International Monetary Policy and Trade, the gentleman from Nebraska (Mr. BEREUTER), for his leadership and dedication in crafting this bill. The gentleman has invested a lot of time and energy ensuring that Export-Import Bank remains true to its mission of supporting U.S. exports and sustaining U.S. jobs.

Mr. Chairman, reducing the trade deficit is critical to aiding the economic recovery of the United States. Our manufacturers currently face stiff competition from foreign companies seeking to expand the sale of their goods overseas.

□ 1045

There is little argument that goods made in the U.S. are of the highest quality and are in great demand. At the same time, however, foreign companies are getting lots of assistance from their export credit agencies in finding markets and negotiating prices for their goods. Without Ex-Im, U.S. importers would be forced to compete in this international marketplace with one hand tied behind their backs. Ex-Im levels the playing field of international trade by allowing U.S. companies to compete on the quality of their product.

In a perfect world we would not need export credit agencies and the free market would operate without market distortions. However, because foreign governments are in the practice of aiding their manufacturers through export credit agencies, the United States must fight fire with fire. Ex-Im works to ensure that U.S. manufacturers receive equal treatment and serves to promote U.S. exports overseas. Currently some 70 governments around the world have export credit agencies like Ex-Im providing about $500 billion a year in government-backed financing.

Mr. Chairman, as long as foreign governments are financing export credit agencies, we must support Ex-Im to ensure that our manufacturers and workers remain competitive in the global marketplace.

Increasingly, financing is a key to winning export sales. In many emerging markets, where the greatest export growth opportunities now exist, commercial banks are often unwilling to provide financing, even for creditworthy customers. In those cases, government export credit agencies step in to finance the sales, either through direct loans to the customer or through guarantees and insurance that a commercial lender will be repaid by the customer. With guarantees and insurance, commercial banks are willing to provide financing. A key role that Ex-Im plays is to help open markets to U.S. exporters and promote follow-on sales. Ex-Im has led the way in several markets, resulting in a return of commercial financing for transactions.

A good example is the efforts Ex-Im undertook in Asia after the currency crisis that that region experienced in the 1990s. When commercial banks saw that Ex-Im was able to effectively transact business in this region, they reentered this market, which contributed to Asia's economic recovery.

Many critics of Ex-Im claim that it is a giveaway for large corporations. That is simply not accurate, for several reasons. First, approximately 90 percent of Ex-Im's transactions are with small businesses. Those businesses rely on Ex-Im to help them reach overseas markets that they would otherwise not be able to reach.

Secondly, while many of Ex-Im's higher dollar transactions go to larger companies, we should remember that those large companies utilize supplies from many small and medium-sized businesses in order to create their products.

Finally, Ex-Im serves as the lender of last resort for U.S. exporters when commercial financing is not available for export sales and when the U.S. exporter is confronted with foreign competitors with financing available from their own government.

Ex-Im charges interest on its direct loans and premiums for its guarantees and insurance costs that the U.S. exporter usually passes through to its overseas customer. Those charges usually range from 5 to 17 percent of the financing obtained, depending on the risk.

From the exporters' and customers' point of view, the bank does not subsidize the cost of financing an export transaction. Ex-Im is no less expensive to use than a commercial bank or other financial intermediary.

I will defer to my colleague, the gentleman from Nebraska (Chairman BEREUTER), to describe the details of this legislation. However, I would like to highlight some of the key provisions.

First, in this bill we seek to greatly expand the use of Ex-Im by small businesses. That is achieved by expanding the required volume of small business transactions from 10 percent to 18 percent, which will ensure that more Ex-Im-related funds are getting to more local businesses. The bill also authorizes more funds to be used to increase small business outreach efforts and improve technology so that more people can effectively use Ex-Im.

Second, H.R. 2871 contains strong provisions relating to U.S. trade laws that will ensure Ex-Im adheres to U.S. policies and does not contribute to overcapacity or dumping of goods on U.S. markets.

Third, this measure modifies a Tied Aid Credit Program by renaming it the Export Competitiveness Program and Fund and outlining its operation. The Secretary of the Treasury is empowered to establish how this fund will operate and the Ex-Im Bank Board will have the final determination of when the fund is used, thus maintaining the co-equal roles of Treasury and Ex-Im.

The fund will be used to combat tied aid, untied aid and market windows, all of which are tools that have been commonly used by foreign governments to subvert export pricing agreements.

Finally, H.R. 2871 makes many important policy changes to Ex-Im's charter. The bill contains provisions encouraging renewable energy programs and efforts to combat corruption and terrorism, and requires the Universal Declaration of Human Rights, as adopted by the UN, to be the standard by which Ex-Im's transactions are reviewed.

The committee held its first hearing on the reauthorization of Ex-Im one year ago tomorrow. At that hearing the administration submitted its authorization request for a basic 4-year reauthorization. After an additional hearing and intensive investigation, the gentleman from Nebraska (Chairman BEREUTER) crafted H.R. 2871 to reauthorize Ex-Im and make important changes in how the bank operates.

This past fall the subcommittee and the full committee reported this bill by voice vote with strong bipartisan support. Since that time, the committee and the gentleman from Nebraska (Chairman BEREUTER) have been working diligently to remedy some concerns the administration had with the original text. The results of these discussions is the manager's amendment, which makes several technical changes requested by the administration.

Mr. Chairman, Ex-Im provides assistance to both large and small corporations across the United States. Without the guarantees, insurance and direct loans provided by Ex-Im, many of those businesses would not reach high risk or emerging markets with their products. As a result, production levels would be lowered, the U.S. trade deficit would be larger and fewer Americans would be employed in high paying manufacturing jobs.

Mr. Chairman, I strongly urge my colleagues to vote in favor of U.S. manufacturers, in favor of U.S. workers, and in favor of the U.S. economy by voting yes on H.R. 2871.

Mr. Chairman, I reserve the balance of my time.

Mr. LAFALCE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I am very pleased that the Committee on Financial Services, under the able leadership of my friends, the gentleman from Ohio (Mr. OXLEY) and, on this particular bill, the gentleman from Nebraska (Mr. BEREUTER) was able to complete its work on H.R. 2871 and bring it to the floor of the House, the Export-Import Bank Reauthorization Act. One difficulty with it is its title, of course, because it has nothing to do with imports, it only has to do with exports, and one of these days we ought to change the name of the bank to the Export Bank of the United States, or the United States Export-Other Countries Import Bank. It would avoid needless confusion.

The bill, very importantly, reauthorizes Ex-Im Bank for 4 years. We have to get over the 30 days, we have to get over the 1 year, 2 year. We need a multiyear reauthorization, and 4 years is a good time frame. But, most importantly, it also contains very important provisions that could better define and guide Ex-Im's policies and programs.

Before I go into that, I want to give credit to another individual, and that is the ranking Democrat on the relevant subcommittee, the gentleman from Vermont (Mr. SANDERS), who has attempted to even better define its mission, its policies and its programs so that it could work in the best interests of working Americans.

While we may agree or disagree on a specific prescription, we surely agree on his intent and motivations, and I am hoping that, to the maximum extent possible, Ex-Im Bank officials will work to implement the existing and future laws in a manner that will effectuate those shared goals.

Some individuals suggest that Ex-Im transactions are nothing more than corporate subsidies, no better than some of the worst corporate handouts contained in the Tax Code. That is not quite true.

First, Ex-Im operates in a very competitive international environment, an environment in which export credit agencies in other countries have become increasingly aggressive in supporting the exports of the companies from their countries, our competitors. So it is critical to have Ex-Im to counter those transactions, and, in doing so, to provide leverage for the United States to negotiate a gradual reduction in export subsidy activities amongst OECD Members. That must work hand in hand. The United States must become ever more aggressive in negotiating those reductions in subsidies, but, of course, this must be done on a multilateral basis.

In short, absent the United States Ex-Im Bank, U.S. exporters would find themselves competing at a significant disadvantage against foreign exporters, who do enjoy government subsidies. With the loss or diminution of key export markets would also come the loss of export-oriented jobs in the United States, jobs which pay 18 percent more on average than non-export jobs.

Ex-Im also has the charge of providing critical export financing in cases where there is a market failure in private lending. Frequently these failures relate to the nature of the exporter; very often, for example, small businesses who face difficulties obtaining private credit for export transactions. As a result, Ex-Im has been a very important source of support for small business exporters nationwide. With the advent of the Internet and Internet marketing, this becomes ever more important for the small business person.

Market failures also relate to the nature and vocation of export markets. Markets in Sub-Saharan Africa and elsewhere in the developing world are frequently overlooked by private export credit, and Ex-Im goes where private lenders are unwilling to go, to the ultimate benefit of not only our exporters, but to the ultimate benefit of these developing countries.

That Ex-Im is charged to go into underserved markets is particularly relevant today when economic engagement with other countries is an essential element of foreign policy and national security. In the months since last September we have had to move very quickly to determine how best to reach out to countries and people who were previously of too little interest to the United States and other wealthy industrialized countries. Certainly much has been achieved already in the war on terrorism by high level engagement between the Bush administration and foreign leaders, but top level diplomacy will ultimately fail if it is not supported by bottom-up engagement in the political, the social, and the economic spheres. It is here where institutions like the Ex-Im Bank have a critical role to play.

With each export transaction supported by the bank, we have made a new connection. We have developed a new familiarity with a market, a people, and a country that had been previously slightly more foreign to us. With thousands of these transactions, we can take 1,000 steps forward toward a world of interdependence and prosperity; in short, a world in which terrorism would find it much more difficult to exist.

Let me describe just a few of the key elements of H.R. 2871. I am particularly pleased that the reauthorization bill emphasizes the need to expand outreach to small businesses. We spent a great deal of time assessing the barriers to Ex-Im assistance for small business, and I became convinced that technology enhancements, as I mentioned earlier, would be critical to any meaningful effort to expand services for that sector.

For Ex-Im's large clients, user-friendliness is not a significant issue. Large corporations have adequate resources and knowledge in-house to interact with Ex-Im rather smoothly. But for small businesses, working with Ex-Im could be a daunting prospect, so we drafted the legislation, convinced that Ex-Im could go even further toward bringing in new small businesses and serving them better by expanding the use of technology throughout the transaction process. As a result, the legislation expands the budget authority for technology upgrades, and provides guidance to Ex-Im on the implementation of new technologies.

But the bill creates important improvements on bank policies in a number of other areas, too. In drafting the legislation, we took very seriously concerns about the condition of the United States steel industry and Ex-Im activities that may have exacerbated problems in the industry.

So the bill establishes meaningful standards to ensure that Ex-Im does not support transactions that would contradict existing countervailing duty or anti-dumping orders. The bill also raises the bar of scrutiny for transactions that may have the effect of contributing to any material injury of a U.S. industry.

□ 1100

Finally, I would like to emphasize that the bill increases authorizations for the bank's administrative expenses and for the allotment ceiling on the total amount of lending and credit the bank is authorized to have outstanding. As we require the bank to expand its assistance and outreach to small businesses, we must, in turn, be providing more, not less, funding for the administrative expenses that necessarily come with this effort.

Mr. Chairman, I reserve the balance of my time.

Mr. OXLEY. Mr. Chairman, it gives me great pleasure to yield 5 minutes to the gentleman from Nebraska (Mr. BEREUTER) who has undertaken a very difficult task and done it superbly.

Mr. BEREUTER. Mr. Chairman, I rise in strong support of the Export-Import Bank Reauthorization Act of 2001.

Mr. Chairman, I want to particularly thank the gentleman from Ohio (Mr. OXLEY), the chairman of the full committee, and the gentleman from New York (Mr. LAFALCE), the ranking minority member, for their assistance in bringing this legislation to the floor. It has not been easy, but we have, of course, attempted to do something that is not always done around here, and that is to make some basic reforms in the authorizing legislation. It is oftentimes resisted by the executive branch. But I think it is true that the members of the subcommittee and committee have worked together in trying to bring the necessary reforms to that agency in order to help our business sector and, particularly, to help the employees of our business sectors that are involved in exports. We have done that with this bill.

Both Members, the chairman and ranking member, are quite familiar with this program. They have outlined very, very well and in excellent fashion the provisions of the bill, particularly those that are new or which are reform measures.

I would say, thinking back about the comments of the gentleman from New York about the title of the agency, that he is absolutely right. We would be better off to call it the Export Agency, because that is the only part of the trade subject for which they have authorization. It is easy to make the statutory change of the agency's name, but not so easy to make all the legal changes necessary to change the name. He and the gentleman from Massachusetts (Mr. FRANK), are probably the 2 Members that, along with me, have worked the longest on legislation on this bank over the years. But to the gentleman from Vermont (Mr. SANDERS), the ranking member of the subcommittee, I want to particularly thank him for his role in crafting this legislation, as we have worked together from the beginning on it. I am also appreciative of all of the members of the subcommittee, and the committee as well, who have offered their ideas about how to make this legislation better.

I would reiterate that the Export-Import Bank is an independent U.S. Government agency that creates and sustains American jobs by providing direct loans to buyers of U.S. exports, guarantees to commercial loans to buyers of U.S. products, and insurance products which greatly benefit short-term small business sales. For example, with respect to small business, already 86 percent of the transactions of the Ex-Im Bank in FY 2000 are with small or medium-sized American export firms. This bill pushes the envelope even farther for even more assistance to small business exporters through the efforts of the gentleman from Vermont (Mr. SANDERS), this Member, the chairman, and ranking minority member of the committee, and others.

The bill has been well explained already, particularly the new parts of it, but I would just briefly summarize six provisions of this legislation. First, of course, it reauthorizes the program and administrative budgets and it moves them along towards implementing greater information and office technology in the Export Import Bank, and that would be a particular benefit to small businesses as they do not always have the capability to take advantage of the programs of the Export Import Bank without improved information access.

Second, it reauthorizes the Sub-Saharan Africa Advisory Committee and provides additional emphasis on our businesses' interest in exporting to Africa.

Third, it provides for small business increases, pushing them to require at least 20 percent of the financial resources to go to small and medium-sized businesses.

Fourth, it increases the Ex-Im Bank's statutory ceiling for loans, grants and insurance assistance.

Fifth, it addresses the Tied Aid War Chest, and this is, of course, the most contentious part of the bill as far as the administration was concerned. In this bill we have made necessary changes so that ideologues in Treasury, Ex-Im or OMB, regardless of what administration is in office, do not misuse the fund, but to instead focus it on really helping our exporters and consistently doing that.

Sixth, it addresses the Ex-Im Bank transaction with Benxi Iron and Steel Company in China. American exporters provided exports to that company which undoubtedly increased that Chinese firm's efficiency in making steel. The gentleman from Pennsylvania (Mr. TOOMEY) has given us an amendment for part of the bill that is a very important advance.

This bill, of course, reauthorizes the bank through September 30 2005. As a result of this provision, the program budget which supports loans, guarantees and insurance products of Ex-Im Bank, is effectively authorized for such sums as are appropriated through fiscal year 2005.

During the subcommittee's first hearing on the subject, the Ex-Im Bank personnel testified that they were in desperate need of technology upgrades which would particularly benefit small business users of the Ex-Im Bank. As a result, this legislation authorizes $80 million for the administrative budget, which includes funding for information technology for fiscal year 2002, and indexes this authorization level for inflation between fiscal year 2003 through 2005. Also, as I mentioned, among other changes, we make important changes to focus the Ex-Im Bank even more on exports to Africa. More detail on that will come out in the ensuing debate on this legislation.

Mr. Chairman, I urge my colleagues to support this legislation. It is reform legislation. It moves us in the right direction.

Mr. OXLEY. Mr. Chairman, I ask unanimous consent that the gentleman from Nebraska (Mr. BEREUTER) be permitted to control the time for general debate on our side.

The CHAIRMAN. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. LAFALCE. Mr. Chairman, I yield 3 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Chairman, I thank the distinguished ranking member for yielding me this time.

Mr. Chairman, let me congratulate the committee and its chairman and subcommittee chair and full committee chair and full committee ranking member, and certainly the gentleman from New York (Mr. LAFALCE), the full committee ranking member, and also as well, the ranking subcommittee member, whose leadership we appreciate greatly. Let me add my support to this legislation today. I think in coming to Congress, coming from Houston, Texas that has one of the largest numbers of consular offices, it has an enormously international community and, as well, it is a community that believes in the opportunities for creating vehicles to create American jobs and, as well, to insist and to help American businesses. That is what Ex-Im Bank, I think, is most successful at. Supporting U.S. jobs through exports is Ex-Im Bank's core mission.

I also want to congratulate the new chairman, Eduardo Aguirre from Houston who I believe will foster that mission and help small and minority businesses access Ex-Im Bank.

Ex-Im Bank is an independent Federal agency that helps to finance the export of American products and services that would otherwise not go forward, and I think that is an important statement, because there is great concern when we begin to talk internationally, it is important for the Nation to understand that this is an advocate for jobs going to Americans, but products and services going internationally. And in its 68-year history, Ex-Im Bank has supported over $400 billion of U.S. exports, sustaining and creating millions of jobs.

One of the other important points is that it sustains and creates thousands and tens upon thousands of jobs, so jobs that are here, it helps to hold them.

It is a great supporter of small businesses, and that is one of the reasons I rise today, because my community, the 18th congressional district, is a community that thrives with small businesses and it is also a community in which I encourage small business to utilize services such as OPIC and Ex-Im Bank.

Ex-Im Bank authorized more than $1.6 billion in support of small business exports, nearly 18 percent of total dollar value of its authorization, and they supported $4 billion in exports during this same time. Ex-Im Bank's dedication to small businesses becomes even more dramatic when we look at the Ex-Im Bank's finance transactions for the year. Ex-Im Bank approved 2,124 small business transactions in fiscal year 2001, 90 percent of their total number of transactions.

That is why I would like to support and agree with the gentleman from New York (Mr. LAFALCE) on the expanded help that this new legislation gives to small businesses, by giving them access to technology resources, giving more funding for technology resources to help small businesses. Then again, I appreciate the fact that there is language that prevents the dumping of foreign products in conflict to our laws, particularly with respect to the steel industry.

Let me just simply say, Mr. Chairman, that this is a bill that helps the continent of sub-Saharan Africa, also wih greater investment for those countries. This is a bill that I believe will help create more jobs.

Might I just conclude by saying that I do believe the amendments by the gentleman from Oregon (Mr. DEFAZIO), the gentleman from Ohio (Mr. KUCINICH), the gentleman from Vermont (Mr. SANDERS) and the gentlewoman from Illinois (Ms. SCHAKOWSKY) will be helpful in the debate and I will be rising to support those amendments as well.

Corporations that benefit from the Ex-Im Bank should not engage in corruption.

Mr. Chairman, I ask my colleagues to support this legislation.

Mr. BEREUTER. Mr. Chairman, it is my pleasure to yield 3 minutes to the gentlewoman from New York (Mrs. KELLY), a small businesswoman herself.

Mrs. KELLY. Mr. Chairman, I thank the gentleman from Nebraska for yielding me this time.

Mr. Chairman, I rise in strong support for H.R. 2871, the Export Import Bank Reauthorization Act. This legislation needs to be passed for one simple reason: saving U.S. jobs.

The core mission of the Ex-Im Bank is support for U.S. jobs. The bank does this by providing credit guarantees for U.S. exports deemed too risky by private lenders. In addition, Ex-Im will make loans, offer financing, and offer insurance on U.S.-made products.

In our global economy, companies must constantly be seeking new markets for our products, and our government must support these efforts, because it supports U.S. jobs. Unfortunately, we do not live in a world in which our trading partners play fair with U.S. businesses and our U.S. businesses must compete with nations which directly subsidize their competitors. In order to add some level of fairness, we created the Ex-Im Bank.

Last year, Ex-Im supported $12.5 billion of U.S. exports. In my area of New York, this translated to over $70 million, which benefited a total of 12 large and small businesses involving thousands of jobs in my district alone, and tens of thousands of jobs in New York State.

As we have heard today, 90 percent of the total number of Ex-Im Bank's transactions were in support of small businesses. This is good, but we must also work to increase the amount of funds which are used by small businesses. In this committee's review of the Ex-Im's performance, we determined that a greater effort must be made to increase the amount of funds which go to these small businesses. Hence, this legislation requires a 10 percent increase in the volume of funds going to small businesses, and that is good for our small businesses in the United States. Ex-Im Bank cannot stop there, however. We have challenged them to go even further.

I strongly support the committee's work to improve the operation of the Tied Aid Credit Program. I believe the changes the committee has made to this program in this bill will permit the program to operate more efficiently and effectively, while maintaining the coequal role of Ex-Im and the Treasury Department.

Ex-Im provides an invaluable service to U.S. workers. Many U.S. products and services would never have been able to find new buyers in the global marketplace without the assistance of the Ex-Im. The international market presents many new problems for the U.S. businesses that are seeking new opportunities, and we have to work to alleviate these problems for U.S. employers, or the incentives to move jobs overseas will only grow and the pressure will be strong. One way we ensure that more products bear the "made in the USA" label abroad is by supporting this legislation. I urge my colleagues on both sides of the aisle to support this legislation.

Mr. LAFALCE. Mr. Chairman, I yield 3 minutes to the distinguished gentleman from Texas (Mr. HINOJOSA).

Mr. HINOJOSA. Mr. Chairman, I thank the gentleman from New York (Mr. LAFALCE) for yielding me this time.

I rise in support of H.R. 2871, the Export Import Bank Reauthorization Act. As a businessman from the United States-Mexico border region, I know how important exports are to our economy and to businesses, both large and small and medium. The Export Import Bank has been an important partner in helping companies find foreign markets and to export their goods.

In the 15th congressional district of Texas that I represent, the Export-Import Bank has provided over $145 million of assistance in the form of loan guarantees, insurance, and working capital. Access to capital means expansion of business firms who create many jobs in neglected regions like mine where the unemployment rate was in double digits for over 3 decades.

The Export-Import Bank is partially responsible for helping reduce the rate from 20 percent to only 10.5 percent in Hidalgo County in south Texas. One company, for example, Hermes Trading Company in Pharr, Texas, is a small company that sells musical instruments. The assistance from the Ex-Im Bank has allowed them to expand their business into new markets, and they have doubled their sales. I agree with the gentleman from New York (Mr. LAFALCE), the ranking member, in his efforts to raise the level of awareness and importance of this important bank.

Mr. Chairman, I urge my colleagues to support this bill and reauthorize the Export Import Bank.

Ms. JACKSON-LEE of Texas. Mr. Chairman, will the gentleman yield?

Mr. HINOJOSA. I yield to the gentlewoman from Texas.

Ms. JACKSON-LEE of Texas. Mr. Chairman, the gentleman mentioned his community that the Export-Import Bank has impacted. I represent a district that has a large percentage of minority businesses and I have seen the impact there.

Does the gentleman believe that this legislation will help generate more opportunities for minority businesses?

Mr. HINOJOSA. Yes, Mr. Chairman, I agree with the gentlewoman. I can tell my colleague that in south Texas, three out of every four businesses are owned by minority businesses and they are benefitting a great deal from this bank.

□ 1115

My region is one of the areas that has grown 48 percent from 1990 to 2000, and has created, with the help of the bank and the Small Business Administration, the Women's Development Center, hundreds of new small businesses, creating four and five jobs in each one, and that is what is helping drive down the unemployment rate to my region.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I know the work the gentleman has done, and I think this new emphasis on small businesses will be very helpful to encourage our minority businesses to utilize this.

I do want to note that the President selected Eduardo Aguirre from my congressional community to be the chairperson, who has a sensitivity to expanding the outreach to small businesses.

I hope that, with the passage of this legislation, we will be able to do more outreach to small businesses and minority businesses to take advantage of helping to create this income trail, if you will, internationally. I thank the gentleman.

Mr. HINOJOSA. I thank the gentlewoman for helping us crystallize the importance of this bank in areas like ours, Houston, and, of course, San Antonio, and the Rio Grande valley of south Texas.

Mr. BEREUTER. Mr. Chairman, it is my pleasure to yield 2 minutes to the gentlewoman from Washington (Ms. DUNN), a member of the Subcommittee on Trade of the Committee on Ways and Means and a person very much involved in exports.

Ms. DUNN. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I rise in support of H.R. 2871, the Export-Import Bank Reauthorization Act. It is a vital program that helps United States exporters compete overseas.

For most United States companies, access to foreign markets is no longer an optional business practice, but it is a necessity in order to survive. To compete and succeed in a global market, U.S. companies must have access to financing resources.

This is exactly why the Export-Import Bank is very important to us. By providing guarantees, loans, and insurance to American companies, the Export-Import Bank helps to reduce the risks involved in exporting and ensure that our exporters have access to credits that may not be available in the private sector.

The Export-Import Bank helps both small and large businesses, as we have already heard in this debate. In 2001, 90 percent of the tax credits, representing 18 percent of the Ex-Im Bank's dollar volume, directly benefited small business; and in my State of Washington, Ex-Im Bank helped 56 small companies export $16.8 million in goods and services over the past 5 years.

Large exporters, like the Boeing Company in Washington State, also benefit from Export-Import Bank. Over the past 5 years, Boeing and its workers have benefited from $19.5 billion of loans for the sales of our aircraft overseas. Traditionally, half of the Boeing aircraft sales are for overseas customers, and this is a trend that will continue, if not increase, in the future.

Of the planes that are sold to foreign airlines, over 20 percent are financed by the Export-Import Bank. This program not only benefits Boeing, but it also benefits thousands of other United States companies that provide supplies and parts needed to manufacture commercial aircraft.

In a State like mine, where one out of three jobs are related to trade, the Ex-Im Bank is critical in keeping Puget Sound businesses competitive overseas while helping to create jobs, those jobs that are so dearly needed to stimulate our economic recovery.

I ask my colleagues to support this fine legislation to reauthorize the Ex-Im Bank.

Mr. LAFALCE. Mr. Chairman, I reserve the balance of my time.

Mr. BEREUTER. Mr. Chairman, it is my pleasure to yield 3 minutes to the distinguished gentleman from Illinois (Mr. MANZULLO), chairman of the Committee on Small Business and a member of the Committee on Financial Services, very much committed and interested in trade issues.

Mr. MANZULLO. Mr. Chairman, our Nation's small manufacturer exporters are hurting across the Nation. The main city in the district I represent, Rockford, Illinois, has an economy based on 35 percent manufacturing, double the average of most U.S. cities. They already experience thin profit margins from stiff foreign competition, both here at home and in markets abroad.

They have a problem with the strong American dollar; and in addition, those who use steel in their production now have to pay up to 30 percent more for the price of this raw material.

There are very few banks that extend international finance; and for those that do, credit standards have tightened over the past year. This is on top of the huge regulatory and tax burden that they already face.

Ex-Im Bank was one of the few government programs that actually serve small businesses. The number of small business exporters increased by more than three-fold between 1987 and 1999, going from 66,000 to 224,000. I am proud the Committee on Financial Services has greatly enhanced more of these loans that will be going to small businesses.

This is not just about money going directly to Boeing to help that company; but when money goes for Boeing aircraft, it goes to 60 subcontractors in the district that I represent that provide $232 million worth of goods and services. That is good news for the employees at Dip Seal Plastics; Wells Manufacturing; Eclipse, Incorporated; and Ipsen International.

There are also some new aspects of Ex-Im financing. United Parcel Service, which has the Midwest hub in Rockford, Illinois, owns a bank, and they are one of the largest volume dealers of export-import financing. UPS helps make the match between the foreign manufacturer and the American company. They do the documentation for financing, if necessary. They will do domestic financing and then factor in the international agreement. If international financing is necessary, they will provide the Ex-Im Bank. They do the collection, and then they do the transportation.

So the Ex-Im Bank provides a very useful tool by which small businesses across the Nation, especially those involved in manufacturing, really have the opportunity in this tremendous economy that we have. With regard to the challenges that face small business people, Ex-Im provides that opportunity to get involved in more exports.

I would respectfully request that the Members will take a look at what is going on with Ex-Im in their home districts and then vote to reauthorize the bill.

Mr. BEREUTER. Mr. Chairman, it is my pleasure to yield 3 minutes to the gentleman from Pennsylvania (Mr. TOOMEY), who has taken an issue, a controversial issue, addressed it by amendment, and dramatically improved this bill.

Mr. LAFALCE. Mr. Chairman, I yield 1 minute to the gentleman from Pennsylvania (Mr. TOOMEY).

The CHAIRMAN. The gentleman from Pennsylvania (Mr. TOOMEY) is recognized for 4 minutes.

Mr. TOOMEY. Mr. Chairman, I thank the distinguished gentlemen for yielding time to me. I also thank the full committee chairman and the full committee ranking member for their important work on this bill.

I really want to commend the gentleman from Nebraska (Mr. BEREUTER) for crafting a very good bill, making Export-Import Bank more accountable to taxpayers.

Specifically, I thank the gentleman from Nebraska for working with me to be sure Export-Import Bank does not reward foreign industries and companies that are in violation with U.S. trade law with money from the pockets of U.S. taxpayers.

As most of us appreciate, the domestic steel industry has simply been devastated by a global steel overcapacity. Since 1997, at least, perhaps further back, the domestic steel industry has been overwhelmed by a flood of imports. Foreign governments subsidize their steel production. That creates overcapacity, which in turn leads to a glut of steel on the international markets. That, of course, depresses prices; and the result has been devastating.

Nobody disputes that this has happened. Our own Commerce Department and the ITC have confirmed this, and the result has been that over 33 American steel companies have been forced into bankruptcy since 1997. Bethlehem Steel, headquartered in my district, filed Chapter 11 last year and joined that long list of companies devastated by this phenomenon.

Of course, the result of all these bankruptcies is an uncertain future, at best, for over 72,000 steelworkers, their communities, and their families. But it has also jeopardized the retirement security of hundreds of thousands of steel retirees, who are also dependent on the continued success of American steel companies for their health care benefits, for their pension. There are tens of thousands of such steel retirees in my district about whom I am very concerned.

Well, despite the recognized problem, widely acknowledged problem of global overcapacity, in early 2000, in the midst of this entire crisis Export-Import Bank granted a loan to a Chinese steel producer, which further increased by 1.5 million metric tons the world's excess steel capacity.

In taking this action, the Export-Import Bank ignored on-the-record objections from the Secretary of the Treasury, the Secretary of Commerce, the Steel Caucus, the entire steel industry. What this tax credit really amounted to was the Ex-Im Bank using American taxpayer dollars to subsidize a foreign company, making a serious American economic problem worse.

That is why I offered my amendment in the Committee on Financial Services, and I am delighted the committee adopted my amendment. The language is in this bill.

What the amendment is is a bipartisan, long-term solution to prevent a similar situation to that loan guarantee that went to the Benxi Iron and Steel Company from ever recurring in steel or any other industry. Specifically, it would prohibit the Export-Import Bank from extending loans to foreign companies that are in violation of U.S. trade law. It would do that by prohibiting the extension of financial assistance to an entity for the production of a product that is subject to a countervailing duty or antidumping order, and it would also prohibit the extension of a loan or guarantee to any entity subject to a definitive conclusion by the ITC under section 201 of our trade laws.

In other words, we would not grant loans to companies that are already proven to be violating U.S. laws and harming American industries.

I think this is a very balanced approach. We worked this out in the committee, discussed various ways of addressing the difficult and challenging issue. We have set a significant hurdle that has to be overcome before this prohibition would be invoked, and I think we have reached a very reasonable conclusion on this.

I appreciate the cooperation on both sides of the aisle, especially from the subcommittee chairman, the gentleman from Nebraska (Mr. BEREUTER). I would also like to thank the American Iron and Steel Institute, the United Steelworkers of America, and the Congressional Steel Caucus for their support of this provision.

Mr. Chairman, I include for the RECORD their letters of support, and I urge my colleagues to support this bill, because this does not merely extend authorization for the Export-Import Bank, but it makes substantive, positive reforms in that authorization.

I would like to commend my colleagues for a job well done.

The material referred to is as follows:

UNITED STEELWORKERS OF AMERICA,
Washington, DC, October 30, 2001.

HOUSE FINANCIAL SERVICES COMMITTEE,
U.S. House of Representatives, Washington, DC.

DEAR REPRESENTATIVE: The United Steelworkers of America wishes to express its support for an amendment to the Export-Import Bank Reauthorization Bill which will be marked up in the Financial Services Committee tomorrow.

This amendment addresses a very serious issue which affects the economic recovery and viability of the America steel industry. First, the amendment would prohibit Ex-Im Bank loans and guarantees to companies found to be in violation of U.S. trade laws. Second, the amendment would prohibit any transaction which adds to the production of a product in oversupply where the U.S. government has determined that there is a glut of imports causing serious domestic injury.

In December, 2000, the Ex-Im Bank approved a loan guarantee for a project which will increase China's hot-rolled steel capacity at the Benxi Iron and Steel Company by 1.5 million metric tons. This action was taken by the Bank at a time when the Organization for Economic Co-Operation and Development (OECD) has found over 300 million tons of excess steelmaking capacity worldwide. China is already the largest steel producer in the world.

The American steel industry and our steelworkers are reeling from a collapse in domestic steel prices directly attributable to the flood of foreign steel being imported to the U.S., including foreign steel which has been "dumped" into the U.S. market in violation of our trade laws. Since 1998, 23 American steel companies have filed for bankruptcy. Six of these have ceased operations. Some 27,000 steelworkers have lost their jobs.

The Ex-Im Bank's loan to China is an example of gross insensitivity to the plight of American steel companies and steelworkers. We urge you to vote for the amendment when it comes up for a vote.

Sincerely,

WILLIAM J. KLINEFELTER,
Assistant to the President, Legislative and Political Director.

AMERICAN IRON AND STEEL INSTITUTE,
Washington, DC, September 19, 2001.

PLEASE SUPPORT THE TOOMEY AMENDMENT TO H.R. 2871, THE EXPORT-IMPORT REAUTHORIZATION BILL.

TO: MEMBERS OF THE SUBCOMMITTEE ON INTERNATIONAL MONETARY POLICY AND TRADE.

Background: In December 2000, the Export-Import Bank (EXIM) approved a loan guarantee for a project that will increase by 1.5 million tons the hot-rolled steel capacity of China. At a time of massive world steel overcapacity and crisis in the U.S. and world steel industry, EXIM made their decision—over the strong objection of the Commerce Department, many Members of Congress and the U.S. steel industry—to provide $18 million in official financing support. While ill-advised, misguided and almost certainly harmful to U.S. industry, the decision was technically permissible under the Bank's authorizing law and its rules of practice.

Situation: On Friday, September 21, the House Subcommittee on International Monetary Policy and Trade will be marking up H.R. 2871, the Export-Import Reauthorization Bill. Representative Pat Toomey (R–PA) will offer an amendment to establish reasonable and adequate safeguards to ensure that the EXIM take into account any serious adverse effect its loans and guarantees would have on U.S. industry and employment.

Argument: While the AISI position on steel project EXIM requests has been shaped by the crisis in the steel sector and by the role of world steel overcapacity in helping to cause the crisis, it is important to understand that AISI is not anti-EXIM. To the contrary, we have always supported—and we continue to support—the authorization and appropriation of adequate EXIM resources to help U.S. manufacturers compete worldwide. We do however have a recognized, persistent problem, which is massive world steel overcapacity, perpetuated and exacerbated by governments assistance for additional, unneeded steel capacity buildups. AISI cannot support taxpayer dollars being used to harm U.S. industry and employment.

Action Requested: Please support Rep. Toomey's amendment to be offered this Friday (September 21) at the Subcommittee markup of H.R. 2871, the Export-Import Reauthorization Bill. Please contact Gregg Richard in Rep. Toomey's Office (x5-6411) for more detailed information.

Thank you for your continued support on behalf of the American steel industry.

ANDREW G. SHARKEY III,
President and CEO.

Mr. BEREUTER. Mr. Chairman, I yield myself 15 seconds.

Mr. Chairman, just one clarification or point for emphasis. The credit instruments of the Export-Import Bank can only go to American exporters in any case; but in the case of the Benxi Steel, the kind of assistance that went to an American exporter ended up helping Benxi Steel. That is something the gentleman's amendment has stopped for all time.

Mr. Chairman, I am pleased to yield 2 minutes to the gentleman from California (Mr. ROHRABACHER), a distinguished member of the House who may have a different view on this.

Mr. LAFALCE. Mr. Chairman, I yield 1 minute to the gentleman from California (Mr. ROHRABACHER).

The CHAIRMAN. The gentleman from California (Mr. ROHRABACHER) is recognized for 3 minutes.

Mr. ROHRABACHER. Yes, I do, Mr. Chairman, have a different view. I rise in strong opposition to reauthorizing the Export-Import Bank.

We in Congress have had little hesitation to get ordinary American citizens off of welfare after 5 years, but we cannot seem to get our biggest corporations off of welfare after 5 years. We authorize the Export-Import Bank.

We just heard an example a moment ago of how our tax dollars were going to destroy American jobs. The last time we reauthorized the Export-Import Bank, we were told that was impossible, that is not what is going on; we are actually subsidizing exports of American goods, and we were not putting people out of work.

Surprise, surprise. After all these years, we find out right here in the debate an example of how Export-Import money has eliminated U.S. jobs. Let me contend that that will still go on and go on.

We keep hearing that the money is going to be going to small businesses, and that never changes. Apparently only 18 percent of the Export-Import Bank loans go to small businesses, or their funds go to small businesses.

Time Magazine suggests that the top five recipients of the Export-Import Bank subsidies receive 60 percent of all funds. Just to let Members know, of those five major recipients, they, in total, have reduced their workforce by 38 percent over the last decade.

Now, why is that? That is because much of the money that we are being told is creating jobs here, that is not creating jobs here. What we are doing is subsidizing and guaranteeing loans for American businesses to set up factories in other countries. That is what is going on.

Many of these loans about so-called selling our own products end up with little clauses in them. They say, yes, we will buy your product, and the Export-Import Bank will actually subsidize it or guarantee the loan, but you are going to have to, in order to sell us the product, build a factory in our country. This is common practice.

So what do we have here? We have a situation where, in the name of selling vacuum cleaners or whatever it is to a country like China, we end up subsidizing the creation of a vacuum factory in China.

□ 1130

And then what do they do? They do not sell those vacuums, by the way, just in China. They end up exporting them to the United States and putting our people out of work. And we just heard an example of how that was happening just a few moments ago by a proponent of this legislation. But that has all been cleared up now. That has not been cleared up. You can mark my words that has not been cleared up. Five years from now we will find lots of other examples of just that very same thing, maybe not the steel industry but other industries.

Come on. It is time to realize that when the government starts giving away money in terms of subsidies and loan guarantees, you are going to have very wealthy and powerful interests manipulating that for their own benefit. And that is what is happening with the Export-Import Bank. Yes, there are a few little guys who get help but the vast majority of funds, not the vast majority of loans, goes to the very wealthiest corporations to create jobs overseas. I am against the Export-Import Bank. Let us not reauthorize it.

Mr. LAFALCE. Mr. Chairman, how much time is remaining?

The CHAIRMAN. The gentleman from New York (Mr. LAFALCE) has 13½ minutes remaining.

Mr. LAFALCE. Mr. Chairman, I yield 3 minutes to the distinguished gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. Mr. Chairman, I appreciate the gentleman's courtesy in permitting me to speak on this bill.

Mr. Chairman, I take modest exception with my colleague from California. Over time the majority of the loans have gone to small business, but at issue for me is not small business, large business, it is whether or not we are going to be able to help American companies penetrate difficult markets around the world. I have had an example in my own community.

We have a company, a freight liner, that is the largest manufacturer of heavy trucks in the country. It employs all union employees, primarily machinists. They are paid family wages in order to do their work. But they are undergoing tough times in Oregon. They have been involved with significant layoffs. They have benefitted from a loan from the Ex-Im Bank to be able to transact a shipment of 10 trucks to Chile, it would not have happened without that loan. It would have gone to somebody else. It kept people in my community working and it helped us penetrate the market.

There are lots of subsidies that we know around the world. In fact, that is one of the problems that American companies face as they attempt to compete internationally, that other countries have subtle ways of subsidizing activities for other companies. This is a way for us to be able to give access to capital for American companies going into tough markets to be able to secure their place in the market place. I would rather, frankly, have the Chinese dealing with Boeing than Airbus. I understand that there is some difficult issues that are going on there.

I listen to some of my friends from the other side of this issue, but it is pretty stark. We are going to be a lot worse off if we are not able to penetrate those markets around the world. I strongly urge that we reauthorize the Ex-Im Bank.

I hope that each year as we come up with issues here that raise questions, there are areas of refinements. I think we ought to increase their sensitivity in terms of the application of those loans to the environment, to worker rights, to be able to make sure that we are targeting where we want it the most. But the Ex-Im Bank, OPIC, these are tools that have made a difference in my community. I have seen it for small and medium size businesses, I have seen it for large businesses that are struggling, when we are trying to compete around the world when we are facing some difficult economic times at home. This is not the time to turn our back on it. I strongly urge support for the legislation.

Mr. BEREUTER. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Texas (Mr. PAUL), a member of the committee.

Mr. PAUL. Mr. Chairman, I thank the gentleman for yielding me time.

Mr. Chairman, we are here today to reauthorize the Export-Import Bank, but it has nothing to do with a bank, do not mislead anybody. This has to do with an agency of the government that allocates credit to special interests and to the benefit of foreign entities. So it is not a bank in that sense. To me it is immoral in the fact that it takes from some who cannot defend themselves to give to the rich who get the benefits. And I just do not see that as being a very good function and a very good program for the U.S. Congress. Besides, I would like to see where somebody gives me the constitutional authority for doing what we do here and we have been doing, of course, for a long time.

But I do not want to talk about the immorality of this so-called bank or the unconstitutionality of it. I want to talk just a second or two about the economics of it. It is really bad economics. It is pointed that it helps a company here or there, but what it has never talked about what you do not see. This is credit allocation.

In order to take billions of dollars and give it to one single company, it is taken out of the pool of funds available. And nobody talks about that. There is an expense. Why would not a bank loan when it is guaranteed by the government? Because it is guaranteed. So if you are a smaller investor or a marginal investor, there is no way that you are going to get the loan. For that investor to get the loan, the interest rates have to be higher.

So it is a form of credit allocation, and it is also a form of protectionism. We do a lot of talk around here about free trade. Of course, there is a lot of tariff activity going on as well, but this is a form of protectionism. Because some argue, well, this company has to compete and another government subsidizes their company so, therefore, we have to compete. So it is competitive subsidization of special interest corporations in order to do this.

Now, it seems strange that we here in the Congress are willing to give the beneficiary China the most number of dollars. They qualify for nearly $6 billion worth of credits. And that just does not seem like the reasonable thing for us to do. So I strongly urge a no vote on this bill.

Mr. Chairman, Congress should reject H.R. 2871, the Export-Import Reauthorization Act, for economic, constitutional, and moral reasons. The Export-Import Bank (Eximbank) takes money from American taxpayers to subsidize exports by American companies. Of course, it is not just any company that receives Eximbank support; the majority of Eximbank funding benefit large, politically powerful corporations.

Enron provides a perfect example of how Eximbank provides politically-powerful corporations competitive advantages they could not obtain in the free market. According to journalist Robert Novak, Enron has received over $640 million in taxpayer-funded "assistance" from Eximbank. This taxpayer-provided largesse no doubt helped postpone Enron's inevitable day of reckoning.

Eximbank's use of taxpayer funds to support Enron is outrageous, but hardly surprising. The vast majority of Eximbank funds benefit Enron-like outfits that must rely on political connections and government subsidies to survive and/or multinational corporations who can afford to support their own exports without relying on the American taxpayer.

It is not only bad economics to force working Americans, small business, and entrepreneurs to subsidize the export of the large corporations: it is also immoral. In fact, this redistribution from the poor and middle class to the wealthy is the most indefensible aspect of the welfare state, yet it is the most accepted form of welfare. Mr. Speaker, it never ceases to amaze me how members who criticize welfare for the poor on moral and constitutional grounds see no problem with the even more objectionable programs that provide welfare for the rich.

The moral case against Eximbank is strengthened when one considers that the government which benefits most from Eximbank funds is communist China. In fact, Eximbank actually underwrites joint ventures with firms owned by the Chinese government! Whatever one's position on trading with China, I would hope all of us would agree that it is wrong to force taxpayers to subsidize in any way this brutal regime. Unfortunately, China is not an isolated case: Colombia and Sudan benefit from taxpayer-subsidized trade, courtesy of the Eximbank!

At a time when the Federal budget is going back into deficit and Congress is once again preparing to raid the Social Security and Medicare trust funds, does it really make sense to use taxpayer funds to benefit future Enrons, Fortune 500 companies, and communist China?

Proponents of continued American support for the Eximbank claim that the bank "creates jobs" and promotes economic growth. However, this claim rests on a version of what the great economist Henry Hazlitt called, the "broken window" fallacy. When a hoodlum throws a rock through a store window, it can be said he has contributed to the economy, as the store owner will have to spend money having the window fixed. The benefits to those who repaired the window are visible for all to see, therefore it is easy to see the broken window as economically beneficial. However, the "benefits" of the broken window are revealed as an illusion when one takes into account what is not seen: the businesses and workers who would have benefited had the store owner not spent money repairing a window, but rather had been free to spend his money as he chose.

Similarly, the beneficiaries of Eximbank are visible to all. What is not seen is the products that would have been built, the businesses that would have been started, and the jobs that would have been created had the funds used for the Eximbank been left in the hands of consumers.

Some supporters of this bill equate supporting Eximbank with supporting "free trade," and claim that opponents are "protectionists" and "isolationists." Mr. Chairman, this is nonsense, Eximbank has nothing to do with free trade. True free trade involves the peaceful, voluntary exchange of goods across borders, not forcing taxpayers to subsidize the exports of politically powerful companies. Eximbank is not free trade, but rather managed trade, where winners and losers are determined by how well they please government bureacrats instead of how well they please consumers.

Expenditures on the Eximbank distort the market by diverting resources from the private sector, where they could be put to the use most highly valued by individual consumers, into the public sector, where their use will be determined by bureaucrats and politically powerful special interests. By distorting the market and preventing resources from achieving their highest valued use, Eximbank actually costs Americans jobs and reduces America's standard of living!

Finally, Mr. Chairman, I would like to remind my colleagues that there is simply no constitutional justification for the expenditure of funds on programs such as Eximbank. In fact, the drafters of the Constitution would be horrified to think the Federal Government was taking hard-earned money from the American people in order to benefit the politically powerful.

In conclusion, Mr. Chairman, Eximbank distorts the market by allowing government bureaucrats to make economic decisions in place of individual consumers. Eximbank also violates basic principles of morality, by forcing working Americans to subsidize the trade of wealthy companies that could easily afford to subsidize their own trade, as well as subsidizing brutal governments like Red China and the Sudan. Eximbank also violates the limitations on congressional power to take the property of individual citizens and use it to benefit powerful special interests. It is for these reasons that I urge my colleagues to reject H.R. 2871, the Export-Import Bank Reauthorization Act.

Mr. LAFALCE. Mr. Chairman, I yield 4 minutes to the distinguished gentlewoman from New York (Mrs. MALONEY).

Mrs. MALONEY of New York. Mr. Chairman, I thank the ranking member from the great State of New York for giving me the time and for his leadership on this important bill.

Mr. Chairman, after a successfully passing two 30-day reauthorizations of the Ex-Im Bank in the last month, I am pleased to rise today to support the reauthorization of the Ex-Im Bank through 2005.

As my colleagues have stated, the Export-Import Bank is a successful government entity that facilitates and supports American business and worker interest by making exports possible to areas of the world that would otherwise be closed to U.S. companies. Through its loan guarantee, insurance and direct lending programs, the Ex-Im Bank supported over $15.5 billion in U.S. exports on a subsidy of $759 million in fiscal year 2000.

While a small fraction of U.S. exports, the bank acts very much as a lender of last resort supporting U.S. exports and U.S. jobs that otherwise would fail to, would go to foreign competitors. The Ex-Im allows U.S. exporters to match competition from foreign export credit agencies. Japan, Germany, France, Canada, and other countries. This support is especially critical in today's global economy which is increasingly dependent on trade.

While the bank is a proven success, the changes in the reauthorization will make a positive impacts on its future. The reauthorization contains new provisions ensuring that Ex-Im complies with U.S. anti-dumping and countervailing duty laws. It includes an amendment I offered in the Committee on Financial Services giving the bank explicit authority to turn down an application for Ex-Im bank support for companies that have a history of engaging and fraudulent business practices. The reauthorization also continues the banks commitment to small business and to working with African countries.

Across the country, Ex-Im Bank support goes to businesses both large and small. In my district, the bank has supported over 70 different businesses with exports valued at over $1 billion since 1995. The work of the Ex-Im Bank is highly complex, and shepherding this reauthorization to the House floor has proven very challenging. I want to compliment the leaders of the Committee on Financial Services for moving the bill to this point today.

The ranking member, the gentleman from New York (Mr. LAFALCE) has been an extremely thoughtful and effective leader on the Democratic side. My good friend and subcommittee chairman, the gentleman from Nebraska (Mr. BEREUTER) and his staff likewise have worked tremendously hard to produce this bill today.

In the hearings we heard testimony from the bank, the business community, labor and environmental organizations. The final product that we are considering today benefitted from all of this input and puts the bank on solid footing for the next 4 years. I further appreciate the work in making sure is that we have a fair rule today, that the Republican party did allow important amendments from the ranking member, the gentleman from Vermont (Mr. SANDERS) and the gentleman from Ohio (Mr. KUCINICH). I believe that that is fair and I support the rule and I support the bill.

The CHAIRMAN. The Chair would announced that the gentleman from Nebraska (Mr. BEREUTER) has 2¼ minutes remaining. The gentleman from New York (Mr. LAFALCE) has 7 minutes remaining.

Mr. BEREUTER. Mr. Chairman, I yield 1½ minutes to the gentleman from California (Mr. GARY G. MILLER) a distinguished member of the committee.

Mr. GARY G. MILLER of California. Mr. Chairman, I would like to acknowledge the gentleman from Nebraska (Mr. BEREUTER) for his efforts on H.R. 2871, the Export-Import Bank Reauthorization Act.

Mr. Chairman, in my opinion, many government programs do not work. However, that is not the case with the Export-Import Bank. Specifically, the Export-Import Bank benefits California. During the fiscal years 1996 to 2000, 722 California companies benefitted, 225 communities benefitted. The value of exports was $8.5 billion from California and there were 120,403 jobs sustained.

Some try to make you believe this only benefits large businesses but that is not the fact. 72 percent of the transactions benefitted small businesses and those are nice figures but let us put a face on those figures.

ZMG Enterprises in Walnut, California owned by Mr. Joe Gomez is a longstanding user of the bank's short term multi-buyer insurance policy to cover to sale of nearly $11 million in annual sales of canned vegetables, fruits and table sauces, primarily to Mexico. Mexico has benefitted on this and we have because our products are going there. Mexico has been a traditional COD country, and the insurance policy backed by the bank enables Mr. Gomez to offer short-term credit to Mexican supermarkets so the grocers can purchase more of his products in a single sale.

That benefits small businesses. And there is an old saying that I really believe in and it boils down to the simple fact that when you help small businesses, you help American.

Mr. LAFALCE. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

Mr. BEREUTER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I would like to make about three points in reference to comments that have been made by members in opposition.

First of all, there is no credit assistance extended by the Ex-Im Bank to a foreign country. They are extended only to American exporters. It happens, in fact, that we have huge market potential in China, so a large number of our people want to export to China, and the kind of products that can be exported is controlled under the Export Administration Act.

Secondly, I would note that 86 percent of all transactions go to small and medium-sized businesses. That is about 18 percent of the total financial assistance from its Ex-Im Bank and we are pushing them to do more and they will.

Finally, I want to say, the gentleman from California (Mr. ROHRABACHER) has kind of turned the argument on the Ex-Im Bank purposes on its head either unintentionally or cleverly. American and other countries' corporations are really footloose today. What this legislation does is give an incentive to Americans to continue to produce the exports here. Instead of moving plants and jobs abroad, they will continue to have an opportunity, under the Export-Import Bank, to compete with foreign countries for those exports and that will keep American jobs here, not send them abroad. It will help keep them here.

We reduce the incentives for American firms to export part of their operations abroad by the passage of this legislation. I ask for my colleagues to give this bill a strong vote of support.

AEROSPACE INDUSTRIES ASSOCIATION, AMERICAN BUSINESS COUNCIL OF THE GULF COUNTRIES, AMT—THE ASSOCIATION FOR MANUFACTURING TECHNOLOGY, BANKERS ASSOCIATION FOR FINANCE AND TRADE, COALITION FOR EMPLOYMENT THROUGH EXPORTS, EMERGENCY COMMITTEE FOR AMERICAN TRADE, INTERNATIONAL ENERGY DEVELOPMENT COUNCIL, NATIONAL ASSOCIATION OF MANUFACTURERS, NATIONAL FOREIGN TRADE COUNCIL, SMALL BUSINESS EXPORTERS ASSOCIATION, U.S. CHAMBER OF COMMERCE, U.S.-CHINA BUSINESS COUNCIL, U.S. COUNCIL FOR INTERNATIONAL BUSINESS, U.S.-RUSSIA BUSINESS COUNCIL,

April 26, 2002.

Re: House action on H.R. 2871, Ex-Im Bank Reauthorization

Hon. DOUG BEREUTER,
2184 RHOB, Washington, DC.

DEAR REPRESENTATIVE BEREUTER: As the House prepares to consider H.R. 2871, to reauthorize the Export-Import Bank, we write to reiterate our strong support for the Bank. Our collective members include many of the U.S. exporters and financial institutions that rely on the Bank as the lender of last resort in meeting the fierce competition for export opportunities in world markets. In FY 2001 alone, the Bank financed some 2,300 export transactions, 90 percent of which were for small and medium-sized firms.

Ex-Im Bank plays a crucial role in supporting the export of American-made goods and American-provided services in markets where commercial financing is difficult to obtain and when foreign competitors have the active support of their governments' export credit agencies. In 2000 alone, the most-active export credit agencies worldwide financed more than $500 billion in exports. Ex-Im Bank financed $15.5 billion in U.S. exports that year.

To deal with this increasingly aggressive foreign competition, H.R. 2871 would authorize the Bank to respond to new export financing programs offered by foreign governments, including so-called "market windows". The bill also provides the Bank with clear authority to use the tied-aid war chest to respond aggressively to foreign governments' use of foreign assistance to supplement their export credit activities (so-called "tied-aid").

It is important to note that Ex-Im charges risk-based interest, premiums and other fees for its loans, loan guarantees and insurance. These fees are paid by exporters, banks and overseas customers. Last year, the Bank's revenues generated a $1 billion net income for the U.S. government. Moreover, the Bank maintains some $10 billion in reserves to protect against the risk of loss. The Bank's conservative lending policies and aggressive loss-recovery efforts have resulted in a very low 1.9 percent historical loss rate.

Amendments of concern

Two amendments may be offered which, in our judgement, would impede the ability of U.S. exporters to effectively utilize the Bank, thus weakening the Bank's programs and causing a loss of U.S. exports and the jobs of American workers. We urge you to oppose these amendments if offered during House floor action:

(1) Rep. Sanders may offer an amendment to deny Ex-Im Bank financing for U.S. companies that are growing internationally. It would make the Bank completely unusable for any U.S. exporter that is succeeding in

world markets. The proposal runs contrary to U.S. trade policy and market-based economic growth. It would make no sense for the Congress to seek open world markets, but then deny U.S. firms access to one of the key tools to take advantage of these new opportunities. Since Ex-Im Bank only finances U.S.-origin goods and services, shutting off the Bank would only result in making the Bank less effective in creating and keeping U.S. jobs here at home.

(2) Rep. Schakowsky may offer an amendment to require a human rights assessment of about 600 export transactions supported by the Bank annually. This proposal is unnecessary because the Export-Import Bank Act already includes a procedure under which the Bank relies on the U.S. State Department for human rights analysis. The amendment would require the Bank to establish an unnecessary new bureaucracy that would duplicate the long-established State Department human rights office. The amendment would require U.S. exporters to submit any proposed transaction over $10 million to a costly and time-consuming notice and comment period, which inevitably would lead to the loss of export sales to our foreign competitors. The current, long-established, process works well to ensure that human rights issues are analyzed by the State Department's experts and included in the Bank's consideration of export transactions.

We urge the House to approve H.R. 2871 and to oppose amendments that would weaken the Bank and impede U.S. exports.

Sincerely,

Don Carlson, President, AMT—The Association for Manufacturing Technology.

Calman J. Cohen, President, Emergency Committee for American Trade.

Timothy E. Deal, Senior Vice President, U.S. Council for International Business.

John W. Douglass, President and CEO, Aerospace Industries Association.

John Hardy, Chairman, Standing Committee, International Energy Development Council.

Robert Kapp, President, U.S.-China Business Council.

Eugene Lawson, President, U.S.-Russia Business Council.

James Morrison, President, Small Business Exporters Association.

John Pratt, Chairman, American Business Council of the Gulf Countries.

William Reinsch, President, National Foreign Trade Council.

Edmund B. Rice, President, Coalition for Employment Through Exports.

Consider W. Ross, Executive Director, Bankers Association for Finance and Trade.

Franklin J. Vargo, Vice President, National Association of Manufacturers.

Willard A. Workman, Senior Vice President, U.S. Chamber of Commerce.

Date: April 30, 2002

To: Members of the United States House of Representatives

From: Donald G. Ogilvie, Executive Vice President, American Bankers Association, Consider W. Ross, Executive Director, Bankers' Association for Finance and Trade

Re: Support H.R. 2871, Export-Import Bank Reauthorization Act

As the House prepares to consider H.R. 2871, the Export-Import Bank Reauthorization Act, we write to urge you to vote for the bill and oppose any amendments that would impede the Bank's ability to assist American exports. The Export-Import Bank is vitally important to our members that finance the sale of U.S. products and services for their exporter customers.

The Export-Import Bank supports only American-made goods and American-supplied services. It is one of the few tools available to help sustain export-related jobs in the United States. Without the Export-Import Bank, the ability of U.S. companies to compete for export sales would be reduced.

Our exporter customers need the Export-Import Bank because overseas companies and banks are aggressively using their export credit agencies to take sales from the United States. Every major trading nation has a government export credit agency. Those agencies together issue more than $500 billion a year in export financing. By contrast, the U.S. Export-Import Bank is small, supporting only $12-15 billion a year in U.S. exports.

The Export-Import Bank is a fee-for-service agency. Fees and interest are paid for the Export-Import Bank support. In the last two years, the Export-Import's revenues have generated a net $1.3 billion surplus for the U.S. Treasury. The Bank has a very low 1.9 percent historical loss rate and has $10 billion in reserves to protect the U.S. taxpayer.

Please support passage of H.R. 2871 so Congress can complete the reauthorization of the Export-Import Bank and help thousands of exporters compete on a more level playing field in world markets.

Mr. RANGEL. Mr. Chairman, H.R. 2871, the Export-Import Reauthorization Act, strengthens an important tool to promote U.S. exports and U.S. jobs. By law, the Export-Import Bank finances only exports made in the United States. In other words, the Bank supports American jobs. Last year, the Bank supported $12.5 billion in U.S. exports, which in turn supported tens of thousands of American jobs. In the 67 years of its existence, the Bank has supported more than $400 billion of U.S. exports and the hundreds of thousands of jobs that depend on those exports.

I would like to note my support for many of the important provisions in the reauthorization. First, I am pleased to see the substantial increase in the Bank's aggregate loan, guarantee, and insurance authority. Second, I am particularly happy to see the new provisions creating an Office of Africa within the Bank to promote exports to sub-Saharan Africa. The Export-Import Bank's role in recent years in strengthening the role and expanding the opportunities for U.S. business in sub-Saharan Africa, particularly in the wake of passage in 2000 of the African Growth and Opportunity Act, has been critical. Third, I am pleased to see the required increases in the Bank's lending to small businesses, which often have difficulty accessing foreign markets.

The Export-Import Bank is also important to help U.S. companies compete abroad. The export banks in many other countries—including Canada, the European countries, and Japan—often provide much higher levels of assistance to exporters from those countries. If U.S. firms and their workers did not have the Export-Import Bank, they would be at a real disadvantage when competing in the international marketplace. Moreover, the Export-Import Bank does its job efficiently. It is a fee-for-service agency. In the last two years, the Bank's revenues have generated a net $1.3 billion surplus for the U.S. Treasury.

In conclusion, the Export-Import Bank helps American exports and it helps American jobs. We can debate about whether or not there are some things wrong with U.S. trade policy, but the Export-Bank is not one of them. I support its activities and I urge my colleagues to do the same.

Mr. BLUMENAUER. Mr. Chairman, one of my priorities in Congress is strengthening the economies of my community and of nations around the world. By supporting HR 2897, I support an institution that provides assistance to businesses who often operate in riskier markets where financing is not available from private banks.

The Bank has a strong record of supporting U.S. businesses. In FY2001, Export-Import Bank (Ex-Im Bank) supported over $12.5 billion in U.S. exports to markets worldwide. Some critics argue that these loans primarily benefited large multinational corporations, however, in reality the majority of the Bank's transactions—9 out of 10—benefited small businesses.

The fact is that each year more than 2,000 American companies—large, medium, and small—in almost every state utilize Ex-Im Bank services. One of these small businesses in my district is Oxis International, Inc.—a manufacturer of medical diagnostic equipment used to test levels of therapeutic drugs in the blood. Oxis used Ex-Im Bank's multibuyer short-term insurance policy for almost five years, and the company's exports grew from one-third to approximately one-half of sales. According to Jon Pitcher, chief financial officer of Oxis International, Inc. "As a result of using Ex-Im Bank's insurance policy, we have been able to increase our sales, and these exports are now the fastest-growing part of our business."

In another instance, Pacific/Hoe Saw and Knife Company of Portland, a manufacturer of saw blades, industrial saws, and wholesale sawmill equipment, has used Ex-Im Bank's multibuyer short-term (up to 180 days) insurance policy for 10 years to increase sales to South America, Africa, Asia, Australia, and New Zealand. Following this successful trend, last September Portland's Calbag Metal Company recently paid off their $50 million loan to the Ex-Im bank on schedule. Finally Freightliner LLC—a heavy-duty truck manufacturer that employs 14,000 people—benefited from a guarantee that made it possible for Freightliner to transport ten trucks to Santiago, Chile where they were sold. The prices for these trucks would have likely been undercut, the trucks never shipped, and the jobs associated with building the trucks never allocated, if Ex-Im Bank did not assist Freightliner.

Overall, the past five years Ex-Im Bank has supported $190 million in exports for companies like Freightliner, Oxis, Calbag Metals, Pacific/Hoe Saw and Knife Company that are based in Oregon. A closure of the bank would feasibly reduce these companies' exports, jeopardize the jobs that are associated with those sales, and make them unable to counter export financing packages provided by foreign governments to their own exporters.

I withhold my support of the Sanders Amendment. This provision naively assumes that firms produce only one product when in reality many corporations produce a variety of products that affect employment levels across product lines in different ways. Because

Freightliner, for example, is a subsidiary of DaimlerChrysler, the amendment would make Freightliner ineligible for Bank funding if a greater percentage of their truck machinists are laid off in Portland than those who build Mercedes-Benz's in Brazil. Clearly the semi-truck market and the luxury automobile market are not related and should not be irrationally penalized.

I urge my colleagues to support the overall bill. It helps strengthen American businesses, create jobs, and improve critical trade relations with foreign markets.

Mr. WATTS of Oklahoma. Mr. Chairman, I rise in support of H.R. 2871 the Export-Import Bank Reauthorization Act. I would like to commend Mr. OXLEY, the Chairman of the Financial Services Committee, and Mr. LAFALCE, the Ranking Member, and also the sponsor, Mr. BEREUTER, for crafting a bill that reauthorizes the Export-Import Bank, with several significant improvements, and thereby enhances American competitiveness in the global marketplace.

It is our responsibility in the U.S. Congress to foster an environment where business, and therefore the nation's economy, can flourish. The Importance of foreign trade to the U.S. economy and its impact on American jobs is clear. The Export-Import Bank plays a critical role in enabling our businesses to compete more effectively overseas. In fact, according to USA Exports, a Coalition for Employment through Exports, "Ex-Im Bank returns to the U.S. economy an average of $18 of export value for every $1 appropriated by the U.S. Congress—a true "bang for the buck."

One element of this bill that I strongly support is the emphasis on small business. Small business is the major job creator in America, and it is where minorities and women are making their greatest economic advances. In Oklahoma we call Small Business—Big Business. Enabling such companies to engage in foreign trade benefits the nation.

In addition, Mr. Chairman, I strongly support the provision to create an Office for Africa at the Export-Import Bank. Africa faces daunting challenges. But during my two trips to the region last year, with representatives of more than 30 U.S. companies, under the auspices of the Trade-Aid Coalition, we witnessed significant efforts in several countries to build an economic infrastructure. This foundation is essential to future growth, and is based on their evolving appreciation for the principles of open markets, free trade, and private enterprise. Fostering this appreciation is the goal of the Trade-Aid Coalition. And the efforts of U.S. business, supported by the Export-Import Bank, to trade with these nations reinforce these positive developments.

I do understand that there is not unanimous agreement on all aspects of this bill. It is my understanding that the current bill language would remove the Treasury Department's ability to direct how funds for the Tied Aid War Chest should be used. The Treasury Department has used the Tied Aid War Chest since 1986 to successfully reduce subsidies by other governments.

This has saved taxpayers hundreds of millions of dollars and has helped increase U.S. exports by an average of over $1 billion dollars a year. It is my understanding that the Senate bill preserves the Treasury's role in using the Tied Aid War Chest. I would urge that in conference we find a satisfactory compromise that protects the interests of U.S. taxpayers and does not undermine the Treasury's ability to fight foreign subsidies or other trade distorting measures.

Mr. Chairman, as our nation adjusts to a changing world after September 11, we face two inescapable facts: First, we must focus on economic security, by working to ensure a strong economy that creates jobs for the American people. Second, we must reach out to developing nations across the globe, often beset by forces of terror, and demonstrate how free markets, open trade, and private enterprise under the rule of law can lead to prosperity for their citizens. Our national security improves when global stability prevails.

Reauthorizing the Export-Import Bank helps accomplish both of these goals, and I encourage my colleagues to vote "yes."

Ms. VELAZQUEZ. Mr. Chairman, I rise in support of H.R. 2871, the Export-Import Bank Reauthorization Act of 2001.

When people think of American exports, most think of the cars, computers, machinery and agricultural products made by major American corporations. But this perception is only part of the reality. Just as small businesses set the pace for the American economy, they also are pioneers in international trade.

In fact, 88 percent of American exporters are small businesses with fewer than 100 employees. That statistic, while impressive, does not tell the whole story. The Department of Commerce also estimates that only 2 percent of small manufacturers with export potential actually engage in trade. Clearly, a great potential for expanding trade opportunities exists with the many small businesses that may want to export but are intimidated by those prospects.

The Export-Import Bank is one of the most powerful tools that we have for growing the number of small business exporters. The export loans and insurance programs provided by the Ex-Im Bank help to reduce both anxiety and economic risk for potential small business exporters.

Since the Bank was established in 1945, it has supported billions of dollars in small business exports. Last year, the Bank supported $1.6 billion in small business exports in 2,124 transactions. This represented almost 18 percent of the total export loan volume and over 90 percent of total trade transactions. More importantly, the Bank supported over $32 million in exports by women-owned businesses and $34 million in exports by minority-owned businesses.

While these are impressive achievements, more can—and should—be done. The bill that we are considering this afternoon is a step in the right direction. It would increase the target for small business loan volume from 10 percent to 20 percent and create an office within the Bank that is dedicated to making small business loans. Lastly, H.R. 2871 would authorize an additional $1 million to increase its small business marketing activities.

Ex-Im Bank has had great success marketing its programs to small businesses. This bill will go even further by recognizing those gains while providing the Bank with a renewed small business emphasis and additional resources to expand this mission.

While this bill will go a long way to increasing the Bank's focus on small business exporters, it is only one step in the right direction. We need to work with the Bank to improve service on small business transactions.

Small businesses are particularly sensitive to delays in closing deals. A three-week delay in obtaining transaction financing can be the difference between a successful sale and a missed opportunity. Through the creation of a small business office in the Bank, we will need to continue to monitor how well small business needs are met.

To this end, we will need to harmonize the Capital Guarantee programs of both the Ex-Im Bank and the Small Business Administration. There is no reason that these programs, which can operate as one, should be crushed by the weight of different rules, applications, uses, and lenders. Two similar but competing programs only will confuse the small business exporter. In the coming year, I hope to resolve the twin problems of expedited service and harmonization of the capital guarantee programs.

I appreciate the opportunity to speak in favor of this important legislation. It is hard to underestimate the impact that small businesses have in both the domestic and international marketplace, and this bill is a huge leap in the right direction toward supporting further small business participation in the global marketplace.

Mr. BENTSEN. Mr. Chairman, I rise today in strong support of H.R. 2871, the Export-Import (Ex-Im) Bank Reauthorization Act. As a senior member of the House Financial Services Committees, I believe we need to act to ensure that Ex-Im bank can continue to operate to ensure the U.S. companies can export their products and services to foreign countries. I believe that this legislation is necessary to ensure the American companies enjoy the same export financing that other nations provide for their companies.

In 2000, the Ex-Im bank helped to provide $12.6 billion in loans, guarantees, and insurance for the export of the U.S.-made goods and services which is equal to approximately 2 percent of U.S. exports annually. In my congressional district, the Ex-Im bank has helped to finance more than $130 million in projects during the past five years. I am particularly pleased that this financing has helped many small businesses in my district to sell their products and services to foreign nations. For example, Hickham Industries in LaPorte, Texas is using an Ex-Im bank loan and guarantees to sell $226,000 worth of their products to other nations. I also believe it is important to highlight that none of these financial mechanisms are available through our capital markets. By law, the Ex-Im bank is the leader of last resort, when no other commercial entity will help with a project.

I also want to highlight several reforms included in this legislation to improve the Ex-Im Bank. For instance, this legislation would establish an Office of Small Business Exporters so small businesses could go directly to one location within the Ex-Im bank to explore financing options. This Office would be required to conduct outreach to small businesses. In addition, this bill requires the Ex-Im bank to provide at least 8 percent of their financing to small businesses with less than 100 employees and encourages the Ex-Im bank to increase its percentage of small business transactions from 10 percent to 20 percent. In addition, this legislation direct the Ex-Im bank to make certain technology improvements so small businesses can better access information about the Ex-Im bank using the Internet and other technologies.

This measure also included critically important provisions to ensure that Ex-Im bank financing is not used in industries which are subject to a countervailing duty or anti-dumping duty under U.S. trade laws. We must ensure that the taxpayers funds are not used to supersede our trade laws. This bill also encourages the Ex-Im bank to evaluate whether a nation has been helpful in our efforts to eradicate terrorism. I believe that all of these reforms will enhance the Ex-Im bank.

By targeting financing gaps and officially supported competition, the Ex-Im Bank supports export sales that otherwise could not move forward. These export sales expand employment in sectors where jobs are among the highest paid in the country, and has an important effect on the overall strength of our economy. I urge my colleagues to support this legislation which helps to create jobs an expands the markets for U.S.-made products.

Mrs. ROUKEMA. Mr. Chairman, I have been a strong supporter of the Ex-Im Bank since coming to Congress in 1981. The Bank plays a very significant role in US trade policy. It ensures that US businesses will not be denied access to overseas markets because of market imperfections that prevent them from obtaining financing from the private sector or because of unfair competition from foreign export agencies. Ex-Im has initiated thousands of transactions in foreign markets that commercial banks deem too risky to enter. Because of the Ex-Im, U.S. businesses export more goods and develop new and stronger trading relationships abroad. More intense need now in our global incoming and with Trade Promotion Authority currently ready for authorization.

The world of finance and the international trading system are changing fast. Other countries are finding more sophisticated ways of assisting their exporters and new financing mechanisms are being developed. Instead of placing restrictions on the Ex-Im and cutting its funding, we should be working to enhance the banks capabilities to assist business abroad by making sure they have the tools necessary to assist US exporters in this changing global economy.

In fiscal year 2001 Ex-Im Bank financed nearly $12.5 billion of US exports world wide which supported millions of US jobs. Nearly 90 percent of Ex-Im Bank's transaction in fiscal year 2001 was on behalf of small businesses.

In New Jersey alone, the Ex-Im Bank has suppported over 214 companies and 138 communities. It is estimated that over 44,974 jobs are sustained by Ex-Im efforts. For example, JB Williams Company located in Glen Rock, New Jersey, is a small, 45-employee manufacturer of specialty soaps and bath products that has been using Ex-Im Bank's short-term export credit insurance sine 1998 to expand its exports to Saudi Arabia, Poland, Korea, Colombia, and other countries.

H.R. 2871, the Export-Import Bank Reauthorization Act of 2001, extends the charter of the U.S. Export-Import Bank for 4 years and creates offices on Small Business Exporters and on Africa within the Bank. The legislation also increases the value of transactions that the Bank can hold in its portfolio at any time, raises the percentage of small business transactions the Bank should pursue, and improves the operation of the Tied Aid Credit Program. This measure further mandates that the Bank take into consideration U.S. trade laws when considering a transaction, examine whether a recipient company has been involved in any corrupt practices prior to a transaction's approval, and assess whether a country has been helpful or unhelpful in U.S. efforts to combat terrorism.

The Financial Services Committee authorized an increase in the administrative expenses of Ex-Im to $80 million adjusted annually for inflation. This budgetary increase was deemed necessary for Ex-Im to retain qualified staff, to improve its technology infrastructure and increase outreach to small businesses. The mandate for small business activity will be raised from 10 percent to 20 percent of the total value of Ex-Im transactions, with 8 percent of the total going to businesses with less than 100 employees. H.R. 2871 also raises the level of total Ex-Im portfolio (loans guarantees, and insurance) outstanding at any one time from the current level of $75 billion to $130 billion by FY 2005.

Consistent with and supplemental to the trade bills we have "Fast Track" better known as Trade Promotion Authority.

The Ex-Im Bank improves America's competitiveness overseas promotes small business and creates and sustains U.S. jobs. I urge my colleagues to support HR 2871, the Export Import Bank Reauthorization Act.

Mr. SHAYS. Mr. Chairman, I rise in support of reauthorizing the Export-Import Bank.

Exports are an extremely vital part of our nation's economic well-being. The Export-Import Bank is a relatively modest investment that promotes U.S. businesses abroad and creates jobs back home.

With financing moving across borders faster and faster and more frequently than at any time in history, and with every corner of the world touched by globalization, Ex-Im helps U.S. businesses stay connected to emerging markets they would otherwise have difficulty reaching.

For a variety of reasons, from currency devaluation to political instability, U.S. firms find it difficult to secure financing for these markets. Private-sector lenders, perceiving a risk, are oftentimes reluctant to provide long-term financing to emerging markets and to support small business exports. This is unfortunate because nearly 90 percent of the world's population is in these countries, and this is where the greatest increase in economic growth will occur.

That's where the Ex-Im Bank steps in. The agency acts as a "lender of last resort," allowing U.S. goods to access hard-to-reach markets. It places an emphasis on small business exports, and today's legislation raises the statutory requirement for small business financing from a minimum of 10 percent of Ex-Im's activities to 20 percent.

Mr. Chairman, last year, Ex-Im Bank authorized $9.2 billion in loans, guarantees and export credit insurance, supporting $12.5 billion of U.S. exports. I urge my colleagues to support this reauthorization bill, so we can continue to expand U.S. exports and promote economic growth.

Mr. BEREUTER. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. All time for general debate has expired.

Pursuant to the rule, the committee amendment in the nature of a substitute printed in the bill shall be considered as an original bill for the purpose of amendment under the 5-minute rule and shall be considered read.

The text of the committee amendment in the nature of a substitute is as follows:

H.R. 2871

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Export-Import Bank Reauthorization Act of 2001".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Clarification that purposes include United States employment.
Sec. 3. Extension of authority.
Sec. 4. Administrative expenses.
Sec. 5. Increase in aggregate loan, guarantee, and insurance authority.
Sec. 6. Activities relating to Africa.
Sec. 7. Small business.
Sec. 8. Technology.
Sec. 9. Tied Aid Credit Fund.
Sec. 10. Expansion of authority to use Tied Aid Credit Fund.
Sec. 11. Renaming of Tied Aid Credit Program and Fund as Export Competitiveness Program and Fund.
Sec. 12. Annual competitiveness report.
Sec. 13. Renewable energy sources.
Sec. 14. GAO reports.
Sec. 15. Human rights.
Sec. 16. Steel.
Sec. 17. Correction of references.
Sec. 18. Authority to deny application for assistance based on fraud or corruption by the applicant.
Sec. 19. Consideration of foreign country helpfulness in efforts to eradicate terrorism.
Sec. 20. Outstanding orders and preliminary injury determinations.
Sec. 21. Sense of the Congress relating to renewable energy targets.

SEC. 2. CLARIFICATION THAT PURPOSES INCLUDE UNITED STATES EMPLOYMENT.

Section 2(a)(1) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(a)(1)) is amended by striking the 2nd sentence and inserting the following: "The objects and purposes of the Bank shall be to aid in financing and to facilitate exports of goods and services, imports, and the exchange of commodities and services between the United States or any of its territories or insular possessions and any foreign country or the agencies or nationals of any such country, and in so doing to contribute to the employment of United States workers. To further meet the objective set forth in the preceding sentence, the Bank shall ensure that its loans, guarantees, insurance, and credits are contributing to maintaining or increasing employment of United States workers.".

SEC. 3. EXTENSION OF AUTHORITY.

Section 7 of the Export-Import Bank Act of 1945 (12 U.S.C. 635f) and section 1(c) of Public Law 103–428 (12 U.S.C. 635 note; 108 Stat. 4376) are each amended by striking "2001" and inserting "2005".

SEC. 4. ADMINISTRATIVE EXPENSES.

(a) LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS.—Section 3 of the Export-Import Bank Act of 1945 (12 U.S.C. 635a) is amended by adding at the end the following:

"(f) LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS FOR ADMINISTRATIVE EXPENSES.—

"(1) IN GENERAL.—For administrative expenses incurred by the Bank, including technology-related expenses to carry out section 2(b)(1)(E)(x), there are authorized to be appropriated to the Bank not more than—

"(A) for fiscal year 2002, $80,000,000; and

"(B) for each of fiscal years 2003 through 2005, the amount authorized by this paragraph to be appropriated for the then preceding fiscal year, increased by the inflation percentage (as defined in section 6(a)(2)(B)) applicable to the then current fiscal year.

"(2) OUTREACH TO SMALL BUSINESSES WITH FEWER THAN 100 EMPLOYEES.—Of the amount appropriated pursuant to paragraph (1), there shall be available for outreach to small business concerns (as defined under section 3 of the Small Business Act) employing fewer than 100 employees, not more than—

"(A) $2,000,000 for fiscal year 2002; and

"(B) for each of fiscal years 2003 through 2005, the amount required by this paragraph to be made available for the then preceding fiscal year, increased by the inflation percentage (as defined in section 6(a)(2)(B)) applicable to the then current fiscal year.".

(b) REQUIRED BUDGET SUBCATEGORIES.—Section 1105(a) of title 31, United States Code, is amended by adding at the end the following:

"(34) with respect to the amount of appropriations requested for use by the Export-Import Bank of the United States, a separate statement of the amount requested for its program budget, the amount requested for its administrative expenses, and of the amount requested for its administrative expenses, the amount requested for technology expenses and the amount requested for expenses for outreach to small business concerns (as defined under section 3 of the Small Business Act) employing fewer than 100 employees.".

(c) SENSE OF THE CONGRESS ON THE IMPORTANCE OF TECHNOLOGY IMPROVEMENTS.—

(1) FINDINGS.—The Congress finds that—

(A) the Export-Import Bank of the United States is in great need of technology improvements;

(B) part of the amount budgeted for administrative expenses of the Export-Import Bank is used for technology initiatives and systems upgrades for computer hardware and software purchases;

(C) the Export-Import Bank is falling behind its foreign competitor export credit agencies' proactive technology improvements;

(D) small businesses disproportionately benefit from improvements in technology;

(E) small businesses need Export-Import Bank technology improvements in order to export transactions quickly, with as great paper ease as possible, and with a quick Bank turn-around time that does not overstrain the tight resources of such businesses;

(F) the Export-Import Bank intends to develop a number of e-commerce initiatives aimed at improving customer service, including web-based application and claim filing procedures which would reduce processing time, speed payment of claims, and increase staff efficiency;

(G) the Export-Import Bank is beginning the process of moving insurance applications from an outdated mainframe system to a modern, web-enabled database, with new functionality including credit scoring, portfolio management, work flow and e-commerce features to be added; and

(H) the Export-Import Bank wants to continue its e-commerce strategy, including web site development, expanding online applications and establishing a public/private sector technology partnership.

(2) SENSE OF THE CONGRESS.—The Congress emphasizes the importance of technology improvements for the Export-Import Bank of the United States, which are of particular importance for small businesses.

SEC. 5. INCREASE IN AGGREGATE LOAN, GUARANTEE, AND INSURANCE AUTHORITY.

Section 6(a) of the Export-Import Bank Act of 1945 (12 U.S.C. 635e(a)) is amended to read as follows:

"(a) LIMITATION ON OUTSTANDING AMOUNTS.—

"(1) IN GENERAL.—The Export-Import Bank of the United States shall not have outstanding at any one time loans, guarantees, and insurance in an aggregate amount in excess of the applicable amount.

"(2) APPLICABLE AMOUNT.—

"(A) IN GENERAL.—In paragraph (1), the term 'applicable amount' means—

"(i) during fiscal year 2002, $100,000,000,000, increased by the inflation percentage applicable to fiscal year 2002;

"(ii) during fiscal year 2003, $110,000,000,000, increased by the inflation percentage applicable to fiscal year 2003;

"(iii) during fiscal year 2004, $120,000,000,000, increased by the inflation percentage applicable to fiscal year 2004; and

"(iv) during fiscal year 2005, $130,000,000,000, increased by the inflation percentage applicable to fiscal year 2005.

"(B) INFLATION PERCENTAGE.—For purposes of subparagraph (A) of this paragraph, the inflation percentage applicable to any fiscal year is the percentage (if any) by which—

"(i) the average of the Consumer Price Index (as defined in section 1(f)(5) of the Internal Revenue Code of 1986) for the 12-month period ending on December 31 of the immediately preceding fiscal year; exceeds

"(ii) the average of the Consumer Price Index (as so defined) for the 12-month period ending on December 31 of the 2nd preceding fiscal year.

"(3) SUBJECT TO APPROPRIATIONS.—All spending and credit authority provided under this Act shall be effective for any fiscal year only to such extent or in such amounts as are provided in appropriation Acts.".

SEC. 6. ACTIVITIES RELATING TO AFRICA.

(a) EXTENSION OF ADVISORY COMMITTEE FOR SUB-SAHARAN AFRICA.—Section 2(b)(9)(B)(iii) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(9)(B)(iii)) is amended by striking "4 years after the date of enactment of this subparagraph" and inserting "on September 30, 2005".

(b) COORDINATION OF AFRICA ACTIVITIES.—Section 2(b)(9)(A) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(9)(A)) is amended by inserting ", in consultation with the Department of Commerce and the Trade Promotion Coordinating Council," after "shall".

(c) CONTINUED REPORTS TO THE CONGRESS.—Section 7(b) of the Export-Import Bank Reauthorization Act of 1997 (12 U.S.C. 635 note) is amended by striking "4" and inserting "8".

(d) CREATION OF OFFICE ON AFRICA.—Section 3 of the Export-Import Bank Act of 1945 (12 U.S.C. 635a) is further amended by adding at the end the following:

"(g) OFFICE ON AFRICA.—

"(1) ESTABLISHMENT.—There is established in the Bank an Office on Africa.

"(2) FUNCTION.—The Office on Africa shall focus on increasing Bank activities in Africa and increasing visibility among United States companies of African markets for exports.

"(3) REPORTS.—The Office on Africa shall, from time to time not less than annually, report to the Board on the matters described in paragraph (2).".

SEC. 7. SMALL BUSINESS.

(a) IN GENERAL.—Section 2(b)(1)(E)(v) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(1)(E)(v)) is amended—

(1) by striking "10" and inserting "20"; and

(2) by inserting ", and from such amount, not less than 8 percent of such authority shall be made available for small business concerns employing fewer than 100 employees" before the period.

(b) OUTREACH TO BUSINESSES OWNED BY SOCIALLY DISADVANTAGED INDIVIDUALS OR WOMEN.—Section 2(b)(1)(E)(iii)(II) of such Act (12 U.S.C. 635(b)(1)(E)(iii)(II)) is amended by inserting after "Bank" the following: ", with particular emphasis on conducting outreach and increasing loans to businesses not less than 51 percent of which are directly and unconditionally owned by 1 or more socially disadvantaged individuals (as defined in section 8(a)(5) of the Small Business Act) or women,".

(c) OFFICE FOR SMALL BUSINESS EXPORTERS.—Section 3 of such Act (12 U.S.C. 635a) is further amended by adding at the end the following:

"(h) OFFICE FOR SMALL BUSINESS EXPORTERS.—

"(1) ESTABLISHMENT.—There is established in the Bank an Office for Small Business Exporters.

"(2) FUNCTION.—The Office for Small Business Exporters shall focus on increasing Bank activities to enhance small business exports and to meet the unique trade finance needs of small business exporters.

"(3) REPORTS.—The Office for Small Business Exporters shall, from time to time not less than annually, report to the Board on the how the Office for Small Business Exporters is achieving the goals as described in paragraph (2).

"(4) SENSE OF CONGRESS.—It is the sense of the Congress that the Bank should redirect and prioritize existing resources and personnel to establish the Office for Small Business Exporters.".

SEC. 8. TECHNOLOGY.

(a) SMALL BUSINESS.—Section 2(b)(1)(E) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(1)(E)) is amended by adding at the end the following:

"(x) The Bank shall implement technology improvements which are designed to improve small business outreach, including allowing customers to use the Internet to apply for all Bank programs.".

(b) ELECTRONIC TRACKING OF PENDING TRANSACTIONS.—Section 2(b)(1) of such Act (12 U.S.C. 635(b)(1)) is amended by adding at the end the following:

"(J) The Bank shall implement an electronic system designed to track all pending transactions of the Bank.".

(c) REPORTS.—

(1) IN GENERAL.—During each of fiscal years 2002 through 2005, the Export-Import Bank of the United States shall submit to the Committees on Financial Services and on Appropriations of the House of Representatives and the Committees on Banking, Housing, and Urban Affairs and on Appropriations of the Senate an interim report and a final report on the efforts made by the Bank to carry out subsections (E)(x) and (J) of section 2(b)(1) of the Export-Import Bank Act of 1945, and on how the efforts are assisting small businesses.

(2) TIMING.—The interim report required by paragraph (1) for a fiscal year shall be submitted April 30 of the fiscal year, and the final report so required for a fiscal year shall be submitted on November 1 of the succeeding fiscal year.

SEC. 9. TIED AID CREDIT FUND.

(a) PROCESS AND STANDARDS.—Section 10(b) of the Export-Import Bank Act of 1945 (12 U.S.C. 635i–3(b)) is amended—

(1) in paragraph (2)(A), by striking "Secretary's recommendations" and all that follows and inserting "process and standards developed pursuant to paragraph (5);"; and

(2) by adding at the end the following:

"(5) PROCESS AND STANDARDS GOVERNING USE OF THE FUND.—

"(A) IN GENERAL.—The Secretary shall develop a process for, and the standards to be used in, determining how the amounts in the Tied Aid Credit Fund could be used most effectively and efficiently to carry out the purposes of subsection (a)(6).

"(B) CONTENT OF PROCESS AND STANDARDS.—

"(i) CONSIDERATION OF CERTAIN STANDARDS.—In developing the standards referred to in subparagraph (A), the Secretary shall consider administering the Tied Aid Credit Fund in accordance with the following standards:

"(I) The Tied Aid Credit Fund will be used to counter a foreign tied aid credit confronted by a United States exporter when bidding for a capital project.

"(II) Credible information about an offer of foreign tied aid will be required before the Tied Aid Credit Fund is used to offer specific terms to match such an offer.

"(III) The Tied Aid Credit Fund will be used to enable a competitive United States exporter to pursue further market opportunities made possible by the use of the Fund.

"(IV) Each use of the Tied Aid Credit Fund will be in accordance with the Arrangement unless a breach of the Arrangement has been committed by a foreign export credit agency.

"(V) The Tied Aid Credit Fund will be used to defend potential sales by United States companies to a project that is environmentally sound.

"(VI) The Tied Aid Credit Fund will be used to preemptively counter potential foreign tied aid offers without triggering foreign tied aid use.

"(ii) LIMITATION.—The process and standards referred to in subparagraph (A) shall not result in the Secretary having the authority to veto a specific deal.

"(C) INITIAL REPORT.—As soon as is practicable but not later than 6 months after the date of the enactment of this paragraph, the Secretary shall submit to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report on the process and standards developed pursuant to subparagraph (A).

"(D) TRANSITIONAL STANDARDS.—The standards set forth in subparagraph (B)(i) shall govern the use of the Tied Aid Credit Fund until the report required by subparagraph (C) is submitted.

"(E) UPDATE AND REVISION; REPORTS.—The Secretary should update and revise, as needed, the process and standards developed pursuant to subparagraph (A), and, on doing so, shall submit to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report on the process and standards so updated and revised.".

(b) RECONSIDERATION OF BOARD DECISIONS ON USE OF FUND.—Section 10(b) of such Act (12 U.S.C. 635i–3(b)) is further amended by adding at the end the following:

"(6) RECONSIDERATION OF DECISIONS.—

"(A) IN GENERAL.—Taking into consideration the time sensitivity of transactions, the Board of Directors of the Bank shall expeditiously reconsider a decision of the Board to deny an application of the use of the Tied Aid Credit Fund if the applicant submits the request for reconsideration within 3 months of the denial.

"(B) PROCEDURAL RULES.—In any such reconsideration, the applicant may, but shall not be required to, provide new information on the application.".

SEC. 10. EXPANSION OF AUTHORITY TO USE TIED AID CREDIT FUND.

(a) UNTIED AID.—

(1) NEGOTIATIONS.—The Secretary of the Treasury shall seek to negotiate an OECD Arrangement on Untied Aid. In the negotiations, the Secretary shall seek agreement on subjecting untied aid to the rules governing the Arrangement, including the rules governing disclosure.

(2) REPORT TO THE CONGRESS.—Within 1 year after the date of the enactment of this Act, the Secretary of the Treasury shall submit to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report on the successes, failures, and obstacles in reaching the agreement described in paragraph (1).

(b) MARKET WINDOWS.—

(1) NEGOTIATIONS.—The Secretary of the Treasury shall seek to negotiate an OECD Arrangement on Market Windows. In the negotiations, the Secretary shall seek agreement on subjecting market windows to the rules governing the Arrangement, including the rules governing disclosure.

(2) REPORT TO THE CONGRESS.—Within 2 years after the date of the enactment of this Act, the Secretary of the Treasury shall submit to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report on the successes, failures, and obstacles in reaching the agreement described in paragraph (1).

(c) USE OF TIED AID CREDIT FUND TO COMBAT UNTIED AID AND MARKET WINDOWS.—Section 10 of the Export-Import Bank Act of 1945 (12 U.S.C. 635i–3) is amended—

(1) in subsection (a)—

(A) in paragraph (1), by inserting ", and market windows used by" before "other countries";

(B) in paragraph (4), by striking "and" at the end;

(C) in paragraph (5), by inserting ", or market windows," before "for commercial" the 1st and 3rd places it appears; and

(D) by redesignating paragraph (5) as paragraph (6) as inserting after paragraph (4) the following:

"(5) the Bank has, at a minimum, the following two tasks:

"(A)(i) First, the Bank should match, and even overmatch, foreign export credit agencies when they engage in tied aid outside the confines of the Arrangement and when they exploit loopholes, such as market windows and untied aid;

"(ii) such matching and overmatching is needed to provide the United States with leverage in efforts at the OECD to reduce the overall level of export subsidies;

"(iii) only through matching or bettering foreign export credit offers can the Bank buttress United States negotiators in their efforts to bring these loopholes within the disciplines of the Arrangement; and

"(iv) in order to bring market windows within the discipline of the Arrangement, the Bank should sometimes initiate highly competitive financial support when the Bank learns that foreign market window support may be part of a transaction; and

"(B) Second, the Bank should support United States exporters when the exporters face foreign competition that is consistent with the letter and spirit of the Arrangement and the Subsidies Code of the World Trade Organization, but which nonetheless is more generous than the terms available from the private financial market; and"; and

(2) in subsection (b)(1)—

(A) in subparagraph (A), by inserting "and market windows used" after "extended"; and

(B) in subparagraph (B)(i), by inserting "or market windows" after "untied aid credits".

(d) DEFINITION OF MARKET WINDOW.—Section 10(h) of such Act (12 U.S.C. 635i–3(h)) is amended by adding at the end the following:

"(7) MARKET WINDOW.—The term 'market window' means the provision of export financing through an institution (or a part of an institution) that claims to operate on a commercial basis while benefiting directly or indirectly from some level of government support.".

SEC. 11. RENAMING OF TIED AID CREDIT PROGRAM AND FUND AS EXPORT COMPETITIVENESS PROGRAM AND FUND.

Section 10 of the Export-Import Bank Act of 1945 (12 U.S.C. 635i–3) is further amended—

(1) by striking all that precedes paragraph (1) of subsection (a) and inserting the following:

"SEC. 10. EXPORT COMPETITIVENESS FUND.

"(a) FINDINGS.—The Congress finds that—";

(2) in subsection (a)(6) (as so redesignated by section 9(c)(1)(D) of this Act), by striking "tied aid program" and inserting "export competitiveness program";

(3) in the heading of subsection (b), by striking "TIED AID CREDIT" and inserting "EXPORT COMPETITIVENESS";

(4) in subsection (b)(1)—

(A) by striking "tied aid credit program" and inserting "export competitiveness program"; and

(B) by striking "Tied Aid Credit fund" and inserting "Export Competitiveness Fund";

(5) in subsection (b)(2), by striking "tied aid credit program" and inserting "export competitiveness program";

(6) in subsection (b)(3)—

(A) by striking "tied aid credit program" and inserting "export competitiveness program"; and

(B) by striking "Tied Aid Credit Fund" and inserting "Export Competitiveness Fund";

(7) in subsection (b)(5) (as added by section 9(a)(2) of this Act), by striking "Tied Aid Credit Fund" each place it appears and inserting "Export Competitiveness Fund";

(8) in subsection (b)(6) (as added by section 9(b) of this Act), by striking "Tied Aid Credit Fund" and inserting "Export Competitiveness Fund";

(9) in subsection (c)—

(A) in the subsection heading, by striking "TIED AID CREDIT" and inserting "EXPORT COMPETITIVENESS"; and

(B) in paragraph (1), by striking "Tied Aid Credit" and inserting "Export Competitiveness";

(10) in subsection (d), by striking "tied aid credit" and inserting "export competitiveness"; and

(11) in subsection (g)(2)(C), by striking "Tied Aid Credit" and inserting "Export Competitiveness".

SEC. 12. ANNUAL COMPETITIVENESS REPORT.

(a) TIMING.—

(1) IN GENERAL.—Section 2(b)(1)(A) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(1)(A)) is amended in the 4th sentence by striking "on an annual basis" and inserting "on June 30 of each year".

(2) APPLICABILITY.—The amendment made by paragraph (1) shall apply to reports for calendar years after calendar year 2000.

(b) ADDITIONAL MATTERS TO BE ADDRESSED.—Section 2(b)(1)(A) of such Act (12 U.S.C. 635(b)(1)(A)) is amended by adding at the end the following: "The Bank shall include in the annual report a description of the volume of financing provided by each foreign export credit agency, and a description of all Bank transactions which shall be classified according to their principal purpose, such as to correct a market failure or to provide matching support.".

(c) Number of Small Business Suppliers of Bank Users.—Section 2(b)(1)(A) of such Act (12 U.S.C. 635(b)(1)(A)) is further amended by adding at the end the following: "The Bank shall estimate on the basis of an annual survey or tabulation the number of entities that are suppliers of users of the Bank and that are small business concerns (as defined under section 3 of the Small Business Act) located in the United States, and shall include the estimate in the annual report.".

(d) Outreach to Businesses Owned by Socially Disadvantaged Individuals or by Women.—Section 2(b)(1)(A) of such Act (12 U.S.C. 635(b)(1)(A)) is further amended by adding at the end the following: "The Bank shall include in the annual report a description of outreach efforts made by the Bank to any business not less than 51 percent of which is directly and unconditionally owned by 1 or more socially disadvantaged individuals (as defined in section 8(a)(5) of the Small Business Act) or women, and any data on the results of such efforts.".

SEC. 13. RENEWABLE ENERGY SOURCES.

(a) Promotion.—Section 2(b)(1) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(1)), as amended by section 8(b) of this Act, is amended by adding at the end the following:

"(K) The Bank shall promote the export of goods and services related to renewable energy sources.".

(b) Description of Efforts to be Included in Annual Competitiveness Report.—Section 2(b)(1)(A) of such Act (12 U.S.C. 635(b)(1)(A)) is further amended by adding at the end the following: "The Bank shall include in the annual report a description of the efforts undertaken under subparagraph (K).".

SEC. 14. GAO REPORTS.

(a) Potential of WTO To Remedy Untied Aid and Market Windows.—Within 1 year after the date of the enactment of this Act, the Comptroller General of the United States shall submit to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report that examines—

(1) whether a case could be brought by the United States in the World Trade Organization seeking relief against untied aid and market windows, and if so, the kinds of relief that would be available if the United States were to prevail in such a case; and

(2) the scope of penalty tariffs that the United States could impose against imports from a country that uses untied aid or market windows.

(b) Comparative Reserve Practices of Export Credit Agencies and Private Banks.—Within 1 year after the date of the enactment of this Act, the Comptroller General of the United States shall submit to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report that examines the reserve ratios of the Export-Import Bank of the United States as compared with the reserve practices of private banks and foreign export credit agencies.

SEC. 15. HUMAN RIGHTS.

Section 2(b)(1)(B) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(1)(B)) is amended by inserting "(as provided in the Universal Declaration of Human Rights adopted by the United Nations General Assembly on December 10, 1948)" after "human rights".

SEC. 16. STEEL.

(a) Reevaluation.—The Export-Import Bank of the United States shall re-assess the effects of the approval by the Bank of an $18,000,000 medium-term guarantee to support the sale of computer software, control systems, and main drive power supplies to Benxi Iron & Steel Company, in Benxi, Liaoning, China, for the purpose of evaluating whether the adverse impact test of the Bank sufficiently takes account of the interests of United States industries.

(b) Report to the Congress.—Within 1 year after the date of the enactment of this Act, the Export-Import Bank of the United States shall submit to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate a report on the re-assessment required by subsection (a).

SEC. 17. CORRECTION OF REFERENCES.

(a) Section 2(b)(1)(B) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(1)(B)) is amended by striking "Banking and".

(b) Each of the following provisions of the Export-Import Bank Act of 1945 is amended by striking "Banking, Finance and Urban Affairs" and inserting "Financial Services":

(1) Section 2(b)(6)(D)(i)(III) (12 U.S.C. 635(b)(6)(D)(i)(III)).

(2) Section 2(b)(6)(H) (12 U.S.C. 635(b)(6)(H)).

(3) Section 2(b)(6)(I)(i)(II) (12 U.S.C. 635(b)(6)(I)(i)(II)).

(4) Section 2(b)(6)(I)(iiii) (12 U.S.C. 635(b)(6)(I)(iii)).

(5) Section 10(g)(1) (12 U.S.C. 635i–3(g)(1)).

SEC. 18. AUTHORITY TO DENY APPLICATION FOR ASSISTANCE BASED ON FRAUD OR CORRUPTION BY THE APPLICANT.

Section 2 of the Export-Import Bank Act of 1945 (12 U.S.C. 635) is amended by adding at the end the following:

"(f) Authority to Deny Application for Assistance Based on Fraud or Corruption by Party to the Transaction.—In addition to any other authority of the Bank, the Bank may deny an application for assistance with respect to a transaction if the Bank has substantial credible evidence that any party to the transaction has committed an act of fraud or corruption in connection with a transaction involving a good or service that is the same as, or substantially similar to, a good or service the export of which is the subject of the application.".

SEC. 19. CONSIDERATION OF FOREIGN COUNTRY HELPFULNESS IN EFFORTS TO ERADICATE TERRORISM.

Section 2(b)(1) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(1)) is further amended by adding at the end the following:

"(L) It is further the policy of the United States that, in considering whether to guarantee, insure, or extend credit, or participate in the extension of credit in connection with the purchase of any product, technical data, or information by a national or agency of any nation, the Bank shall take into account the extent to which the nation has been helpful or unhelpful in efforts to eradicate terrorism. The Bank shall consult with the Department of State to determine the degreee to which each relevant nation has been helpful or unhelpful in efforts to eradicate terrorism.".

SEC. 20. OUTSTANDING ORDERS AND PRELIMINARY INJURY DETERMINATIONS.

Section 2(e) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(e)) is amended—

(1) in paragraph (2), by striking "Paragraph (1)" and inserting "Paragraphs (1) and (2)"; and

(2) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4) and by inserting after paragraph (1) the following:

"(2) Outstanding orders and preliminary injury determinations.—

"(A) Orders.—The Bank shall not provide any loan or guarantee to an entity for the resulting production of substantially the same product that is the subject of—

"(i) a countervailing duty or antidumping order under title VII of the Tariff Act of 1930; or

"(ii) a determination under title II of the Trade Act of 1974.

"(B) Affirmative determination.—Within 60 days after the date of the enactment of this Act, the Bank shall establish procedures regarding loans or guarantees provided to any entity that is subject to a preliminary determination of a reasonable indication of material injury to an industry under title VII of the Tariff Act of 1930. The procedures shall help to ensure that these loans and guarantees are likely to not result in a significant increase in imports of substantially the same product covered by the preliminary determination and are likely to not have a significant adverse impact on the domestic industry. The Bank shall report to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate on the implementation of these procedures.

"(C) Comment period.—The Bank shall establish procedures under which the Bank shall notify interested parties and provide a comment period with regard to loans or guarantees reviewed pursuant to subparagraph (B).".

SEC. 21. SENSE OF THE CONGRESS RELATING TO RENEWABLE ENERGY TARGETS.

(a) Allocation of Assistance Among Energy Projects.—It is the sense of the Congress that, of the total amount available to the Export-Import Bank of the United States for the extension of credit for transactions related to energy projects, the Bank should, not later than the beginning of fiscal year 2006, use—

(1) not more than 95 percent for transactions related to fossil fuel projects; and

(2) not less than 5 percent for transactions related to renewable energy and energy efficiency projects.

(b) Definition of Renewable Energy.—In this section, the term "renewable energy" means projects related to solar, wind, biomass, fuel cell, landfill gas, or geothermal energy sources.

The CHAIRMAN. No amendment to that amendment is in order except those printed in House Report 107–423. Each amendment may be offered only in the order printed in the report, by a Member designated in the report, shall be considered read, shall be debatable for the time specified in the report, equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

It is now in order to consider Amendment No. 1 printed in House Report 107–423.

☐ 1145

AMENDMENT NO. 1 OFFERED BY MR. BEREUTER

Mr. BEREUTER. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 1 offered by Mr. BEREUTER:

Page 19, strike lines 20 through 24.

The CHAIRMAN. Pursuant to House Resolution 402, the gentleman from Nebraska (Mr. BEREUTER) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Nebraska (Mr. BEREUTER).

Mr. BEREUTER. Mr. Chairman, I yield myself such time as I may consume to explain the manager's amendment.

Mr. Chairman, the changes in the manager's amendment are to the Tied Aid War Chest section of the legislation and are the result of negotiations with the administration.

As a way of background, this legislation would make important clarifications in the administration of the Tied Aid War Chest which finances tied aid transactions. The Tied Aid War Chest was intended to be used by the Ex-Im Bank to protect American exporters by matching the concessionary financing of foreign export credit agencies. The Tied Aid War Chest has been grossly underutilized, which is due in part to the disagreements between the Ex-Im Bank and the Department of Treasury over the years on how to use the funds.

These past problems would be addressed in this legislation by the creation of a new definitive step-by-step process to be followed by the Ex-Im Bank and the Treasury Department regarding how the Tied Aid War Chest is to be administered. The manager's amendment would make the following changes to how the Tied Aid War Chest is administered.

Number 1, under the bill as reported, the Secretary of the Treasury would set the process and standards on how the amounts in the Tied Aid War Chest can be effectively used and efficiently used, and it would do this in consultation with the Ex-Im Bank. In the manager's amendment, the word "principles" is inserted before the word "process." This change is made throughout the manager's amendment where applicable.

Number 2, the Ex-Im Bank would be allowed to jointly set the principles, process and standards which govern the use of the Tied Aid War Chest with the Secretary of the Treasury.

Three, the Tied Aid War Chest also must be used in accordance with the purposes described in section 10(a)(5) of the Ex-Im Bank charter. This reference to section 10(a)(5) is in current law.

Number 4, adds a new standard which will govern the use of the Tied Aid War Chest in the interim period before the Secretary of the Treasurer and the Ex-Im Bank submit their principles, process and standards to Congress. This new standard states that the Tied Aid War Chest should be used to leverage multilateral negotiations in such places as the OECD in Paris to restrict the scope of aid-financed trade distortions and to police existing rules. This new standard is added to the six existing standards in the bill as reported.

Number 5, under H.R. 2871, as reported, an applicant for the Tied Aid War Chest is given an opportunity for an expeditious reconsideration by the Ex-Im Bank board within 3 months of the denial of an application for assistance. Under this legislation, as reported, the applicant may, but shall not be required to provide any information for the application to be reconsidered. That is at the suggestion of the administration. The manager's amendment states that the applicant may be required to provide new information in order for the application to be reconsidered.

Number 6, under the bill, as reported, the Tied Aid War Chest can be used to combat untied aid and market windows. Under the current law, the Tied Aid War Chest can only be used to combat tied aid from foreign export credit agencies. The manager's amendment does not allow the Tied Aid War Chest to be used for market windows. Market windows are defined as export financing that claims to operate on a commercial basis while benefiting directly or indirectly from some level of government support.

This change was made at the request of the administration because the Ex-Im Bank is still trying to understand how countries such as Germany and Canada use the market windows device. As a result, this Member believes that we should not legislate an issue until we fully understand how the market windows device actually functions.

Number 7, finally, the manager's amendment also makes other minor technical corrections.

Mr. Chairman, in summary, as a result of the manager's amendment, the Export-Import Bank will administer the Tied Aid War Chest in consultation with the Secretary of the Treasury in accordance with both the principles, process and standards developed jointly by the Secretary of the Treasury and the Ex-Im Bank and in accordance the purposes which are currently listed in the Ex-Im charter. This Member believes that the changes in the manager's amendment are essential to further clarify the administration of the Tied Aid War Chest.

Mr. Chairman, in conclusion, this Member would urge his colleagues to support the manager's amendment to H.R. 2871.

Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. Who rises to claim the time in opposition?

Mr. LAFALCE. Mr. Chairman, I claim the time in opposition.

The CHAIRMAN. The gentleman from New York (Mr. LAFALCE) is recognized for 5 minutes.

Mr. LAFALCE. Mr. Chairman, I yield myself such time as I may consume. I am very pleased to rise in support of the gentleman from Nebraska's (Mr. BEREUTER) amendment which attempts to meet objections to the bill raised by the Treasury Department, and I know that the gentleman from Nebraska has negotiated in great faith with Treasury officials.

Unfortunately, they have withheld support for the bill, primarily due to the tied aid credit fund provisions within it, and I am appreciative of the gentleman's enormous efforts to address Treasury's concerns during the past 5 months over what is essentially a territorial dispute.

The manager's amendment represents his best effort to accommodate Treasury. To that end, I fully support it. I only regret that it has taken 5 months for the Republican House leadership to decide that the U.S. Treasury Department does not set the schedule in the House of Representatives.

Having said that, let me also add that I did support a 6-month extension of the authorization for Ex-Im Bank last year, and then I supported an additional 30-day extension, and yesterday I supported an additional 30-day extension. We have until the Memorial Day recess to reconcile the differences between the House Ex-Im reauthorization bill and the Senate Ex-Im reauthorization bill.

The differences are not that great. We should be able to resolve them at one meeting which could take place this week or next week. Most of the issues, I should not say this, could be settled by a flip of the coin between the House and Senate. Treasury might still oppose, and if Treasury is allowed to hold up the conference report, I just tell them now that I will not support another extension.

Mr. Chairman, I yield back the balance of my time.

Mr. BEREUTER. Mr. Chairman, I yield myself the balance of the time, and I want to thank the distinguished gentleman from New York (Mr. LAFALCE) for his patience and his support through this process. I actually welcome the statement the gentleman made about the upcoming House-Senate conference, and his suggestion is exactly the method that I am going to try to advance, with the Chairman's help, if, in fact, we have an opportunity to go to conference today, as I expect.

I would like to say to the gentleman that he and I have shared frustration for so many years over the lack of use of the war chest when it is appropriate, and in part, that failure or deficiency is because of the subject that I think we are addressing in the manager's amendment.

Again, I thank the gentleman for his support and his patience through this long consultation process with the administration. We have made as many accommodations as we possibly can without making the ultimate one because we understand what they want is not consistent with what this body, as a legislative body, should do.

I urge support of the manager's amendment.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Nebraska (Mr. BEREUTER).

The amendment was agreed to.

The CHAIRMAN. It is now in order to consider amendment No. 2 printed in House Report No. 107–423.

AMENDMENT NO. 2 OFFERED BY MR. DEFAZIO

Mr. DEFAZIO. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 2 offered by Mr. DEFAZIO: At the end of the bill, add the following:

SEC. . BAN ON ASSISTANCE FOR PROJECT INVOLVING PRIVATIZATION OF GOVERNMENT-HELD INDUSTRY OR SECTOR.

Section 2(b) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)) is amended by adding at the end the following:

"(13) BAN ON ASSISTANCE FOR PROJECT INVOLVING PRIVATIZATION OF GOVERNMENT-HELD INDUSTRY OR SECTOR.—The Bank may not guarantee, insure, or extend (or participate in the extension of) credit in connection with the export of any good or service for a project that involves the privatization of a government-held industry or sector if—

"(A) the privatization transaction is not implemented in a transparent manner;

"(B) the privatization transaction is not implemented in a manner that adequately protects the interests of workers, small investors, and vulnerable groups in society to the extent that they are affected by the privatization transaction; or

"(C) appropriate regulatory regimes have not been established to esnure the proper function of competitive markets in the industry or sector.".

The CHAIRMAN. Pursuant to House Resolution 402, the gentleman from Oregon (Mr. DEFAZIO) and a Member opposed each will control 15 minutes.

The Chair recognizes the gentleman from Oregon (Mr. DEFAZIO).

Mr. DEFAZIO. Mr. Chairman, I yield myself such time as I may consume. We will not use all of the time here.

The amendment which I drafted is based substantially on language which will be included in legislation to come up later today, H.R. 2604, the Multinational Development Bank Reauthorization. It is a bipartisan piece of legislation which the gentleman from Nebraska (Mr. BEREUTER) as the Chairman of the Subcommittee on International Monetary Policy and Trade introduced and was cosponsored by the gentleman from New York (Mr. LAFALCE), ranking member, and the gentleman from Vermont (Mr. SANDERS).

I looked at that legislation, and although I will admit that the issue before us here, the Ex-Im Bank, is not normally the principal source of funding for potential privatization efforts, but there are instances where Ex-Im Bank has followed in acquisitions and has essentially been linked to privatization efforts.

Oftentimes there may well be nothing wrong with the U.S. firm being involved in a privatization effort overseas, as long as there is a regulatory structure in place, as long as the government or the taxpayers of that country get full value in a process which is transparent in terms of the bidding, but unfortunately, there have been a number of cases, a couple of which involved the Enron corporation in Panama and the Dominican Republic, where that was not the case. In fact, a study after the fact in the Dominican Republic found that the assets were undervalued by $907 million, and the Panama case, there was a problem with basically some corruption within the government which had led to a low bid and an improper acquisition.

I think putting in place some basic rules is needed to make sure that the Ex-Im Bank either in the first instance or in follow-on to U.S. acquisition, in supplying follow-on to that, does not become involved in improper privatization efforts.

The standards are quite simple: That the assistance should only go to projects that are implemented in a transparent manner; that they are implemented in a manner that protects the interests of workers, small investors, vulnerable groups in society; or, if appropriate, the regulatory regimes have been established to ensure properly functioning competitive markets.

It is further my understanding that the Chairman has some concerns about the capability of enforcing this and statutory language but would perhaps be willing to support this as a sense of Congress within the conference.

Mr. BEREUTER. Mr. Chairman, will the gentleman yield?

Mr. DEFAZIO. I yield to the gentleman from Nebraska.

Mr. BEREUTER. Mr. Chairman, I thank the gentleman for yielding. I would have claimed the time in opposition, but the gentleman has accurately described the derivation of this language, and there is certainly nothing wrong with the intent.

He is also right in recognizing that the primary entities that could have an impact on such a situation, as described in this amendment, are multilateral development banks, but if the gentleman would withdraw this amendment, I will do my best to assure that language like this, probably exactly like it, would be a included as sense of the Congress language or, at least that if we have problems with the Senate conferees, it be included in report language. But it would be my intent to attempt to add such language as sense of the Congress language, as the gentleman has offered it.

Mr. DEFAZIO. Mr. Chairman, I thank the gentleman for his support and his great work on the legislation to come up later today. I believe these are essential reforms and limitations that should be put into the law, and I thank the gentleman.

Mr. Chairman, I ask unanimous consent to withdraw my amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Oregon?

There was no objection.

The CHAIRMAN. It is now in order to consider amendment No. 3 printed in House Report No. 107–423.

AMENDMENT NO. 3 OFFERED BY MR. KUCINICH

Mr. KUCINICH. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 3 offered by Mr. KUCINICH:

At the end of the bill, add the following:

SEC. __. REQUIREMENT THAT APPLICANTS FOR ASSISTANCE DISCLOSE WHETHER THEY HAVE VIOLATED THE FOREIGN CORRUPT PRACTICES ACT; MAINTENANCE OF LIST OF VIOLATORS.

Section 2(b)(1) of the Export-Import Bank Act of 1945 (12 U.S.C. 635(b)(1)) is further amended by adding at the end the following:

"(M) The Bank shall require an applicant for assistance from the Bank to disclose whether the applicant has been found by a court of the United States to have violated the Foreign Corrupt Practices Act, and shall maintain a list of persons so found to have violated such Act.".

Amend the table of contents accordingly.

The CHAIRMAN. Pursuant to House Resolution 402, the gentleman from Ohio (Mr. KUCINICH) and a Member opposed each will control 15 minutes.

The Chair recognizes the gentleman from Ohio (Mr. KUCINICH).

Mr. KUCINICH. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, my amendment will require the Ex-Im Bank to gather information relating to compliance by applicants with the Foreign Corrupt Practices Act, as amended.

The Foreign Corrupt Practices Act of 1977 makes it unlawful for any domestic corporation to corruptly bribe a foreign official in order to obtain or retain business. It also requires those companies that are required to register with the Securities and Exchange Commission to keep detailed and accurate books, records, and accounts of corporate payments and transactions.

Under my amendment, Ex-Im would request that applicants report whether or not they had been found guilty by a U.S. court to be in violation of the Foreign Corrupt Practices Act, and importantly, the Ex-Im Bank would also independently keep a list of companies that had violated the Act.

Mr. Chairman, this amendment is based upon the following premise: That taxpayers should not subsidize the venture of companies that use corrupt methods to obtain business or deceive taxpayers with false financial reports.

Recently, a large multinational energy corporation based in the United States was revealed to have intentionally misled the public about its finances and its profits, leading to drastic consequences for shareholders and its employees. In part, Enron accomplished this deception by concealing the complex corporate transactions that allowed it to inflate its profits.

□ 1200

Now, what if a company like this one used similar practices in order to cover up its bribery of a foreign official? How would this affect its application for financing from the Ex-Im Bank?

Under current practice, applicants for Ex-Im financing are required to certify they have not violated and will not violate the Foreign Corrupt Practices Act. That is good, and this amendment is not meant to stop the Ex-Im Bank from doing this. But the Ex-Im Bank is not required on its own to compile a list of FCPA violators. So a company that lied about its Foreign Corrupt Practices Act history on its application would not be in danger of discovery by the Ex-Im Bank.

Is such a scenario out of the realm of possibility? Our experience with Enron should make it clear that it is not. A recent Enron loan application to the Ex-Im Bank for a natural gas plant in Venezuela included the company's 1998 annual report, which Enron admitted was falsified. Did Ex-Im discover this? No. Has the Ex-Im taken any action against Enron for submitting falsified materials? Not that I know of. In a recent column by Bob Novak this matter is detailed.

In fact, Ex-Im loaned Enron nearly $200 million for this project, according to this report by the Institute for Policy Studies. Overall, Ex-Im has financed Enron projects to the tune of $826 million.

Now, ideally, this amendment should be passed in conjunction with another amendment I submitted to the Committee on Rules. The second amendment would have barred Ex-Im from providing financing to any company that violated the Foreign Corrupt Practices Act. Unfortunately, the rule for this bill did not make the second amendment in order. Nevertheless, the current amendment makes an important contribution by codifying Ex-Im's current practice of requiring applicants to certify their compliance with the Foreign Corrupt Practices Act and, further, by requiring the Ex-Im Bank to independently compile a list of companies that are in violation of this act. I encourage my colleagues to support this amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. BEREUTER. Mr. Chairman, I rise to claim the time in opposition.

The CHAIRMAN pro tempore (Mr. SIMPSON). The gentleman from Nebraska (Mr. BEREUTER) is recognized for 15 minutes.

Mr. BEREUTER. Mr. Chairman, I yield myself such time as I may consume, and I do not intend to oppose the gentleman's amendment. Actually, I think it is quite appropriate.

The Foreign Corrupt Practices Act does regulate the practices of American businesses doing business abroad. It requires them to keep accurate books, records and accounts. It requires issuers to register with the Securities and Exchange Commission to maintain a responsible and internal accounting control system, and it prohibits bribery by American corporations of foreign officials.

In the way of background, the Foreign Corrupt Practices Act was a U.S. initiative and we have tried very hard, through the Organization for Economic Cooperation and Development in Europe, OECD, to have other countries adopt similar kinds of national legislation. Until recently, many of our west European export competitors have actually permitted their corporations to have their bribes as tax deductible, incredible as that may seem. We have recently had positive action by many of these countries in that respect, but now the proof is in the pudding. That is to say, will they, in fact, have enforcement to make sure that no such bribery is not encouraged or permitted under their tax codes.

In any case, the gentleman's amendment, I think, is highly appropriate. This kind of information should be made available and, in fact, generated, if necessary, within the Export-Import Bank. And it is my expectation that as a result of having that information and being encouraged to give it careful consideration the Ex-Im Bank will be able to avoid providing any kind of transaction assistance to an American firm that would be in violation of the Foreign Corrupt Practices Act.

Mr Chairman, my hope is that in fact something like the Foreign Corrupt Practices Act can be applied internationally by actions of national legislative bodies. So I do speak in support of the gentleman's amendment, and I thank him for his initiative in offering it.

Mr. KUCINICH. Mr. Chairman, I yield myself such time as I may consume to thank the gentleman for his expression of support for transparency and integrity in international transactions.

Mr. Chairman, I submit for the Record the article by Bob Novak I referred to earlier:

[From the Chicago Sun-Times, Apr. 29, 2002]

Enron's Corporate Welfare

(By Robert Novak)

A bipartisan Senate Finance Committee investigation has found that Enron Corp., no paragon of free-market deregulation, gorged itself on corporate welfare. The Clinton administration gave more than $650 million in Export-Import Bank loans to Enron-related companies. While the Senate now probes whether the bankrupt energy company falsified loan requests, the bigger question is why Enron was subsidized at all.

Export-Import officials early this year, expressing confidence in the accuracy of information provided by Enron in its loan applications, were not interested in an investigation. However, Ex-Im Vice Chairman Eduardo Aguirre sang a different tune in his April 23 letter to Sen. Chuck Grassley of Iowa, the Finance Committee's senior Republican. "Please let me assure you that Ex-Im Bank takes very seriously potential violations of law . . . and works very closely with the Department of Justice," Aguirre wrote.

Finance staffers have found that Ex-Im, as well as the Overseas Private Investment Corp., in a Democratic administration routinely approved loan requests from a supposedly Republican company. Lavish bipartisan political contributions may have helped, as well as a top Enron executive sitting on Ex-Im's Advisory Committee.

Actually, one official of the agency informed a Senate investigator that all Ex-Im really monitors is loan repayment. Ironically, it is unclear whether Enron loans will be defaulted at American taxpayer expense. While the rationale for the Export-Import Bank's existence is to give U.S. businesses a level playing field against government-subsidized foreign competition, the Enron loans merely buttressed questionable projects where the company often was both producer and exporter.

The classic case is a September 1994 Ex-Im direct loan of $302 million ($175 million of which remains unpaid) to Dabhol Power Co. in India, then 80 percent owned by Enron. In this deal, Enron was the "foreign" company, and its allies, Bechtel Group and General Electric, were the exporters. With an Indian utility that could not pay its bills (and was pressured by the Bush administration to do so) as its only customer, Dabhol went bankrupt even before Enron.

A less-publicized loan scrutinized by Senate investigators provided $135 million (only $4 million of which has repaid) to the Accroven partnership for a natural gas plant in Venezuela. Nearly half the company's stock was owned by Enron while Enron also was the exporter. Thus, the U.S. taxpayer was paying Enron money so that Enron could buy gas from Enron.

Enron's loan application for the Accroven project included the company's 1998 annual report, which the company has admitted was falsified. "I'm troubled by the Ex-Im's seeming lack of interest in this matter," Grassley wrote Aguirre on April 2.

Ex-Im lent $250 million to Trakya Elektrik of Turkey, owned 50 percent by Enron, which was buying goods and services from Enron. Ex-Im insured a $3.6 million Citibank loan to Promigas in Colombia, owned 42.3 percent by Enron. Whether or not these loans were based on misleading information, it is difficult to see how any of these deals fulfills the Export-Import Bank's avowed purpose of promoting American competition against the world.

While Democratic Sen. Ernest F. Hollings delivered his memorable judgment that Enron benefitted from the Bush presidency on a cash-and-carry basis, the symbiosis between big business and the purveyors of corporate welfare is bipartisan. Just as Enron gave to both parties, Bechtel has contributed $820,000 to Republicans and $730,000 to Democrats since the 1992 elections. Rebecca A. McDonald, CEO of Enron Global Assets, was on Ex-Im's Advisory Committee under President Clinton in 2000 and remained there under President Bush in 2001. How can it be that a major recipient of government largess is advising the agency handing it out?

Except for a fitful effort to trim it down in the early months of the Reagan administration in 1981 and some by the current Bush administration, the Export-Import Bank has sailed through governments of both parties—hardly noticed and never critically examined. A broader scrutiny of the agency's global pursuits is still wanting.

Mr. KUCINICH. Mr. Chairman, I yield back the balance of my time.

Mr. BEREUTER. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Ohio (Mr. Kucinich).

The amendment was agreed to.

The CHAIRMAN pro tempore. It is now in order to consider amendment No. 4 printed in House Report 107–423.

AMENDMENT NO. 4 OFFERED BY MR. SANDERS

Mr. SANDERS. Mr. Chairman, I offer an amendment.

The CHAIRMAN pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 4 offered by Mr. Sanders:

At the end of the bill, add the following:

SEC. . INFORMATION AND CERTIFICATIONS REQUIRED FROM COMPANIES SEEKING OR RECEIVING NEW ASSISTANCE.

Section 2 of the Export-Import Bank Act of 1945 (12 U.S.C. 635) is further amended by adding at the end the following:

"(g)(1) As a condition of providing assistance to a company in connection with a transaction entered into on or after the date of the enactment of this subsection, the Bank shall require the company to submit to the Bank the following information on an annual basis:

"(A) The number of individuals employed by the company in the United States and its territories.

"(B) The number of individuals employed by the company outside the United States and its territories.

"(C) A description of the wages and benefits being provided to the employees of the company in the United States and its territories.

"(2)(A) Beginning 1 year after the Bank provides assistance to a company in connection with a transaction entered into on or after the date of the enactment of this subsection, the company shall, on an annual basis, provide the Bank with a written certification of—

"(i) the percentage of the workforce of the company employed in the United States or its territories that has been laid off or induced to resign from the company during the preceding year; and

"(ii) the percentage of the total workforce of the company that has been laid off or induced to resign from the company during the preceding year.

"(B)(i) If, in the certification provided by the company, the percentage described in subparagraph (A)(i) is greater than the percentage described in subparagraph (A)(ii), then the company shall be ineligible for further assistance from the Bank until the company provides to the Bank a new written certification in which, for the year covered by the new certification, the percentage described in subparagraph (A)(i) is not greater than the percentage described in subparagraph (A)(ii).

"(ii) If the company does not provide a certification required by subparagraph (A), or provides a false certification under this paragraph, then 60 days thereafter the Bank shall withdraw all assistance from the company, and the company shall thereafter be ineligible for assistance from the Bank.".

The CHAIRMAN pro tempore. Pursuant to House Resolution 402, the gentleman from Vermont (Mr. Sanders) and a Member opposed each will control 15 minutes.

The Chair recognizes the gentleman from Vermont (Mr. Sanders).

Mr. SANDERS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I hereby submit for the Record a letter sent to the Speaker of the House, the gentleman from Illinois (Mr. Hastert), by every large multinational corporate trade organization in the country, people who contribute hundreds of millions of dollars into the political process, because they are opposed to the amendment.

Aerospace Industries Association, American Business Council of the Gulf Countries, AMT—The Association for Manufacturing Technology, Bankers Association for Finance and Trade, Coalition for Employment Through Exports, Emergency Committee for American Trade, International Energy Development Council, National Association of Manufacturers, National Foreign Trade Council, Small Business Exporters Association, U.S. Chamber of Commerce, U.S.-China Business Council, U.S Council for International Business,

April 16, 2002.

Hon. Dennis Hastert,
Speaker of the House,
House of Representatives, Washington, DC.

Dear Mr. Speaker: As the House Republican leadership considers scheduling floor action on H.R. 2871, to reauthorize the Export-Import Bank, we write to reiterate our strong support for the Bank. Our collective members include many of the U.S. exporters and financial institutions that rely on the Bank as the lender of last resort in meeting the fierce competition for export opportunities in world markets. In FY 2001 alone, the Bank financed some 2,300 export transactions, 90 percent of which were for small and medium-sized firms.

Ex-Im Bank plays a crucial role in supporting the export of American-made goods and American-provided services in markets where commercial financing is difficult to obtain and when foreign competitors have the active support of their governments' export credit agencies. In 2000 alone, the most-active export credit agencies worldwide financed more than $500 billion in exports. Ex-Im Bank financed $15.5 billion in U.S. exports that year.

To deal with this increasingly aggressive foreign competition, H.R. 2871 would authorize the Bank to respond to new export financing programs offered by foreign governments, including so-called "market windows". The bill also provides the Bank with clear authority to use the tied-aid war chest to respond aggressively to foreign governments' use of foreign assistance to supplement their export credit activities (so-called "tied-aid").

It is important to note that Ex-Im charges risk-based interest, premiums and other fees for its loans, loan guarantees and insurance. These fees are paid by exporters, banks and overseas customers. Last year, the Bank's revenues generated a $1 billion net income for the U.S. government. Moreover, the Bank maintains some $10 billion in reserves to protect against the risk of loss. The Bank's conservative lending policies and aggressively loss-recovery efforts have resulted in a very low 1.9 percent historical loss rate.

AMENDMENTS OF CONCERN

Two amendments may be offered which, in our judgment, would impede the ability of U.S. exporters to effectively utilize the Bank, thus weakening the Bank's programs and causing a loss of U.S. exports and the jobs of American workers. We urge you to oppose these amendments if offered during House floor action:

(1) Rep. Sanders may offer an amendment to deny Ex-Im Bank financing for U.S. companies that are growing internationally. It would make the Bank completely unusable for any U.S. exporter that is succeeding in world markets. The proposal runs contrary to U.S. trade policy and market-based economic growth. It would make no sense for the Congress to seek open world markets, but then deny U.S. firms access to one of the key tools to take advantage of these new opportunities. Since Ex-Im Bank only finances U.S.-origin goods and services, shutting off the Bank would only result in making the Bank less effective in creating and keeping U.S. jobs here at home.

Rep. Schakowsky may offer an amendment to require a human rights assessment of about 600 export transactions supported by the Bank annually. This proposal is unnecessary because the Export-Import Bank Act already includes a procedure under which the Bank relies on the U.S. State Department for human rights analysis. The amendment would require the Bank to establish an unnecessary new bureaucracy that would duplicate the long-established State Department human rights office. The amendment would require U.S. exporters to submit any proposed transaction over $10 million to a costly and time-consuming notice and comment period, which inevitably would lead to the loss of export sales to our foreign competitors. The current, long-established, process works well to ensure that human rights issues are analyzed by the State Department's experts and included in the Bank's consideration of export transactions.

We urge the House to approve H.R. 2871 and to oppose amendments that would weaken the Bank and impede U.S. exports.

Sincerely,

Don Carlson, President, AMT–The Association For Manufacturing Technology; Calman J. Cohen, President, Emergency Committee For American Trade; Timothy E. Deal, Senior Vice President, U.S. Council for International Business; John W. Douglass, President, and CEO, Aerospace Industries Association; John Hardy, Chairman, Standing Committee, International Energy Development Council; Robert Kapp, President, U.S.-China Business Council; James Morrison, President, Small Business Exporters Association; John Pratt, Chairman, American Business Council of the Gulf Countries; William Reinsch, President, National Foreign Trade Council; Edmund B. Rice, President, Coalition For Employment Through Exports; Consider W. Ross, Executive Director, Bankers Association for Finance and Trade; Franklin J. Vargo, Vice President, National Association of Manufacturers; Willard A. Workman, Senior Vice President, U.S. Chamber of Commerce.

Mr. Chairman, these gentlemen, representing the largest multinational corporations in this country, are opposed to this amendment. And why not? They are receiving huge amounts of corporate welfare. They think it is a good deal. So, yes, they will be opposed to the amendment. And I would hope that gives Members a good reason why they should think about voting for this amendment.

I am very proud that this amendment is cosponsored by the gentleman from Texas (Mr. PAUL) and the gentleman from Oregon (Mr. DEFAZIO), and we are united, along with many other Members here, to protect American workers and to fight corporate welfare.

Mr. Chairman, some of my colleagues will say that the Ex-Im Bank has helped businesses and workers throughout the United States. They are right. But that should not be a great surprise for an agency that has a budget of some $1 billion and has the capability of guaranteeing some $15 billion in loans a year. If we stood outside on street corners all over America and gave out money, we would do some good. We would help people. We would create jobs.

The question that we want to ask is: Given the amount of money that we are spending, are American taxpayers and are American workers getting good value for their dollars? And I think any objective analysis of Ex-Im would suggest that we are not.

At the present moment, Ex-Im is wasteful, it is inefficient, and it is a major example of corporate welfare. If we cannot make fundamental changes in the way that program is run, it should be killed.

Mr. Chairman, let us be clear about who the major beneficiaries of Ex-Im are. My colleagues have heard a lot about how small businesses are benefiting. The reality, however, is that 80 percent of the real dollars goes to the Fortune 500, some of the largest corporations in America. Now, let us hear who those tiny small businesses are who receive this corporate welfare from the American people.

Well, they are Boeing, General Electric, Caterpillar, and Mobile Oil. They are a struggling small company. Westinghouse and AT&T. Another little tiny mom and pop company. Motorola, Lucent Technologies, Enron, IBM, FedEx, General Motors, Haliburton, Siemens, Raytheon, and United Technologies. The list goes on and on.

Workers in this country, working 50, 60 hours a week to keep their heads above water, veterans not getting the benefits they are entitled to, but, hey, all these little tiny companies they are on the welfare line. Name the largest multinational corporation in America, many of whom make substantial campaign contributions, and there they are getting their money from Ex-Im.

Further, many of these companies pay exorbitant salaries and benefits to their CEOs. One example, which I have experience with, IBM, on the welfare line, gave their former CEO Lou Gerstner, over $260 million in stock options, while they cut back on pensions and retirement health benefits of their workers and retirees and they are opening plants in China. No doubt, no doubt that the American taxpayers should be giving them their welfare check.

Now, even more importantly, what else do these companies have in common? What they have in common is that company after company that receive Ex-Im money are some of the largest job cutters in America. In the name of job creation, we are giving huge amounts of money to large corporations who are laying off hundreds of thousands of American workers, and they are moving their plants to China, where they are paying desperate people there 20 cents an hour; moving to Mexico, moving to Vietnam, moving anyplace in the world where they can get cheap labor. Well, that is a smart public-policy move on our part.

Let me give a couple of examples. General Electric has received over $2.5 billion in direct loans and loan guarantees from Ex-Im Bank. And what was the result? From 1985 to 1995, GE reduced its workforce from 243,000 to 150,000. A real success story for the Ex-Im Bank.

General Motors. They received $500 million in direct loans and loan guarantees from Ex-Im. The result, GM has shrunk its U.S. workforce from 559,000 to 314,000. Congratulations Ex-Im.

Motorola. They have reduced their workforce; only 56 percent of their workers are from the United States.

Now, if a company wants to receive taxpayer support, fine. But what that company has got to do is say we pledge to protect American jobs. And the amendment that I am offering is very, very simple. What it says is that if a company is going to lay off workers, then they cannot lay off more American workers than they lay off people abroad. Now, I do not think that is too much to ask for companies that receive subsidies from the American taxpayer.

Mr. Chairman, I reserve the balance of my time.

Mr. BEREUTER. Mr. Chairman, I claim the time in opposition, and would be glad to allow the gentleman from Vermont to continue to yield.

The CHAIRMAN pro tempore. The gentleman from Nebraska (Mr. BEREUTER) is recognized for 15 minutes.

Mr. SANDERS. Mr. Chairman, I yield 2 minutes to the gentlewoman from Ohio (Ms. KAPTUR), who has been one of the strongest fighters in the U.S. Congress for American workers.

Ms. KAPTUR. Mr. Chairman, I rise in strong support of this Sanders amendment. It is eminently reasonable and aims to protect the jobs of American workers and strike a blow against the corporate welfare state.

This amendment is beautifully simple. It says no more Export-Import Bank help for corporations that lay off a greater percentage of workers in America than in other countries where they employ workers, including Mexico or China and other low-wage platforms. No more Export-Import Bank help for General Electric when it cans workers in Bloomington, Indiana, and exports all their jobs to Mexico.

Why cut workers' throats in our country with their own taxpayer dollars? Eighty percent of Ex-Im subsidies go to the biggest boys on the block, the Fortune 500 countries with global reach. And how do they return the favor to the American taxpayer? Well, General Motors gets more than $.5 billion from Ex-Im and then shrinks its U.S. workforce from 559,000 to 314,000 workers. That is almost a quarter million lost jobs in America. Motorola took $.5 billion from the taxpayers in the form of Export-Import Bank help and then slashed the American percentage of its workforce down to 56 percent.

Here is how I see it: if we cannot have the Ex-Im Bank for American workers, then at least we should stop cutting our own throats with this giveaway to the runaway multinational companies that export jobs and leave American workers, American families, and American communities holding the bag.

Say "no" to this abuse of taxpayer dollars and this betrayal of American communities. Stand up for the Sanders amendment. Vote "yes" on the Sanders amendment, which actually says, "Do not hurt America first." If we have to take cuts, at least make those cuts equal globally to other countries. It does not say only serve America, it only says be fair to all concerned.

Support the Sanders amendment.

Mr. BEREUTER. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. BEREUTER) having assumed the chair, Mr. SIMPSON, Chairman pro tempore of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2871) to reauthorize the Export-Import Bank of the United States, and for other purposes, had come to no resolution thereon.

CONFERENCE REPORT ON H.R. 2646, FARM SECURITY AND RURAL INVESTMENT ACT OF 2002

Mr. COMBEST submitted the following conference report and statement on the bill (H.R. 2646) to provide for the continuation of agricultural programs through fiscal year 2011.

CONFERENCE REPORT (H. REPT. 107–424)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2646), to provide for the continuation of agricultural programs through fiscal year 2011, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Farm Security and Rural Investment Act of 2002".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—COMMODITY PROGRAMS

Sec. 1001. Definitions.

Subtitle A—Direct Payments and Counter-Cyclical Payments

Sec. 1101. Establishment of base acres and payment acres for a farm.
Sec. 1102. Establishment of payment yield.
Sec. 1103. Availability of direct payments.
Sec. 1104. Availability of counter-cyclical payments.
Sec. 1105. Producer agreement required as condition of provision of direct payments and counter-cyclical payments.
Sec. 1106. Planting flexibility.
Sec. 1107. Relation to remaining payment authority under production flexibility contracts.
Sec. 1108. Period of effectiveness.

Subtitle B—Marketing Assistance Loans and Loan Deficiency Payments

Sec. 1201. Availability of nonrecourse marketing assistance loans for loan commodities.
Sec. 1202. Loan rates for nonrecourse marketing assistance loans.
Sec. 1203. Term of loans.
Sec. 1204. Repayment of loans.
Sec. 1205. Loan deficiency payments.
Sec. 1206. Payments in lieu of loan deficiency payments for grazed acreage.
Sec. 1207. Special marketing loan provisions for upland cotton.
Sec. 1208. Special competitive provisions for extra long staple cotton.
Sec. 1209. Availability of recourse loans for high moisture feed grains and seed cotton.

Subtitle C—Peanuts

Sec. 1301. Definitions.
Sec. 1302. Establishment of payment yield and base acres for peanuts for a farm.
Sec. 1303. Availability of direct payments for peanuts.
Sec. 1304. Availability of counter-cyclical payments for peanuts.
Sec. 1305. Producer agreement required as condition on provision of direct payments and counter-cyclical payments.
Sec. 1306. Planting flexibility.
Sec. 1307. Marketing assistance loans and loan deficiency payments for peanuts.
Sec. 1308. Miscellaneous provisions.
Sec. 1309. Termination of marketing quota programs for peanuts and compensation to peanut quota holders for loss of quota asset value.
Sec. 1310. Repeal of superseded price support authority and effect of repeal.

Subtitle D—Sugar

Sec. 1401. Sugar program.
Sec. 1402. Storage facility loans.
Sec. 1403. Flexible marketing allotments for sugar.

Subtitle E—Dairy

Sec. 1501. Milk price support program.
Sec. 1502. National dairy market loss payments.
Sec. 1503. Dairy export incentive and dairy indemnity programs.
Sec. 1504. Dairy product mandatory reporting.
Sec. 1505. Funding of dairy promotion and research program.
Sec. 1506. Fluid milk promotion.
Sec. 1507. Study of national dairy policy.
Sec. 1508. Studies of effects of changes in approach to national dairy policy and fluid milk identity standards.

Subtitle F—Administration

Sec. 1601. Administration generally.
Sec. 1602. Suspension of permanent price support authority.
Sec. 1603. Payment limitations.
Sec. 1604. Adjusted gross income limitation.
Sec. 1605. Commission on application of payment limitations.
Sec. 1606. Adjustments of loans.
Sec. 1607. Personal liability of producers for deficiencies.
Sec. 1608. Extension of existing administrative authority regarding loans.
Sec. 1609. Commodity Credit Corporation Inventory.
Sec. 1610. Reserve stock level.
Sec. 1611. Farm reconstitutions.
Sec. 1612. Assignment of payments.
Sec. 1613. Equitable relief from ineligibility for loans, payments, or other benefits.
Sec. 1614. Tracking of benefits.
Sec. 1615. Estimates of net farm income.
Sec. 1616. Availability of incentive payments for certain producers.
Sec. 1617. Renewed availability of market loss assistance and certain emergency assistance to persons that failed to receive assistance under earlier authorities.
Sec. 1618. Producer retention of erroneously paid loan deficiency payments and marketing loan gains.

TITLE II—CONSERVATION

Subtitle A—Conservation Security

Sec. 2001. Conservation security program.
Sec. 2002. Conservation compliance.
Sec. 2003. Partnerships and cooperation.
Sec. 2004. Administrative requirements for conservation programs.
Sec. 2005. Reform and assessment of conservation programs.
Sec. 2006. Conforming amendments.

Subtitle B—Conservation Reserve

Sec. 2101. Conservation reserve program.

Subtitle C—Wetlands Reserve Program

Sec. 2201. Reauthorization.
Sec. 2202. Enrollment.
Sec. 2203. Easements and agreements.
Sec. 2204. Changes in ownership; agreement modification; termination.

Subtitle D—Environmental Quality Incentives

Sec. 2301. Environmental quality incentives program.

Subtitle E—Grassland Reserve

Sec. 2401. Grassland reserve program.

Subtitle F—Other Conservation Programs

Sec. 2501. Agricultural management assistance.
Sec. 2502. Grazing, wildlife habitat incentive, source water protection, and Great Lakes basin programs.
Sec. 2503. Farmland protection program.
Sec. 2504. Resource conservation and development program.
Sec. 2505. Small watershed rehabilitation program.
Sec. 2506. Use of symbols, slogans, and logos.
Sec. 2507. Desert terminal lakes.

Subtitle G—Conservation Corridor Demonstration Program

Sec. 2601. Definitions.
Sec. 2602. Conservation corridor demonstration program.
Sec. 2603. Implementation of conservation corridor plan.
Sec. 2604. Funding requirements.

Subtitle H—Funding and Administration

Sec. 2701. Funding and administration.
Sec. 2702. Regulations.

TITLE III—TRADE

Subtitle A—Agricultural Trade Development and Assistance Act of 1954 and Related Statutes

Sec. 3001. United States policy.
Sec. 3002. Provision of agricultural commodities.
Sec. 3003. Generation and use of currencies by private voluntary organizations and cooperatives.
Sec. 3004. Levels of assistance.
Sec. 3005. Food Aid Consultative Group.
Sec. 3006. Maximum level of expenditures.
Sec. 3007. Administration.
Sec. 3008. Assistance for stockpiling and rapid transportation, delivery, and distribution of shelf-stable prepackaged foods.
Sec. 3009. Sale procedure.
Sec. 3010. Prepositioning.
Sec. 3011. Transportation and related costs.
Sec. 3012. Expiration date.
Sec. 3013. Micronutrient fortification programs.
Sec. 3014. John Ogonowski Farmer-to-Farmer Program.

Subtitle B—Agricultural Trade Act of 1978

Sec. 3101. Exporter assistance initiative.
Sec. 3102. Export credit guarantee program.
Sec. 3103. Market access program.
Sec. 3104. Export enhancement program.
Sec. 3105. Foreign market development cooperator program.
Sec. 3106. Food for progress.
Sec. 3107. McGovern-Dole International Food for Education and Child Nutrition Program.

Subtitle C—Miscellaneous

Sec. 3201. Surplus commodities for developing or friendly countries.
Sec. 3202. Bill Emerson Humanitarian Trust Act.
Sec. 3203. Emerging markets.
Sec. 3204. Biotechnology and agricultural trade program.
Sec. 3205. Technical assistance for specialty crops.
Sec. 3206. Global market strategy.
Sec. 3207. Report on use of perishable commodities and live animals.
Sec. 3208. Study on fee for services.
Sec. 3209. Sense of Congress concerning foreign assistance programs.
Sec. 3210. Sense of the Senate concerning agricultural trade.

TITLE IV—NUTRITION PROGRAMS

Sec. 4001. Short title.

Subtitle A—Food Stamp Program

Sec. 4101. Encouragement of payment of child support.
Sec. 4102. Simplified definition of income.
Sec. 4103. Standard deduction.
Sec. 4104. Simplified utility allowance.
Sec. 4105. Simplified determination of housing costs.
Sec. 4106. Simplified determination of deductions.
Sec. 4107. Simplified definition of resources.
Sec. 4108. Alternative issuance systems in disasters.
Sec. 4109. State option to reduce reporting requirements.
Sec. 4110. Cost neutrality for electronic benefit transfer systems.
Sec. 4111. Report on electronic benefit transfer systems.
Sec. 4112. Alternative procedures for residents of certain group facilities.
Sec. 4113. Redemption of benefits through group living arrangements.
Sec. 4114. Availability of food stamp program applications on the Internet.
Sec. 4115. Transitional food stamps for families moving from welfare.
Sec. 4116. Grants for simple application and eligibility determination systems and improved access to benefits.
Sec. 4117. Delivery to retailers of notices of adverse action.
Sec. 4118. Reform of quality control system.
Sec. 4119. Improvement of calculation of State performance measures.
Sec. 4120. Bonuses for States that demonstrate high or most improved performance.
Sec. 4121. Employment and training program.
Sec. 4122. Reauthorization of food stamp program and food distribution program on Indian reservations.
Sec. 4123. Expanded grant authority.
Sec. 4124. Consolidated block grants for Puerto Rico and American Samoa.
Sec. 4125. Assistance for community food projects.
Sec. 4126. Availability of commodities for the emergency food assistance program.

Subtitle B—Commodity Distribution

Sec. 4201. Commodity supplemental food program.
Sec. 4202. Commodity donations.
Sec. 4203. Distribution of surplus commodities to special nutrition projects.
Sec. 4204. Emergency food assistance.

Subtitle C—Child Nutrition and Related Programs

Sec. 4301. Commodities for school lunch program.
Sec. 4302. Eligibility for free and reduced price meals.
Sec. 4303. Purchases of locally produced foods.
Sec. 4304. Applicability of Buy-American requirement to Puerto Rico.
Sec. 4305. Fruit and vegetable pilot program.
Sec. 4306. Eligibility for assistance under the special supplemental nutrition program for women, infants, and children.
Sec. 4307. WIC farmers' market nutrition program.

Subtitle D—Miscellaneous

Sec. 4401. Partial restoration of benefits to legal immigrants.
Sec. 4402. Seniors farmers' market nutrition program.
Sec. 4403. Nutrition information and awareness pilot program.
Sec. 4404. Hunger fellowship program.
Sec. 4405. General effective date.

TITLE V—CREDIT

Subtitle A—Farm Ownership Loans

Sec. 5001. Direct loans.
Sec. 5002. Financing of bridge loans.
Sec. 5003. Amount of guarantee of loans for farm operations on tribal lands.
Sec. 5004. Guarantee of loans made under State beginning farmer or rancher programs.
Sec. 5005. Down Payment Loan Program.
Sec. 5006. Beginning farmer and rancher contract land sales program.

Subtitle B—Operating Loans

Sec. 5101. Direct loans.
Sec. 5102. Suspension of limitation on period for which borrowers are eligible for guaranteed assistance.

Subtitle C—Emergency Loans

Sec. 5201. Emergency loans in response to an emergency resulting from quarantines.

Subtitle D—Administrative Provisions

Sec. 5301. Evaluations of direct and guaranteed loan programs.
Sec. 5302. Eligibility of trusts and limited liability companies for farm ownership loans, farm operating loans, and emergency loans.
Sec. 5303. Debt settlement.
Sec. 5304. Temporary authority to enter into contracts; private collection agencies.
Sec. 5305. Interest rate options for loans in servicing.
Sec. 5306. Elimination of requirement that Secretary require county committees to certify in writing that certain loan reviews have been conducted.
Sec. 5307. Simplified loan guarantee application available for loans of greater amounts.
Sec. 5308. Inventory property.
Sec. 5309. Administration of certified lenders and preferred certified lenders programs.
Sec. 5310. Definitions.
Sec. 5311. Loan authorization levels.
Sec. 5312. Reservation of funds for direct operating loans for beginning farmers and ranchers.
Sec. 5313. Interest rate reduction program.
Sec. 5314. Reamortization of recapture payments.
Sec. 5315. Allocation of certain funds for socially disadvantaged farmers and ranchers.
Sec. 5316. Waiver of borrower training certification requirement.
Sec. 5317. Timing of loan assessments.
Sec. 5318. Annual review of borrowers.
Sec. 5319. Loan eligibility for borrowers with prior debt forgiveness.
Sec. 5320. Making and servicing of loans by personnel of State, county, or area committees.
Sec. 5321. Eligibility of employees of State, county, or area committee for loans and loan guarantees.

Subtitle E—Farm Credit

Sec. 5401. Repeal of burdensome approval requirements.

Sec. 5402. Banks for cooperatives.
Sec. 5403. Insurance corporation premiums.

Subtitle F—General Provisions

Sec. 5501. Technical amendments.

TITLE VI—RURAL DEVELOPMENT

Subtitle A—Consolidated Farm and Rural Development Act

Sec. 6001. Eligibility of rural empowerment zones and rural enterprise communities for direct and guaranteed loans for essential community facilities.
Sec. 6002. Water or waste disposal grants.
Sec. 6003. Rural business opportunity grants.
Sec. 6004. Child day care facilities.
Sec. 6005. Rural water and wastewater circuit rider program.
Sec. 6006. Multijurisdictional regional planning organizations.
Sec. 6007. Loan guarantees for certain rural development loans.
Sec. 6008. Tribal college and university essential community facilities.
Sec. 6009. Emergency and imminent community water assistance grant program.
Sec. 6010. Water and waste facility grants for Native American tribes.
Sec. 6011. Grants for water systems for rural and native villages in Alaska.
Sec. 6012. Grants to nonprofit organizations to finance the construction, refurbishing, and servicing of individually-owned household water well systems in rural areas for individuals with low or moderate incomes.
Sec. 6013. Loans and loan guarantees for renewable energy systems.
Sec. 6014. Rural business enterprise grants.
Sec. 6015. Rural cooperative development grants.
Sec. 6016. Grants to broadcasting systems.
Sec. 6017. Business and industry loan modifications.
Sec. 6018. Use of rural development loans and grants for other purposes.
Sec. 6019. Simplified application forms for loan guarantees.
Sec. 6020. Definition of rural and rural area.
Sec. 6021. National Rural Development Partnership.
Sec. 6022. Rural telework.
Sec. 6023. Historic barn preservation.
Sec. 6024. Grants for NOAA weather radio transmitters.
Sec. 6025. Grants to train farm workers in new technologies and to train farm workers in specialized skills necessary for higher value crops.
Sec. 6026. Rural community advancement program.
Sec. 6027. Delta Regional Authority.
Sec. 6028. Northern Great Plains Regional Authority.
Sec. 6029. Rural business investment program.
Sec. 6030. Rural strategic investment program.
Sec. 6031. Funding of pending rural development loan and grant applications.

Subtitle B—Rural Electrification Act of 1936

Sec. 6101. Guarantees for bonds and notes issued for electrification or telephone purposes.
Sec. 6102. Expansion of 911 access.
Sec. 6103. Enhancement of access to broadband service in rural areas.

Subtitle C—Food, Agriculture, Conservation, and Trade Act of 1990

Sec. 6201. Alternative Agricultural Research and Commercialization Corporation.
Sec. 6202. Rural electronic commerce extension program.
Sec. 6203. Telemedicine and distance learning services in rural areas.

Subtitle D—SEARCH Grants for Small Communities

Sec. 6301. Definitions.
Sec. 6302. SEARCH grant program.
Sec. 6303. Report.
Sec. 6304. Funding.

Subtitle E—Miscellaneous

Sec. 6401. Value-added agricultural product market development grants.
Sec. 6402. Agriculture innovation center demonstration program.
Sec. 6403. Fund for Rural America.
Sec. 6404. Rural local television broadcast signal loan guarantees.
Sec. 6405. Rural firefighters and emergency personnel grant program.
Sec. 6406. Sense of Congress on rural policy coordination.

TITLE VII—RESEARCH AND RELATED MATTERS

Subtitle A—Extensions

Sec. 7101. National rural information center clearinghouse.
Sec. 7102. Grants and fellowships for food and agricultural sciences education.
Sec. 7103. Policy research centers.
Sec. 7104. Human nutrition intervention and health promotion research program.
Sec. 7105. Pilot research program to combine medical and agricultural research.
Sec. 7106. Nutrition education program.
Sec. 7107. Continuing animal health and disease research programs.
Sec. 7108. Appropriations for research on national or regional problems.
Sec. 7109. Grants to upgrade agricultural and food sciences facilities at 1890 land-grant colleges, including Tuskegee University.
Sec. 7110. National research and training virtual centers.
Sec. 7111. Hispanic-serving institutions.
Sec. 7112. Competitive grants for international agricultural science and education programs.
Sec. 7113. University research.
Sec. 7114. Extension service.
Sec. 7115. Supplemental and alternative crops.
Sec. 7116. Aquaculture research facilities.
Sec. 7117. Rangeland research.
Sec. 7118. National genetics resources program.
Sec. 7119. High-priority research and extension initiatives.
Sec. 7120. Nutrient management research and extension initiative.
Sec. 7121. Agricultural telecommunications program.
Sec. 7122. Assistive technology program for farmers with disabilities.
Sec. 7123. Partnerships for high-value agricultural product quality research.
Sec. 7124. Biobased products.
Sec. 7125. Integrated research, education, and extension competitive grants program.
Sec. 7126. Equity in Educational Land-Grant Status Act of 1994.
Sec. 7127. 1994 Institution research grants.
Sec. 7128. Endowment for 1994 Institutions.
Sec. 7129. Precision agriculture.
Sec. 7130. Thomas Jefferson Initiative for crop diversification.
Sec. 7131. Support for research regarding diseases of wheat, triticale, and barley caused by fusarium graminearum or by tilletia indica.
Sec. 7132. Office of Pest Management Policy.
Sec. 7133. National Agricultural Research, Extension, Education, and Economics Advisory Board.
Sec. 7134. Grants for research on production and marketing of alcohols and industrial hydrocarbons from agricultural commodities and forest products.
Sec. 7135. Agricultural experiment stations research facilities.
Sec. 7136. Competitive, special, and facilities research grants national research initiative.
Sec. 7137. Federal agricultural research facilities authorization of appropriations.
Sec. 7138. Critical agricultural materials research.
Sec. 7139. Aquaculture.

Subtitle B—Modifications

Sec. 7201. Equity in Educational Land-Grant Status Act of 1994.
Sec. 7202. Carryover for experiment stations.
Sec. 7203. Authorization percentages for research and extension formula funds.
Sec. 7204. Carryover for eligible institutions.
Sec. 7205. Initiative for future agriculture and food systems.
Sec. 7206. Eligibility for integrated grants program.
Sec. 7207. Agricultural Research, Extension, and Education Reform Act of 1998.
Sec. 7208. Food, Agriculture, Conservation, and Trade Act of 1990.
Sec. 7209. National Agricultural Research, Extension, and Teaching Policy Act of 1977.
Sec. 7210. Biotechnology risk assessment research.
Sec. 7211. Competitive, special, and facilities research grants.
Sec. 7212. Matching funds requirement for research and extension activities of 1890 Institutions.
Sec. 7213. Matching requirements for research and extension formula funds for insular area land-grant institutions.
Sec. 7214. Definition of food and agricultural sciences.
Sec. 7215. Federal Extension Service.
Sec. 7216. Policy research centers.
Sec. 7217. Availability of competitive grant funds.
Sec. 7218. Organic agriculture research and extension initiative.
Sec. 7219. Senior scientific research service.
Sec. 7220. Termination of certain schedule a appointments.
Sec. 7221. Biosecurity planning and response programs.
Sec. 7222. Indirect costs for small business innovation research grants.
Sec. 7223. Carbon cycle research.

Subtitle C—Repeal of Certain Activities and Authorities

Sec. 7301. Food Safety Research Information Office and National Conference.
Sec. 7302. Reimbursement of expenses under Sheep Promotion, Research, and Information Act of 1994.
Sec. 7303. Market expansion research.
Sec. 7304. National Advisory Board on Agricultural Weather.
Sec. 7305. Agricultural information exchange with Ireland.
Sec. 7306. Pesticide resistance study.
Sec. 7307. Expansion of education study.
Sec. 7308. Task force on 10-year strategic plan for agricultural research facilities.

Subtitle D—New Authorities

Sec. 7401. Subtitle definitions.
Sec. 7402. Research equipment grants.
Sec. 7403. Joint requests for proposals.

Sec. 7404. Review of Agricultural Research Service.
Sec. 7405. Beginning farmer and rancher development program.
Sec. 7406. Sense of Congress regarding doubling of funding for agricultural research.
Sec. 7407. Organic production and market data initiatives.
Sec. 7408. International organic research collaboration.
Sec. 7409. Report on producers and handlers of organic agricultural products.
Sec. 7410. Report on genetically modified pest-protected plants.
Sec. 7411. Study of nutrient banking.
Sec. 7412. Grants for youth organizations.

Subtitle E—Miscellaneous

Sec. 7501. Resident instruction and distance education at institutions of higher education in United States insular areas.
Sec. 7502. Definitions.
Sec. 7503. Resident instruction and distance education grants program for insular area institutions of higher education.
Sec. 7504. Declaration of extraordinary emergency and resulting authorities.
Sec. 7505. Agricultural biotechnology research and development for developing countries.
Sec. 7506. Land acquisition authority, national peanut research laboratory, Dawson, Georgia.

TITLE VIII—FORESTRY

Subtitle A—Cooperative Forestry Assistance Act of 1978

Sec. 8001. Repeal of forestry incentives program and stewardship incentive program.
Sec. 8002. Establishment of forest land enhancement program.
Sec. 8003. Enhanced community fire protection.

Subtitle B—Amendments to Other Laws

Sec. 8101. Sustainable forestry outreach initiative; renewable resources extension activities.
Sec. 8102. Office of International Forestry.

Subtitle C—Miscellaneous Provisions

Sec. 8201. McIntire-Stennis cooperative forestry research program.

TITLE IX—ENERGY

Sec. 9001. Definitions.
Sec. 9002. Federal procurement of biobased products.
Sec. 9003. Biorefinery development grants.
Sec. 9004. Biodiesel fuel education program.
Sec. 9005. Energy audit and renewable energy development program.
Sec. 9006. Renewable energy systems and energy efficiency improvements.
Sec. 9007. Hydrogen and fuel cell technologies.
Sec. 9008. Biomass research and development.
Sec. 9009. Cooperative research and extension projects.
Sec. 9010. Continuation of bioenergy program.

TITLE X—MISCELLANEOUS

Subtitle A—Crop Insurance

Sec. 10001. Equal crop insurance treatment of potatoes and sweet potatoes.
Sec. 10002. Continuous coverage.
Sec. 10003. Quality loss adjustment procedures.
Sec. 10004. Adjusted gross revenue insurance pilot program.
Sec. 10005. Sense of Congress on expansion of crop insurance coverage.
Sec. 10006. Report on specialty crop insurance.

Subtitle B—Disaster Assistance

Sec. 10101. Reference to sea grass and sea oats as crops covered by noninsured crop disaster assistance program.
Sec. 10102. Emergency grants to assist low-income migrant and seasonal farmworkers.
Sec. 10103. Emergency loans for seed producers.
Sec. 10104. Assistance for livestock producers.
Sec. 10105. Market loss assistance for apple producers.
Sec. 10106. Market loss assistance for onion producers.
Sec. 10107. Commercial fisheries failure.
Sec. 10108. Study of feasibility of producer indemnification from Government-caused disasters.

Subtitle C—Tree Assistance Program

Sec. 10201. Definitions.
Sec. 10202. Eligibility.
Sec. 10203. Assistance.
Sec. 10204. Limitations on assistance.
Sec. 10205. Authorization of appropriations.

Subtitle D—Animal Welfare

Sec. 10301. Definition of animal under the Animal Welfare Act.
Sec. 10302. Prohibition on interstate movement of animals for animal fighting.
Sec. 10303. Penalties and foreign commerce provisions of the Animal Welfare Act.
Sec. 10304. Report on rats, mice, and birds.
Sec. 10305. Enforcement of Humane Methods of Slaughter Act of 1958.

Subtitle E—Animal Health Protection

Sec. 10401. Short title.
Sec. 10402. Findings.
Sec. 10403. Definitions.
Sec. 10404. Restriction on importation or entry.
Sec. 10405. Exportation.
Sec. 10406. Interstate movement.
Sec. 10407. Seizure, quarantine, and disposal.
Sec. 10408. Inspections, seizures, and warrants.
Sec. 10409. Detection, control, and eradication of diseases and pests.
Sec. 10410. Veterinary accreditation program.
Sec. 10411. Cooperation.
Sec. 10412. Reimbursable agreements.
Sec. 10413. Administration and claims.
Sec. 10414. Penalties.
Sec. 10415. Enforcement.
Sec. 10416. Regulations and orders.
Sec. 10417. Authorization of appropriations.
Sec. 10418. Repeals and conforming amendments.

Subtitle F—Livestock

Sec. 10501. Transportation of poultry and other animals.
Sec. 10502. Swine contractors.
Sec. 10503. Right to discuss terms of contract.
Sec. 10504. Veterinary training.
Sec. 10505. Pseudorabies eradication program.

Subtitle G—Specialty Crops

Sec. 10601. Marketing orders for caneberries.
Sec. 10602. Availability of section 32 funds.
Sec. 10603. Purchase of specialty crops.

Sec. 10606. National organic certification cost-share program.
Sec. 10607. Exemption of certified organic products from assessments.
Sec. 10608. Cranberry acreage reserve program.

Subtitle H—Administration

Sec. 10701. Initial rate of basic pay for employees of county committees.
Sec. 10702. Commodity Futures Trading Commission pay comparability.
Sec. 10703. Overtime and holiday pay.
Sec. 10704. Assistant Secretary of Agriculture for Civil Rights.
Sec. 10705. Operation of Graduate School of Department of Agriculture.
Sec. 10706. Implementation funding and information management.
Sec. 10707. Outreach and assistance for socially disadvantaged farmers and ranchers.
Sec. 10708. Transparency and accountability for socially disadvantaged farmers and ranchers; public disclosure requirements for county committee elections.

Subtitle I—General Provisions

Sec. 10801. Cotton classification services.
Sec. 10802. Program of public education regarding use of biotechnology in producing food for human consumption.
Sec. 10803. Chino Dairy Preserve Project.
Sec. 10804. Grazinglands Research Laboratory.
Sec. 10805. Food and Agricultural Policy Research Institute.
Sec. 10806. Market names for catfish and ginseng.
Sec. 10807. Food Safety Commission.
Sec. 10808. Pasteurization.
Sec. 10809. Rulemaking on labeling of irradiated food; certain petitions.
Sec. 10810. Penalties for violations of Plant Protection Act.
Sec. 10811. Preclearance quarantine inspections.
Sec. 10812. Connecticut River Atlantic Salmon Commission.
Sec. 10813. Pine Point School.
Sec. 10814. 7-month extension of chapter 12 of title 11 of the United States Code.
Sec. 10815. Practices involving nonambulatory livestock.
Sec. 10816. Country of origin labeling.

Subtitle J—Miscellaneous Studies and Reports

Sec. 10901. Report on specialty crop purchases.
Sec. 10902. Report on pouched and canned salmon.
Sec. 10903. Study on updating yields.
Sec. 10904. Report on effect of farm program payments.
Sec. 10905. Chiloquin Dam fish passage feasibility study.
Sec. 10906. Report on geographically disadvantaged farmers and ranchers.
Sec. 10907. Studies on agricultural research and technology.
Sec. 10908. Report on tobacco settlement agreement.
Sec. 10909. Report on sale and use of pesticides for agricultural uses.
Sec. 10910. Review of operation of agricultural and natural resource programs on tribal trust land.

TITLE I—COMMODITY PROGRAMS

SEC. 1001. DEFINITIONS.

In this title (other than subtitle C):

(1) AGRICULTURAL ACT OF 1949.—The term "Agricultural Act of 1949" means the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.), as in effect prior to the suspensions under section 171 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7301).

(2) BASE ACRES.—The term "base acres", with respect to a covered commodity on a farm, means the number of acres established under section 1101 with respect to the covered commodity on the election made by the owner of the farm under subsection (a) of such section.

(3) COUNTER-CYCLICAL PAYMENT.—The term "counter-cyclical payment" means a payment made to producers on a farm under section 1104.

(4) COVERED COMMODITY.—The term "covered commodity" means wheat, corn, grain sorghum, barley, oats, upland cotton, rice, soybeans, and other oilseeds.

(5) DIRECT PAYMENT.—The term "direct payment" means a payment made to producers on a farm under section 1103.

(6) EFFECTIVE PRICE.—The term "effective price", with respect to a covered commodity for

a crop year, means the price calculated by the Secretary under section 1104 to determine whether counter-cyclical payments are required to be made for that crop year.

(7) EXTRA LONG STAPLE COTTON.—The term "extra long staple cotton" means cotton that—

(A) is produced from pure strain varieties of the Barbadense species or any hybrid thereof, or other similar types of extra long staple cotton, designated by the Secretary, having characteristics needed for various end uses for which United States upland cotton is not suitable and grown in irrigated cotton-growing regions of the United States designated by the Secretary or other areas designated by the Secretary as suitable for the production of the varieties or types; and

(B) is ginned on a roller-type gin or, if authorized by the Secretary, ginned on another type gin for experimental purposes.

(8) LOAN COMMODITY.—The term 'loan commodity' means wheat, corn, grain sorghum, barley, oats, upland cotton, extra long staple cotton, rice, soybeans, other oilseeds, wool, mohair, honey, dry peas, lentils, and small chickpeas.

(9) OTHER OILSEED.—The term "other oilseed" means a crop of sunflower seed, rapeseed, canola, safflower, flaxseed, mustard seed, or, if designated by the Secretary, another oilseed.

(10) PAYMENT ACRES.—The term "payment acres" means 85 percent of the base acres of a covered commodity on a farm, as established under section 1101, on which direct payments and counter-cyclical payments are made.

(11) PAYMENT YIELD.—

(A) IN GENERAL.—The term "payment yield" means the yield established under section 1102 for a farm for a covered commodity.

(B) UPDATED PAYMENT YIELD.—The term "updated payment yield" means the payment yield elected by the owner of a farm under section 1102(e) to be used in calculating the counter-cyclical payments for the farm.

(12) PRODUCER.—The term "producer" means an owner, operator, landlord, tenant, or sharecropper that shares in the risk of producing a crop and is entitled to share in the crop available for marketing from the farm, or would have shared had the crop been produced. In determining whether a grower of hybrid seed is a producer, the Secretary shall not take into consideration the existence of a hybrid seed contract and shall ensure that program requirements do not adversely affect the ability of the grower to receive a payment under this title.

(13) SECRETARY.—The term "Secretary" means the Secretary of Agriculture.

(14) STATE.—The term "State" means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any other territory or possession of the United States.

(15) TARGET PRICE.—The term "target price" means the price per bushel (or other appropriate unit in the case of upland cotton, rice, and other oilseeds) of a covered commodity used to determine the payment rate for counter-cyclical payments.

(16) UNITED STATES.—The term "United States", when used in a geographical sense, means all of the States.

Subtitle A—Direct Payments and Counter-Cyclical Payments

SEC. 1101. ESTABLISHMENT OF BASE ACRES AND PAYMENT ACRES FOR A FARM.

(a) ELECTION BY OWNER OF BASE ACRES CALCULATION METHOD.—

(1) ALTERNATIVE CALCULATION METHODS.—For the purpose of making direct payments and counter-cyclical payments with respect to a farm, the Secretary shall give an owner of the farm an opportunity to elect 1 of the following as the method by which the base acres of all covered commodities on the farm are to be determined:

(A) Subject to paragraphs (3) and (4), the 4-year average of the following:

(i) Acreage planted on the farm to covered commodities for harvest, grazing, haying, silage, or other similar purposes for the 1998 through 2001 crop years.

(ii) Any acreage on the farm that the producers were prevented from planting during the 1998 through 2001 crop years to covered commodities because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, as determined by the Secretary.

(B) Subject to paragraph (3), the sum of the following:

(i) The contract acreage (as defined in section 102 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7202)) used by the Secretary to calculate the fiscal year 2002 payment authorized under section 114 of such Act (7 U.S.C. 7214) for the covered commodities on the farm.

(ii) The 4-year average of eligible oilseed acreage on the farm for the 1998 through 2001 crop years, as determined by the Secretary under paragraph (2).

(2) ELIGIBLE OILSEED ACREAGE.—

(A) CALCULATION.—For purposes of paragraph (1)(B)(ii), the eligible acreage for each oilseed on a farm during each of the 1998 through 2001 crop years shall be determined in the manner provided in paragraph (1)(A), except that the total acreage for all oilseeds on the farm for a crop year may not exceed the difference between—

(i) the total acreage determined under paragraph (1)(A) for all covered commodities for that crop year; and

(ii) the total contract acreage determined under paragraph (1)(B)(i).

(B) EFFECT OF NEGATIVE NUMBER.—If the subtraction performed under subparagraph (A) results in a negative number, the eligible oilseed acreage on the farm for that crop year shall be zero for purposes of determining the 4-year average.

(C) OFFSET OF CONTRACT ACREAGE.—The owner of a farm may increase the eligible acreage for an oilseed on the farm by reducing the contract acreage determined under paragraph (1)(B)(i) for 1 or more covered commodities on an acre-for-acre basis, except that the total base acreage for each oilseed on the farm may not exceed the 4-year average of each oilseed determined under paragraph (1)(B)(ii).

(3) INCLUSION OF ALL 4 YEARS IN AVERAGE.—For the purpose of determining a 4-year acreage average under this subsection for a farm, the Secretary shall not exclude any crop year in which a covered commodity was not planted.

(4) TREATMENT OF MULTIPLE PLANTING OR PREVENTED PLANTING.—For the purpose of determining under paragraph (1)(A) the acreage on a farm that producers planted or were prevented from planting during the 1998 through 2001 crop years to covered commodities, if the acreage that was planted or prevented from being planted was devoted to another covered commodity in the same crop year (other than a covered commodity produced under an established practice of double cropping), the owner may elect the commodity to be used for that crop year in determining the 4-year average, but may not include both the initial commodity and the subsequent commodity.

(b) SINGLE ELECTION; TIME FOR ELECTION.—

(1) NOTICE OF ELECTION OPPORTUNITY.—As soon as practicable after the date of enactment of this Act, the Secretary shall provide notice to owners of farms regarding their opportunity to make the election described in subsection (a). The notice shall include the following:

(A) Notice that the opportunity of an owner to make the election is being provided only once.

(B) Information regarding the manner in which the election must be made and the time periods and manner in which notice of the election must be submitted to the Secretary.

(2) ELECTION DEADLINE.—Within the time period and in the manner prescribed pursuant to paragraph (1), the owner of a farm shall submit to the Secretary notice of the election made by the owner under subsection (a).

(c) EFFECT OF FAILURE TO MAKE ELECTION.—If the owner of a farm fails to make the election under subsection (a) or fails to timely notify the Secretary of the election made, as required by subsection (b), the owner shall be deemed to have made the election described in subsection (a)(1)(B) to determine base acres for all covered commodities on the farm.

(d) APPLICATION OF ELECTION TO ALL COVERED COMMODITIES.—The election made under subparagraph (A) or (B) of subsection (a)(1), or deemed to be made under subsection (c), with respect to a farm shall apply to all of the covered commodities on the farm.

(e) TREATMENT OF CONSERVATION RESERVE CONTRACT ACREAGE.—

(1) IN GENERAL.—The Secretary shall provide for an adjustment, as appropriate, in the base acres for covered commodities for a farm whenever either of the following circumstances occurs:

(A) A conservation reserve contract entered into under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831) with respect to the farm expires or is voluntarily terminated.

(B) Cropland is released from coverage under a conservation reserve contract by the Secretary.

(2) SPECIAL PAYMENT RULES.—For the crop year in which a base acres adjustment under paragraph (1) is first made, the owner of the farm shall elect to receive either direct payments and counter-cyclical payments with respect to the acreage added to the farm under this subsection or a prorated payment under the conservation reserve contract, but not both.

(f) PAYMENT ACRES.—The payment acres for a covered commodity on a farm shall be equal to 85 percent of the base acres for the covered commodity.

(g) PREVENTION OF EXCESS BASE ACRES.—

(1) REQUIRED REDUCTION.—If the sum of the base acres for a farm, together with the acreage described in paragraph (2), exceeds the actual cropland acreage of the farm, the Secretary shall reduce the base acres for 1 or more covered commodities for the farm or the base acres for peanuts for the farm under subtitle C so that the sum of the base acres and acreage described in paragraph (2) does not exceed the actual cropland acreage of the farm.

(2) OTHER ACREAGE.—For purposes of paragraph (1), the Secretary shall include the following:

(A) Any base acres for peanuts for the farm under subtitle C.

(B) Any acreage on the farm enrolled in the conservation reserve program or wetlands reserve program under chapter 1 of subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

(C) Any other acreage on the farm enrolled in a conservation program for which payments are made in exchange for not producing an agricultural commodity on the acreage.

(3) SELECTION OF ACRES.—The Secretary shall give the owner of the farm the opportunity to select the base acres or the base acres for peanuts for the farm under subtitle C against which the reduction required by paragraph (1) will be made.

(4) EXCEPTION FOR DOUBLE-CROPPED ACREAGE.—In applying paragraph (1), the Secretary shall make an exception in the case of double cropping, as determined by the Secretary.

(5) COORDINATED APPLICATION OF REQUIREMENTS.—The Secretary shall take into account section 1302(f) when applying the requirements of this subsection.

(h) PERMANENT REDUCTION IN BASE ACRES.—The owner of a farm may reduce, at any time, the base acres for any covered commodity for the farm. The reduction shall be permanent and made in the manner prescribed by the Secretary.

SEC. 1102. ESTABLISHMENT OF PAYMENT YIELD.

(a) ESTABLISHMENT AND PURPOSE.—For the purpose of making direct payments and counter-cyclical payments under this subtitle, the Secretary shall provide for the establishment of a payment yield for each farm for each covered commodity in accordance with this section.

(b) USE OF FARM PROGRAM PAYMENT YIELD.—Except as otherwise provided in this section, the payment yield for each of the 2002 through 2007 crops of a covered commodity for a farm shall be the farm program payment yield established for the 1995 crop of the covered commodity under section 505 of the Agricultural Act of 1949 (7 U.S.C. 1465), as adjusted by the Secretary to account for any additional yield payments made with respect to that crop under section 505(b)(2) of that Act.

(c) FARMS WITHOUT FARM PROGRAM PAYMENT YIELD.—In the case of a farm for which a farm program payment yield is unavailable for a covered commodity (other than soybeans or other oilseeds), the Secretary shall establish an appropriate payment yield for the covered commodity on the farm taking into consideration the farm program payment yields applicable to the commodity under subsection (b) for similar farms, but before the yields for the similar farms are updated as provided in subsection (e).

(d) PAYMENT YIELDS FOR OILSEEDS.—

(1) DETERMINATION OF AVERAGE YIELD.—In the case of soybeans and each other oilseed, the Secretary shall determine the average yield per planted acre for the oilseed on a farm for the 1998 through 2001 crop years, excluding any crop year in which the acreage planted to the oilseed was zero.

(2) ADJUSTMENT FOR PAYMENT YIELD.—The payment yield for a farm for an oilseed shall be equal to the product of the following:

(A) The average yield for the oilseed determined under paragraph (1).

(B) The ratio resulting from dividing the national average yield for the oilseed for the 1981 through 1985 crops by the national average yield for the oilseed for the 1998 through 2001 crops.

(3) USE OF PARTIAL COUNTY AVERAGE YIELD.—If the yield per planted acre for a crop of an oilseed for a farm for any of the 1998 through 2001 crop years was less than 75 percent of the county yield for that oilseed, the Secretary shall assign a yield for that crop year equal to 75 percent of the county yield for the purpose of determining the average under paragraph (1).

(e) OPPORTUNITY TO PARTIALLY UPDATE YIELDS USED TO DETERMINE COUNTER-CYCLICAL PAYMENTS.—

(1) ELECTION TO UPDATE.—If the owner of a farm elects to use the base acres calculation method described in section 1101(a)(1)(A), the owner shall also have a 1-time opportunity to elect to use 1 of the methods described in paragraph (3) to partially update the payment yields that would otherwise be used in calculating any counter-cyclical payments for covered commodities on the farm.

(2) TIME FOR ELECTION.—The election under paragraph (1) shall be made at the same time and in the same manner as the Secretary prescribes for the election required under section 1101.

(3) METHODS OF UPDATING YIELDS.—If the owner of a farm elects to update yields under this subsection, the payment yield for a covered commodity on the farm, for the purpose of calculating counter-cyclical payments only, shall be equal to the yield determined using either of the following:

(A) The sum of the following:

(i) The payment yield applicable for direct payments for the covered commodity on the farm.

(ii) 70 percent of the difference between—

(I) the average yield per planted acre for the crop of the covered commodity on the farm for the 1998 through 2001 crop years, as determined by the Secretary, excluding any crop year in which the acreage planted to the crop of the covered commodity was zero; and

(II) the payment yield applicable for direct payments for the covered commodity on the farm.

(B) 93.5 percent of the average of the yield per planted acre for the crop of the covered commodity on the farm for the 1998 through 2001 crop years, as determined by the Secretary, excluding any crop year in which the acreage planted to the crop of the covered commodity was zero.

(4) USE OF PARTIAL COUNTY AVERAGE YIELD.—If the yield per planted acre for a crop of the covered commodity for a farm for any of the 1998 through 2001 crop years was less than 75 percent of the county yield for that commodity, the Secretary shall assign a yield for that crop year equal to 75 percent of the county yield for the purpose of determining the average yield under paragraph (3).

(5) APPLICATION OF ELECTION AND METHOD TO ALL COVERED COMMODITIES.—The owner of a farm may not elect the method described in paragraph (3)(A) for 1 covered commodity on the farm and the method described in paragraph (3)(B) for other covered commodities on the farm.

SEC. 1103. AVAILABILITY OF DIRECT PAYMENTS.

(a) PAYMENT REQUIRED.—For each of the 2002 through 2007 crop years of each covered commodity, the Secretary shall make direct payments to producers on farms for which payment yields and base acres are established.

(b) PAYMENT RATE.—The payment rates used to make direct payments with respect to covered commodities for a crop year are as follows:

(1) Wheat, $0.52 per bushel.
(2) Corn, $0.28 per bushel.
(3) Grain sorghum, $0.35 per bushel.
(4) Barley, $0.24 per bushel.
(5) Oats, $0.024 per bushel.
(6) Upland cotton, $0.0667 per pound.
(7) Rice, $2.35 per hundredweight.
(8) Soybeans, $0.44 per bushel.
(9) Other oilseeds, $0.0080 per pound.

(c) PAYMENT AMOUNT.—The amount of the direct payment to be paid to the producers on a farm for a covered commodity for a crop year shall be equal to the product of the following:

(1) The payment rate specified in subsection (b).

(2) The payment acres of the covered commodity on the farm.

(3) The payment yield for the covered commodity for the farm.

(d) TIME FOR PAYMENT.—

(1) IN GENERAL.—The Secretary shall make direct payments—

(A) in the case of the 2002 crop year, as soon as practicable after the date of enactment of this Act; and

(B) in the case of each of the 2003 through 2007 crop years, not before October 1 of the calendar year in which the crop of the covered commodity is harvested.

(2) ADVANCE PAYMENTS.—At the option of the producers on a farm, up to 50 percent of the direct payment for a covered commodity for any of the 2003 through 2007 crop years shall be paid to the producers in advance. The producers shall select the month within which the advance payment for a crop year will be made. The month selected may be any month during the period beginning on December 1 of the calendar year before the calendar year in which the crop of the covered commodity is harvested through the month within which the direct payment would otherwise be made. The producers may change the selected month for a subsequent advance payment by providing advance notice to the Secretary.

(3) REPAYMENT OF ADVANCE PAYMENTS.—If a producer on a farm that receives an advance direct payment for a crop year ceases to be a producer on that farm, or the extent to which the producer shares in the risk of producing a crop changes, before the date the remainder of the direct payment is made, the producer shall be responsible for repaying the Secretary the applicable amount of the advance payment, as determined by the Secretary.

SEC. 1104. AVAILABILITY OF COUNTER-CYCLICAL PAYMENTS.

(a) PAYMENT REQUIRED.—For each of the 2002 through 2007 crop years for each covered commodity, the Secretary shall make counter-cyclical payments to producers on farms for which payment yields and base acres are established with respect to the covered commodity if the Secretary determines that the effective price for the covered commodity is less than the target price for the covered commodity.

(b) EFFECTIVE PRICE.—For purposes of subsection (a), the effective price for a covered commodity is equal to the sum of the following:

(1) The higher of the following:

(A) The national average market price received by producers during the 12-month marketing year for the covered commodity, as determined by the Secretary.

(B) The national average loan rate for a marketing assistance loan for the covered commodity in effect for the applicable period under subtitle B.

(2) The payment rate in effect for the covered commodity under section 1103 for the purpose of making direct payments with respect to the covered commodity.

(c) TARGET PRICE.—

(1) 2002 AND 2003 CROP YEARS.—For purposes of the 2002 and 2003 crop years, the target prices for covered commodities shall be as follows:

(A) Wheat, $3.86 per bushel.
(B) Corn, $2.60 per bushel.
(C) Grain sorghum, $2.54 per bushel.
(D) Barley, $2.21 per bushel.
(E) Oats, $1.40 per bushel.
(F) Upland cotton, $0.7240 per pound.
(G) Rice, $10.50 per hundredweight.
(H) Soybeans, $5.80 per bushel.
(I) Other oilseeds, $0.0980 per pound.

(2) SUBSEQUENT CROP YEARS.—For purposes of each of the 2004 through 2007 crop years, the target prices for covered commodities shall be as follows:

(A) Wheat, $3.92 per bushel.
(B) Corn, $2.63 per bushel.
(C) Grain sorghum, $2.57 per bushel.
(D) Barley, $2.24 per bushel.
(E) Oats, $1.44 per bushel.
(F) Upland cotton, $0.7240 per pound.
(G) Rice, $10.50 per hundredweight.
(H) Soybeans, $5.80 per bushel.
(I) Other oilseeds, $0.1010 per pound.

(d) PAYMENT RATE.—The payment rate used to make counter-cyclical payments with respect to a covered commodity for a crop year shall be equal to the difference between—

(1) the target price for the covered commodity; and

(2) the effective price determined under subsection (b) for the covered commodity.

(e) PAYMENT AMOUNT.—If counter-cyclical payments are required to be paid for any of the 2002 through 2007 crop years of a covered commodity, the amount of the counter-cyclical payment to be paid to the producers on a farm for

that crop year shall be equal to the product of the following:

(1) The payment rate specified in subsection (d).

(2) The payment acres of the covered commodity on the farm.

(3) The payment yield or updated payment yield for the farm, depending on the election of the owner of the farm under section 1102.

(f) Time for Payments.—

(1) General rule.—If the Secretary determines under subsection (a) that counter-cyclical payments are required to be made under this section for the crop of a covered commodity, the Secretary shall make the counter-cyclical payments for the crop as soon as practicable after the end of the 12-month marketing year for the covered commodity.

(2) Availability of partial payments.—If, before the end of the 12-month marketing year for a covered commodity, the Secretary estimates that counter-cyclical payments will be required for the crop of the covered commodity, the Secretary shall give producers on a farm the option to receive partial payments of the counter-cyclical payment projected to be made for that crop of the covered commodity.

(3) Time for partial payments.—

(A) 2002 through 2006 crop years.—When the Secretary makes partial payments available under paragraph (2) for a covered commodity for any of the 2002 through 2006 crop years—

(i) the first partial payment for the crop year shall be made not earlier than October 1, and, to the maximum extent practicable, not later than October 31, of the calendar year in which the crop of the covered commodity is harvested;

(ii) the second partial payment shall be made not earlier than February 1 of the next calendar year; and

(iii) the final partial payment shall be made as soon as practicable after the end of the 12-month marketing year for the covered commodity.

(B) 2007 crop year.—When the Secretary makes partial payments available for a covered commodity for the 2007 crop year—

(i) the first partial payment shall be made after completion of the first 6 months of the marketing year for the covered commodity; and

(ii) the final partial payment shall be made as soon as practicable after the end of the 12-month marketing year for the covered commodity.

(4) Amount of partial payments.—

(A) 2002 through 2006 crop years.—

(i) First partial payment.—For each of the 2002 through 2006 crop years of a covered commodity, the first partial payment under paragraph (3) to the producers on a farm may not exceed 35 percent of the projected counter-cyclical payment for the covered commodity for the crop year, as determined by the Secretary.

(ii) Second partial payment.—The second partial payment for a covered commodity for a crop year may not exceed the difference between—

(I) 70 percent of the projected counter-cyclical payment (including any revision thereof) for the crop of the covered commodity; and

(II) the amount of the payment made under clause (i).

(iii) Final payment.—The final payment for a covered commodity for a crop year shall be equal to the difference between—

(I) the actual counter-cyclical payment to be made to the producers for the covered commodity for that crop year; and

(II) the amount of the partial payments made to the producers under clauses (i) and (ii) for that crop year.

(B) 2007 crop year.—

(i) First partial payment.—For the 2007 crop year, the first partial payment under paragraph (3) to the producers on a farm may not exceed 40 percent of the projected counter-cyclical payment for the covered commodity for the crop year, as determined by the Secretary.

(ii) Final payment.—The final payment for the 2007 crop year shall be equal to the difference between—

(I) the actual counter-cyclical payment to be made to the producers for the covered commodity for that crop year; and

(II) the amount of the partial payment made to the producers under clause (i).

(5) Repayment.—The producers on a farm that receive a partial payment under this subsection for a crop year shall repay to the Secretary the amount, if any, by which the total of the partial payments exceed the actual counter-cyclical payment to be made for the covered commodity for that crop year.

SEC. 1105. PRODUCER AGREEMENT REQUIRED AS CONDITION OF PROVISION OF DIRECT PAYMENTS AND COUNTER-CYCLICAL PAYMENTS.

(a) Compliance With Certain Requirements.—

(1) Requirements.—Before the producers on a farm may receive direct payments or counter-cyclical payments with respect to the farm, the producers shall agree, during the crop year for which the payments are made and in exchange for the payments—

(A) to comply with applicable conservation requirements under subtitle B of title XII of the Food Security Act of 1985 (16 U.S.C. 3811 et seq.);

(B) to comply with applicable wetland protection requirements under subtitle C of title XII of the Act (16 U.S.C. 3821 et seq.);

(C) to comply with the planting flexibility requirements of section 1106;

(D) to use the land on the farm, in a quantity equal to the attributable base acres for the farm and any base acres for peanuts for the farm under subtitle C for an agricultural or conserving use, and not for a nonagricultural commercial or industrial use, as determined by the Secretary; and

(E) to effectively control noxious weeds and otherwise maintain the land in accordance with sound agricultural practices, as determined by the Secretary, if the agricultural or conserving use involves the noncultivation of any portion of the land referred to in subparagraph (D).

(2) Compliance.—The Secretary may issue such rules as the Secretary considers necessary to ensure producer compliance with the requirements of paragraph (1).

(3) Modification.—At the request of the transferee or owner, the Secretary may modify the requirements of this subsection if the modifications are consistent with the objectives of this subsection, as determined by the Secretary.

(b) Transfer or Change of Interest in Farm.—

(1) Termination.—Except as provided in paragraph (2), a transfer of (or change in) the interest of the producers on a farm in base acres for which direct payments or counter-cyclical payments are made shall result in the termination of the payments with respect to the base acres, unless the transferee or owner of the acreage agrees to assume all obligations under subsection (a). The termination shall take effect on the date determined by the Secretary.

(2) Exception.—If a producer entitled to a direct payment or counter-cyclical payment dies, becomes incompetent, or is otherwise unable to receive the payment, the Secretary shall make the payment, in accordance with rules issued by the Secretary.

(c) Acreage Reports.—As a condition on the receipt of any benefits under this subtitle or subtitle B, the Secretary shall require producers on a farm to submit to the Secretary annual acreage reports with respect to all cropland on the farm.

(d) Tenants and Sharecroppers.—In carrying out this subtitle, the Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

(e) Sharing of Payments.—The Secretary shall provide for the sharing of direct payments and counter-cyclical payments among the producers on a farm on a fair and equitable basis.

SEC. 1106. PLANTING FLEXIBILITY.

(a) Permitted Crops.—Subject to subsection (b), any commodity or crop may be planted on base acres on a farm.

(b) Limitations Regarding Certain Commodities.—

(1) General limitation.—The planting of an agricultural commodity specified in paragraph (3) shall be prohibited on base acres unless the commodity, if planted, is destroyed before harvest.

(2) Treatment of trees and other perennials.—The planting of an agricultural commodity specified in paragraph (3) that is produced on a tree or other perennial plant shall be prohibited on base acres.

(3) Covered agricultural commodities.—Paragraphs (1) and (2) apply to the following agricultural commodities:

(A) Fruits.

(B) Vegetables (other than lentils, mung beans, and dry peas).

(C) Wild rice.

(c) Exceptions.—Paragraphs (1) and (2) of subsection (b) shall not limit the planting of an agricultural commodity specified in paragraph (3) of that subsection—

(1) in any region in which there is a history of double-cropping of covered commodities with agricultural commodities specified in subsection (b)(3), as determined by the Secretary, in which case the double-cropping shall be permitted;

(2) on a farm that the Secretary determines has a history of planting agricultural commodities specified in subsection (b)(3) on base acres, except that direct payments and counter-cyclical payments shall be reduced by an acre for each acre planted to such an agricultural commodity; or

(3) by the producers on a farm that the Secretary determines has an established planting history of a specific agricultural commodity specified in subsection (b)(3), except that—

(A) the quantity planted may not exceed the average annual planting history of such agricultural commodity by the producers on the farm in the 1991 through 1995 or 1998 through 2001 crop years (excluding any crop year in which no plantings were made), as determined by the Secretary; and

(B) direct payments and counter-cyclical payments shall be reduced by an acre for each acre planted to such agricultural commodity.

(d) Special Rule for 2002 Crop Year.—For the 2002 crop year only, if the calculation of base acres under section 1101(a) results in total base acres for a farm in excess of the contract acreage (as defined in section 102 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7202)) for the farm used to calculate the fiscal year 2002 payment authorized under section 114 of such Act (7 U.S.C. 7214), paragraphs (1) and (2) of subsection (b) shall not limit the harvesting of an agricultural commodity specified in paragraph (3) of that subsection on the excess base acres, except that direct payments and counter-cyclical payments for the 2002 crop year shall be reduced by an acre for each acre of the excess base acres planted to such an agricultural commodity.

SEC. 1107. RELATION TO REMAINING PAYMENT AUTHORITY UNDER PRODUCTION FLEXIBILITY CONTRACTS.

(a) Termination of Superseded Payment Authority.—Notwithstanding section 113(a)(7) of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7213(a)(7)) or any

other provision of law, the Secretary shall not make payments for fiscal year 2002 after the date of enactment of this Act under a production flexibility contract entered into under section 111 of that Act (7 U.S.C. 7211) unless requested by the producer that is a party to the contract.

(b) CONTRACT PAYMENTS MADE BEFORE ENACTMENT.—If a producer receives all or any portion of the payment authorized for fiscal year 2002 under a production flexibility contract, the Secretary shall reduce the amount of the direct payment otherwise due the producer for the 2002 crop year under section 1103 by the amount of the fiscal year 2002 payment received by the producer under the production flexibility contract.

SEC. 1108. PERIOD OF EFFECTIVENESS.

This subtitle shall be effective beginning with the 2002 crop year of each covered commodity through the 2007 crop year.

Subtitle B—Marketing Assistance Loans and Loan Deficiency Payments

SEC. 1201. AVAILABILITY OF NONRECOURSE MARKETING ASSISTANCE LOANS FOR LOAN COMMODITIES.

(a) NONRECOURSE LOANS AVAILABLE.—

(1) AVAILABILITY.—For each of the 2002 through 2007 crops of each loan commodity, the Secretary shall make available to producers on a farm nonrecourse marketing assistance loans for loan commodities produced on the farm.

(2) TERMS AND CONDITIONS.—The marketing assistance loans shall be made under terms and conditions that are prescribed by the Secretary and at the loan rate established under section 1202 for the loan commodity.

(b) ELIGIBLE PRODUCTION.—The producers on a farm shall be eligible for a marketing assistance loan under subsection (a) for any quantity of a loan commodity produced on the farm.

(c) TREATMENT OF CERTAIN COMMINGLED COMMODITIES.—In carrying out this subtitle, the Secretary shall make loans to producers on a farm that would be eligible to obtain a marketing assistance loan, but for the fact the loan commodity owned by the producers on the farm commingled with loan commodities of other producers in facilities unlicensed for the storage of agricultural commodities by the Secretary or a State licensing authority, if the producers obtaining the loan agree to immediately redeem the loan collateral in accordance with section 166 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7286).

(d) COMPLIANCE WITH CONSERVATION AND WETLANDS REQUIREMENTS.—As a condition of the receipt of a marketing assistance loan under subsection (a), the producer shall comply with applicable conservation requirements under subtitle B of title XII of the Food Security Act of 1985 (16 U.S.C. 3811 et seq.) and applicable wetland protection requirements under subtitle C of title XII of the Act (16 U.S.C. 3821 et seq.) during the term of the loan.

(e) TERMINATION OF SUPERSEDED LOAN AUTHORITY.—Notwithstanding section 131 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7231), nonrecourse marketing assistance loans shall not be made for the 2002 crop of loan commodities under subtitle C of title I of such Act.

SEC. 1202. LOAN RATES FOR NONRECOURSE MARKETING ASSISTANCE LOANS.

(a) 2002 AND 2003 CROP YEARS.—For purposes of the 2002 and 2003 crop years, the loan rate for a marketing assistance loan under section 1201 for a loan commodity shall be equal to the following:

(1) In the case of wheat, $2.80 per bushel.

(2) In the case of corn, $1.98 per bushel.

(3) In the case of grain sorghum, $1.98 per bushel.

(4) In the case of barley, $1.88 per bushel.

(5) In the case of oats, $1.35 per bushel.

(6) In the case of upland cotton, $0.52 per pound.

(7) In the case of extra long staple cotton, $0.7977 per pound.

(8) In the case of rice, $6.50 per hundredweight.

(9) In the case of soybeans, $5.00 per bushel.

(10) In the case of other oilseeds, $0.0960 per pound.

(11) In the case of graded wool, $1.00 per pound.

(12) In the case of nongraded wool, $0.40 per pound.

(13) In the case of mohair, $4.20 per pound.

(14) In the case of honey, $0.60 per pound.

(15) In the case of dry peas, $6.33 per hundredweight.

(16) In the case of lentils, $11.94 per hundredweight.

(17) In the case of small chickpeas, $7.56 per hundredweight.

(b) 2004 THROUGH 2007 CROP YEARS.—For purposes of the 2004 through 2007 crop years, the loan rate for a marketing assistance loan under section 1201 for a loan commodity shall be equal to the following:

(1) In the case of wheat, $2.75 per bushel.

(2) In the case of corn, $1.95 per bushel.

(3) In the case of grain sorghum, $1.95 per bushel.

(4) In the case of barley, $1.85 per bushel.

(5) In the case of oats, $1.33 per bushel.

(6) In the case of upland cotton, $0.52 per pound.

(7) In the case of extra long staple cotton, $0.7977 per pound.

(8) In the case of rice, $6.50 per hundredweight.

(9) In the case of soybeans, $5.00 per bushel.

(10) In the case of other oilseeds, $0.0930 per pound.

(11) In the case of graded wool, $1.00 per pound.

(12) In the case of nongraded wool, $0.40 per pound.

(13) In the case of mohair, $4.20 per pound.

(14) In the case of honey, $0.60 per pound.

(15) In the case of dry peas, $6.22 per hundredweight.

(16) In the case of lentils, $11.72 per hundredweight.

(17) In the case of small chickpeas, $7.43 per hundredweight.

SEC. 1203. TERM OF LOANS.

(a) TERM OF LOAN.—In the case of each loan commodity, a marketing assistance loan under section 1201 shall have a term of 9 months beginning on the first day of the first month after the month in which the loan is made.

(b) EXTENSIONS PROHIBITED.—The Secretary may not extend the term of a marketing assistance loan for any loan commodity.

SEC. 1204. REPAYMENT OF LOANS.

(a) GENERAL RULE.—The Secretary shall permit the producers on a farm to repay a marketing assistance loan under section 1201 for a loan commodity (other than upland cotton, rice, and extra long staple cotton) at a rate that is the lesser of—

(1) the loan rate established for the commodity under section 1202, plus interest (determined in accordance with section 163 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7283)); or

(2) a rate that the Secretary determines will—

(A) minimize potential loan forfeitures;

(B) minimize the accumulation of stocks of the commodity by the Federal Government;

(C) minimize the cost incurred by the Federal Government in storing the commodity;

(D) allow the commodity produced in the United States to be marketed freely and competitively, both domestically and internationally; and

(E) minimize discrepancies in marketing loan benefits across State boundaries and across county boundaries.

(b) REPAYMENT RATES FOR UPLAND COTTON AND RICE.—The Secretary shall permit producers to repay a marketing assistance loan under section 1201 for upland cotton and rice at a rate that is the lesser of—

(1) the loan rate established for the commodity under section 1202, plus interest (determined in accordance with section 163 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7283)); or

(2) the prevailing world market price for the commodity (adjusted to United States quality and location), as determined by the Secretary.

(c) REPAYMENT RATES FOR EXTRA LONG STAPLE COTTON.—Repayment of a marketing assistance loan for extra long staple cotton shall be at the loan rate established for the commodity under section 1202, plus interest (determined in accordance with section 163 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7283)).

(d) PREVAILING WORLD MARKET PRICE.—For purposes of this section and section 1207, the Secretary shall prescribe by regulation—

(1) a formula to determine the prevailing world market price for upland cotton and rice, adjusted to United States quality and location; and

(2) a mechanism by which the Secretary shall announce periodically the prevailing world market price for upland cotton and rice.

(e) ADJUSTMENT OF PREVAILING WORLD MARKET PRICE FOR UPLAND COTTON.—

(1) IN GENERAL.—During the period beginning on the date of the enactment of this Act through July 31, 2008, the prevailing world market price for upland cotton (adjusted to United States quality and location) established under subsection (d) shall be further adjusted if—

(A) the adjusted prevailing world market price is less than 115 percent of the loan rate for upland cotton established under section 1202, as determined by the Secretary; and

(B) the Friday through Thursday average price quotation for the lowest-priced United States growth as quoted for Middling (M) $1\frac{3}{32}$-inch cotton delivered C.I.F. Northern Europe is greater than the Friday through Thursday average price of the 5 lowest-priced growths of upland cotton, as quoted for Middling (M) $1\frac{3}{32}$-inch cotton, delivered C.I.F. Northern Europe (referred to in this section as the "Northern Europe price").

(2) FURTHER ADJUSTMENT.—Except as provided in paragraph (3), the adjusted prevailing world market price for upland cotton shall be further adjusted on the basis of some or all of the following data, as available:

(A) The United States share of world exports.

(B) The current level of cotton export sales and cotton export shipments.

(C) Other data determined by the Secretary to be relevant in establishing an accurate prevailing world market price for upland cotton (adjusted to United States quality and location).

(3) LIMITATION ON FURTHER ADJUSTMENT.—The adjustment under paragraph (2) may not exceed the difference between—

(A) the Friday through Thursday average price for the lowest-priced United States growth as quoted for Middling $1\frac{3}{32}$-inch cotton delivered C.I.F. Northern Europe; and

(B) the Northern Europe price.

(f) GOOD FAITH EXCEPTION TO BENEFICIAL INTEREST REQUIREMENT.—For the 2001 crop year only, in the case of the producers on a farm that marketed or otherwise lost beneficial interest in a loan commodity for which a marketing assistance loan was made under section 131 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7231) before repaying the *loan, the Secretary shall permit the producers to repay the loan at the appropriate repayment rate that was in effect for the loan commodity under section 134 of that Act (7 U.S.C. 7234) on the date that the producers lost beneficial interest, as determined by the Secretary, if the Secretary determines the producers acted in good faith.*

SEC. 1205. LOAN DEFICIENCY PAYMENTS.

(a) Availability of Loan Deficiency Payments.—

(1) In general.—Except as provided in subsection (d), the Secretary may make loan deficiency payments available to producers on a farm that, although eligible to obtain a marketing assistance loan under section 1201 with respect to a loan commodity, agree to forgo obtaining the loan for the commodity in return for loan deficiency payments under this section.

(2) Unshorn pelts, hay, and silage.—Nongraded wool in the form of unshorn pelts and hay and silage derived from a loan commodity are not eligible for a marketing assistance loan under section 1201. However, effective for the 2002 through 2007 crop years, the Secretary may make loan deficiency payments available under this section to producers on a farm that produce unshorn pelts or hay and silage derived from a loan commodity.

(b) Computation.—A loan deficiency payment for a loan commodity or commodity referred to in subsection (a)(2) shall be computed by multiplying—

(1) the payment rate determined under subsection (c) for the commodity; by

(2) the quantity of the commodity produced by the eligible producers, excluding any quantity for which the producers obtain a marketing assistance loan under section 1201.

(c) Payment Rate.—

(1) In general.—In the case of a loan commodity, the payment rate shall be the amount by which—

(A) the loan rate established under section 1202 for the loan commodity; exceeds

(B) the rate at which a marketing assistance loan for the loan commodity may be repaid under section 1204.

(2) Unshorn pelts.—In the case of unshorn pelts, the payment rate shall be the amount by which—

(A) the loan rate established under section 1202 for ungraded wool; exceeds

(B) the rate at which a marketing assistance loan for ungraded wool may be repaid under section 1204.

(3) Hay and silage.—In the case of hay or silage derived from a loan commodity, the payment rate shall be the amount by which—

(A) the loan rate established under section 1202 for the loan commodity from which the hay or silage is derived; exceeds

(B) the rate at which a marketing assistance loan for the loan commodity may be repaid under section 1204.

(d) Exception for Extra Long Staple Cotton.—This section shall not apply with respect to extra long staple cotton.

(e) Effective Date for Payment Rate Determination.—The Secretary shall determine the amount of the loan deficiency payment to be made under this section to the producers on a farm with respect to a quantity of a loan commodity or commodity referred to in subsection (a)(2) using the payment rate in effect under subsection (c) as of the date the producers request the payment.

(f) Special Loan Deficiency Payment Rules.—

(1) First-time loan commodities.—For the 2002 crop of wool, mohair, honey, dry peas, lentils and small chickpeas, in the case of producers of such a crop that would be eligible for a loan deficiency payment under this section except for the fact that the producers lost beneficial interest in the crop prior to the date of publication of the regulations implementing this section, the producers shall be eligible for a loan deficiency payment as of the date producers marketed or otherwise lost beneficial interest in the crop, as determined by the Secretary.

(2) 2001 crop year.—Section 135 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7235) is amended—

(A) in subsection (a)(2), by striking "2000 crop year" and inserting "2000 and 2001 crop years"; and

(B) by adding at the end the following:

"(g) Effective Date for Payment Rate Determination.—For the 2001 crop year, the Secretary shall determine the amount of the loan deficiency payment to be made under this section to the producers on a farm with respect to a quantity of a loan commodity using the payment rate in effect under subsection (c) as of the earlier of the following:

"(1) The date on which the producers marketed or otherwise lost beneficial interest in the crop of the loan commodity, as determined by the Secretary.

"(2) The date the producers requested the payment.".

SEC. 1206. PAYMENTS IN LIEU OF LOAN DEFICIENCY PAYMENTS FOR GRAZED ACREAGE.

(a) Eligible Producers.—

(1) In general.—Effective for the 2002 through 2007 crop years, in the case of a producer that would be eligible for a loan deficiency payment under section 1205 for wheat, barley, or oats, but that elects to use acreage planted to the wheat, barley, or oats for the grazing of livestock, the Secretary shall make a payment to the producer under this section if the producer enters into an agreement with the Secretary to forgo any other harvesting of the wheat, barley, or oats on that acreage.

(2) Grazing of triticale acreage.—Effective for the 2002 through 2007 crop years, with respect to a producer on a farm that uses acreage planted to triticale for the grazing of livestock, the Secretary shall make a payment to the producer under this section if the producer enters into an agreement with the Secretary to forgo any other harvesting of triticale on that acreage.

(b) Payment Amount.—

(1) In general.—The amount of a payment made under this section to a producer on a farm described in subsection (a)(1) shall be equal to the amount determined by multiplying—

(A) the loan deficiency payment rate determined under section 1205(c) in effect, as of the date of the agreement, for the county in which the farm is located; by

(B) the payment quantity determined by multiplying—

(i) the quantity of the grazed acreage on the farm with respect to which the producer elects to forgo harvesting of wheat, barley, or oats; and

(ii) the payment yield in effect for the calculation of direct payments under subtitle A with respect to that loan commodity on the farm or, in the case of a farm without a payment yield for that loan commodity, an appropriate yield established by the Secretary in a manner consistent with section 1102(c).

(2) Grazing of triticale acreage.—The amount of a payment made under this section to a producer on a farm described in subsection (a)(2) shall be equal to the amount determined by multiplying—

(A) the loan deficiency payment rate determined under section 1205(c) in effect for wheat, as of the date of the agreement, for the county in which the farm is located; by

(B) the payment quantity determined by multiplying—

(i) the quantity of the grazed acreage on the farm with respect to which the producer elects to forgo harvesting of triticale; and

(ii) the payment yield in effect for the calculation of direct payments under subtitle A with respect to wheat on the farm or, in the case of a farm without a payment yield for wheat, an appropriate yield established by the Secretary in a manner consistent with section 1102(c).

(c) Time, Manner, and Availability of Payment.—

(1) Time and manner.—A payment under this section shall be made at the same time and in the same manner as loan deficiency payments are made under section 1205.

(2) Availability.—The Secretary shall establish an availability period for the payments authorized by this section. In the case of wheat, barley, and oats, the availability period shall be consistent with the availability period for the commodity established by the Secretary for marketing assistance loans authorized by this subtitle.

(d) Prohibition on Crop Insurance Indemnity or Noninsured Crop Assistance.—A 2002 through 2007 crop of wheat, barley, oats, or triticale planted on acreage that a producer elects, in the agreement required by subsection (a), to use for the grazing of livestock in lieu of any other harvesting of the crop shall not be eligible for an indemnity under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) or noninsured crop assistance under section 196 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7333).

SEC. 1207. SPECIAL MARKETING LOAN PROVISIONS FOR UPLAND COTTON.

(a) Cotton User Marketing Certificates.—

(1) Issuance.—During the period beginning on the date of the enactment of this Act through July 31, 2008, the Secretary shall issue marketing certificates or cash payments, at the option of the recipient, to domestic users and exporters for documented purchases by domestic users and sales for export by exporters made in the week following a consecutive 4-week period in which—

(A) the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) $1\frac{3}{32}$-inch cotton, delivered C.I.F. Northern Europe exceeds the Northern Europe price by more than 1.25 cents per pound; and

(B) the prevailing world market price for upland cotton (adjusted to United States quality and location) does not exceed 134 percent of the loan rate for upland cotton established under section 1202.

(2) Value of certificates or payments.—The value of the marketing certificates or cash payments shall be based on the amount of the difference (reduced by 1.25 cents per pound) in the prices during the fourth week of the consecutive 4-week period multiplied by the quantity of upland cotton included in the documented sales.

(3) Administration of marketing certificates.—

(A) Redemption, marketing, or exchange.—The Secretary shall establish procedures for redeeming marketing certificates for cash or marketing or exchange of the certificates for agricultural commodities owned by the Commodity Credit Corporation or pledged to the Commodity Credit Corporation as collateral for a loan in such manner, and at such price levels, as the Secretary determines will best effectuate the purposes of cotton user marketing certificates, including enhancing the competitiveness and marketability of United States cotton. Any price restrictions that would otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this subsection.

(B) DESIGNATION OF COMMODITIES AND PRODUCTS.—To the extent practicable, the Secretary shall permit owners of certificates to designate the commodities and products, including storage sites, the owners would prefer to receive in exchange for certificates

(C) TRANSFERS.—Marketing certificates issued to domestic users and exporters of upland cotton may be transferred to other persons in accordance with regulations issued by the Secretary.

(4) DELAYED APPLICATION OF THRESHOLD.—Through July 31, 2006, the Secretary shall make the calculations under paragraphs (1)(A) and (2) without regard to the 1.25 cent threshold provided under those paragraphs.

(b) SPECIAL IMPORT QUOTA.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—The President shall carry out an import quota program during the period beginning on the date of the enactment of this Act through July 31, 2008, as provided in this subsection.

(B) PROGRAM REQUIREMENTS.—Except as provided in subparagraph (C), whenever the Secretary determines and announces that for any consecutive 4-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) $1\frac{3}{32}$-inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificate issued under subsection (a), exceeds the Northern Europe price by more than 1.25 cents per pound, there shall immediately be in effect a special import quota.

(C) TIGHT DOMESTIC SUPPLY.—During any month for which the Secretary estimates the season-ending United States upland cotton stocks-to-use ratio, as determined under subparagraph (D), to be below 16 percent, the Secretary, in making the determination under subparagraph (B), shall not adjust the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) $1\frac{3}{32}$-inch cotton, delivered C.I.F. Northern Europe, for the value of any certificates issued under subsection (a).

(D) SEASON-ENDING UNITED STATES STOCKS-TO-USE RATIO.—For the purposes of making estimates under subparagraph (C), the Secretary shall, on a monthly basis, estimate and report the season-ending United States upland cotton stocks-to-use ratio, excluding projected raw cotton imports but including the quantity of raw cotton that has been imported into the United States during the marketing year.

(E) DELAYED APPLICATION OF THRESHOLD.—Through July 31, 2006, the Secretary shall make the calculation under subparagraph (B) without regard to the 1.25 cent threshold provided under that subparagraph.

(2) QUANTITY.—The quota shall be equal to one week's consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the most recent three months for which data are available.

(3) APPLICATION.—The quota shall apply to upland cotton purchased not later than 90 days after the date of the Secretary's announcement under paragraph (1) and entered into the United States not later than 180 days after the date.

(4) OVERLAP.—A special quota period may be established that overlaps any existing quota period if required by paragraph (1), except that a special quota period may not be established under this subsection if a quota period has been established under subsection (c).

(5) PREFERENTIAL TARIFF TREATMENT.—The quantity under a special import quota shall be considered to be an in-quota quantity for purposes of—

(A) section 213(d) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(d));

(B) section 204 of the Andean Trade Preference Act (19 U.S.C. 3203);

(C) section 503(d) of the Trade Act of 1974 (19 U.S.C. 2463(d)); and

(D) General Note 3(a)(iv) to the Harmonized Tariff Schedule.

(6) DEFINITION.—In this subsection, the term "special import quota" means a quantity of imports that is not subject to the over-quota tariff rate of a tariff-rate quota.

(7) LIMITATION.—The quantity of cotton entered into the United States during any marketing year under the special import quota established under this subsection may not exceed the equivalent of 5 week's consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the 3 months immediately preceding the first special import quota established in any marketing year.

(c) LIMITED GLOBAL IMPORT QUOTA FOR UPLAND COTTON.—

(1) IN GENERAL.—The President shall carry out an import quota program that provides that whenever the Secretary determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of such quality of cotton in the markets for the preceding 36 months, notwithstanding any other provision of law, there shall immediately be in effect a limited global import quota subject to the following conditions:

(A) QUANTITY.—The quantity of the quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available.

(B) QUANTITY IF PRIOR QUOTA.—If a quota has been established under this subsection during the preceding 12 months, the quantity of the quota next established under this subsection shall be the smaller of 21 days of domestic mill consumption calculated under subparagraph (A) or the quantity required to increase the supply to 130 percent of the demand.

(C) PREFERENTIAL TARIFF TREATMENT.—The quantity under a limited global import quota shall be considered to be an in-quota quantity for purposes of—

(i) section 213(d) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(d));

(ii) section 204 of the Andean Trade Preference Act (19 U.S.C. 3203);

(iii) section 503(d) of the Trade Act of 1974 (19 U.S.C. 2463(d)); and

(iv) General Note 3(a)(iv) to the Harmonized Tariff Schedule.

(D) DEFINITIONS.—In this subsection:

(i) SUPPLY.—The term "supply" means, using the latest official data of the Bureau of the Census, the Department of Agriculture, and the Department of the Treasury—

(I) the carry-over of upland cotton at the beginning of the marketing year (adjusted to 480-pound bales) in which the quota is established;

(II) production of the current crop; and

(III) imports to the latest date available during the marketing year.

(ii) DEMAND.—The term "demand" means—

(I) the average seasonally adjusted annual rate of domestic mill consumption during the most recent 3 months for which data are available; and

(II) the larger of—

(aa) average exports of upland cotton during the preceding 6 marketing years; or

(bb) cumulative exports of upland cotton plus outstanding export sales for the marketing year in which the quota is established.

(iii) LIMITED GLOBAL IMPORT QUOTA.—The term "limited global import quota" means a quantity of imports that is not subject to the over-quota tariff rate of a tariff-rate quota.

(E) QUOTA ENTRY PERIOD.—When a quota is established under this subsection, cotton may be entered under the quota during the 90-day period beginning on the date the quota is established by the Secretary.

(2) NO OVERLAP.—Notwithstanding paragraph (1), a quota period may not be established that overlaps an existing quota period or a special quota period established under subsection (b).

SEC. 1208. SPECIAL COMPETITIVE PROVISIONS FOR EXTRA LONG STAPLE COTTON.

(a) COMPETITIVENESS PROGRAM.—Notwithstanding any other provision of law, during the period beginning on the date of the enactment of this Act through July 31, 2008, the Secretary shall carry out a program—

(1) to maintain and expand the domestic use of extra long staple cotton produced in the United States;

(2) to increase exports of extra long staple cotton produced in the United States; and

(3) to ensure that extra long staple cotton produced in the United States remains competitive in world markets.

(b) PAYMENTS UNDER PROGRAM; TRIGGER.—Under the program, the Secretary shall make payments available under this section whenever—

(1) for a consecutive 4-week period, the world market price for the lowest priced competing growth of extra long staple cotton (adjusted to United States quality and location and for other factors affecting the competitiveness of such cotton), as determined by the Secretary, is below the prevailing United States price for a competing growth of extra long staple cotton; and

(2) the lowest priced competing growth of extra long staple cotton (adjusted to United States quality and location and for other factors affecting the competitiveness of such cotton), as determined by the Secretary, is less than 134 percent of the loan rate for extra long staple cotton.

(c) ELIGIBLE RECIPIENTS.—The Secretary shall make payments available under this section to domestic users of extra long staple cotton produced in the United States and exporters of extra long staple cotton produced in the United States that enter into an agreement with the Commodity Credit Corporation to participate in the program under this section.

(d) PAYMENT AMOUNT.—Payments under this section shall be based on the amount of the difference in the prices referred to in subsection (b)(1) during the fourth week of the consecutive 4-week period multiplied by the amount of documented purchases by domestic users and sales for export by exporters made in the week following such a consecutive 4-week period.

(e) FORM OF PAYMENT.—Payments under this section shall be made through the issuance of cash or marketing certificates, at the option of eligible recipients of the payments.

SEC. 1209. AVAILABILITY OF RECOURSE LOANS FOR HIGH MOISTURE FEED GRAINS AND SEED COTTON.

(a) HIGH MOISTURE FEED GRAINS.—

(1) RECOURSE LOANS AVAILABLE.—For each of the 2002 through 2007 crops of corn and grain sorghum, the Secretary shall make available recourse loans, as determined by the Secretary, to producers on a farm that—

(A) normally harvest all or a portion of their crop of corn or grain sorghum in a high moisture state;

(B) present—

(i) certified scale tickets from an inspected, certified commercial scale, including a licensed warehouse, feedlot, feed mill, distillery, or other similar entity approved by the Secretary, pursuant to regulations issued by the Secretary; or

(ii) field or other physical measurements of the standing or stored crop in regions of the United States, as determined by the Secretary, that do not have certified commercial scales from which certified scale tickets may be obtained within reasonable proximity of harvest operation;

(C) certify that they were the owners of the feed grain at the time of delivery to, and that the quantity to be placed under loan under this subsection was in fact harvested on the farm and delivered to, a feedlot, feed mill, or commercial or on-farm high-moisture storage facility, or to a facility maintained by the users of corn and grain sorghum in a high moisture state; and

(D) comply with deadlines established by the Secretary for harvesting the corn or grain sorghum and submit applications for loans under this subsection within deadlines established by the Secretary.

(2) ELIGIBILITY OF ACQUIRED FEED GRAINS.—A loan under this subsection shall be made on a quantity of corn or grain sorghum of the same crop acquired by the producer equivalent to a quantity determined by multiplying—

(A) the acreage of the corn or grain sorghum in a high moisture state harvested on the producer's farm; by

(B) the lower of the farm program payment yield used to make counter-cyclical payments under subtitle A or the actual yield on a field, as determined by the Secretary, that is similar to the field from which the corn or grain sorghum was obtained.

(3) HIGH MOISTURE STATE DEFINED.—In this subsection, the term "high moisture state" means corn or grain sorghum having a moisture content in excess of Commodity Credit Corporation standards for marketing assistance loans made by the Secretary under section 1201.

(b) RECOURSE LOANS AVAILABLE FOR SEED COTTON.—For each of the 2002 through 2007 crops of upland cotton and extra long staple cotton, the Secretary shall make available recourse seed cotton loans, as determined by the Secretary, on any production.

(c) REPAYMENT RATES.—Repayment of a recourse loan made under this section shall be at the loan rate established for the commodity by the Secretary, plus interest (determined in accordance with section 163 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7283)).

(d) TERMINATION OF SUPERSEDED LOAN AUTHORITY.—Notwithstanding section 137 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7237), recourse loans shall not be made for the 2002 crop of corn, grain sorghum, and seed cotton under such section.

Subtitle C—Peanuts

SEC. 1301. DEFINITIONS.

In this subtitle:

(1) BASE ACRES FOR PEANUTS.—The term "base acres for peanuts" means the number of acres assigned to a farm by historic peanut producers pursuant to section 1302(b).

(2) COUNTER-CYCLICAL PAYMENT.—The term "counter-cyclical payment" means a payment made under section 1304.

(3) EFFECTIVE PRICE.—The term "effective price" means the price calculated by the Secretary under section 1304 for peanuts to determine whether counter-cyclical payments are required to be made under that section for a crop year.

(4) DIRECT PAYMENT.—The term "direct payment" means a payment made under section 1303.

(5) HISTORIC PEANUT PRODUCER.—The term "historic peanut producer" means a producer on a farm in the United States that produced or was prevented from planting peanuts during any or all of the 1998 through 2001 crop years.

(6) PAYMENT ACRES.—The term "payment acres" means—

(A) for the 2002 crop of peanuts, 85 percent of the average acreage determined under section 1302(a)(2) for an historic peanut producer; and

(B) for the 2003 through 2007 crops of peanuts, 85 percent of the base acres for peanuts assigned to a farm under section 1302(b).

(7) PAYMENT YIELD.—The term "payment yield" means the yield assigned to a farm by historic peanut producers pursuant to section 1302(b).

(8) PRODUCER.—The term "producer" means an owner, operator, landlord, tenant, or sharecropper that shares in the risk of producing a crop on a farm and is entitled to share in the crop available for marketing from the farm, or would have shared had the crop been produced. In determining whether a grower of hybrid seed is a producer, the Secretary shall not take into consideration the existence of a hybrid seed contract and shall ensure that program requirements do not adversely affect the ability of the grower to receive a payment under this subtitle.

(9) SECRETARY.—The term "Secretary" means the Secretary of Agriculture.

(10) STATE.—The term "State" means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any other territory or possession of the United States.

(11) TARGET PRICE.—The term "target price" means the price per ton of peanuts used to determine the payment rate for counter-cyclical payments.

(12) UNITED STATES.—The term "United States", when used in a geographical sense, means all of the States.

SEC. 1302. ESTABLISHMENT OF PAYMENT YIELD AND BASE ACRES FOR PEANUTS FOR A FARM.

(a) AVERAGE YIELD AND ACREAGE AVERAGE FOR HISTORIC PEANUT PRODUCERS.—

(1) DETERMINATION OF AVERAGE YIELD.—

(A) IN GENERAL.—The Secretary shall determine, for each historic peanut producer, the average yield for peanuts on each farm on which the historic peanut producer planted peanuts for harvest for the 1998 through 2001 crop years, excluding any crop year in which the producer did not plant or was prevented from planting peanuts.

(B) ASSIGNED YIELDS.—For the purposes of determining the 4-year average yield for an historic peanut producer under this paragraph, the historic peanut producer may elect to substitute for a farm, for not more than 3 of the 1998 through 2001 crop years in which the producer planted peanuts on the farm, the average yield for peanuts produced in the county in which the farm is located for the 1990 through 1997 crop years.

(2) DETERMINATION OF ACREAGE AVERAGE.—

(A) IN GENERAL.—The Secretary shall determine, for each historic peanut producer, the 4-year average of the following:

(i) Acreage planted to peanuts on each farm on which the historic peanut producer planted peanuts for harvest for the 1998 through 2001 crop years.

(ii) Any acreage on each farm that the historic peanut producer was prevented from planting to peanuts during the 1998 through 2001 crop years because of drought, flood, or other natural disaster, or other condition beyond the control of the historic peanut producer, as determined by the Secretary.

(B) INCLUSION OF ALL 4 YEARS IN AVERAGE.—For the purposes of determining the 4-year acreage average for an historic peanut producer under this paragraph, the Secretary shall not exclude any crop year in which the producer did not plant peanuts.

(C) PROPORTIONAL SHARES.—If more than 1 historic peanut producer shared in the risk of producing the crop on a farm, the historic peanut producers shall receive their proportional share of the number of acres planted (or prevented from being planted) to peanuts for harvest on the farm based on the sharing arrangement that was in effect among the producers for the crop.

(3) TIME FOR DETERMINATIONS.—The Secretary shall make the determinations required by this subsection as soon as practicable after the date of enactment of this Act.

(4) SPECIAL CONSIDERATIONS.—In making the determinations required by this subsection, the Secretary shall take into account changes in the number, identity, or interest of producers sharing in the risk of producing a peanut crop since the 1998 crop year, including providing a method for the assignment of average acres and average yield to a farm—

(A) when an historic peanut producer is no longer living;

(B) when an entity composed of historic peanut producers has been dissolved; or

(C) in other appropriate situations, as determined by the Secretary.

(b) ASSIGNMENT OF AVERAGE YIELDS AND AVERAGE ACREAGE TO FARMS.—

(1) ASSIGNMENT BY HISTORIC PEANUT PRODUCERS.—The Secretary shall give each historic peanut producer an opportunity to assign the average peanut yield and average acreage determined under subsection (a) for each farm of the historic peanut producer to cropland on that farm or another farm in the same State or a contiguous State.

(2) LIMITATION ON ACREAGE ASSIGNMENT.—Notwithstanding paragraph (1), the average acreage determined under subsection (a)(2) for a farm may not be assigned to a farm in a contiguous State unless—

(A) the historic peanut producer making the assignment produced peanuts in that State during at least 1 of the 1998 through 2001 crop years; or

(B) as of March 31, 2003, the historic peanut producer is a producer on a farm in that State.

(3) NOTICE OF ASSIGNMENT OPPORTUNITY.—The Secretary shall provide notice to historic peanut producers regarding their opportunity to assign average peanut yields and average acreages to farms under paragraph (1). The notice shall include the following:

(A) Notice that the opportunity to make the assignments is being provided only once.

(B) A description of the limitation in paragraph (2) on their ability to make the assignments.

(C) Information regarding the manner in which the assignments must be made and the time periods and manner in which notice of the assignments must be submitted to the Secretary.

(4) ASSIGNMENT DEADLINES.—Not later than March 31, 2003, an historic peanut producer shall submit to the Secretary notice of the assignments made by the producer under this subsection. If an historic peanut producer fails to submit the notice by that date, the notice shall be submitted in such other manner as the Secretary may prescribe.

(c) PAYMENT YIELD.—The average of all of the yields assigned by historic peanut producers under subsection (b) to a farm shall be considered to be the payment yield for that farm for the purpose of making direct payments and counter-cyclical payments under this subtitle.

(d) BASE ACRES FOR PEANUTS.—Subject to subsection (e), the total number of acres assigned by historic peanut producers under subsection (b) to a farm shall be considered to be the farm's base acres for peanuts for the purpose of making direct payments and counter-cyclical payments under this subtitle.

(e) TREATMENT OF CONSERVATION RESERVE CONTRACT ACREAGE.—

(1) IN GENERAL.—The Secretary shall provide for an adjustment, as appropriate, in the base acres for peanuts for a farm whenever either of the following circumstances occur:

(A) A conservation reserve contract entered into under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831) with respect to the farm expires or is voluntarily terminated.

(B) Cropland is released from coverage under a conservation reserve contract by the Secretary.

(2) SPECIAL PAYMENT RULES.—For the crop year in which a base acres for peanuts adjustment under paragraph (1) is first made, the owner of the farm shall elect to receive either direct payments and counter-cyclical payments with respect to the acreage added to the farm under this subsection or a prorated payment under the conservation reserve contract, but not both.

(f) PREVENTION OF EXCESS BASE ACRES FOR PEANUTS.—

(1) REQUIRED REDUCTION.—If the sum of the base acres for peanuts for a farm, together with the acreage described in paragraph (2), exceeds the actual cropland acreage of the farm, the Secretary shall reduce the base acres for peanuts for the farm or the base acres for 1 or more covered commodities under subtitle A for the farm so that the sum of the base acres for peanuts and acreage described in paragraph (2) does not exceed the actual cropland acreage of the farm.

(2) OTHER ACREAGE.—For purposes of paragraph (1), the Secretary shall include the following:

(A) Any base acres for the farm under subtitle A.

(B) Any acreage on the farm enrolled in the conservation reserve program or wetlands reserve program under chapter 1 of subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3830 et seq.).

(C) Any other acreage on the farm enrolled in a conservation program for which payments are made in exchange for not producing an agricultural commodity on the acreage.

(3) SELECTION OF ACRES.—The Secretary shall give the owner of the farm the opportunity to select the base acres for peanuts or the subtitle A base acres against which the reduction required by paragraph (1) will be made.

(4) EXCEPTION FOR DOUBLE-CROPPED ACREAGE.—In applying paragraph (1), the Secretary shall make an exception in the case of double cropping, as determined by the Secretary.

(5) COORDINATED APPLICATION OF REQUIREMENTS.—The Secretary shall take into account section 1101(g) when applying the requirements of this subsection.

(g) PERMANENT REDUCTION IN BASE ACRES FOR PEANUTS.—The owner of a farm may reduce, at any time, the base acres for peanuts assigned to the farm. The reduction shall be permanent and made in the manner prescribed by the Secretary.

SEC. 1303. AVAILABILITY OF DIRECT PAYMENTS FOR PEANUTS.

(a) PAYMENT REQUIRED.—

(1) 2002 CROP YEAR.—For the 2002 crop year, the Secretary shall make direct payments under this section to historic peanut producers.

(2) SUBSEQUENT CROP YEARS.—For each of the 2003 through 2007 crop years for peanuts, the Secretary shall make direct payments to the producers on a farm to which a payment yield and base acres for peanuts are assigned under section 1302.

(b) PAYMENT RATE.—The payment rate used to make direct payments with respect to peanuts for a crop year shall be equal to $36 per ton.

(c) PAYMENT AMOUNT FOR 2002 CROP YEAR.—The amount of the direct payment to be paid to an historic peanut producer for the 2002 crop of peanuts shall be equal to the product of the following:

(1) The payment rate specified in subsection (b).

(2) The payment acres of the historic peanut producer.

(3) The average peanut yield determined under section 1302(a)(1) for the historic peanut producer.

(d) PAYMENT AMOUNT FOR SUBSEQUENT CROP YEARS.—The amount of the direct payment to be paid to the producers on a farm for the 2003 through 2007 crops of peanuts shall be equal to the product of the following:

(1) The payment rate specified in subsection (b).

(2) The payment acres on the farm.

(3) The payment yield for the farm.

(e) TIME FOR PAYMENT.—

(1) IN GENERAL.—The Secretary shall make direct payments—

(A) in the case of the 2002 crop year, as soon as practicable after the date of enactment of this Act; and

(B) in the case of each of the 2003 through 2007 crop years, not later than September 30 of the calendar year in which the crop is harvested.

(2) ADVANCE PAYMENTS.—At the option of the producers on a farm, up to 50 percent of the direct payment for any of the 2003 through 2007 crop years shall be paid to the producers in advance. The producers shall select the month within which the advance payment for a crop year will be made. The month selected may be any month during the period beginning on December 1 of the calendar year before the calendar year in which the crop is harvested through the month within which the direct payment would otherwise be made. The producers may change the selected month for a subsequent advance payment by providing advance notice to the Secretary.

(3) REPAYMENT OF ADVANCE PAYMENTS.—If a producer on a farm that receives an advance direct payment for a crop year ceases to be a producer on that farm, or the extent to which the producer shares in the risk of producing a crop changes, before the date the remainder of the direct payment is made, the producer shall be responsible for repaying the Secretary the applicable amount of the advance payment, as determined by the Secretary.

SEC. 1304. AVAILABILITY OF COUNTER-CYCLICAL PAYMENTS FOR PEANUTS.

(a) PAYMENT REQUIRED.—

(1) IN GENERAL.—During the 2002 through 2007 crop years for peanuts, the Secretary shall make counter-cyclical payments under this section with respect to peanuts if the Secretary determines that the effective price for peanuts is less than the target price for peanuts.

(2) 2002 CROP YEAR.—If counter-cyclical payments are required for the 2002 crop year, the Secretary shall make the payments to historic peanut producers.

(3) SUBSEQUENT CROP YEARS.—If counter-cyclical payments are required for any of the 2003 through 2007 crop years for peanuts, the Secretary shall make the payments to the producers on a farm to which a payment yield and base acres for peanuts are assigned under section 1302.

(b) EFFECTIVE PRICE.—For purposes of subsection (a), the effective price for peanuts is equal to the sum of the following:

(1) The higher of the following:

(A) The national average market price for peanuts received by producers during the 12-month marketing year for peanuts, as determined by the Secretary.

(B) The national average loan rate for a marketing assistance loan for peanuts in effect for the applicable period under this subtitle.

(2) The payment rate in effect under section 1303 for the purpose of making direct payments.

(c) TARGET PRICE.—For purposes of subsection (a), the target price for peanuts shall be equal to $495 per ton.

(d) PAYMENT RATE.—The payment rate used to make counter-cyclical payments for a crop year shall be equal to the difference between—

(1) the target price; and

(2) the effective price determined under subsection (b).

(e) PAYMENT AMOUNT FOR 2002 CROP YEAR.—If counter-cyclical payments are required to be paid for the 2002 crop of peanuts, the amount of the counter-cyclical payment to be paid to an historic peanut producer for that crop year shall be equal to the product of the following:

(1) The payment rate specified in subsection (d).

(2) The payment acres of the historic peanut producer.

(3) The average peanut yield determined under section 1302(a)(1) for the historic peanut producer.

(f) PAYMENT AMOUNT FOR SUBSEQUENT CROP YEARS.—If counter-cyclical payments are required to be paid for any of the 2003 through 2007 crops of peanuts, the amount of the counter-cyclical payment to be paid to the producers on a farm for that crop year shall be equal to the product of the following:

(1) The payment rate specified in subsection (d).

(2) The payment acres on the farm.

(3) The payment yield for the farm.

(g) TIME FOR PAYMENTS.—

(1) GENERAL RULE.—If the Secretary determines under subsection (a) that counter-cyclical payments are required to be made under this section for a crop year, the Secretary shall make the counter-cyclical payments as soon as practicable after the end of the 12-month marketing year for the crop.

(2) AVAILABILITY OF PARTIAL PAYMENTS.—If, before the end of the 12-month marketing year, the Secretary estimates that counter-cyclical payments will be required under this section for a crop year, the Secretary shall give producers on a farm (or, in the case of the 2002 crop year, historic peanut producers) the option to receive partial payments of the counter-cyclical payment projected to be made for that crop.

(3) TIME FOR PARTIAL PAYMENTS.—

(A) 2002 THROUGH 2006 CROP YEARS.—When the Secretary makes partial payments available under paragraph (2) for any of the 2002 through 2006 crop years—

(i) the first partial payment for the crop year shall be made not earlier than October 1, and, to the maximum extent practicable, not later than October 31, of the calendar year in which the crop is harvested;

(ii) the second partial payment shall be made not earlier than February 1 of the next calendar year; and

(iii) the final partial payment shall be made as soon as practicable after the end of the 12-month marketing year for that crop.

(B) 2007 CROP YEAR.—When the Secretary makes partial payments available for the 2007 crop year—

(i) the first partial payment shall be made after completion of the first 6 months of the marketing year for that crop; and

(ii) the final partial payment shall be made as soon as practicable after the end of the 12-month marketing year for that crop.

(4) AMOUNT OF PARTIAL PAYMENTS.—

(A) 2002 CROP YEAR.—

(i) FIRST PARTIAL PAYMENT.—In the case of the 2002 crop year, the first partial payment under paragraph (3) to an historic peanut producer may not exceed 35 percent of the projected counter-cyclical payment for the crop year, as determined by the Secretary.

(ii) SECOND PARTIAL PAYMENT.—The second partial payment may not exceed the difference between—

(I) 70 percent of the projected counter-cyclical payment (including any revision thereof) for the 2002 crop year; and

(II) the amount of the payment made under clause (i).

(iii) FINAL PAYMENT.—The final payment shall be equal to the difference between—

(I) the actual counter-cyclical payment to be made to the historic peanut producer; and

(II) the amount of the partial payments made to the historic peanut producer under clauses (i) and (ii).

(B) 2003 THROUGH 2006 CROP YEARS.—

(i) FIRST PARTIAL PAYMENT.—For each of the 2003 through 2006 crop years, the first partial payment under paragraph (3) to the producers on a farm may not exceed 35 percent of the projected counter-cyclical payment for the crop year, as determined by the Secretary.

(ii) SECOND PARTIAL PAYMENT.—The second partial payment for a crop year may not exceed the difference between—

(I) 70 percent of the projected counter-cyclical payment (including any revision thereof) for the crop year; and

(II) the amount of the payment made under clause (i).

(iii) FINAL PAYMENT.—The final payment for a crop year shall be equal to the difference between—

(I) the actual counter-cyclical payment to be made to the producers for that crop year; and

(II) the amount of the partial payments made to the producers under clauses (i) and (ii) for that crop year.

(C) 2007 CROP YEAR.—

(i) FIRST PARTIAL PAYMENT.—For the 2007 crop year, the first partial payment under paragraph (3) to the producers on a farm may not exceed 40 percent of the projected counter-cyclical payment for the crop year, as determined by the Secretary.

(ii) FINAL PAYMENT.—The final payment for the 2007 crop year shall be equal to the difference between—

(I) the actual counter-cyclical payment to be made to the producers for that crop year; and

(II) the amount of the partial payment made to the producers under clause (i).

(5) REPAYMENT.—The producers on a farm (or, in the case of the 2002 crop year, historic peanut producers) that receive a partial payment under this subsection for a crop year shall repay to the Secretary the amount, if any, by which the total of the partial payments exceed the actual counter-cyclical payment to be made for that crop year.

SEC. 1305. PRODUCER AGREEMENT REQUIRED AS CONDITION ON PROVISION OF DIRECT PAYMENTS AND COUNTER-CYCLICAL PAYMENTS.

(a) COMPLIANCE WITH CERTAIN REQUIREMENTS.—

(1) REQUIREMENTS.—Before the producers on a farm may receive direct payments or counter-cyclical payments under this subtitle with respect to the farm, the producers shall agree, during the crop year for which the payments are made and in exchange for the payments—

(A) to comply with applicable conservation requirements under subtitle B of title XII of the Food Security Act of 1985 (16 U.S.C. 3811 et seq.);

(B) to comply with applicable wetland protection requirements under subtitle C of title XII of that Act (16 U.S.C. 3821 et seq.);

(C) to comply with the planting flexibility requirements of section 1306;

(D) to use the land on the farm, in a quantity equal to the attributable base acres for peanuts and any base acres for the farm under subtitle A, for an agricultural or conserving use, and not for a nonagricultural commercial or industrial use, as determined by the Secretary; and

(E) to effectively control noxious weeds and otherwise maintain the land in accordance with sound agricultural practices, as determined by the Secretary, if the agricultural or conserving use involves the noncultivation of any portion of the land referred to in subparagraph (D).

(2) COMPLIANCE.—The Secretary may issue such rules as the Secretary considers necessary to ensure producer compliance with the requirements of paragraph (1).

(3) MODIFICATION.—At the request of the transferee or owner, the Secretary may modify the requirements of this subsection if the modifications are consistent with the objectives of this subsection, as determined by the Secretary.

(b) TRANSFER OR CHANGE OF INTEREST IN FARM.—

(1) TERMINATION.—Except as provided in paragraph (2), a transfer of (or change in) the interest of the producers on a farm in the base acres for peanuts for which direct payments or counter-cyclical payments are made shall result in the termination of the payments with respect to those acres, unless the transferee or owner of the acreage agrees to assume all obligations under subsection (a). The termination shall take effect on the date determined by the Secretary.

(2) EXCEPTION.—If a producer entitled to a direct payment or counter-cyclical payment dies, becomes incompetent, or is otherwise unable to receive the payment, the Secretary shall make the payment, in accordance with rules issued by the Secretary.

(c) ACREAGE REPORTS.—As a condition on the receipt of direct payments, counter-cyclical payments, marketing assistance loans, or loan deficiency payments under this subtitle, the Secretary shall require the producers on a farm to which a payment yield and base acres for peanuts are assigned under section 1302 to submit to the Secretary annual acreage reports with respect to all cropland on the farm.

(d) TENANTS AND SHARECROPPERS.—In carrying out this subtitle, the Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

(e) SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of direct payments and counter-cyclical payments among the producers on a farm on a fair and equitable basis.

SEC. 1306. PLANTING FLEXIBILITY.

(a) PERMITTED CROPS.—Subject to subsection (b), any commodity or crop may be planted on the base acres for peanuts on a farm.

(b) LIMITATIONS REGARDING CERTAIN COMMODITIES.—

(1) GENERAL LIMITATION.—The planting of an agricultural commodity specified in paragraph (2) shall be prohibited on base acres for peanuts unless the commodity, if planted, is destroyed before harvest.

(2) TREATMENT OF TREES AND OTHER PERENNIALS.—The planting of an agricultural commodity specified in paragraph (3) that is produced on a tree or other perennial plant shall be prohibited on base acres for peanuts.

(3) COVERED AGRICULTURAL COMMODITIES.—Paragraphs (1) and (2) apply to the following agricultural commodities:

(A) Fruits.

(B) Vegetables (other than lentils, mung beans, and dry peas).

(C) Wild rice.

(c) EXCEPTIONS.—Paragraphs (1) and (2) of subsection (b) shall not limit the planting of an agricultural commodity specified in paragraph (3) of that subsection—

(1) in any region in which there is a history of double-cropping of peanuts with agricultural commodities specified in subsection (b)(3), as determined by the Secretary, in which case the double-cropping shall be permitted;

(2) on a farm that the Secretary determines has a history of planting agricultural commodities specified in subsection (b)(3) on the base acres for peanuts, except that direct payments and counter-cyclical payments shall be reduced by an acre for each acre planted to such an agricultural commodity; or

(3) by the producers on a farm that the Secretary determines has an established planting history of a specific agricultural commodity specified in subsection (b)(3), except that—

(A) the quantity planted may not exceed the average annual planting history of such agricultural commodity by the producers on the farm in the 1991 through 1995 or 1998 through 2001 crop years (excluding any crop year in which no plantings were made), as determined by the Secretary; and

(B) direct payments and counter-cyclical payments shall be reduced by an acre for each acre planted to such agricultural commodity.

SEC. 1307. MARKETING ASSISTANCE LOANS AND LOAN DEFICIENCY PAYMENTS FOR PEANUTS.

(a) NONRECOURSE LOANS AVAILABLE.—

(1) AVAILABILITY.—For each of the 2002 through 2007 crops of peanuts, the Secretary shall make available to producers on a farm nonrecourse marketing assistance loans for peanuts produced on the farm. The loans shall be made under terms and conditions that are prescribed by the Secretary and at the loan rate established under subsection (b).

(2) ELIGIBLE PRODUCTION.—The producers on a farm shall be eligible for a marketing assistance loan under this subsection for any quantity of peanuts produced on the farm.

(3) TREATMENT OF CERTAIN COMMINGLED COMMODITIES.—In carrying out this subsection, the Secretary shall make loans to producers on a farm that would be eligible to obtain a marketing assistance loan, but for the fact the peanuts owned by the producers on the farm are commingled with other peanuts in facilities unlicensed for the storage of agricultural commodities by the Secretary or a State licensing authority, if the producers obtaining the loan agree to immediately redeem the loan collateral in accordance with section 166 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7286).

(4) OPTIONS FOR OBTAINING LOAN.—A marketing assistance loan under this subsection, and loan deficiency payments under subsection (e), may be obtained at the option of the producers on a farm through—

(A) a designated marketing association or marketing cooperative of producers that is approved by the Secretary; or

(B) the Farm Service Agency.

(5) STORAGE OF LOAN PEANUTS.—As a condition on the Secretary's approval of an individual or entity to provide storage for peanuts for which a marketing assistance loan is made under this section, the individual or entity shall agree—

(A) to provide such storage on a nondiscriminatory basis; and

(B) to comply with such additional requirements as the Secretary considers appropriate to accomplish the purposes of this section and promote fairness in the administration of the benefits of this section.

(6) PAYMENT OF PEANUT STORAGE COSTS.—Effective for the 2002 through 2006 crops of peanuts, to ensure proper storage of peanuts for which a loan is made under this section, the Secretary shall use the funds of the Commodity Credit Corporation to pay storage, handling, and other associated costs. This authority terminates beginning with the 2007 crop of peanuts.

(7) MARKETING.—A marketing association or cooperative may market peanuts for which a loan is made under this section in any manner that conforms to consumer needs, including the separation of peanuts by type and quality.

(b) LOAN RATE.—The loan rate for a marketing assistance loan under for peanuts subsection (a) shall be equal to $355 per ton.

(c) TERM OF LOAN.—

(1) IN GENERAL.—A marketing assistance loan for peanuts under subsection (a) shall have a term of 9 months beginning on the first day of

the first month after the month in which the loan is made.

(2) EXTENSIONS PROHIBITED.—The Secretary may not extend the term of a marketing assistance loan for peanuts under subsection (a).

(d) REPAYMENT RATE.—

(1) IN GENERAL.—The Secretary shall permit producers on a farm to repay a marketing assistance loan for peanuts under subsection (a) at a rate that is the lesser of—

(A) the loan rate established for peanuts under subsection (b), plus interest (determined in accordance with section 163 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7283)); or

(B) a rate that the Secretary determines will—

(i) minimize potential loan forfeitures;

(ii) minimize the accumulation of stocks of peanuts by the Federal Government;

(iii) minimize the cost incurred by the Federal Government in storing peanuts; and

(iv) allow peanuts produced in the United States to be marketed freely and competitively, both domestically and internationally.

(2) GOOD FAITH EXCEPTION TO BENEFICIAL INTEREST REQUIREMENT.—For the 2002 crop year only, in the case of the producers on a farm that marketed or otherwise lost beneficial interest in the peanuts for which a marketing assistance loan was made under this section before repaying the loan, the Secretary shall permit the producers to repay the loan at the applicable repayment rate that was in effect for peanuts under this subsection on the date that the producers lost beneficial interest, as determined by the Secretary, if the Secretary determines the producers acted in good faith.

(e) LOAN DEFICIENCY PAYMENTS.—

(1) AVAILABILITY.—The Secretary may make loan deficiency payments available to producers on a farm that, although eligible to obtain a marketing assistance loan for peanuts under subsection (a), agree to forgo obtaining the loan for the peanuts in return for loan deficiency payments under this subsection.

(2) COMPUTATION.—A loan deficiency payment under this subsection shall be computed by multiplying—

(A) the payment rate determined under paragraph (3) for peanuts; by

(B) the quantity of the peanuts produced by the producers, excluding any quantity for which the producers obtain a marketing assistance loan under subsection (a).

(3) PAYMENT RATE.—For purposes of this subsection, the payment rate shall be the amount by which—

(A) the loan rate established under subsection (b); exceeds

(B) the rate at which a loan may be repaid under subsection (d).

(4) EFFECTIVE DATE FOR PAYMENT RATE DETERMINATION.—

(A) IN GENERAL.—The Secretary shall determine the amount of the loan deficiency payment to be made under this subsection to the producers on a farm with respect to a quantity of peanuts using the payment rate in effect under paragraph (3) as of the date the producers request the payment.

(B) SPECIAL RULE FOR 2002 CROP YEAR.—For the 2002 crop year only, the Secretary shall determine the amount of the loan deficiency payment to be made under this subsection to the producers on a farm with respect to a quantity of peanuts using the payment rate in effect under paragraph (3) as of the earlier of the following:

(i) The date on which the producers marketed or otherwise lost beneficial interest in the crop, as determined by the Secretary.

(ii) The date the producers request the payment.

(f) COMPLIANCE WITH CONSERVATION AND WETLANDS REQUIREMENTS.—As a condition of the receipt of a marketing assistance loan under subsection (a), the producer shall comply with applicable conservation requirements under subtitle B of title XII of the Food Security Act of 1985 (16 U.S.C. 3811 et seq.) and applicable wetland protection requirements under subtitle C of title XII of that Act (16 U.S.C. 3821 et seq.) during the term of the loan.

(g) REIMBURSABLE AGREEMENTS AND PAYMENT OF ADMINISTRATIVE EXPENSES.—The Secretary may implement any reimbursable agreements or provide for the payment of administrative expenses under this subtitle only in a manner that is consistent with such activities in regard to other commodities.

SEC. 1308. MISCELLANEOUS PROVISIONS.

(a) MANDATORY INSPECTION.—All peanuts marketed in the United States shall be officially inspected and graded by Federal or Federal-State inspectors.

(b) TERMINATION OF PEANUT ADMINISTRATIVE COMMITTEE.—The Peanut Administrative Committee established under Marketing Agreement No. 146 issued pursuant to the Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is terminated.

(c) PEANUT STANDARDS BOARD.—

(1) ESTABLISHMENT AND PURPOSE.—The Secretary shall establish a Peanut Standards Board for the purpose of advising the Secretary regarding the establishment of quality and handling standards for domestically produced and imported peanuts.

(2) MEMBERSHIP AND APPOINTMENT.—

(A) TOTAL MEMBERS.—The Board shall consist of 18 members, with representation equally divided between peanut producers and peanut industry representatives.

(B) APPOINTMENT PROCESS FOR PRODUCERS.—The Secretary shall appoint—

(i) 3 producers from the Southeast (Alabama, Georgia, and Florida) peanut producing region;

(ii) 3 producers from the Southwest (Texas, Oklahoma, and New Mexico) peanut producing region; and

(iii) 3 producers from the Virginia/Carolina (Virginia and North Carolina) peanut producing region.

(C) APPOINTMENT PROCESS FOR INDUSTRY REPRESENTATIVES.—The Secretary shall appoint 3 peanut industry representatives from each of the 3 peanut producing regions in the United States.

(3) TERMS.—

(A) IN GENERAL.—A member of the Board shall serve a 3-year term.

(B) INITIAL APPOINTMENT.—In making the initial appointments to the Board, the Secretary shall stagger the terms of the members so that—

(i) 1 producer member and peanut industry member from each peanut producing region serves a 1-year term;

(ii) 1 producer member and peanut industry member from each peanut producing region serves a 2-year term; and

(iii) 1 producer member and peanut industry member from each peanut producing region serves a 3-year term.

(4) CONSULTATION REQUIRED.—The Secretary shall consult with the Board in advance whenever the Secretary establishes or changes, or considers the establishment of or a change to, quality and handling standards for peanuts.

(5) FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Board.

(d) PRIORITY.—The Secretary shall make identifying and combating the presence of all quality concerns related to peanuts a priority in the development of quality and handling standards for peanuts and in the inspection of domestically produced and imported peanuts. The Secretary shall consult with appropriate Federal and State agencies to provide adequate safeguards against all quality concerns related to peanuts.

(e) CONSISTENT STANDARDS.—Imported peanuts shall be subject to the same quality and handling standards as apply to domestically produced peanuts.

(f) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—In addition to other funds that are available to carry out this section, there is authorized to be appropriated such sums as are necessary to carry out this section.

(2) TREATMENT OF BOARD EXPENSES.—The expenses of the Peanut Standards Board shall not be counted toward any general limitation on the expenses of advisory committees, panels, commissions, and task forces of the Department of Agriculture, whether enacted before, on, or after the date of enactment of this Act, unless the limitation specifically refers to this paragraph and specifically includes the Peanut Standards Board within the general limitation.

(g) TRANSITION RULE.—

(1) TEMPORARY DESIGNATION OF PEANUT ADMINISTRATIVE COMMITTEE MEMBERS.—Notwithstanding the appointment process specified in subsection (c) for the Peanut Standards Board, during the transition period, the Secretary may designate persons serving as members of the Peanut Administrative Committee on the day before the date of enactment of this Act to serve as members of the Peanut Standards Board for the purpose of carrying out the duties of the Board described in this section.

(2) FUNDS.—The Secretary may transfer any funds available to carry out the activities of the Peanut Administrative Committee to the Peanut Standards Board to carry out the duties of the Board described in this section.

(3) TRANSITION PERIOD.—In paragraph (1), the term "transition period" means the period beginning on the date of enactment of this Act and ending on the earlier of—

(A) the date the Secretary appoints the members of the Peanut Standards Board pursuant to subsection (c); or

(B) 180 days after the date of enactment of this Act.

(h) EFFECTIVE DATE.—This section shall take effect with the 2002 crop of peanuts.

SEC. 1309. TERMINATION OF MARKETING QUOTA PROGRAMS FOR PEANUTS AND COMPENSATION TO PEANUT QUOTA HOLDERS FOR LOSS OF QUOTA ASSET VALUE.

(a) REPEAL OF MARKETING QUOTA.—

(1) REPEAL.—Part VI of subtitle B of title III of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1357–1359a), relating to peanuts, is repealed.

(2) TREATMENT OF 2001 CROP.—Part VI of subtitle B of title III of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1357–1359a), as in effect on the day before the date of enactment of this Act, shall continue to apply with respect to the 2001 crop of peanuts notwithstanding the amendment made by paragraph (1). Section 1308(g)(2) shall also apply to the 2001 crop of peanuts.

(b) COMPENSATION CONTRACT REQUIRED.—

(1) IN GENERAL.—The Secretary shall offer to enter into a contract with each person that the Secretary determines is an eligible peanut quota holder under subsection (f) for the purpose of providing compensation for the lost value of the quota on account of the repeal of the marketing quota program for peanuts under subsection (a).

(2) PAYMENT PERIOD.—The Secretary shall make payments under the contracts during fiscal years 2002 through 2006.

(c) TIME FOR PAYMENT.—

(1) PAYMENT IN INSTALLMENTS.—The payments required under the contracts shall be provided in 5 equal installments not later than September 30 of each of fiscal years 2002 through 2006.

(2) SINGLE PAYMENT.—At the request of an eligible peanut quota holder entitled to payments under a contract, the Secretary shall provide the entire payment amount determined under subsection (d) with respect to the eligible peanut quota holder for the 5 fiscal years in a single lump sum during the fiscal year specified by the eligible peanut quota holder.

(d) PAYMENT AMOUNT.—The amount of the payment for a fiscal year to an eligible peanut quota holder under a contract shall be equal to the product obtained by multiplying—

(1) $0.11 per pound; by

(2) the number of pounds of quota with respect to which the person qualifies as a peanut quota holder under subsection (f).

(e) ASSIGNMENT OF PAYMENTS.—The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)), relating to assignment of payments, shall apply to the payments made under the contracts. A person making an assignment of the payment, or the assignee, shall provide the Secretary with notice, in such manner as the Secretary may require, of any assignment made under this subsection.

(f) ELIGIBLE PEANUT QUOTA HOLDER.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, the Secretary shall consider a person to be an eligible peanut quota holder for the purposes of this section if the person, as of the date of enactment of this Act, owned a farm that, also as of that date, was eligible for a permanent peanut quota under section 358–1(b) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358–1(b)), irrespective of temporary leases, transfers of quotas for seed, or quotas for experimental purposes.

(2) EFFECT OF PURCHASE CONTRACT.—If there was a written contract for the purchase of all or a portion of a farm described in paragraph (1) as of the date of enactment of this Act and the parties to the sale are unable to agree to the disposition of eligibility for payments under this section, the Secretary, taking into account any incomplete permanent transfer of quota that has otherwise been agreed to, shall provide for the equitable division of the payments among the parties by adjusting the determination of who is the eligible peanut quota holder with respect to particular pounds of the quota.

(3) EFFECT OF AGREEMENT FOR PERMANENT QUOTA TRANSFER.—If the Secretary determines that there was in existence, as of the date of enactment of this Act, an agreement for the permanent transfer of quota, but that the transfer was not completed by that date, the Secretary shall consider the peanut quota holder to be the party to the agreement who, as of that date, was the owner of the farm to which the quota was to be transferred.

(4) PROTECTED BASES.—A person that owns a farm with a peanut poundage quota which is protected under a conservation reserve program contract entered into under section 1231 of the Food Security Act of 1985 (16 U.S.C. 3831) shall be considered to be an eligible quota holder with respect to the protected poundage.

(5) SECRETARIAL DISCRETION.—Notwithstanding the preceding paragraphs, the Secretary may declare a person to be the eligible peanut quota holder with respect to certain pounds of quota or otherwise for purposes of this section if the Secretary considers the declaration is needed to insure a fair and equitable administration of the payments provided for in this section, so long as the Secretary does not, in exercising this authority, effectively increase the total quota in excess of the quota that was available to all producers for the 2001 crop year for other than seed or experimental use.

(6) LIMITATION ON QUANTITY OF QUOTA HELD.—A person shall be considered an eligible peanut quota holder for purposes of this section only with respect to that number of permanent pounds that qualifies the person as a peanut quota holder under one of the preceding paragraphs. The determination of the peanut poundage amount for which the person qualifies shall be made based on the 2001 crop quota levels and shall take into account sales of the farm that occurred before the date of enactment of this Act and any permanent transfers of quota that took place before that date, consistent with the preceding paragraphs. The Secretary shall not take into account, or allow eligibility for, quotas for seed, granted as experimental quotas, or obtained by temporary lease or transfer.

(g) SUCCESSIONS IN PAYMENT ELIGIBILITY AND ATTACHMENT OF ELIGIBILITY TO PERSONS.—

(1) ELIGIBILITY ATTACHES TO PERSONS.—Once a person is eligible for payments under this section, as determined under subsection (f), the continued eligibility of the person for the payments does not run with a farm, but shall remain with the person for the term of this section irrespective of whether the person sells, or continues to have an interest in, the farm that had the quota that qualified the person as an eligible peanut quota holder under subsection (f) and irrespective of whether the person has a continuing interest in the production of peanuts.

(2) SUCCESSION.—If a person eligible for payments under this section dies, in the case of an individual, or ceases to exist, in the case of other persons, the payment eligibility of the person shall pass to the person's personal or organizational successor, as determined by the Secretary.

(h) CONFORMING AMENDMENTS.—

(1) ADMINISTRATIVE PROVISIONS.—Section 361 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1361) is amended by striking "peanuts,".

(2) ADJUSTMENT OF QUOTAS.—Section 371 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1371) is amended—

(A) in the first sentence of subsection (a), by striking "peanuts,"; and

(B) in the first sentence of subsection (b), by striking "peanuts".

(3) REPORTS AND RECORDS.—Section 373 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1373) is amended—

(A) in the first sentence of subsection (a)—

(i) by striking "peanuts," each place it appears;

(ii) by inserting "and" after "from producers,"; and

(iii) by striking "for producers, all" and all that follows through the period at the end of the sentence and inserting "for producers."; and

(B) in subsection (b), by striking "peanuts,".

(4) EMINENT DOMAIN.—Section 378(c) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1378(c)) is amended in the first sentence—

(A) by striking "cotton," and inserting "cotton and"; and

(B) by striking "and peanuts,".

SEC. 1310. REPEAL OF SUPERSEDED PRICE SUPPORT AUTHORITY AND EFFECT OF REPEAL.

(a) REPEAL OF PRICE SUPPORT AUTHORITY.—

(1) IN GENERAL.—Section 155 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7271) is repealed.

(2) CONFORMING AMENDMENTS.—The Agricultural Act of 1949 (7 U.S.C. 1441 et seq.) is amended—

(A) in section 101(b) (7 U.S.C. 1441(b)), by striking "and peanuts"; and

(B) in section 408(c) (7 U.S.C. 1428(c)), by striking "peanuts,".

*(3) TECHNICAL AMENDMENT.—The chapter heading of chapter 2 of subtitle D of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. prec. 7271) is amended by striking "**PEANUTS AND**".*

(b) DISPOSAL.—Notwithstanding any other provision of law or previous declaration made by the Secretary, the Secretary shall ensure that the disposal of all peanuts for which a loan for the 2001 crop of peanuts was made under section 155 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7271) before the date of enactment of this Act is carried out in a manner that prevents price disruptions in the domestic and international markets for peanuts.

(c) TREATMENT OF CROP INSURANCE POLICIES FOR 2002 CROP YEAR.—

(1) APPLICABILITY.—This subsection shall apply for the 2002 crop year only notwithstanding any other provision of law or crop insurance policy.

(2) PRICE ELECTION.—The nonquota price election for segregation I, II, and III peanuts shall be 17.75 cents per pound and shall be used for all aspects of the policy relating to the calculations of premium, liability, and indemnities.

(3) QUALITY ADJUSTMENT.—For the purposes of quality adjustment only, the average support price per pound of peanuts shall be a price equal to 17.75 cents per pound. Quality under the crop insurance policy for peanuts shall be adjusted under procedures issued by the Federal Crop Insurance Corporation.

Subtitle D—Sugar

SEC. 1401. SUGAR PROGRAM.

(a) EXTENSION AND MODIFICATION OF EXISTING SUGAR PROGRAM.—Section 156 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7272) is amended to read as follows:

"SEC. 156. SUGAR PROGRAM.

"(a) SUGARCANE.—The Secretary shall make loans available to processors of domestically grown sugarcane at a rate equal to 18 cents per pound for raw cane sugar.

"(b) SUGAR BEETS.—The Secretary shall make loans available to processors of domestically grown sugar beets at a rate equal to 22.9 cents per pound for refined beet sugar.

"(c) LOAN RATE ADJUSTMENTS.—

"(1) IN GENERAL.—The Secretary may reduce the loan rate specified in subsection (a) for domestically grown sugarcane and subsection (b) for domestically grown sugar beets if the Secretary determines that negotiated reductions in export subsidies and domestic subsidies provided for sugar of other major sugar growing, producing, and exporting countries in the aggregate exceed the commitments made as part of the Agreement on Agriculture.

"(2) EXTENT OF REDUCTION.—The Secretary shall not reduce the loan rate under subsection (a) or (b) below a rate that provides an equal measure of support to that provided by other major sugar growing, producing, and exporting countries, based on an examination of both domestic and export subsidies subject to reduction in the Agreement on Agriculture.

"(3) ANNOUNCEMENT OF REDUCTION.—The Secretary shall announce any loan rate reduction to be made under this subsection as far in advance as is practicable.

"(4) DEFINITIONS.—In this subsection:

"(A) AGREEMENT ON AGRICULTURE.—The term "Agreement on Agriculture" means the Agreement on Agriculture referred to in section 101(d)(2) of the Uruguay Round Agreements Act (19 U.S.C. 3511(d)(2)), or any amendatory or successor agreement.

"(B) MAJOR SUGAR COUNTRIES.—The term "major sugar growing, producing, and exporting countries" means—

"(i) the countries of the European Union; and

"(ii) the 10 foreign countries not covered by subparagraph (A) that the Secretary determines produce the greatest quantity of sugar.

"(d) TERM OF LOANS.—

"(1) IN GENERAL.—A loan under this section during any fiscal year shall be made available

not earlier than the beginning of the fiscal year and shall mature at the earlier of—

"(A) the end of the 9-month period beginning on the first day of the first month after the month in which the loan is made; or

"(B) the end of the fiscal year in which the loan is made.

"(2) SUPPLEMENTAL LOANS.—In the case of a loan made under this section in the last 3 months of a fiscal year, the processor may repledge the sugar as collateral for a second loan in the subsequent fiscal year, except that the second loan shall—

"(A) be made at the loan rate in effect at the time the second loan is made; and

"(B) mature in 9 months less the quantity of time that the first loan was in effect.

"(e) LOAN TYPE; PROCESSOR ASSURANCES.—

"(1) NONRECOURSE LOANS.—The Secretary shall carry out this section through the use of nonrecourse loans.

"(2) PROCESSOR ASSURANCES.—

"(A) IN GENERAL.—The Secretary shall obtain from each processor that receives a loan under this section such assurances as the Secretary considers adequate to ensure that the processor will provide payments to producers that are proportional to the value of the loan received by the processor for the sugar beets and sugarcane delivered by producers to the processor.

"(B) MINIMUM PAYMENTS.—

"(i) IN GENERAL.—Subject to clause (ii), the Secretary may establish appropriate minimum payments for purposes of this paragraph.

"(ii) LIMITATION.—In the case of sugar beets, the minimum payment established under clause (i) shall not exceed the rate of payment provided for under the applicable contract between a sugar beet producer and a sugar beet processor.

"(iii) EFFECT OF DISASTER.—The Secretary may not bar a beet sugar processor from eligibility to obtain a loan under this section because of the failure of the processor to provide the appropriate minimum payment established under this subsection if the failure—

"(I) occurred during a crop year prior to the date of enactment of the Farm Security and Rural Investment Act of 2002; and

"(II) was related, at least in part, to the effects of a natural disaster, including damage from freeze.

"(3) ADMINISTRATION.—The Secretary may not impose or enforce any prenotification requirement, or similar administrative requirement not otherwise in effect on the date of enactment of the Farm Security and Rural Investment Act of 2002, that has the effect of preventing a processor from electing to forfeit the loan collateral (of an acceptable grade and quality) on the maturity of the loan.

"(f) LOANS FOR IN-PROCESS SUGAR.—

"(1) DEFINITION OF IN-PROCESS SUGARS AND SYRUPS.—In this subsection, the term 'in-process sugars and syrups' does not include raw sugar, liquid sugar, invert sugar, invert syrup, or other finished product that is otherwise eligible for a loan under subsection (a) or (b).

"(2) AVAILABILITY.—The Secretary shall make nonrecourse loans available to processors of a crop of domestically grown sugarcane and sugar beets for in-process sugars and syrups derived from the crop.

"(3) LOAN RATE.—The loan rate shall be equal to 80 percent of the loan rate applicable to raw cane sugar or refined beet sugar, as determined by the Secretary on the basis of the source material for the in-process sugars and syrups.

"(4) FURTHER PROCESSING ON FORFEITURE.—

"(A) IN GENERAL.—As a condition of the forfeiture of in-process sugars and syrups serving as collateral for a loan under paragraph (2), the processor shall, within such reasonable time period as the Secretary may prescribe and at no cost to the Commodity Credit Corporation, convert the in-process sugars and syrups into raw cane sugar or refined beet sugar of acceptable grade and quality for sugars eligible for loans under subsection (a) or (b).

"(B) TRANSFER TO CORPORATION.—Once the in-process sugars and syrups are fully processed into raw cane sugar or refined beet sugar, the processor shall transfer the sugar to the Commodity Credit Corporation.

"(C) PAYMENT TO PROCESSOR.—On transfer of the sugar, the Secretary shall make a payment to the processor in an amount equal to the amount obtained by multiplying—

"(i) the difference between—

"(I) the loan rate for raw cane sugar or refined beet sugar, as appropriate; and

"(II) the loan rate the processor received under paragraph (3); by

"(ii) the quantity of sugar transferred to the Secretary.

"(5) LOAN CONVERSION.—If the processor does not forfeit the collateral as described in paragraph (4), but instead further processes the in-process sugars and syrups into raw cane sugar or refined beet sugar and repays the loan on the in-process sugars and syrups, the processor may obtain a loan under subsection (a) or (b) for the raw cane sugar or refined beet sugar, as appropriate.

"(6) TERM OF LOAN.—The term of a loan made under this subsection for a quantity of in-process sugars and syrups, when combined with the term of a loan made with respect to the raw cane sugar or refined beet sugar derived from the in-process sugars and syrups, may not exceed 9 months, consistent with subsection (d).

"(g) AVOIDING FORFEITURES; CORPORATION INVENTORY DISPOSITION.—

"(1) IN GENERAL.—Subject to subsection (e)(3), to the maximum extent practicable, the Secretary shall operate the program established under this section at no cost to the Federal Government by avoiding the forfeiture of sugar to the Commodity Credit Corporation.

"(2) INVENTORY DISPOSITION.—

"(A) IN GENERAL.—To carry out paragraph (1), the Commodity Credit Corporation may accept bids to obtain raw cane sugar or refined beet sugar in the inventory of the Commodity Credit Corporation from (or otherwise make available such commodities, on appropriate terms and conditions, to) processors of sugarcane and processors of sugar beets (acting in conjunction with the producers of the sugarcane or sugar beets processed by the processors) in return for the reduction of production of raw cane sugar or refined beet sugar, as appropriate.

"(B) ADDITIONAL AUTHORITY.—The authority provided under this paragraph is in addition to any authority of the Commodity Credit Corporation under any other law.

"(h) INFORMATION REPORTING.—

"(1) DUTY OF PROCESSORS AND REFINERS TO REPORT.—A sugarcane processor, cane sugar refiner, and sugar beet processor shall furnish the Secretary, on a monthly basis, such information as the Secretary may require to administer sugar programs, including the quantity of purchases of sugarcane, sugar beets, and sugar, and production, importation, distribution, and stock levels of sugar.

"(2) DUTY OF PRODUCERS TO REPORT.—

"(A) PROPORTIONATE SHARE STATES.—As a condition of a loan made to a processor for the benefit of a producer, the Secretary shall require each producer of sugarcane located in a State (other than the Commonwealth of Puerto Rico) in which there are in excess of 250 producers of sugarcane to report, in the manner prescribed by the Secretary, the sugarcane yields and acres planted to sugarcane of the producer.

"(B) OTHER STATES.—The Secretary may require each producer of sugarcane or sugar beets not covered by subparagraph (A) to report, in a manner prescribed by the Secretary, the yields of, and acres planted to, sugarcane or sugar beets, respectively, of the producer.

"(3) DUTY OF IMPORTERS TO REPORT.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary shall require an importer of sugars, syrups, or molasses to be used for human consumption or to be used for the extraction of sugar for human consumption to report, in the manner prescribed by the Secretary, the quantities of the products imported by the importer and the sugar content or equivalent of the products.

"(B) TARIFF-RATE QUOTAS.—Subparagraph (A) shall not apply to sugars, syrups, or molasses that are within the quantities of tariff-rate quotas that are subject to the lower rate of duties.

"(4) PENALTY.—Any person willfully failing or refusing to furnish the information, or furnishing willfully any false information, shall be subject to a civil penalty of not more than $10,000 for each such violation.

"(5) MONTHLY REPORTS.—Taking into consideration the information received under this subsection, the Secretary shall publish on a monthly basis composite data on production, imports, distribution, and stock levels of sugar.

"(i) SUBSTITUTION OF REFINED SUGAR.—For purposes of Additional U.S. Note 6 to chapter 17 of the Harmonized Tariff Schedule of the United States and the reexport programs and polyhydric alcohol program administered by the Secretary, all refined sugars (whether derived from sugar beets or sugarcane) produced by cane sugar refineries and beet sugar processors shall be fully substitutable for the export of sugar and sugar-containing products under those programs.".

"(j) EFFECTIVE PERIOD.—This section shall be effective only for the 1996 through 2007 crops of sugar beets and sugarcane.".

(b) EFFECTIVE DATE OF ASSESSMENT TERMINATION.—Subsection (f) of section 156 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7272(f)), as in effect immediately before the enactment of the Farm Security and Rural Investment Act of 2002, is deemed to have been repealed effective as of October 1, 2001.

(c) INTEREST RATE.—Section 163 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7283) is amended—

(1) by inserting "(a) IN GENERAL.—" before "Notwithstanding"; and

(2) by adding at the end the following:

"(b) SUGAR.—For purposes of this section, raw cane sugar, refined beet sugar, and in-process sugar eligible for a loan under section 156 shall not be considered an agricultural commodity.".

SEC. 1402. STORAGE FACILITY LOANS.

(a) IN GENERAL.—Notwithstanding any other provision of law and as soon as practicable after the date of enactment of this Act, the Commodity Credit Corporation shall amend part 1436 of title 7, Code of Federal Regulations, to establish a sugar storage facility loan program to provide financing for processors of domestically-produced sugarcane and sugar beets to construct or upgrade storage and handling facilities for raw sugars and refined sugars.

(b) ELIGIBLE PROCESSORS.—A storage facility loan described in subsection (a) shall be made available to any processor of domestically produced sugarcane or sugar beets that (as determined by the Secretary)—

(1) has a satisfactory credit history;

(2) has a need for increased storage capacity, taking into account the effects of marketing allotments; and

(3) demonstrates an ability to repay the loan.

(c) TERM OF LOANS.—A storage facility loan described in subsection (a) shall—

(1) have a minimum term of 7 years; and

(2) be in such amounts and on such terms and conditions (including terms and conditions relating to downpayments, collateral, and eligible facilities) as are normal, customary, and appropriate for the size and commercial nature of the borrower.

SEC. 1403. FLEXIBLE MARKETING ALLOTMENTS FOR SUGAR.

Part VII of subtitle B of title III of the Agricultural Adjustment Act of 1938 (7 U.S.C. 359aa et seq.) is amended to read as follows:

"PART VII—FLEXIBLE MARKETING ALLOTMENTS FOR SUGAR

"SEC. 359a. DEFINITIONS.

"In this part:

"(1) MAINLAND STATE.—The term 'mainland State' means a State other than an offshore State.

"(2) OFFSHORE STATE.—The term 'offshore State' means a sugarcane producing State located outside of the continental United States.

"(3) STATE.—Notwithstanding section 301, the term 'State' means—

"(A) a State;

"(B) the District of Columbia; and

"(C) the Commonwealth of Puerto Rico.

"(4) UNITED STATES.—The term 'United States', when used in a geographical sense, means all of the States.

"SEC. 359b. FLEXIBLE MARKETING ALLOTMENTS FOR SUGAR.

"(a) SUGAR ESTIMATES.—

"(1) IN GENERAL.—Not later than August 1 before the beginning of each of the 2002 through 2007 crop years, the Secretary shall estimate—

"(A) the quantity of sugar that will be consumed in the United States during the crop year;

"(B) the quantity of sugar that would provide for reasonable carryover stocks;

"(C) the quantity of sugar that will be available from carry-in stocks for consumption in the United States during the crop year;

"(D) the quantity of sugar that will be available from the domestic processing of sugarcane and sugar beets; and

"(E) the quantity of sugars, syrups, and molasses that will be imported for human consumption or to be used for the extraction of sugar for human consumption in the United States during the crop year, whether such articles are under a tariff-rate quota or are in excess or outside of a tariff-rate quota.

"(2) EXCLUSION.—The estimates under this subsection shall not apply to sugar imported for the production of polyhydric alcohol or to any sugar refined and reexported in refined form or in products containing sugar.

"(3) REESTIMATES.—The Secretary shall make reestimates of sugar consumption, stocks, production, and imports for a crop year as necessary, but no later than the beginning of each of the second through fourth quarters of the crop year.

"(b) SUGAR ALLOTMENTS.—

"(1) IN GENERAL.—By the beginning of each crop year, the Secretary shall establish for that crop year appropriate allotments under section 359c for the marketing by processors of sugar processed from sugar beets and from domestically produced sugarcane at a level that the Secretary estimates will result in no forfeitures of sugar to the Commodity Credit Corporation under the loan program for sugar established under section 156 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7272).

"(2) PRODUCTS.—The Secretary may include sugar products, whose majority content is sucrose for human consumption, derived from sugarcane, sugar beets, molasses, or sugar in the allotments under paragraph (1) if the Secretary determines it to be appropriate for purposes of this part.

"(c) PROHIBITIONS.—

"(1) IN GENERAL.—During any crop year or portion thereof for which marketing allotments have been established, no processor of sugar beets or sugarcane shall market a quantity of sugar in excess of the allocation established for such processor, except to enable another processor to fulfill an allocation established for such other processor or to facilitate the exportation of such sugar.

"(2) CIVIL PENALTY.—Any processor who knowingly violates paragraph (1) shall be liable to the Commodity Credit Corporation for a civil penalty in an amount equal to 3 times the United States market value, at the time of the commission of the violation, of that quantity of sugar involved in the violation.

"(3) DEFINITION OF MARKET.—For purposes of this part, the term 'market' shall mean to sell or otherwise dispose of in commerce in the United States (including the forfeiture of sugar under the loan program for sugar under section 156 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7272) and, with respect to any integrated processor and refiner, the movement of raw cane sugar into the refining process).

"SEC. 359c. ESTABLISHMENT OF FLEXIBLE MARKETING ALLOTMENTS.

"(a) IN GENERAL.—The Secretary shall establish flexible marketing allotments for sugar for any crop year in which the allotments are required under section 359b(b) in accordance with this section.

"(b) OVERALL ALLOTMENT QUANTITY.—

"(1) IN GENERAL.—The Secretary shall establish the overall quantity of sugar to be allotted for the crop year (in this part referred to as the 'overall allotment quantity') by deducting from the sum of the estimated sugar consumption and reasonable carryover stocks (at the end of the crop year) for the crop year, as determined under section 359b(a)—

"(A) 1,532,000 short tons, raw value; and

"(B) carry-in stocks of sugar, including sugar in Commodity Credit Corporation inventory.

"(2) ADJUSTMENT.—The Secretary shall adjust the overall allotment quantity to avoid the forfeiture of sugar to the Commodity Credit Corporation.

"(c) MARKETING ALLOTMENT FOR SUGAR DERIVED FROM SUGAR BEETS AND SUGAR DERIVED FROM SUGARCANE.—The overall allotment quantity for the crop year shall be allotted between—

"(1) sugar derived from sugar beets by establishing a marketing allotment for a crop year at a quantity equal to the product of multiplying the overall allotment quantity for the crop year by 54.35 percent; and

"(2) sugar derived from sugarcane by establishing a marketing allotment for a crop year at a quantity equal to the product of multiplying the overall allotment quantity for the crop year by 45.65 percent.

"(d) FILLING CANE SUGAR AND BEET SUGAR ALLOTMENTS.—

"(1) CANE SUGAR.—Each marketing allotment for cane sugar established under this section may only be filled with sugar processed from domestically grown sugarcane.

"(2) BEET SUGAR.—Each marketing allotment for beet sugar established under this section may only be filled with sugar domestically processed from sugar beets.

"(e) STATE CANE SUGAR ALLOTMENTS.—

"(1) IN GENERAL.—The allotment for sugar derived from sugarcane shall be further allotted, among the States in the United States in which sugarcane is produced, after a hearing (if requested by the affected sugarcane processors and growers) and on such notice as the Secretary by regulation may prescribe, in a fair and equitable manner as provided in this subsection and section 359d(b)(1)(D).

"(2) OFFSHORE ALLOTMENT.—

"(A) COLLECTIVELY.—Prior to the allotment of sugar derived from sugarcane to any other State, 325,000 short tons, raw value shall be allotted to the offshore States.

"(B) INDIVIDUALLY.—The collective offshore State allotment provided for under subparagraph (A) shall be further allotted among the offshore States in which sugarcane is produced, after a hearing (if requested by the affected sugarcane processors and growers) and on such notice as the Secretary by regulation may prescribe, in a fair and equitable manner on the basis of—

"(i) past marketings of sugar, based on the average of the 2 highest years of production of raw cane sugar from the 1996 through 2000 crops;

"(ii) the ability of processors to market the sugar covered under the allotments for the crop year; and

"(iii) past processings of sugar from sugarcane, based on the 3-year average of the 1998 through 2000 crop years.

"(3) MAINLAND ALLOTMENT.—The allotment for sugar derived from sugarcane, less the amount provided for under paragraph (2), shall be allotted among the mainland States in the United States in which sugarcane is produced, after a hearing (if requested by the affected sugarcane processors and growers) and on such notice as the Secretary by regulation may prescribe, in a fair and equitable manner on the basis of—

"(A) past marketings of sugar, based on the average of the 2 highest years of production of raw cane sugar from the 1996 through 2000 crops;

"(B) the ability of processors to market the sugar covered under the allotments for the crop year; and

"(C) past processings of sugar from sugarcane, based on the 3 crop years with the greatest processings (in the mainland States collectively) during the 1991 through 2000 crop years.

"(f) FILLING CANE SUGAR ALLOTMENTS.—Except as provided in section 359e, a State cane sugar allotment established under subsection (e) for a crop year may be filled only with sugar processed from sugarcane grown in the State covered by the allotment.

"(g) ADJUSTMENT OF MARKETING ALLOTMENTS.—

"(1) IN GENERAL.—The Secretary shall, based on reestimates under section 359b(a)(3), adjust upward or downward marketing allotments in a fair and equitable manner, as the Secretary determines appropriate, to reflect changes in estimated sugar consumption, stocks, production, or imports.

"(2) ALLOCATION TO PROCESSORS.—In the case of any increase or decrease in an allotment, each allocation to a processor of the allotment under section 359d, and each proportionate share established with respect to the allotment under section 359f(c), shall be increased or decreased by the same percentage that the allotment is increased or decreased.

"(3) CARRY-OVER OF REDUCTIONS.—Whenever a marketing allotment for a crop year is required to be reduced during the crop year under this subsection, if, at the time of the reduction, the quantity of sugar marketed exceeds the processor's reduced allocation, the allocation of an allotment next established for the processor shall be reduced by the quantity of the excess sugar marketed.

"(h) SUSPENSION OF ALLOTMENTS.—Whenever the Secretary estimates or reestimates under section 359b(a), or has reason to believe, that imports of sugars, syrups or molasses for human consumption or to be used for the extraction of sugar for human consumption, whether under a tariff-rate quota or in excess or outside of a tariff-rate quota, will exceed 1,532,000 short tons

(raw value equivalent) (excluding any imports attributable to reassignment under paragraph (1)(D) or (2)(C) of section 359e(b)), and that the imports would lead to a reduction of the overall allotment quantity, the Secretary shall suspend the marketing allotments established under this section until such time as the imports have been restricted, eliminated, or reduced to or below the level of 1,532,000 short tons (raw value equivalent).

"SEC. 359d. ALLOCATION OF MARKETING ALLOTMENTS.

"(a) ALLOCATION TO PROCESSORS.—Whenever marketing allotments are established for a crop year under section 359c, in order to afford all interested persons an equitable opportunity to market sugar under an allotment, the Secretary shall allocate each such allotment among the processors covered by the allotment.

"(b) HEARING AND NOTICE.—

"(1) CANE SUGAR.—

"(A) IN GENERAL.—The Secretary shall make allocations for cane sugar after a hearing, if requested by the affected sugarcane processors and growers, and on such notice as the Secretary by regulation may prescribe, in such manner and in such quantities as to provide a fair, efficient, and equitable distribution of the allocations under this paragraph. Each such allocation shall be subject to adjustment under section 359c(g).

"(B) MULTIPLE PROCESSOR STATES.—Except as provided in subparagraphs (C) and (D), the Secretary shall allocate the allotment for cane sugar among multiple cane sugar processors in a single State based on—

"(i) past marketings of sugar, based on the average of the 2 highest years of production of raw cane sugar from among the 1996 through 2000 crops;

"(ii) the ability of processors to market sugar covered by that portion of the allotment allocated for the crop year; and

"(iii) past processings of sugar from sugarcane, based on the average of the 3 highest years of production during the 1996 through 2000 crop years.

"(C) TALISMAN PROCESSING FACILITY.—In the case of allotments under subparagraph (B) attributable to the operations of the Talisman processing facility before the date of enactment of this subparagraph, the Secretary shall allocate the allotment among processors in the State under subparagraph (A) in accordance with the agreements of March 25 and 26, 1999, between the affected processors and the Secretary of the Interior.

"(D) PROPORTIONATE SHARE STATES.—In the case of States subject to section 359f(c), the Secretary shall allocate the allotment for cane sugar among multiple cane sugar processors in a single State based on—

"(i) past marketings of sugar, based on the average of the 2 highest years of production of raw cane sugar from among the 1997 through 2001 crop years;

"(ii) the ability of processors to market sugar covered by that portion of the allotments allocated for the crop year; and

"(iii) past processings of sugar from sugarcane, based on the average of the 2 highest crop years of crop production during the 1997 through 2001 crop years.

"(E) NEW ENTRANTS.—

"(i) IN GENERAL.—Notwithstanding subparagraphs (B) and (D), the Secretary, on application of any processor that begins processing sugarcane on or after the date of enactment of this subparagraph, and after a hearing (if requested by the affected sugarcane processors and growers) and on such notice as the Secretary by regulation may prescribe, may provide the processor with an allocation that provides a fair, efficient and equitable distribution of the allocations from the allotment for the State in which the processor is located.

"(ii) PROPORTIONATE SHARE STATES.—In the case of proportionate share States, the Secretary shall establish proportionate shares in a quantity sufficient to produce the sugarcane required to satisfy the allocations.

"(iii) LIMITATIONS.—The allotment for a new processor under this subparagraph shall not exceed—

"(I) in the case of the first crop year of operation of a new processor, 50,000 short tons (raw value); and

"(II) in the case of each subsequent crop year of operation of the new processor, a quantity established by the Secretary in accordance with this subparagraph and the criteria described in subparagraph (B) or (D), as applicable.

"(iv) NEW ENTRANT STATES.—

"(I) IN GENERAL.—Notwithstanding subparagraphs (A) and (C) of section 359c(e)(3), to accommodate an allocation under clause (i) to a new processor located in a new entrant mainland State, the Secretary shall provide the new entrant mainland State with an allotment.

"(II) EFFECT ON OTHER ALLOTMENTS.—The allotment to any new entrant mainland State shall be subtracted, on a pro rata basis, from the allotments otherwise allotted to each mainland State under section 359c(e)(3).

"(v) ADVERSE EFFECTS.—Before providing an initial processor allocation or State allotment to a new entrant processor or a new entrant State under this subparagraph, the Secretary shall take into consideration any adverse effects that the provision of the allocation or allotment may have on existing cane processors and producers in mainland States.

"(vi) ABILITY TO MARKET.—Consistent with section 359c and this section, any processor allocation or State allotment made to a new entrant processor or to a new entrant State under this subparagraph shall be provided only after the applicant processor, or the applicable processors in the State, have demonstrated the ability to process, produce, and market (including the transfer or delivery of the raw cane sugar to a refinery for further processing or marketing) raw cane sugar for the crop year for which the allotment is applicable.

"(vii) PROHIBITION.—Not more than 1 processor allocation provided under this subparagraph may be applicable to any individual sugar processing facility.

"(F) TRANSFER OF OWNERSHIP.—Except as otherwise provided in section 359f(c)(8), if a sugarcane processor is sold or otherwise transferred to another owner or is closed as part of an affiliated corporate group processing consolidation, the Secretary shall transfer the allotment allocation for the processor to the purchaser, new owner, successor in interest, or any remaining processor of an affiliated entity, as applicable, of the processor.

"(2) BEET SUGAR.—

"(A) IN GENERAL.—Except as otherwise provided in this paragraph and sections 359c(g), 359e(b), and 359f(b), the Secretary shall make allocations for beet sugar among beet sugar processors for each crop year that allotments are in effect on the basis of the adjusted weighted average quantity of beet sugar produced by the processors for each of the 1998 through 2000 crop years, as determined under this paragraph.

"(B) QUANTITY.—The quantity of an allocation made for a beet sugar processor for a crop year under subparagraph (A) shall bear the same ratio to the quantity of allocations made for all beet sugar processors for the crop year as the adjusted weighted average quantity of beet sugar produced by the processor (as determined under subparagraphs (C) and (D)) bears to the total of the adjusted weighted average quantities of beet sugar produced by all processors (as so determined).

"(C) WEIGHTED AVERAGE QUANTITY.—Subject to subparagraph (D), the weighted quantity of beet sugar produced by a beet sugar processor during each of the 1998 through 2000 crop years shall be (as determined by the Secretary)—

"(i) in the case of the 1998 crop year, 25 percent of the quantity of beet sugar produced by the processor during the crop year;

"(ii) in the case of the 1999 crop year, 35 percent of the quantity of beet sugar produced by the processor during the crop year; and

"(iii) in the case of the 2000 crop year, 40 percent of the quantity of beet sugar produced by the processor (including any quantity of sugar received from the Commodity Credit Corporation) during the crop year.

"(D) ADJUSTMENTS.—

"(i) IN GENERAL.—The Secretary shall adjust the weighted average quantity of beet sugar produced by a beet sugar processor during the 1998 through 2000 crop years under subparagraph (C) if the Secretary determines that the processor—

"(I) during the 1996 through 2000 crop years, opened a sugar beet processing factory;

"(II) during the 1998 through 2000 crop years, closed a sugar beet processing factory;

"(III) during the 1998 through 2000 crop years, constructed a molasses desugarization facility; or

"(IV) during the 1998 through 2000 crop years, suffered substantial quality losses on sugar beets stored during any such crop year.

"(ii) QUANTITY.—The quantity of beet sugar produced by a beet sugar processor under subparagraph (C) shall be—

"(I) in the case of a processor that opened a sugar beet processing factory, increased by 1.25 percent of the total of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years (without consideration of any adjustment under this subparagraph) for each sugar beet processing factory that is opened by the processor;

"(II) in the case of a processor that closed a sugar beet processing factory, decreased by 1.25 percent of the total of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years (without consideration of any adjustment under this subparagraph) for each sugar beet processing factory that is closed by the processor;

"(III) in the case of a processor that constructed a molasses desugarization facility, increased by 0.25 percent of the total of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years (without consideration of any adjustment under this subparagraph) for each molasses desugarization facility that is constructed by the processor; and

"(IV) in the case of a processor that suffered substantial quality losses on stored sugar beets, increased by 1.25 percent of the total of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years (without consideration of any adjustment under this subparagraph).

"(E) PERMANENT TERMINATION OF OPERATIONS OF A PROCESSOR.—If a processor of beet sugar has been dissolved, liquidated in a bankruptcy proceeding, or otherwise has permanently terminated operations (other than in conjunction with a sale or other disposition of the processor or the assets of the processor), the Secretary shall—

"(i) eliminate the allocation of the processor provided under this section; and

"(ii) distribute the allocation to other beet sugar processors on a pro rata basis.

"(F) SALE OF ALL ASSETS OF A PROCESSOR TO ANOTHER PROCESSOR.—If a processor of beet sugar (or all of the assets of the processor) is

sold to another processor of beet sugar, the Secretary shall transfer the allocation of the seller to the buyer unless the allocation has been distributed to other sugar beet processors under subparagraph (E).

"(G) SALE OF FACTORIES OF A PROCESSOR TO ANOTHER PROCESSOR.—

"(i) IN GENERAL.—Subject to subparagraphs (E) and (F), if 1 or more factories of a processor of beet sugar (but not all of the assets of the processor) are sold to another processor of beet sugar during a crop year, the Secretary shall assign a pro rata portion of the allocation of the seller to the allocation of the buyer to reflect the historical contribution of the production of the sold factory or factories to the total allocation of the seller.

"(ii) APPLICATION OF ALLOCATION.—The assignment of the allocation under clause (i) shall apply—

"(I) during the remainder of the crop year during which the sale described in clause (i) occurs (referred to in this subparagraph as the 'initial crop year'); and

"(II) each subsequent crop year (referred in this subparagraph as a 'subsequent crop year'), subject to clause (iii).

"(iii) SUBSEQUENT CROP YEARS.—

"(I) IN GENERAL.—The assignment of the allocation under clause (i) shall apply during each subsequent crop year unless the acquired factory or factories continue in operation for less than the initial crop year and the first subsequent crop year.

"(II) REASSIGNMENT.—If the acquired factory or factories do not continue in operation for the complete initial crop year and the first subsequent crop year, the Secretary shall reassign the temporary allocation to other processors of beet sugar on a pro rata basis.

"(iv) USE OF OTHER FACTORIES TO FILL ALLOCATION.—If the transferred allocation to the buyer for the purchased factory or factories cannot be filled by the production of the purchased factory or factories for the initial crop year or a subsequent crop year, the remainder of the transferred allocation may be filled by beet sugar produced by the buyer from other factories of the buyer.

"(H) NEW ENTRANTS STARTING PRODUCTION OR REOPENING FACTORIES.—

"(i) IN GENERAL.—Except as provided by clause (ii), if an individual or entity that does not have an allocation of beet sugar under this part (referred to in this paragraph as a 'new entrant') starts processing sugar beets after the date of enactment of this subparagraph, or acquires and reopens a factory that produced beet sugar during previous crop years that (at the time of acquisition) has no allocation associated with the factory under this part, the Secretary shall—

"(I) assign an allocation for beet sugar to the new entrant that provides a fair and equitable distribution of the allocations for beet sugar; and

"(II) reduce the allocations for beet sugar of all other processors on a pro rata basis to reflect the new allocation.

"(ii) EXCEPTION.—If a new entrant acquires and reopens a factory that previously produced beet sugar from sugar beets and from sugar beet molasses but the factory last processed sugar beets during the 1997 crop year and the new entrant starts to process sugar beets at such factory after the date of enactment of this clause, the Secretary shall—

"(I) assign an allocation for beet sugar to the new entrant that is not less than the greater of 1.67 percent of the total of the adjusted weighted average quantities of beet sugar produced by all processors during the 1998 through 2000 crop years as determined under subsection (b)(2)(C), or 1,500,000 hundredweights; and

"(II) reduce the allocations for beet sugar of all other processors on a pro rata basis to reflect the new allocation.

"(I) NEW ENTRANTS ACQUIRING ONGOING FACTORIES WITH PRODUCTION HISTORY.—If a new entrant acquires a factory that has production history during the period of the 1998 through 2000 crop years and that is producing beet sugar at the time the allocations are made from a processor that has an allocation of beet sugar, the Secretary shall transfer a portion of the allocation of the seller to the new entrant to reflect the historical contribution of the production of the sold factory to the total allocation of the seller.

"SEC. 359e. REASSIGNMENT OF DEFICITS.

"(a) ESTIMATES OF DEFICITS.—At any time allotments are in effect under this part, the Secretary, from time to time, shall determine whether (in view of then-current inventories of sugar, the estimated production of sugar and expected marketings, and other pertinent factors) any processor of sugarcane will be unable to market the sugar covered by the portion of the State cane sugar allotment allocated to the processor and whether any processor of sugar beets will be unable to market sugar covered by the portion of the beet sugar allotment allocated to the processor.

"(b) REASSIGNMENT OF DEFICITS.—

"(1) CANE SUGAR.—If the Secretary determines that any sugarcane processor who has been allocated a share of a State cane sugar allotment will be unable to market the processor's allocation of the State's allotment for the crop year—

"(A) the Secretary first shall reassign the estimated quantity of the deficit to the allocations for other processors within that State, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it and taking into account the interests of producers served by the processors;

"(B) if after the reassignments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity of the deficit proportionately to the allotments for other cane sugar States, depending on the capacity of each other State to fill the portion of the deficit to be assigned to it, with the reassigned quantity to each State to be allocated among processors in that State in proportion to the allocations of the processors;

"(C) if after the reassignments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity of the deficit to the Commodity Credit Corporation and shall sell such quantity of sugar from inventories of the Corporation unless the Secretary determines that such sales would have a significant effect on the price of sugar; and

"(D) if after the reassignments and sales, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

"(2) BEET SUGAR.—If the Secretary determines that a sugar beet processor who has been allocated a share of the beet sugar allotment will be unable to market that allocation—

"(A) the Secretary first shall reassign the estimated quantity of the deficit to the allotments for other sugar beet processors, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it and taking into account the interests of producers served by the processors;

"(B) if after the reassignments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity of the deficit to the Commodity Credit Corporation and shall sell such quantity of sugar from inventories of the Corporation unless the Secretary determines that such sales would have a significant effect on the price of sugar; and

"(C) if after the reassignments and sales, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

"(3) CORRESPONDING INCREASE.—The allocation of each processor receiving a reassigned quantity of an allotment under this subsection for a crop year shall be increased to reflect the reassignment.

"SEC. 359f. PROVISIONS APPLICABLE TO PRODUCERS.
